Vision
Extraordinary Education • Excellent Services • Engaged Learners • Enriched Community

Mission
Clark College provides opportunities for diverse learners to achieve their educational and professional goals, thereby enriching the social, cultural, and economic environment of our region and the global community.

Core Themes & Five-Year College Objectives

Focus on Learning
The College will focus on learning as the foundation for decision making with respect to planning, technology, location, instructional methods and successful outcomes. Learners will receive high-quality, innovative education and services that foster student success in achievement of their goals.

- Identify, offer, and support teaching and learning strategies that enhance student success.
- Increase the retention and progression of all students, with emphasis on first generation students.
- Refine and implement continuous improvement planning consistent with the “learning college” model.
- Provide all employees with opportunities for professional development.

Expand Access
The college will offer programs and services that are affordable and accessible to students of the community. Students will be provided flexible options for learning in locations that are accessible and resources that help make their education affordable.

- Provide appropriate support services and reduce procedural barriers to help students enroll in college.
- Expand options to increase the overall affordability of education.
- Expand online services across the college.
- Expand learning options by offering courses and services in various modalities, timeframes, and locations.

Foster a Diverse College Community
The college will provide programs and services to support the needs of diverse populations.

- Recruit, retain, and support a diverse student population and college workforce.
- Provide comprehensive training and educational resources to help all members of the college community interact effectively in a diverse world.

Respond to Workforce Needs
The college will provide educational services that facilitate the gainful and meaningful employment for students seeking training, retraining or continuing education. College programs and services will meet the economic needs of the community.

- Identify and support high-demand workforce needs.
- Identify and support emerging workforce needs, including technology training and green industry skills.
- Establish, maintain, and expand partnerships that support workforce needs.

Enhance College Systems
The College will continually assess, evaluate, and improve college systems to facilitate student learning.

- Improve college infrastructure to support all functions of the college.
- Develop and implement an effective advising system to enhance student success.
- Seek alternate resources, such as grants, philanthropy, and partnerships to fulfill the college mission.
- Refine, communicate, and implement a shared governance system.
- Integrate environmental sustainability practices into all college systems.

Disability Support Services
Clark College and the Disability Support Services (DSS) staff assist those with disabilities in pursuing their educational goals. The DSS staff is committed to assuring Clark College, its services, programs, and activities are accessible to individuals with disabilities. The institution takes seriously its responsibility to follow both the spirit and letter of all pertinent federal and state mandates.

If you are in need of accommodation due to a disability during any of the entry processes to Clark College or for your classes, contact DSS for assistance. Early contact with DSS personnel is essential.

Admissions/Welcome Center

Our Welcome Center is your first step whether you are a new, transfer or returning student. We provide information on how to become a student at Clark College. Our services include assistance with admissions procedures, residency information, campus tours, student orientation and referral to other services and programs.

All students intending to enroll at Clark College are required to submit an application for admission and pay a non-refundable application fee at least two (2) weeks prior to the start of the term. Refer to the campus calendar for application deadline dates. Application for admission is available on the Clark College website at www.clark.edu/quickstep.

Clark College admits anyone who is eighteen (18) years of age or a graduate of an accredited high school or the equivalent. Applicants who are under the age of eighteen (18) and without a high school diploma or equivalent may be considered for admission. Refer to the Exception to Admission (Underage Policy) section on page A4 for further details. Admission to the college does not guarantee admission to a specific area of study. Some programs require additional applications and are limited or competitive-entry programs. See additional information on page A4, under Health Occupations Programs.

The Running Start program has its own set of admission policies and procedures. Please refer to www.clark.edu/runningstart for more information.

Residency classifications for the purpose of tuition rates are determined by length of time a student has been permanently living in the state of Washington. Please refer to the Residency Classifications section on page A5 for detailed information.

New Student Admission

Students with no previous college experience need to submit an admissions application, provide a non-refundable application fee, and complete the COMPASS placement test. The placement test is available on a walk-in basis and is a non-timed, computer-based test. For further information, see the Placement Testing section on page A8. New students are also required to participate in Student Orientation before they are allowed to register for classes. For more information on orientation, refer to the Student Orientation section on page A9.

Transfer Student Admission

Students transferring from other colleges are required to submit an admissions application, provide a non-refundable application fee and complete the COMPASS placement exam if math and/or English was not completed at a previous college or university. Transfer students are required to participate in orientation before they may register for classes.

If a student intends to use previously earned credits towards a program at Clark College, an official transcript of their college records must be sent to the Registration Office at the time of application for admission. All admission materials become the property of the college and will not be returned to the student or forwarded to another institution.

Transfer credits are usually accepted by Clark College if such credits were earned at an institution accredited by a regional association recognized by the Council on Postsecondary Accreditation. Students should refer to section B of this catalog for information about non-traditional credits and the process for transcript evaluation.

Returning Student Admission

Returning Clark College students who are returning to Clark College after an absence of four (4) or more quarters must provide an updated application for admission prior to registration.

If a student has attended another college since their last enrollment at Clark College and wants to apply those credits to a Clark College program, an official transcript needs to be sent to the Registration Office. All admission materials become the property of the college and will not be returned to the student or forwarded to another institution.
Health Occupations Programs

The following programs are limited and/or competitive-entry and require completion of specific entrance requirements as well as submission of separate applications and application fees:

- Dental Hygiene
- Medical Assistant
- Medical Radiography
- Nursing
- Pharmacy Technician
- Phlebotomy

Refer to the Clark College website at www.clark.edu or section C of this catalog for further information. Because selection criteria are subject to change, the Clark College website is the most current source of information.

Exception to Admission (Underage Policy)

Clark College admits anyone who is at least 18 years of age, who is a graduate of an accredited high school or the equivalent, is a participant in Running Start, or participant in other approved programs designed for age-specific groups. Exception to this policy may be granted by the college for special consideration of underage individuals not participating in one of the above-mentioned programs. The college reserves the ultimate right to determine admission to the college and/or to enroll in certain classes.

Deadlines

Admission-application deadlines will generally be two weeks prior to the start of a new term. For the most up-to-date application information and other resources to begin the enrollment process at Clark College, please visit www.clark.edu/admissions.

International Student Admission

Clark College accepts qualified international students from around the world who wish to study in the U.S. using an F-1 student visa.

To be eligible for admission, applicants submit the international student application form, application fee and supplemental documents. International student admission information can be found on the International Programs Web page at: www.clark.edu/international.

Applicants must submit financial documentation with their application to prove that sufficient funds are available for their first year of study. Resources must cover cost of tuition, fees, books, medical insurance, living expenses and transportation. Medical insurance while in the U.S. is mandatory and will be added to the student’s bill each quarter.

Residency Classifications

To qualify for any of the residency classifications listed below, students must be U.S. citizens, resident aliens, refugees or non-immigrant aliens with visa classifications of A, E, G, H, I, K or L.

Residency Classification Definitions

Washington In-State Resident: a person who meets the qualifications of citizenship, has been living in the state of Washington for a minimum of 12 months prior to the beginning of the quarter and has taken actions to declare Washington as their state of permanent residence.

Washington Non-Resident Waiver: a person who meets the qualifications of citizenship and who has been living in the state of Washington for less than 12 months prior to the beginning of the quarter.

Non-Resident: a person who resides outside of the state of Washington and does not qualify for the Oregon Border Waiver; a person who does not submit the required documents for the Washington Non-Resident Waiver, Oregon Border Waiver or Oregon Border Opportunity Waiver.

Non-Resident Refugee: a person who holds Refugee-Parolee status and has established a domicile in Washington before the first day of the quarter.
Non-Citizen: a person who does not meet the qualifications of citizenship, regardless of their length of time domiciled in the state of Washington.

Oregon Border Waiver: a person who meets the qualifications of citizenship and who has been living in one of the 13 qualifying Oregon border counties for a minimum of 90 days prior to the beginning of the quarter.

Oregon Border Opportunity Waiver (HB1474): a person who meets the qualifications of citizenship, was living in a qualifying Oregon border county for at least 90 days immediately prior to moving to Washington state, has been living in Washington for less than 12 months and has taken all steps to declare Washington as their state of permanent residence.

Qualifying Oregon Border Counties: Columbia, Gilliam, Hood River, Multnomah, Clatsop, Clackamas, Morrow, Sherman, Umatilla, Union, Wallowa, Wasco or Washington.

Applying for Residency Reclassification

Students are granted residency classification based on the information provided on the initial admissions application. The student is responsible for submitting the appropriate application and supporting documentation to have residency reviewed for a reclassification to a new category. Applicants who are not U.S. citizens are required to submit a copy of their permanent resident card or I-94 for reclassification consideration. All residency reclassification requests and documentation are accepted until the 30th calendar day of the quarter. The college has ten (10) business days to review a completed application before making a decision on the reclassification request. If the application is approved, adjustments to the tuition will be applied to the quarter for which the reclassification was submitted. If the application materials are incomplete or received after the 30th calendar date, the request will be reviewed for the following quarter. Residency changes are not retroactive.

Supporting documentation is defined in two categories: proof of physical presence and proof of intent to remain in the state of Washington. Students applying for reclassification will be asked to provide these documents as part of their application materials. Acceptable types of documents are listed below.

- Proof of Physical Presence (one document required, showing at least 12 months)
  - Copy of mortgage closing statement for the home in which the student resides;
  - Copy of a rental/lease agreement for the home in which the student resides; or
  - Copy of rental receipts or mortgage payment receipts for the home in which the student resides.
- Proof of Intent to Remain (three documents required, each showing at least 12 months)
  - Valid Washington driver’s license;
  - Valid Washington voter registration;
  - Valid Washington vehicle registration (not title);
  - Proof of permanent full-time employment; or
  - Verification of checking, savings or safe deposit box accounts located at a bank in Washington

* Note that the Oregon Border Opportunity Waiver also requires proof of Oregon Border county residency in addition to the documents listed above. The Washington Non-Resident Waiver requires one piece of documentation from the list above, while the Oregon Border Waiver requires one piece of documentation from the list above from Oregon rather than from Washington. For additional details, refer to the directions on the application forms.

The forms are available online at www.clark.edu/admissions or by visiting the Welcome Center in Penguin Union Building room 002.

- **Washington Residency Reclassification Form**: used to apply for in-state status by those who did not reside in Washington state for at least 12 months prior to enrolling at Clark College.
• Border County Opportunity Application HB1474: used to apply for in-state status by those who qualify under the Oregon Border Opportunity Waiver guidelines.

• Washington Non-Resident Waiver: used to apply for the waiver by those who originally applied for admissions with a non-Washington state address and who have since moved to Washington and established a residency.

• Oregon Border Waiver: use to apply for the waiver by those who are residing in a qualifying Oregon border county.

Washington residency is governed by RCW.28B-15, RCW 46.16.028, RCW 46.20.021, WAC 250-18 and WAC 208-104-006. Contact the Admissions Office at 360-992-2107 with any questions you have regarding your residency status or how to apply for a reclassification. You can also visit our office in the Welcome Center, located in room 002 of the Penguin Union Building.

HB 1079 (Undocumented Person) Waiver

Effective July 1, 2003, Washington state law (HB1079) was changed to qualify certain students who are not permanent residents or citizens of the United States as eligible to pay resident tuition rates. To qualify, students must complete an affidavit declaring they have:

• Resided in Washington state for the three (3) years immediately prior to receiving a high school diploma, and completed the full senior year at a Washington high school, OR completed the equivalent of a high school diploma and resided in Washington state for the three (3) years immediately before receiving the equivalent of the diploma, AND

• Continuously resided in the state since earning the high school diploma or its equivalent AND

• Certify that they will file an application to become a permanent resident of the United States as soon as they are eligible to apply.

Active Duty Military

Active duty military stationed in the state of Washington, as well as their spouses and dependents, qualify as residents for tuition purposes. At the time spouses or dependent family members apply for admission, documentation such as a copy of the military ID card or other appropriate documents must be presented.

Washington National Guard

Washington National Guard members, as well as their spouses and dependents, qualify for resident tuition as long as they are domiciled in Washington.

Veterans Tuition Exemption

Contact the Veterans Affairs Office at 360-992-2112 for information regarding eligibility criteria for the Veterans Tuition Waiver. You must provide the original or certified copy of form DD214.

Tuition Waivers

Most tuition waiver guidelines and charges are set by the Washington state legislature and may change on an annual basis. Those eligible for waiver are listed below, under the departments that serve them.

• Registration Office
  • Clark College employee
  • Classified state employee or Washington Public Higher Education employee
  • Senior Citizen Gold Card
Placement Testing

Placement testing is the first step toward student success. As a community college, Clark serves a very diverse population with classes ranging from adult basic education to university transfer programs. Prior to taking the placement test, students must complete an application for admission and have paid the admissions application fee. Placement results from other institutions may be utilized to meet course prerequisites. A copy of the placement report or test transcript must be provided to Enrollment Services for interpretation of appropriate level.

The COMPASS placement test assesses writing, reading and mathematics skills, which helps determine the level of coursework for which the student is prepared as well as readiness for entry into specific programs.

All students entering the college for the first time are encouraged to complete placement testing. Placement testing is required for students wishing to enroll in English, reading, psychology, sociology and/or mathematics courses. Students should also complete their placement test prior to participating in Student Orientation.

The COMPASS test is not utilized like a traditional pass-or-fail test. There is no “passing” score. Scores indicate areas in which a student is strong and areas for improvement. The information will not be used to deny admission to the college.

Placement testing is offered on a walk-in basis at the Assessment Center, located in the Penguin Union Building, room 015. Testing hours are available at www.clark.edu/assessment or by calling 360-992-2588.

Placement Testing Retest Policy

All students are allowed an initial COMPASS placement test at no additional cost. COMPASS and ASSET scores are accepted and considered valid for two (2) years from the placement test date. After receiving the results, students have the following options:

a. Enroll in the courses into which they were placed.
b. Students may retest in any or all of the three (3) modules (writing, reading, or mathematics). Each module requires a separate fee. Students will then be placed into classes using the higher of the two (2) scores.

Retesting

After the initial retest, students do have the right to retest periodically. Individual modules may be taken once every three (3) months. Each module retest requires a separate fee. Once a letter grade is received, a student may not retest without the explicit permission of the Dean of that area. COMPASS and ASSET scores are considered valid for two (2) years from the placement test date.

COMPASS

Individual modules may be taken once every three (3) months. Each module retest requires a separate fee. Once a student has taken a mathematics, reading, developmental education or English class and received a grade of record (A - F, not W'), a retest will not be allowed in that subject area.

Distance Learning Proctoring

The Assessment Center provides proctoring services for students taking distance learning or correspondence courses. There is a fee for this service. Contact the Assessment Center at 360-992-2588 to discuss available proctoring options or visit www.clark.edu/assessment to download a proctor request form.

Foreign Language Placement

The Assessment Center offers placement into foreign language courses for students who already have a background in French, Spanish or German languages. The foreign language placement exams are computer-based and offered on a walk-in basis in the Assessment Center, located in the Penguin Union Building, room 015.

General Educational Development (GED) Testing

Clark College is an official General Educational Development (GED) testing site. The GED tests provide a high school credential to adults who have not graduated from a traditional high school. Participants in GED testing may go on to further their education at Clark College following the examination process or can participate in traditional college classes while completing the GED tests. Refer to page A3 for further information on the Admissions process.

The GED test is designed for adults who are 19 years old or above and who have not received a traditional high school diploma. Examinees who are 16 to 18 years old and wish to take the GED test must provide a high school release form from the school district in which they live.

The GED examinations are given in the following four (4) subject areas:

- Social Studies
- Science
- Mathematics
- Language Arts

Successful completion of each of these examinations leads to the issuance of a GED certificate.

The GED test is now offered in a computer-based format. In order to begin the process of obtaining a GED, participants may register online at www.GEDcomputer.com. The GED test must still be taken in person, at an official GED testing center. Examinees under the age of 19 must provide a high school release form to the Assessment Center to enable the online scheduling feature.

GED preparation classes are available through Clark College. Contact 360-992-2107 for further information.
Student Orientation

All new, transfer and returning students are required to complete a Student Orientation session before they are granted access to registration services. Students will gain valuable information about support resources, critical dates and policies, online tools and academic advising. For specific orientation requirements visit www.clark.edu/orientation.

Financial Aid

360-992-2153
www.clark.edu/finaid

The Financial Aid Office helps eligible degree and certificate seeking students obtain funding to meet their educational expenses at Clark College. Last year more than 12,000 students were awarded over $60 million in federal, state and institutional financial aid.

Eligibility Requirements

Students must meet the following eligibility requirements to be considered for federal, state, and institutional financial aid:

- Be U.S. citizen/national or eligible non-citizen
- Be registered with Selective Service (if required)
- Not be in default on a federal student loan
- Not owe a repayment on a federal grant
- Have a high school diploma or General Education Development (GED) Certificate

Types of Financial Aid Available

Financial aid includes grants, tuition waivers, work study, and student loans. The financial aid programs available to students at Clark College include:

Federal Pell Grant: Awarded based on financial need. Students may receive the Pell Grant for a maximum of three (3) full-time (12 credits or more) quarters per academic year. The grant is prorated for less than full-time enrollment. Eligibility is limited to a lifetime maximum of 18 full-time quarters.

Federal Supplemental Educational Opportunity Grant: Awarded based on exceptional financial need. The grant is available to students enrolled in six (6) credits or more per quarter.

Washington State Need Grant: Awarded to eligible Washington State residents up to the cost of tuition. Students may also receive funding to cover a small portion of child care expenses. Eligibility at Clark College is limited to eight (8) full-time quarters. Students who have earned an AA or AAS/AAT/AFA degree in the past five (5) years are not eligible to receive the State Need Grant.

College Bound Scholarship: Awarded in combination with other state financial aid to cover the average cost of tuition, fees, and a partial book allowance. The scholarship is available to students who sign up in the seventh or eighth grade and meet specific eligibility requirements. Information is available online at www.wsac.wa.gov.

Clark College Grants and Waivers

Clark College reserves a percentage of tuition revenue and offers these funds to Washington resident students in the form of institutional grants and tuition waivers. Clark College offers the following institutional grants and waivers:
Clark College Grant: Awarded to eligible Washington State residents based on financial need. The grant is available to students enrolled in three (3) credits or more per quarter.

Clark College Tuition Need Waiver: Awarded to eligible Washington State residents based on financial need to reduce the amount of tuition costs. The waiver is available to students enrolled in three (3) credits or more per quarter.

Clark College Non-Need Tuition Waiver: May be awarded to Washington State residents and non-residents with unusual circumstances who do not have sufficient resources to pay the cost of tuition. Eligibility is determined on a case-by-case basis by the Financial Aid Director and the Director's designees.

Federal and State Work Study: Awarded to Washington State residents based on financial need. Funds are earned through employment on and off campus. Students must be enrolled in at least six (6) credits per quarter.

Federal Student Loans: Educational loans are a form of financial aid that must be repaid with interest. Money borrowed must be used to pay for the cost of education. Students should review their educational costs and household budget before applying for loans so they know how much they need to borrow for the academic year. Students must be enrolled in at least six (6) program required credits per quarter to maintain eligibility.

There are two types of federal student loans: subsidized and unsubsidized. Students that are eligible for a subsidized loan are not charged interest while they remain in school. Interest starts accruing on subsidized loans after a student leaves school. With an unsubsidized loan, interest starts accruing at the time loan funds are disbursed. Students can choose to make interest payments while in school or delay interest payments until after they leave school.

Subsidized loan eligibility for new borrowers entering college on or after July 1, 2013 is limited. Eligibility for subsidized loans will be lost when students receive subsidized loans for 150% of the published time for program completion if they:

- Do not complete their program, or
- Continue in the same program, or
- Enroll in another program of equal or shorter length

Changes effective October 2014: First-year students borrowing loans will receive their first loan disbursement on the 31st day of the quarter. If the disbursement date falls on a weekend, the disbursement will be available on the following business day. The Financial Aid Office will be required to make two disbursements when a student requests, or is only eligible to receive, a one-quarter loan.

Students must be in good academic standing, as defined by the Financial Aid Satisfactory Academic Progress Policy, at the time funds are disbursed.

Application Process

Students begin the annual application process by completing the Free Application for Federal Student Aid (FASFA) online at www.fafsa.gov. The FAFSA is available each year in January and must be completed for the upcoming academic year that begins in July. Completing the FAFSA is the first step of the application process: Additional documents will be requested by the Financial Aid Office via student email. The student’s financial aid file will be considered complete and ready for processing when all requested documents are submitted to the Financial Aid Office. Students should complete their financial aid file as early as possible to allow sufficient time for processing and know what types of aid they are eligible to receive. The quarterly priority processing dates for academic year 2014-2015 are:

- Summer & Fall Quarter 2014 – May 14, 2014
- Winter Quarter 2015 – November 19, 2014
- Spring Quarter 2015 – February 18, 2015
Financial Aid Awards and Disbursements

The Clark College Financial Aid Office processes the student’s financial aid file and determines eligibility for grants, work study, and loans. Students are notified of their eligibility with an award letter to their student email account. All grants and tuition waivers included on the award letter are based on full-time (12 credits or more) enrollment. Grants and tuition waivers are prorated down prior to the start of the quarter for less than full-time enrollment. Loans included on the award letter are estimates. Because loans must be repaid with interest, an additional application is required, which can be completed after the award letter is received.

All financial aid awards are automatically used to pay tuition and fees. If the financial aid award is not sufficient to pay the tuition and fees in full, the student is responsible for payment of any remaining balance. If the financial aid award exceeds the cost of tuition and fees, the student will receive a disbursement. With the exceptions of summer quarter, financial aid disbursements are issued 1-2 business days before the start of the quarter. Summer quarter disbursements begin after July 1, 2014. To avoid delays in financial aid disbursements, students should finalize their academic schedule at least one week before the start of the quarter.

The Clark Debit Card

Through a partnership with HigherOne, Clark Debit Cards are issued to all Clark College students receiving financial aid. The debit card is mailed by HigherOne after the student has completed their financial aid file. The debit card should be activated upon receipt at www.clarkdebitcard.com to select how they wish to receive their quarterly financial aid disbursements.

Census Date

A student’s enrollment level for the quarter is established at the time funds are sent to HigherOne for disbursement. On the census date (the fifth day of the quarter), the student’s enrollment level is finalized and compared to the original enrollment level. No funding adjustments can be made after the census date.

If a student adds classes during the first week of the quarter and is entitled to additional funds, the Financial Aid Office will disburse the additional funds to the student’s Higher One option. Students who are eligible to receive additional funds will receive notification of refund disbursements from Higher One.

If a student drops to a lower enrollment level after their refund disbursement is released to Higher One, the student will be billed based on their change in enrollment. Money owed is identified as a Pell Grant overpayment. Students in an overpayment status will receive a bill by the end of the third week of the quarter at their Clark College student email address. If a tuition refund resulted from a drop in credits, it will be applied to the Pell Grant overpayment to help pay back any amount owed. Students who owe a Pell Grant overpayment will have 45 days to pay their debt in full or make arrangements to pay their debt. If, within 45 days, the student fails to pay in full or make arrangements to pay, the debt will be referred to ED Debt Resolution Services (www.myeddebt.com/borrower/). Students whose debt has been referred will no longer be eligible for financial aid, including grants, loans, and work study.

Even though students repay their debt, they will still be held responsible for their original enrollment level and could face financial aid warning or suspension based on finalized quarter enrollment level. The Clark College Census Date policy is available at http://www.clark.edu/admissions_fin_aid/fin_aid/documents/Census_Date_Disbursement_Policy.pdf

Financial Aid Satisfactory Academic Progress

Students must meet the Financial Aid Satisfactory Academic Progress (SAP) Policy requirements to remain eligible for federal, state, and institutional financial aid.

There are three standards of Satisfactory Academic Progress that are evaluated at the end of each quarter:

1. Grade Point Average (GPA) if both the quarterly and cumulative GPA fall below 2.0 the student will not have met the GPA requirement to remain in good standing. In addition, a student must have a minimum 2.0 cumulative GPA at the end of their sixth quarter of attendance.
II. **Maximum Timeframe** is measured to ensure students are taking required courses to complete their certificate or degree within 125% of the credits required for the program of study. All credits attempted at Clark College and accepted in transfer, regardless of whether or not financial aid was received, are included. Remedial coursework needed to reach program-required classes is counted toward maximum timeframe. Eligibility for remedial coursework is limited to 45 attempted credits.

III. **Pace of Progression** Students must complete all credits funded each quarter within their enrollment level (see chart below) and 67% of their attempted cumulative credits. All program credits, including transfer and remedial credits, will be taken into consideration whether or not aid was received. Grades F (Failed), I (Incomplete), U (Unsatisfactory), W (Withdrawal), Y (In Progress), N (audit), and R (repeat) will count as attempted credits.

<table>
<thead>
<tr>
<th>Registered Credits at Time of Disbursement</th>
<th>Good Standing</th>
<th>Warning</th>
<th>Suspension</th>
</tr>
</thead>
<tbody>
<tr>
<td>Full Time (12-19 credits)</td>
<td>12 credits per quarter</td>
<td>6 - 11 credits</td>
<td>5 credits or fewer</td>
</tr>
<tr>
<td>3/4 Time (9-11 credits)</td>
<td>9 credits per quarter</td>
<td>6 - 8 credits</td>
<td>5 credits per quarter</td>
</tr>
<tr>
<td>1/2 Time (6-8 credits)</td>
<td>6 credits per quarter</td>
<td>→</td>
<td>5 credits per quarter</td>
</tr>
<tr>
<td>Less Than 1/2 Time (1-5 credits)</td>
<td>All attempted credits per quarter</td>
<td>→</td>
<td>Less than all attempted credits</td>
</tr>
</tbody>
</table>

Students who do not meet Satisfactory Academic Progress can be placed on Financial Aid Warning or immediate Financial Aid Suspension. Students will be notified through their Clark College student email at the end of the quarter after grades have been posted.

**Grade Point Average**

If both quarterly and cumulative GPAs fall below 2.0 at the same time, students will not meet the GPA requirements to remain in good standing. In addition, students must have a minimum 2.0 cumulative GPA at the end of the sixth quarter of attendance.

**Financial Aid Warning**

Students will be placed on Financial Aid Warning for one quarter if:

- They do not complete the number of quarterly credits in their enrollment (see chart above), or
- They complete less than 67% of the cumulative credits attempted for their program, or
- Both quarterly and cumulative GPAs fall below 2.00 at the end of a quarter.

Students on Financial Aid warning are eligible for funding the following quarter of attendance. All Satisfactory Academic Progress Policy requirements must be met the following quarter to avoid financial aid suspension.

**Financial Aid Suspension**

Students will be placed on suspension if:

- Is on Financial Aid Warning or Probation and
  - Does not complete the number of credits in their enrollment level and/or
  - Does not meet 67% pace of progression and/or
  - Both quarterly and cumulative GPA fall below 2.0 at the end of the quarter
- Has a cumulative GPA below 2.0 at the end of the sixth (6th) quarter
- Has attempted 125% of the credits required for the program
- Has changed their degree more than two times
- Has failed to meet the requirements of an Educational Plan agreement
- Not all attempted credits are completed (as noted on the enrollment chart)

Students placed on suspension are not eligible for future financial aid which includes grants, loans and work-study.

**Regaining Financial Aid Eligibility**

When students lose eligibility due to lack of academic progress, there are two options to regain eligibility.

I. **Satisfactory Academic Progress Appeal:** Failure to maintain good academic standing may be the result of circumstances beyond the student’s control. If extenuating circumstances prevented the student from successfully meeting SAP requirements, they may submit an appeal.

Appeals must include the following:

1. Satisfactory Academic Progress Appeal Form.
2. Typed and signed statement explaining the circumstances, what has changed and the steps taken to ensure future academic success.
3. Supporting documentation confirming the extenuating circumstances presented in the statement.
4. A current degree worksheet completed and signed by the student and program advisor.

Students are limited to two appeals at Clark College. Appeals are reviewed by the Financial Aid Advisory Committee bimonthly and students are notified of their decision through student email. The Committee’s decision is final. If the appeal is approved, the Committee has the authority to restrict students to specific academic conditions. If approved, aid is reactivated based on available funding at the time the appeal is approved and may not reflect the original award. An approved appeal does not negate any repayment owed to the financial aid programs or Clark College.

II. **Request for Reinstatement:** If a student chooses not to appeal or has exhausted the two-appeal limit, they may submit a Request for Reinstatement when they have met all of the following conditions:

1. Cumulative GPA is 2.0 or higher
2. Enrolled in and completed a minimum of five (5) program-required credits
3. Pace of progression is 67% or higher

When attempting to reinstate, all credits in the reinstatement quarter must be completed. Grade of F (Failed), W (Withdraw), Y (In Progress), N (Audit), and R (Repeat) will hinder eligibility for reinstatement and may increase the number of credits needed to reinstate. If the reinstatement is approved, aid is reactivated based on the availability of funding at the time the reinstatement is approved. Students may be restricted to specific academic conditions and must remain in good academic standing to maintain continued eligibility. An approved reinstatement does not negate any repayment owed to the financial aid programs or to Clark College.

**Financial Aid Probation**

If a student's appeal is approved by the Financial Aid Advisory Committee, their financial aid will be reinstated on a probationary status. The Committee may specify an education plan or other academic restrictions. To avoid losing eligibility while on Probation students must meet all Satisfactory Academic Progress Policy requirements and all conditions of the approved appeal.

**Title IV Repayment Policy**

Students who receive financial aid are subject to the Federal Return of Title IV Policy. This policy is effective when a student withdraws or fails all credits. Students who attend through the 60% point of the quarter earn 100% of their aid and will not owe a repayment. Students who do not attend through the 60% point in the quarter may owe a repayment to the financial aid programs. The student’s withdrawal date is used to calculate repayment and is determined as follows:
Official Withdrawal: The date the student began the institution’s withdrawal process by officially notifying the institution in writing of their intent to withdraw.

Unofficial Withdrawal: The last date of attendance, defined as the last date of participation in an academic related activity, reported to the Financial Aid Office by the instructor or the midpoint of the period of enrollment. The latest date will be used to calculate the repayment.

Return of Funds

Funds are returned to the following Federal sources in order of priority, as established by Congress:

1. Unsubsidized Direct Loans
2. Subsidized Direct Loans
3. Direct PLUS Loans
4. Pell Grants
5. Supplemental Educational Opportunity Grants

There are six (6) basic steps to the formula for calculating the amount of funds that must be returned to the Title IV programs:

1. Determine the date of withdrawal and percentage of payment period attended by the student
2. Calculate the amount of Title IV aid earned by the student
3. Compare the amount earned and amounts disbursed to determine amount unearned
4. If amount earned is greater than amount disbursed, determine late disbursement
5. If amount earned is less than amount disbursed, determine amount of Title IV aid that must be returned
6. Calculate portion of funds to be returned by the institution and student

Both Clark College and the student have specific responsibilities under this policy. Students who owe a repayment will have 45 days to pay their debt in full or make arrangements to pay their debt. If, within 45 days, the student fails to pay in full or make arrangements to pay, the debt will be referred to ED Debt Resolution Services (www.mycddbt.com/borrower/). Students who fail to comply with the terms of their agreement to repay will immediately become ineligible for Title IV funds.

Requirements of 34 CFR 668.22 are available in the Clark College Financial Aid Office or the Clark College website at http://www.clark.edu/admissions_fin_aid/fin_aid/documents/CC_Refund_Repayment_Policy.pdf

State Need Grant Repayment Policy

Students receiving State Need Grant (SNG) are subject to the Washington State Need Grant repayment policy as defined by the Washington Student Achievement Council (WSAC). This policy is effective only if a student completely terminates enrollment by withdrawing or failing all credits. Students who remain enrolled through at least 50% of the quarter are considered to have earned 100% of the State Need Grant received and will not owe a repayment. Students who officially or unofficially withdraw before the 50% point of time will owe a repayment. The amount of the repayment is based on the date of official withdrawal or the last date of attendance as documented by the student’s instructors. Students will be billed 50% of State Need Grant considered unearned. Any unpaid debt will be referred to WSAC at the end of the academic year, June 30. Students are not eligible for Washington State Need Grant until the repayment has been paid in full.
Other Educational Resources Available

Scholarships

Funding for scholarships is made possible through the generous support of individuals and organizations. The Clark College Foundation is one of the largest community college foundations in the country and offers many scholarships to Clark College students each year.

The scholarship application is separate from the application for financial aid. The majority of scholarship applications are available in January through April, and funds are awarded for the following academic year.

Sponsored Programs

The Sponsored Programs office serves as a liaison between students and various governmental and community agencies that have authorized funding to pay for tuition, books, and supplies.

Eligibility Programs

The Clark College Eligibility Programs Office administers a variety of funding programs that are designed to support students who are pursuing vocational or technical non-transfer degree programs and certificate programs. Students enrolled in Adult Basic Education, English as a Second Language, and General Education Development classes may also be eligible. Resources available include:

Opportunity Grant

The Opportunity Grant program serves low-income students who are pursuing professional/technical programs that lead to high wage, high-demand jobs. Eligible students must be Washington State residents, meet income guidelines, and be enrolled in an approved program. Financial assistance with tuition, books, and mandatory fees may be available for those who qualify.

Worker Retraining

The Worker Retraining program serves students who have experienced unemployment, or who are displaced homemakers, and are pursuing professional/technical programs that provide them with the ability to re-enter the work force. Eligible students must live in Washington State and be enrolled in an approved program. Financial assistance with tuition, books, and mandatory fees may be available for those who qualify.

WorkFirst Financial Aid and Work Study

The WorkFirst program serves students who are receiving Temporary Assistance for Needy Families (TANF) and are pursuing professional/technical programs. Eligible students must live in Washington State and be enrolled in an approved program. Financial assistance with tuition, books and mandatory fees may be available for those who qualify.

On-campus WorkFirst Work Study job opportunities may also be available for those who qualify.

Basic Food Employment and Training (BFET)

The BFET program serves students who are receiving federal basic food benefits and are pursuing professional/technical programs. Eligible students must live in Washington State and be enrolled in an approved program. Students may be eligible to receive subsidized child care assistance through Working Connections/Department of Social and Health Services (DSHS). Financial assistance with tuition, books and mandatory fees may be available for those who qualify.
Veteran Education Resources  360-992-2711 or 360-992-2112

The Veterans Resource Center (VRC) serves as a liaison between Clark College and the U.S. Department of Veterans Affairs. Clark College is approved for VA Education Benefits under Chapters 33, 31, 32, 35, 1606, 1607, Veterans Retraining Assistance Program (VRAP) and Military Tuition Assistance (TA).

Eligible veterans and dependents must request quarterly certification for approved degree and certificate programs. Only courses required within the program will be funded. Audited courses are not eligible. Students are required to make satisfactory academic progress and should contact the Veterans Affairs Office prior to making any schedule changes. Visit www.clark.edu/admissions_fin_aid/fin_aid/veterans for a complete checklist of requirements.

Clark College is a Service Members Opportunity College (SOC). Credit for military experience may be granted toward general elective and specific vocational program coursework. Military training and experience granted for credit recommendations are based on the American Council of Education (ACE) guidelines for military training. Military experience is a non-traditional credit program. Students should refer to the Non-Traditional Credit Policy section of this catalog and contact the Veterans Affairs Office for additional information.

Career Services  360-992-2902

www.clark.edu/cc/careerservices
online job database system: www.clark.edu/cc/penguinjobs

Career Services provides the resources and strategies for choosing a college major; developing career plans; finding jobs, internships and volunteer opportunities; and making successful career transitions. Resources include a computer lab, an extensive library of books and videos, and one-on-one appointments with career and employment specialists. Services are free and open to students, former students and the general public.

Career Center resources:

- Assistance in assessing personal skills and interests to explore career options or select a course of study.
- Detailed descriptions of more than 1,000 occupations and industries.
- Information about employment outlooks, labor trends, wages and job preparation.
- Databases of universities, technical training programs and scholarships in Washington, Oregon and the United States.
- Strong Interest Inventory and Myers-Briggs Type Indicator assessments including a career report and 90-minute small group interpretation of results.

Employment services and work experience opportunities for students:

- An online job database system, Penguin Jobs, on the Career Services website: www.clark.edu/cc/penguinjobs
- Institutional hire job referrals for on- and off-campus student employment opportunities.
- Local and statewide full- and part-time job listings.

Job search and employment preparation services:

- Assistance with resume writing, cover letters and interviewing skills.
- Job- and career-related workshops and resources.
Employer services:

- On-campus recruiting table, free of charge.
- Free advertisement of job and internship vacancies.
- Multiple career events each year, including targeted job fairs and employer guest speakers discussing various career fields.
- Opportunities to serve on college advisory boards.
- Equal opportunity guidelines are followed and applicants are referred on a non-discriminatory basis for all possible co-op, internship, volunteer or job placements.

Cooperative Education/Internship Work Experiences  360-992-2391

Clark College recognizes the value to students of actual experience in a work environment and has developed a nationally recognized program which allows credits to be earned for that experience under controlled conditions.

The purpose of Cooperative Education Work Experience (co-op) is to provide on-the-job experience that complements students' academic career goals and that furnishes an opportunity for career exploration. Co-op involves the faculty, student and employer in determining learning objectives and evaluating the student's progress in achieving those objectives. Students may use internship experiences to test their interest in a field or their fit in the work environment of a particular industry.

Equal Opportunity guidelines are followed and students are referred on a non-discriminatory basis for all possible cooperative education, practicum, clinical experience or job placements.

Volunteer & Service-Learning  360-992-2447  www.clark.edu/cc/volunteer

The purpose of the Volunteer & Service-Learning (VSL) program is to help members of the college community find appropriate volunteer and/or service-learning opportunities that foster growth and compliment students' academic goals. Students may use volunteer experiences to test their interest in a field or their fit in the work environment of a particular industry.

Volunteers act in recognition of a need and their efforts can be done on a one-time or ongoing basis. Service-learning is a method of education which combines community service with academic instruction as it focuses on critical, reflective thinking and civic responsibility.

Advising  360-992-2345  www.clark.edu/advising

The mission statement for Clark College advising is:

By providing accurate, timely and consistent information, Advising personnel at Clark College, in collaboration with faculty: guide, support, and help students develop lifelong learning skills, assist students as they plan and achieve their educational and career goals, and work with students to establish a lasting relationship with Clark College.

As a result of working with advising personnel, students will:

- Develop an understanding of their own educational pathway so that remaining classes and timeliness of completion are clear and accurate.
- Develop an educational plan that addresses academic, career, and life goals.
- Develop an awareness of their own personal responsibility within the advising process.
• Develop skills to successfully navigate and use campus services and tools.
• To ensure the communication of accurate program information to all Clark students, advising is required for all new degree and certificate students to Clark and at certain checkpoints during degree or certificate progress.

The advising system at Clark College is an educational process that assists students as they pursue educational, career, and life goals. It is expected that students will build relationships with advisors during their time at Clark College and, over the course of their degree or certificate, will attain the objectives listed above.

eLearning  
eLearning@clark.edu  
360-992-2654 or 877-748-2654  
www.clark.edu/eLearning

What is eLearning?

eLearning at Clark College provides options to students that give them the opportunity to attend classes beyond the traditional on-campus experience.

What type of classes and programs are offered?

eLearning offers a variety of classes that go towards many of the degrees and certificates available at Clark College. Currently eLearning offers the following program and degrees completely through eLearning:

1. AA General Transfer DTA: Fully online (AA Online), combination of eLearning courses and through the Weekend Degree program (WDP)
2. Business Administration DTA/MRP: Fully online and combination of eLearning courses

For information regarding any of these degrees or programs see www.clark.edu/eLearning or contact the eLearning department.

To see what eLearning class formats are offered, please go to www.clark.edu/eLearning/whatis.php.

How do I start an eLearning class?

eLearning classes follow the same campus policies and procedures as face-to-face classes; therefore, they have the same start and end dates, unless otherwise noted. This means students are expected to log into the Learning Management System (LMS) the first day of the quarter for class instruction.

Please visit the eLearning Getting Started page at www.clark.edu/eLearning/begin.php for information about starting an eLearning class.

Technical Requirements and Support

To see if you have appropriate technology for eLearning courses go to: www.clark.edu/eLearning/tech-reqs.php.

Technical support is offered at the TechHub for the following:

• LMS login and troubleshooting
• Computer lab and student wireless login and troubleshooting
• Mobile device connectivity
• Course-specific software and e-books
• eTutoring login
• Online student services
• Computer usage and troubleshooting
• Student Gmail

For information on TechHub's location and hours, please visit library.clark.edu/?q=content/techhub.

Registration

You’ve submitted your application. You’re ready to take The Next Step and register for classes. At Clark College, we offer registration online, and in person at the Registration Office located in Gaiser Hall. If you are a new or transfer student, you will be emailed information regarding orientation, meeting with an advisor and registering for classes after completing an application for admission and submitting it to the Admissions Office.

After your first quarter of attendance at Clark College, your registration access date/time can be found online prior to the beginning of the registration period for each quarter. A notification will be e-mailed to your Clark College e-mail address to let you know when registration access dates/times will be posted online each quarter.

Continuing student registration access dates/times are based on cumulative credits earned.

Priority registration access is given to eligible veterans under HB 1109. Qualifying students will receive access to registration services approximately one week prior to the continuing student population. Students approved for registration accommodation due to disability will also register during this time period.

Specific information on dates, deadlines, and hours of service can be found on the Clark College website at www.clark.edu.

Online Registration Services

The following services are available online for current Clark College students:

• Enrollment verification
• Schedule Planner
• Unofficial transcript
• Online Registration

• Change of address
• Student Global PIN change
• Waitlist inquiry
• Degree Audit (online degree audit)
• Registration access date/time
• Student schedule

You may conveniently enroll online each quarter by taking advantage of online registration. You will need your SID (student identification number) and your global PIN. By using online services you can also use our Schedule Planner tool to plan your class schedule. Schedule Planner allows you to select the most convenient times available for you to take classes and view available options at those times. Schedule Planner also offers a list of alternative classes and verifies your eligibility for classes requiring a prerequisite. Printing your class schedule and changing your address, phone, or e-mail are other convenient options available online at www.clark.edu.

Degree Audit

Clark College offers an online degree audit service to current Clark College students. By using Degree Audit, you are able to obtain an unofficial evaluation of credits you have earned at Clark College and credits you have transferred from other accredited institutions by submitting official transcripts during the admissions process. Degree Audit will evaluate your progress towards a Clark College degree and/or certificate. For an official evaluation of earned credits, students must submit an Evaluation Request to the Credential Evaluations Office in Gaiser Hall.

Registration Policies

Credit Maximum

Students may register online or in person for 0-20 credits. Students who wish to add excess credits (i.e., 21 or more) must make an appointment and obtain written permission from an advisor or counselor to register over the credit maximum.
Late Registration Policy

Beginning the third day of the quarter instructor permission is required to enroll into any regular starting class. Beginning the tenth day of the quarter (eighth day in summer), students are also required to submit a late registration petition with the instructor’s signature to enroll. The Late Registration Petition form is available at the Registration Office. Exception: Late starting classes, section changes and level changes.

Students who register after the tenth (10th) day of the quarter (eighth day in summer) will be charged a $50 per-class Late Registration Fee. A student whose enrollment change falls under the following circumstances will not be charged:

- Students who need to make a level change. Example: Moving from MATH 095 to MATH 089.
- Students who need to make a section change. Example: Moving from an online course to a face-to-face course.
- Students who wish to enroll in classes that are set up as continuous enrollment as opposed to sequential.
- Students who are enrolling in late-starting classes that start after the tenth (10th) day of the quarter.
- Students enrolled in ABE/GED/ESL courses.
- Students utilizing the Clark College employee tuition waiver.
- Students who enroll in zero (0) credit courses.
- Students who feel their situation warrants an exception to this fee may request to have this fee waived by completing an Exception to the Late Registration Fee request form. The final decision on any exceptions will be made at the discretion of the Registrar.

First Day Attendance Policy

It is essential that students attend the first class meeting of their courses. If a student is unable to attend due to an emergency or conflict of a serious nature, he or she should contact the instructor. If the instructor is not designated in the class schedule, the student should contact either the Division Office or the Office of Instruction who will direct the student appropriately. Students who fail to attend one (1) or more sessions during the first five (5) days of the quarter may be dropped from the class. Students who miss any classes during the first five (5) days are responsible for verifying their enrollment status.

Note: Students dropped by the college during the first five (5) days of the quarter will receive a full refund of tuition and fees, if due.

Dropping a Class and Withdrawal from the College

Students who find it necessary to withdraw from classes must do so formally. The withdrawal is effective on the date a Change of Registration form is processed at the Registration Office. The dates for dropping and/or withdrawing from classes are listed online.

- A class officially dropped before the tenth day (eighth day in summer) of the quarter will not be entered on the student’s transcript.
- After the tenth day and through the eighth week of the quarter, regular starting classes formally dropped at the Registration Office will be posted to the student’s transcript with a withdrawal grade of “W” assigned to the class.
- No withdrawals will be accepted after the last day of the eighth week of the quarter.
- For courses with unusual start and end dates, no withdrawals will be accepted after 80% of the class meetings have occurred.
• If the student decides not to attend, it is his/her responsibility to withdraw from all classes.
• No withdrawals will be accepted for a class that has ended.

Administrative Withdrawal: Students unable to withdraw by the end of the quarter due to extenuating circumstances should contact the Registration Office for information on requesting an Administrative Withdrawal.

Auditing a Class
Any student may enroll in a course on an audit basis with instructor’s written consent and upon payment of the regular tuition and fees. Audit students will be exempt from examinations and will not receive college credit; however, the instructor may require reasonable attendance and class participation. To change from credit to audit or audit to credit, the student must complete a Change of Registration form at the Registration Office. Such changes may be made only with the written consent of the instructor and must be processed by the end of the tenth day of the quarter (eighth day in summer).

Student Attendance Status
Clark College considers twelve (12) or more credits to be a full-time student. The definition of “full-time student,” however, may vary for certain agencies, such as Veterans Services, Financial Aid, Social Security, and insurance companies.

Student attendance status for Financial Aid and GI Bill is as follows:

**Financial Aid**
- Full-time student: 12 credit hours
- Three-quarter-time student: 9-11 credit hours
- Half-time student: 6-8 credit hours
- Less than half-time student: 1-5 credit hours

**GI Bill attendance status for fall, winter and spring quarters**
- Full-time student: 12 credit hours
- Three-quarter-time student: 9-11 credit hours
- Half-time student: 6-8 credit hours

**GI Bill attendance status for summer quarter**
- Full-time student: 8 credit hours
- Three-quarter-time student: 6-7 credit hours
- Half-time student: 4-5 credit hours
- Less than half-time: 3 credits or less

Absence
Students are expected to attend classes in which they are enrolled. Attendance may be a factor in grading for a course. When unavoidable absence occurs, it is the obligation of the student to notify the instructor and arrange for the make-up work deemed necessary by the instructor.

A member of the Washington National Guard or any other military reserve component, who misses any form of participation/attendance in a class due to being ordered to service for 30 days or less or requiring medical treatment for that service, is entitled to make up academic assignments without prejudice to the final course grade or evaluation. Documentation must be submitted prior to absence. Contact the Veterans Affairs Office for information.

Change of Address
In order to ensure receipt of important information, students must notify the college of any change of address. Offices that should be informed include Admissions, Financial Aid and Registration. Student Update forms are available at the Registration Office and online at [www.clark.edu](http://www.clark.edu).
Credit by Challenge

Students who have previously taken courses and have established a transcript record at Clark College are able to challenge a course. If a student believes that previous experience has provided them with the competencies essential for passing a course, they might request to challenge that course. Students may not be currently enrolled in the course they wish to challenge and may not challenge courses if they have completed a course with a higher degree of difficulty. Some courses may not be challenged. Courses and grades resulting from the challenge process will be posted to the student's transcript record at the end of the quarter in which the exam is proctored. Please contact the appropriate instructional department for more information.

Special Projects (Independent Study)

To provide for challenging learning experiences beyond regular course work, more advanced students may arrange to undertake special projects. With the approval of the division chair and under instructor supervision, students are given an opportunity to plan, organize, and complete independent study projects. Special projects are listed in the department course description section of the catalog as course number 290. No more than fifteen (15) credits in special projects will be allowed toward the associate in arts degree. Students are responsible to ensure that the credits earned do not exceed this limit and that credits earned will be accepted for transfer. Students should contact the instructor to register for a special projects course.

Tuition and Fees

The first payment due date is four (4) weeks prior to the quarter start date. Students who register Saturday through Friday must pay tuition and fees on the following Monday by 5:00 p.m. If a holiday falls on Monday, payment is due that Tuesday by 5:00 p.m. Students who register after the 10th day of the quarter must pay tuition by the end of the business day. Students receiving financial aid, scholarship, agency, or veterans benefits are responsible for paying outstanding tuition and fees by the tuition due date when aid is insufficient to cover the total cost. The Business Office will send email notification to students who owe tuition and fees. The amount due is also listed on the student’s registration schedule.

Students who do not pay tuition and fees will be dropped from their classes unless:

- The outstanding balance is $100 or less.
- A signed agreement to participate in the STEPP deferred payment plan has been submitted and payments are up to date.
- Registration for classes occurs after the 10th day of the quarter.

It is the responsibility of the student to officially withdraw from classes if they are unable to pay tuition and fees. A 100% refund will be issued through the fifth (5th) business day of each quarter.

Students with any outstanding debt owed to the college will:

- Be blocked from future registration.
- Denied the request for official transcripts.
- Any tuition and/or fees outstanding at the end of the quarter will be sent to Collections and a collection fee will be added.

Matriculation and Facilities/On-Campus Parking Fee*

Students are charged per credit hour to a maximum of twenty (20) hours for matriculation and facilities/on-campus parking.

Student Union Fee*

Students are charged per credit hour to a maximum of twenty (20) hours to support the construction of a student union (PUB).
Technology Fee*

Students are charged per credit hour to a maximum of twenty (20) hours for technology such as computer software, computer replacement, and technical lab assistance to maintain open computer labs. Other examples of technology available to students are online registration and student kiosks, and online services featured on the Clark College website.

*These fees are refundable on the same basis as tuition.

Additional Fees

Some courses may require payment of lab or course fees in addition to or instead of tuition. These fees help the college defray expenses not funded by the state. Fees are used for specific course expenses such as breakage, hazardous waste management, consumable supplies, special materials, minor repairs, and materials that become the property of the student.

Textbooks and Supplies

The Clark College Bookstore stocks required textbooks and supplies as requested by classroom instructors. Also available are many supportive suggested materials to assist in the student’s class preparation and participation. The store staff understands the financial impact of class materials, thus provides the lowest prices for new textbooks of any college in this region and diligently pursues and stocks as many used textbooks as possible, partly supplied from a quarterly student book buyback program. In addition, the store offers a number of other affordability services for Clark students, such as textbook and calculator rentals, hold services, peer-to-peer exchange and much more. To obtain current book and supply lists and receive assistance in cost estimating, please visit the Clark College Bookstore on the main Clark College campus or visit their website at www.clarkbookstore.com.

