

## Bio 144: Marine Organisms -- Locating Reputable Sources

See *Library Class Links* on library web page.

**List your organism:** Add name variations as you find them (latin name, phylum, class, etc).

### Selected Reference Titles:

*Grzimek's Animal Life Encyclopedia*. -- Ref QL 7 .G7813 2003. ( & full-text online)

*Guide to Marine Mammals of the World*. -- Ref QL713.2 .N37 2002

*Marine Invertebrates of the Pacific Northwest*. -- Ref QL138 .K68 1987

\**Encyclopedia of Life Sciences* -- Ref QH 302.5 .E25 2002

\**Encyclopedia of Biodiversity*. -- Ref QH 541.15 .B56 E53 2001

*Encyclopedia of Fishes* -- Ref QL 614.7 .E535 1998

1. Identify two article(s), cite below using MLA or APA or CBE. (see class links)

a.

b.

2. Use info from above to lead you to reputable scientific or technical or government **websites**. (See class links.) Ask yourself?

- *Who is responsible for this site?*
- *Who is paying the bills?*
- *Why should I believe them?*

3. Search the **Cannell Library Book Catalog** and **Summit** for books about your organism. Try all forms of the name. Also, try *marine biology*, *marine organisms* and more general terms.

4. Search **EBSCO & ProQuest** for articles about your organism. Again, vary the names. Limit to full-text if it helps. You may use ILL form on front page to order articles.