Financial Obligations of the Student

Students are expected to meet their financial obligations to the college. Clark College staff will act in accordance with adopted procedures and, if necessary, initiate legal action to ensure that collection matters are brought to a timely and satisfactory conclusion. Collection fees will be added to debts owed the college.

Admission to or registration with Clark College, or issuance of academic transcripts, and other college services, will be withheld for failure to meet financial obligations.

Refund Policy

A student who officially withdraws through the Registration Office may receive a refund of tuition and certain fees. The complete Refund Policy is printed in the college information section of this catalog and is available online at www.clark.edu/cc/FApolicies.

Students who believe extenuating circumstances justify an exception to the policy may make a formal request at the Registration Office. Exceptions may be granted for extreme, extenuating, urgent and unavoidable circumstances that prevent a student from withdrawing within the established guidelines. Students receiving Financial Aid may not qualify for exceptions to the refund policy due to federal financial aid guidelines.

A separate refund policy applies to classes offered by Basic Skills (ABE, GED and ESL), Community Education and Mature Learning classes. For more information see the Adult Basic Education, GED, English as a Second Language, Community Education or Mature Learning sections of the class schedule.
Grades and Records

Grade Legend

Clark College uses the grading symbols listed below. The grades A, B, C, and D may include pluses (+) and minuses (-).

- A 4.0
- A- 3.7
- B+ 3.3
- B 3.0
- B- 2.7
- C+ 2.3
- C 2.0
- C- 1.7
- D+ 1.3
- D 1.0
- D- 0.7
- F 0.0
- I Incomplete
- N Audit
- P Pass
- S Satisfactory (credit only, no grade points)
- U Unsatisfactory (no credit, no grade points)
- W Official withdrawal
- Y In process/re-register

Transfer of Grades

The grades assigned in transferable courses by the sending institution shall not be altered by the receiving institution. Courses completed with a grade of ‘D’ or above shall normally be accepted in transfer (except at The Evergreen State College, where a minimum of 2.0 or ‘C’ is required for transfer). Nontraditional grading practices require special handling, depending on the nature and circumstances of the program from which and to which a student is transferring, but receiving institutions shall take steps to assure all students equitable treatment.

Grade Information

Students enrolled in credit classes may obtain grade information approximately eight (8) days after the end of each quarter. Students may access grades at a college student information kiosk or through the Clark College website: www.clark.edu.

Grade Point Average (GPA)

Grade points are calculated by multiplying the number of credit hours for each course by the decimal grade appropriate for the grade earned. The quarterly GPA is computed by adding the total number of grade points for the quarter and dividing by the total number of credits attempted in courses that received a letter grade.
<table>
<thead>
<tr>
<th>Credit Hrs. Attempted</th>
<th>Grade</th>
<th>Grade Points Earned</th>
</tr>
</thead>
<tbody>
<tr>
<td>5</td>
<td>B+ = 3.3</td>
<td>16.5</td>
</tr>
<tr>
<td>3</td>
<td>C = 2.0</td>
<td>6.0</td>
</tr>
</tbody>
</table>

8 Total Credits 22.5 Total Grade Points

Dividing 22.5 by 8 computes to a grade point average of 2.81.

The student’s cumulative grade point average may be obtained by adding the total number of grade points for all quarters and dividing by the total number of credits attempted in the courses that received a letter grade.

Incomplete Grades

An incomplete grade indicates that the student performed at a passing level, completed most of the course requirements, and intends to make up the missing work. Incomplete grades may be assigned at the discretion of the instructor if the student is unable to complete the work because of illness or other circumstances beyond the student's control. When assigning an incomplete grade, the instructor must provide a date for which the work must be completed, and the grade that will be entered on the student’s transcript if the work is not finished on time. The incomplete grade remains on the student's transcript until the specified date or until the student completes the required work and the instructor submits an amended grade to the Registration Office.

In Process/Re-register

Students enrolled in variable credit or continuous enrollment courses may be given a “Y” grade if their effort is not sufficient to grant one (1) credit. Students must re-register and pay tuition to continue the course. A “Y” grade may also be used for courses which last more than one (1) quarter.

Pass/No Pass

Students may request to enroll in certain courses on a pass/no pass basis. Students must contact the Registration Office for information about courses approved for this option. No more than thirty (30) credits taken for pass/no pass will be allowed toward the associate in arts degree, associate in science degree, the associate in applied science degree, or the associate in applied technology degree. Students must earn a grade of “C” or better (2.00 GPA) to be given a “Satisfactory” grade in a pass/no pass course. An “Unsatisfactory” grade will be posted for students earning less than a “C” grade. Students planning to transfer to a university should contact that institution to determine their policy for acceptance of pass/no pass courses.

Repeating a Course

Some courses may be repeated to improve a grade earned, but credit will be granted only once. When students notify the Registration Office that a course has been repeated, the symbol “R” will be placed next to the first grade, and only the last grade earned will be used in calculating the grade point average. No courses may be repeated more than twice (defined as two repeats in addition to the original enrollment). The Clark College repeat policy does not apply to transfer coursework. Transfer coursework is not included in the Clark College GPA calculation and is not included in honors designation.

Students who plan to transfer to another institution should be aware that their GPA might be recomputed. Repeated courses will be received in accordance with the institution's own requirements and policies. Students receiving financial aid or Veterans benefits, or those participating in athletics, should consult those offices prior to repeating a course. Benefits or eligibility may be reduced or lost due to course repetition.

Setting Aside Past Record

Qualified students may set aside a previous substandard academic record that does not reflect their true ability at Clark College. Setting aside does not expunge the previous record, but places a "set aside" notation on the student’s
transcript, marking the term from which the college will calculate a new GPA for determining probation, eligibility, or honors at graduation. Students may not count credits set aside to fulfill credit requirements for graduation. Students should understand that the record to be set aside includes all courses taken before the date selected by the student, and those courses may not be used to satisfy future course prerequisites.

Students may set aside a previous record if:

- They have earned fifteen (15) credits at Clark College beyond the quarter to be set aside.
- They have a 2.50 GPA at Clark College for these credits.
- The work to be set aside is at least one (1) year old.

Petition forms are available at the Registration Office in Gaiser Hall.

Caution: Although Clark College makes provisions for setting aside past records, students should not assume that other colleges to which they transfer will compute the GPA in the same manner. Only the Clark College record can be set aside; the college cannot set aside records from other colleges. Financial aid students will still be subject to federal regulations that require that all attempted credits be counted toward completion of an initial degree.

Grade Change/Error

Students who believe an error has been made in recording their grades should contact the Registration Office. If a recording error has been made, it will be corrected. If an error was not made when grades were posted, the student should contact the instructor. Grade changes are made at the discretion of the instructor. A “Change of Grade Form” must be signed and submitted to the Registration Office by the instructor. Grade changes and corrections made for Veterans and Financial Aid recipients must also be reported to the Office of Veterans Affairs and/or the Financial Aid Office.

Grade changes must be made no later than the end of the second quarter following the quarter the student attended the class.

Grade Change/Academic Appeal Policy

An academic appeal refers to a claim by a student that a specific grade assigned to the student by an instructor is the result of an arbitrary or capricious application of otherwise valid standards of academic evaluation or to a student’s claim that the instructor has made an arbitrary or capricious decision or taken an arbitrary or capricious action which adversely affects the student’s academic standing.

The student must file a written complaint within ninety (90) calendar days after termination of the course. The appropriate instructional dean or supervisor may suspend this rule only under exceptional circumstances such as extended illness, sabbatical leave, or absence of one or both parties involved in the complaint. Grade appeal process forms are available through the instructional deans’ offices or the Office of Instruction.

Students having complaints relative to academic performance evaluation should follow the steps below:

Step 1: The student should complete a grade appeal process form and discuss the complaint with the instructor. If the complaint is not resolved, proceed to Step 2.

Step 2: The student should speak to the appropriate division chair. The division chair must notify the student within fifteen (15) working days of the resolution after the meeting with the student. If the student is not satisfied with the resolution, the student should proceed to Step 3.

Step 3: The student will provide a written statement describing the nature of the appeal to the instructional dean or supervisor. A meeting will then be scheduled with the student, the instructional dean or supervisor, and the instructor to discuss the appeal. The instructor will receive a copy of the student’s written material prior to the meeting. A decision by the dean or supervisor will be made within fifteen (15) days of the meeting. The decision by the dean or supervisor will be final and cannot be appealed further.
Academic Standards Policy

Clark College is committed to the academic success of its students. The primary purpose of the Academic Standards Policy is to quickly identify and alert students with low academic achievement and provide those students with assistance to improve their academic performance.

This policy applies to all students. Some individual college programs or funding sources may have additional requirements. Students in these programs should contact the appropriate program advisor for information regarding these requirements or check with an academic advisor if they have questions.

Students must earn a cumulative GPA of 2.0 or better to remain in good academic standing. The following consequences will be imposed progressively for students who are not in good academic standing:

- Academic Concern if cumulative GPA falls below 2.0 AND quarterly GPA is less than 2.0.
- Academic Intervention if cumulative GPA remains below 2.0 for the second consecutive quarter* AND quarterly GPA is less than 2.0.
- One (1) Quarter Academic Dismissal if cumulative GPA remains below 2.0 for the third consecutive quarter* AND quarterly GPA is less than 2.0.
- Four (4) Quarter Academic Dismissal if cumulative GPA remains below 2.0 for the fourth consecutive quarter* AND quarterly GPA is less than 2.0.

*Consecutive quarter is defined to mean the next quarter in which a student is enrolled even if a break in time occurs.

Note: Students will remain at currently assigned academic standard level if cumulative GPA remains below 2.0 but quarterly GPA reaches 2.0 or better.

Academic Standards Procedure

Academic Concern

If your cumulative GPA falls below 2.0 AND you did not achieve a quarterly GPA of 2.0 or better, you will be placed on Academic Concern.

- You will be sent an e-mail to your Clark student e-mail address that offers information about the Academic Standards process and tells you what happens at each stage.
- You will also receive a listing of college resources and a recommendation to take advantage of support and services available to you.

Academic Intervention

If your cumulative GPA remains below 2.0 for the second consecutive quarter AND you did not achieve a quarterly GPA of 2.0 or better, you will be placed on Academic Intervention.

- You will be required to attend either a group workshop or register for a specific Human Development class.
- You will be required to complete an academic success plan that outlines steps for improving your academic performance.
- You may lose the ability to carry a full course load.

One (1) Quarter Academic Dismissal

If your cumulative GPA remains below 2.0 for the third consecutive quarter AND you did not achieve a quarterly GPA of 2.0 or better, you will be placed on One (1) Quarter Academic Dismissal.

- You will be blocked from registering for classes while on One (1) Quarter Academic Dismissal.
- You will be sent an e-mail to your Clark student e-mail address that outlines the Appeal Process for One (1) quarter Academic Dismissal. To have a successful appeal, you must submit all documents
Confidentiality of Records

Clark College has adopted procedures in compliance with the Family Educational Rights and Privacy Act (FERPA) as amended, and maintains confidentiality of student records. College employees are trained to comply with information release guidelines.

With few exceptions, parties outside of school officials will not have access to student records without the written consent of the student. Clark College will not release a student's record to a parent/guardian without the student's written request. This policy is in effect regardless of the student's age or financial dependency upon the parent or guardian. The college may release student directory information without student consent. Directory information includes student name, student address, student e-mail, date of birth, major field of study, quarters of attendance, degrees and awards received, participation in activities and sports, and weight and height of members of athletic teams. Additional information regarding FERPA is found in section G of this catalog. In compliance with state law (SB5509) Clark College no longer uses the student's Social Security Number for the purpose of student identification. This law is intended to add additional protection to the student's identity.

The college will assign all students a Student Identification Number (SID). Students are required to use their assigned SID to access their records, register for classes, pay tuition, etc. For a copy of SB5509 or for additional information regarding this process, you may contact the Registration or Admissions Office.

Transcripts

A transcript of each student’s educational record is maintained in the Registration Office. An official transcript is signed by the Registrar, has the college seal attached and is provided in a sealed envelope. To obtain an official transcript, students should go online to www.studentclearinghouse.org to place an order. Transcripts will be mailed to any college, university or other agency upon receipt of the request within seven (7) business days. There is also a rush transcript option available. There is a fee for all official transcripts. For current fee information please go to our website or call 360-992-2287. Transcripts will not be faxed.

Students may obtain an unofficial transcript through the Clark College website, www.clark.edu; at student information kiosks; or by visiting the Registration Office in Gaiser Hall.

Vice President’s List

A Vice President’s List will be compiled at the end of each academic quarter to recognize outstanding student achievement at Clark College. In order to qualify for the list a student must earn at least twelve (12) credits of graded course work and a GPA of 3.75 or higher. The credits from courses in which a student receives an “I,” “S,” or “Y” will not count toward the twelve (12) credit minimum. Students who qualify for the list will receive a congratulatory letter from the Vice President of Instruction and a notation will be made on the student's transcript.
Academic Standards Procedure Chart

Academic Good Standing

- Cumulative GPA falls below 2.0.
  - YES: Academic Concern (AC)
    - Email sent to students informing them of Academic Standards Policy with list of resources and services.
  - NO: Academic Intervention (AI)

Academic Intervention (AI)

Cumulative GPA remains below 2.0 for 2nd consecutive quarter and quarterly GPA is less than 2.0.

1 Quarter Academic Dismissal (1Q)

- Blocked from registering.
  - Appeal process.
    - UNSUCCESSFUL OR NO APPEAL:
      - Academic Standards Committee approves course enrollment. Schedule meeting with designated staff at least six weeks prior to quarter for course enrollment approval. Continue on Academic Intervention status (Code = XQ) until cumulative GPA reaches at least 2.0.
    - SUCCESSFUL:
      - Sit out for one quarter. For re-entry, schedule Return to College appointment with designated staff at least six weeks prior to quarter. Continue on Academic Intervention status (Code = XQ) until cumulative GPA reaches at least 2.0.

Cumulative GPA remains below 2.0 for 3rd consecutive quarter and quarterly GPA is less than 2.0.

4 Quarter Academic Dismissal (4Q)

- Blocked from registering for classes. Sit out for 4 quarters.
  - No appeal available.
  - For re-entry, schedule Return to College appointment with designated staff at least six weeks prior to quarter. Continue on Academic Intervention status (Code = 4X) until cumulative GPA reaches at least 2.0.
requested including documentation of circumstances over which you did not have control. Decisions will be made and communicated to you before the first day of classes.

- If you do not appeal or if your appeal is denied, you will be administratively withdrawn and tuition will be refunded.

- You will also receive information about how to Return from One (1) Quarter Academic Dismissal. You must complete a Request to Return to College Form no later than six (6) weeks before the first day of classes for the quarter in which you plan to return. You will be notified about the process, expectations and time deadline to make an appointment to see a designated staff member. You must prepare a written plan in advance that includes the following items for your discussion with the staff member:
  - Your short-term educational goals
  - Specific plans to overcome barriers and improve your academic progress
  - Proposed course schedule

The designated staff member will review the plan with you and outline specific conditions you must meet for return from One (1) Quarter Academic Dismissal. Once the plan is finalized, you will return to Academic Intervention status.

Four (4) Quarter Academic Dismissal

If your cumulative GPA remains below 2.0 for the fourth consecutive quarter AND you did not achieve a quarterly GPA of 2.0 or better, you will be placed on Four (4) Quarter Academic Dismissal.

- You will be blocked from registering for classes while on Four (4) Quarter Academic Dismissal.

- If you enrolled for classes before academic dismissal status, you will be administratively withdrawn and tuition will be refunded.

- There is no appeal process.

- You will receive information about how to Return from Four (4) Quarter Academic Dismissal. You must complete a Request to Return to College Form no later than six (6) weeks before the first day of classes for the quarter in which you plan to return. You will be notified about the process, expectations and time deadline to make an appointment to see a designated staff member. You must prepare a written plan in advance that includes the following items for your discussion with the staff member:
  - Your short-term educational goals
  - Specific plans to overcome barriers and improve your academic progress
  - Proposed course schedule

The designated staff member will review the plan with you and outline specific conditions you must meet for return from Four (4) Quarter Academic Dismissal. Once the plan is finalized, you will return to Academic Intervention status.

Academic Standards Professional/Technical Programs

Students in certain professional/technical programs must receive grades of “C” or better in program core courses to advance in the program class sequences. Students should refer to the department description in section C of the catalog for further information.
The goal of Student Success Programs is to support the retention and success of all Clark College students, from the point of college entry to program completion. We use proactive, reactive, and data-informed strategies to provide intensive, targeted outreach and intervention designed to meet students at their points of need. We assist students with accessing and navigating the various spaces, resources, and strategies available at Clark and the surrounding community that are key for students to establish and achieve their academic goals.

As a unit within the Career Services department, the Student Success Programs staff is dedicated to helping students to identify, investigate, and achieve their long-term academic and career goals.

Key Services:

- Assistance to students with developing key critical thinking and problem-solving skills that will allow them to appropriately evaluate and respond to difficult academic, career, and life situations
- Targeted outreach and support related to Academic Early Warning (AEW) and Academic Standards Policy (ASP)
- Assistance to struggling students with locating appropriate academic resources and making informed enrollment decisions
- Reinstatement advising and support for students returning to the college
- Course and degree program planning for at-risk students
- Peer mentoring to help students navigate and access appropriate support resources and strategies that meet their unique needs
- Training and support for students, staff, and faculty on the Academic Standards Policy (ASP)

Academic Early Warning (AEW)

AEW is a resource that enables instructors to communicate with their students early in the quarter about any behaviors that are interfering with their success in class. The warning is intended to provide students with sufficient time to: 1) identify and correct problematic behaviors that are hindering success in class, 2) access appropriate campus resources, and 3) if necessary, withdraw from classes if circumstances prohibit successful completion of course work.

Students who receive an Academic Early Warning are encouraged to contact their instructors, trained AEW staff and peer mentors, and financial sources for strategies to improve course grades and guidance on course withdrawals.

College Life

Archer Gallery

Archer Gallery has been exhibiting fine art in Southwest Washington since 1978, consistently presenting an impressive list of artists and exhibits. Focusing on Northwest and Washington artists, the gallery also exhibits works by national artists. Featuring both established and emerging talents, the cultural, social, and ethnic diversity of the region is expressed in the exhibition schedule.

Archer Gallery is located on the lower level at the south entrance of the Penguin Union Building and features 2,000 square feet of exhibition space. All exhibits are free and open to students and the community. Support for the Archer Gallery is provided by the Associated Students of Clark College (ASCC), the Clark College Foundation, the college and donations from individuals. Archer Gallery is wheelchair accessible.
Athletics

Clark College Penguins 360-992-2691

Clark College is a member of the Northwest Athletic Association of Community Colleges (NWAACC), which coordinates and regulates both men’s and women’s athletics in Washington and Oregon. Clark sponsors intercollegiate teams for women in volleyball, cross country, basketball, track and field, softball, and soccer; and for men in soccer, cross country, basketball, baseball, and track and field. Students interested in intercollegiate sports should contact the Athletics Department.

Penguin Athletic Club 360-992-2301

Through individual, family, and corporate memberships, the Clark College Penguin Athletic Club (PAC) provides funding for athletic scholarships, special events and recognition for student athletes, coaching enhancements, and general support for all eleven (11) Clark teams competing for the Penguins. Membership in the PAC provides special discounts on both alumni and PAC events, free admission to all home regular season games, and the opportunity to utilize the Clark College Thompson Fitness Center for a nominal fee per quarter or per year. For more information, please contact the PAC office.

Bulletin Boards 360-992-2336

The majority of college bulletin boards are used for college or departmental information only. All bulletin boards are identified with the assigned posting monitor. The posting monitor is responsible for postings. The complete bulletin board guidelines and a listing of campus bulletin boards and their classification may be obtained from the Facilities Services Office located in the Facilities Services building (FST).

Signs or posters may not be placed on wood, glass, painted, plastered or metal surfaces. Only thumbtacks may be used on bulletin boards. Staples are not permitted. Materials placed improperly will be removed by college personnel.

Event Scheduling 360-992-2713

The hub of campus life is the Student Center in Gaiser Hall. This facility provides space for dances, concerts, dinner theater, lectures, and other college/community events. College rooms are available for small and large meetings of students, staff, and community groups. A use agreement will be sent to those contracting for college facilities outlining responsibilities and privileges. Space utilization cannot conflict with regularly scheduled classes or activities, and space is assigned on a first-come, first-served basis. There is a charge for use of college facilities by off-campus groups. To arrange for the use of any college space, contact the Event Scheduling Office.

Student Life 360-992-2441

The Office of Student Life (SL) coordinates programs, support services and activities that enhance the educational experience of a diverse student population and foster the intellectual and personal development of students on campus.

Student Life services and resources include:

- The Associated Students of Clark College (ASCC),
- The Activities Programming Board (APB),
- 50-plus events and activities each year including Welcome Week, Involvement Fair and Spring Thing – see our event calendar at www.clark.edu/student_life/events for more information
- Clubs, programs, committees and other student involvement opportunities
- Free coffee, Monday-Friday mornings
- Quick-stop computer lab
• Student-use kitchen including refrigerator and microwave
• Relaxing Game Room where you can enjoy massage chairs, board games, movies and more
• FREE Student Planner
• Water Bottle Filling Stations

For more information on any of these services, contact the Office of Student Life, located in the Penguin Union Building room 160, visit us online at www.clark.edu/student_life or connect with us on Facebook at Clark College Student Life.

Student Clubs and Programs

Student clubs and programs provide students with an opportunity to combine various aspects of academic, vocational and/or personal learning and allow students to apply the skills and responsibilities of leadership by becoming involved in the campus and community. With more than 50 student clubs and programs to choose from, you are bound to find something to match your interests. Student organizations may have an academic, national, cultural, political, activity and/or religious focus.

For an up-to-date list of involvement opportunities, visit our website at www.clark.edu/student_life.

Student Government – Associated Students of Clark College (ASCC)

Recognized by the Board of Trustees as the representative body of Clark College students, ASCC consists of a seven-member Executive Council that acts as a liaison between students, faculty, staff, administration and the community. They are charged with review and implementation of the ASCC Constitution and Bylaws, committee appointments, club promotion and approval, recruitment for student involvement, keeping students informed about legislative policies that directly affect them and oversight of the Services and Activities (S&A) fees. All enrolled students are members of ASCC and are thus eligible to participate in events and to serve as officers.

Activities Programming Board (APB)

With the group motto, “We run the fun!” this four-member group is charged with the creation of a comprehensive events calendar to include cultural, educational, family and social events for Clark students. Hosting 30+ events each year, including the annual Spring Thing event, it is easy to find an opportunity to relax, learn, and connect at Clark. To find out more about upcoming events visit: www.clark.edu/student_life/events.

Student Publications

The Independent

Working at The Independent offers students hands-on journalism experience. Working with one or more aspects of the newspaper (writing, editing, photography, layout, advertising, and business management) provides an introduction to the journalism profession as well as a means of earning credit. Some staff positions are paid. The Independent serves as a major communication link between students, student government, the faculty, staff and administration.

Phoenix

Phoenix, Clark College’s literary and arts magazine, is funded by ASCC to encourage the creative efforts of Clark College students. All Clark College students registered in the immediate spring, summer, fall or winter quarters prior to publication may submit fiction, poetry, flat artwork and photographs of three-dimensional work. Under the direction of the faculty advisors from English and from Art, staff members practice budgeting, marketing, writing, editing, judging and layout skills. Volunteer student staff members are welcome; some paid student staff positions exist.
The Clark College Bookstore, owned and operated by the college, is located in Gaiser Hall and stocks required textbooks and supplies as requested by classroom instructors. The staff vigorously supports student interests by maintaining the lowest possible price for textbooks of any college in this region; by diligently stocking as many used textbooks as possible; and by providing e-book and rental options whenever feasible. The store also sponsors a book buyback each quarter during finals week, allowing students to recover cash for textbooks that they no longer wish to keep.

The Bookstore strives to support the interests of the entire community by selling computer accessories, software (special student pricing on many items), logo items, apparel, gifts, cards, convenience food items, various reading (both for class and for relaxation) and reference materials including many test preparation items, and an extensive health reference and supply section. Reloadable Bookstore gift cards are available for purchase for student shopping convenience. Services provided include personal faxing, personal package shipment, notary public, special orders, sale of Clark College theatre tickets, USPS stamps, C-Tran bus passes, payment for parking and student ID tags, and an e-commerce site which fulfills student orders and holds.

Payment options at the store include Bookstore gift cards, cash, check with appropriate identification, and Visa, MasterCard or Discover charge cards. Refunds are granted with the required documentation and within a specified time frame. Returns require a receipt and the length of time allowed for a return is determined by the type of item being returned (specifics available in the Bookstore).

The Child and Family Studies program is located at the north end of the Clark College main campus. Child care and early education services with family support options are available to Clark College students, faculty, staff and the local community. Child care services are available for children twelve (12) months and walking through ten (10) years of age. Contact the program for more information or to arrange a tour. Services are available from 7:30 a.m. through 6:00 p.m. Monday – Friday.

Students enrolled in credit classes may use the open computer lab facilities at Clark College. Students are required to use their college-supplied network account to access computer resources in the labs.

Open computer labs are available at the following locations:

- Anna Pechanec Hall, Rm. 102
- Cannell Library, Rm. 203
- Clark College at WSUV, Rm. 202
- Bauer Hall, Rm. 101
- Scarpelli Hall, Rm. 135 and Rm. 023
- Clark College at Columbia Tech Center, Rm. 203 and Rm. 219

Students may use personal computers and mobile devices to access the Internet and online services available through the Clark College website using the college wireless network. Wireless access is available in most college facilities. A network account is required to use the wireless network.
Computer Proficiency: A Statement to Students

Students at Clark College, in order to succeed here and in the communities outside the college, need to be familiar with and capable of using computers and computer software. Both upper division college work and the requirements of the workplace demand such skills. Many Clark College faculty will require students to access class materials on the Internet, use a word processor, e-mail and databases as part of regular course activities.

Students need to determine which computer skills are appropriate to their areas of study and take positive steps to acquire and use them early. In order to facilitate appropriate student access to computers and computer software, the college provides classrooms, labs, course work and library access where students can learn about and use these tools.

Students should contact their instructors, the college library, the Office of Student Affairs, the Associated Students of Clark College (ASCC), the Pathways Center, or the Advising and Counseling offices to find out what computer resources are available and when they can be accessed. Advisors, counselors, and faculty can assist students in choosing appropriate courses to help them achieve computer proficiency.

Counseling and Health Center

Located in the Health Sciences Building, the Counseling and Health Center supports student success by providing a range of professional counseling and medical services that are both affordable and conveniently available on campus. Counselors provide free, short-term, goal-focused counseling. They support students in self-development, goal-setting, and problem-solving to enhance student success. Career, academic, and personal counseling is available. Low-cost medical services are available on a limited basis. Services, pricing, and office hours are available at www.clark.edu/student_services/counseling. Self-care items (band aids, aspirin, ibuprofen, cough drops, etc.) are available free of charge.

Dental Hygiene Clinic

High-quality dental care is provided at a reduced fee by students under the direct supervision of licensed dental hygienists and dentists. Adults or children, five (5) years of age or older, are selected for care based on the educational needs of the students. Services provided may include exams, x-rays, scaling and polishing, sealants, fillings, tooth whitening, diet analysis, and personalized preventive education. Free screenings are available by appointment.

Disability Support Services

Clark College and Disability Support Services (DSS) staff assist those with disabilities in pursuing their educational goals. DSS staff is committed to ensuring that Clark College, its services, programs, and activities are accessible to individuals with disabilities. The institution takes seriously its responsibility to follow both the spirit and the letter of all pertinent federal and state mandates.

Clark College recognizes that traditional methods, programs, and services may need to be altered to assure full accessibility to qualified persons with disabilities. DSS is the primary focus of efforts by Clark College to assure nondiscrimination on the basis of disability. Through DSS, qualified persons with disabilities can address their concerns regarding attitudinal or procedural barriers encountered, as well as any need for academic adjustments and/or auxiliary aids to ensure equal access. DSS will provide information and auxiliary aids or services, as well as serve as a resource to the campus community in striving to make Clark College both an accessible and hospitable place for persons with disabilities to enjoy full and equal participation.

Emergency Procedures

The college’s emergency procedures are posted in posters displayed in all classrooms and offices, as well as on the clark.edu website.
Depending on the type of incident, mass notification may be delivered via office and classroom phones, active computer screens, active Smart Classroom screens, and in some areas, loudspeakers. Emergency Building Coordinators are posted in every building to assist with emergency protocols.

Exercises (drills) will be conducted several times each year to insure general preparedness. All members of the college community are expected to participate. When possible, advance notification of planned exercises will be circulated.

**Fitness Center**

The Thompson Fitness Center, located in the O’Connell Sports Complex (OSC), is free to students currently enrolled in an HPE, fitness trainer or PE class. The following individuals are eligible to use the fitness center during open times for a quarterly or annual usage fee, which is payable at the Cashier’s Office:

- Current full- and part-time Clark students;
- Clark employees, their spouses and children sixteen (16) years old and older;
- Penguin Athletic Club members, sixteen (16) years old and older; and
- Alumni Association members, sixteen (16) years old and older.

Completion of fitness center basics, circuit fitness and/or weight training class is recommended prior to using the fitness center.

**Food Service**

The Clark College Culinary Arts-Food Service program is suspending service while the college is renovating facilities and revamping curriculum. However, the Culinary Arts-Baking program continues to operate and offers a variety of bakery items in Gaiser Hall adjacent to the Student Center. All items are prepared by Baking students who are training for jobs in the industry. These services are available during the normal academic quarter, except during final exam week. Additionally, food carts serving various cuisines are located in the center of campus between Foster/Hanna Halls and Cannell Library. Snacks, light meals and beverages are also available from vendors in Bauer Hall, Joan Stout Hall and the Foster/Hanna lobby during the academic year. The Bookstore maintains a wide variety of convenience food and beverage items. Vending machines and microwaves can also be found in many locations.

**Health Insurance**

A low-cost private health insurance plan is available to all Washington state community college students through Summit America Insurance Company (www.summitamerica-ins.com/wssc). Students must be taking at least six (6) credits to qualify and may enroll for injury or injury/sickness coverage. An option to enroll dependents is also available. Brochures are available at the Counseling and Health Center in the Health Sciences building or at the Cashier’s Office in Gaiser Hall.

Health insurance is required for all international students and a separate plan is available. International students are advised to discuss their health insurance options with the Office of International Programs.

**Housing**

Campus housing is not available. While the college does provide a housing referral bulletin board, located in central Gaiser Hall, it does not assume the responsibility for screening rentals.

*Note:* International Programs does work with international applicants to secure housing for them and to place them in one of the following options:

- An apartment building shared with domestic and international students from the International Air Academy (two- or four-bed apartments);
• An apartment with single or double rooms close to campus; or
• A host family arrangement.

Please contact International Programs for details.

**Legal Consultation**

360-992-2404

Student Legal Services is a contracted program funded by ASCC that provides free, one-time legal consultation to students. A local, general-practice attorney provides multilingual legal counsel on family, criminal, and contract issues for students, as needed.

Thirty-minute consultation appointments are offered once a week through fall, winter and spring quarters, and can be arranged through the Student Life office, located in PUB 160. Please call 360-992-2404 to schedule an appointment.

**Library**

library.clark.edu 360-992-2151

Clark College Libraries provide resources to support the educational mission of Clark College. Located on the main campus Cannell Library provides students, faculty and staff with books, movies, and CDs. Cannell Library also has group study rooms and computer labs. Students attending classes at Columbia Tech Center can visit the Information Commons located on the second floor of the building in Room 219. Students are encouraged to ask librarians at either location for assistance using the wide range of in-print and online resources. Library faculty offer a variety of instruction sessions and workshops.

Through Summit, a shared catalog that combines the holdings of academic libraries in Washington, Oregon and Idaho students also have access to books, DVDs, videotapes, government documents and more. Direct online borrowing and an efficient courier service allows students to obtain books quickly and easily.

From the Libraries’ website (library.clark.edu), Clark College students, faculty and staff have online access 24/7 to thousands of resources, including electronic books, full-text journals and 64 electronic databases. Consult the library website or call 360-992-2151 for hours of service and other library information.

**Office of Diversity and Equity**

360-992-2355

The Office of Diversity and Equity is a realignment of services at Clark that deal with issues of diversity and equity. The function of the Office of Diversity and Equity is to support the accomplishment of the goals set out in the Diversity Plan adopted by Clark College in 2009. In addition, the Office of Diversity and Equity is equally committed to serving historically disadvantaged communities as they navigate Clark—as well as the entire Clark community as it engages in conversations around power, privilege, inequity, and diversity.

A Diversity Center has been established at Clark College. Its primary function is to be a welcoming and safe place for the entire Clark community—students, faculty, staff, and community members—to learn about and engage with issues of diversity, inclusion, power, privilege, inequity, and social justice. In addition, the Diversity Center serves as a resource on related issues, provides training and educational programs, hosts speakers and performers, and offers opportunities to connect with those who have felt disconnected in the past.

**Parking and Traffic Rules**

360-992-2133

Traffic and parking regulations at the college are authorized by the Board of Trustees and codified under the Washington Administrative Code. The enforcement of parking and traffic regulations is the responsibility of the Security/Safety Department.

Student parking on the Clark College campus is limited to open parking spaces. Open parking spaces are identified as lined spaces without any special labels. No permit is required to park in open parking. Restricted parking areas include faculty/staff (F/S) parking, visitor parking, and disabled person parking. No one may park in these areas without the proper permit or other authorization.
Drivers of vehicles on campus shall obey all regulatory signs, including stop signs and directional arrows, and shall comply with directions of campus security officers in the control of traffic and parking.

Any violations of the parking and traffic rules and regulations of the college may result in issuance of a monetary citation by the Security/Safety Department. Vehicle impounding, immobilization or transcript hold may result if vehicles are parked improperly or if fines are not paid.

The Security/Safety Department works continually toward safe and effective parking lot use. Concerns, suggestions and ideas for meeting the challenges of managing campus parking are always welcome. Students should contact the Security/Safety Department in Gaiser Hall for a complete copy of the Clark College Parking and Traffic Rules and Regulations, or for a copy of the Parking Survival Guide.

**Public Transportation**

Clark College is served by C-Tran, the Clark County Community Transit System, at the main campus, Clark College at WSU Vancouver, and Clark College at Columbia Tech Center. The Clark College main campus is currently served by three (3) bus lines which link the college to all parts of the city of Vancouver, Clark County, and to Portland, Oregon.

To encourage and enable transit ridership, the college funds and supports the BackPASS program. Through the BackPASS program, all registered Clark College students can purchase a BackPASS endorsement for their student body identification cards. The BackPASS will afford the student unlimited access to C-Tran service in Clark County. Students may receive only one subsidized BackPass per quarter. To facilitate use of the BackPASS, bus schedules, maps and other transit information can be found in several locations. C-Tran regularly participates in student orientations and hosts information booths on the main campus.

Van service is now available at a reduced rate to students with disabilities. Check with C-Tran for more details by calling 360-695-8918 (voice) or 360-695-2760 TTY.

Additional information about the BackPass program can be obtained from the Security/Safety Department in Gaiser Hall.

**Security/Safety Department**

Clark College Security/Safety works to provide a safe and secure environment in which members of the college community can pursue their educational goals and professional commitments. The department staff protects life and property, provides service and assistance to students, staff, and community members, provides fair and easy access to college facilities and assures compliance with campus regulations. The Security/Safety Department strives to offer proactive protection services to the college community. The department responds to the changing needs of the college by stressing prevention above response, planning above reaction, education above enforcement, and service above all.

The Security/Safety Department staffs a walk-up and phone-in service and information center, open extended hours during quarter sessions and for limited hours during breaks. Any time during open campus hours, security assistance may be contacted by coming to the Security-Information desk in Gaiser Hall, or by pressing the campus security number button.

The Security/Safety Department can provide informational and directional assistance, aid to stranded motorists, including jumpstarts and lockout service, security escorts across campus, crime prevention advice, and other general assistance to students and other members of the college community. The Security-Information Department also issues student body identification cards, and provides all information required by the Clery Act.

The Security/Safety Department works cooperatively with the Vancouver Police Department, the Clark County Sheriff’s Office, and the Washington State Patrol in emergency, dangerous, or volatile situations and in criminal investigations.
Student Ambassadors and the Campus Visit Program 360-992-2078

Student Ambassadors are current Clark College students who are here to assist you with the admissions and orientation process of starting at Clark. Student Ambassadors are also available to take you on a campus tour so you can begin to become familiar with campus. Taking a campus tour with a current student is a great way to hear the student perspective of being at Clark.

Student Discounts

A list of merchants that offer discounts can be found at the Security/Information Office in Gaiser Hall.

Student ID Cards

A student photo identification card is available to students for a minimal fee. The ID card provides free or discounted admission to events and may offer discounts at local businesses. ID cards may be purchased through the Clark College Bookstore or the Cashier’s Office. Present receipt and valid picture identification to Security/Information Department to obtain ID. A student ID card is required to gain access to the Fitness Center (either when access is for certain classes in which a student is currently enrolled, or when a student has purchased access to the Fitness Center through the Cashier’s Office).

Tutoring and Writing Centers 360-992-2253

The Tutoring and Writing Center, located in Hawkins Hall room 102, offers tutoring services free of charge to all registered Clark College students. Peer tutors recommended by faculty provide help in most subject areas. Students are encouraged to visit the Tutoring Center early in the quarter to request help and to check posted tutor schedules. Tutoring is also available in Applied Arts 4 room 106 for all Accounting, Economics, and Business classes. Tutoring for World Languages, ESL, and ENL is available in Bauer Hall room 101. Assistance in both locations is available on a drop-in basis; schedules are posted each quarter. Tutoring is also available at Columbia Tech Center room 336 and online at www.eTutoring.org.

The Writing Center, housed within our Tutoring Center in Hawkins Hall room 102, is open to the entire campus community to provide free one-on-one tutoring with all different subjects. Writing tutors suggest strategies and teach principles to help students evaluate and revise their own writing and become more effective writers. Both appointments and drop-in hours are available.

Veterans Affairs 360-992-2073

vetresources@clark.edu www.clark.edu/cc/veterans

Located in Gaiser Hall room 216, the Veterans Resource Center houses certifying officials and friendly Vet Corps Navigators. It also provides computer stations, as well as advising and community space. Veterans are encouraged to visit the center to receive information and assistance regarding:

- Benefit Applications and Procedures
- GI Bill Certification
- Community Support
- Academic Coaching
- Transition Services
- Campus & Community Resources
- Campus-wide Training
- Veterans Club
The academic programs of study at Clark College are approved by the Washington State's Higher Education Coordinating Board's State Approving Agency (HECB/SAA) for enrollment of persons eligible to receive educational benefits under Title 38 and Title 10, US Code.

<tr>
<td>Adult Basic Education</td>
<td>360-992-2741</td>
</tr>
</tbody>
</table>

Adult Basic Education (ABE) classes are available for persons sixteen (16) years or older (16- to 18-year-olds must have a high school release). ABE offers classes in reading, writing, and math. There is a quarterly tuition charge. Classes are held on campus and other sites in the community.

**Student Learning Center**

The Student Learning Center at TBG 228 supports ABE/GED and ESL students with computer-based learning, tutoring and mentoring programs and educational workshops. One-on-one and small-group tutoring are available for adults learning English as a second language as well as for native English speakers who want to improve basic reading, writing and math skills. Available only for students with limited English or literacy skills. Hours: 9:00A – 7:00P—MT, 9:00A – 6:00P—W’Th, 9:00A – 1:00P—F.

**English as a Second Language**

Classes are for non-native speakers who want to communicate more effectively in English. Classes are held at various times during the day and evening. There is a quarterly tuition charge to students. Most classes are held on campus, but some are held at community sites.

**GED Preparation**

GED preparation classes help prepare students to take all four (4) GED tests. Classes are available morning, afternoon and evening. (Evening classes are also available at other community sites.) Instruction includes timed practice testing. There is a quarterly tuition charge.

**Pathways Center**

The Pathways Center supports Basic Education students as they transition to either professional/technical education or gainful employment. The center offers computer skills training; technology workshops; help with career and educational planning; and a staff of coaches for one-on-one support. Computers are also available for educational use to increase basic computer skills, basic academic skills and to gather career and educational information.

**Department of Corporate and Continuing Education**

The Department of Corporate and Continuing Education is the region’s premier provider of classes, seminars, certificate programs and training opportunities, serving both the business community and the residents of Southwest Washington. The department is dedicated to lifelong learning, personal enrichment and professional development for individuals moving up the corporate ladder or simply interested in acquiring a new skill.
The Department of Corporate and Continuing Education is comprised of the following program areas:

**Continuing Education** 360-992-2939

Continuing Education courses offer an array of personal enrichment and self-improvement courses designed to enhance your life and offer an opportunity to explore new interests. Taught by talented instructors, our non-credit courses make the most of the wide resources offered by Clark College. Continuing Education has something for everyone, with classes that cover such topics as computers, finance, world language and culture, dance, fitness and gardening. Many classes are appropriate for the whole family, and new classes are offered quarterly.

**Cooking and Wine School** 360-992-2163

The Cooking and Wine School, located at Clark College at Columbia Tech Center, offers fun and educational classes designed for the home cook, with a variety of demonstration and hands-on opportunities. In the well-appointed kitchen classroom, credentialed instructors educate about nutrition and world culture while building students’ skills. Classes contain a “green” emphasis to reflect the commitment to environmental sustainability found throughout the LEED-certified building. Additionally, skill-building courses for the burgeoning local wine and hospitality industry are offered. The space is also available for private rentals.

**Corporate Education** 877-473-1600

Clark College Corporate Education delivers high-quality, effective learning to public organizations and private businesses through customized training. The college is equipped with a large pool of talented, expert instructors and offers flexible, competitively priced training and consultation services.

Corporate Education staff works one-on-one with clients to identify specific needs and tailor training solutions accordingly. Classes can be delivered onsite at the workplace for optimal convenience and cost effectiveness. Or, if space or equipment is an issue, Corporate Education can provide training at on-campus classrooms and labs. The department also coordinates industry-wide consortia, seminars, certificate programs and grant-funded projects.

As Southwest Washington’s premier training provider, Corporate Education delivers innovative learning experiences that produce exceptional results.

**Mature Learning** 360-992-2213

Mature Learning is an educational and cultural enrichment program for persons fifty-five (55) years of age and older. The program provides an opportunity to learn in a relaxed atmosphere with no tests, grades or homework. A wide variety of courses are offered including fitness, art, writing, computers, sciences, history, creative writing, health, humanities and others. Most classes meet two hours a week, either on the main Clark College campus, at Columbia Tech Center, at the Corporate Education location in downtown Vancouver, or at other locations in the community. Mature Learning also provides travel and excursions to places of cultural, scientific and natural interest.

**Professional Development** 877-473-1600

The department offers business-focused classes, workshops and seminars that are specially designed to help individuals succeed in today’s rapidly changing world. A wide range of topics and disciplines are offered, from computers to information technology to customer service and leadership development. These classes are open to everyone and range from efficient one-time learning sessions to seminars and certificate programs. Courses and workshops help businesses and business professionals increase their knowledge, productivity, job satisfaction and career success.

**Workforce Education** 360-992-2780

Workforce Education provides a variety of training and education services that assist individuals pursuing a career pathway starting from Basic Education through certificate- and degree-completion. Integrated learning for Basic Skills students (IBEST) are available to help students gain basic skills while also learning the specific skills necessary for a professional career. Customized training opportunities sponsored under WorkFirst programming are available
for individuals who are currently receiving Temporary Assistance for Needy Families (TANF) from the Washington State Department of Social and Health Services. Career and technical education, as well as customized training, is available in several career-focused areas, and new program options, based on strong employability factors, are introduced each year. Partnerships with the public and private sectors such as the Southwest Washington Workforce Development Council, WorkSource Center-Vancouver, and advisory committees composed of representatives from local businesses, provide updated information that allow the college to offer training that is in demand and has wage and career growth potential. Apprenticeship programs provide tuition waivers for trainees participating in state-approved apprenticeship agreements.

General Information

Degrees & Certificates

Clark College awards five (5) degrees: the Associate in Arts degree, for completion of a program of study for transfer to a senior institution; the Associate in Science degree, for completion of a program of study in the sciences in preparation for transfer to a senior institution; the Associate in Fine Arts degree, for completion of a program in fine arts in preparation for transfer to a senior institution; the Associate in Applied Science degree for completion of a program of study in an occupational program; and the Associate in Applied Technology degree, for completion of a program of study in an occupational program. Each degree requires a minimum of ninety (90) credits and a minimum Grade Point Average (GPA) of 2.00. Certificates of Proficiency are awarded upon completion of a minimum of forty-five (45) credits of specialized occupational training, including general education requirements and require a minimum GPA of 2.00. Certificates of Achievement are granted upon completion of a program of specialized occupational training of less than forty-five (45) credits and require a minimum GPA of 2.00. Individual departments offer certificates of completion with varying credit requirements.

The grades assigned in transferable courses by the sending institution shall not be altered by the receiving institution. Courses completed with a grade of ‘D’ or above shall normally be accepted in transfer (except at The Evergreen State College, where a minimum of 2.0 or ‘C’ is required for transfer). Nontraditional grading practices require special handling, depending on the nature and circumstances of the program from which and to which a student is transferring, but receiving institutions shall take steps to assure all students equitable treatment.

A student may earn more than one career-technical degree and/or certificate at Clark College, and a student may earn a combination of academic and career-technical degrees and/or certificates. A student can also earn a Direct Transfer Agreement degree and an additional MRP degree (for instance a student can earn a degree in both Business Administration - MRP and an Associate in Arts - Transfer).

Academic Residency Requirements

In an effort to accommodate our mobile student population, Clark College has adopted a residency policy that recognizes the value of coursework completed from other institutions of higher learning.

To obtain a degree or certificate from Clark College, students are required to earn a minimum number of credits in residence at our institution. Clark College does allow students to transfer credits toward meeting degree or certificate program requirements. There is no restriction on the number of transfer credits allowed; however, students must meet the minimum in-residence credit at Clark College for their specific program.

Refer to the following information for specific requirements and restrictions for each type of program:

Associate Degree

A minimum of thirty (30) credits, pre-college or college level must be completed at Clark College at any time to meet Academic Residency.

Certificate of Proficiency

A minimum of fifteen (15) credits, pre-college or college level must be completed at Clark College at any time to meet Academic Residency.

Certificate of Achievement

A minimum of ten (10) credits, pre-college or college level must be completed at Clark College at any time to meet Academic Residency.

Non-traditional credit, course waivers and credit earned through prior learning assessment may not be included within the minimum number of credits required.
Academic Residency Requirements for Veterans

Clark College as a Servicemember Opportunity College (SOC) Consortium institution limits academic residency requirements for active-duty servicemembers to no more than 25 percent of the degree program (22.5 credits); recognizes all credit course work offered by the institution as applicable in satisfying academic residency requirements; and allows servicemembers to satisfy academic residency requirements with courses taken from Clark College at any time during their program of study.

Catalog Lifespan

Students may complete their degree(s) or certificate(s) under the requirements set forth in any catalog issued during their attendance at Clark College. However, no catalog will be valid for more than seven (7) years. Any student not in attendance at Clark College for two (2) or more calendar years is required to complete the program requirements of the catalog in effect at the time of their re-entry to the college. (WAC 132N-160-080)

Graduation Application Deadlines

Students must submit a graduation application to the Credential Evaluations Department in order to be awarded a degree or certificate upon the fulfillment of the completion requirements. Students are encouraged to submit the graduation application one quarter before they plan to complete all of their requirements. If students do not complete their degree or certificate requirements in the quarter of application, they must reapply.

The priority processing deadline for graduation applications is the tenth (10th) day of the quarter in which the student plans to finish degree or certificate requirements. Graduation applications submitted by the priority deadline will be processed first and assured the awarding of the degree or certificate for the requested quarter.

Graduation applications received after the priority deadline and through the eighth (8th) week of the quarter will be accepted; however, applications received during this non-priority period will be processed after all priority graduation applications have been reviewed and processed. Applications received during this period are not guaranteed to be processed in time to award the degree or certificate in that quarter.

Graduation applications received after the eighth (8th) week of the quarter will not be processed for that quarter and will be moved to the subsequent quarter for review. The awarding of degree or certificate will be posted to the student's transcript in the subsequent quarter.

Graduation Ceremony

Participation in Commencement Ceremonies

The June commencement is a ceremony for those students who have completed or plan to complete their degree or certificate during fall, winter, or spring of the current school year. Participation is not required. Candidates must file their graduation application and cap-and-gown order by the appropriate deadline to be eligible. Ceremony participation does not guarantee degree completion. Students completing their degree in the 2015 summer quarter may participate in Commencement of the following academic year.

Caps & Gowns

Only students who submit a Cap and Gown Order Form and Graduation Application will be allowed to participate in the Commencement ceremony. The Cap and Gown Order Form is available in the Advising Department and is given to students once they have submitted the graduation (program completion) application. The Cap and Gown Order Form deadline for submission will be published on the website. There is a fee for caps and gowns; please refer to the order form for current pricing. If you have received honors and would like to order honors regalia, there is an additional fee. Students who have submitted the Cap and Gown Order Form will receive detailed information in May regarding the process for ceremony participation and cap-and-gown disbursement.
Academic Honors

To be eligible for academic honors, students must have a minimum GPA of 3.40. Honors for the Associate in Arts degree and the Associate in Science-Transfer degree are based on the cumulative college-level GPA, while the Associate in Applied Science, Associate of Applied Technology and Certificate of Proficiency are based on the cumulative GPA. Students in the associate degree programs will earn the designation of “with honors” for a GPA of 3.40 to 3.89, and the designation of “with highest honors” for a GPA of 3.90 or higher. Certificates of Proficiency will be granted the designation of “with merit” for a GPA of 3.40 or higher (Certificates of Achievement are not eligible for honors designations). Those students participating in June ceremonies will receive recognition at the celebration based on their appropriate GPA on record at the end of winter quarter. If honor status changes once final grades are processed, adjustments will be made to the student record.

Distribution Coding

The following codes may be included in some course descriptions and indicate the applicability of the course toward the general education requirements of Clark College degrees and certificates.

Transfer Degrees

Associate in Arts (AA)

Associate in Arts – Major Related Program (MRP)

Associate in Fine Arts (AFA)

Associate in Science Transfer – Track 1 (AST 1)

Associate in Science Transfer – Track 2 (AST 2)
Associate in Science Transfer – Major Related Program (MRP)

Associate in Applied Science – Transfer (AAS-T) *(Early Childhood Education only)*

Washington 45 – One Year Transfer Courses

**Associate in Arts (AA) Degree Intent**

The Associate in Arts (AA) degree is designed for students planning to transfer to a four-year institution to pursue a bachelor’s degree program. The degree, in most cases, meets the first two (2) years of general education requirements at the senior institution. There are exceptions; please check with the transfer institution for additional information. Most students transferring with the AA degree will be granted junior standing upon entry to the senior institution.

The standard Associate in Arts degree is also known as a Direct Transfer Agreement (DTA) Associate degree.

**AA – DTA Degree Options:**

A student may not earn more than one (1) DTA degree at Clark College. Students are advised to carefully examine the differences in the degree requirements where there is more than one choice within a major field and be sure that their transfer intent is in line with the degree chosen. Please note that all AA – MRP listings above are Direct Transfer Agreements (DTA).

**AA – DTA**

- General Transfer
- Addiction Counselor Education
- Dental Hygiene
- Elementary Education – Transfer to WSU Vancouver
- Nursing – Transfer to WSU Vancouver

**AA – MRP**

- Biology
- Business Administration
- Math Education
- Pre-Nursing

**Transfer of Grades**

The grades assigned in transferable courses by the sending institution shall not be altered by the receiving institution. They also are not used in calculating students’ Clark GPA. Courses completed with a grade of ‘D’ or above shall normally be accepted in transfer (except at The Evergreen State College, where a minimum of 2.0 or ‘C’ is required for transfer). Nontraditional grading practices require special handling, depending on the nature and circumstances of the program from which and to which a student is transferring, but receiving institutions shall take steps to assure all students equitable treatment.

**General Requirements for All Associate in Arts Degrees**

- Complete a minimum of ninety (90) college-level credits.
- Maintain a minimum cumulative college-level GPA of 2.00 or higher.
- Thirty (30) credits minimum must be completed at Clark College to meet Academic Residency.
- Submit a graduation application by the appropriate deadline.
General Credit Restrictions

Credit by Department: Ten (10) credits maximum from any single department can be used to fulfill Humanities, Social Sciences and Natural Sciences distribution requirements.

World Language: Five (5) credits maximum in 100-level world language can be used to fulfill Humanities distribution requirements. Additional 100-level world language coursework can be used to meet Specified Elective requirements.

Debate Courses: Twelve (12) credits maximum in CMST 171, 172, 173, 271, 272, and 273 can apply toward the degree.

Physical Education Activity: Six (6) credits maximum in PE activity can apply toward the degree. Eligible Health/Physical Education courses (HPE) count as one (1) PE activity credit. PE credits can apply to the degree as follows:

- One (1) credit in PE activity
- Two (2) credits in Specified Electives
- Three (3) credits in General Electives

Other Applicable Credit Options:

- Advanced Placement (AP) and/or International Baccalaureate (IB): A maximum of sixty (60) credits from AP, IB or a combination of both, can be applied to a degree.
- College Level Examination Program (CLEP): Students may request up to fifteen (15) CLEP credits to be applied to a degree. Credits will be used to fulfill general elective requirements only.
- Course Challenge: Students may use credits earned from successful course challenges toward 25% of the degree or certificate. Credit by course challenge will meet academic residency requirements.
- Tech Prep/Direct Credit: Tech Prep/Direct Credit courses that are part of a professional program and fall into the restricted area in the DTA degree are limited to 15 credits. If Tech Prep/Direct Credit courses apply to a professional technical degree or certificate, there is no limit to the number of credits that can be applied.
- Cooperative Work Experience: No more than fifteen (15) credits may be applied to the associate degree.
- Special Projects: No more than fifteen (15) credits in Special Projects will be allowed toward the Associate in Arts degree.
- Military Experience: Credits may earned by previous military experience. Please contact the Veterans Affairs Office at Clark College for further information. Credit awarded for military experience may be granted for up to 25% of the degree and/or certificate.

Pass/Fail Grading Option: Sixty (60) credits maximum in courses with Pass/Fail grading option can apply toward the degree, with the exception of the AA Nursing degree which exceeds this limit because of clinical requirements.

General Restrictions

1. A course can apply toward only one (1) distribution requirement (i.e., Communication Skills, Quantitative Skills/Symbolic Reasoning Skills, Humanities, Social Sciences and Natural Sciences). The exception is for Oral Communications, which is a local degree requirement. When meeting the Oral Communications requirement, the same course can be applied to the degree requirement and to the distribution area.

2. Excess credits earned in distribution areas (i.e., Communication Skills, Quantitative Skills/Symbolic Reasoning Skills, Humanities, Social Sciences and Natural Sciences) can be used to fulfill the Elective requirements.

3. Credit by Challenge coursework will meet academic residency requirements.
Associate in Arts (AA) – General Transfer

General Education Requirements

Communication Skills [C] – 10 credits minimum

To fulfill the communications requirement for the AA general transfer degree, students must:

1. Take ENGL& 101 or ENGL 135 at five (5) credits;

AND EITHER:

2a. Take another five- (5) credit English composition course (ENGL& 102 or 235, or ENGL 109 or 110).

OR

2b. Take another three- (3) credit English composition course (ENGL 108, 109 or 110 (taken when three (3) credits) or ENGL 212/BUS 211); AND take a five- (5) credit communication studies course (CMST& 210, 220, or 230).

Quantitative Skills/Symbolic Reasoning Skills [Q] – 5 credits¹

1. Five (5) credits of college level mathematics (a course with a Mathematics prefix numbered 100 or above²) that furnishes the quantitative skills/symbolic reasoning skills required in the commonly recognized educational transfer pathways toward a baccalaureate degree. Accepted courses in these pathways are: Precalculus or higher, Mathematics for Elementary Education³, Business Precalculus/Finite Mathematics, Statistics, and Math in Society; or

2. Five (5) credits of a symbolic logic course that focuses on (a) sentence logic with proofs and (b) predicate logic with quantifiers and proofs and/or Aristotelian logic with Venn Diagrams.

¹For admission to the institution, the University of Washington requires completion of the course designated Algebra II (integrated Math III: Math 098) at either the high school or community college. However, UW recognizes the new QSR as fulfilling the DTA QSR requirement.

²To qualify for QSR, college level math and logic courses must require intermediate algebra course work (high school or college) with a grade of 2.0 or higher as a prerequisite.

³The University of Washington accepts Mathematics for Elementary Education for elective credit, but not as meeting its QSR requirement, since UW offers no degree pathway for which it is appropriate.

Health & Physical Education [HE, HPE, PE] – 3 credits

Complete three (3) credits from either option one or option two:

Option One: Complete two (2) credits of Health from the list below AND one (1) credit of any college-level PE activity course:

• HLTH 100, 101, 103, 104, 108, 206, 207, 208, or 210
• PE activity

Option Two: Complete three (3) credits from one (1) of the courses listed below:

• HPE 258 or 266

Oral Communication [OC] – 5 credits

Clark students must complete a course in oral communication. Students may apply this course within the Humanities, Social Sciences, or Communication Skills distribution area or count the course as a specified elective. At Clark the options are as follows:

• CMST&210, 220, or 230 (all 5 credits)

Distribution Requirements

Humanities [HA, HB] – 15 credits

Select courses from at least two (2) subject areas for a minimum of fifteen (15) credits. You may include no more
than 10 credits from any one subject area. A maximum of five (5) credits of “B” list coursework may be applied. A maximum of five (5) credits of 100-level world language can be applied.

**Social Sciences [SS] – 15 credits**
Select courses from at least three (3) subject areas for a minimum of fifteen (15) credits. You may include no more than ten (10) credits from any one subject area.

**Natural Sciences [NS] – 15 credits**
Select courses from at least two (2) subject areas for a minimum of fifteen (15) credits. You may include no more than ten (10) credits from one subject area. You must include at least one lab science.

**Elective Requirements**
Complete a total of twenty-seven (27) credits from courses numbered 100 and above. The two areas of Electives are listed below. No more than 15 credits can be taken from the General Elective area.

**Specified Electives [SE] – Approved courses that apply: [C, Q, HA, HB, SS, NS, SE, HE, HPE, PE, OC] – 12 credits**
A maximum of two (2) credits in PE activity can apply toward this area. Courses coded as HPE count as one (1) credit of PE activity.

**General Electives [GE] – 15 credits**
Any additional courses of 100-level or higher may apply.

**Note:** Coursework in ESL or FLPC cannot apply to the AA degree program.

**Distribution List for Associate in Arts Degree – General Transfer**
Note: Some distribution requirements may be met by major area courses. Please also note that this list is currently under review, check the catalog corrections page for updates.

**Humanities [List A=HA, List B=HB] – 15 credits**
Select courses from the list below. Select from at least two (2) subject areas for a minimum of fifteen (15) credits. You may include no more than ten (10) credits from any one subject area. A maximum of five (5) credits of “B” list coursework may be applied. A maximum of five (5) credits of 100-level world language can be applied.

**Art (ART)**
- List A: 118, 131, 151, 172, 220, 221, 222, 223, 225, 226, 250

**Biology (BIOL – List A only)**
- BIOL 180

**Communication Studies (CMST/CMST&)**
- List A: CMST 216, 240; CMST& 102, 210,220 or 230
- List B: CMST 171, 172, 173, 271, 272, 273

**Drama (DRMA/DRMA&)**
- List A: DRMA& 101
- List B: DRMA 140, 141, 142, 143, 144, 145, 150, 152, 171, 172, 173, 240, 243, 244, 245, 250, 271, 272, 273
English (ENGL)

List A: ENGL 130, 131, 132, 133, 140, 143, 145, 150, 152, 156, 252, 254, 260, 261, 262, 264, 265, 266, 267, 268, 269, 270, 272

List B: ENGL 121, 122, 123, 125, 126, 127, 275, 276, 277, 290

Humanities (HUM/HUM& – List A only)

HUM& 101; HUM 103, 152, 180, 210

Journalism (JOUR)

List A: JOUR 101, 111

Music (MUSC/MUSC&)

List A: MUSC 100, 116, 117, 118, 125, 127, 135; MUSC& 104, 128, 141, 142, 143, 231, 232, 233

Philosophy (PHIL/PHIL& – List A only)

PHIL 215, 216, 217, 240, 251, 280, 290; PHIL& 101, 106, 120

Women's Studies (WS – List A only)

WS 101, 201, 210

World Language (ASL&, CHIN&, FRCH/FRCH&, GERM&, JAPN&, SPAN/SPAN&)

List A: ASL& 121, 122, 123, 221, 222, 223; CHIN& 121; FRCH& 121, 122, 123, 221, 222, 223, 290; GERM 290, GERM& 121, 122, 123, 221, 222, 223; JAPN& 121, 122, 123, 221, 222, 223; SPAN 290; SPAN& 121, 122, 123, 221, 222, 223

List B: FRCH 141, SPAN 141

Social Sciences [SS] – 15 credits

Select courses from at least three (3) subject areas for a minimum of fifteen (15) credits. You may include no more than ten (10) credits from any one subject area.

Anthropology – ANTH& 204, 206, 215

Communication Studies – CMST& 230

Criminal Justice – CJ& 101, 105

Economics – ECON 101, 110, 111, 112, 120; ECON& 201, 202

Environmental Science – ENV 231

Geography – GEOG& 100, 102, 107, 200, 205

History – HIST 231, 251, 252, 253; HIST& 126, 127, 128, 146, 147, 148, 215

Humanities – HUM 210

Political Science – POLS 111, 131, 141, 151, 152, 153, 231, 251, 252, 253; POLS& 203

Psychology – PSYC 203; PSYC& 100, 200,

Sociology – SOC 121, 131, 220; SOC& 101, 201

Women's Studies – WS 101, 201, 210, 220, 225
Natural Sciences [NS] – 15 credits

Select courses from at least two (2) subject areas for a minimum of fifteen (15) credits. You may include no more than ten (10) credits from one subject area. You must include at least one lab science. Lab courses are denoted by the letter “L”.

1. Anthropology – ANTH& 215L, 245
2. Astronomy – ASTR& 101L
5. Environmental Science – ENVS 109L, 211L, 218L
7. Humanities – HUM 180
8. Meteorology – METR 101L
9. Nutrition – NUTR 103
10. Oceanography – OCEA& 101
11. Physical Science – PHSC 101L, 102L, 104L, 106, 110L

Specified Electives

All courses numbered 100 and above (except 199 and 290) in the departments listed below may be used to meet the Specified Elective portion of the degree (some departments have chosen specifically listed courses only or have excluded specific courses).

- Accounting – ACCT& 201, 202, 203 only
- Addiction Counseling – ACED 101 only
- American Sign Language
- Anthropology
- Art
- Astronomy
- Biology
- Business – BUS& 101, 201, BUS 203, 204, 211 only
- Chemistry
- Chinese
- Communication Studies – excluding 280
- Computer Science & Engineering
- Computer Technology – CTEC 100, 120, 121, 123, 124, 125, 224 only
- Drama
- Early Childhood Education – ECED& 105, 120, and EDUC& 115 only
- Economics
Education – EDUC& 201 only
Engineering
English
Environmental Science
Forensic Science
French
Geography
Geology
German
Health – excluding HLTH 120, 121, 123
Health & Physical Education – HPE counts as one (1) credit of physical education – excluding HPE 220, 280, 290
History
Humanities
Japanese
Journalism – JOUR 101 only
Mathematics
Meteorology
Music
Nutrition
Oceanography
Paralegal PRLE 212 only
Philosophy
Physical Education (2 credit maximum in activity courses for specified electives)
Physical Science
Physics
Political Science
Psychology
Sociology
Spanish
Women's Studies

General Electives
Any additional courses of 100 level or higher may apply. Physical Education activity credits are limited to a maximum of three (3) in the DTA.

Associate in Arts – Major Related Programs (MRP)
To help transfer students better prepare for their junior year, two-year and four-year institutions are working together to create transfer associate degrees outlining the appropriate courses in order for students to be well prepared
to enter their chosen major upon transfer. The MRP degrees follow the Direct Transfer Agreement (DTA) format of the Associate in Arts degree.

The DTA/MRP pathway is applicable to students planning to prepare for the following majors at various universities in Washington. Clark College offers the following Associate in Arts – DTA/MRP in:

- Biology
- Business
- Math Education
- Pre-Nursing

The MRP degrees listed above have slightly different graduation requirements than other Clark transfer degrees because the curriculum was created via an articulation agreement between Washington two-year and four-year schools. Most notably, AA – MRP degrees do not share Clark’s requirement for HPE or Oral Communication (though some of these degrees do require a CMST class). Clark students are encouraged to take HPE or oral communication courses, where appropriate, in case their degree choice changes. General Education requirements and general credit restrictions are identical.

**Associate in Arts – Option B (AAB)**

The Option B degree is designed for students who are certain of the specific four-year program to which they will transfer. Students can design a program to fulfill the senior institution’s general admission and program entry requirements. After completion of the program, the student will be awarded an Associate in Arts degree that fulfills the lower-division requirements for the department to which they are applying at the baccalaureate-granting institution. This degree is not a transferrable DTA.

**General Education Requirements**

- Complete a minimum of ninety (90) college-level credits as authorized for transfer by the four-year institution’s representative and/or the student’s faculty advisor.
- Maintain a minimum cumulative college-level GPA of 2.00 or higher.
- Thirty (30) credits minimum must be completed at Clark College to meet Academic Residency.
- Select courses that meet the senior institution’s general distribution requirements plus any special proficiency requirements for entrance. The student should be prepared to provide a copy of the senior institution’s current catalog to their Clark College advisor for assistance in program planning.
- Students must be aware that this degree program is NOT a program that adheres to the Direct Transfer Agreement. Students will be required to complete the senior institution’s general undergraduate degree requirements.
- Associate in Arts – Option B degree candidates must present to the Credential Evaluations Office, at least two (2) quarters prior to graduation, a copy of their Option B Plan that has been created with their advisor together with any supporting documentation.

**AA – Option B Distribution Requirements**

Courses should be selected in order to fulfill the senior institution’s general education requirements (not Clark’s) as defined in the transfer institution’s catalog. Students need to meet the following requirements while fulfilling their Associate in Arts – Option B degree:

- Communication Skills: Five (5) credits
- Quantitative Skills/Symbolic Reasoning Skills: Five (5) credits
- Humanities: Ten (10) credits
• Social Sciences: Ten (10) credits
• Natural Sciences: Ten (10) credits, including one (1) laboratory science
• World language: World language proficiency is not required for every degree program.*

*Students should consult with their senior institution’s representative to confirm requirements. Clark College recommends that those students who did not fulfill world language proficiencies in high school take their world language while at Clark. Students must complete the 1st, 2nd and 3rd course sequence in a world language in order to fulfill world language requirements, where applicable. This means up to fifteen (15) credits of world language may need to be taken at Clark.

Articulation Programs

Certain degree programs are offered at Clark College that have been set up in cooperation with four-year institutions. Program tracks that have been approved by Clark’s Instructional Planning Team are eligible for Clark’s Associate in Arts – Option B degree, even if they do not meet the core requirements. Intensive research, planning, and cooperation on the part of multiple institutions have gone into the development of these programs.

Associate in Fine Arts (AFA)

Degree Intent

This transfer preparation degree is designed for students planning to transfer to a senior institution to pursue a bachelor’s degree program (BA or BFA) in fine arts. The degree programs focus on coursework specific to the intended major area of study at the senior institution. While coursework in general education, social sciences, and natural sciences is included, additional coursework in these areas will be required at the senior institution. It is important for students to meet with program-specific advisors to determine an appropriate educational plan. The AFA is NOT a direct-transfer agreement degree, so students need to be especially aware of requirements of the receiving senior institution.

Currently, Clark College offers two (2) Associate in Fine Arts degrees: one in Graphic Design and one in Studio Art. Please contact either the Art department or Computer Graphics Technology department for advising information.

General Requirements

• Complete a minimum of ninety (90) college-level credits in specified curriculum.
• Maintain a minimum cumulative college-level GPA of 2.00 or higher.
• Thirty (30) credits minimum must be completed at Clark College to meet Academic Residency.
• Submit a graduation application by the appropriate deadline.

General Credit Restrictions

Credit by Department: Ten (10) credits maximum from any single department can be used to fulfill the Humanities, Natural Sciences and Social Sciences distribution requirement.

World Language: Five (5) credits maximum in 100-level world language can be used to fulfill the Humanities distribution requirements. Additional 100-level world language coursework can be used to meet other electives or major requirements.

Debate: Twelve (12) credits maximum in CMST 171, 172, 173, 271, 272, and 273 can apply toward the degree.

Physical Education Activity: Six (6) credits maximum in PE activity can apply toward the degree. Eligible Health/Physical Education courses (HPE) count as one (1) PE activity credit.
Other Applicable Credit Options:

- Advanced Placement (AP) and/or International Baccalaureate (IB): A maximum of sixty (60) credits from AP, IB or a combination of both, can be applied to a degree.
- College Level Examination Program (CLEP): Students may request up to fifteen (15) CLEP credits to be applied to a degree. Credits will be used to fulfill general elective requirements only.
- Course Challenge: Students may use credits earned from successful course challenges toward 25% of the degree or certificate. Credit by course challenge will meet academic residency requirements.
- Tech Prep/Direct Credit: Tech Prep/Direct Credit courses that are part of a professional program and fall into the restricted area in the DTA degree are limited to 15 credits. If Tech Prep/Direct Credit courses apply to a professional technical degree or certificate, there is no limit to the number of credits that can be applied.
- Cooperative Work Experience: No more than fifteen (15) credits may be applied to the associate degree.
- Special Projects: No more than fifteen (15) credits in Special Projects will be allowed toward the Associate in Arts degree.
- Military Experience: Credits may earned by previous military experience. Please contact the Veterans Affairs Office at Clark College for further information. Credit awarded for military experience may be granted for up to 25% of the degree and/or certificate.

Pass/Fail Grading Option: Thirty (30) credits maximum in courses with Pass/Fail grading option.

General Restrictions

A course can apply toward only one (1) distribution requirement (i.e., Communication Skills, Quantitative Skills/Symbolic Reasoning Skills, Humanities, Social Sciences and Natural Sciences).

General Education Requirements

Communication Skills [C] – 5 credits

- Complete ENGL& 101.

Note: Students who have completed English 101 or its equivalent at less than five (5) credits may complete the communications requirement by completing any of the courses (or their appropriate transfer equivalents) in written or oral communications as defined within the Associate of Arts distribution requirements.

Quantitative Skills/Symbolic Reasoning Skills [Q] – 5 credits

- Complete a college-level course in quantitative skills/symbolic reasoning skills, computer science or technology, or symbolic logic as determined by the AFA program department.

Health & Physical Education [HE, HPE, PE] – 3 credits

Complete three (3) credits from either option one or option two:

Option One: Complete two (2) credits of Health from the list below AND one (1) credit of any college-level PE activity course:

- HLTH 100, 101, 103, 104, 206, 207, 208, or 210
- PE activity

Option Two: Complete three (3) credits from one (1) of the courses listed below:

- HPE 258 or 266

Humanities [HA] – 5 credits

Select five (5) credits of coursework from the Humanities AA distribution list. Courses must be List A courses. The course completed cannot be part of the AFA major requirements.
Social Sciences [SS] – 5 credits

Select five (5) credits of coursework from the Social Sciences AA distribution list. The course completed cannot be part of the AFA major requirements.

Natural Sciences [NS] – 5 credits

Select five (5) credits of coursework from the Natural Sciences AA distribution list. The course completed must include a lab, which are denoted by the letter “L.” The course completed cannot be part of the AFA major requirements.

The balance of the program shall be defined by the major department and should be a minimum of 90 credits.

**Associate in Science – Transfer**

**Degree Intent**

The transfer preparation degrees are designed for students planning to transfer to a senior institution to pursue a bachelor’s degree program in science and/or engineering. The degree programs focus on coursework specific to the intended major area of study at the senior institution. While coursework in general education, humanities, and Social Sciences is included, additional coursework in these areas will be required at the senior institution. It is important for students to meet with program-specific advisors to determine an appropriate educational plan.

**General Requirements**

- Complete a minimum of ninety (90) college-level credits in specified curriculum.
- Maintain a minimum cumulative college-level GPA of 2.00 or higher.
- Thirty (30) credits minimum must be completed at Clark College to meet Academic Residency.

**General Credit Restrictions**

**Credit by Department:** Ten (10) credits maximum from any single department can be used to fulfill the Humanities and Social Sciences distribution requirement.

**World Language:** Five (5) credits maximum in 100-level world language can be used to fulfill the Humanities distribution requirements.

**Debate:** Twelve (12) credits maximum in CMST 171, 172, 173, 271, 272, and 273 can apply toward the degree.

**Physical Education Activity:** Six (6) credits maximum in PE activity can apply toward the degree. Eligible Health/Physical Education courses (HPE) count as one (1) PE activity credit.

**Other Applicable Credit Options:**

- Advanced Placement (AP) and/or International Baccalaureate (IB): A maximum of sixty (60) credits from AP, IB or a combination of both, can be applied to a degree.
- College Level Examination Program (CLEP): Students may request up to fifteen (15) CLEP credits to be applied to a degree. Credits will be used to fulfill general elective requirements only.
- Course Challenge: Students may use credits earned from successful course challenges toward 25% of the degree or certificate. Credit by course challenge will meet academic residency requirements.
- Tech Prep/Direct Credit: Tech Prep/Direct Credit courses that are part of a professional program and fall into the restricted area in the DTA degree are limited to 15 credits. If Tech Prep/Direct Credit courses apply to a professional technical degree or certificate, there is no limit to the number of credits that can be applied.
- Cooperative Work Experience: No more than fifteen (15) credits may be applied to the associate degree.
- Special Projects: No more than fifteen (15) credits in Special Projects will be allowed toward the Associate in Arts degree.
• Military Experience: Credits may be earned by previous military experience. Please contact the Veterans Affairs Office at Clark College for further information. Credit awarded for military experience may be granted for up to 25% of the degree and/or certificate.

Pass/Fail Grading Option: Thirty (30) credits maximum in courses with Pass/Fail grading option.

General Restrictions

A course can apply toward only one (1) distribution requirement (i.e., Communication Skills, Quantitative Skills/Symbolic Reasoning Skills, Humanities, Social Sciences and Natural Sciences). Credit by Challenge coursework will meet Academic Residency requirements.

**Associate in Science – Track 1 (AST1)**

Associate in Science – Track 1 is for students intending to transfer into programs in:

**AST1**

Concentration Options:

- Biological Sciences
- Chemistry
- Earth Science
- Environmental/Resources Sciences
- Geology

**AST1 – MRP**

- Biology Education
- Chemistry Education
- General Science Education

**General Education Requirements**

**Communication Skills [C] – 5 credits**

- Complete ENGL& 101.

**Quantitative Skills/Symbolic Reasoning Skills – 10 credits**

- Complete MATH& 151 and 152, or Math courses that have MATH&152 as a prerequisite.

*Note*: MATH& 151 (Calculus I) requires the successful completion of both MATH 103 (trigonometry) and MATH 111 (college algebra), or recommending score on an approved placement test prior to registration. These prerequisite courses can be used to fulfill elective requirements within the Associate in Science (AS) degree program.

**Health & Physical Education [HE, HPE, PE] – 3 credits**

Complete three (3) credits from either Option One or Option Two:

Option One: Complete two (2) credits of Health from the list below AND one (1) credit of any college-level PE activity course:

- HLTH 100, 101, 103, 104, 206, 207, 208, 210
- PE activity

Option Two: Complete three (3) credits from one (1) of the courses listed below:

- HPE 258 or 266
Humanities & Social Sciences [HA,SS] – 15 credits

Select five (5) credits of coursework from Humanities, five (5) credits of coursework from Social Sciences, and an additional five (5) credits of coursework from either area for a minimum of fifteen (15) credits. Humanities and Social Sciences courses must be selected from the Associate of Arts Distribution List. A maximum of five (5) credits of “B” list coursework may be applied.

Pre-Major Sequence – 45 to 52 credits

All students planning to earn the Associate in Science – Track 1 degree are required to complete the following course sequences. The sequences taken are dependent on the major of the student. Sequences should be started and finished at the same institution to ensure proper transfer. Students MUST consult with faculty or advising staff to pick the correct sequences.

1. Chemistry sequence (required of all) 16 credits
   - CHEM& 141, 142, 143, 151L, 152L, 153L (16 credits)

2. Additional mathematics courses (required of all—be sure to consult advisor to identify correct path)—5 or 6 credits
   - MATH& 153 or MATH 203 AND 204

3. One of the following sequence paths depending on the chosen major:
   A. Biological Science
      - BIOL& 221L, 222L, and 223L
      - Students should then consult with the baccalaureate institution to see which of these sequences should be taken: CHEM&241, 242, 243, 251L, 252L, and 253L; OR PHYS& 124L, 125L, 126L, 134, 135, and 136.
   B. Chemistry and Geology Majors
   C. Environmental/Resource Sciences & Earth Science Majors
      Complete 15 credits in one of the following three-course sequences (consult the baccalaureate institution for best information):
      - BIOL& 221L, 222L, and 223L, or
      - PHYS& 124L, 125L, 126L, 134, 135, and 136, or

4. Science Electives (10 to 15 credits)

Complete an additional ten (10) to fifteen (15) credits (preferably in a two- or three-quarter sequence) in courses from the following list:
   - Biology – BIOL 208L, 224L; BIOL& 221L, 222L, 223L, 251L, 252L, 253L, 260L
   - Chemistry – CHEM& 241L, 242L, 243L, 251L, 252L, 253L
   - Computer Science Engineering – CSE 101
   - Engineering – ENGR 101, 102, 103
   - Environmental Science – ENVS 211, 218L
   - Geology – GEOF 102L, 218L; GEOL& 101, 103
   - Math – MATH 203, 204, 205, 215, 221; MATH& 153, 254
Other Electives – 5 to 12 credits
Sufficient additional college-level credits so that total credits earned is at least 90 quarter credits. These remaining courses may include prerequisites for major courses, additional major coursework, or specific general education or other university requirements, as approved by the advisor.

Associate in Science – Track 2 (AST2)
Associate in Science – Track 2 is for students intending to transfer into programs in:
AST2
Concentration Options:
• Atmospheric Science
• Computer Science
• Engineering
• Physics
AST2 – MRP
• Bioengineering and Chemical Engineering
• Computer and Electrical Engineering
• Mechanical/Civil/Aeronautical/Industrial/Materials Science Engineering
• Physics Education

General Education Requirements
Communication Skills [C] – 5 credits
• Complete ENGL& 101.
Quantitative Skills/Symbolic Reasoning Skills [Q] – 10 credits
• Complete MATH& 151 and 152, or Math courses that have MATH&152 as a prerequisite.
Note: MATH& 151 (Calculus I) requires the successful completion of both MATH 103 (trigonometry) and MATH 111 (college algebra), or recommending score on an approved placement test prior to registration. These prerequisite courses can be used to fulfill elective requirements within the Associate in Science (AS) degree program.

Health & Physical Education [HE, HPE, PE] – 3 credits
Complete three (3) credits from either Option One or Option Two:
Option One: Complete two (2) credits of Health from the list below AND one (1) credit of any college-level PE activity course:
• HLTH 100, 101, 103, 104, 206, 207, 208, or 210
• PE activity
Option Two: Complete three (3) credits from one (1) of the courses listed below:
• HPE 258 or 266

Humanities & Social Sciences [HA, SS] – 15 credits
Select five (5) credits of coursework from Humanities, five (5) credits of coursework from Social Sciences, and an additional five (5) credits of coursework from either area for a minimum of fifteen (15) credits. Humanities and Social Sciences courses must be selected from the Associate of Arts Distribution List. A maximum of five (5) credits of "B" list coursework may be selected.
Pre-Major Sequence – 25 credits

All students planning to earn the Associate in Science – Track 2 degree are required to complete the following course sequences. Please note that there are different sequences for Engineering and Non-engineering majors. The sequences taken are dependent on the major of the student. Sequences should be started and finished at the same institution to ensure proper transfer. Students MUST consult with faculty or advising staff to pick the correct sequences.

**Engineering Major**

1. Calculus-based Physics sequence – 15 credits
2. Chemistry with Lab
   - CHEM& 141, 151
3. Additional mathematics courses (required of all—be sure to consult advisor to identify correct path)—5 or 6 credits
   - MATH& 153 or MATH 203 AND 204

**Non-engineering Major**

1. One of the Physics sequences—Consult with the baccalaureate institution to see which sequence is required—15 credits
2. Chemistry with Lab
   - CHEM& 141, 151
3. Additional mathematics courses (required of all—be sure to consult advisor to identify correct path)—5 or 6 credits
   - MATH& 153 or MATH 203 AND 204

Elective Requirements – 32 credits

Students are again advised to consult with an advisor to ensure that the courses selected are the best fit for their major and transfer intent. Sequences should be started and finished at the same institution.

**Engineering Major**

Choose from the courses listed below:
- CHEM& 142, 143, 152, 153, 241, 242, 243, 251, 252, 253
- CSE 101, 120, 121, 215, 222, 223, 224, 290
- CS& 131, 141
- ENGR& 104, 215, 224, 225
- ENGR 101, 107, 109 113, 114, 115, 120, 121, 150, 204, 214, 221, 239, 240, 250, 252, 253, 270, 280
- MATH & 254
- MATH 215, 221

**Non-engineering Major**

The remaining credits should be planned with the help of an advisor based on the requirements of the specific discipline at the baccalaureate institution the student selects to attend. Students can choose from the following list:
- BIOL& 100, 101, 221, 222, 223, 224, 251, 252, 253, 260
- BIOL 101, 164, 165, 167, 168, 208
• CHEM& 142, 143, 152, 153, 241, 242, 243, 251, 252, 253
• CSE 120, 121, 215, 222, 223, 224, 290
• CS& 131, 141
• ENGR& 104, 215, 224, 225
• ENGR 101, 107, 109 113, 114, 115, 120, 121, 150, 204, 214, 221, 239, 240, 250, 252, 253, 270, 280
• ENVS 210, 218L
• MATH& 153, 254
• MATH 203, 204, 215, 221
• PHYS& 231L, 232L, 233L, 241, 242, 243

The pre-calculus courses (MATH 103 and 111) might also be used as electives if these courses had to be taken in preparation for the calculus sequence.

**Associate in Science Transfer – MRPs**

In addition to the general Associate in Science degree, there are several articulated programs that utilize the Associate in Science Tracks 1 and 2.

**Associate in Science – Track 2:**

- Bioengineering and Chemical Engineering
- Computer and Electrical Engineering
- Mechanical/Civil/Aeronautical/Industrial/Materials Science Engineering

These degrees listed above have slightly different graduation requirements than other Clark transfer degrees because the curriculum was created via an articulation agreement between Washington two-year and four-year schools. Most notably, these AS degrees do not share Clark’s requirement for Health and Physical Education. Clark students are encouraged to take Health and Physical Education, where appropriate, in case their degree choice changes. General Education requirements and general credit restrictions are identical.

**Associate in Applied Science – Transfer Degree (AAS-T)**

The Associate in Applied Science – Transfer degree (AAS-T) is designed to build upon the technical courses required for job preparation but also includes a college-level General-Education component, common in structure for all such degrees. In general, technical degree programs are not designed for transfer to other colleges or universities. However, several four-year colleges and universities have specific bachelor’s degree programs that accept AAS-T degrees. Clark College currently has one AAS-T degree in Early Childhood Education (see the Early Childhood Education program description in this catalog for specific program requirements).

Students seeking to transfer into degree programs other than those specifically designed for the AAS-T are urged to consider the DTA or AS-T in preparation for transfer. Majors outside the specifically designed degrees listed above likely will accept very few of the credits in the AAS-T degree (English composition, college-level math, and other general education courses will transfer).

**“Washington 45” – List of One Year Transfer Courses**

*The list of courses in Washington 45 does not replace the Direct Transfer Agreement, Associate of Science Tracks I and II or any Major Related Program agreement, nor will it guarantee admission to a four-year institution.*

A student who completes courses selected from within the general education categories listed below at a public community, technical, four-year college or university in Washington State will be able to transfer and apply a maximum of 45 quarter credits toward general education requirement(s) at any other public and most private higher education institutions in the state.

---

Clark College 2014–2015 Catalog  Section B: Degree & Certificate Requirements : page B21
For transfer purposes, a student must have a **minimum grade of C or better (2.0 or above)** in each course completed from this list.

Students who transfer Washington 45 courses must still meet a receiving institution’s admission requirements and eventually satisfy all their general education requirements and their degree requirements in major, minor and professional programs.

“First Year Transfer List” of general education courses

- **Communications (5 credits)** – ENGL& 101, ENGL& 102
- **Quantitative and Symbolic Reasoning (5 credits)** – MATH& 107, MATH& 148 or MATH& 151
- **Humanities (10 credits in two different subject areas or disciplines)**
  
  - PHIL& 101, MUSC& 105, DRMA& 101, ENGL& 111, or HUM& 101
  
  For colleges that use History as a Humanities:
  
  - HIST& 116, HIST& 117, HIST& 118, HIST& 146, HIST& 147, HIST& 148

- **Social Science (10 credits in two different subject areas or disciplines)** – PSYC& 100, SOC& 101, POLS& 101, POLS& 202
  
  For colleges that use History as a Social Science:
  
  - HIST& 116, HIST& 117, HIST& 118, HIST& 146, HIST& 147, HIST& 148

- **Natural Sciences (10 credits in two different subject areas or disciplines)** – BIOL& 100, BIOL& 160 with lab, ASTR& 100, ASTR& 101 with lab, CHEM& 105, CHEM& 110 with lab, CHEM& 121 with lab, CHEM& 161, CHEM& 162, ENVS& 100, ENVS& 101, PHYS& 114, GEO& 101 with lab.

- **Additional 5 credits** in a different discipline can be taken from any category listed above.

**NOTE:** Although these courses are listed under categories, the actual course may satisfy a different general education category at a receiving institution.

1 Many private non-profit colleges and universities have distinct general education requirements. Students should check with institution(s) they plan to attend regarding application of transfer credits that will meet general education requirements.

2 Disciplines are sometimes called “subjects” or “subject matter areas” and designated by a prefix (i.e., PHIL for Philosophy and POLS for Political Science).

---

**Major Related Programs (MRPs)**

Bioengineering and Chemical Pre-Engineering Associate of Science Track 2 MRP

Biology DTA/MRP

Business DTA/MRP

Computer and Electrical Pre-Engineering Associate of Science Track 2 MRP

Elementary Education DTA/MRP—WSUV Pathway

Math Education DTA/MRP
Bioengineering and Chemical Pre-Engineering Associate of Science Track 2 MRP

The following is a degree program designed by a consortium of two-year and four-year colleges in Washington. Students should be aware that baccalaureate institutions may have slightly different requirements for these degrees, and students should consult the transfer institution for exact questions.

Students should complete the entirety of any science sequence at the same school for best transferability. These degrees are not DTA degrees, and there are some general education requirements that students will need to finish upon transfer.

Though this degree does not require such, Clark College students should know that the standard Clark AST degree path has this difference from the Major Related Program (MRP) defined below:

- Clark requires 3 credits of Health-Physical Education coursework.

Students must also meet the residency requirements as established by Clark. While Clark College has approved offering the degree below, Clark students should keep these requirements in mind should their transfer pathways change.

Students completing this Associate of Science will receive the same priority consideration for admission to the baccalaureate institution as they would for completing the direct transfer associate degree and will be given junior status by the receiving institution.

It is critical that you work with an Engineering faculty advisor to ensure your program will give you the maximum benefit when you transfer.

| Notes | Clark requires concurrent enrollment of completion in MATH&254 when taking MATH221. MATH103 and MATH111 are required prerequisites for MATH&151 that may be needed if calculus placement is not met via COMPASS. |
Generic Requirements: 3. Physics (15 credits)
   Calculus-based or non-calculus based sequence including laboratory. Students should be advised that some baccalaureate programs require physics with calculus.

MRP Requirements: Engineering Physics I, II, III + labs – 15-18 credits

Clark College equivalents: PHYS&221 (5 cr.)
PHYS&222 (5 cr.)
PHYS&223 (5 cr.)

Notes: Clark requires concurrent enrollment in PHYS094, 095, and 096.

Generic Requirements: 4. Chemistry with Laboratory (5 credits)

MRP Requirements: General Chemistry I, II, III + labs – 15-18 credits
   Organic Chemistry I + lab – 4-6 credits
   Organic Chemistry II + lab OR Biology for Science Majors + lab

Clark College equivalents: CHEM&141, 151 (5 cr.)
CHEM&142, 152 (5 cr.)
CHEM&143, 153 (6 cr.)
CHEM&241, 251 (5 cr.)
CHEM&242, 252 (5 cr.) OR BIOL&221 (5 cr.)

B. Distribution Requirements

Generic Requirements: 1. Humanities/Fine Arts/English and Social Sciences (15 credits)

MRP Requirements: Minimum 15 quarter credits:
   Minimum 5 credits in Humanities, minimum 5 credits in Social Science, plus an additional 5 credits in either Humanities or Social Science for a total of 15 credits.

Clark College equivalents: A course in Economics is recommended (ECON&201 or 202).
PHIL&106 is strongly recommended as the Humanities course.

Notes: Courses taken must come from the current ICRC distribution list in order to count as General Education or General University Requirements (GER's/GUR's) at the receiving institution. Additional general educational requirements, cultural diversity requirements, and foreign language requirements, as required by the receiving institution, must be met prior to the completion of a baccalaureate degree.

C. Electives

Generic Requirements: The remaining quarter credits should be planned with the help of an advisor based on the requirements of the specific discipline at the baccalaureate institution the student selects to attend.

For Engineering disciplines, these credits should include a design component consistent with ABET accreditation standards, as approved by the advisor.

MRP Requirements: Engineering (14-15 credits)
   Select 3 electives as appropriate for intended major and intended baccalaureate institution:
   • Computer Programming – 4-5 credits
   • Linear Algebra
   • Calculus IV (Advanced or Multi-variable Calculus)
   • Technical Writing
• Electrical Circuits
• Statics
• Thermodynamics
• Chemical Process, Principles and Calculations
• Biology for Science Majors I + labs
• Biology for Science Majors II + labs
• Organic Chemistry 2 + labs

Clark College equivalents: Required at Clark: MATH&254 (5 cr.) – Calculus IV
Other electives as advised dependent on transfer institution.

Total credits: 90-103 credits

Biology DTA/MRP

This pathway is applicable to students planning to prepare for upper-division bachelor’s degree majors in Biology. Many students transfer to baccalaureate institutions after completing the Associate Degree Direct Transfer Agreement (DTA); this pathway does not alter that agreement or the possibility that students may continue to follow this path. This Biology MRP streamlines and facilitates preparation for upper-division coursework in Biology across the state.

This document represents an agreement between the following baccalaureate institutions offering bachelor’s degrees in Biology or a related field and the community and technical college system. Baccalaureate institutions party to this agreement include: Central Washington University; Eastern Washington University; The Evergreen State College; University of Washington Seattle; Washington State University Pullman; Western Washington University; Saint Martin's University; Seattle University; and Whitworth University.

Where the degree below allows for choice in courses, students are urged to contact potential transfer institutions to ensure that the courses chosen are best for the pathway.

Though this degree does not require such, Clark College students should know that the standard Clark AA degree path has these differences from the MRP defined below:

a. Clark requires 3 credits of Health-Physical Education coursework, and
b. As of Fall 2011, Clark requires a course in Oral Communication, and
c. Clark's Social Science distribution requirement stipulates that students take courses from at least three different departments.

Students must also meet the residency requirements as established by Clark. While Clark College has approved offering the degree below, Clark students should keep these requirements in mind should their transfer pathways change.

Students are responsible for researching and preparing for specific major requirements of baccalaureate institutions as early as possible prior to transferring.

A. Basic Requirements

Generic DTA Requirements: 1. Communications Skills (10 credits)

MRP Requirements: 10 quarter credits of English composition

Clark College equivalents: ENGL&101 (5 cr.)
ENGL&102 (5 cr.)

Notes: May be individualized based on baccalaureate college of choice.
Generic DTA Requirements: 2. Quantitative/Symbolic Reasoning Requirement (5 credits)
Intermediate algebra proficiency is required.

MRP Requirements: 5 quarter credits of mathematics—Calculus I
Clark College equivalents: MATH&151 (5 cr.)
Clark College equivalents: Statistics (a course that includes descriptive and inferential statistics) may substitute for Calculus I at some institutions; students are encouraged to check with the transfer institution early in their decision process to confirm requirements.
Intermediate Algebra proficiency may be demonstrated by successful completion of a Calculus and/or Statistics course for which Intermediate Algebra is a prerequisite.

B. Distribution Requirements

Generic DTA Requirements: 1 Humanities (15 credits)

MRP Requirements: 15 quarter credits of Humanities
Consistent with the requirements in all DTA degrees - no more than 10 credits per discipline area, 5 credits maximum in world languages or ASL. No more than 5 credits of performance/skills classes are allowed.
Clark College equivalents: 15 quarter credits of Humanities as defined in the Clark College catalog.
Notes: In order to better prepare for successful transfer, students are encouraged to consult with the institution(s) to which they wish to transfer regarding the humanities courses that best support or may be required as prerequisites to their Biology curriculum.

Generic DTA Requirements: 2. Social Sciences (15 credits)

MRP Requirements: 15 quarter credits of Social Sciences
Clark College equivalents: 15 quarter credits of Social Sciences as defined in the Clark College catalog.
Notes: In order to better prepare for successful transfer, students are encouraged to consult with the institution(s) to which they wish to transfer regarding the social science courses that best support or may be required as prerequisites to their Biology curriculum.

Generic DTA Requirements: 3. Natural Sciences (minimum of 15 credits)

MRP Requirements: 30 quarter credits, including:
• 15 credits general biology (majors level)
• 15 credits general chemistry (majors level)
Clark College equivalents: 31 quarter credits as follows:
BIOL&221 (5 cr.)
BIOL&222 (5 cr.)
BIOL&223 (5 cr.)
CHEM&141 (4 cr.)
CMEH&142 (4 cr.)
CHEM&143 (4 cr.)
CHEM&151 (1 cr.)
CMEH&152 (1 cr.)
CMEH&153 (2 cr.)
Notes: A full year sequence at a single college is the best preparation for the baccalaureate biology degree.
C. Electives

**Generic DTA Requirements:** Elective credits

**MRP Requirements:** 15 additional quarter credits

**Clark College equivalents:** 14 additional quarter credits (note: Clark's chemistry sequence has 16 credits)

**Notes:** Electives allow students to include additional courses to prepare for the biology major based on college selection. Examples include a full year sequence of organic chemistry for majors; a full year sequence of physics for science majors; or further math at the pre-calculus level or above or statistics. Students should check with the transfer institution prior to taking any further biology courses beyond the one-year sequence. Some colleges require all continuing biology courses be taken at the 300 level.

**Business DTA/MRP**

This pathway is applicable to students planning to prepare for various business majors at universities in Washington. Effective July 1, 2012, this agreement cancels and supersedes the existing statewide Business DTA agreement dated Summer 2003 and revised April 2006. Prior to July 1, 2012, parties to the 2006 and 2003 Business DTA MRP agree to continue to honor that agreement until July 1, 2014. This agreement shall be subject to review and renewal by all parties not later than September 2016.

This document represents the business DTA/MRP agreement that meets all requirements of Washington's Direct Transfer Agreement, between the baccalaureate institutions offering a Bachelor of Science or Bachelor of Arts in business administration including accounting, management, and management information systems and the community and technical college system. Baccalaureate institutions party to this agreement are Central Washington University, Eastern Washington University, University of Washington (all campuses), Washington State University (all campuses), Western Washington University, Gonzaga University, Heritage University, Pacific Lutheran University, Saint Martin's University, Seattle Pacific University, Seattle University, Walla Walla University, and Whitworth University.

Though this degree does not require such, Clark College students should know that the standard Clark AA degree path has these differences from the MRP defined below:

- Clark requires 3 credits of Health-Physical Education coursework,
- As of Fall 2011, Clark requires a course in Oral Communication, and
- Clark's Social Science distribution requirement stipulates that students take courses from at least three different departments.

Students must also meet the residency requirements as established by Clark. While Clark College has approved offering the degree below, Clark students should keep these requirements in mind should their transfer pathways change.

1 This DTA/MRP is not intended for Community and Technical College students pursuing a terminal professional/technical degree in Business.

**A. Basic Requirements**

**Generic DTA Requirements:** 1. Communications Skills (10 credits)

**MRP Requirements:** 10 quarter credits of English composition

**Clark College equivalents:** ENGL&101 (5 cr.)
ENGL&102 (5 cr.) or ENGL&235 (5 cr.)

**Notes:** ENGL&102 is REQUIRED at Eastern Washington University.
**Generic DTA Requirements: 2. Quantitative/Symbolic Reasoning Requirement (5 credits)**
Intermediate algebra proficiency is required

**MRP Requirements: 10 credits total**
- Must include 5 credits of business calculus, calculus I or a higher-level math that includes calculus as a prerequisite.
- May include finite math or pre-calculus prerequisites for calculus or other courses to prepare for business calculus.

**Clark College equivalents:** Course 1: MATH&148, 151, 152, 153, 215, 221, or 254 (5 cr.)
Course 2: MATH103 or 105; MATH&111, 152, 153, 215, 221, or 254 (5 cr.)

---

**B. Distribution Requirements**

**Generic DTA Requirements: 1. Humanities (15 credits)**

**MRP Requirements: 15 quarter credits of Humanities**
- Consistent with the requirements in all DTA degrees – no more than 10 credits per discipline area, 5 credits maximum in world languages or ASL. No more than 5 credits of performance/skills classes are allowed.

**Clark College equivalents:** 15 quarter credits of Humanities as defined in the Clark College catalog. CMST&220 is strongly recommended.

**Notes:** Students intending the international business major should consult their potential transfer institutions regarding the level of world language required for admission to the major. 5 credits in world languages may apply to the Humanities requirement.
CMST&220 is specifically required for WSUV business transfer.

---

**Generic DTA Requirements: 2. Social Sciences (15 credits)**

**MRP Requirements: 15 quarter credits of Social Sciences, specifically:**
- 5 credits, microeconomics
- 5 credits, macroeconomics
- 5 credits additional social science (not economics)

**Clark College equivalents:** ECON&201 (5 cr.)
ECON&202 (5 cr.)
5 credits of social science outside economics

---

**Generic DTA Requirements: 3. Natural Sciences**

**MRP Requirements: 15 quarter credits to include:**
- 5 credits in statistics (business statistics preferred)
- 10 credits physical, biological, and/or earth science, including at least one lab course.

**Clark College equivalents:** BUS or MATH203 (3 cr.)
BUS or MATH204 (3 cr.)
9-10 credits of natural science coursework, including one lab, as defined by Clark College

**Notes:** Students intending the manufacturing management major at WWU should consult WWU regarding the selection of natural science courses required for admission to the major. Students can apply up to 6 credits in statistics coursework toward the natural sciences requirement.
C. Major Requirements

**Generic DTA Requirements:** 6. Business courses

**MRP Requirements:** 20 credits, including:
- 5 credits, Intro to Financial Accounting
- 5 credits, Financial Accounting II
- 5 credits, Managerial Accounting
- 5 credits, Business Law or Introduction to Law

**Clark College equivalents:** For all schools except UW:
- ACCT&201 (5 cr.)
- ACCT&202 (5 cr.)
- ACCT&203 (5 cr.)
- BUS&201 (5 cr.)

**Notes:** Universities with a lower-division Business Law requirement: UW (all campuses), WSU (all campuses), EWU, CWU, WWU, Gonzaga, SMU, SPU, Whitworth. The following institutions do not require a lower-division Business Law course and agree to accept the course taken as part of this degree as a lower-division elective, but generally not as an equivalent to the course required at the upper division: Heritage, PLU, SU, and Walla Walla University. International students who completed a business law course specific to their home country must take a business law course at a U.S. institution in order to demonstrate proficiency in U.S. business law.

D. Electives

**Generic DTA Requirements:** 7. Elective courses

**MRP Requirements:** 5 credits of electives

**Clark College equivalents:** 5 credits of electives

**Notes:** Five institutions have requirements for admission to the major that go beyond those specified above. Students can meet these requirements by careful selection of the elective University Course Equivalent to:
- WSU (all campuses): Management Information Systems MIS 250
- Gonzaga: Management Information Systems BMIS 235
- PLU: Computer applications CSCE 120, either an equivalent course or skills test
- SPU: Spreadsheets BUS 1700, either an equivalent course or skills test
- WWU: Introduction to Business Computer Systems MIS 220 (for transfer students entering fall 2014)

**Computer and Electrical Pre-Engineering Associate of Science Track 2 MRP**

The following is a degree program designed by a consortium of two-year and four-year colleges in Washington. Students should be aware that baccalaureate institutions may have slightly different requirements for these degrees, and students should consult the transfer institution for exact questions.

Students should complete the entirety of any science sequence at the same school for best transferability. These degrees are not DTA degrees, and there are some general education requirements that students will need to finish upon transfer.

Though this degree does not require such, Clark College students should know that the standard Clark AST degree path has these differences from the Major Related Program (MRP) defined below:
- Clark requires 3 credits of Health-Physical Education coursework.
Students must also meet the residency requirements as established by Clark. While Clark College has approved offering the degree below, Clark students should keep these requirements in mind should their transfer pathways change. Students completing this Associate of Science will receive the same priority consideration for admission to the baccalaureate institution as they would for completing the direct transfer associate degree and will be given junior status by the receiving institution.

It is critical that you work with an Engineering faculty advisor to ensure your program will give you the maximum benefit when you transfer.

A. Basic Requirements

**Generic Requirements:** 1. Communications Skills (5 credits)

**MRP Requirements:** 5 quarter credits of English composition

**Clark College equivalents:** ENGL&101 (5 cr.)

**Generic Requirements:** 2. Mathematics (10 credits)

Two courses at or above introductory calculus level. Third quarter calculus or approved statistics course: 5 quarter credits chosen with the help of an advisor based on the requirements of the specific discipline at the baccalaureate institution the student plans to attend.

**MRP Requirements:** Calculus I, II, III – 15 credits

Differential Equations – 5 credits

Linear Algebra – 5 credits

**Clark College equivalents:** MATH&151 (5 cr.)

MATH&152 (5 cr.)

MATH&153 (5 cr.)

MATH 215 (5 cr.)

MATH 221 (5 cr.)

**Notes:** Clark requires concurrent enrollment of completion in MATH&254 when taking MATH221. MATH103 and MATH111 are required prerequisites for MATH&151 that may be needed if calculus placement is not met via COMPASS.

**Generic Requirements:** 3. Physics (15 credits)

Calculus-based or non-calculus based sequence including laboratory. Students should be advised that some baccalaureate programs require physics with calculus.

**MRP Requirements:** Engineering Physics I, II, III + labs – 15 to 18 credits

**Clark College equivalents:** PHYS&221 (5 cr.)

PHYS&222 (5 cr.)

PHYS&223 (5 cr.)

**Notes:** Clark requires concurrent enrollment in PHYS094, 095, and 096.

**Generic Requirements:** 4. Chemistry with Laboratory (5 credits)

**MRP Requirements:** General Chemistry I + labs – 5 credits

**Clark College equivalents:** CHEM&141, 151 (5 cr.)

**Generic Requirements:** 5. Required Major Courses
MRP Requirements: Electrical Circuits – 4-5 credits
Computer Programming – 4-5 credits

Clark College equivalents: ENGR&204 (5 cr.)
CSE121 (5 cr.)

B. Distribution Requirements

Generic Requirements: 1. Humanities/Fine Arts/English and Social Sciences (15 credits)

MRP Requirements: Minimum 15 quarter credits:
Minimum 5 credits in Humanities, minimum 5 credits in Social Science, plus an additional
5 credits in either Humanities or Social Science for a total of 15 credits.

Clark College equivalents: A course in Economics is recommended (ECON&201 or 202).
PHIL&106 is strongly recommended as the Humanities course.

Notes: Courses taken must come from the current ICRC distribution list in order to count as General Education or General University Requirements (GERs/GURs) at the receiving institution. Additional general educational requirements, cultural diversity requirements, and foreign language requirements, as required by the receiving institution, must be met prior to the completion of a baccalaureate degree.

C. Electives

Generic Requirements: The remaining quarter credits should be planned with the help of an advisor based on the requirements of the specific discipline at the baccalaureate institution the student selects to attend.
For Engineering disciplines, these credits should include a design component consistent with ABET accreditation standards, as approved by the advisor.

Select 5 electives as appropriate for intended major and intended baccalaureate institution:
- A second course in Computer Programming – object oriented – 4-5 credits
- Innovation in Design
- Calculus IV (Advanced or Multi-variable Calculus)
- Technical Writing
- Statics
- Dynamics
- Thermodynamics
- Digital Logic
- Biology for Science Majors I + labs
- General Chemistry II + lab
- Applied Numerical Methods
- Microprocessors

Clark College equivalents: Required at Clark: MATH&254 (5 cr.) – Calculus IV
Other electives as advised dependent on transfer institution.

Total credits: 95-104 credits
Math Education DTA/MRP

This pathway is applicable to students planning to prepare for math education majors at the secondary level at universities in Washington. Students need to make early contact with their potential transfer institutions regarding the specific course choices in each area of the agreement where options are listed. Students also need to check with their potential transfer institutions regarding the requirement for overall minimum GPA, a higher GPA in a selected subset of courses or a specific minimum grade in one or more courses such as math or English.

Though this degree does not require such, Clark College students should know that the standard Clark AA degree path has these differences from the MRP defined below:

a. Clark requires 3 credits of Health-Physical Education coursework, and
b. As of Fall 2011, Clark requires a course in Oral Communication, and
c. Clark’s Social Science distribution requirement stipulates that students take courses from at least three different departments.

Students must also meet the residency requirements as established by Clark. While Clark College has approved offering the degree below, Clark students should keep these requirements in mind should their transfer pathways change.

Students are responsible for researching and preparing for specific major requirements of baccalaureate institutions as early as possible prior to transferring.

A. Basic Requirements

<table>
<thead>
<tr>
<th>Generic DTA Requirements</th>
<th>1. Communications Skills (10 credits)</th>
</tr>
</thead>
<tbody>
<tr>
<td>MRP Requirements</td>

| Clark College equivalents | ENGL&101 (5 cr.) 
|                         | ENGL&102 or 109 (5 cr.) |

<table>
<thead>
<tr>
<th>Generic DTA Requirements</th>
<th>2. Quantitative/Symbolic Reasoning Requirement (5 credits)</th>
</tr>
</thead>
</table>
| MRP Requirements         | 5 quarter credits: First-quarter calculus 
|                         | Intermediate algebra proficiency is required. |
| Clark College equivalents | MATH&151 (5 cr.) |

B. Distribution Requirements

<table>
<thead>
<tr>
<th>Generic DTA Requirements</th>
<th>1. Humanities (15 credits)</th>
</tr>
</thead>
</table>
| MRP Requirements         | Introductory Speech and 10 credits of other humanities 
|                         | Consistent with the requirements in all DTA degrees - no more than 10 credits per discipline area, 5 credits maximum in world languages or ASL. No more than 5 credits of performance/skills classes are allowed. |
| Clark College equivalents | CMST&220 (5 cr.)—Fulfills oral communications requirement. 
|                         | 10 other credits of humanities meeting the stipulations for the DTA |

<table>
<thead>
<tr>
<th>Generic DTA Requirements</th>
<th>2. Social Sciences (15 credits)</th>
</tr>
</thead>
</table>
| MRP Requirements         | 15 quarter credits of Social Sciences, specifically: 
|                         | 5 credits, Intro to Psychology 
|                         | 10 credits, other social sciences |

Clark College 2014–2015 Catalog  Section B: Degree & Certificate Requirements : page B32
Clark College equivalents: PSYC&100 (5 cr.)
10 credits of social science (maximum of 5 cr. additional psychology)

Generic DTA Requirements: 3. Natural Sciences (15 credits)
MRP Requirements: 15 quarter credits to include:
- 2nd-quarter calculus
- 10 credits physical, biological, and/or earth science, including at least one lab course

Clark College equivalents: MATH&152 (5 cr.)
10 credits of natural science coursework, including one lab, as defined by Clark College

C. Major Requirements

Generic DTA Requirements: 1. Math courses
MRP Requirements: 3rd- and 4th-quarter calculus
Linear Algebra
Clark College equivalents: MATH&153 (5 cr.)
MATH215 (5 cr.)
MATH&254 (5 cr.)

Generic DTA Requirements: 2. Education courses
MRP Requirements: Field Experience/Intro to Education
Clark College equivalents: EDUC&201 (3 cr.)
EDUC210 (3 cr.)

Generic DTA Requirements: 3. Elective courses
MRP Requirements: Other college-level courses, of which a maximum of 15 credits may be in college-level courses as defined by the community college, and the remainder shall be fully transferable as defined by the receiving institution. Where appropriate, preparation courses for the major, minor, or professional certification should ideally be included in this coursework.

Clark College equivalents: 9 credits of elective as defined above.

Mechanical/Civil/Aeronautical/Industrial/Materials Science pre-Engineering (Other Engineering) Associate of Science Track 2 MRP

The following is a degree program designed by a consortium of two-year and four-year colleges in Washington. Students should be aware that baccalaureate institutions may have slightly different requirements for these degrees, and students should consult the transfer institution for exact questions.

Students should complete the entirety of any science sequence at the same school for best transferability. These degrees are not DTA degrees, and there are some general education requirements that students will need to finish upon transfer.

Though this degree does not require such, Clark College students should know that the standard Clark AST degree path has these differences from the Major Related Program (MRP) defined below:
- Clark requires 3 credits of Health-Physical Education coursework.

Students must also meet the residency requirements as established by Clark. While Clark College has approved offering the degree below, Clark students should keep these requirements in mind should their transfer pathways change.
Students completing this Associate of Science will receive the same priority consideration for admission to the baccalaureate institution as they would for completing the direct transfer associate degree and will be given junior status by the receiving institution.

It is critical that you work with an Engineering faculty advisor to ensure your program will give you the maximum benefit when you transfer.

A. Basic Requirements

**Generic Requirements:**
1. Communications Skills (5 credits)

**MRP Requirements:**
- 5 quarter credits of English composition

**Clark College equivalents:**
- ENGL&101 (5 cr.)

**Generic Requirements:**
2. Mathematics (10 credits)

Two courses at or above introductory calculus level. Third-quarter calculus or approved statistics course: 5 quarter credits chosen with the help of an advisor based on the requirements of the specific discipline at the baccalaureate institution the student plans to attend.

**MRP Requirements:**
- Calculus I, II, III – 15 credits
- Differential Equations – 5 credits
- Linear Algebra – 5 credits

**Clark College equivalents:**
- MATH&151 (5 cr.)
- MATH&152 (5 cr.)
- MATH&153 (5 cr.)
- MATH 215 (5 cr.)
- MATH 221 (5 cr.)

**Notes:** Clark requires concurrent enrollment or completion in MATH&254 when taking MATH221. MATH103 and MATH111 are required prerequisites for MATH&151 that may be needed if calculus placement is not met via COMPASS.

**Generic Requirements:**
3. Physics (15 credits)

Calculus-based or non-calculus based sequence including laboratory. Students should be advised that some baccalaureate programs require physics with calculus.

**MRP Requirements:**
- Engineering Physics I, II, III + labs – 15 to 18 credits

**Clark College equivalents:**
- PHYS&221 (5 cr.)
- PHYS&222 (5 cr.)
- PHYS&223 (5 cr.)

**Notes:** Clark requires concurrent enrollment in PHYS094, 095, and 096.

**Generic Requirements:**
4. Chemistry with Laboratory (5 credits)

**MRP Requirements:**
- General Chemistry I, II + labs – 5 credits

**Clark College equivalents:**
- CHEM&141, 151 (5 cr.)
- CHEM&142, 152 (5 cr.)

**Generic Requirements:**
5. Required Major Courses

**MRP Requirements:**
- Statics – 5 credits
- Mechanics of Materials – 5 credits
- Dynamics – 5 credits
Clark College equivalents: ENGR&214 (5 cr.)  
ENGR&215 (5 cr.)  
ENGR&225 (5 cr.)

B. Distribution Requirements

Generic Requirements: 1. Humanities/Fine Arts/English and Social Sciences (15 credits)

MRP Requirements: Minimum 15 quarter credits:

Minimum 5 credits in Humanities, minimum 5 credits in Social Science,  
plus an additional 5 credits in either Humanities or Social Science for a total of 15 credits.

Clark College equivalents: A course in Economics is recommended (ECON&201 or 202).  
PHIL&106 is strongly recommended as the Humanities course.

Notes: Courses taken must come from the current ICRC distribution list in order to count as General Education  
or General University Requirements (GER's/GUR's) at the receiving institution. Additional general educa-
tional requirements, cultural diversity requirements, and foreign language requirements, as required by the  
receiving institution, must be met prior to the completion of a baccalaureate degree.

C. Electives

Generic Requirements: The remaining quarter credits should be planned with the help of an advisor based on the  
requirements of the specific discipline at the baccalaureate institution the student selects  
to attend.  
For Engineering disciplines, these credits should include a design component consistent  
with ABET accreditation standards, as approved by the advisor.

MRP Requirements: Math/Engr Electives – (15 credits)

Select 4 Electives(15-20 credits) as appropriate for intended major and intended baccalaure-
ate institution:

• Computer Programming – 4-5 credits  
• Innovation in Design  
• Calculus IV (Advanced or Multi-variable Calculus)  
• 3-D Visualization and CAD (Engineering Graphics)  
• Technical Writing  
• Thermodynamics  
• Electrical Circuits  
• Materials Science  
• Applied Numerical Methods

Clark College equivalents: Required at Clark: MATH&254 (5 cr.) – Calculus IV  
Other electives as advised dependent on transfer institution.

Total credits: 102-110 credits

Pre-Nursing DTA/MRP

This pathway is applicable to students planning to prepare for upper-division Bachelor of Science, Nursing (Entry-
to-practice/basic BSN pathway) by completing a broad selection of academic courses. Many students transfer to the  
BSN program after completing the Associate Degree Nursing (ADN) program (RN to BSN pathway); however,  
this agreement is not applicable to and does not alter those ADN to BSN articulation agreements.

Students planning a career pathway in Nursing should seek advisement from Clark College’s Advising Department  
early. Besides this degree, Clark has several consortial agreements with regard to degrees in Nursing.
This pathway streamlines preparation for the basic BSN pathway across the state. It does not, however, address the issue of significantly inadequate capacity (faculty, clinical opportunities, etc.) at the BSN level relative to workforce needs or current student interest. Due to high interest and limited space in BSN programs, admission to all BSN programs is highly competitive, with many qualified applicants finding themselves on waiting lists for admission.

This document represents an agreement between the following baccalaureate institutions offering an entry-to-practice/basic BSN program and the system of community and technical colleges. Baccalaureate institutions party to this agreement include: University of Washington, Seattle; Washington State University; Northwest University; Seattle University; Seattle Pacific University; Pacific Lutheran University; Walla Walla College. The Washington State University Intercollegiate College of Nursing (WSU-ICN) is a consortium whose members include Eastern Washington University, Gonzaga, and Whitworth. Associate degree transfers to WSU-ICN are admitted through WSU, not through the other consortium institutions. EWU participated in the development of this agreement.

Though this degree does not require such, Clark College students should know that the standard Clark AA degree path has these differences from the MRP defined below:

a. Clark requires 3 credits of Health-Physical Education coursework, and
b. Clark’s Social Science distribution requirement stipulates that students take courses from at least three different departments.

Students must also meet the residency requirements as established by Clark. While Clark College has approved offering the degree below, Clark students should keep these requirements in mind should their transfer pathways change.

A. Basic Requirements

Generic DTA Requirements: 1. Communications Skills (10 credits)
MRP Requirements: 10 quarter credits of English composition
Clark College equivalents: ENGL&101 (5 cr.)
ENGL&102 (5 cr.)
Notes: ENGL&102 is REQUIRED at Northwest University and Walla Walla University.

Generic DTA Requirements: 2. Quantitative/Symbolic Reasoning Requirement (5 credits)
Intermediate algebra proficiency is required.
MRP Requirements: 5 quarter credits statistics (a course that includes descriptive and inferential statistics)
Intermediate algebra proficiency is required.
Clark College equivalents: MATH 203 (3 cr.)
MATH 204 (3 cr.)
Notes: UW Seattle and Seattle University require 10 credits in quantitative/symbolic reasoning with the additional class in college algebra or pre-calculus (at UW Seattle, a class in Logic also serves for the additional class). Students should make sure that the receiving institution will accept the business statistics sequence prior to starting.

B. Distribution Requirements

Generic DTA Requirements: 1. Humanities (15 credits)
MRP Requirements: 5 quarter credits of Public Speaking
10 quarter credits of other Humanities
Consistent with the requirements in all DTA degrees – no more than 10 credits per
discipline area, 5 credits maximum in world languages or ASL. No more than 5 credits of performance/skills classes are allowed.

**Clark College equivalents:** CMST&220 (5 cr.)—Fulfills oral communication requirement.

10 quarter credits of other Humanities, 5 of which can be CMST.

**Notes:** In order to better prepare for successful transfer, students are encouraged to consult with the institution(s) to which they wish to transfer regarding the humanities courses that best support or may be required as prerequisites to their nursing curriculum.

A curriculum that provides students with an understanding of and sensitivity to human diversity is encouraged (required by WSU). Credits in the humanities distribution area provide one opportunity for such a curriculum. See the humanities choices in the WSU “Diversity Course Identification Guidelines” for possible selection or choose courses that include minority, non-Western, ethnic or other “area” studies.

---

**Generic DTA Requirements:** 2. Social Sciences (15 credits)

**MRP Requirements:**
- 5 quarter credits, Introduction to Psychology
- 5 quarter credits, Human Development across the Life span
- 5 credits from the Sociology discipline

**Clark College equivalents:**
- PSYC&100 (5 cr.)
- PSYC&200 (5 cr.)
- 5 credits in Sociology

**Notes:** Northwest University requires Cultural Anthropology and does not accept a course in the sociology discipline as a substitute. Students may be admitted to the BSN without Cultural Anthropology if they agree to complete the course at NU in the summer prior to the junior year.

A curriculum that provides students with an understanding of and sensitivity to human diversity is encouraged (required by WSU). The credits in sociology provide one opportunity for such a curriculum. See the sociology choices in the WSU “Diversity Course Identification Guidelines” for possible selection or choose courses that include minority, non-Western, ethnic or other “area” studies.

---

**Generic DTA Requirements:** 3. Natural Sciences

**MRP Requirements:** 35 credits with at least 25 credits lab-based:
- 5 quarter credits General Biology, the course prerequisite to Anatomy/Physiology
- 10 quarter credits Anatomy and Physiology with lab
- 5 quarter credits Inorganic Chemistry with lab
- 5 quarter credits Organic/Biochemistry with lab (when Organic + Biochemistry are separate courses, both are required)
- 5 quarter credits Microbiology with lab
- 5 quarter credits Human Nutrition

**Clark College equivalents:** BIOL&100 or BIOL164/165 (5 cr.)
- (164/165 preferred)
- BIOL&100 (5 cr.)
- BIOL&251 (5 cr.)
- BIOL&252 (5 cr.)
- BIOL&253 (5 cr.)
- BIOL&260 (5 cr.)
- CHEM&121 (5 cr.)
- CHEM&131 (5 cr.)
- NUTR103 (3 cr.)*

*Students need to be aware that Clark College’s nutrition class is only three (3) credits, and not the required five (5) credits.
Notes: Introductory survey courses or review courses do not meet the content level expectations for these natural science requirements.
Northwest University requires 2 credits of Genetics as well. Students may be admitted to the BSN without Genetics if they agree to complete the course at NU in the summer prior to the junior year.
At the time of application when some of the coursework may not yet be completed, UW Seattle requires a minimum GPA of 3.0 for 3 out of the 7 courses or 2.8 for 4 out of the 7.

C. Electives

Generic DTA Requirements: Elective courses

MRP Requirements: Up to 10 additional quarter credits of which a maximum of 5 credits may be in college-level courses as defined by the community college, and the remainder shall be fully transferable as defined by the receiving institution.

Clark College equivalents: Up to 10 additional quarter credits of which a maximum of 5 credits may be in college-level courses as defined by the community college, and the remainder shall be fully transferable as defined by the receiving institution.
Students need to consult with the transfer institution to determine which course is “fully transferable.”

Notes: See notes under humanities, social science and natural science.
A curriculum that provides students with an understanding of and sensitivity to human diversity is encouraged (required by WSU). The elective credits provide one opportunity for such a curriculum. See the choices in the WSU “Diversity Course Identification Guidelines” for possible course selection or select courses that include minority, non-Western, ethnic or other “area” studies.

Career and Technical Degrees and Certificates

Associate in Applied Science (AAS)
Associate in Applied Technology (AAT)
Certificate of Proficiency (CP)
Certificate of Achievement (CA)
Certificate of Completion

Degree & Certificate Intent

The career and technical education degrees and certificates are designed for students interested in gaining specific technical career skills. Students focus on completing program specific coursework, balanced by minimal general education courses. Although the Associate in Applied Science and the Associate in Applied Technology degree programs are not designed to guarantee transfer to a senior institution, some institutions may accept technical coursework for students in certain areas of study. Students should contact an advisor and/or the senior institution for additional information.
General Requirements

Complete a minimum number of credits in specified curriculum:

- Associate Degree: Ninety (90) credits minimum
- Certificate of Proficiency: Forty-five (45) credits minimum
- Certificate of Achievement: Twenty-one (21) credits minimum
- Maintain a minimum cumulative GPA of 2.00 or higher.

Meet academic residency requirements as follows:

- Associate Degree: Thirty (30) credits minimum must be completed at Clark College.
- Certificate of Proficiency: Fifteen (15) credits minimum must be completed at Clark College.
- Certificate of Achievement: Ten (10) credits minimum must be completed at Clark College.
- Earn a grade of “C” (2.00) or higher in each major area requirement and specifically listed courses unless otherwise noted in the department requirements.

General Credit Restrictions

Physical Education Activity: Six (6) credits maximum in PE activity can apply toward the degree. Eligible HPE courses count as one (1) PE activity credit.

Other Applicable Credit Options:

- Advanced Placement (AP) and/or International Baccalaureate (IB): A maximum of sixty (60) credits from AP, IB or a combination of both, can be applied to a degree.
- College Level Examination Program (CLEP): Students may request up to fifteen (15) CLEP credits to be applied to a degree. Credits will be used to fulfill general elective requirements only.
- Course Challenge: Students may use credits earned from successful course challenges toward 25% of the degree or certificate. Credit by course challenge will meet academic residency requirements.
- Tech Prep/Direct Credit: Tech Prep/Direct Credit courses that are part of a professional program and fall into the restricted area in the DTA degree are limited to 15 credits. If Tech Prep/Direct Credit courses apply to a professional technical degree or certificate, there is no limit to the number of credits that can be applied.
- Cooperative Work Experience: No more than fifteen (15) credits may be applied to the associate degree.
- Special Projects: No more than fifteen (15) credits in Special Projects will be allowed toward the Associate in Arts degree.
- Military Experience: Credits may be earned by previous military experience. Please contact the Veterans Affairs Office at Clark College for further information. Credit awarded for military experience may be granted for up to 25% of the degree and/or certificate.

Advanced Placement / International Baccalaureate: Fifteen (15) credits combined maximum in Advanced Placement (AP) and International Baccalaureate (IB).

Pass / Fail Grading Option: Thirty (30) credits maximum in courses with Pass / Fail grading option. For AAS degrees in nursing, the thirty-credit maximum is waived due to clinical requirements.

General Information

For Associate in Applied Science degrees, General Education courses are restricted to two (2) distribution areas in the general education area of the degree.

Credit by Challenge coursework will meet academic residency requirements.
Associate in Applied Science (AAS)

The Associate in Applied Science degree is designed for students who wish to complete a program with a specific career and technical education objective. Students are required to complete a minimum of thirty (30) credits at Clark College to meet Academic Residency requirement. Students are required to maintain a cumulative GPA of 2.00 to receive this degree.

General Education Requirements

Note: Some specific requirements of a program may also meet the General Education requirements.

Communication Skills [C] – 6 credits minimum

Select one (1) course from list one and an additional course from either list one or list two, depending on program requirements.

Health & Physical Education [HE, HPE, PE] – 3 credits

Complete three (3) credits from either Option One or Option Two:

Option One: Complete two (2) credits of Health from the list below AND one (1) credit of any college-level PE activity course:

- HLTH 100, 101, 103, 104, 206, 207, 208 or 210
- PE activity

Option Two: Complete three (3) credits from one (1) of the courses listed below:

- HPE 220, 258, or 266

Computational Skills [CP] – 3 credits

Complete three (3) credits from one of the following options:

- Any MATH course numbered 030 or higher, except MATH 096
- Business – BUS 102
- Business Technology Medical Office BMED 103
- Computer Science – CS& 131, 141
- Computer Science & Engineering – CSE 121, 222, 223, 224
• Computer Technology – CTEC 121, 140, 141, 143, 224, 240, 241, 281, 282
• A placement test score qualifying the student for entry into MATH 090 will satisfy this requirement for certain designated programs.

**Human Relations [HR] – 3 credits**

Complete three (3) credits from the list below:
- Communication Studies – CMST& 210, 230
- Human Development – HDEV 105, 123, or 155
- Any Psychology (PSYC) or Sociology (SOC) course
- Addiction Counselor Education – ACED 201

**Humanities [HA, HB] – 3 credits**

Complete three (3) credits from the list below:
- Any Art course numbered 100 or above
- Communication Studies – CMST 102, 216, 240; CMST& 210, 220, 230
- Any English course in the AA Humanities distribution requirement
- Any World Language (ASL, CHIN, FRCH, GERM, JAPN, SPAN) course
- Any Humanities course
- Music – MUSC 106, 116, 117, 118, 125, 135, 180, 181, 182, 183, 184, 185; MUSC& 104, 141, 142, 143
- Any Philosophy course
- Any Drama course
- Women’s Studies – WS 101, 201, or 210

**Social Sciences [SS] – 3 credits**

Complete three (3) credits from any of following departments (note the restriction on ACED and CMST):
- Addiction Counseling – ACED 101, 201
- Anthropology
- Communication Studies – CMST& 230
- Economics
- Forensic Science
- Geography
- History
- Political Science
- Psychology
- Sociology
- Women’s Studies
Natural Sciences [NS] – 3 credits
Complete three (3) credits from any of following departments (note the restriction on Agriculture, Anthropology, and Humanities):

- Anthropology& 215, 245
- Astronomy
- Biology
- Chemistry
- (except CHEM 095)
- Environmental Science
- Geology
- Humanities 180
- Meteorology
- Nutrition
- Physical Science
- Physics

Specific Requirements in an Occupational Field
Students must complete the courses listed in their career plan, plus electives as needed to meet the ninety (90) credit requirement. Most occupational programs require more than fifty-nine (59) credits of specific requirements.

Associate in Applied Technology (AAT)
The Associate in Applied Technology degree is designed for students who wish to complete a program with a specific technical career objective. Students are required to complete a minimum of thirty (30) credits at Clark College to meet Academic Residency requirement. Students are required to maintain a cumulative GPA of 2.00 to receive this degree.

General Education Requirements
Note: Some specific requirements of a program may also meet the General Education requirements. A total of fifteen (15) credits between the three subject areas is required. You may take three (3) to five (5) credits from the courses listed below in each area of Communication Skills, Computational Skills and Human Relation, but the combined total needs to equal fifteen (15) credits.

Communication Skills [C] – 5 credits
Select a minimum of five (5) credits from the list below:
- BTEC 107
- ENGL& 101 or 135
- ENGL 212 or BUS 211
- ENGL& 235
- PTWR 135

Computational Skills [CP] – 5 credits
Complete five (5) credits from the list below:
- Business – BUS 102
- Business Technology Medical Office – BMED 103, 104
- Math – MATH 103, 105, 111, MATH& 107 or any course for which one of these is a prerequisite
- Computer Technology – CTEC 100, 101, 121

Human Relations [HR] – 5 credits
Complete five (5) credits from the list below:
• Communication Studies – CMST 216, CMST& 210, 230
• Human Development – HDEV 105, 123, 155, 186, 195, 198, 200
• Management – BUS& 101, MGMT 101, 106, 110, 112, 120, 122, 125, 128, 132
• Psychology – PSYC&100
• Sociology – SOC& 101
• Women's Studies – WS101

Specific Requirements in an Occupational Field
Students must complete the courses listed in their career plan, plus electives as needed to meet the ninety (90) credit requirement. All Associate in Applied Technology degree programs require at least seventy-five (75) credits minimum of major-related requirements.

Certificate of Proficiency (CP)
The Certificate of Proficiency is designed for students who wish to receive specialized occupational training for a specific career objective. Students must maintain a cumulative GPA of 2.00 and take a minimum of forty-five (45) credits to receive this certificate. Students are required to complete a minimum of fifteen (15) credits at Clark College to meet the Academic Residency requirement.

General Education Requirements
Note: Some specific requirements of a program may also meet the General Education requirements.

Communication Skills [C] – 3 credits
Complete a minimum of three (3) credits from the following course choices:
  • BTEC 087 or 107
  • BUS 211
  • ENGL 097, 098, 099, 103, 135, 212
  • ENGL& 101, 102, 235
  • Any PTWR course

Note: Pharmacy Technician students may meet the Communication Skills requirement by achieving one of the following:
1. Completion of ENGL 098 and a score of 74 on Reading Skills.
2. COMPASS test score of 78 on Writing skills AND completion of READ 087.
3. COMPASS test score of 78 on Writing skills AND a score of 74 on Reading skills.

Computational Skills [CP] – 3 credits
Complete a minimum of three (3) credits from:
  • Any Mathematics (MATH) course, except MATH 096
  • Computer Science & Engineering 121, 222, 223, 224, CS& 131, CS& 141
  • Business 102
  • Business Technology Medical Office BMED 103
  • Any CTEC course except CTEC 102, 103, 104, 105, 115, 180, 181, 200, or 281
  • Chemistry 095
  • PHAR 110
• Business Medical Office 040 – Only meets the computational skills requirement for Health Information Assistant, Medical Billing/Coding Specialist, and Medical Transcriptionist

• Environmental Science 135

Human Relations [HR] – 3 credits
Complete a minimum of three (3) credits from:
• Communication Studies – CMST& 210, 230
• Any Human Development (HDEV), Psychology (PSYC), or Sociology (SOC) course
• Addiction Counselor Education 201
• Business Technology – BTEC 140, 141, 143, 145, 147
• Business Medical Office – BMED 166, 225, 226
• Education – EDUC& 150 – (Only meets the human relations requirement for Early Childhood Education – State Certificate)

Specific Requirements in an Occupational Field
Refer to the prescribed curriculum in the catalog for specific coursework.

Certificate of Achievement (CA)
The Certificate of Achievement is designed for students who wish to receive specialized occupational training for a specialized career objective requiring less than forty-five (45) credits, but more than twenty (20) credits. Students must maintain a cumulative GPA of 2.00 or better. Students are required to complete a minimum of ten (10) credits at Clark College to meet the Academic Residency requirement.

Certificate of Completion
The Certificate of Completion is designed for students who wish to gain entry-level skills or for those who wish to upgrade their skills in a short period of time. Certificates of Completion typically consist of three to four courses, requiring twenty (20) or less credits. They are awarded by the department with the approval of the program advisory committee and the Office of Instruction. The courses can be taken simultaneously or individually as your schedule allows. Certificates of Completion are not recorded on the student’s Clark College transcript. These certificates are not awarded a standard Clark College diploma.

Certificates of Completion can be earned through the following departments:
• Business Technology
• Business Technology – Medical Office
• Computer Technology
• Early Childhood Education
• Nursing Assistant Certified
• Professional Baking

Application of Credit
Credits earned through Advanced Placement (AP), International Baccalaureate (IB), Tech Prep/Direct Credit, CLEP, cooperative work experience, military experience, special projects and course challenge must fall within the following guidelines when awarded:
1. Credits may be awarded only if the learning experiences fall within the outcomes of the regular curriculum of the college.
2. Academic transcripts will indicate other credits awarded.
3. Credits cannot duplicate credits already awarded.
4. Students should read the degree requirements section of this catalog for information about applying other credit options toward a degree.

The following lists the number of credits that can be applied through other credit options in each degree or certificate program at Clark College:

**Associate in Arts (AA) Associate in Fine Arts (AFA) and Associate in Science – Transfer (AST) degrees:**
- A maximum of sixty (60) credits earned through AP and/or IB will apply.
- A maximum of 25% of the degree or certificate may have credits from course challenge and military experience.
- Students can apply 15 credits in CLEP, Tech Prep/Direct Credit, cooperative work experience and Special Projects toward an AA, AFA and AST degree.
- CLEP, cooperative work experience, and Tech Prep/Direct credits will only apply toward general electives. AP, IB, course challenge, and potentially military experience credits would be allowed in distribution areas.

**Associate in Applied Science (AAS), Associate in Applied Technology (AAT):**
- A maximum of sixty (60) credits earned through AP and/or IB will apply.
- A maximum of 25% of the degree or certificate may have credits from course challenge and/or military experience.
- Students can apply 15 credits in CLEP, cooperative work experience and Special Projects toward an AA, AFA and AST degree.
- For the AAS and AAT, approved AP, IB, and Tech Prep/Direct Credit will apply to general education requirements where applicable.
- If Tech Prep/Direct Credit courses apply to a professional technical certificate, there is no limit to the number of credits that can be applied.
- Credits earned may apply toward the general elective, general education, distribution and/or program requirement categories of the degrees.
- Academic residency requirements must be met as well. Successful course challenge requirements will meet residency requirements.

**Certificate of Proficiency (CP) programs Certificate of Achievement (CA) programs**
- Up to fifteen (15) credits may be earned through course challenge, CLEP, special projects, cooperative work experience, Tech Prep/Direct Credit and applied to CP programs.
- Military experience credit can constitute 25% of the certificate.
- If Tech Prep/Direct Credit courses apply to a professional technical certificate, there is no limit to the number of credits that can be applied.
- Up to ten (10) credits may be earned through course challenge, CLEP, military experience, cooperative work experience, special projects, Tech Prep/Direct Credit and applied to CA programs.
- Credits earned will apply toward general education or program requirements.
- Academic residency requirements must be met as well. Successful course challenge requirements will meet residency requirements.
Advanced Placement (AP)

Students who complete the Advanced Placement (AP) examination in high school may be eligible for college credit if the appropriate score was earned on The College Board national examination. Students who receive a score of at least three (3), but not the specific score listed for each subject, will be granted five (5) credits in general electives. For any AP test that is not listed below, you must receive a score of 3 or better in order to receive 5 credits of General Electives. All non-traditional restrictions still apply. Where appropriate, AP credit may apply toward the general education distribution requirements of any program at Clark College. However, students intending to transfer with an Associate in Arts or Associate in Science – Transfer degree should consult with the Admissions Office at the baccalaureate institution of their choice for information on AP credit policies. Not all institutions recognize AP credit posted to the Clark College transcript. A maximum of sixty (60) credits in AP coursework can apply to the Associate in Arts or the Associate in Science – Transfer programs.

Procedure for Requesting AP Credits

Students should have an official copy of their AP scores sent to Clark College, Attn: Credential Evaluations/GHL 108, 1933 Fort Vancouver Way, Vancouver, WA 98663. Once scores are received and reviewed, an email will be sent to the student at the Clark College student email address regarding the credits to be awarded. AP credits are posted to the transcript at the end of the quarter in which the scores were submitted as long as the student is enrolled in that quarter.

Scores

Credit is posted with an “S” grade based on the following recommendations:

**Biology**
Grade: 4
Action: BIOL& 100 (5 credits)

**Chemistry (Chemistry Exam)**
Grade: 3 or 4
Action: CHEM& 141, 151 (4), (1) credits
Grade: 5
Action: CHEM& 141, 151 (4), (1) credits and CHEM& 142, 152 (4), (1) credits

**Computer Science**
See computer science advisor for credit and placement.

**English (Language and Composition Exam)**
Grade: 3, 4, or 5
Action: ENGL& 101 (5 credits)

**English (Composition and Literature Exam)**
Grade: 3, 4, or 5
Action: ENGL& 101 (5 credits)

**English (Composition and Literature Exam and Language and Composition Exam)**
Grade: 3, 4, or 5 on each exam
Action: ENGL& 101 (5 credits) and ENGL& 102 (5 credits)

**French**
Grade: 3
Action: FRCH& 221 (5 credits)
Grade: 4*
Action: FRCH& 221 (5 credits) and FRCH& 222 (5 credits)
Grade: 5*
Action: FRCH& 221 (5 credits), FRCH& 222 (5 credits), and FRCH& 223 (5 credits)
* May require an additional proficiency interview with the department before credits are granted.

Human Geography
Grade: 5
Action: GEOG& 200 (5 credits)

German
Grade: 3
Action: GERM& 221 (5 credits)
Grade: 4*
Action: GERM& 221 (5 credits) and GERM& 222 (5 credits)
Grade: 5*
Action: GERM& 221 (5 credits), GERM& 222 (5 credits), and GERM& 223 (5 credits)
* May require an additional proficiency interview with the department before credits are granted.

Government and Politics
Grade: 4 or 5
Action: POLS 111 (5 credits)

Japanese
Grade: 3
Action: JAPN& 221 (5 credits)
Grade: 4*
Action: JAPN& 221 (5 credits) and JAPN& 222 (5 credits)
Grade: 5*
Action: JAPN& 221 (5 credits), JAPN& 222 (5 credits), and JAPN& 223 (5 credits)
* May require an additional proficiency interview with the department before credits are granted.

Mathematics (Calculus AB Exam)
Grade: 3 or 4
Action: MATH& 151 (5 credits)
Grade: 5
Action: MATH& 151 (5 credits) and MATH& 152 (5 credits)

Mathematics (Calculus BC Exam)
Grade: 3 or 4
Action: MATH& 151 (5 credits) and MATH& 152 (5 credits)
Grade: 5
Action: MATH& 151 (5 credits), MATH& 152 (5 credits), and MATH& 153 (5 credits)

Physics (Physics B Exam)
Grade: 3, 4, or 5
Action: PHYS& 124L, 134 (5 credits)
Physics (Physics C Mechanics Exam)
Grade: 3 or 4
Action: PHYS& 124L, 134 (5 credits)
Grade: 5
Action: PHYS& 231L, 241 (5 credits)

Psychology
Grade: 4 or 5
Action: PSYC& 100 (5 credits)

Spanish
Grade: 3
Action: SPAN& 221 (5 credits)
Grade: 4*
Action: SPAN& 221 (5 credits) and SPAN& 222 (5 credits)
Grade: 5*
Action: SPAN& 221 (5 credits), SPAN& 222 (5 credits), and SPAN& 223 (5 credits)
*May require an additional proficiency interview with the department before credits are granted.

Statistics (Statistics Exam)
Grade: 4 or 5
Action: MATH 203 (3 credits) and MATH 204 (3 credits)

U.S. History
Grade: 3
Action: HIST& 146 (5 credits), HIST& 147 (5 credits), and HIST& 148 (5 credits)

World History
Grade: 3
Action: HIST& 126 (5 credits)

For any AP test that is not listed above, you must receive a score of 3 or better in order to receive 5 credits of General Electives.

Where to Get AP Scores
Advanced Placement Program
The College Board
PO Box 6671
Princeton, NJ 08541-6671
Phone: 609-771-7300
TTY: 609-882-4118
www.collegeboard.org
College Level Examination Program (CLEP)
360-992-2805

Clark College awards credit for successful CLEP examinations. A list of subjects and required scores follows. Students pursuing a transfer degree (Associate in Arts, Associate in Science – Transfer, or Associate in Fine Arts) may only use CLEP credit to fulfill general elective requirements.

CLEP General Examinations
Each examination is awarded a maximum of nine (9) quarter hours of credit. The required score for each examination is listed below:

- English Composition  50
- Humanities   50
- College Mathematics  50
- Social Sciences/History  50
- Natural Sciences   50

Any college coursework completed in the above discipline areas prior to the examination will be subtracted from the nine (9) credits allowed. Refer to the Other Applicable Credit Options section for further restrictions on the number of credits applicable toward specific programs.

Example: A student who has completed a five (5) credit biology course at a college or university would be allowed four (4) credits on a successful Natural Science examination.

Credits earned through the general CLEP program will appear on the student transcript under the general heading of the examination completed and will reflect a course number of “298” (i.e. ENGL 298, CLEP Examination). Credit is posted with an “S” grade at the end of the quarter. CLEP credits are not equated to any specific course at Clark College and do not affect a student’s GPA since they do not carry a letter grade. Not all institutions accept CLEP credits. Students intending to transfer to another institution should contact the transfer institution for information on their CLEP policy.

*Clark College does not accept composition modular and college composition modular tests.

CLEP Subject Examinations
Students who complete CLEP subject examinations may be eligible for credit at Clark College. The decision to grant credit for this type of examination is the responsibility of the department in which the examination was completed. All subject examinations, except world language, require department evaluation. Again, those students pursuing a transfer degree (AA, AFA or AS) may only use these exams in the general elective area of their degree. The required score for each world language is as follows:

- French, Level 1: 50 or French, Level 2: 62
  10 credits granted for FRCH& 121 and 122
- German, Level 1: 50 or German, Level 2: 63
  10 credits granted for GERM& 121 and 122
- Spanish, Level 1: 50 or Spanish, Level 2: 66
  10 credits granted for SPAN& 121 and 122

To be considered for credit, a student must pass the examination with the equivalent of a “C” or better grade. Credit will be awarded for the equivalent course(s) at Clark College for vocational/technical programs, as determined by the appropriate department. Students who have already earned credit in a course of a higher academic level than
the examination covered will not receive credit for the CLEP examination. The transcript will reflect the credit granted by listing the equivalent course number, title, and credits, with a notation stating "CLEP Examination" for the Applied Science and Technical Degrees only. Refer to the Other Applicable Credit Options section for further restrictions on the number of credits applicable toward specific programs.

**Procedure for Requesting CLEP Credits**

Students should have an official copy of their CLEP scores sent to Clark College, Attn: Credential Evaluations/GHL 108, 1933 Fort Vancouver Way, Vancouver, WA 98663. Once scores are received and reviewed, an email will be sent to the student at the Clark College student email address regarding the credits to be awarded. CLEP credits are posted to the transcript at the end of the quarter in which the scores were submitted as long as the student is enrolled in that quarter.

**Testing Facilities**

Although Clark College accepts CLEP, the college is not a testing site. The nearest CLEP testing facility is Mt. Hood Community College in Oregon. Please contact MHCC at 503-491-7591 for information on testing availability and cost.

**Where to Get CLEP Scores**

CLEP Transcript Service

---

**Cooperative Education Work Experience**

360-992-2239 or 360-992-2964

Clark College recognizes the value to students of actual experience in a work environment. Credits earned through this program may meet general elective requirements and/or core program requirements.

Cooperative Education Work Experience is an applicable credit option and is subject to the guidelines listed under the Other Applicable Credit Options section in this catalog.

---

**Course Challenge**

Students who believe that previous experience has provided them with the competencies essential for passing a course may request to challenge that course. A course challenge process may be used when: 1) there is a specific Clark College course for which the student believes that the learning outcomes can be met, and 2) the course can be challenged (some courses may not be challengeable). Students wishing to challenge a course may not be currently enrolled in the course they wish to challenge, nor may students challenge courses if they have completed a course with a higher degree of difficulty. Courses that have been successfully challenged will appear on the student’s transcript with an "S" grade. There will be no transcript entry for an unsuccessful challenge. The successful challenge will appear on the student’s transcript within the quarter earned and does not count toward the Clark College residency requirement. Students should check with the Credentials and Evaluation Office for the current application process and course challenge fee.
International Baccalaureate (IB) 360-992-2805

Clark College recognized the International Baccalaureate (IB) program as a coherent, challenging course of study and responds individually to each participant's petition for granting of college credit. Students may be awarded credit for completing individual areas of study within the program. A minimum score of five (5) on the higher-level examination is required for consideration of credit. Standard-level examinations are not granted credit. A maximum of sixty (60) credits in IB coursework can apply to the Associate in Arts or Associate in Science – Transfer programs.

Students should have an official copy of their IB scores sent to Clark College, Attn: Credential Evaluations/GHL 108, 1933 Fort Vancouver Way, Vancouver, WA 98663. Once scores are received and reviewed, an email will be sent to the student at the Clark College student email address regarding the credits to be awarded. IB credits are posted to the transcript at the end of the quarter in which the scores were submitted as long as the student is enrolled in that quarter.

Specific department policies are listed below. Examinations completed in areas not listed below require appropriate department chair approval before credit will be granted.

The International Baccalaureate program is an applicable credit option and is subject to the restrictions listed under the Other Applicable Credit Options section in this catalog.

Mathematics

Students successfully completing the Higher Level Mathematics Exam with a minimum score of five (5) will be granted college credit for MATH& 151 (5 credits) and may register for MATH& 152 (5 credits).

Chemistry

Students successfully completing the Higher Level Chemistry Exam with a minimum score of five (5) will be granted college credit for CHEM& 141, 151, 142, 152, 143, and 153 (16 credits).

Physics

Students successfully completing the Higher Level Physics Exam with a minimum score of five (5) will be granted college credit for PHYS& 124L, 125L, 126L, 134, 135, 136 (15 credits).

Military Experience 360-992-2711

Students can receive academic credits for experience and knowledge gained through military participation. Credits will be conferred based on ACE credit recommendations, in consultation with academic departments. Academic credit for military experience will be limited to 25 percent of total credits required for degree/certificate completion. Students should consult with the Veterans Affairs Department to discuss applying military credits to their degree-plan. The Credential Evaluations Department will evaluate all incoming military credits upon receipt.

Special Projects (Independent Study)

To provide for challenging learning experiences beyond regular coursework, more-advanced students may arrange to undertake Special Projects. With the approval of the division chair and under instructor supervision, students are given the opportunity to plan, organize, and complete independent study projects.

Special Projects are listed in the department course description section of the catalog as course number 290. No more than fifteen (15) credits in Special Projects will be allowed toward the Associate in Arts degree. Students are responsible for ensuring that the credits earned do not exceed this limit and that credits earned will be accepted for transfer. Students should contact the instructor to register for a Special Projects course.

Special Projects coursework is an applicable credit option under the Other Applicable Credit Options section in this catalog.
Tech Prep/Direct Credit

Tech Prep/Direct Credit is a dual-credit program that allows high school students to earn college and high school credits simultaneously in selected high school career and technical education courses. These courses have been identified and approved through formal articulation agreements created between Clark College and local high schools. Students must earn a grade of “B” or better to qualify. Students interested in the Tech Prep/Direct Credit program should contact their high school career counselor to learn more about the program and which classes qualify.

High School Articulation/Tech Prep is an applicable credit option under the Other Applicable Credit Options section in this catalog.

Transfer AA Honors Program

The Transfer AA Honors Program is designed to promote excellence in learning and to celebrate exceptional student achievement. Students admitted to the Honors Program have the opportunity to take intellectually enriching Honors courses with other outstanding students, work closely with a faculty mentor, and complete an independent capstone project relevant to their area of interest.

Program admission requirements

Students must meet the following requirements for admission to the program:

- At least 12 college-level credits with a cumulative GPA of 3.50 or higher
- Completion of ENGL& 101 with a grade of B+ or higher
- Eligibility for enrollment in MATH 093 or higher

One or more of the admission requirements above may be waived if a Clark faculty member submits a formal recommendation of admission on behalf on the student. An online application form is available at www.clark.edu/honors.

Transfer AA Honors Certificate

To earn the Honors Certificate, students must satisfy the following requirements:

- Completion of 20 credits of Honors-designated courses
- Completion of 3-credit Honors capstone course
- 3.50 cumulative GPA
- Concurrent completion of Transfer AA degree requirements

Transfer Institution Accreditation Requirements

Clark College accepts credits from regionally accredited institutions of higher education. Recognized accrediting bodies are as follows:

- Middle States Association of Colleges and Schools (MSA)
- New England Association of Schools and Colleges, Inc./Commission on Institutions of Higher Education (NEASC-CIHE)
- North Central Association of Colleges and Schools (NCA-HLC)
- Northwest Commission on Colleges and Universities (NWCCU)
- Southern Association of Colleges and Schools/Commission on Colleges (SACS-CC)
Domestic Institution Transfer Policy

Students who have attended other regionally accredited institutions of higher education may choose to transfer credit to Clark College to meet course prerequisites and degree requirements. All coursework, including courses earned as part of prior degrees, will be evaluated on a course-by-course basis for transferability to Clark College. The Credential Evaluations Office will review the content of each course transferred and determine the appropriate course equivalency.

Official copies of transcripts are required for evaluation. Transcripts are considered official if issued directly from the prior institution or delivered in the original sealed envelope. Course descriptions may be required to complete evaluation in some instances. Once transcripts from other institutions are received, they become part of a student’s permanent educational record and cannot be released by Clark College.

Although there is no limit on the number of credits that can transfer into the college, students must meet the Academic Residency requirements for their program. Any Health Occupation competitive-entry program student MUST provide all transfer institution transcripts.

International Institution Transfer Policy

Students with credits from international institutions of education may submit their academic records for credit consideration. The amount of credit awarded will vary, based on the individual record of the student. Clark College does not recognize English coursework completed in countries outside of the United States, with the exception of Australia, Canada (except Quebec province), Ireland, New Zealand, and the United Kingdom.

Clark College requires translation and evaluation of the student’s academic record from an agency that is a member of the National Association of Credential Evaluation Services. A current list of members is available online at www.naces.org. The costs of agency services are the responsibility of the student.
General Education Requirements
For the following requirements refer to the lists of applicable courses under the General Education Requirements for the Associate in Arts.

2014–2015 Associate in Science Transfer Degree – Track 1 Worksheet—Unofficial Evaluation

This is an unofficial evaluation for advising purposes only. Refer to degree requirements in this section for general information and academic residency requirements. The Associate in Science degree–Track 1 is intended for students planning to transfer to a four-year institution to further their study of Biological Sciences, Environmental/Resource Sciences, Chemistry, Geology, or Earth Sciences. Students are required to maintain a cumulative grade point average of 2.00 to receive this degree.

**General Education Requirements**
For the following requirements refer to the lists of applicable courses under the General Education Requirements for the Associate in Science – Track 1.

**Communication Skills [C] – 5 credits**
ENGL& 101

**Credits Needed**

**Total**

**Quantitative Skills [Q] – 10 credits**
MATH &151
MATH &152

**Credits Needed**

**Total**

**Health and Physical Education [HE, PE, HP] – 3 credits**

**Credits Needed**

**Total**

**Humanities and Social Science [HA, SS] – 15 credits**
Select five (5) credits of coursework from Humanities, five (5) credits of coursework from Social Science, and an additional five (5) credits of coursework from either area for a minimum of fifteen (15) credits. Humanities and Social Science courses must be selected from the Associate of Arts Distribution List. A maximum of five (5) credits of “B” list coursework may be applied.

**Credits Needed**

**Total**

**Pre-Major Sequence – 45 to 52 credits**
Chemistry sequence (required of all) 16 credits:
- CHEM& 141, 142, 143, 151L, 152L, 153L
Additional mathematics courses 5 or 6 credits:
- MATH 153 or MATH 203 AND 204
Additional Science Sequence Requirements 15-30 credits: One of the following sequence paths depending on the chosen major

A. Biological Science
- BIOL& 221L, 222L, and 223L

B. Chemistry and Geology Majors
- PHYS& 124L, 125L, 126L, 134, 135, 136

C. Environmental/Resource Sciences & Earth Science Majors
Complete 15 credits in one of the following three-course sequences (consult the baccalaureate institution for best information):
- BIOL& 221L, 222L, and 223L,
- PHYS& 124L, 125L, 126L, 134, 135, 136,

**Credits Needed**

**Total**

**Required Electives**
Science Electives – 10 to 15 credits
Complete an additional ten (10) to fifteen (15) credits (preferably in a two or three quarter sequence) in courses from the following list:
- Biology 208, 221, 222, 223, 224, 251, 252, 253, 260
- Chemistry 241, 242, 243, 251, 252, 253
- Environmental Science 210
- Geology 101, 102, 218
- Math 153, 203, 204, 205, 215, 221, 254

**Credits Needed**

**Total**

Other Electives [GE] – 5 to 12 credits
Sufficient additional college-level credits so that total credits earned is at least 90 quarter credits. These remaining courses may include prerequisites for major courses (e.g., Math 103 and 111), additional major coursework, or specific general education or other university requirements, as approved by the advisor.

**Credits Needed**

</tr>
</thead>
</table>

<table>
<thead>
<tr>
<th>MATH&amp; 152</th>
<th>Credits Needed</th>
<th>Total</th>
</tr>
</thead>
</table>

| MATH& 153 | Credits Needed | Total |

### Humanities and Social Science [HA, SS] – 15 credits

Select five (5) credits of coursework from Humanities, five (5) credits of coursework from Social Science, and an additional five (5) credits of coursework from either area for a minimum of fifteen (15) credits. Humanities and Social Science courses must be selected from the Associate of Arts Distribution List. A maximum of five (5) credits of “B” list coursework may be applied.

## Pre-Major Program Requirements – 25 credits

All students planning to earn the Associate in Science – Track 2 degree are required to complete the following course sequences. Please note that there are different sequences for Engineering and Non-engineering majors. The sequences taken are dependent on the major of the student. Sequences should be started and finished at the same institution to ensure proper transfer. Students MUST consult with faculty or advising staff to pick the correct sequences.

### Engineering Major

1. Calculus-based Physics sequence – 15 credits

2. Chemistry with Lab
   - CHEM& 141, 151

3. Additional mathematics courses (required of all—be sure to consult advisor to identify correct path) – 5 or 6 credits
   - MATH& 153 or MATH 203 AND 204

### Non-Engineering Major

1. One of the Physics sequences—Consult with the baccalaureate institution to see which sequence is required – 15 credits

2. Chemistry with Lab
   - CHEM& 141, 151
   - OR any 5-credit Biology class with a lab.

3. Additional mathematics courses (required of all—be sure to consult advisor to identify correct path) – 5 or 6 credits
   - MATH& 153 or MATH 203 AND 204

### Credits Needed | Total

---

## Elective Requirements – 32 credits

The remaining credits should be planned with the help of an advisor based on the requirements of the specific discipline at the baccalaureate institution the student selects to attend.

## Notes

Date: 

Advisor: 

---

This is an unofficial evaluation for advising purposes only. Refer to degree requirements in this section for general information and academic residency requirements.

The Associate in Science degree – Track 2 is intended for students planning to transfer to a four-year institution to further their study of Engineering, Computer Science, Physics, and Atmospheric Science. Students are required to maintain a cumulative grade point average of 2.00 to receive this degree.
General Education Requirements
For the following requirements refer to the lists of applicable courses under the General Education Requirements for the Associate in Applied Science.

Communication Skills – 6 credits min.

The Associate in Applied Technology degree is designed for students who wish to complete a program with a specific career and technical education career objective. Students are required to maintain a cumulative grade point average of 2.00 to receive this degree.

### General Education Requirements

For the following requirements refer to the lists of applicable courses under the General Education Requirements for the Associate in Applied Technology. All general education courses must be 100-level or above. A minimum of fifteen (15) credits are required from the distribution areas listed below.

### 2014–2015 Certificate of Proficiency Worksheet — Unofficial Evaluation

This is an unofficial evaluation for advising purposes only. Refer to degree requirements in this section for general information and academic residency requirements. The Certificate of Proficiency is designed for students who wish to receive specialized occupational training for a specific career objective. Students must maintain a cumulative grade point average of 2.00 to receive this certificate.

#### General Education Requirements
For the following requirements refer to the lists of applicable courses under the General Education Requirements for the Certificate of Proficiency.

Clark College 2014–2015 Catalog  
Section C: Degrees and Certificates : page C4
Addiction Counselor Education

Addiction counselors work with families and individuals of all ages who are experiencing problems with addictive behaviors. Counselors may work as members of treatment teams in inpatient or outpatient settings, with schools, or in businesses. They provide group, individual, and couples therapy as well as assessments and interventions. Addiction counselors also work as liaisons for their clients to judicial systems, schools, state services, and communities. Counselors may serve as educators in their communities, acquainting community members with treatment options and prevention strategies for the community. Please contact the Addiction Counselor Education Department (ACED) program advisor for current Washington state certification requirements.

Students must complete all specifically listed courses and Major Area Requirements with a minimum grade of “C” or better in order to successfully complete the program and be awarded the award.

Refer to the Degree & Certificate Requirements Section of the Clark College Catalog to identify the courses needed to satisfy the General Education Requirements.

Addiction Counselor Education (CP)

The Certificate of Proficiency in Addiction Counselor Education equips members of the helping professions as well as other professions with knowledge of the addiction disorders and behaviors in order to assist them in the delivery of services to their clients and patients. Knowledge of addictive processes can greatly assist members of law enforcement, teachers, health care workers, corrections and social services workers, among others, in performing their jobs in a more comprehensive manner. This certificate is intended only for those students already holding an associate degree or above.

*For non-majors also.
To learn more about this program's employment outlook, approximate cost and potential careers, please visit the Gainful Employment Program Information page.

Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Treat substance abuse clients in multiple settings including individual and group counseling situations.
- Understand and participate in addiction placement, continuing care, and discharge of patients and clients with addictions.
- Communicate effectively, accurately, and professionally, using verbal, non-verbal, and written language with diverse populations of clients, patients, colleagues, the public, and other healthcare providers.
- Demonstrate professional and ethical behaviors when working with clients, patients, other professionals, and the public.
- Successfully complete the Washington State Chemical Dependency Professional exam.
- Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
- Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
- Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.

**Program Outcomes**

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Treat substance abuse clients in multiple settings including individual and group counseling situations.
- Understand and participate in addiction placement, continuing care, and discharge of patients and clients with addictions.
- Communicate effectively, accurately, and professionally, using verbal, non-verbal, and written language with diverse populations of clients, patients, colleagues, the public, and other healthcare providers.
- Demonstrate professional and ethical behaviors when working with clients, patients, other professionals, and the public.
- Successfully complete the Washington State Chemical Dependency Professional exam.
- Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
- Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
- Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.
• Health and PE: Demonstrate progress toward healthier behaviors as appropriate for a career and technical education program.
• Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts as appropriate for a career and technical education program.
• Social Science: Evaluate, analyze, and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences as appropriate for a career and technical education program.
• Science: Apply fundamental principles and relationships from the Natural Sciences to solve problems as appropriate for a career and technical education program.

Addiction Counselor Education (AA)

Students who earn Clark College’s Associate in Arts degree qualify to transfer to most Washington colleges and universities with junior standing. Lower-division course requirements will vary depending on the transfer institution. Contact an advisor at the transfer institution to determine required coursework as soon as possible.

General Education Requirements

Communication Skills (10 credits required)
ENGL&101 ENGLISH COMPOSITION I 5 cr.

Quantitative Skills (5 credits required)
Health & Physical Education (3 credits required)
Oral Communication (5 credits required)

Humanities (15 credits required)

Social Sciences (15 credits required)
PSYC&100 GENERAL PSYCHOLOGY 5 cr.

Natural Sciences (15 credits required) Must include a lab science

Major Area Requirements
ACED 101 SURVEY OF ADDICTIONOLOGY 3 cr.
ACED 122 INTRODUCTION TO ADDICTIONS COUNSELING SKILLS 3 cr.
ACED 125 GROUP COUNSELING IN ADDICTIONS 3 cr.
ACED 136 LAW AND ETHICS IN ADDICTIONS COUNSELING 3 cr.
ACED 160 PHARMACOLOGY OF DRUGS OF ABUSE 3 cr.
ACED 201 THEORIES OF COUNSELING 3 cr.
PSYC&200 LIFESPAN PSYCHOLOGY * 5 cr.

Additional Specified Electives 4 cr.

Total Required Credits: 90

* For non-majors also.

Refer to the Degree and Certificate Requirements section in the Clark College Catalog to identify the courses needed to satisfy the general education requirements.

Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

• Treat substance abuse clients in multiple settings, including individual and group counseling situations.
• Understand and participate in addiction placement, continuing care, and discharge of patients and clients with addictions.
• Communicate effectively, accurately, and professionally, using verbal, non-verbal, and written language with diverse populations of clients, patients, colleagues, the public, and other healthcare providers.
• Demonstrate professional and ethical behaviors when working with clients, patients, other professionals, and the public.
• Successfully complete the Washington State Chemical Dependancy Professional exam.
• Information Literacy: Obtain, evaluate, and ethically use information.
• Communications: Communicate with various audiences using a variety of methods.
• Quantitative I: Perform mathematical calculations without the aid of a calculator.
• Quantitative II: Solve quantitative problems and interpret the solutions.
• Health & Physical Education: Demonstrate progress toward healthier behaviors.
• Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts.
• Social Science: Evaluate, analyze and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences.
• Power, Privilege, and Inequality: Analyze patterns of power, privilege and inequality.
• Natural Science I: Apply fundamental principles and relationships from the Natural Sciences to solve problems.
• Natural Science II: Evaluate claims about the natural world using scientific methodology.

Art

The Clark College Art Department offers many classes to help students prepare for advanced studies at a four-year institution, enter an art profession directly, or simply enrich their spirit. Clark’s Art faculty is composed of a complementary blend of highly qualified instructors possessing advanced degrees, as well as recognized working professionals who bring with them a practical knowledge of the art marketplace.

It is imperative that students planning to transfer to a college, university or art school and seek a B.A. or B.F.A. in a design-related field see an Art Department faculty member as early as possible to plan an individualized program. Call 360-992-2370 or 360-992-2639 for an appointment.

General - Art (suggested) (AA)

This is a suggested program for the first two years of major study for a general Art degree. Lower-division course requirements will vary depending on the transfer institution. Contact the transfer institution to determine required coursework as early as possible. Many transfer institutions require foreign language.

- Power, Privilege, and Inequality: Analyze patterns of power, privilege and inequality.
- Natural Science I: Apply fundamental principles and relationships from the Natural Sciences to solve problems.
- Natural Science II: Evaluate claims about the natural world using scientific methodology.

Associate in Fine Arts, Graphic Design Concentration (AFA)

The Art Department is offering this specialized, two-year degree intended to prepare students wishing to transfer into competitive-entry design programs at baccalaureate institutions. The degree may also well serve those looking to acquire a solid foundation in graphic design with the goal of seeking employment opportunities with just the associate degree, including those already holding a degree in another field who are looking to change careers.

Completion of the following recommended courses does not guarantee admission as an art major with junior standing at the transfer institution. A competitive GPA and a quality portfolio are also essential. Due to the AFA degree's heavy emphasis on art and graphic design foundation courses, upon acceptance, the AFA student should expect to complete further general education courses at the baccalaureate institution in addition to the major area coursework. Students are strongly advised to select and plan courses in collaboration with their Art Department advisor, and to contact the intended transfer institution to determine required coursework as early as possible.

Also, please see the Computer Graphics Technology (CGT) department's career and technical degrees in Web and Graphic Design, including an Associate of Applied Technology in Web and Graphic Design, the Graphic Design Certificate of Proficiency or the Web Design Certificate of Proficiency.

Total Required Credits: 99

*World Languages 121, 122 or 123 recommended if you do not have 2 years of high school foreign language or equivalent.
Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Communicate with various audiences using a variety of methods.
- Demonstrate progress toward healthier behaviors.
- Analyze, interpret, and evaluate works and ideas in the Humanities.
- Obtain, evaluate, and ethically use information.
- Apply fundamental principles and relationships from the Natural Sciences to solve problems.
- Evaluate claims about the natural world using scientific methodology.
- Analyze patterns of power, privilege and inequality.
- Perform mathematical calculations without the aid of a calculator.
- Solve quantitative problems and interpret the solutions.
- Evaluate, analyze, and explain events, behaviours, and institutions using perspectives and methods in the Social Sciences.
- Recognize and apply foundational art theory.
- Place Design Projects and issues in context of society and culture.
- Generate original ideas and utilize processes toward solving visual communication problems.
- Implement tools and technology to realize visual ideas.
- Interact, collaborate and implement projects with peers, clients or others in various work environments.
- Effectively organize and manage graphic design projects.
- Use written, verbal and visual means to effectively present and communicate graphic design projects.
- Demonstrate work and business ethics in graphic design practice.
- Information Literacy: Obtain, evaluate, and ethically use information.
- Communications: Communicate with various audiences using a variety of methods.
- Quantitative I: Perform mathematical calculations without the aid of a calculator.
- Quantitative II: Solve quantitative problems and interpret the solutions.
- Health & Physical Education: Demonstrate progress toward healthier behaviors.
- Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts.
- Social Science: Evaluate, analyze and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences.
- Power, Privilege, and Inequality: Analyze patterns of power, privilege and inequality.
- Natural Science I: Apply fundamental principles and relationships from the Natural Sciences to solve problems.

Associate in Fine Arts, Studio Art Concentration (AFA)

The Art Department offers this specialized degree primarily for students intending to pursue a Bachelor of Fine Arts in Studio Art at a baccalaureate institution with competitive portfolio entry. The program also provides a suggested framework of study for those who, although they may not wish to transfer, still want a well-rounded educational experience in studio art for personal enrichment or to develop their skills as a commercial or fine artist. The degree places emphasis on fine-art foundations courses, but also allows room for the student to explore a particular studio area (painting, drawing, photography, ceramics, or metals) in depth. The culminating ART 215 Portfolio
Development course will result in a documented body of work and in related written materials that the student can use to demonstrate their skills and to carry them to the next step on their pathway within the fine arts.

Completion of the following recommended courses does not guarantee admission as an art major with junior standing at the transfer institution. A competitive GPA and a quality portfolio are also essential. Due to the AFA degree’s heavy emphasis on studio art and art foundation courses, upon acceptance, the AFA student should expect to complete further general education courses at the baccalaureate institution in addition to the major-area coursework. Students are strongly advised to select and plan courses in collaboration with their Art Department advisor, and to contact the intended transfer institution to determine required coursework as early as possible.

Studio Concentration 9 cr.
Select a minimum of 9 credits from one of the following studio concentration areas:

- **Metal Arts:** 189, 190, 191, 295*, 296*, 297* (* required concurrent enrollment in WELD 120, 121, 122 will count towards 9 credit concentration)
- **Photography:** 140, 141, 142, 145, 146
- **Ceramics:** 180, 181, 182
- **Drawing:** 104, 105, 204, 260, 261, 262
- **Painting:** 257, 258, 259, 260, 261, 262

Specified Electives 10 cr.
Select an additional 10 credits from AA distribution list of Specified Electives

Total Required Credits: 90

**Program Outcomes**

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Synthesize design skills, contextual awareness, technique and craftsmanship to create innovative, coherent works.
- Identify and utilize the elements and principles of design in works of art.
- Analyze works and ideas in the visual arts within appropriate historical, cultural, and stylistic contexts.
- Demonstrate technical skill, care in handling of materials, awareness of process, and purposeful execution appropriate to discipline.
- Use discipline appropriate vocabulary.
- Information Literacy: Obtain, evaluate, and ethically use information.
- Communications: Communicate with various audiences using a variety of methods.
- Quantitative I: Perform mathematical calculations without the aid of a calculator.
- Quantitative II: Solve quantitative problems and interpret the solutions.
- Health & Physical Education: Demonstrate progress toward healthier behaviors.
- Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts.
- Social Science: Evaluate, analyze and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences.
- Power, Privilege, and Inequality: Analyze patterns of power, privilege and inequality.
- Natural Science I: Apply fundamental principles and relationships from the Natural Sciences to solve problems.

**Associate in Arts (AA) - General Transfer**

The Associate in Arts (AA) degree is designed for students planning to transfer to a four-year institution to pursue a bachelor’s degree program. The degree, in most cases, meets the first two (2) years of general education requirements at the senior institution. There are exceptions please check with the transfer institution for additional information. Most students transferring with the AA degree will be granted junior standing upon entry to the senior institution. The standard Associate in Arts degree is also known as a Direct Transfer Agreement (DTA) Associate degree.

**Distribution Requirements**

Humanities (15 credits required)
Select courses from at least two (2) subject areas for a minimum of fifteen (15) credits. You may include no more than 10 credits from any one subject area. A maximum of five (5) credits of A&B, Â list coursework may be applied. A maximum of five (5) credits of 100-level world language can be applied.

Social Sciences (15 credits required)
Select courses from at least three (3) subject areas for a minimum of fifteen (15) credits. You may include no more than ten (10) credits from any one subject area.

Natural Sciences (15 credits required)
Select courses from at least two (2) subject areas for a minimum of fifteen (15) credits. You may include no more than ten (10) credits from one subject area. You must include at least one lab science.

**Elective Requirements**

Complete a total of twenty-seven (27) credits from courses numbered 100 and above. The two areas of Electives are listed below. No more than 15 credits can be taken from the General Elective area.

Specified Electives (12 credits required)
Approved courses that apply: C, Q, HA, HB, SS, NS, SE, HE, HPE, PE, OC

A maximum of two (2) credits in PE activity can apply toward this area. Courses coded as HPE count as one (1) credit of PE activity.
General Electives (15 credits required)
These courses may be vocational in nature from Career and Technical education courses. The transferability of the Career-Technical courses and any ENL 100-level courses is determined by the receiving baccalaureate institution.

Note: Coursework in ESL or FLPC cannot apply to the AA degree program.

Total Required Credits: 90

See the Distribution List for the Associate in Arts Degree in the Degree and Certificate Requirements section of the catalog.

Program Outcomes
Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Information Literacy: Obtain, evaluate, and ethically use information.
- Communications: Communicate with various audiences using a variety of methods.
- Quantitative I: Perform mathematical calculations without the aid of a calculator.
- Quantitative II: Solve quantitative problems and interpret the solutions.
- Health & Physical Education: Demonstrate progress toward healthier behaviors.
- Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts.
- Social Science: Evaluate, analyze and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences.
- Power, Privilege, and Inequality: Analyze patterns of power, privilege and inequality.
- Natural Science I: Apply fundamental principles and relationships from the Natural Sciences to solve problems.
- Natural Science II: Evaluate claims about the natural world using scientific methodology.

Automotive Technology

Toyota T-TEN Program

Clark College is an award-winning Toyota Technical Education Network (T-TEN) training center. Our T-TEN program requires a Toyota Dealer sponsorship prior to admission. Entry into the program is yearly, beginning summer quarter; the format is a two-year program of a quarter of instruction on campus followed by a quarter of on-the-job learning. This means that for the two years that they are in the program, students alternate one quarter of full-time classroom and lab practice with one quarter as a full-time dealership apprentice. For additional information contact Jason Crone, T-TEN Coordinator, at 360-992-2566 or John Maduta, Advising, at 360-992-2327.

Students must complete all Major Area Requirements with a minimum grade of “C” or better in order to successfully complete the program and earn the award.

Refer to the Degree & Certificate Requirements Section in the Clark College Catalog to identify the courses needed to satisfy the General Education Requirements.

The General Automotive Technology Program is currently under revision. If you have questions you may contact the Advising Center at (360) 992-2345 to discuss the status of the program or other options that may be available.

### Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Achieve, maintain, and advance in the Toyota/Lexus technician certification process.
- Represent Toyota/Lexus and their dealers by being competent, highly trained, and ethical Toyota technicians.
- Use Toyota’s 6-step process to verify customer vehicle concern, determine related symptoms, analyze symptoms, isolate cause of concern, correct the concern, and verify proper vehicle operation.
- Work as an effective team member in a Toyota dealership environment.
- Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
- Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.

- Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.
Bioengineering & Chemical Pre-Engineering

Chemical engineers are in the forefront of efforts to make planet Earth a cleaner and healthier place to live, from finding better ways to clean up toxic spills to developing sustainable biofuels. Chemical engineers are in great demand in many industries including: pharmaceuticals, food, chemicals, energy, and all sorts of manufacturing. State environmental health and safety agencies also employ many chemical engineers.

Bioengineering is one of the fastest-growing disciplines. Bioengineers are focused on advancing human health and promoting environmental sustainability. Bioengineers apply quantitative solutions to solve diverse multidisciplinary problems.

It is critical that you work with an Engineering faculty advisor to ensure your program will give you the maximum benefit when you transfer.

BioEngineering & Chemical Pre-Engineering (AST2)

The following is a degree program designed by a consortium of two-year and four-year colleges in Washington. Students should be aware that baccalaureate institutions may have slightly different requirements for these degrees, and students should consult the transfer institution for exact questions.

Students should complete the entirety of any science sequence at the same school for best transferability. These degrees are not DTA degrees, and there are some general education requirements that students will need to finish upon transfer.

Though this degree does not require such, Clark College students should know that the standard Clark AST degree path has this difference from the Articulated Degree defined below:

- Clark requires 3 credits of Health-Physical Education coursework.

Students must also meet the residency requirements as established by Clark. While Clark College has approved offering the degree below, Clark students should keep these requirements in mind should their transfer pathways change.

Students completing this Associate of Science will receive the same priority consideration for admission to the baccalaureate institution as they would for completing the direct transfer associate degree and will be given junior status by the receiving institution.

Generic Requirements

A. Basic Requirements

1. Communication Skills 5 cr.

2. Mathematics 10 cr.

   Two courses at or above introductory calculus level. Third-quarter calculus or approved statistics course: 5 quarter credits chosen with the help of an Engineering faculty advisor based on the requirements of the specific discipline at the baccalaureate institution the student plans to attend.

3. Physics 15 cr.

   Calculus-based or non-calculus based sequence including laboratory. Students should be advised that some baccalaureate programs require physics with calculus.

4. Chemistry with Laboratory 5 cr.

B. Distribution Requirements

1. Humanities/Fine Arts/English & Social Sciences 15 cr.
C. Electives

1. Elective Courses
The remaining quarter credits should be planned with the help of an advisor based on the require-
ments of the specific discipline at the baccalaureate institution the student selects to attend.

For Engineering disciplines, these credits should include a design component consistent with ABET
accreditation standards, as approved by the Engineering faculty advisor.

Articulated Degree Requirements

A. Basic Requirements

1. English Composition 5 cr.

   Differential Equations - 5 credits

3. Physics Engineering Physics 1, 2, 3 + labs - 15 to 18 credits

4. Chemistry with Laboratory General Chemistry 1, 2, 3 + labs - 15-18 credits
   Organic Chemistry 1 + lab - 4-6 credits
   Organic Chemistry 2 + lab OR
   Biology for Science Majors + lab

B. Distribution Requirements

1. Humanities/Fine Arts/English & Social Sciences 15 cr.
   Minimum 15 quarter credits:
   Minimum 5 credits in Humanities, minimum 5 credits in Social Science, plus an additional 5 credits in
   either Humanities or Social Science for a total of 15 credits.

C. Electives

1. Elective Courses 14-15 cr.
   Engineering (14-15 credits)
   Select 3 electives as appropriate for intended major and intended baccalaureate institution. Require-
ments vary by school and program. See an Engineering faculty advisor regarding proper selection.
   Computer Programming- 4-5 credits
   Linear Algebra
   Calculus IV (Advanced or Multi-variable Calculus)
   Technical Writing
   Electrical Circuits
   Statics
   Thermodynamics
   Chemical Process, Principles and Calculations
   Biology for Science Majors I + labs
   Biology for Science Majors II + labs
   Organic Chemistry II + labs
Clark College Equivalents

B. Distribution Requirements

1. Humanities/Fine Arts/English & Social Sciences

A course in Economics is recommended (ECON&201 or 202).

PHIL&106 is strongly recommended as the Humanities course.

C. Electives

1. Elective Courses

Other electives as advised dependent on transfer institution.

<tbody>
<tr>
<td>MATH&amp;254</td>
<td>CALCULUS IV Required</td>
<td>5 cr.</td>
</tr>
</tbody>
</table>
Notes

A. Basic Requirements

2. Mathematics
Clark requires concurrent enrollment of completion in MATH&254 when taking MATH221.

MATH103 and MATH111 are required prerequisites for MATH&151 that may be needed if calculus placement is not met via COMPASS.

3. Physics
Clark requires concurrent enrollment in PHYS094, 095, and 096.

B. Distribution Requirements

1. Humanities
Courses taken must come from the current ICRC distribution list in order to count as General Education or General University Requirements (GER's/GUR's) at the receiving institution. Additional general educational requirements, cultural diversity requirements, and foreign language requirements, as required by the receiving institution, must be met prior to the completion of a baccalaureate degree.

Total Required Credits: 90-103

Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Demonstrate understanding of the derivative as instantaneous rate of change and the definite integral as a limit of a Riemann sum in applied problems.
- Analyze and solve multi-step problems using techniques through single-variable calculus, and communicate the results.
- Apply fundamental principles and relationships from the Natural Sciences to analyze technological or scientific problems.
- Acquire scientific and technological information from appropriate sources to examine issues, claims or situations.
- Apply scientific and technological knowledge and methodologies to creatively solve technological or scientific problems.
- Communicate with various audiences using a variety of methods.
- Demonstrate progress toward healthier behaviors.
- Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts.
- Obtain, evaluate, and ethically use information.
- Analyze patterns of power, privilege and inequality.
- Evaluate, analyze, and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences.

Biological Sciences

Biological sciences are the basic foundation for many professions. Upper-division requirements at the transfer institution will determine the area of specialization. Students should work with a faculty advisor to develop a specific program.
Professional Opportunities

Following completion of a Bachelor of Arts or Science Degree at a four-year institution of the student’s choice, several avenues of employment or advancement are open. A few of these are:

- Food Processing
- Commercial Fisheries
- Graduate School
- State and Federal Wildlife agencies
- Science teaching at elementary or secondary level
- Environmental Sciences
- Transfer into professional health programs (medical, dental, pharmacy, physical therapy or optometry)
- Veterinary/Animal Science

Clark’s Biological Sciences majors have had excellent success in finding placement in graduate programs, health science programs, and professional areas. Clark College offers the first two years of most Biological Sciences majors: Biology, Botany, Forestry, Genetics, Marine Biology, Microbiology, Wildlife, and Zoology. Special emphasis is placed on small class size, individual instruction, field experiences, and undergraduate research opportunities. There is good exchange between the support areas of Chemistry, Geology, and Physics to aid in developing relevant courses.

Biological Sciences (AST1)

This is a suggested program for the first two years of major study in Biological Sciences. Lower-division course requirements will vary depending on the transfer institution. Contact an advisor at the transfer institution to determine required coursework as early as possible.

General Education Requirements

Communication Skills (5 credits required)

- ENGL&101  ENGLISH COMPOSITION I  5 cr.

Quantitative Skills (10 credits required)

- MATH&151  CALCULUS I  5 cr.
- MATH&152  CALCULUS II  5 cr.

Health & Physical Education (3 credits required)

Humanities & Social Sciences (15 credits required)

- CMST&220  PUBLIC SPEAKING  5 cr.
- or CMST&230  SMALL GROUP COMMUNICATION  5 cr.
- or CMST&210  INTERPERSONAL COMMUNICATION  5 cr.

Humanities and Social Sciences Requirements**  10 cr.

Pre-Major Program Requirements

- BIOL&221  MAJORS ECOLOGY/EVOLUTION  5 cr.
- BIOL&222  MAJORS CELL/MOLECULAR  5 cr.
- BIOL&223  MAJORS ORGANISMAL PHYS  5 cr.
- CHEM&141  GENERAL CHEMISTRY I  4 cr.
- CHEM&142  GENERAL CHEMISTRY II  4 cr.

**Total Required Credits: 90**

* Check with chosen 4-year school.
**Minimum of five (5) credits of coursework in both Humanities and Social Sciences with the additional five (5) credits from either Humanities or Social Sciences.

**Program Outcomes**

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a
Certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Demonstrate understanding of the derivative as instantaneous rate of change and the definite integral as a limit of a Riemann sum in applied problems.
- Analyze and solve multi-step problems using techniques through single-variable calculus, and communicate the results.
- Apply fundamental principles and relationships from the Natural Sciences to solve problems.
- Apply scientific methodologies to develop and answer questions about the natural world.
- Acquire scientific information from appropriate sources to analyze issues, claims or situations.
- Communicate with various audiences using a variety of methods.
- Demonstrate progress toward healthier behaviors.
- Apply scientific methodologies to develop and answer questions about the natural world.
- Acquire scientific information from appropriate sources to analyze issues, claims or situations.
- Communicate with various audiences using a variety of methods.
- Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts.
- Obtain, evaluate, and ethically use information.
- Analyze patterns of power, privilege and inequality.
- Evaluate, analyze, and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences.

**Biology DTA/MRP (AA)**

This pathway is applicable to students planning to prepare for upper-division bachelor’s degree majors in Biology. Many students transfer to baccalaureate institutions after completing the Associate Degree Direct Transfer Agreement (DTA); this pathway does not alter that agreement or the possibility that students may continue to follow this path. This Biology MRP streamlines and facilitates preparation for upper-division coursework in Biology across the state.

This document represents an agreement between the following baccalaureate institutions offering bachelor’s degrees in Biology or a related field and the community and technical college system. Baccalaureate institutions party to this agreement include: Central Washington University; Eastern Washington University; The Evergreen State College; University of Washington Seattle; Washington State University Pullman; Western Washington University; Saint Martin’s University; Seattle University; and Whitworth University.

Where the degree below allows for choice in courses, students are urged to contact potential transfer institutions to ensure that the courses chosen are best for the pathway.

Though this degree does not require such, Clark College students should know that the standard Clark AA degree path has these differences from the MRP defined below:

- Clark requires 3 credits of Health-Physical Education coursework, and
- As of Fall 2011, Clark requires a course in Oral Communication, and
- Clark’s Social Science distribution requirement stipulates that students take courses from at least three different departments.

Students must also meet the residency requirements as established by Clark. While Clark College has approved offering the degree below, Clark students should keep these requirements in mind should their transfer pathways change.

Students are responsible for researching and preparing for specific major requirements of baccalaureate institutions as early as possible prior to transferring.
**Generic DTA Requirement**

A. Basic Requirements

1. Communications Skills 10 cr.
2. Quantitative/Symbolic Reasoning Requirement 5 cr.

Intermediate algebra proficiency is required.

B. Distribution Requirements

1. Humanities 15 cr.
2. Social Sciences 15 cr.
3. Natural Sciences (minimum of 15 cr.) 15 cr.

**MRP Requirements**

A. Basic Requirements

1. English Composition 10 cr.
2. Mathematics 5 cr.
   - Calculus I

B. Distribution Requirements

1. Humanities 15 cr.

Consistent with the requirements in all DTA degrees - no more than 10 credits per discipline area, 5 credits maximum in world languages or ASL. No more than 5 credits of performance/skills classes are allowed.

2. Social Sciences 15 cr.

Consistent with the requirements in all DTA degrees - no more than 10 credits per discipline area.

3. 30 quarter credits, including: 30 cr.
   - 15 credits general biology (majors level)
   - 15 credits general chemistry (majors level)

C. Electives

1. 15 additional quarter credits 15 cr.

**Clark College Equivalents**

A. Basic Requirements

1. Communication Skills
   - ENGL&101  ENGLISH COMPOSITION I  5 cr.
   - ENGL&102  ENGLISH COMPOSITION II  5 cr.

2. Quantitative/Symbolic Reasoning Requirement
   - MATH&151  CALCULUS I  5 cr.

B. Distribution Requirements

1. Humanities 15 cr.
2. Social Sciences 15 cr.
3. Natural Sciences
   - BIOL&221  MAJORS ECOLOGY/EVOLUTION  5 cr.
BIOL&222  MAJORS CELL/MOLECULAR  5 cr.
BIOL&223  MAJORS ORGANISMAL PHYS  5 cr.
CHEM&141  GENERAL CHEMISTRY I  4 cr.
CHEM&142  GENERAL CHEMISTRY II  4 cr.
CHEM&143  GENERAL CHEMISTRY III  4 cr.
CHEM&151  GENERAL CHEMISTRY LABORATORY I  1 cr.
CHEM&152  GENERAL CHEMISTRY LABORATORY II  1 cr.
CHEM&153  GENERAL CHEMISTRY LABORATORY III  2 cr.

C. Electives
1. 14 additional quarter credits (note: Clark’s chemistry sequence has 16 credits)  14 cr.

Notes
A. Basic Requirements
1. May be individualized based on baccalaureate college of choice.
2. Statistics (a course that includes descriptive and inferential statistics) may substitute for Calculus I at some institutions; students are encouraged to check with the transfer institution early in their decision process to confirm requirements.
3. Intermediate Algebra proficiency may be demonstrated by successful completion of a Calculus and/or Statistics course for which Intermediate Algebra is a prerequisite.

B. Distribution Requirements
1. In order to better prepare for successful transfer, students are encouraged to consult with the institution(s) to which they wish to transfer regarding the humanities courses that best support or may be required as prerequisites to their Biology curriculum.
2. In order to better prepare for successful transfer, students are encouraged to consult with the institution(s) to which they wish to transfer regarding the social science courses that best support or may be required as prerequisites to their Biology curriculum.
3. A full year sequence at a single college is the best preparation for the baccalaureate biology degree.

C. Electives
1. Electives allow students to include additional courses to prepare for the biology major based on college selection. Examples include a full year sequence of organic chemistry for majors; a full year sequence of physics for science majors; or further math at the pre-calculus level or above or statistics.
   Students should check with the transfer institution prior to taking any further biology courses beyond the one-year sequence. Some colleges require all continuing biology courses be taken at the 300 level.

Total Required Credits: 90 minimum

Program Outcomes
Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Information Literacy: Obtain, evaluate, and ethically use information.
- Communications: Communicate with various audiences using a variety of methods.
- Quantitative I: Perform mathematical calculations without the aid of a calculator.
- Quantitative II: Solve quantitative problems and interpret the solutions.
• Health & Physical Education: Demonstrate progress toward healthier behaviors.
• Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts.
• Social Science: Evaluate, analyze and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences.
• Power, Privilege, and Inequality: Analyze patterns of power, privilege and inequality.
• Natural Science I: Apply fundamental principles and relationships from the Natural Sciences to solve problems.
• Natural Science II: Evaluate claims about the natural world using scientific methodology.

**Business Administration**

The Business Administration program teaches individuals how to maintain a competitive edge in business today through theory and practical applications. There is special emphasis on utilizing technology to solve problems and improve productivity, teamwork, interpersonal skills, and professional workforce behavior.

Whether owning, operating, and/or managing a small or large business, Clark’s Business Administration and technical education programs allow the student to specialize in a particular area of business. Graduates have found successful positions in accounting, sales and services, merchandising and management.

Students must complete all specifically listed courses in Major Area Requirements with a minimum grade of “C” or better in order to successfully complete the program and earn the award.

Consult with a business academic advisor for recommended course, program planning.

**Business Administration (CP)**

This certificate is designed to provide basic training in business applications, emphasizing skills that are necessary within the business environment. Full credit for all courses completed for this certificate applies to the Business Administration Associate in Applied Science degree.

*Register for BTEC 100

Refer to the Degree & Certificate Requirements section in the Clark College Catalog to identify the courses needed to satisfy the general education requirements.

To learn more about this program’s employment outlook, approximate cost and potential careers, please visit the Gainful Employment Program Information page.

### Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Communicate effectively using business terminology in written and verbal language.
- Analyze a target market and develop product, pricing, promotion, and distribution strategies to meet customers’ needs at a profit.
- Identify and demonstrate professional traits and behaviors that apply to job performance in real-world environments.
- Accurately maintain payroll register as required under federal and state laws.
- Accurately prepare, interpret, and analyze financial statements for service and merchandising businesses.
- Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
- Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
- Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.

### Business Administration (AAS)

The Business Administration Applied Science degree is designed for the student who wishes to complete a general business program rather than one of the specialty areas. This degree requires a core of business courses as well as additional courses that can be structured to meet a student’s individual needs.

Additional Major Area Electives

Complete a minimum of 15 additional credits from the following areas:

Accounting (ACCT)
Business Administration (BUS)
Economics (ECON)
Supervisory Management (MGMT)
Computer Applications (BTEC - 6 credit maximum)

and

Complete as many General Elective (GE) courses as needed to reach the total of 90 credits required by the degree.

Total Required Credits: 90

*Register for BTEC 100

Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Communicate effectively using business terminology in written and verbal language.
- Analyze a target market and develop product, pricing, promotion, and distribution strategies to meet customers’ needs at a profit.
- Identify and demonstrate professional traits and behaviors that apply to job performance in real-world environments.
- Accurately maintain payroll register as required under federal and state laws.
- Accurately prepare, interpret, and analyze financial statements for service and merchandising businesses.
- Use micro- and macroeconomic concepts to analyze domestic and global business situations.
- Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
- Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
• Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.
• Health and PE: Demonstrate progress toward healthier behaviors as appropriate for a career and technical education program.
• Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts as appropriate for a career and technical education program.
• Social Science: Evaluate, analyze, and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences as appropriate for a career and technical education program.
• Science: Apply fundamental principles and relationships from the Natural Sciences to solve problems as appropriate for a career and technical education program.

**Business DTA/MRP (AA)**

Students need to make early contact with their potential transfer institutions regarding the specific course choices in each area of the agreement where options are listed (Humanities, Social Science, and Business Law or Introduction to Law) and for electives. Students also need to check with their potential transfer institutions regarding the requirement for overall minimum GPA, a higher GPA in a selected subset of courses, or a specific minimum grade in one or more courses such as math or English.

Though this degree does not require such, Clark College students should know that the standard Clark AA degree path has these differences from the MRP defined below:

- Clark requires 3 credits of Health-Physical Education coursework,
- As of Fall 2011, Clark requires a course in Oral Communication, and
- Clark’s Social Science distribution requirement stipulates that students take courses from at least three different departments.

Students must also meet the residency requirements as established by Clark. While Clark College has approved offering the degree below, Clark students should keep these requirements in mind should their transfer pathways change.

Students are responsible for researching and preparing for specific major requirements of baccalaureate institutions as early as possible prior to transferring.

**Generic DTA Requirements**

**A. Basic Requirements**

1. Communications Skills 10 cr.
2. Quantitative/Symbolic Reasoning Requirement 5 cr.
   Intermediate algebra proficiency is required.

**B. Distribution Requirements**

1. Humanities 15 cr.
2. Social Sciences 15 cr.
3. Natural Sciences

**C. Major Requirements**

1. Business courses

**D. Electives**

1. Elective courses
### MRP Requirements

**A. Basic Requirements**

1. English Composition  
   - 10 cr.
2. Quantitative/Symbolic Reasoning Requirement  
   - 10 cr.

   Must include 5 credits of business calculus, calculus 1 or a higher level math that included calculus as a prerequisite.

   May include finite math or precalculus prerequisites for calculus or other courses to prepare for business calculus.

**B. Distribution Requirements**

1. Humanities  
   - 15 cr.
   
   Consistent with the requirements in all DTA degrees - no more than 10 credits per discipline area, 5 credits maximum in world languages or ASL. No more than 5 credits of performance/skills classes are allowed.

2. Social Sciences  
   - 15 cr.
   
   Microeconomics (5 cr.)
   Macroeconomics (5 cr.)
   Additional social science - not economics (5 cr.)

3. Natural Sciences  
   - 15 cr.
   
   Statistics - business statistics preferred (5 cr.)
   Physical, biological, and/or earth science, including at least one lab course (10 cr.)

**C. Major Requirements**

1. Business Courses  
   - 20 cr.
   
   Intro to Financial Accounting (5 cr.)
   Financial Accounting II (5 cr.)
   Managerial Accounting (5 cr.)
   Business Law or Introduction to Law (5 cr.)

**D. Electives**

1. Electives  
   - 5 cr.

### Clark College Equivalents

**A. Basic Requirements**

1. Communication Skills
   - ENGL&101  ENGLISH COMPOSITION I  5 cr.
   - ENGL&102  ENGLISH COMPOSITION II  5 cr.
   - or ENGL&235  TECHNICAL WRITING  5 cr.

2. Quantitative/Symbolic Reasoning

   **Course 1**
   - MATH&148  BUSINESS CALCULUS  5 cr.
   - or MATH&151  CALCULUS I  5 cr.
   - or MATH&152  CALCULUS II  5 cr.

D. Electives

1. Elective Courses

5 cr.
Notes

A. Basic Requirements

1. Communication Skills
ENGL& 102 is REQUIRED at Eastern Washington University.

B. Distribution Requirements

1. Humanities
Students intending the international business major should consult their potential transfer institutions regarding the level of world language required for admission to the major. 5 credits in world languages may apply to the Humanities requirement.

CMST&220 is specifically required for WSUV business transfer.

3. Natural Sciences
Students intending the manufacturing management major at WWU should consult WWU regarding the selection of natural science courses required for admission to the major.

C. Major Requirements

1. Business Courses
   Universities with a lower division Business Law requirement: UW (all campuses), WSU (all campuses), EWU, CWU, WWU, Gonzaga, SMU, SPU, and Whitworth.

   The following institutions do not require a lower division Business Law course and agree to accept the course taken as part of this degree as a lower division elective, but generally not as an equivalent to the course required at the upper division: Heritage, PLU, SU, and Walla Walla University.

   International students who completed a business law course specific to their home country must take a business law course at a U.S. institution in order to demonstrate proficiency in U.S. business law.

D. Electives

1. Elective Courses

Five institutions have requirements for admission to the major that go beyond those specified above. Students can meet these requirements by careful selection of the elective University Course Equivalent to:

   WSU (all campuses): Management Information Systems MIS 250
   Gonzaga: Management Information Systems BMIS 235
   PLU: Computer applications CSCE 120, either an equivalent course or skills test
   SPU: Spreadsheet BUS 1700, either an equivalent course or skills test
   WWW: Introduction to Business Computer Systems MIS 220 (for transfer students entering fall 2014)

Total Required Credits: 90 Minimum

Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Information Literacy: Obtain, evaluate, and ethically use information.
- Communications: Communicate with various audiences using a variety of methods.
- Quantitative I: Perform mathematical calculations without the aid of a calculator.
- Quantitative II: Solve quantitative problems and interpret the solutions.
- Health & Physical Education: Demonstrate progress toward healthier behaviors.
- Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts.
- Social Science: Evaluate, analyze and explain events, behaviors, and institutions using perspectives and meth-
ods in the Social Sciences.

- Power, Privilege, and Inequality: Analyze patterns of power, privilege and inequality.
- Natural Science I: Apply fundamental principles and relationships from the Natural Sciences to solve problems.
- Natural Science II: Evaluate claims about the natural world using scientific methodology.

### Business Administration—Accounting

Accounting is an essential component of every institution and business organization. Basic accounting skills provided by the one-year certificate or the two-year degree will prove to be valuable in managing financial resources, policies and decisions.

### Accounting Clerk (CP)

This program is designed to prepare the student for an entry-level position as an accounting system operator, an accounting clerk, or a bookkeeper. The student learns bookkeeping skills in both the manual and computerized environments.

* Register for BTEC 100.

To learn more about this program's employment outlook, approximate cost and potential careers, please visit the Gainful Employment Program Information page.
**Program Outcomes**

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Perform all steps of the accounting cycle using both general and specialized journals: record, post, adjust, close, and prepare financial statements for service and merchandising businesses.
- Prepare payroll register.
- Analyze and present financial statements.
- Prepare cash flow statements.
- Manually and using a calculator, perform basic computations to approach practical business problems using appropriate mathematical techniques.
- Use the latest accounting software to perform the steps of the accounting cycle.
- Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
- Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
- Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.

**Accounting (AAS)**

The completion of this two-year program prepares the graduate for entry-level employment in private or public accounting. In addition, this degree provides a solid foundation for the student who is interested in completing a four-year degree in accounting.

### Additional Major Area Electives

Complete a minimum of 5 additional credits from the following areas:

- Accounting (ACCT)
- Business Administration (BUS)
- Economics (ECON)
- Supervisory Management (MGMT)
- Computer Applications (BTEC - 6 credit maximum)

and

Complete as many General Elective (GE) courses as needed to reach the total of 90 credits required by the degree.

* Total Required Credits: 90

* Register for BTEC 100.

### Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Accurately prepare, interpret, and analyze financial statements for service and merchandising businesses.
- Accurately prepare, interpret, and analyze financial statements using computerized systems for service and merchandising businesses.
- Accurately analyze financial data and information to make business decisions.
- Provide accounting data and information for all types and sizes of businesses, including sole proprietorships, partnerships, and corporations.
- Accurately create and maintain payroll records required under federal and state laws.
- Communicate effectively using verbal, non-verbal and written language with clarity, coherence and purpose.
- Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
- Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
- Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.
- Health and PE: Demonstrate progress toward healthier behaviors as appropriate for a career and technical education program.
- Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts as appropriate for a career and technical education program.
• Social Science: Evaluate, analyze, and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences as appropriate for a career and technical education program.
• Science: Apply fundamental principles and relationships from the Natural Sciences to solve problems as appropriate for a career and technical education program.

Business Administration-Management

The supervisory manager has the important role of getting work completed by leading, managing, and motivating people. Clark College offers a comprehensive training program that leads to a Certificate of Achievement in Supervisory Management and provides a major base for the Associate in Applied Science degree. Courses deal with solutions to supervisory problems regularly encountered on the job. This program provides an opportunity for current and potential supervisors to increase and broaden their performance levels and to advance into more responsible positions.

Students must complete all specifically listed courses in Major Area Requirements with a minimum grade of “C” or better in order to successfully complete the program and earn the award.

Consult with a business academic advisor for recommended course, program planning.

Management I (CC)

Professionally trained managers and supervisors are vital to achieving success in today’s marketplace. This 12-credit program will teach supervisory techniques to build a positive and productive work environment. Coursework will focus on real management problems faced by large and small businesses, as well as non-profit organizations. Current management concepts will be examined from actual cases, such as developing enthusiasm and creativity among employees, finding a shared vision and encouraging teamwork.

Major Area Requirements

Students must complete one course from four of the following five course clusters:

<table>
<thead>
<tr>
<th>Cluster 1</th>

#### Additional General Electives
Complete as many General Elective (GE) courses as needed to reach the total of 90 credits required by the degree.

Total Required Credits: 90

### Program Outcomes
Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Effectively manage people and resources to meet organizational and institutional goals.
- Design a comprehensive management project with given criteria using latest software.
- Demonstrate understanding of the legal environments in business.
- Apply the understanding of human resource issues and functions.
• Communicate effectively using verbal, non-verbal and written language with clarity, coherence and purpose.
• Identify applicable laws in terms of managing human resources.
• Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
• Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
• Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.
• Health and PE: Demonstrate progress toward healthier behaviors as appropriate for a career and technical education program.
• Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts as appropriate for a career and technical education program.
• Social Science: Evaluate, analyze, and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences as appropriate for a career and technical education program.
• Science: Apply fundamental principles and relationships from the Natural Sciences to solve problems as appropriate for a career and technical education program.

Business Administration-Sales, Marketing and Customer Service

The certificates and degree in this area are designed to provide students with the basic skills necessary to work for a variety of organizations that focus on the distribution of customer goods and services. Graduates of these specialized certificates have found the acquired skills very valuable in all types of business and non-profit organizations, domestic as well as international.

Students must complete all specifically listed courses in Major Area Requirements with a minimum grade of “C” or better in order to successfully complete the program and earn the award.

Consult with a business academic advisor for recommended course, program listing.

Customer Service (CA)

This program provides students with the following basic customer service skills:
• Develop a positive internal and external organizational/institutional customer climate,
• Develop a long-term customer service strategy to build a strong base for the profit and/or not-for-profit sectors, and
• Understand the entry-level jobs in the customer service field within a short completion time.

To learn more about this program’s employment outlook, approximate cost and potential careers, please visit the Gainful Employment Program Information page.

Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Understand and analyze the needs of internal and external customers of for-profit and nonprofit organizations.
- Collaborate in the establishment of rules, procedures and processes to create a positive work environment and to prevent and/or resolve operational issues.

Marketing (AAS)

Marketing provides the critical link between the producers of goods and services and the consumers of those products. Marketing professionals research, design, price, promote, and distribute goods and services that meet the needs of target consumer groups. With the foundation that this program provides, the student will be prepared for an entry-level career in the varied and interesting manufacturing, distribution, and retail fields.

General Education Requirements

Complete a minimum of 15 additional credits from the following areas:

- Accounting (ACCT)
- Business Administration (BUS)
- Economics (ECON)
- Supervisory Management (MGMT)
- Computer Applications (BTEC - 6 credit maximum)

and

Complete as many General Elective (GE) courses as needed to reach the total of 90 credits required by the degree.

Total Required Credits: 90

Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Successfully manage a buyer-seller relationship to include service follow-up, using professional selling techniques.
- Analyze a target market and develop product, pricing, promotion, and distribution strategies to meet customers’ needs at a profit.
- Create an effective business ad to meet the needs of specific target market(s).
- Use micro- and macroeconomics concepts to analyze domestic and global business situations.
- Accurately prepare, interpret, and analyze financial statements using manual and computerized systems for service and manufacturing businesses.
- Accurately maintain payroll register as required under federal and state laws.
- Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
- Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
- Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.
- Health and PE: Demonstrate progress toward healthier behaviors as appropriate for a career and technical education program.
- Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts as appropriate for a career and technical education program.
- Social Science: Evaluate, analyze, and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences as appropriate for a career and technical education program.
- Science: Apply fundamental principles and relationships from the Natural Sciences to solve problems as appropriate for a career and technical education program.

Merchandising Management (AAS)

Broadly speaking, merchandising refers to the transfer of products from producers to consumers. With the problems of distribution and merchandising becoming more complex, there is a need for men and women who possess the training necessary for leadership in this marketing/purchasing field. The recommended program is designed to give students the necessary background to advance to positions of managerial responsibility in the field of merchandising.

BUS 102  BUSINESS MATH APPLICATIONS  5 cr.

Human Relations (3 credits required)

Humanities (3 credits required)

Social Sciences (3 credits required)

ECON 101  INTRODUCTION TO ECONOMICS  3 cr.

or ECON&201  MICRO ECONOMICS  5 cr.

Natural Sciences (3 credits required)

Major Area Requirements

BUS 028  BASIC ACCOUNTING PROCEDURES  3 cr.

BUS 029  BASIC ACCOUNTING PROCEDURES  3 cr.

BTEC 150  COMPUTER BUSINESS APPLICATIONS  5 cr.

BUS& 101  INTRODUCTION TO BUSINESS  5 cr.

(or equivalent)

BUS 115  SMALL BUSINESS MANAGEMENT  3 cr.

BUS 116  MERCHANDISING MANAGEMENT  3 cr.

BUS 117  ADVERTISING  3 cr.

or BUS 217  PRINCIPLES OF ADVERTISING  5 cr.

BUS 199  COOPERATIVE WORK EXPERIENCE  1-5 cr.

BUS& 201  BUSINESS LAW  5 cr.

BUS 251  PROFESSIONAL SELLING  3 cr.

BUS 260  PRINCIPLES OF MARKETING  5 cr.

BTEC 135  10-KEY CALCULATOR  1 cr.

Additional Major Area Electives

Complete a minimum of 15 additional credits from the following areas:

Accounting (ACCT)

Business Administration (BUS)

Economics (ECON)

Supervisory Management (MGMT)

Computer Applications (BTEC - 6 credit maximum)

and

Complete as many General Elective (GE) courses as needed to reach the total of 90 credits required by the degree.

Total Required Credits: 90
Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Apply merchandising management principles and procedures to the preparation of buying, pricing, inventory, and promotional plans.
- Analyze consumer/business trends influenced by internal and external factors in order to make short-term and long-term buying decisions.
- Use micro- and macroeconomics concepts to analyze domestic and global business situations.
- Accurately prepare, interpret, and analyze financial statements, using manual and computerized systems for service and merchandising businesses.
- Accurately prepare purchasing documents for use with vendors.
- Communicate effectively using verbal, non-verbal and written language with clarity, coherence and purpose.
- Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
- Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
- Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.
- Health and PE: Demonstrate progress toward healthier behaviors as appropriate for a career and technical education program.
- Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts as appropriate for a career and technical education program.
- Social Science: Evaluate, analyze, and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences as appropriate for a career and technical education program.
- Science: Apply fundamental principles and relationships from the Natural Sciences to solve problems as appropriate for a career and technical education program.

Professional Sales (CP)

The success of most organizations in our economy depends on the ability of sales professionals to sell their products or ideas. Career opportunities are available for qualified applications as manufacturers’ representatives, brokers, and industrial and retail salespersons. Successful sales experience can be financially rewarding and can lead to managerial positions.

General Education Requirements

Communication Skills (3 credits required)

Computational Skills (3 credits required)

BUS 102 BUSINESS MATH APPLICATIONS 5 cr.

Human Relations (3 credits required)

Note: CMST& 230 satisfies the Human Relations requirement if taken as part of the Major Area Requirements.

Major Area Requirements

BTEC 101 BEGINNING KEYBOARDING * 1-3 cr.

or BTEC 103 REFRESHER KEYBOARDING * 1-3 cr.
BTEC 150  COMPUTER BUSINESS APPLICATIONS  5 cr.
BUS 028  BASIC ACCOUNTING PROCEDURES  3 cr.
BUS 029  BASIC ACCOUNTING PROCEDURES  3 cr.
BUS& 101  INTRODUCTION TO BUSINESS  3 cr.

Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Successfully manage a buyer-seller relationship to include service follow-up, using professional communication and selling techniques.
- Analyze a target market and develop product, pricing, promotion, and distribution strategies to meet customers' needs at a profit.
- Create an effective business ad to meet the needs of specific target market(s).
- Accurately prepare financial statements using manual and computerized systems for service and manufacturing businesses.
- Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
- Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
- Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.

Business Administration-Small Business Management

Small Business Management (CP)

This program is designed to provide current and prospective entrepreneurs and small-business owners with a basic foundation in small business management. Coursework includes accounting, business law, marketing, and business plan development. Upon completion of this program, students will be prepared to take on the challenge of starting, owning, and managing a small business or a franchise.

CTEC 150  INTRO TO LOCAL AREA NETWORKS  3 cr.

CTEC 181  INTRODUCTION TO DATABASE DESIGN USING ACCESS  5 cr.

CTEC 212  COMPTIA STRATA COMPUTER AND IT SUPPORT  5 cr.

Electives
Students must complete a minimum of 15 elective credits. Choose from the following list:

BTEC 155  INTRODUCTION TO OFFICE PUBLISHING TOOLS  3 cr.

BUS 211  BUSINESS COMMUNICATIONS  3 cr.

or ENGL 212  BUSINESS COMMUNICATIONS  3 cr.

CTEC 103  INTRODUCTION TO MAC/OS  3 cr.

CTEC 110  COMMAND LINE ESSENTIALS FOR WINDOWS AND UNIX  3 cr.

and NTEC 232  COMPTIA A+ COMPUTER SUPPORT TECHNICIAN  6 cr.

CTEC 200  PC HELP DESK WORK EXPERIENCE  1-5 cr.

ENGL 135  INTRODUCTION TO TECHNICAL WRITING  5 cr.

ECON 101  INTRODUCTION TO ECONOMICS **  3 cr.

CHEM&141  GENERAL CHEMISTRY I  4 cr.

and CHEM&151  GENERAL CHEMISTRY LABORATORY I **  1 cr.

CMST 216  INTERCULTURAL COMMUNICATION **  5 cr.

HIST&146  UNITED STATES HISTORY I **  5 cr.

MATH 103  COLLEGE TRIGONOMETRY  5 cr.

or MATH&107  MATH IN SOCIETY  5 cr.

PHIL&120  SYMBOLIC LOGIC  5 cr.

or PHIL&117  TRADITIONAL LOGIC  5 cr.

Total Required Credits: 95

*Register for BTEC 100.
**If you are thinking of continuing on to the EWU BA in Technology that is delivered here on campus, you may want to use any of these classes as your electives. Check with the EWU advisor for more information.

Program Outcomes
Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

• Use common office software to solve problems and present the results in a “business-ready” manner.
• Professionally employ appropriate interpersonal skills with sensitivity to ethnic and cultural differences in dealing with customers or fellow employees.
• Utilize time-management skills and set priorities while organizing and scheduling varied office activities.
• Edit business documents implementing proper grammar, spelling, word usage, and sentence structure.
• Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
• Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
• Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.

Computer Applications I (CC)
Professional skills that can prepare students for the job market in just three months are available through the Clark College Business Technology department.

The Certificate of Completion is designed for students who wish to gain entry-level skills or for those who wish to upgrade their skills in a short period of time. Certificates of Completion typically consist of three to four courses. They are awarded by the department with the approval of the program advisory committee and the Office of Instruction. The courses can be taken simultaneously or individually as your schedule allows. Certificates of Completion are not recorded on the student's Clark College transcript.

Students must complete all specifically listed courses and Major Area Requirements with a minimum grade of “C” or better in order to successfully complete the program and earn the award.

Major Area Requirements
Prerequisite: Keyboarding 30wpm

- Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
- Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.

**Business Technology-Legal Office**

The dynamics of today's legal profession require a special class of employee who is a key member of the legal team and able to deal with the complex laws in our nation. Office professionals working in the legal field must be competent in computer applications software and legal document preparation. Clark Business Technology courses provide a solid foundation in using computers for all business and office applications.

A legal assistant/paralegal cannot give legal advice, represent a client in court, set a fee, or accept a case, functions generally considered the practice of law.

Students must complete all specifically listed courses and Major Area Requirements with a minimum grade of “C” or better in order to successfully complete the program and earn the award.
Refer to the Degree & Certificate Requirements Section of the Clark College Catalog to identify the courses needed to satisfy the General Education Requirements.

**Legal Office (CP)**

This program is designed for students who have had prior training in keyboarding. The program will build upon that skill, provide knowledge of legal terminology, and improve the ability to prepare legal forms.

If they have had no prior training, students should consider entering the two-year program. Prerequisites for enrollment: one year of keyboarding in high school or 55 wpm certified by taking a keyboarding test. Students will work in a law office part-time in the last quarter.

- Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
- Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.

Legal Administrative Assistant (AAS)

The legal administrative assistant prepares legal papers, summons, complaints, motions, and subpoenas. Specialized training includes the terminology and skills necessary to meet the demands of a legal administrative assistant. Students are trained for employment with a law firm or law-related office such as corporate legal departments of business firms, banks, insurance companies, and financial institutions. Better than average growth is anticipated for this occupation in the state, while a 25% increase is expected in the next decade.

### Business Technology-Medical Assistant

The Medical Assistant program prepares students for both front-office clerical and back-office clinical medical assistant responsibilities. Clark College's Medical Assistant Program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP), on recommendation of the Curriculum Review Board of the American Association of Medical Assistants Endowment (AAMAE). Graduates of Clark College's Medical Assisting program are eligible to sit for the American Association of Medical Assistants (AAMA) Certified Medical Assistant Examination, as well as, the national certification for Medical Assistants. To gain employment in as Certified Medical Assistant students must graduate from the program and pass both certifications.

For more information refer to the following websites:
Applications are accepted at any time however this is a limited entry program. Candidates who meet the preliminary requirements will be considered for winter quarter entry.

**Minimum Requirements:**

Complete the Clark College Application for Admission and the Medical Assistant Application. Return both to the Clark College Welcome Center with the non-refundable program application fees (subject to change). For the current fee amounts, please visit the Medical Assistant website. Date of Medical Assistant Application (fee paid date) will be considered in selecting students for entry into the program.

Complete with a 2.0 or above all Preliminary Required Courses: BMED 103, BMED 110, BMED 111, BMED 116, BTEC 107 or PTWR 135 or ENGL&101, BTEC 149, HEOC 100 or BIOL 164/165, HEOC 104 and HEOC 130.

To comply with Washington State Law [WAC 246-901-030(2)], Clark College requires that students must submit proof of high school graduation, GED completion, or U.S. degree conferment to be eligible for selection into the Medical Assisting Program. Students who do not plan to apply transfer credits towards the program are not required to submit official transcripts.

Take the Clark College COMPASS Test. Call (360) 992-2648 for Assessment Center hours. The following scores or equivalent classes are required prior to program entry:

Reading: COMPASS score of 74 or higher or completion of READ 087 or equivalent with 2.0 or above.

Obtain a minimum Clark College cumulative GPA of 2.0 or above

**Program Progression:**

Obtain a complete physical to verify proof of fitness to perform Medical Assistant requirements.

Contact the Health Services Center at Clark College or a personal physician for the physical. Submit physical results to the Director of the Medical Assistant program.

Complete all program courses with a minimum grade of “C” or better.

Maintain a cumulative GPA of 2.00 or higher.
Do not repeat any required program course more than once.

Provide proof of all required immunizations before registering for Medical Office Clinical Procedures I (BMED 163) to the Director of the Medical Assistant program.

Provide proof of FBI Criminal Background before registering for Medical Office Clinical Procedures I (BMED 163) to the Director of the Medical Assistant program.

Complete or take concurrently all Medical Assistant Program courses before registering for Medical Assistant Practicum (BMED 166).

Program Outcomes
Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Demonstrate use of medical office administrative and clinical software to complete medical office tasks (scheduling, patient information management, billing and office finances).
- Apply policies and principles of office management (patient reception, scheduling, billing and office finances).
- Apply policies and procedures for office management.
- Demonstrate the ability to work as a team member to accomplish a task.
- Communicate effectively with peers, patients, and health care professionals through written and oral communications.
- Accurately and effectively demonstrate clinical skills required of the medical assistant.
- Successfully complete all criteria necessary for taking the CMA Exam.
- Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
- Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
- Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.

- Successfully complete all criteria necessary for taking the CMA Exam.
• Demonstrate lifelong learning.
• Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
• Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
• Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.

Business Technology-Medical Information

Programs in this area are designed to provide professional skills that can prepare students for the jobs in the healthcare industry.

Refer to the Degree & Certificate Requirements Section of the Clark College Catalog to identify the courses needed to satisfy the General Education Requirements.

Health Information Assistant (CP)

The Health Information Assistant program trains individuals to work in a medical record department in a variety of healthcare settings. Individuals may also work as a health unit coordinator (unit secretary) in a hospital or work in RHIT related jobs. Health information assistants assemble medical records; analyze records for completeness; file, retrieve and protect medical records; release patient information; maintain health care statistics; enter patient data; and do some basic coding.

**Program Outcomes**

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Successfully complete all criteria necessary for admission into the second year of Accredited Health Information Management (through Shoreline CC).
- Apply principles of the health information management in a health care setting.
- Demonstrate the ability to work as a team member to accomplish a task.
- Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
- Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
- Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.

**Medical Billing/Coding Specialist (CP)**

The Medical Billing/Coding Specialist program prepares individuals for employment in the areas of medical insurance, physicians office coding, health care claims processing, and home-remote coding. This program also serves the needs of healthcare personnel interested in upgrading their professional skills. Training in medical billing, CPT-4, ICD-9/10-CM/PCS coding, as well as the processing of insurance claims and basic health information procedures are included in the curriculum. Graduates have marketable skills that will be in demand well into the 21st century. With the implementation of ICD-10, Meaningful Use and other healthcare industry changes the demand for Billers and Coders has never been greater.

### Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Demonstrate use of medical office software to complete medical office tasks (billing and coding).
- Apply policies and principles of medical reimbursement.
- Accurately code using ICD-9 and CPT coding principles.
- Demonstrate the ability to work as a team member to accomplish a task.
- Communicate effectively with peers, patients, and health care professionals through written and oral communications.
- Accurately process medical billing claims.
• Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
• Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
• Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.

Business Technology-Medical Office

The personal satisfaction gained from working in the medical office profession cannot be measured by material benefits alone. With the growing need for adequate medical care, qualified workers who know the business field and possess necessary medical-associated knowledge can find jobs in physicians’ offices, clinics, hospitals, long-term facilities, health agencies, insurance companies, and other non-traditional healthcare settings. The availability of these positions continues to increase as patients draw on government aid and insurance programs to fund their healthcare and as health information becomes an increasingly vital element for the financing and quality management of health care.

Refer to the Degree & Certificate Requirements Section of the Clark College Catalog to identify the courses needed to satisfy the General Education Requirements.

• Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.

• Health and PE: Demonstrate progress toward healthier behaviors as appropriate for a career and technical education program.

• Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts as appropriate for a career and technical education program.

• Social Science: Evaluate, analyze, and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences as appropriate for a career and technical education program.

• Science: Apply fundamental principles and relationships from the Natural Sciences to solve problems as appropriate for a career and technical education program.

Medical Receptionist (CA)

A medical receptionist’s primary duties consist of medical reception, appointment scheduling, and admitting patients in a medical office or hospital. Other duties include transcription, billing, filing, and general office duties. The field is constantly expanding with improving medical treatment and increasing access to medical care.

To learn more about this program’s employment outlook, approximate cost and potential careers, please visit the Gainful Employment Program Information page.
Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Demonstrate basic use of medical office software to complete medical office tasks (scheduling, patient information management, billing and office finances).
- Apply policies and principles of office management (patient reception, scheduling, billing and office finances).
- Demonstrate the ability to work as a team member to accomplish a task.
- Communicate effectively with peers, patients, and health care professionals through written and oral communications.

Business Technology-Office

The office professional is indispensable in every business, industry, and agency in the United States. Career advancement is readily available for the individual who develops a high degree of skill in technology, management, communication, and human relations.

Students must complete all specifically listed courses and Major Area Requirements with a minimum grade of “C” or better in order to successfully complete the program and earn the award.

Refer to the Degree & Certificate Requirements Section of the Clark College Catalog to identify the courses needed to satisfy the General Education Requirements.

Administrative Assistant (AAS)

Today, administrative assistants are a part of the management team. They perform and coordinate office activities and ensure that information gets disseminated in a timely fashion to staff and clients. Management and other support staff rely on them to keep administrative operations under control. The administrative assistant is an entry-level professional administrator in many organizations.

Administrative assistants must be proficient in keyboarding and communication skills (verbal and written) and possess good interpersonal communication skills. Continuing technological changes also require them to be adaptable and versatile. Training should include a thorough knowledge of computer applications.

Nationally, this occupation is expected to grow more than the average for all occupations, while an average growth is anticipated in the state of Washington through the next decade.

**Program Outcomes**

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Produce professional documents using word-processing, spreadsheet, graphics, and database software.
- Produce and edit business documents implementing proper grammar, spelling, word usage, and sentence structure.
- Utilize time-management skills and set priorities while organizing and scheduling varied office activities.
- Create and maintain accurate filing systems (alpha, numeric, subject, and geographic) with paper and electronic records.
- Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
- Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
- Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.
Office Skills I (CC)

Professional skills that can prepare you for the job market in just three months are available through the Clark College Business Technology department.

The Certificate of Completion is designed for students who wish to gain entry-level skills or for those who wish to upgrade their skills in a short period of time. Certificates of Completion typically consist of three to four courses. They are awarded by the department with the approval of the program advisory committee and the Office of Instruction. The courses can be taken simultaneously or individually as your schedule allows. Certificates of Completion are not recorded on the student's Clark College transcript.

Students must complete all specifically listed courses and Major Area Requirements with a minimum grade of “C” or better in order to successfully complete the program and earn the award.

**Program Outcomes**

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Create, compose, and edit a variety of office correspondence, reports, tables, spreadsheets, charts, and database reports from rough drafts of text and data using word processing, spreadsheets, database, and desktop publishing software.
• Identify functions of business organizations and management in the global marketplace.
• Developing an understanding of the functions and skills needed by supervisors.
• Knowledge of accounting theory and practice including the entire accounting cycle using computerized methods to solve common business problems.
• Demonstrate and use application of statistics to practical business problems.
• Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
• Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
• Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.

Chemistry

Chemistry is the study of the properties of materials and the changes that materials undergo. One of the joys of learning chemistry is seeing how chemical principles operate in all aspects of daily life, from everyday activities like lighting a match to more far-reaching matters like the development of drugs to cure cancer or reduce environmental hazards.

People who have degrees in chemistry hold a variety of positions in industry, government, and academia. Those who work in the chemical industry find positions as laboratory chemists, carrying out experiments to develop new products (research and development), analyzing materials (quality control), or assisting customers in using products (sales and services). Analytical and control chemists usually have at least a bachelor’s degree. Those with more experience or training may work as managers or company directors. They may also embark in the medical fields or the environmental sciences.

Clark College’s Chemistry Department offers a multifaceted curriculum designed to meet a variety of needs — from those of students pursuing a health-related Applied Science Degree to requirements for earning an Associate in Science in Chemistry, Biology, Engineering, or Physics.

Chemistry (AST1)

This is a suggested program for the first two years of major study in chemistry. Lower-division course requirements will vary depending on the transfer institution. Contact an advisor at the transfer institution to determine required coursework as early as possible. Courses in computer applications are recommended for all students. Additional courses are needed to satisfy graduation requirements for the Associate in Science.

General Education Requirements

Communication Skills (5 credits required)

</tbody>
</table>
Pre-Major Program Requirements
CHEM&141  GENERAL CHEMISTRY I  4 cr.
CHEM&142  GENERAL CHEMISTRY II  4 cr.
CHEM&143  GENERAL CHEMISTRY III  4 cr.
CHEM&151  GENERAL CHEMISTRY LABORATORY I  1 cr.
CHEM&152  GENERAL CHEMISTRY LABORATORY II  1 cr.
CHEM&153  GENERAL CHEMISTRY LABORATORY III  2 cr.
PHYS&241  ENGINEERING PHYSICS I  4 cr.
and PHYS&231  ENGINEERING PHYSICS LAB I  1 cr.
PHYS&242  ENGINEERING PHYSICS II  4 cr.
and PHYS&232  ENGINEERING PHYSICS LAB II  1 cr.
PHYS&243  ENGINEERING PHYSICS III  4 cr.
and PHYS&233  ENGINEERING PHYSICS LAB III  1 cr.

Science Electives
CHEM&241  ORGANIC CHEMISTRY I  4 cr.
CHEM&242  ORGANIC CHEMISTRY II  4 cr.
CHEM&243  ORGANIC CHEMISTRY III  4 cr.
CHEM&251  ORGANIC CHEMISTRY LABORATORY I  1 cr.
CHEM&252  ORGANIC CHEMISTRY LABORATORY II  1 cr.
CHEM&253  ORGANIC CHEMISTRY LABORATORY III  2 cr.

Other Electives- 0-11 credits
ENGL&102  ENGLISH COMPOSITION II  5 cr.
or ENGL 109  WRITING ABOUT THE SCIENCES  5 cr.
or ENGL&235  TECHNICAL WRITING  5 cr.
MATH 111  COLLEGE ALGEBRA  5 cr.
MATH 221  DIFFERENTIAL EQUATIONS  5 cr.
MATH&254  CALCULUS IV  5 cr.
GERM&122  GERMAN II **  5 cr.
GERM&123  GERMAN III **  5 cr.
or another language

Total Required Credits: 105

*CMST&230 would count as a social science; otherwise, the third course needs to be a social science.
** Please check with the transfer institution regarding foreign language requirements.

Program Outcomes
Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a
certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Demonstrate understanding of the derivative as instantaneous rate of change and the definite integral as a limit of a Riemann sum in applied problems.
- Analyze and solve multi-step problems using techniques through single-variable calculus, and communicate the results.
- Apply fundamental principles and relationships from the Natural Sciences to solve problems.
- Apply scientific methodologies to develop and answer questions about the natural world.
- Acquire scientific information from appropriate sources to analyze issues, claims or situations.
- Communicate with various audiences using a variety of methods.
- Demonstrate progress toward healthier behaviors.
- Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts.
- Obtain, evaluate, and ethically use information.
- Analyze patterns of power, privilege and inequality.
- Evaluate, analyze, and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences.

Communication Studies (Area of Study)

Working with people requires excellent verbal communication skills. Communication skills are some of the most important skills employers look for in college students preparing for the workplace, regardless of major or degree. Clark College offers courses in interpersonal, small group, and public speaking, as well as studies in mass communication, cross-cultural, and persuasion theory.

Effective communication is vital for success in most careers. Communication Studies courses enhance many degree programs and can help students develop skills that are beneficial for a variety of different fields. Students pursuing an associate in arts, an applied science degree, or a certificate of proficiency can benefit from Communication Studies courses, and many four-year degree programs require that students take at least one Communication Studies course.

Students pursuing a four-year degree in Communication Studies are strongly advised to consult a Communication Studies faculty member and an advisor from their transfer institution for assistance in planning their degree program.

Competitive Speaking and Debate Team

Students who enjoy public speaking will find a prestigious home on the Clark College Competitive Speaking and Debate Team. The team has a long history of success, having won state, regional, and national championships. The team's notoriety extends around the globe, as team members have traveled to Italy, Spain, Czech Republic, and Great Britain to compete.

Students are encouraged to join the team to improve public speaking and critical thinking abilities, as well to as increase confidence and poise. For more information, contact the speech and debate director at 360-992-2285.

Career Opportunities

Students often ask, “What can I do with a communication degree?” Choosing the best educational path to a satisfying job and successful career can be difficult for a student. In a national survey of 1,000 human resource managers, oral communication skills are identified as valuable for both obtaining information and successful job performance. Fortune 500 executives indicate that college students need better communication skills, as well as the ability to work in teams and with people from diverse backgrounds. A degree in communication is useful for the following careers:
Administrative Services  
Advertising  
College Professor  
Community Affairs  
Conflict Resolution Specialist  
Consulting  
Customer Service  
Government  
Health Communication  
Hotel Management  
Human Development  
International Relations  
Lobbyist  
Marketing  
Marriage Counselor  
Mediation  
Negotiator  
Police Officer  
Politics  
Public Relations  
Radio & Television Broadcasting  
Social Services

Communication Studies Courses

Many Clark students earn their Associate in Arts degree at Clark, transfer to a four-year institution with a junior standing and go on to earn their bachelor’s degree in communication. Communication Studies department courses typically transfer to four-year institutions. However, students should contact their transfer institution to clarify each course’s transferability.

Computer Aided Design & Drafting Technology

Drafting and design activities are central to the eventual creation of physical parts and structures. Designs, communicated through drawings which have been drafted and detailed, give rise to mechanical parts and assemblies; architectural building structures; bridges, roads and highways; and a seemingly infinite array of consumer products. Almost every company involved with design and/or manufacturing has one or more design/drafting positions, and those companies use computer aided drafting & design (CADD) software applications as their primary design and drafting tool.

Clark College offers CADD Certificate of Proficiency (CP) and Associate of Applied Science (AAS) programs in three areas: architectural, civil, and mechanical. Each of these programs is structured to prepare the student for entry-level work as a CADD technician. CADD Technology department personnel strive to take your personal goals into account, and will work with you to customize your degree requirements if warranted. This program is a professional-technical program and we try to provide the best real-world environment we can. Our teaching
and open lab facilities boast fine equipment and each type of CADD software we teach is kept up to its current educational version. The program requires a co-op, or internship, for graduation. This experience -- driven by you, the student -- can be vital in gaining successful employment. After gaining experience, many people are successful in setting up their own contract design/drafting businesses. Other find that greater challenges are available in engineering or architecture, and go on to pursue further education in those fields. Some see CADD work as a means to support themselves as they continue that education.

**General Preparation**

Since many of the program courses are computer-based, students should be comfortable using a computer before entering any of these programs. If interested, contact a CADD department faculty advisor to help you in your career and course-scheduling decisions. Placement testing is required to determine if mathematical and reading levels are adequate for the required courses, or if remedial coursework must be first completed. Interested high school students should prepare themselves by taking mathematics (algebra and geometry), physics, and drafting in particular.

After successful completion of this program, students will be able to:

- Create and manipulate mechanical drawings and models in a multitude of CADD applications (core CADD skills).
- Fully annotate and print mechanical drawings (core drafting skills).
- Demonstrate aspects of elementary design skills.
- Discuss and communicate aspects of various industries and businesses that typically use CADD applications.
- Demonstrate aspects of employability for an entry-level CADD-related position.
- Demonstrate aspects of professionalism as appropriate for an entry-level CADD-related position.
• Demonstrate core mechanical CADD and drafting skills, and professionalism and employability through working with a client on a capstone project.

• Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.

• Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.

• Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.

• Health and PE: Demonstrate progress toward healthier behaviors as appropriate for a career and technical education program.

• Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts as appropriate for a career and technical education program.

• Social Science: Evaluate, analyze, and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences as appropriate for a career and technical education program.

• Science: Apply fundamental principles and relationships from the Natural Sciences to solve problems as appropriate for a career and technical education program.

Computer and Electrical Pre-Engineering

Electrical & Computer Engineers design, develop and analyze computer, electrical and electronic systems. These engineers work within multi-disciplinary teams and are employed in all industries. Their projects include power generation and distribution, communications systems, robotics, nano- and micro-electrical machinery, Biosystems, semiconductors, automation and robotics, networking, embedded systems and general computer system.

It is critical that you work with an Engineering faculty advisor to ensure your program will give you the maximum benefit when you transfer.

Computer and Electrical Pre-Engineering (AST2)

The following is a degree program designed by a consortium of two-year and four-year colleges in Washington. Students should be aware that baccalaureate institutions may have slightly different requirements for these degrees, and students should consult the transfer institution for exact questions.

Students should complete the entirety of any science sequence at the same school for best transferability. These degrees are not DTA degrees, and there are some general education requirements that students will need to finish upon transfer.

Though this degree does not require such, Clark College students should know that the standard Clark AST degree path has this difference from the Major Related Program defined below:

• Clark requires 3 credits of Health-Physical Education coursework.

Students must also meet the residency requirements as established by Clark. While Clark College has approved offering the degree below, Clark students should keep these requirements in mind should their transfer pathways change.

Students completing this Associate of Science will receive the same priority consideration for admission to the baccalaureate institution as they would for completing the direct transfer associate degree and will be given junior status by the receiving institution.
## Generic Requirements

### A. Basic Requirements

1. **Communication Skills**  
   5 cr.

2. **Mathematics**  
   10 cr.

Two courses at or above introductory calculus level. Third-quarter calculus or approved statistics course: 5 quarter credits chosen with the help of an Engineering faculty advisor based on the requirements of the specific discipline at the baccalaureate institution the student plans to attend.

3. **Physics**  
   15 cr.

Calculus-based or non-calculus based sequence including laboratory. Students should be advised that some baccalaureate programs require physics with calculus.

4. **Chemistry with Laboratory**  
   5 cr.

5. **Required Major Courses**

### B. Distribution Requirements

1. **Humanities**  
   15 cr.

### C. Electives

1. **Elective Courses**  
   The remaining quarter credits should be planned with the help of an Engineering faculty advisor based on the requirements of the specific discipline at the baccalaureate institution the student selects to attend.

For Engineering disciplines, these credits should include a design component consistent with ABET accreditation standards, as approved by the Engineering faculty advisor.

## Articulated Degree Requirements

### A. Basic Requirements

1. **English Composition**  
   5 cr.

2. **Mathematics**  
   Calculus I, II, III - 15 credits  
   Differential Equations - 5 credits  
   Linear Algebra - 5 credits

3. **Physics**  
   Engineering Physics 1, 2, 3 + labs - 15 to 18 credits

4. **Chemistry with Laboratory**  
   General Chemistry I + labs - 5 credits

5. **Required Major Courses**  
   Electrical Circuits - 4-5 credits

### B. Distribution Requirements

1. **Humanities/Fine Arts/English and Social Sciences**  
   Minimum 15 quarter credits:  
   Minimum 5 credits in Humanities, minimum 5 credits in Social Science, plus an additional 5 credits in either Humanities or Social Science for a total of 15 credits.

### C. Electives

   20-25 cr.

Select 5 electives as appropriate for intended major and intended baccalaureate institution:

- A second course in Computer Programming - object oriented - 4-5 credits
- Innovation in Design
- Calculus IV (Advanced or Multi-variable Calculus)
### Clark College Equivalents

**A. Basic Requirements**

1. **Communication Skills**
   - ENGL&101  ENGLISH COMPOSITION I  5 cr.

2. **Mathematics**
   - MATH&151  CALCULUS I  5 cr.
   - MATH&152  CALCULUS II  5 cr.
   - MATH&153  CALCULUS III  5 cr.
   - MATH 215  LINEAR ALGEBRA  5 cr.
   - MATH 221  DIFFERENTIAL EQUATIONS  5 cr.

3. **Physics**
   - PHYS&241  ENGINEERING PHYSICS I  4 cr.
   - and PHYS&231  ENGINEERING PHYSICS LAB I  1 cr.
   - PHYS&242  ENGINEERING PHYSICS II  4 cr.
   - and PHYS&232  ENGINEERING PHYSICS LAB II  1 cr.
   - PHYS&243  ENGINEERING PHYSICS III  4 cr.
   - and PHYS&233  ENGINEERING PHYSICS LAB III  1 cr.

4. **Chemistry with Laboratory**
   - CHEM&141  GENERAL CHEMISTRY I  4 cr.
   - CHEM&151  GENERAL CHEMISTRY LABORATORY I  1 cr.

5. **Required Major Courses**
   - ENGR&204  ELECTRICAL CIRCUITS  5 cr.
   - CSE 121  INTRODUCTION TO C  5 cr.

**B. Distribution Requirements**

1. **Humanities/Fine Arts/English & Social Sciences**
   - A course in Economics is recommended (ECON&201 or 202).
   - PHIL&106 is strongly recommended as the Humanities course.
C. Electives

1. Required at Clark

MATH&254 (5 cr.) - Calculus IV

Other electives as advised dependent on transfer institution.

Notes

A. Basic Requirements

2. Mathematics

Clark requires concurrent enrollment of completion in MATH&254 when taking MATH221.

MATH103 and MATH111 are required prerequisites for MATH&151 that may be needed if calculus placement is not met via COMPASS.

3. Physics

Clark requires concurrent enrollment in PHYS094, 095, and 096.

B. Distribution Requirements

1. Humanities

Courses taken must come from the current ICRC distribution list in order to count as General Education or General University Requirements (GER’s/GUR’s) at the receiving institution. Additional general educational requirements, cultural diversity requirements, and foreign language requirements, as required by the receiving institution, must be met prior to the completion of a baccalaureate degree. Total Required Credits: 95-104

Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Demonstrate understanding of the derivative as instantaneous rate of change and the definite integral as a limit of a Riemann sum in applied problems.
- Analyze and solve multi-step problems using techniques through single-variable calculus, and communicate the results.
- Apply fundamental principles and relationships from the Natural Sciences to analyze technological or scientific problems.
- Acquire scientific and technological information from appropriate sources to examine issues, claims or situations.
- Apply scientific and technological knowledge and methodologies to creatively solve technological or scientific problems.
- Communicate with various audiences using a variety of methods.
- Demonstrate progress toward healthier behaviors.
- Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts.
- Obtain, evaluate, and ethically use information.
- Analyze patterns of power, privilege and inequality.
- Evaluate, analyze, and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences.
Computer Graphics Technology

The Computer Graphics Technology (CGT) program at Clark College provides hands-on learning with technologies used to create visual graphics, develop integrated media, and produce design solutions. Students taking our courses have an interest in computer graphics, multimedia, web design or graphic design. Our students' needs range from wanting specific software training, to acquiring a set of skills, to pursuing a certificate or degree.

CGT offers Career and Technical Education programs designed to prepare students for employment in various creative and technical disciplines. Our curriculum consists of two specialized certificate programs in Web Design or Graphic Design. These certificates can lead to one of our comprehensive AAT degrees in Web and Graphic Design or Web Design & Development. Students may also be interested in the ART Department's Associate in Fine Arts (AFA) transfer degree in Graphic Design.

Students are encouraged to meet with a CGT program advisor to discuss options, help plan your course schedule, tour the facilities, and talk with current students. Students must complete all Major Area Requirements with a minimum grade of “C” or better in order to successfully complete the program and earn the award. Refer to the Degree & Certificate Requirement Section of the Clark College catalog to identify the courses needed to satisfy the General Education Requirements.

Web/Graphic Design (AAT)

The Web & Graphic Design AAT degree prepares students for professional practice in the field of visual communications. The program builds a first-year foundation of aesthetic and technical skills and progresses into advanced study of web and graphic design practices. Students learn to effectively communicate ideas and information in a variety of traditional, digital, print, web and other media formats. Essential skills are developed through practical hands-on experience, real client project work, a focus on professional skills and building a portfolio of work. Graduates can seek employment as freelance designers, production designers or coordinators, content managers or publishers, marketing communications specialists, or entry-level web or graphic designers.

**Program Outcomes**

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Apply fine art theory and design purposeful projects relevant to audience needs.
- Synthesize multiple media assets with appropriate interactions and functions.
- Generate original ideas and utilize processes toward solving visual communication problems.
- Implement tools and technology to realize visual ideas.
- Interact, collaborate and implement projects with peers, clients or others in various work environments.
- Effectively organize and manage web design projects.
- Use written, verbal and visual means to effectively present and communicate web design projects.
- Demonstrate work and business ethics in web design practice.
- Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
- Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
- Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.
Web Design (CP)

The Web Design Certificate prepares students to create web graphics, integrate media, and design websites. The program provides a foundation of aesthetic and technical skills through the study of visual design concepts, multimedia technologies and web design practices. Essential skills are developed through practical hands-on experience, real client project work, a focus on professional skills and building a portfolio of work. Graduates can seek employment as a freelance web designer, production artist, web content designer, e-marketing assistant, or other web-related production and support roles within a business.

General Education Requirements
Communication Skills (3 credits required)
- ENGL&101  ENGLISH COMPOSITION I  5 cr.
  or ENGL 135  INTRODUCTION TO TECHNICAL WRITING  5 cr.
Computational Skills (3 credits required)
- CTEC 122  HTML FUNDAMENTALS  4 cr.
Human Relations (3 credits required)
- CMST&210  INTERPERSONAL COMMUNICATION  5 cr.
  or CMST&230  SMALL GROUP COMMUNICATION  5 cr.

Major Area Requirements
Fine Art Foundations
- ART 110  CREATIVITY AND CONCEPT  3 cr.
- ART 115  TWO-DIMENSIONAL DESIGN  4 cr.
- ART 118  TIME-BASED ART AND DESIGN  3 cr.
Computer Graphics Technology

### Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Recognize and apply foundational art theory.
- Place design projects and issues in context of society and culture.
- Generate original ideas and utilize processes toward solving visual communication problems.
- Implement tools and technology to realize visual ideas.
- Interact, collaborate and implement projects with peers, clients or others in various work environments.
- Effectively organize and manage graphic design projects.
- Use written, verbal and visual means to effectively present and communicate graphic design projects.
- Demonstrate work and business ethics in graphic design practice.
- Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
- Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
- Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.

### Computer Science

Computers are an integral part of most human activities and professions. Therefore, a wide variety of career opportunities are available to the computer science professionals who are commonly referred to as computer scientists.
Computer scientists are responsible for analyzing requirements, planning, developing high-level design, writing, and testing the program that delivers the expected results. Computer scientists may be involved with support and maintenance of the solutions.

Computer scientists are employed in all industries such as manufacturing, finance, service, retail, gaming, and others. Typically, computer scientists work with other professionals in order to develop solutions that meet business and customer requirements.

Computer science specialties include:
- Artificial intelligence
- Computer vision
- Database
- Graphics and animation
- Embedded systems
- Networking
- Operating Systems
- Program languages and compilers
- Robotics

**Computer Science (AST2)**

This is a suggested program for the first two years of a four-year Computer Science program. These lower-division course requirements will vary depending on the math and English placement at Clark College, and on the requirements of the four-year institution to which you transfer. It is critical that you work with a Computer Science and Engineering faculty advisor to ensure your program will give you the maximum benefit when you transfer. Additional courses are needed to satisfy graduation requirements for the Associate in Science degree.

Requirements vary by school and program. See an Engineering faculty advisor regarding proper selection.

Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Demonstrate understanding of the derivative as instantaneous rate of change and the definite integral as a limit of a Riemann sum in applied problems.
- Analyze and solve multi-step problems using techniques through single-variable calculus, and communicate the results.
- Apply fundamental principles and relationships from the Natural Sciences to analyze technological or scientific problems.
- Acquire scientific and technological information from appropriate sources to examine issues, claims or situations.
- Apply scientific and technological knowledge and methodologies to creatively solve technological or scientific problems.
- Communicate with various audiences using a variety of methods.
- Demonstrate progress toward healthier behaviors.
- Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts.
- Obtain, evaluate, and ethically use information.
- Analyze patterns of power, privilege and inequality.
- Evaluate, analyze, and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences.

Computer Technology

The Computer Technology (CTEC) department at Clark College offers training in a variety of foundational and content-specific topics relating to general computer literacy and fluency, computer operating systems interactions, programming, databases, web technology, and networking. Our course offerings serve a variety of missions: to enhance and expand an individual student’s skill set, to serve as a prerequisite or requirement for another area of study, or to be a component course in one of the programs offered by this department.
CTEC currently offers the Computer Support Specialist program with degree and certificate options to provide students with skills for employment as computer technicians, help desk workers and other technical support roles. The department also offers a certificate in Web Programming and an AAT degree in Web Development.

Student considering options in computer-related careers should meet with a program advisor to consider which CTEC courses or programs may benefit them in their training and career exploration. CTEC course offerings can help provide a foundational understanding and set of skills in computer technology that will help them make informed decisions on career choices in other Clark College computer-related programs offered by Networking Technology (NTEC), Computer Graphics Technology (CGT), and Business Technology (BTEC), as well as on transfer opportunities in Computer Science and Information Technology.

For CTEC degrees and certificates, students must complete all major area requirements with a minimum grade of “C” or better in order to successfully complete the program and earn the award. Students should refer to the Degree & Certificate Requirements Section of the Clark College Catalog to identify the courses needed to satisfy the General Education Requirements for our program offerings.

**Computer Support (CP)**

This program is designed for students desiring careers as computer support technicians and specialists who offer services and support for a company or organization. Support specialists install, configure and maintain hardware and software as well as diagnose, troubleshoot, and resolve computer-related problems. The Computer Support Specialist Certificate of Proficiency at Clark College features training in foundational skills, based on computer industry certifications; an emphasis on customer service; and work experience in a computer help desk setting.

Students interested in the Computer Support Specialist program should obtain advising before entering the program.

To learn more about this program’s employment outlook, approximate cost and potential careers, please visit the Gainful Employment Program Information page.

Program Outcomes
Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

• Demonstrate foundational understanding of concepts, skills and issues relating to underlying technology and current industry standards involving computer technology.
• Install, configure, and maintain hardware and software to bring the system to an appropriate operational level for the end user.
• Diagnose, troubleshoot and repair customer hardware, software, and networking issues.
• Identify, access, and evaluate resources, and respond appropriately and professionally with written and verbal communications to colleagues and customers.
• Maintain a professional and supportive role with colleagues and customers in regard to their computer technology needs.
• Analyze the ethical and legal issues surrounding access to and use of technology.
• Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
• Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
• Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.

Computer Support (AAS)
This program is designed for students desiring careers as computer support technicians and specialists who provide services and support for a company or organization. Support specialists install, configure and maintain hardware and software as well as diagnose, troubleshoot, and resolve computer-related problems. The Computer Support Specialist Associate of Applied Science at Clark College features training in foundational skills based on computer industry certifications. It also features an emphasis on support for a variety of platforms and network settings. Students in the program will gain practical experience in help desk and other service environments.

Students interested in the Computer Support Specialist program should obtain advising before entering the program.

General Education Requirements

Program Outcomes
Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Demonstrate broad-based understanding of concepts, skills and issues relating to underlying technology and current industry standards involving computer and information technology.
- Install, configure, and maintain hardware and software to bring the system to an optimal operational level for the end user.
- Diagnose, troubleshoot and repair customer hardware, software, and networking issues in a variety of environments.
- Identify, access, and evaluate resources, and respond appropriately and professionally with written and verbal communications to colleagues and customers.
- Maintain a professional and supportive role with colleagues and customers in regard to their computer technology needs.
- Analyze the ethical and legal issues surrounding access to and use of technology.
- Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
- Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
- Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.
• Health and PE: Demonstrate progress toward healthier behaviors as appropriate for a career and technical education program.

• Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts as appropriate for a career and technical education program.

• Social Science: Evaluate, analyze, and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences as appropriate for a career and technical education program.

• Science: Apply fundamental principles and relationships from the Natural Sciences to solve problems as appropriate for a career and technical education program.

Web Programming (CA)

This certificate is designed to provide foundational training in key technologies related to web programming and web development.

All students interested in this program option should obtain advising prior to pursuing this certificate.

**Program Outcomes**

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Demonstrate a working knowledge of recognized client/server-related technologies related to World Wide Web interactions.
- Exercise foundational skills relating to interactions and tools in the Linux operating system.
- Design and execute back-end scripting solutions to support web server activities.
- Create executable server-side resources using PHP and relational databases.
- Create and deploy client-side resources using HTML/CSS, JavaScript and other related tools.
- Develop and deliver web content in a team or group setting.

Web Development (AAT)

The Web Development AAT degree provides students with a foundational and employable skill set in web programming and development technologies as well experience and skills in web design and media associated with the
World Wide Web. Essential skills are developed through practical hands-on experience, real client project work, a focus on professional skills and building a portfolio of work.

*Total Required Credits: 92*
Program Outcomes
Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Web Foundations: Write, organize and publish well written content and code to engage web communities for personal and professional research, marketing, and interaction.
- Web Media: Create original visual graphics, audio, and integrated media design for the web.
- Web Design: Develop interactive websites from concept to design to execution with that provide an effective user experience and meet client needs.
- Web Development: Plan and execute industry standard code, web scripting, and server strategies to capture, integrate and manage data.
- Professional Practices: Demonstrate professional skills and business ethics to communicate and collaborate in various work environments.
- Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
- Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
- Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.

Construction Technology
The Construction Technology program provides entry-level training for those who are interested in the construction industry. Instruction is a blend of theory and lab which includes both technical and professionalism skills necessary to apply for entry-level positions in the industry.

During the first year, the students will study units in safety, applied mathematics, tool usage, codes, cost estimation, and the development of building plans. In addition, the students will apply these skills during a variety of hands-on projects. The projects are a toolbox, scale model house, and several utility sheds. Besides an emphasis in residential carpentry, the students will explore several of the trades such as electrical, sheet metal, and tile. During the first year, students will also have several opportunities to work on the student house project and other large structures.

If selected to return for the second year, the students will continue to develop leadership and professionalism skills as they build a residential home in the community. Additional skills such as advanced applied mathematics, cost estimation, employment relationships, and sound work habits are emphasized.

Upon completion of this program, students will have entry-level skills necessary to get and maintain a career in the construction industry. The program has articulation agreements with several of the local apprenticeship programs for advanced placement dependent on final grades and instructor recommendation.

Graduates may find employment with contractors, suppliers, retail outlets, or building maintenance companies.

All CNST courses are taught at the Clark County Skills Center (12200 NE 28th Street, Vancouver) and follow the Skills Center’s calendar for class days, hours, and breaks (except CNST 106 & 108). There is a lab fee and students are required to purchase a tool set and have valid health insurance.

Students must complete all Major Area Requirements and specifically listed courses with a minimum grade of “C” or better in order to successfully complete the program and earn the award.

Refer to the Degree & Certificate Requirements Section of the Clark College Catalog to identify the courses needed to satisfy the General Education Requirements.

Culinary Arts - Baking/Bakery Management

Clark College’s curriculum in cooking, retail baking, bakery management, and restaurant management has been awarded best-in-the-state honors by the National Restaurant Association. Students may prepare for jobs in all phases of the hospitality industry including restaurants, country clubs, wholesale and retail bakeries, and hotels.

The curriculum’s success can also be measured by tracing the careers of its graduates. A number have been employed by leading hotel chains. Others work as executive chef, sous chef, bakery managers, and bakers with popular local restaurants and bakeries. Some have opened their own businesses.

Students must complete all Major Area Requirements with a minimum grade of “C” or better in order to successfully complete the program and earn the award.

Refer to the Degree & Certificate Requirements Section of the Clark College Catalog to identify the courses needed to satisfy the General Education Requirements.

Baking/Bakery Management

The Baking/Bakery Management program offers baking and cake decorating courses leading to jobs in the baking industry, or jobs as bakers in the hospitality industry. Instruction consists of theory and practical experience in the baking laboratory, which is operated as a simulated retail bakery. A large variety of breads, cakes, pastries, and cookies are produced and sold in the bakery store to campus students, staff, faculty members, and guests.

Baking (CC)

Certificates of Completion

Please consult the Culinary Arts Department for more information about short-term certificates in Baking.

Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

• Apply basic baking procedures in a professional baking atmosphere.

Baking (CA)

Certificates of Achievement

A Certificate of Achievement is awarded to students who complete any combination of two Certificates of Completion. Please consult the Culinary Arts Department for more information.
Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Apply processes of baking and basic baking in daily routine.
- Follow recipes correctly to perform daily tasks.
- Perform accurate mathematical operations appropriate to baking and bakery management.
- Operate commercial bakery equipment using standard safety and sanitation procedures.
- Demonstrate effective verbal and written communication skills with customers, co-workers, and supervisors.

Baking (CP)

General Education Requirements

Communication Skills (3 credits required)
Computational Skills (3 credits required)
Human Relations (3 credits required)

Major Area Requirements

Students must complete three of the four quarters listed below:

<table>
<thead>
<tr>
<th>First Quarter</th>
<th>Second Quarter</th>
<th>Third Quarter</th>
<th>Fourth Quarter</th>
</tr>
</thead>
<tbody>
<tr>

- Perform accurate mathematical operations appropriate to baking and bakery management.
- Operate commercial bakery equipment using standard safety and sanitation procedures.
- Demonstrate effective verbal and written communication skills with customers, co-workers, and supervisors.
• Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.

• Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.

• Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.

Bakery Management (CP)

General Education Requirements
Communication Skills (3 credits required)
Computational Skills (3 credits required)
Human Relations (3 credits required)

Major Area Requirements
In addition to completing all Major Area Requirement courses for the Certificate of Proficiency-Baking, students must also complete three of the four quarters listed below:

Fifth Quarter
BAK 211  BAKERY MANAGEMENT THEORY  5 cr.
BAK 210  BAKERY MANAGEMENT LAB  10 cr.

Sixth Quarter
BAK 213  BAKERY MANAGEMENT THEORY  5 cr.
BAK 212  BAKERY MANAGEMENT LAB  10 cr.

Seventh Quarter
BAK 215  BAKERY MANAGEMENT THEORY  5 cr.
BAK 214  BAKERY MANAGEMENT LAB  10 cr.

Eighth Quarter
BAK 217  BAKERY MANAGEMENT THEORY  5 cr.
BAK 216  BAKERY MANAGEMENT LAB  10 cr.

Total Required Credits: 99

**Culinary Arts - Cooking/Restaurant Management**

CULINARY ARTS
The Culinary Arts - Cooking/Restaurant Management Program Is Currently Under Revision.

**Attention Students:**
Due to curriculum revisions, Clark College will be suspending the Culinary Arts - Cooking/Restaurant Manage-
ment program until further notice. This is necessary so that the college can continue to offer a quality program that meets the current needs of students and the community. Program updates and any requirement changes will be posted on the program website at: http://www.clark.edu/academics/programs/culinary_arts/index.php.

For Culinary Arts program questions, you may contact the Advising Center at (360) 992-2345 to discuss the status of the program or other options that may be available.

**Dental Hygiene**

A career as a hygienist offers a wide range of opportunities. Services provided by dental hygienists include patient assessment procedures, exposing and developing radiographs, removing calculus and biofilm from all surfaces of the teeth, managing and treating periodontally involved conditions, placing and applying dental restorative materials, applying preventive materials to the teeth, teaching patients appropriate oral hygiene to maintain oral health, nutrition counseling, taking impressions, performing documentation and office management activities, and developing and implementing community oral health programs.

The Dental Hygiene program is accredited by the Commission on Dental Accreditation of the American Dental Association, a specialized accrediting body recognized by the Council on Postsecondary Accreditation and the United States Department of Education. Graduates receive an Associate in Applied Science degree and may complete requirements for the Associate in Arts degree, which will transfer directly to four-year universities within the state of Washington. Those completing the program qualify to take national, regional, and state board examinations for licensure and are prepared to enter clinical practice. The program includes all responsibilities allowed by Washington state law.

Clinical experience takes place in Clark College's dental hygiene clinic under the supervision of licensed dentists and dental hygienists. Other clinical or community sites are used for limited educational experiences.

**Application Process**

The Dental Hygiene program is a seven-quarter clinical program with preliminary requirements that must be taken before program entry. Admission to the program is outlined in two stages: preliminary requirements and final program admission.

**Preliminary Requirements**

To meet preliminary entrance requirements, candidates must:

- Complete the Clark College Application for Admission and Statement of Intent forms. Return to the Clark College Welcome Center with the non-refundable program application fees (amount subject to change). For the current fee amounts, please visit the Dental Hygiene website at www.clark.edu/dentalhygiene.
- Application deadline for Clark College's Dental Hygiene program is **January 8th** of every year for the upcoming fall quarter. Students MUST have no more than 10 credits left of preliminary coursework to complete following the end of winter quarter to qualify for selection into the fall class.
- Complete ENGL& 101 with a 2.0 or higher grade.
- Earn a cumulative GPA of 2.75 or higher and an applicable science GPA of 2.25 or higher.
- All science courses must be seven (7) years current upon program entry.
- Send all official college transcripts to the Credential Evaluations Office for complete transcript evaluation, and continue to send updated transcripts quarterly as courses are completed.
- Complete courses listed under Preliminary Required Courses with a 2.0 or above. (Students can have a maximum of 10 credits of preliminary required coursework to complete after winter quarter to be eligible for selection into the following fall's Dental Hygiene class.)
- The most recent educational experience will be used to meet admission criteria.
Program Progression

In order to progress from one course or quarter to the next after beginning the Dental Hygiene program, students must achieve a grade of 2.0 or higher in all required courses and maintain a cumulative GPA of 2.0 or higher.

General Information

Selection criteria are subject to change. For complete updated information, please refer to the application booklet, available online at www.clark.edu/dentalhygiene.

Statement for Health Occupations

In accordance with the Americans with Disabilities Act and the Rehabilitation Act of 1973, accommodations for students with disabilities will be considered at the student’s request. The student may need to provide documentation of disability to the Disability Support Services Office to support his/her accommodation requests. Documentation guidelines and procedures can be found at www.clark.edu/dss. Once the student is qualified by DSS as having a disability, requested accommodations will be considered. Accommodations for the classroom, laboratory, or clinical setting will be evaluated according to reasonableness. Accommodations that compromise patient care, or that fundamentally alter the essential functions of the program or activity, are not considered to be reasonable.

Final Program Admission

Upon completion of the preliminary entrance requirements, all qualified applicants will be invited to and must participate in a mandatory student orientation with the Dental Hygiene Department. During orientation, the HESI A2 Admission test will be administered. Successful candidates will be notified in writing of final acceptance into the program. Payment of a non-refundable deposit will reserve a position for fall quarter entry. During the school year, the deposit will be refunded to all currently enrolled dental hygiene students.

Because of the rigor and intensity of the curriculum, applicants must complete all pre-dental hygiene requirements prior to entry.

Completion of the pre-dental hygiene requirements does not guarantee entrance into the program. The Dental Hygiene Department has limited enrollment and Clark College reserves the right to determine admission status.

Persons not selected for entry are welcome to reapply the following year but are encouraged to seek advising before doing so and must formally reapply and comply with the admissions process for that year.

**Program Outcomes**

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Communicate effectively and professionally, using verbal, non-verbal, and written language with patients, colleagues, the public, diverse populations, and other healthcare providers.
- Analyze professional behaviors and make appropriate decisions guided by ethical principles and core values.
- Assess, diagnose, plan, implement, and evaluate the provision of optimal, evidence-based, and patient-centered dental hygiene care.
- Successfully complete all initial licensing exams.
- Demonstrate the skills necessary to stay current in the field.
- Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
- Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
- Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.
- Health and PE: Demonstrate progress toward healthier behaviors as appropriate for a career and technical education program.
- Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts as appropriate for a career and technical education program.
- Social Science: Evaluate, analyze, and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences as appropriate for a career and technical education program.
- Science: Apply fundamental principles and relationships from the Natural Sciences to solve problems as appropriate for a career and technical education program.
## General - Dental Hygiene (AA)

### General Education Requirements

**Communication Skills (10 credits required)**
- ENGL&101  ENGLISH COMPOSITION I  5 cr.
- ENGL&102  ENGLISH COMPOSITION II  5 cr.

**Quantitative Skills (5 credits required)**

**Physical Education Activity (1 credit required)**  Health course waived

**Oral Communications (5 credits required)**

**Humanities (15 credits required)**

Note: From at least three different departments; no more than 10 credits in one department.

- PSYC&100  GENERAL PSYCHOLOGY  5 cr.

**Natural Sciences (15 credits required)**

- BIOL&251  HUMAN A & P I  4 cr.
- and BIOL&252  HUMAN A & P II  4 cr.
- and BIOL&253  HUMAN A & P III  4 cr.
- NUTR 103  GENERAL NUTRITION  3 cr.

### Preliminary Program Requirements

- BIOL&260  MICROBIOLOGY  5 cr.
- CHEM&121  INTRO TO CHEMISTRY: PRE-HEALTH  5 cr.
- CHEM&131  INTRO TO ORGANIC/BIOCHEM  5 cr.

### Major Area Requirements

- DH 101  DENTAL ANATOMY  3 cr.
- DH 102  HEAD AND NECK ANATOMY  3 cr.
- DH 103  ORAL HEALTH EDUCATION  2 cr.
- DH 104  INTRODUCTION TO DENTAL MATERIALS/ASSISTING  3 cr.
- DH 111  CLINICAL DENTAL HYGIENE TECHNIQUES I  6 cr.
- DH 112  CLINICAL DENTAL HYGIENE TECHNIQUES II  5 cr.
- DH 113  CLINICAL DENTAL HYGIENE TECHNIQUES III  5 cr.
- DH 114  CLINICAL DENTAL HYGIENE TECHNIQUES IV  4 cr.
- DH 122  ORAL RADIOLOGY I  3 cr.
- DH 123  ORAL RADIOLOGY II  1 cr.
- DH 124  ORAL RADIOLOGY III  2 cr.

DH 272  PERIODONTICS III  2 cr.

Total Required Credits: 184

Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Communicate effectively and professionally, using verbal, non-verbal, and written language with patients, colleagues, the public, diverse populations, and other healthcare providers.
- Analyze professional behaviors and make appropriate decisions guided by ethical principles and core values.
- Assess, diagnose, plan, implement, and evaluate the provision of optimal, evidence-based, and patient-centered dental hygiene care.
- Successfully complete all initial licensing exams.
- Demonstrate the skills necessary to stay current in the field.
- Information Literacy: Obtain, evaluate, and ethically use information.
- Communications: Communicate with various audiences using a variety of methods.
- Quantitative I: Perform mathematical calculations without the aid of a calculator.
- Quantitative II: Solve quantitative problems and interpret the solutions.
- Health & Physical Education: Demonstrate progress toward healthier behaviors.
• Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts.
• Social Science: Evaluate, analyze and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences.
• Power, Privilege, and Inequality: Analyze patterns of power, privilege and inequality.
• Natural Science I: Apply fundamental principles and relationships from the Natural Sciences to solve problems.
• Natural Science II: Evaluate claims about the natural world using scientific methodology.

Diesel Technology

The diesel technician must be able to work on a great variety of equipment and their component parts. These include brake systems, drive trains, electrical and electronic circuits, hydraulic systems, and diesel engines. Diesel power is used in the transportation industry in light, medium, and heavy-duty trucks and in industrial applications such as heavy equipment, agriculture, marine propulsion, power generation, and locomotives.

Because of the widespread use of this type of power, diesel technicians can work in a shop or outdoors as a field service technician. This program is designed to prepare students for entry-level positions into the diesel technician trade. Diesel program instruction includes both classroom theory and extensive hands-on experience in the shop where the student encounters real day-to-day problems.

The diesel evening program includes courses for Caterpillar, Cummins, and Detroit engines; electronic controls; and industrial hydraulics for technicians who wish to further their knowledge and skills. Any course in the program can be made available to area employers and their employees.

Students must complete all Major Area Requirements and specifically listed courses with a minimum grade of “C” or better in order to successfully complete the program and earn the award.

Refer to the Degree & Certificate Requirements Section of the Clark College Catalog to identify the courses needed to satisfy the General Education Requirements.

Diesel Technician (CP)

General Education Requirements
Communication Skills (3 credits required)
ENGL 097  WRITING FUNDAMENTALS  5 cr.

Computational Skills (3 credits required)
MATH 085  INDUSTRIAL MATHEMATICS  5 cr.
or MATH 030  PRE-ALGEBRA  5 cr.

Human Relations (3 credits required)
CMST&230  SMALL GROUP COMMUNICATION  5 cr.
or CMST&210  INTERPERSONAL COMMUNICATION  5 cr.

Major Area Requirements
DIES 111  DIESEL FUNDAMENTALS  5 cr.
DIES 112  DIESEL PROCEDURES  10 cr.
DIES 113  DIESEL ENGINES/FUEL SYSTEMS  5 cr.
DIES 114  DIESEL PROCEDURES  10 cr.
DIES 115  DRIVE TRAINS  5 cr.
DIES 116  DIESEL PROCEDURES  10 cr.
DIES 120  BASIC ELECTRICAL  3 cr.
DIES 121  ELECTRONIC ENGINE MANAGEMENT SYSTEMS  3 cr.
DIES 122  ELECTRONIC VEHICLE CONTROL SYSTEMS  3 cr.
DIES 221  ELECTRICAL/ELECTRONIC SYSTEMS  5 cr.
DIES 222  DIESEL PROCEDURES  6 cr.
DIES 223  HYDRAULIC SYSTEMS  5 cr.
DIES 224  DIESEL PROCEDURES  10 cr.
DIES 225  BRAKES, STEERING, AND SUSPENSION  5 cr.
DIES 226  DIESEL PROCEDURES  10 cr.

Suggested Extra Courses for Preparation into the Trade
BUS 110  CUSTOMER SERVICE  3 cr.
DIES 093  DETROIT DIESEL ELECTRONIC CONTROLS  3 cr.
DIES 096  CUMMINS ENGINES  3 cr.
DIES 099  CAT ENGINES  3 cr.
DIES 135  INDUSTRIAL HYDRAULICS  3 cr.
IFA 031  INDUSTRIAL FIRST AID  1 cr.

Total Required Credits: 110

Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

• Evaluate and use technical information from a variety of resources.
• Troubleshoot engines, hydraulic systems, electrical systems, power train systems, brakes, steering, and suspension systems.
• Repair engines, hydraulic systems, electrical systems, power train systems, brakes, steering, and suspension systems.
• Comply with personal and environmental safety practices that relate to the diesel power industry.
• Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
• Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
• Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.
• Health and PE: Demonstrate progress toward healthier behaviors as appropriate for a career and technical education program.
• Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts as appropriate for a career and technical education program.
• Social Science: Evaluate, analyze, and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences as appropriate for a career and technical education program.
• Science: Apply fundamental principles and relationships from the Natural Sciences to solve problems as appropriate for a career and technical education program.

- Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
- Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.

Drama (Area of Study)

The Clark College Drama program provides a rich cultural focus for the campus and surrounding community, blending theatre, music, dance, and art into entertaining and award-winning productions. The co-curricular program combines traditional classroom training with the opportunity for students to apply and test both performance and technical skills in staged productions before a paying audience.

A comprehensive curriculum teaches acting principles and techniques for both theatre and television, including scene study, characterization, and period styles of acting. Camera operations and directing skills are also studied.

The Children's Theatre classes focus on performance styles for young audiences, touring scenery techniques, and performance tour management.
Basic stagecraft design and construction, stage lighting and makeup courses provide behind-the-scenes knowledge to enhance acting performance and also skills for a career in the production side of the film and theatre industry. Students planning a career in acting or other phases of theatrical production can acquire foundation skills and experience in multiple settings while completing degree requirements. Theatre courses and performances also serve as excellent training for those planning careers in teaching or other fields that require public presentations.

Because course requirements vary at each institution, students interested in pursuing a four-year degree in Drama should work with advisors at Clark and their transfer institution to develop a course of study. Drama courses typically transfer to four-year institutions. However, students should contact their transfer institution to clarify each course’s transferability.

---

**Early Childhood Education**

Work in programs for young children is a challenging, absorbing, and personally rewarding career. In Clark College’s Early Childhood Education program, students study child development and program organization, plan learning experiences for young children, and develop guidance skills in working with children.

The Early Childhood Education (ECE) department offers various certificates of achievement. As part of each certificate program, students are required to complete prescribed numbers of hours doing student teaching and/or observation in the Child and Family Studies program under the supervision of selected staff as well as in the community at large.

Programs are revised periodically to reflect changes in the specific career field. The following list of courses is an example of the coursework required for each program. Students planning to complete this program must meet with an advisor prior to registration for a current list of requirements.

Students must complete all Major Area Requirements and specifically listed courses with a minimum grade of “C” or better in order to successfully complete the program and earn the award.

Refer to the Degree & Certificate Requirements Section of the Clark College Catalog to identify the courses needed to satisfy the General Education Requirements.

Students preparing to transfer should make an early decision and contact the four-year school to which they will transfer. The Early Childhood Education Advisors can help in planning a schedule based on the four-year school's requirements. The department has made transfer agreements with several colleges to date.

Students must be able to pass a Criminal History screening to participate with the children in the ECE lab school. Participation in the ECE lab is a requirement for taking classes in ECE program. Students are also required to get a TB test or provide written proof that they have had one within the last year.

*Concurrent enrollment required for ECE 199/ECE 215.*
*Concurrent enrollment required for ECED& 105/ECED& 120.*
*Concurrent enrollment required for ECE 211/ECE 212 Lab.*
*Concurrent enrollment required for ECE 213/ECE 214 Lab.*

The course of study in Early Childhood Education conforms to the following:
Guidelines for preparation of early childhood professionals; Washington State Skill Standards; and Early childhood education professional competencies.

## Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:
• Student co-learners will demonstrate an understanding of and be able to apply developmentally appropriate practices to early learning practices.
• Student co-learners will understand and apply developmentally appropriate practices to curriculum development in all domains of learning.
• Student co-learners will understand, develop, and apply skills that facilitate classroom interactions that meet the needs and interests of children with a range of abilities, learning styles, cultures and background.
• Student co-learners will understand how to develop relationships with families and apply it to their teaching practices.
• Student co-learners will analyze and evaluate their awareness of equity pedagogy and create strategies for implementing cultural competence in their work with children and their families.
• Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
• Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
• Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.
• Health and PE: Demonstrate progress toward healthier behaviors as appropriate for a career and technical education program.
• Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts as appropriate for a career and technical education program.
• Social Science: Evaluate, analyze, and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences as appropriate for a career and technical education program.
• Science: Apply fundamental principles and relationships from the Natural Sciences to solve problems as appropriate for a career and technical education program.

Early Childhood Education (AAS-T)

Students preparing to transfer should make an early decision and contact the four-year school to which they will transfer. The Early Childhood Education coordinator can help in planning a schedule based on the four-year school’s requirements. The department has made transfer agreements with several colleges to date.

Students must be able to pass a Criminal History screening to participate with the children in the ECE lab school. Participation in the ECE lab is a requirement for taking classes in ECE program. Students are also required to get a TB test or provide written proof that they have had one within the last year.

Program Outcomes
Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

• Student co-learners will demonstrate an understanding of and be able to apply developmentally appropriate practices to early learning practices.
• Student co-learners will understand and apply developmentally appropriate practices to curriculum development in all domains of learning.
• Student co-learners will understand, develop, and apply skills that facilitate classroom interactions that meet the needs and interests of children with a range of abilities, learning styles, cultures and background.
• Student co-learners will understand how to develop relationships with families and apply it to their teaching practices.
• Student co-learners will analyze and evaluate their awareness of equity pedagogy and create strategies for implementing cultural competence in their work with children and their families.
• Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
• Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
• Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.
• Health and PE: Demonstrate progress toward healthier behaviors as appropriate for a career and technical education program.
• Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts as appropriate for a career and technical education program.
• Social Science: Evaluate, analyze, and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences as appropriate for a career and technical education program.
• Science: Apply fundamental principles and relationships from the Natural Sciences to solve problems as appropriate for a career and technical education program.
Early Childhood Education (CC)

I-BEST pairs English as a Second Language (ESL) and/or Adult Basic Education (ABE) instructors with career and technical education instructors in the classroom to concurrently provide students with literacy education and workforce skills. I-BEST challenges the traditional notion that students must first complete all levels of basic education before they can begin workforce training.

After successful completion of this program, students will be able to:
• Student co-learners will demonstrate an understanding of and be able to apply developmentally appropriate practices to early learning practices.
• Student co-learners will understand and apply developmentally appropriate practices to curriculum development in all domains of learning.
• Student co-learners will understand, develop, and apply skills that facilitate classroom interactions that meet the needs and interests of children with a range of abilities, learning styles, cultures and background.
• Student co-learners will understand how to develop relationships with families and apply it to their teaching practices.
• Student co-learners will analyze and evaluate their awareness of equity pedagogy and create strategies for implementing cultural competence in their work with children and their families.
• Students will demonstrate developmentally appropriate practices as they apply to health, safety and nutrition of young children.
• Students will identify developmentally appropriate practices in both guidance strategies and curriculum development.
• Students will demonstrate effective oral and written communication appropriate to the field of Early Childhood Education.

Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Student co-learners will demonstrate an understanding of and be able to apply developmentally appropriate practices to early learning practices.
- Student co-learners demonstrate ability to implement emergent curriculum in various domains of learning.
- Student co-learners will understand, develop, and apply skills that facilitate classroom interactions that meet the needs and interests of children with a range of abilities, learning styles, cultures and backgrounds.
- Student co-learners display an ability to inform families of curriculum engagement in multiple ways.
- Student co-learners will analyze and evaluate their awareness of equity pedagogy and create strategies for implementing cultural competence in their work with children and their families.
- Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
- Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
- Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.

Education

Teachers play a direct role in the life of almost every person and in the development of society as a whole. Shortages of trained educators are anticipated in the near future as many of those currently working in the profession reach retirement age.

Elementary teachers instruct students in basic concepts in several subjects, including mathematics, language arts, science, and social studies. They also introduce small children to formal learning in kindergarten.

Secondary teachers usually specialize in teaching one subject to high school students such as English, music, history, mathematics, languages, biology, chemistry, or others. Many secondary teachers spend at least some time teaching outside of their subject area. Duties may also include attending staff meetings, supervising extracurricular activities and meeting with parents.

A minimum of a bachelor’s degree plus teaching certification is required to teach in grades kindergarten through 12.

Prospective education students should consult with an education advisor to plan a course of study. At Clark College, students usually complete General Education Requirements within the Associate in Arts degree. A specific course of study should be planned based on the requirements of the senior institution where the student will transfer.

Elementary Education - Transfer to WSU Vancouver (AA)

This pathway is applicable to students planning to prepare for an upper-division elementary education major. This degree is defined specifically for transfer to the WSUV cohort program in elementary education and replaces the AA-DTA/MRP for WSUV transfer in Elementary Education.

Students taking this degree should note that a change in transfer institution might change requirements, and advisors at the transfer institution should be consulted.

The coding for this degree is NOT different than that of the standard Elementary Education degree.
Although not required for this degree, students should be advised they must take the WEST-B in order to apply to
teacher preparation programs.

Students must also meet the residency requirements as established by Clark. While Clark College has approved
offering the degree below, Clark students should keep these requirements in mind should their transfer pathways
change.

PROGRAM OUTCOMES

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Information Literacy: Obtain, evaluate, and ethically use information.
- Communications: Communicate with various audiences using a variety of methods.
- Quantitative I: Perform mathematical calculations without the aid of a calculator.
- Quantitative II: Solve quantitative problems and interpret the solutions.
- Health & Physical Education: Demonstrate progress toward healthier behaviors.
- Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts.
- Social Science: Evaluate, analyze and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences.
- Power, Privilege, and Inequality: Analyze patterns of power, privilege and inequality.
- Natural Science I: Apply fundamental principles and relationships from the Natural Sciences to solve problems.
- Natural Science II: Evaluate claims about the natural world using scientific methodology.

Elementary Education DTA/MRP - WSUV Pathway (AA)

The Elementary Education MRP degree was discontinued by the state effective in winter quarter 2014. Students pursuing this degree prior to that time will have a two year window to complete their degree, and in accordance with applicable catalog requirements. Students interested in pursuing Elementary Education as a major should contact Advising to discuss appropriate pathways and to develop an educational plan.

PROGRAM OUTCOMES

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. - Natural Science II: Evaluate claims about the natural world using scientific methodology.

Emergency Medical Services

Emergency Medical Technician

Clark College offers a Certificate of Completion in Emergency Medical Technician-Basic (EMT-B). The EMT-B course is designed to enhance job opportunities in pre-hospital emergency settings. A variety of community agencies such as ambulance companies, police and fire departments, and large industries utilize employees with EMT-B training. This program includes lecture, laboratory, emergency room observation, and field experience on an ambulance or fire rescue unit as available.

Emergency Medical Technician-Basic

EMT 103 is a ten-credit-hour Clark College course taught at the Northwest Regional Training Center (NWRTC). Check the Clark College website for directions to the training center. Students must bring the following items to the first night of class:

- Copy of current American Heart Association healthcare provider CPR card (or take FACPR 032 within first two weeks of class).
- Copy of valid driver’s license.
- Washington State Patrol criminal background check (within six [6] months of course date).
- MMR immunization (twice in lifetime or within last 10 years).
- Hepatitis B immunization (series of three) or signed waiver.
- Negative tuberculosis skin test or chest x-ray (within past six [6] months).
- Must be 18 years of age.
• Proof of high school completion (transcripts) or GED.

Please call the NWRTC office at (360) 397-2100 if you have any questions about the above requirements.

Emergency Medical Technician Basic (CC)

To earn the Certificate of Completion, students must complete the courses listed below with a grade point average (GPA) of 2.0 or above in each offering.

* HEOC 100 or BIOL 164 & 165, must be seven years current upon program entry.

Affiliation: Students who are not affiliated with an appropriate agency have 18 months after completing the program to gain affiliation and take the Washington state exam. All Emergency Medical Technician-Basics wishing to work in Washington must obtain state certification.

Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

• Administer first aid treatment or life support care to sick or injured persons in prehospital settings.
• Perform emergency assessment and treatment procedures, observing, recording, and reporting to the receiving facility, the patient’s condition or injury.
• Communicate effectively and professionally using verbal, nonverbal, and written language with patients, colleagues, the public, diverse populations, and other healthcare providers.
• Model professional behaviors and make appropriate decisions guided by ethical principles and core values.

Engineering

Engineering is a profession where you are challenged to develop creative solutions to problems related to every aspect of life, through the application of mathematical and scientific principles, experience, creativity, and common sense.

Clark College offers the first two years of study of a four-year engineering degree program. The first two years main focus of study are preparatory courses in mathematics, chemistry, physics, and basic engineering courses required by the student’s engineering field and transfer school.

Those who study engineering today can look forward to a rewarding career where they experience personal achievement, exercise their curiosity, give service to society, and realize financial success.

Engineers work on a wide variety of projects: basic and applied research, product development, design and modification of processes and equipment, and plant operation. Some enter sales, marketing, management, consulting, government agencies, or teaching.
Engineers plan, develop, and oversee the research and design of construction and manufacturing projects. They work on teams with engineers from other fields to design integrated systems and solve complex technical problems. Engineers also develop and use computer-aided design programs to simulate and test products and systems.

Engineers can specialize in many fields including:

- Aeronautical/Aerospace
- Bioengineering
- Biomedical
- Ceramic
- Chemical/Pulp & Paper
- Civil
- Computer
- Electrical/Electronics
- Environmental
- Forestry
- Manufacturing/Industrial
- Marine
- Materials
- Mechanical
- Software

There are many other interdisciplinary fields including architecture, law, sports, human factors and acoustics.

**Engineering (AST2)**

This is a suggested program for the first two years of a four-year Engineering program. These lower-division course requirements will vary depending on the math and English placement at Clark College, and the requirements of the four-year institution to which you transfer. It is critical that you work with an Engineering faculty advisor to ensure your program will give you the maximum benefit when you transfer. Additional courses are needed to satisfy graduation requirements for the Associate in Science degree.

ENGR 252  ELECTRICAL CIRCUITS AND SIGNALS  5 cr.  
ENGR 253  SIGNALS AND SYSTEMS  5 cr.  

Clark College 2014–2015 Catalog  
Section C: Degrees and Certificates : page C143
ENGR 270  DIGITAL SYSTEMS AND MICROPROCESSORS  5 cr.
ENGR 280  SELECTED TOPICS  1-5 cr.
ENGR 290  SPECIAL PROJECTS  1-6 cr.
ENGL&235  TECHNICAL WRITING  5 cr.
MATH 215  LINEAR ALGEBRA  5 cr.

Total Required Credits: 90

* Requirements vary by school and program. See an Engineering faculty advisor regarding proper selection.

Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Demonstrate understanding of the derivative as instantaneous rate of change and the definite integral as a limit of a Riemann sum in applied problems.
- Analyze and solve multi-step problems using techniques through single-variable calculus, and communicate the results.
- Apply fundamental principles and relationships from the Natural Sciences to analyze technological or scientific problems.
- Acquire scientific and technological information from appropriate sources to examine issues, claims or situations.
- Apply scientific and technological knowledge and methodologies to creatively solve technological or scientific problems.
- Communicate with various audiences using a variety of methods.
- Demonstrate progress toward healthier behaviors.
- Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts.
- Obtain, evaluate, and ethically use information.
- Analyze patterns of power, privilege and inequality.
- Evaluate, analyze, and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences.

English (Area of Study)

The Clark College English department offers a myriad of courses ranging from composition to studies of Shakespeare.

The fundamental courses offered by Clark’s English department are designed to teach students to use the library, conduct research, comprehend material, analyze information, evaluate ideas, develop and organize their own ideas, use correct word choice and grammar, proofread and edit, and improve both their verbal and their written communication.

A four-year degree in English can serve as the foundation for a career in writing, law, business, or education. Many students pursuing a career in secondary education have earned their Associate in Arts transfer degree in English at Clark and continued their coursework at WSU Vancouver, earning their Bachelor of Arts in English and a secondary education certificate, or a master’s degree in teaching.

Exceptional English students can earn credit and gain valuable teaching experience working as English tutors. The
College's Tutoring/Writing Center provides free assistance to students, aiding them in becoming more effective and evaluative writers.

Because course requirements vary at each institution, students interested in pursuing a four-year degree in English should work with advisors at Clark and their transfer institution to develop a course of study.

English department courses typically transfer to four-year institutions. However, students should contact their transfer institution to clarify each course’s transferability.

Environmental Science

Environmental scientists apply mathematics and scientific principles to solve environmental problems. They develop ways to reduce, correct, or prevent damage to the environment.

Following the completion of a Bachelor of Arts or Science degree at a four-year institution of the student’s choice, several avenues of employment or advancement are open. A few of these are:

- Environmental engineering
- Environmental law
- State and federal wildlife agencies
- Environmental science teaching at the elementary or secondary level
- Environmental research scientist
- Environmental planning/policy analyst
- Nonprofit environmental organization.

Environmental Science is a highly interdisciplinary field; students interested in careers in the Environmental Sciences will need a fundamental understanding of a variety of sciences and social sciences. Depending on specific career objectives, students pursuing a four-year degree in Environmental Science may want to emphasize additional coursework in such fields as Biology, Chemistry, Physics, Geology, Oceanography, or the Atmospheric Sciences.

Students planning careers in Environmental Studies, Environmental Regulation and Policy, or Regional Planning may want to emphasize additional coursework in the Social Sciences, Business, or Economics.

Environmental Science (AST1)

This is a suggested program for the first two years of major study in Environmental Science. Lower-division course requirements will vary depending on the transfer institution. Contact an advisor at the transfer institution to determine required coursework as early as possible.

General Education Requirements

Communication Skills (5 credits required)

| ENGL&101 | ENGLISH COMPOSITION I | 5 cr. |

Quantitative Skills (10 credits required)

| MATH&151 | CALCULUS I | 5 cr. |

### Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Demonstrate understanding of the derivative as instantaneous rate of change and the definite integral as a limit of a Riemann sum in applied problems.
- Analyze and solve multi-step problems using techniques through single-variable calculus, and communicate the results.
- Apply fundamental principles and relationships from the Natural Sciences to solve problems.
- Apply scientific methodologies to develop and answer questions about the natural world.
• Acquire scientific information from appropriate sources to analyze issues, claims or situations.
• Communicate with various audiences using a variety of methods.
• Demonstrate progress toward healthier behaviors.
• Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts.
• Obtain, evaluate, and ethically use information.
• Analyze patterns of power, privilege and inequality.
• Evaluate, analyze, and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences.

Fitness Trainer
The Fitness Trainer program at Clark is a 90-credit (2-year) program. Upon completion of the program requirements, students will earn an Associate in Applied Science degree. Fitness Training is an emerging profession within the health care industry in the field of preventive medicine. Fitness Trainers have the opportunity to make a positive difference in people’s health and quality of life. Students will develop knowledge, skills, and abilities necessary for working with clients who are interested in improving their health through fitness. Coursework will include theory and practical application courses related to fitness training.

In order to progress from one course or quarter to the next, students enrolled in the Clark College Fitness Trainer program must earn at least a cumulative GPA of 2.0 (C average) for their General Education classes, and a 2.0 or higher in each Fitness Trainer Specialty class. Fitness Trainer Specialty classes have limited seats available.

Students who are interested in this program should refer to the Fitness Trainer website at www.clark.edu/fitnesstrainer and follow the direction given on the “Get Started” page (right-hand menu item).

Student Learning Outcomes
• Communicate exercise-science related principles at levels appropriate to both clients and professional peers.
• Use appropriate strategies to motivate clients to adopt healthier behaviors.
• Design fitness plans for healthy adults, special populations (e.g., pregnant women, elderly, those with chronic diseases, etc.), and performance-oriented clients (e.g., those training to better perform a sport) utilizing appropriate principles of safe and effective exercise prescription.
• Design fitness-related assessments on clients.
• Effectively instruct clients how to perform safe and effective exercise technique.
• Exhibit a foundation of professional and business-related skills necessary for becoming a personal trainer.
• Be prepared for a nationally accredited Fitness Trainer certification exam. Clark College’s Fitness Trainer Program has transfer articulation agreements with Concordia University’s Bachelor of Arts in Exercise and Sport Science degree and Portland State University’s bachelor’s degree in Physical Activity/Exercise. Students may also opt to transfer to one of Central Washington University’s Bachelor of Applied Science degree programs. Please see a faculty advisor for additional information about transfer options and requirements.
• For information regarding the application process, preliminary requirements, and final admission process, please refer to www.clark.edu/fitnesstrainer online.

Physical Activity Based Courses

Required: 3-5 cr.

At least one swimming course numbered PE 175, 176, 177, 179, 274, 275, or 279 (Prerequisite for FT 262 is ability to swim proficiently students may need more than one swimming class to achieve the prerequisite standard of swimming ability).

AND

Choose up to 4 additional credits numbered FT 155-169, or PE 100-283

Total Required Credits: 94-98

* CMST&210 fulfills Humanities and Human Relations requirements.
** BIOL& 251, 252, and 253 can substitute for BIOL 164/165

Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Apply knowledge, skills and abilities to be a competent personal trainer.
- Prepared for a nationally accredited Fitness Trainer certification exam.
- Apply appropriate strategies to motivate clients to adopt healthier behaviors.
- Perform health and fitness-related assessments on clients.
- Design and implement fitness plans to effectively train a variety of clients using a systematic approach to exercise prescription.
- Instruct clients to perform safe and effective exercise technique.
- Communicate exercise science related principles at levels appropriate to both clients and to professional peers.
- Exhibit a foundation of professional and business-related skills necessary for becoming a personal trainer.
- Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
- Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
- Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.
- Health and PE: Demonstrate progress toward healthier behaviors as appropriate for a career and technical education program.
- Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts as appropriate for a career and technical education program.
- Social Science: Evaluate, analyze, and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences as appropriate for a career and technical education program.
- Science: Apply fundamental principles and relationships from the Natural Sciences to solve problems as appropriate for a career and technical education program.

Group Fitness Instructor (CC)

The Fitness Trainer Program’s Group Fitness Instructor Certificate of Completion program prepares students with the necessary knowledge, skills and abilities to become group fitness instructors. Students completing the program may take the ACE® Group Fitness Instructor certification exam that is hosted at Clark College shortly after completing the program requirements listed below.

Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Apply appropriate skills as a group fitness instructor.
- Successfully complete all criteria necessary for a nationally accredited Fitness Trainer certification exam.
- Apply basic principles of fitness.

Yoga Teacher (CC)

This program prepares students to teach yoga and consists of learning to demonstrate and lead a yoga class. Successful students will receive a Certificate of Completion from Yogafit, which will prepare the student to teach Yogafit Level I, Seniors, Pre/Post Natal, and Yogaback classes. This program also provides students with some basic knowledge of exercise science and anatomy and alignment.

Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Obtain certification by Yogafit as an entry level teacher of Yogafit Level I, Seniors, Pre/Post Natal, Yogaback, Anatomy and Alignment.

Geology

Geology is the study of the Earth's chemistry, physics, and history. Geologists work to understand the complex systems at work in our planet and, through this work, to understand the origin and evolution of the landscapes that surround us. Geologists work in natural resource development, natural hazard management, environmental monitoring, and pollution mitigation. Research subjects encompass everything from glacier systems to volcanoes to the fossil history of the evolution of life.

Career Opportunities

Careers in Geology generally require advanced degrees. Here at Clark College, you can begin a program that will lead to advanced degrees at any major university.
Job opportunities through private, federal, and state agencies exist in:
Climate Change Studies
Energy
Environmental Monitoring and Mitigation
Geological Engineering
Mining
Petroleum

Geology (AST1)
This is a suggested program for the first two years of major study in Geology. Lower-division course requirements will vary depending on the transfer institution. Contact an advisor at the transfer institution to determine required coursework as early as possible. Additional courses are needed to satisfy graduation requirements for the Associate in Science or the Associate in Arts degree.

Chemistry Sequence - minimum 16 credits
CHEM&141  GENERAL CHEMISTRY I  4 cr.
CHEM&142  GENERAL CHEMISTRY II  4 cr.
CHEM&143  GENERAL CHEMISTRY III  4 cr.
CHEM&151  GENERAL CHEMISTRY LABORATORY I  1 cr.
CHEM&152  GENERAL CHEMISTRY LABORATORY II  1 cr.
CHEM&153  GENERAL CHEMISTRY LABORATORY III  2 cr.

Additional Science Sequence Requirements - 15 credits
PHYS&241  ENGINEERING PHYSICS I  4 cr.
and PHYS&231  ENGINEERING PHYSICS LAB I  1 cr.
PHYS&242  ENGINEERING PHYSICS II  4 cr.
and PHYS&232  ENGINEERING PHYSICS LAB II  1 cr.

Health & Physical Education (Area of Study)

There are a wide variety of career opportunities available with a degree in Health and/or Physical Education. Students may seek jobs in fitness training, fitness center management, coaching, wellness promotion, preventative health care, or nutrition, for example. Advanced degrees would prepare students for careers in sports medicine, athletic training, sports psychology, health education, physical education, physical therapy, biomechanics/kinesiology and integrative medicine. Qualified applicants usually have a strong science background with exemplary communication skills.

Students interested in careers in any of these fields may wish to see a member of the Health and Physical Education (HPE) Division for advising at the earliest possible time in their academic pursuits. It is important for students to make a decision about which four-year institution they will attend in order to expedite their college experience.

Fitness Trainer

Please see the Fitness Trainer program curriculum in the Career and Technical Programs section of the Clark Col-
Health Informatics

Clark College offers an exciting new health care technology college transfer degree program in Health Informatics Information Technology.

Health care is a fast growing and increasingly information-intensive industry. More and more professionals are needed to keep pace as the technology continues to change and advance.

Health informatics Information Technology (HIIT) is the study of resources and methods for the management of health information. The field encompasses and utilizes advanced computer technology to coordinate the computer information systems used by hospitals, medical clinics and health care professionals. For those who are well prepared, health information technology offers a bright, rewarding and well paying career pathway.

Electronic health systems are quickly replacing inefficient and costly paper records so that health care providers can quickly review and update a patient's medical history. Patients who have had to move, had to change doctors, or required emergency medical attention know the importance of getting medical records transferred quickly and how difficult that is to accomplish in a paper-based system. Health informatics is making this transformation possible at a regional and national level.

The Department of Labor Education and Training Administration has awarded an $11.8M grant to the Health e-Workforce (HeW) Consortium. The HeW Consortium is comprised of nine Community and Technical colleges, including Clark College, to expand the workforce in Health Information Technology (HIT). The HeW Consortium has a special focus on assisting military veterans, their eligible spouses, and TAA-eligible workers with access to education and employment in this promising industry. Clark College is infusing informatics into its existing Nursing and Pharmacy Technician programs. During the duration of the three year grant, Clark’s Nursing program will hold up to three spots each selection to educate qualified military veterans, eligible spouses, or TAA-eligible workers. Learn more about the Health eWorkforce Consortium.

Program Overview

Students completing Clark College’s Associate in Arts - Option B (AAB) degree can continue on to a bachelor’s degree program in Healthcare Technology and Managment (HCTM) at Bellevue College or Health Informatics Information Technology through Oregon Institute of Technology (OIT). In fact, Clark’s new Health Informatics IT program is specifically designed for seamless transfer to separate baccalaureate programs either Bellevue College or OIT. The Bellevue College bachelor’s degree is delivered to students using an accessible, distance-based learning environment and the OIT hybrid delivery option is hosted at OIT’s new campus near Wilsonville.

After completing the AAB, Clark graduates will be able to transition to Bellevue College’s program which is specifically built around educating students in information technology and healthcare knowledge and skills. The OIT program is also intended to provide graduates with a well prepared business and scientific knowledge base and the computer science or information technology skills to integrate computer technology in the health care field.

Whichever pathway you plan to take, career opportunities in health informatics IT are increasing in a variety of health organizations that includes hospitals, medical insurers, public health agencies, research institutions, medical groups and clinics and industries engaged in health care IT. Graduates are employed as consultants, managers, systems designers, database administrators, systems analysts and researchers. Opportunities for advancement are many and they are either in a technical or managerial area.

Salaries have grown in recent years in keeping with the growth of career opportunities in the field. More detailed and related information in Health Informatics IT can be obtained using these helpful web links:
Transferring to the Bachelor Degree Program at Bellevue College

The bachelor of applied science (BAS) in healthcare technology and management is a career-oriented bachelor degree program designed to prepare individuals to successfully compete for jobs that require knowledge of the healthcare system, highly developed technical skills, and supervisory and management skills.

The first 90 credits of the degree are fulfilled by completion of Clark College’s Associate in Arts - Option B (AAB) degree. The second half of the degree, completed through Bellevue College, offers professionally relevant curriculum to help students achieve their career goals in one of two areas; Healthcare Information Technology or Healthcare Management.

It is highly recommended that you consult with the Clark College advising department regarding course schedules and degree requirements at both Clark College and Bellevue College. Academic advisors can help you sort out the answers to most of your transfer degree questions.

Course Planning

If you’re interested in pursuing a career in health informatics, it is advisable to make an appointment with a Clark College academic advisor to review your career and program pursuits. Many courses necessary to fulfill the Associate in Arts - Option B HIIT transfer degree requirements are taught only once a year at Clark College. Some courses may also be available online but vary by quarter. The Clark College advising department can help you to map out courses, schedules, costs and other transfer related details.

Health Informatics (AA)

The following degree pathway outlines a plan for students to transfer to Bellevue College. Bellevue College has agreed to transfer all of the courses listed as a block to allow junior status to the Health Informatics program. A student may stop out of the program or choose to take the elective courses at another institution and still be awarded the Option B degree if:

- the required courses are completed (some technical courses may be waived if work experience and proficiency can be shown)
- a minimum of 90 credits are earned, AND
- Clark College residency requirements are met.

AA-Option B General Education Requirements

Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:
- Information Literacy: Obtain, evaluate, and ethically use information.
- Communications: Communicate with various audiences using a variety of methods.
- Quantitative I: Perform mathematical calculations without the aid of a calculator.
- Quantitative II: Solve quantitative problems and interpret the solutions.
- Health & Physical Education: Demonstrate progress toward healthier behaviors.
- Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts.
- Social Science: Evaluate, analyze and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences.
- Power, Privilege, and Inequality: Analyze patterns of power, privilege and inequality.
- Natural Science I: Apply fundamental principles and relationships from the Natural Sciences to solve problems.
- Natural Science II: Evaluate claims about the natural world using scientific methodology.

### Honors Program

The Transfer AA Honors Program is designed to promote excellence in learning and celebrate exceptional student achievement. Students admitted to the Honors Program have the opportunity to take intellectually enriching honors courses with other outstanding students, work closely with a faculty mentor, and complete an independent capstone project relevant to their area of interest.

#### Program Admission Requirements
- Students must meet the following requirements for admission to the program:
- At least 12 college-level credits with a cumulative GPA of 3.50 or higher
- Completion of ENGL& 101 with a grade B+ or higher
- Eligibility for enrollment in MATH 093 or higher
- One or more of the admission requirements above may be waived if a Clark faculty member submits a formal recommendation of admission on behalf of the student. An online application form is available at www.clark.edu/honors

#### Transfer AA Honors Certificate
- To earn the Honors Certificate, students must satisfy the following requirements:
- Completion of 20 credits of Honors-designated courses
- Completion of a 3-credit Honors capstone course
- 3.50 cumulative GPA
- Concurrent completion of Transfer AA degree requirements

#### Honors Certificate (Transfer) (AA)

To earn the Transfer AA Honors Certificate, students must complete the following courses and concurrently satisfy the degree requirements for an Associate in Arts degree, Associate in Science degree, or Associate in Fine Arts degree.

20 credits selected from the following Honors-designated courses:

<table>

Total Required Credits: 23

Students must also complete a 3-credit 290 Special Projects: Honors Capstone course.

**Program Outcomes**

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Information Literacy: Obtain, evaluate, and ethically use information.
- Communications: Communicate with various audiences using a variety of methods.
- Quantitative I: Perform mathematical calculations without the aid of a calculator.
- Quantitative II: Solve quantitative problems and interpret the solutions.
- Health & Physical Education: Demonstrate progress toward healthier behaviors.
- Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts.
- Social Science: Evaluate, analyze and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences.
- Power, Privilege, and Inequality: Analyze patterns of power, privilege and inequality.
- Natural Science I: Apply fundamental principles and relationships from the Natural Sciences to solve problems.
- Natural Science II: Evaluate claims about the natural world using scientific methodology.

**Industrial Maintenance Technology**

The Industrial Maintenance Technology program is designed to provide the knowledge, skills and abilities to successfully respond to a broad range of work requirements and duties within industrial, manufacturing and processing environments. Students will learn industrial safety, blue print reading, and have the options to learn multiple weld processes, basic machining, electrical fundamentals, basic hydraulics and pneumatics. Students who choose to complete the AA T degree option will have the opportunity to customize their program to a specific area of focus in Machining, Mechatronics or Welding.

Labor statistic show that the industries demand for skilled Industrial Maintenance Technicians over the next decade is expected to grow. Both the certificate and degree programs in Industrial Maintenance Technology were developed as a response to local industry demand and with the input of local employers.

**Industrial Maintenance Technician (CA)**

The certificate program is designed to provide students with marketable entry level skills in machining, mechatronics and welding which can lead to employment as an installation, maintenance and repair worker helper or production worker within the manufacturing industry.

Program Outcomes
Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Demonstrate compliance of all shop safety regulations.
- Interpret blueprints associated with project or machinery.
- Perform entry-level skills for setup and operation of manual machines.
- Operate, measure, and modify software-driven industrial control systems.
- Operate manual, semi-automatic, and automatic welding equipment to fuse metal joints.

Industrial Maintenance Technologies (AAT)
The degree program will build on the knowledge, skills and abilities developed in the certificate program and will provide students with higher level skills in Machining, Mechatronics and Welding. Students completing this program will be prepared for employment as a maintenance technician within industrial, manufacturing and processing environments.

General Education Requirements
Communication Skills (5 credits required)
PTWR 135  INTRODUCTION TO APPLIED TECHNICAL WRITING  5 cr.

Computational Skills (5 credits required)

Human Relations (5 credits required)
CMST&230  SMALL GROUP COMMUNICATION (recommended)  5 cr.

Major Area Requirements
BTEC 150  COMPUTER BUSINESS APPLICATIONS  5 cr.
HLTH 120  ADULT CPR AND FIRST AID  1 cr.
MACH 111  BASIC GENERAL MACHINING PROCESSES  5 cr.
MTX 100  INDUSTRIAL SAFETY  1 cr.
MTX 101  DC FUNDAMENTALS  3 cr.
MTX 102  AC FUNDAMENTALS  3 cr.
MTX 105  BASIC HYDRAULICS  2 cr.
MTX 107  BASIC PNEUMATICS  2 cr.
MTX 123  PICK AND PLACE ROBOT  3 cr.
or MTX 125  SERVO ROBOT  3 cr.
MTX 285  PROJECT MANAGEMENT AND LEAN MANUFACTURING  2 cr.
WELD 102  INTRODUCTION TO WELDING  6 cr.
WELD 140  GAS METAL ARC WELDING  6 cr.
or WELD 144  SHIELDED METAL ARC WELDING  6 cr.
WELD 240  GAS TUNGSTEN ARC WELDING  6 cr.
WELD 235  ELEMENTARY METALLURGY  2 cr.
WELD 236  ELEMENTARY METALLURGY LAB  2 cr.

Program Specialty Area Requirements
Students must complete a minimum of 30 credits in specialty areas. Choose from the following list:
MACH 112  BASIC ENGINE LATHE PROCESSES I  5 cr.
MACH 113  BASIC VERTICAL MILLING PROCESSES I  5 cr.
MTX 110  ELECTRIC MOTOR CONTROL 1  4 cr.
MTX 130  PROGRAMMABLE LOGIC CONTROLLERS 1  4 cr.
MTX 165  ELECTRIC MOTOR CONTROL 2  4 cr.
MTX 207  THERMAL PROCESS CONTROL  5 cr.
MTX 225  SPEED CONTROL SYSTEMS  2 cr.
MTX 230  LASER ALIGNMENT  2 cr.
MTX 250  ADVANCED PROGRAMMABLE LOGIC CONTROLLERS  4 cr.
WELD 110  WELDING BLUEPRINT READING  5 cr.
WELD 241  GAS TUNGSTEN ARC FABRICATION  6 cr.

Total Required Credits: 94

Program Outcomes
Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:
- Demonstrate compliance of all shop safety regulations.
- Interpret blueprints associated with project or machinery.
- Perform inspection of machined parts, welds and/or equipment.
- Perform entry-level skills for setup and operation of manual machines.
- Operate, measure, and modify software-driven industrial control systems.
- Communicate with colleagues, supervisors, clients, using written and verbal technical and/or nontechnical language.
- Actively participate as an effective team member, completing prescribed project tasks and meeting project goals.
• Perform manual and semi-automatic oxyfuel cutting and plasma cutting operations required by skilled welders.
• Operate manual, semi-automatic, and automatic welding equipment to fuse metal joints.
• Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
• Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
• Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.

International Studies

The International Studies Certificate Program recognizes the growing importance of global interdependence and diversity. It is of special interest to students planning careers in fields emphasizing backgrounds in such areas as foreign languages, regional studies, business, and economics.

International Studies Certificate

For students in World Languages (French, German, Japanese, or Spanish) interested in emphasizing courses with a strong international focus as they complete the distribution requirements for their Associate of Arts degree.

To earn the Certificate (which appears as a special notation on the transcript), students must complete 25 credits in Core Courses and 15 credits in additional approved international electives. Students must complete each required core class with a grade of “C” or above.

International Studies (CC)

The International Studies Certificate Program allows students to earn two years of foreign language credit while meeting the distribution requirements for the Associate in Arts degree.

Certificate Requirements

• Students must complete the General Education Requirements for the Associate in Arts degree as listed in the Clark College Catalog.
• Students must complete 25 credits of international core classes and an additional 15 credits of approved courses as part of the required 90 credits.

Required Core Courses (25 credits required)

World Language (15 credits required)  15 credits of &200-level courses in one language (French, German, Japanese or Spanish)

Communication Skills (5 credits required)

CMST 216  INTERCULTURAL COMMUNICATION  5 cr.

History or Political Sciences (5 credits required) choose one

HIST&126  WORLD CIVILIZATIONS I  5 cr.
or HIST&127  WORLD CIVILIZATIONS II  5 cr.
or HIST&128  WORLD CIVILIZATIONS III  5 cr.
or POLS&203  INTERNATIONAL RELATIONS  5 cr.
### Approved International Electives (15 credits required)

### Journalism

Journalism offers more opportunities to meet interesting people than just about any other career. At the same time, journalism provides experiences that can be useful in many other fields: technical writing, law, politics, publishing, and public relations.

Students interested in pursuing a career in journalism should take Clark’s basic sequence of news writing and editing courses and should work on the student newspaper, *The Independent*.

Several paid positions are available each year for student editors; expertise in computer graphics is desirable.

In addition to Clark’s journalism courses, students should take a variety of courses that offer a broad general education and prepare them to transfer to a four-year school offering a degree in journalism or a related field. CMST&
102 offers a foundation for understanding how the media function in our society and is highly recommended. ENGL& 101, 102 and ENGL 103 will improve the ability to write clearly and do documented research accurately. Courses in the social sciences (particularly political science), history, literature, and science will provide a background for accurate reporting and the interpretation of data.

Students should make every effort to develop relevant computer skills while at the community college. These skills include word processing, electronic publishing, computer graphics, and the Internet.

Because course requirements vary at each institution, students interested in pursuing a four-year degree in Journalism should work with advisors at Clark and their transfer institution to develop a course of study.

Journalism courses typically transfer to four-year institutions. However, students should contact their transfer institution to clarify each course’s transferability.

**Journalism/News Media Studies (CC)**

For students who want expertise in journalism and news media, this certificate may be earned along with a regular AA degree, and will be awarded upon graduation.

**Core Courses**

**Total Required Credits: 24-25**

**Machining Technology**

The machinist’s craft is basic to all American industrial production. It is the machinist’s task to interpret the engineer’s drawings in order to fabricate new machines and products.

Machinists operate various types of material-removing equipment such as lathes, milling machines, grinders, and computerized numerical control (CNC) machines. Some machinists specialize in the operation of one type of machine while others work in a shop where they are required to perform equally well on several different machines.

Clark College’s program offers instruction in numerous machine processes including the set-up and operation of the engine lathe, surface grinders, vertical mill, CNC lathes, EDM and CNC milling machines.
All shop theory subjects have a direct bearing on the student’s skill, safety, and attitude. In addition to shop theory and practice, the student studies math, blueprint reading, metallurgy, safety, and computer-aided manufacturing (CAM) programming.

MasterCAM programming classes teach basic CAM programming for mills, lathe, EDM, etc. The basic CNC class involves writing programs and learning to safely operate the HAAS CNC mills.

Students must complete all Major Area Requirements and specifically listed courses with a minimum grade of “C” or better in order to successfully complete the program and earn the award.

Refer to the Degree & Certificate Requirements Section of the Clark College Catalog to identify the courses needed to satisfy the General Education Requirements.

Total Required Credits: 118

Program Outcomes
Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Demonstrate compliance of all machine shop safety regulations.
- Interpret blueprints and perform inspection of machined parts.
- Perform entry-level skills for setup and operation of manual machines.
- Perform entry-level skills to program, operate, and set up CNC machine tools.
- Communicate and interact in a team/group environment to perform multiple tasks in a professional and ethical manner.
- Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
- Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
- Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.
- Health and PE: Demonstrate progress toward healthier behaviors as appropriate for a career and technical education program.
- Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts as appropriate for a career and technical education program.
- Social Science: Evaluate, analyze, and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences as appropriate for a career and technical education program.
- Science: Apply fundamental principles and relationships from the Natural Sciences to solve problems as appropriate for a career and technical education program.

Machining Technologies (AAT)

Math Education
The mathematics program at Clark College prepares students for successful study at four-year colleges and universities. At the university level, the student may prepare for a career in industry, government, or teaching. Students who intend to enter the job market before graduate school should have exposure to the natural, social, and applied sciences.

A variety of resources are available which help students with differing learning styles understand mathematical concepts. At Clark, computers, graphing calculators and other technology are integrated into classroom teaching and research.
The math department maintains a Web page that provides information about faculty members, course descriptions and online general advising for selecting a math course. Advice to help students succeed in math courses, along with instructional materials for some math classes, can be found on the website.

The Math Help Session is staffed 25-30 hours each week by department instructors to assist students who drop by for individual help with homework or understanding math concepts. New evening hours have also been added for night students at the Help Session.

Students who need to brush up on basic math skills will find classes in both the math and developmental education departments that prepare them for success before tackling college-level coursework. Single-credit classes to learn to use graphing calculators and for overcoming math anxiety are also offered.

Math Education - DTA/MRP (AA)

This pathway is applicable to students planning to prepare for math education majors at the secondary level at universities in Washington. Students need to make early contact with their potential transfer institutions regarding the specific course choices in each area of the agreement where options are listed. Students also need to check with their potential transfer institutions regarding the requirement for overall minimum GPA, a higher GPA in a selected subset of courses, or a specific minimum grade in one or more courses such as math or English.

Though this degree does not require such, Clark College students should know that the standard Clark AA degree path has these differences from the MRP defined below:

- Clark requires 3 credits of Health-Physical Education coursework, and
- As of Fall 2011, Clark requires a course in Oral Communication, and
- Clark’s Social Science distribution requirement stipulates that students take courses from at least three different departments.

Students must also meet the residency requirements as established by Clark. While Clark College has approved offering the degree below, Clark students should keep these requirements in mind should their transfer pathways change.

Students are responsible for researching and preparing for specific major requirements of baccalaureate institutions as early as possible prior to transferring.

Generic DTA Requirements

A. Basic Requirements

1. Communication Skills 10 cr.

2. Quantitative/Symbolic Reasoning Requirements 5 cr.

Intermediate algebra proficiency is required.

B. Distribution Requirements

1. Humanities 15 cr.

2. Social Sciences 15 cr.

3. Natural Sciences 3 cr.

C. Major Requirements

1. Math courses

2. Education courses

3. Elective Courses
MRP Requirements

A. Basic Requirements

1. English Composition 10 cr.
2. First-quarter Calculus 5 cr.

Intermediate algebra proficiency is required.

B. Distribution Requirements

1. Humanities
   Introductory Speech and 10 credits of other humanities

   Consistent with the requirements in all DTA degrees - no more than 10 credits per discipline area, 5 credits maximum in world languages or ASL. No more than 5 credits of performance/skills classes are allowed.

2. Social Sciences 15 cr.
   Intro to Psychology (5 cr.)
   Other social sciences (10 cr.)

3. Natural Sciences 15 cr.
   2nd-quarter calculus
   10 credits physical, biological, and/or earth science, including at least one lab course

C. Major Requirements

1. Math courses
   3rd and 4th-quarter calculus
   Linear Algebra

2. Education Courses
   Field Experience/Intro to Education

3. Elective Courses
   Other college-level courses, of which a maximum of 15 credits may be in college-level courses as defined by the community college, and the remainder shall be fully transferable as defined by the receiving institution. Where appropriate, preparation courses for the major, minor, or professional certification should ideally be included in this coursework.

Clark College Equivalents

A. Basic Requirements

1. Communication Skills
   ENGL&101  ENGLISH COMPOSITION I  5 cr.
   ENGL&102  ENGLISH COMPOSITION II  5 cr.

2. Quantitative/Symbolic Reasoning Requirements
   MATH&151  CALCULUS I  5 cr.

B. Distribution Requirements

1. Humanities
   CMST&220  PUBLIC SPEAKING Fulfills oral communication requirement 5 cr.

10 other credits of humanities meeting the stipulations for the DTA
2. Social Sciences

<table>

D. Electives

1. Elective Courses

9 credits of electives as defined under MRP Requirements

Total Required Credits: 90

Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Information Literacy: Obtain, evaluate, and ethically use information.
- Communications: Communicate with various audiences using a variety of methods.
- Quantitative I: Perform mathematical calculations without the aid of a calculator.
- Quantitative II: Solve quantitative problems and interpret the solutions.
- Health & Physical Education: Demonstrate progress toward healthier behaviors.
- Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts.
- Social Science: Evaluate, analyze and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences.
- Power, Privilege, and Inequality: Analyze patterns of power, privilege and inequality.
- Natural Science I: Apply fundamental principles and relationships from the Natural Sciences to solve problems.
- Natural Science II: Evaluate claims about the natural world using scientific methodology.

Mathematics (Area of Study)

Advances in science, technology, social science, business, industry, and government are dependent upon precise analysis and the extraction of information from large quantities of data. Environmental problems, for example, require careful analysis by persons with skills in mathematics, computer science, biology, geology, physics, and business.
The mathematics program at Clark College prepares students for successful study at four-year colleges and universities. At the university level, the student may prepare for a career in industry, government, or teaching. Students who intend to enter the job market before graduate school should have exposure to the natural, social, and applied sciences.

A variety of resources are available which help students with differing learning styles understand mathematical concepts. At Clark, computers, graphing calculators and other technology are integrated into classroom teaching.

The math department maintains a Web page that provides information about faculty members, course descriptions and online general advising for selecting a math course. Advice to help students succeed in math courses, along with instructional materials for some math classes, can be found on the website.

The math department staffs several help facilities to assist students on a drop-in basis. Assistance is provided by faculty and trained helpers.

Students who need to brush up on basic math skills will find classes in both the math and developmental education departments that prepare them for success before tackling college-level coursework.

**General - Mathematics (suggested) (AA)**

This is a suggested program for the first two years of major study in Mathematics. Lower-division course requirements will vary depending on the transfer institution. Contact an advisor at the transfer institution to determine required coursework as early as possible.

Clark College 2014–2015 Catalog Section C: Degrees and Certificates : page C171
MATH 221  DIFFERENTIAL EQUATIONS  5 cr.
MATH&254  CALCULUS IV  5 cr.

Pre-100 Classes Required
PHYS 094  PHYSICS CALCULATIONS  1 cr.
PHYS 095  PHYSICS CALCULATIONS  1 cr.
PHYS 096  PHYSICS CALCULATIONS  1 cr.

Total Required Credits: 106

Program Outcomes
Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Information Literacy: Obtain, evaluate, and ethically use information.
- Communications: Communicate with various audiences using a variety of methods.
- Quantitative I: Perform mathematical calculations without the aid of a calculator.
- Quantitative II: Solve quantitative problems and interpret the solutions.
- Health & Physical Education: Demonstrate progress toward healthier behaviors.
- Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts.
- Social Science: Evaluate, analyze and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences.
- Power, Privilege, and Inequality: Analyze patterns of power, privilege and inequality.
- Natural Science I: Apply fundamental principles and relationships from the Natural Sciences to solve problems.
- Natural Science II: Evaluate claims about the natural world using scientific methodology.

Mechanical, Civil & Aeronautical Engineering
Engineering is a profession where you are challenged to develop creative solutions to problems related to every aspect of life, through the application of mathematical and scientific principles, experience, creativity, and common sense.

Mechanical engineering is a diverse discipline which can include robotics, consumer electronics, automotive, appliances, energy-sustainable and clean fuels, aerospace, medical innovations, amusement park rides, toys, and nanotechnology.

Civil engineers work in many areas essential to modern life such as construction, architecture, environmental engineering, power generation, public works and highway departments, or the federal government. Civil engineers are at the forefront of efforts to design inexpensive yet effective ways to ensure that people living in these regions have access to potable water.

Aeronautical engineering expertise is innovative in space exploration but also pioneering in other industries such as automobile manufacturing. Aerospace engineers are experts in aerodynamics, so some of them put their skills to use in making race cars go faster or golf balls fly further.

It is critical that you work with an Engineering faculty advisor to ensure your program will give you the maximum benefit when you transfer.
Mechanical, Civil & Aeronautical Engineering (AST2)

The following is a degree program designed by a consortium of two-year and four-year colleges in Washington. Students should be aware that baccalaureate institutions may have slightly different requirements for these degrees, and students should consult the transfer institution for exact questions.

Students should complete the entirety of any science sequence at the same school for best transferability. These degrees are not DTA degrees, and there are some general education requirements that students will need to finish upon transfer.

Though this degree does not require such, Clark College students should know that the standard Clark AST degree path has this difference from the Articulated Degree defined below:

- Clark requires 3 credits of Health-Physical Education coursework.

Students must also meet the residency requirements as established by Clark. While Clark College has approved offering the degree below, Clark students should keep these requirements in mind should their transfer pathways change.

Students completing this Associate of Science will receive the same priority consideration for admission to the baccalaureate institution as they would for completing the direct transfer associate degree and will be given junior status by the receiving institution.

Please visit the Major Related Programs section of this catalog to view a printable PDF of this document.

Generic Requirements
A. Basic Requirements

1. Communication Skills 5 cr.
2. Mathematics 10 cr.

Two courses at or above introductory calculus level. Third-quarter calculus or approved statistics course: 5 quarter credits chosen with the help of an Engineering faculty advisor based on the requirements of the specific discipline at the baccalaureate institution the student plans to attend.

3. Physics 15 cr.

Calculus-based or non-calculus based sequence including laboratory. Students should be advised that some baccalaureate programs require physics with calculus.

4. Chemistry with Laboratory 5 cr.
5. Required Major Courses

B. Distribution Requirements

1. Humanities/Fine Arts/English & Social Sciences 15 cr.

C. Electives

1. Elective Courses
The remaining quarter credits should be planned with the help of an Engineering faculty advisor based on the requirements of the specific discipline at the baccalaureate institution the student selects to attend.

For Engineering disciplines, these credits should include a design component consistent with ABET accreditation standards, as approved by the Engineering faculty advisor.

Articulated Degree Requirements
A. Basic Requirements

1. English Composition 5 cr.
## 2. Mathematics

## B. Distribution Requirements

### 1. Humanities/Fine Arts/English & Social Sciences

Minimum 15 quarter credits:

Minimum 5 credits in Humanities, minimum 5 credits in Social Science, plus an additional 5 credits in either Humanities or Social Science for a total of 15 credits.

## C. Electives

### 1. Math/Engr Electives

Select 4 Electives (15-20 credits) as appropriate for intended major and intended baccalaureate institution. Requirements vary by school and program. See an Engineering faculty advisor for proper selection.

B. Distribution Requirements

1. Humanities/Fine Arts/English & Social Sciences
   A course in Economics is recommended (ECON&201 or 202).
   PHIL&106 is strongly recommended as the Humanities course.

C. Electives

1. Elective Courses

   Required at Clark:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH&amp;254</td>
<td>CALCULUS IV</td>
<td>5 cr.</td>
</tr>
</tbody>
</table>

**Notes**

A. Basic Requirements

2. Mathematics
   Clark requires concurrent enrollment of completion in MATH&254 when taking MATH221.

   MATH103 and MATH111 are required prerequisites for MATH&151 that may be needed if calculus placement is not met via COMPASS.

3. Physics
   Clark requires concurrent enrollment in PHYS094, 095, and 096.

B. Distribution Requirements

1. Humanities
   Courses taken must come from the current ICRC distribution list in order to count as General Education or General University Requirements (GER's/GUR's) at the receiving institution. Additional general educational requirements, cultural diversity requirements, and foreign language requirements, as required by the receiving institution, must be met prior to the completion of a baccalaureate degree.

**Total Required Credits: 102-110**
Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Demonstrate understanding of the derivative as instantaneous rate of change and the definite integral as a limit of a Riemann sum in applied problems.
- Analyze and solve multi-step problems using techniques through single-variable calculus, and communicate the results.
- Apply fundamental principles and relationships from the Natural Sciences to analyze technological or scientific problems.
- Acquire scientific and technological information from appropriate sources to examine issues, claims or situations.
- Apply scientific and technological knowledge and methodologies to creatively solve technological or scientific problems.
- Communicate with various audiences using a variety of methods.
- Demonstrate progress toward healthier behaviors.
- Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts.
- Obtain, evaluate, and ethically use information.
- Analyze patterns of power, privilege and inequality.
- Evaluate, analyze, and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences.

Mechatronics

Mechatronics Technology is a growing career field that deals with the integration of mechanical and electronic components managed by control systems. Mechatronics technicians troubleshoot, maintain and repair mechanical equipment controlled by electrical, electronic and computer systems. These types of systems are increasingly used in a wide variety of manufacturing and industrial settings. Clark College’s Mechatronics Technology (MTX) classes emphasize current concepts and technology by providing practical, hands-on experiences with the latest, industry standard equipment. In addition to the technical know-how needed to maintain and repair equipment, the certificate and degree programs will help prepare students to think critically, function as a successful team member and communicate clearly to internal and external customers.

The multiple certificate and degree options available within this program allow students the option to stop-out and enter the workforce, and re-enter the program as needed, or complete their program of study without stopping.

### Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Assimilate/interpret technical and nontechnical descriptions to form a solution.
- Design, operate, and troubleshoot automation processes and systems.
- Communicate with colleagues, supervisors, and clients, using written and verbal technical and/or nontechnical language.
- Actively participate as an effective team member, completing prescribed project tasks and meeting project goals.
- Use computational skills to analyze physical parameters within automated processes and systems.
• Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
• Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
• Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.

- Troubleshoot problems in electrical, mechanical, hydraulic and pneumatic equipment.
- Communicate with colleagues, supervisors and clients, using written and verbal technical and/or nontechnical language.
- Actively participate as an effective team member, completing prescribed project tasks and meeting project goals.

Medical Radiography

Designed to fulfill the educational objectives established by the American Society of Radiologic Technologists and the competencies outlined by the American Registry of Radiologic Technologists, students graduating from this program receive an Associate of Applied Science degree in Medical Radiography and are employed in hospitals, clinics, doctors’ offices, and outpatient medical centers. Successful completion of the registry examination results in national certification as a Registered Radiologic Technologist, RT (R) ARRT.

Upon program completion, and having passed the national boards administered by the American Registry of Radiologic Technologists (ARRT), students may choose to practice as entry-level technologists or continue their education to specialize in CT, MRI, ultrasound, and therapeutic radiation techniques or prepare for administration or teaching.

Application Guidelines

Applicants must be graduates of an accredited high school (or the equivalent). Students can apply to the Medical Radiography program any time; however, they will not be eligible for selection until all Preliminary Requirements are complete.

Candidates must:
- Complete the Clark College Application for Admission and Statement of Intent forms. Return to the Clark College Welcome Center with the non-refundable program application fees (subject to change). For the cur-
rent fee amounts, please visit the Medical Radiography website at www.clark.edu/medicalradiography.

- Submit official college transcripts from ALL colleges attended (an evaluation of transfer credits will not be completed until all transcripts are received).
- Earn a COMPASS Reading exam score of 74 or higher or completion of READ 087 or equivalent with a 2.0 grade or higher.
- Earn a 2.0 grade or higher on all required courses.
- Complete program Preliminary Requirements with a GPA of 2.75 or higher for all non-science courses and a science GPA of 2.0 or higher for BIOL& 251, 252 & 253.
- BIOL&251-Human A & P I (with lab)*nBIOL&252-Human A & P II (with lab)*nBIOL&253-Human A & P III (with lab)*nBMED 110-Medical Terminology I’nBMED 111-Medical Terminology II’nENGL&101-English Composition InMATH 093-Algebra III* or MATH 095-Intermediate Algebra’nMRAD 101-Fundamentals of Medical Radiography

*There is a seven-year (7) limit on all math/science/social science courses (listed above) at the time of program entry.

**Final Program Admission**

In preparing for entrance into the program, accepted students need to be aware of the following:

The program requires a 40-hour per week commitment from students for classes and clinical rotations.

Clinical facilities may require driving significant distances (with travel time up to 2.5 to 3 hours one way), so reliable transportation is an important consideration.

Classes and/or clinicals may be offered at times other than weekday hours such as evenings and/or weekends.

Upon completion of preliminary requirements and application to the program, an evaluation will be completed, and the applicant will be notified by the Credential Evaluations Office of additional procedures necessary for program consideration.

Final admission to the Medical Radiography program is based on competitive entry for a limited number of positions. Students are ranked by:

- Applicable GPA (for all required courses)
- Number of required courses completed
- Science GPA
- Washington Residency

**Mandatory Orientation**

All accepted Medical Radiography students will be required to attend an orientation session to secure their place in the class. Selected students will be sent information regarding the date, place, and time of the orientation. They will also need to submit a non-refundable $200 deposit to reserve a position in the program.

Information regarding required Immunizations, physical exam, drug screening, health insurance, and criminal background check will be discussed in the mandatory orientation to the program.

Refer to the Clark College website for program entry requirements, program selection, deadlines, and application guidelines at www.clark.edu/medicalradiography.

Refer to the Degree & Certificate Requirements Section of the Clark College Catalog to identify the courses needed to satisfy the General Education Requirements.

**Disability Statement for Health Occupations**

In accordance with the Americans with Disabilities Act and the Rehabilitation Act of 1973, accommodations for students with disabilities will be considered at the student’s request. The student may need to provide documenta-
tion of disability to the Disability Support Services Office to support his/her accommodation requests. Documentation guidelines and procedures can be found at www.clark.edu/dss. Once the student is qualified by DSS as having a disability, requested accommodations will be considered. Accommodations for the classroom, laboratory, or clinical setting will be evaluated according to reasonableness. Accommodations that compromise patient care, or that fundamentally alter the essential functions of the program or activity, are not considered to be reasonable.

*Must be seven years current upon program entry.
** Enroll in MRAD 012 for 1 credit during both the fourth and fifth quarter.
***Also fulfills Human Relations requirement.

Program Outcomes
Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

• Be clinically competent: Apply positioning skills, demonstrate radiation protection and patient care.
• Demonstrate communication skills: Accurately explain procedures, listen attentively and apply age-appropriate communication.
• Utilize critical thinking skills: Perform non-routine exams, evaluate image quality and recognize proper procedures for emergency situations.
• Demonstrate professionalism: Ethical behavior, a positive attitude in clinical situations, and initiative.
• Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
• Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
• Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.
• Health and PE: Demonstrate progress toward healthier behaviors as appropriate for a career and technical education program.
• Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts as appropriate for a career and technical education program.
• Social Science: Evaluate, analyze, and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences as appropriate for a career and technical education program.
• Science: Apply fundamental principles and relationships from the Natural Sciences to solve problems as appropriate for a career and technical education program.

Program Progression
Once accepted into the Medical Radiography program all students must achieve a GPA of 2.0 or higher in all required courses and maintain a cumulative GPA of 2.0 or higher to progress from one quarter to the next.

Music (Area of Study)
The Music program at Clark College offers a two-year college experience of music theory, instrumental and vocal
performance training, music appreciation, and music history classes. Classes are designed to prepare the music major for advanced studies at a four-year institution while providing the non-major with the skills and background to fully enjoy music as a cultural pursuit.

Career opportunities for those with musical interests and talent are available in a number of areas: music education, music marketing, theory and history, composition, and vocal or instrumental performance. Students with professional goals should consult with a faculty advisor to plan a program leading to an Associate in Arts degree.

**Musical Opportunities**

Instrumentalists and vocal musicians have the opportunity to fine tune their talents while developing a professional stage presence by performing in their choice of quality college groups:

- Orchestra
- Symphonic Band
- Jazz Band
- Women’s Choir
- Concert Choir
- Brass & Wind Ensembles
- Vocal Jazz Ensemble
- Pep Band

Performing groups present concerts each quarter, at various locations on and off campus, often with musical groups from other schools or from the community. Performing ensembles have toured in Canada, Mexico, Japan, Korea, China, and Hawaii.

Each January, Clark music students also experience first-hand the many activities involved in producing a major musical event as the college hosts the annual Clark College Jazz Festival. More than 80 high school bands and vocal jazz choirs from throughout the Northwest and Canada come to the campus to compete in this nationally recognized event. Clark jazz musicians perform during the three-day event, and all participants have the opportunity to interact with the professional musicians and educators who come to Vancouver as guest performers and adjudicators for the festival.

**Network Technology**

Designed to meet the ever-changing needs of the IT (Information Technology) field, Clark’s Network Technology programs include extensive hands-on, real-world scenario-based learning in planning, designing, implementing, maintaining, and troubleshooting small-to-large scale computer networks.

The Network Technology department provides in-demand training for careers as a Network Administrator, Network Engineer, and Network Support Specialist in all aspects of modern computer networks, including traditional data, video conference, Voice over Internet Protocol (VoIP) telephone, wireless networks, and network security.

We are a Cisco Network Academy authorized by Cisco Systems, a leader in the networking industry. The Network Technology department offers training towards obtaining several well-recognized industry certifications, including:

- Cisco CCNA
- Cisco CCNA Security
- Cisco CCNA Voice
- CompTIA A+ PC Technician
- CompTIA Network+
- CompTIA Server+
• Microsoft MCITP Server Administrator on Windows Server 2008
• Microsoft MCTS Windows Server 2008 Network Infrastructure
• Microsoft MCTS Windows Server 2008 Active Directory

Our various Network Technology programs are designed with entry points both for the student just starting a new career, as well as for the computer networking or telecommunications professional seeking to improve and update their skills and achieve industry certifications. Classes are offered at convenient times for working people: days, nights, weekends.

We invite you to visit our website for more information, contact us with your questions, and schedule a tour of our classroom and leading-edge lab facility.

Email: dnet@clark.edu

PROGRAM PREPARATION
Math and English proficiency tests are required of all students before entry into the applied science degree program.

Students must complete all Major Area Requirements with a minimum grade of “C” or better in order to successfully complete the program and earn the award.

Refer to the Degree & Certificate Requirements Section of the Clark College Catalog to identify the courses needed to satisfy the General Education Requirements.

Cisco Technician (CA)

This program is designed for students who want to work as network administrators with local area network systems. Network administrators maintain network operations, conduct performance monitoring, network security, firewalls, VPNs, design networks, perform backup and recovery procedures, and perform troubleshooting.

Note: Students will be required to have access to the Internet to complete their coursework.

To learn more about this program’s employment outlook, approximate cost and potential careers, please visit the Gainful Employment Program Information page.

PROGRAM OUTCOMES

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

• Design converged networks to meet specific business needs.
• Implement converged networks to meet specific business needs.
• Maintain converged networks to meet specific business needs.
• Resolve common issues with converged networks.

After successful completion of this program, students will be able to:
• Demonstrate the ability to plan a converged enterprise network infrastructure.
• Demonstrate the ability to implement a converged enterprise network infrastructure.
• Demonstrate the ability to maintain a converged enterprise network infrastructure.
• Demonstrate the ability to secure a converged enterprise network infrastructure.
• Demonstrate the ability to troubleshoot a converged enterprise network infrastructure.

Nursing

The registered nurse is a licensed health care professional able to work in hospitals, clinics, acute care, physicians’ offices, emergency centers, long-term care facilities, and home health care agencies. Registered nurses work with patients from birth through old age in a variety of health care settings, including medical/surgical, obstetrics, mental health, long-term care, and in the community. They design care plans, perform patient assessments, administer medications, give injections, serve as advocates for patients, and refer patients to the proper resources. Critical-thinking and decision-making ability, as well as a life-long commitment to learning, are important assets in this demanding but rewarding profession.

Graduates of the Associate Degree Nursing program receive an Associate in Applied Science degree in Nursing, and are qualified to take the National Council Examination for licensure as a Registered Nurse. With additional credits, an Associate of Arts degree may be granted. (Students interested in transferring on to earn their Bachelor of Science in Nursing, please refer to the Clark College to WSU Vancouver Direct Transfer Agreement.)

Clark College’s Associate Degree Nursing program is accredited by the Accreditation Commission for Education in Nursing (ACEN).

ACEN
Accreditation Commission for Education In Nursing
3343 Peachtree Road NE, Suite 850
Atlanta, Georgia 30326
www.acenursing.org

Preliminary Requirements

To apply for the program, complete the Clark College Application for Admission and Statement of Intent forms. Return to the Clark College Welcome Center with the non-refundable program application fees (subject to change). For the current fee amounts, please visit the Nursing website at www.clark.edu/clarknursing.

Send all official college transcripts to the Credential Evaluations Office for complete transcript evaluation.

The following courses must be completed with a 3.0 applicable GPA (with at least a 2.0 in each program class) to qualify for selection to the Nursing program:

• CHEM& 121 Introduction to Chemistry
• BIOL& 251L Human Anatomy & Physiology I
• BIOL& 252L Human Anatomy & Physiology II
• BIOL& 253L Human Anatomy & Physiology III
• BIOL& 260 Microbiology
• NUTR 103 Nutrition
• PSYC& 200 Lifespan Psychology
• ENGL& 101 Composition 1
• ENGL& 102 Composition 2

• There is a seven-year (7) limit on all science/social science courses listed above at the time of program entry.
• The following courses must be completed with a 2.0 or higher prior to graduation:
Final Program Admission
Upon completion of preliminary requirements, an evaluation will be completed and the applicant will be notified by the Credential Evaluations Office of additional procedures necessary for program consideration.

Acceptance into the Nursing Program is limited and competitive. It is based on the total points accumulated in the criteria previously outlined (see “Calculate Your Nursing Points” on the Clark College Nursing website).

Mandatory Orientation
A mandatory orientation will be held for admitted students and invited alternate students. Attendance is required or the next eligible alternate student may be given the assigned placement in the program. Students will be informed of the orientation date, time and location.

Upon Acceptance
- Upon notification of acceptance, students must pay a non-refundable $200 deposit within the deadline stated in the acceptance letter.
- Immediately notify the Clark College Nursing Program office at 360-992-6075 if for any reason your acceptance to the Clark College Nursing Program decision changes.

Physical Exam and Proof of Immunizations
Accepted students and invited alternate students must submit proof of a physical exam and proof of immunizations by the stated deadline or their space will be given to the next eligible alternate. For a list of immunizations, please visit the website at www.clark.edu/clarknursing.

Criminal Background Check
All accepted students are required to complete and pass the FBI, Washington State Patrol/Oregon State Patrol (depending on state of residence) criminal background check process. The criminal background check requires a fee and the applicant’s social security number.

NAC
Students must have active NAC prior to enrolling in the Nursing Program.

Disability Statement for Health Occupations
In accordance with the Americans with Disabilities Act and the Rehabilitation Act of 1973, accommodations for students with disabilities will be considered at the student’s request. The student may need to provide documentation of disability to the Disability Support Services Office to support his/her accommodation requests. Documentation guidelines and procedures can be found at www.clark.edu/dss. Once the student is qualified by DSS as having a disability, requested accommodations will be considered. Accommodations for the classroom, laboratory, or clinical setting will be evaluated according to reasonableness. Accommodations that compromise patient care, or that fundamentally alter the essential functions of the program or activity, are not considered to be reasonable.

NURS 254 MENTAL HEALTH CLINICAL NURSING 4 cr.
NURS 261 PROFESSIONAL LEADERSHIP TRANSITION TO PRACTICE 2 cr.
NURS 262  PROFESSIONAL LEADERSHIP SENIOR PRACTICUM  8 cr.
NURS 263  PROFESSIONAL ROLE IN COMMUNITY SERVICE  1 cr.
NURS 264  CAPSTONE NCLEX PREPARATION  1 cr.

Total Required Credits: 117

Program Progression
In order to progress from one course or quarter to the next after beginning the Nursing program, student must achieve a grade of 2.0 or higher in all required courses and maintain a cumulative GPA of 2.0 or higher.

Program Outcomes
Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Knowledge: Integrate relevant theoretical and practical knowledge.
- Clinical Judgment: Demonstrate effective problem-solving and decision-making.
- Caring: Integrate principles of diversity, holism, stewardship, dignity, and respect to reflect an environment of caring.
- Teamwork and Interprofessional Collaboration: Model open communication, mutual respect and shared decision-making.
- Professionalism: Demonstrate personal accountability, ethical practices and continuing competence in nursing.
- Patient Safety: Minimize risk of harm to patients and providers through both clinical system effectiveness and individual performance.
- Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
- Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
- Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.
- Health and PE: Demonstrate progress toward healthier behaviors as appropriate for a career and technical education program.
- Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts as appropriate for a career and technical education program.
- Social Science: Evaluate, analyze, and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences as appropriate for a career and technical education program.
- Science: Apply fundamental principles and relationships from the Natural Sciences to solve problems as appropriate for a career and technical education program.

Pre-Nursing -DTA/ MRP (AA)
This pathway is applicable to students planning to prepare for upper-division Bachelor of Science, Nursing (entry-to-practice/basic BSN pathway) by completing a broad selection of academic courses. Many students transfer to the BSN program after completing the Associate Degree Nursing (ADN) program (RN-to-BSN pathway); however, this agreement is not applicable to and does not alter those ADN-to-BSN articulation agreements.

Students planning a career pathway in Nursing should seek advisement from Clark College's Advising Department early. Besides this degree, Clark has several consortial agreements with regard to degrees in Nursing.

This pathway streamlines preparation for the basic BSN pathway across the state. It does not, however, address the issue of significantly inadequate capacity (faculty, clinical opportunities, etc.) at the BSN level relative to workforce
needs or current student interest. Due to high interest and limited space in BSN programs, admission to all BSN programs is highly competitive, with many qualified applicants finding themselves on waiting lists for admission.

This document represents an agreement between the following baccalaureate institutions offering an entry-to-practice/basic BSN program and the community and technical colleges system. Baccalaureate institutions party to this agreement include: University of Washington, Seattle; Washington State University; Northwest University; Seattle University; Seattle Pacific University; Pacific Lutheran University; and Walla Walla University. The Washington State University Intercollegiate College of Nursing (WSU-ICN) is a consortium whose members include Eastern Washington University, Gonzaga, and Whitworth. Associate degree transfers to WSU-ICN are admitted through WSU, but not through the other consortium institutions. EWU participated in the development of this agreement.

Though this degree does not require such, Clark College students should know that the standard Clark AA degree path has these differences from the MRP defined below:

- Clark requires 3 credits of Health-Physical Education coursework, and
- Clark’s Social Science distribution requirement stipulates that students take courses from at least three different departments.

Students must also meet the residency requirements as established by Clark. While Clark College has approved offering the degree below, Clark students should keep these requirements in mind should their transfer pathways change.

Students are responsible for researching and preparing for specific major requirements of baccalaureate institutions as early as possible prior to transferring.

**Generic DTA Requirements**

**A. Basic Requirements**

1. Communication Skills 10 cr.
2. Quantitative/Symbolic Reasoning Requirements 5 cr.

Intermediate algebra proficiency is required.

**B. Distribution Requirements**

1. Humanities 15 cr.
2. Social Sciences 15 cr.
3. Natural Sciences 15 cr.

**C. Electives** 27 cr.

**Elective Courses**

**MRP Requirements**

**A. Basic Requirements**

1. English Composition 10 cr.
2. Quantitative/Symbolic Reasoning Requirement 5 cr.

5 quarter credits Statistics (a course that includes descriptive and inferential statistics)

Intermediate algebra proficiency is required.

**B. Distribution Requirements**

1. Humanities 15 cr.
   5 quarter credits of Public Speaking
   10 quarter credits of other Humanities
Consistent with the requirements in all DTA degrees - no more than 10 credits per discipline area, 5 credits maximum in world languages or ASL. No more than 5 credits of performance/skills classes are allowed.

2. Social Sciences

5 quarter credits, Introduction to Psychology
5 quarter credits, Human Development across the Life Span
5 credits from the Sociology discipline

3. Natural Sciences

35 credits with at least 25 credits lab-based:
5 quarter credits General Biology, the course prerequisite to Anatomy/Physiology
10 quarter credits Anatomy and Physiology with lab
5 quarter credits Inorganic Chemistry with lab
5 quarter credits Organic/Biochemistry with lab (when Organic + Biochemistry are separate courses, both are required)
5 quarter credits Microbiology with lab
5 quarter credits Human Nutrition

C. Electives

Up to 10 additional quarter credits of which a maximum of 5 credits may be in college-level courses as defined by the community college, and the remainder shall be fully transferable as defined by the receiving institution.

Clark College Equivalents

A. Basic Requirements

1. Communication Skills

ENGL&101 ENGLISH COMPOSITION I 5 cr.
ENGL&102 ENGLISH COMPOSITION II 5 cr.

2. Quantitative/Symbolic Reasoning Requirement

MATH 203 DESCRIPTIVE STATISTICS 3 cr.
and MATH 204 INFERENTIAL STATISTICS 3 cr.

B. Distribution Requirements

1. Humanities

CMST&220 PUBLIC SPEAKING Fulfills oral communication requirement 5 cr.
10 quarter credits of other Humanities, 5 of which can be CMST

2. Social Sciences

PSYC&100 GENERAL PSYCHOLOGY 5 cr.
PSYC&200 LIFESPAN PSYCHOLOGY 5 cr.
5 credits in Sociology

3. Natural Sciences

BIOL&100 SURVEY OF BIOLOGY 5 cr.
or BIOL 164 HUMAN BIOLOGY 4 cr.
and BIOL 165 HUMAN BIOLOGY LAB 1 cr.

</tbody>
</table>

C. Electives

1. Elective Courses
Up to 10 additional quarter credits of which a maximum of 5 credits may be in college-level courses as defined by the community college, and the remainder shall be fully transferable as defined by the receiving institution.

Students need to consult with the transfer institution to determine which course is “fully transferable.”

Notes

A. Basic Requirements

1. Communication Skills
ENGL&102 is REQUIRED at Northwest University and Walla Walla University.

2. Quantitative/Symbolic Reasoning Requirement
UW Seattle and Seattle University require 10 credits in quantitative/symbolic reasoning with the additional class in college algebra or pre-calculus (at UW Seattle, a class in Logic also serves for the additional class).

Students should make sure that the receiving institution will accept the business statistics sequence prior to starting.

B. Distribution Requirements

1. Humanities
In order to better prepare for successful transfer, students are encouraged to consult with the institution(s) to which they wish to transfer regarding the humanities courses that best support or may be required as prerequisites to their nursing curriculum.

A curriculum that provides students with an understanding of and sensitivity to human diversity is encouraged (required by WSU). Credits in the humanities distribution area provide one opportunity for such a curriculum. See the humanities choices in the WSU “Diversity Course Identification Guidelines” for possible selection or choose courses that include minority, non-Western, ethnic or other “area” studies.

2. Social Sciences
Northwest University requires Cultural Anthropology and does not accept a course in the sociology discipline as a substitute. Students may be admitted to the BSN without Cultural Anthropology if they agree to complete the course at NU in the summer prior to the junior year.

A curriculum that provides students with an understanding of and sensitivity to human diversity is encouraged (required by WSU). The credits in sociology provide one opportunity for such a curriculum. See the sociology choices in the WSU “Diversity Course Identification Guidelines” for possible selection or choose courses that include minority, non-Western, ethnic or other “area” studies.

3. Natural Sciences
Introductory survey courses or review courses do not meet the content level expectations for these natural science requirements.

Northwest University requires 2 credits of Genetics as well. Students may be admitted to the BSN
without Genetics if they agree to complete the course at NU in the summer prior to the junior year.

At the time of application, when some of the coursework may not yet be completed, UW Seattle requires a minimum GPA of 3.0 for 3 out of the 7 courses or 2.8 for 4 out of the 7.

*Students need to be aware that Clark College’s nutrition class is only 3 credits, not the required 5 credits.

C. Electives

1. Elective Courses
See notes under humanities, social science and natural science.

A curriculum that provides students with an understanding of and sensitivity to human diversity is encouraged (required by WSU). The elective credits provide one opportunity for such a curriculum. See the choices in the WSU “Diversity Course Identification Guidelines” for possible course selection or select courses that include minority, non-Western, ethnic or other “area” studies.

Total Required Credits: 90

Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Information Literacy: Obtain, evaluate, and ethically use information.
- Communications: Communicate with various audiences using a variety of methods.
- Quantitative I: Perform mathematical calculations without the aid of a calculator.
- Quantitative II: Solve quantitative problems and interpret the solutions.
- Health & Physical Education: Demonstrate progress toward healthier behaviors.
- Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts.
- Social Science: Evaluate, analyze and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences.
- Power, Privilege, and Inequality: Analyze patterns of power, privilege and inequality.
- Natural Science I: Apply fundamental principles and relationships from the Natural Sciences to solve problems.
- Natural Science II: Evaluate claims about the natural world using scientific methodology.

Nursing - Transfer to WSU Vancouver (AA)

Students who complete the Nursing program at Clark College may choose to continue on to earn a Bachelor of Science in Nursing at Washington State University Vancouver. The following courses are required to meet graduation requirements for the Clark College/WSU Vancouver Direct Transfer Agreement (Associate in Arts).

For information regarding the application process, preliminary requirements, and final admission process, please visit the Clark College Nursing website at www.clark.edu/clarknursing.

*Can apply to Humanities

Program Outcomes
Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Knowledge: Integrate relevant theoretical and practical knowledge.
- Clinical Judgment: Demonstrate effective problem-solving and decision-making.
- Caring: Integrate principles of diversity, holism, stewardship, dignity, and respect to reflect an environment of caring.
- Teamwork and Interprofessional Collaboration: Model open communication, mutual respect and shared decision-making.
- Professionalism: Demonstrate personal accountability, ethical practices and continuing competence in nursing.
- Patient Safety: Minimize risk of harm to patients and providers through both clinical system effectiveness and individual performance.
- Information Literacy: Obtain, evaluate, and ethically use information.
- Communications: Communicate with various audiences using a variety of methods.
- Quantitative I: Perform mathematical calculations without the aid of a calculator.
- Quantitative II: Solve quantitative problems and interpret the solutions.
- Health & Physical Education: Demonstrate progress toward healthier behaviors.
- Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts.
- Social Science: Evaluate, analyze and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences.
- Power, Privilege, and Inequality: Analyze patterns of power, privilege and inequality.
- Natural Science I: Apply fundamental principles and relationships from the Natural Sciences to solve problems.
- Natural Science II: Evaluate claims about the natural world using scientific methodology.

Nursing Assistant Certified
The Nursing Assistant Certificate program provides instruction in basic nursing skills, HIV/AIDS, and clinical training in a long-term care facility. After successful completion of the Nursing Assistant Program, students are eligible to sit for the State of Washington Nursing Assistant examination for State certification. Students receiving their certification will be eligible to apply for employment in hospitals, clinics, long-term care facilities, and home or community health agencies.

Participation Requirements
- 18 years of age or older
- High school diploma or GED is recommended, but not required
• Proof of 2-step TB test or clear chest x-ray within 6 months upon acceptance into the program
• Clear criminal background check. All accepted students are required to complete and pass the FBI, Washington State Patrol/Oregon State Patrol (depending on state residence) criminal background check process. The process requires a fee and the applicant's social security number.

Upon successful selection, attendance at mandatory Nursing Assistant Orientation. Attendance is required or the next eligible alternate student will be given the assigned placement in the program. Students will be informed of the orientation date, time and place.

**APPLICATION REQUIREMENTS**
- All applicants must submit the following four (4) items by the stated deadline on the Statement of Intent form in order to be considered for the quarter’s NAC class.
- Application for Admission to (if not already a student at) Clark College
- Statement of Intent form
- Criminal Background Check results
- Copy of current driver’s license or other legal photo ID

Classes are held at the Clark Center at Washington State University, Vancouver and Columbia Tech Center in east Clark County. Clinical skills training is in a supervised client care setting in the Clark County area.

**DISABILITY STATEMENT FOR HEALTH OCCUPATIONS**

In accordance with the Americans with Disabilities Act and the Rehabilitation Act of 1973, accommodations for students with disabilities will be considered at the student’s request. The student may need to provide documentation of disability to the Disability Support Services Office to support his/her accommodation requests. Documentation guidelines and procedures can be found at www.clark.edu/dss. Once the student is qualified by DSS as having a disability, requested accommodations will be considered. Accommodations for the classroom, laboratory, or clinical setting will be evaluated according to reasonableness. Accommodations that compromise patient care, or that fundamentally alter the essential functions of the program or activity, are not considered to be reasonable.

**Nursing Assistant (CC)**

**Nursing Assistant Certificate (I-BEST)**

I-BEST pairs English as a Second Language (ESL) and/or Adult Basic Education (ABE) instructors with career and technical education instructors in the classroom to concurrently provide students with literacy education and workforce skills. I-BEST students are required to attend ABE/GED 071 classes in addition to the NAC classes. This program requires CASAS testing and requires a multi-step process before students can apply. I-BEST NAC classes run approximately 10 weeks (8 weeks in the summer) and are on a Monday-through-Friday daytime schedule.

- Successfully complete NAC State Written and Skills Exam.

**Paralegal**

Paralegals, or legal assistants, have come to occupy a recognized place of importance in the legal profession. Responsibilities are broad and may include interviewing clients and witnesses; conducting investigations; developing evidence, legal research, legal document preparation, legal case management; and providing general litigation assistance in various agencies and in the courts.

Paralegals and other non-lawyers may not practice law or provide any kind of advice, explanation, opinion, or recommendation to a person/entity about possible legal rights, remedies, defenses, options, selection of forms, or strategies. Furthermore, he/she may not represent a client in court, set a fee, or accept a case, functions generally considered the practice of law. Furthermore, paralegals and other non-lawyers shall not hold themselves out to the public to be a lawyer, expert, or give the impression in any way that they are authorized to practice law.
Students must complete all specifically listed courses and Major Area Requirements with a minimum grade of “C” or better in order to successfully complete the program and earn the award.

Refer to the Degree & Certificate Requirements Section of the Clark College Catalog to identify the courses needed to satisfy the General Education Requirements.

**Paralegal (CP)**

Designed for students with prior college and law office experience.

BTEC 169  INTRODUCTION TO EXCEL  3 cr.

Total Required Credits: 58-63

To learn more about this program's employment outlook, approximate cost and potential careers, please visit the Gainful Employment Program Information page.

Program Outcomes
Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Understand and use terminology common to the legal industry.
- Outline the basic principles of the American legal system, including the sources of law, jurisdiction, civil case procedure (including Local, State and Federal Rules), the structure of state and federal court systems, and the lawyers’ role in the American legal system.
- Understand the business environment of a law firm and distinguish the duties performed by the attorney, the paralegal, and the legal management team.
- List the duties and define the skills of paralegals in various specialized areas of law.
- Possess the ability to read and comprehend legal documents, court documents and client letters, and to assist the attorney with the drafting of such documents through editing and proofreading.
- Demonstrate the ability to communicate effectively with attorneys, clients, court personnel, and co-workers, both orally and in writing.
- Describe the ethical rules and standards of practice pertaining to the paralegal.
- Identify and analyze legal ethical issues, including conflicts of interest, client confidentiality, and unauthorized practice of law.
- Select an appropriate framework for resolving ethical dilemmas around sound professionalism.
- Learn how to conduct effective factual and legal research, using primary sources (such as Federal, State and Local Rules of Procedure) and secondary sources.
- Prepare legal correspondence, memoranda, documents, and exhibits, and in that content properly interpret legal citation.
- Demonstrate analytical reasoning capability in making decisions and solving legal problems.
- Describe government regulation and the legal environment in which businesses organizations operate.
- Demonstrate competent legal writing skills, including the mechanics of grammar, punctuation, large-scale organization and small-scale organization of content.
• Demonstrate good quality organizational skills, time management skills, and effective interpersonal skills, including working calmly under pressure.
• Demonstrate a working knowledge of microcomputers, specialized legal office software, and other technological applications.
• Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
• Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
• Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.

Paralegal (AAS)
Designed for students with no prior college and law office experience.

General Education Requirements
Communication Skills (6 credits required)
ENGL&101  ENGLISH COMPOSITION I  5 cr.
ENGL 212  BUSINESS COMMUNICATIONS  3 cr.
Health & Physical Education (3 credits required)  3 cr.
Computational Skills (3 credits required)
BUS 102  BUSINESS MATH APPLICATIONS  5 cr.
Human Relations (3 credits required)
CMST&210  INTERPERSONAL COMMUNICATION  5 cr.
or CMST&230  SMALL GROUP COMMUNICATION  5 cr.
Humanities (3 credits required)
Social Sciences (3 credits required)
PSYC&100  GENERAL PSYCHOLOGY  5 cr.
Natural Sciences (3 credits required)
Major Area Requirements
BTEC 120  INTRODUCTION TO WORD  3 cr.
or BTEC 122  WORD FOR BUSINESS  5 cr.
BTEC 165  POWERPOINT PRESENTATION  3 cr.
BTEC 169  INTRODUCTION TO EXCEL  3 cr.
BTEC 170  EXCEL FOR BUSINESS  3 cr.
or BTEC 180  ACCESS FOR BUSINESS  3 cr.
BUS 028  BASIC ACCOUNTING PROCEDURES  3 cr.
BUS& 201  BUSINESS LAW  5 cr.
POLS 111  AMERICAN NATIONAL GOVERNMENT AND POLITICS  5 cr.
or POLS 131  STATE AND LOCAL GOVERNMENT  5 cr.
or POLS 141  SURVEY OF STATE AND LOCAL GOVERNMENT  3 cr.
or POLS 171  SURVEY OF THE UNITED STATES CONSTITUTION  3 cr.
### Additional Major Area Requirements

* CMST courses may not count for more than two distribution areas of general education requirements.

**Program Outcomes**

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Understand and use terminology common to the legal industry.
• Outline the basic principles of the American legal system, including the sources of law, jurisdiction, civil case procedure (including Local, State and Federal Rules), the structure of state and federal court systems, and the lawyers' role in the American legal system.
• Understand the business environment of a law firm and distinguish the duties performed by the attorney, the paralegal, and the legal management team.
• List the duties and define the skills of paralegals in various specialized areas of law.
• Possess the ability to read and comprehend legal documents, court documents and client letters, and to assist the attorney with the drafting of such documents through editing and proofreading.
• Demonstrate the ability to communicate effectively with attorneys, clients, court personnel, and co-workers, both orally and in writing.
• Describe the ethical rules and standards of practice pertaining to the paralegal.
• Identify and analyze legal ethical issues, including conflicts of interest, client confidentiality, and unauthorized practice of law.
• Select an appropriate framework for resolving ethical dilemmas around sound professionalism.
• Learn how to conduct effective factual and legal research, using primary sources (such as Federal, State and Local Rules of Procedure) and secondary sources.
• Prepare legal correspondence, memoranda, documents, and exhibits, and in that content properly interpret legal citation.
• Demonstrate analytical reasoning capability in making decisions and solving legal problems.
• Describe government regulation and the legal environment in which businesses organizations operate.
• Demonstrate competent legal writing skills, including the mechanics of grammar, punctuation, large-scale organization and small-scale organization of content.
• Demonstrate good quality organizational skills, time management skills, and effective interpersonal skills, including working calmly under pressure.
• Demonstrate a working knowledge of microcomputers, specialized legal office software, and other technological applications.
• Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
• Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
• Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.
• Health and PE: Demonstrate progress toward healthier behaviors as appropriate for a career and technical education program.
• Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts as appropriate for a career and technical education program.
• Social Science: Evaluate, analyze, and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences as appropriate for a career and technical education program.
• Science: Apply fundamental principles and relationships from the Natural Sciences to solve problems as appropriate for a career and technical education program.

Pharmacy Technician

Pharmacy technicians in Washington and Oregon are employed in hospitals and outpatient facilities. They assist licensed pharmacists in dispensing medications, assist with compounding and IV drug preparation, take inventory, stock supplies, type prescription labels, and perform other assignments as allowed by law. Pharmacy technicians, by
law, are employed under the direct supervision of a licensed pharmacist. Both chain and community retail pharmacies, as well as all hospitals, employ pharmacy technicians.

The profession of pharmacy requires highly motivated and trained technicians to provide the drug preparation and distributive functions that support the medication management and pharmaceutical care duties of the pharmacist.

Clark College’s program consists of classroom and practicum education and training. Students learn the theory in class, practice in a mock pharmacy mini-lab, and then apply their knowledge in actual pharmacy practicum settings.

The current certificate program includes a three-quarter, 66-67 credit course sequence. The practicum (direct pharmacy training) consists of two 120-hour experiences in different pharmacy sites under the supervision of a pharmacist.

**APPLICATION PROCESS**

Admission to the program is outlined in two stages: preliminary requirements and final program admission.

Students must apply and pay an application fee to be included in selection. Application date is used in ranking students for selection, so it is beneficial to apply early.

**PRELIMINARY REQUIREMENTS**

- Complete the [Clark College Application for Admission](#) and the [Pharmacy Technician Application](#).
  
  Return them to the Clark College Welcome Center with the non-refundable program application fees (subject to change). For the current fee amounts, please visit the Pharmacy Technician website at www.clark.edu/pharmacytech. Date of Pharmacy Application (fee paid date) will be considered in selecting students for entry into the program.

- To comply with Washington State Law [WAC 246-901-030(2)], Clark College requires that students must submit proof of high school graduation, GED completion, or U.S. degree conferment to be eligible for selection into the Pharmacy Technician program. Students must submit official transcripts in a sealed envelope to the Clark College Welcome Center.

- Earn a COMPASS Testing score of 74 or higher in reading, or complete READ 087 or equivalent with a 2.0 grade or higher.

- Earn a COMPASS Testing score of 78 or higher in writing, or complete ENGL 098 or equivalent with a 2.0 grade or higher.

- Earn a COMPASS Testing score of 54 or higher in math numerical skills, or complete MA TH 030 or equivalent with a 2.0 grade or higher (Math score or class must be seven [7] years current upon program entry).

- Complete program Preliminary Requirements with a 2.0 GPA or better:
  - BMED 110 - Medical Terminology 
  - nBTEC 149 - Computer Application Essentials (or BTEC 116, 117 AND 118) 
  - nHEOC 102 - Survey of Health Careers (formerly HEOC 090) 
  - nHEOC 120 - AIDS Education 
  - Obtain a minimum Clark College cumulative GPA of 2.5 or above.

  Accepted students must complete a Washington State Patrol and FBI criminal background check.

The most recent educational experience will be used to meet these criteria. Applicants are responsible for requesting their official high school and college transcripts be sent to Clark College.

**ADDITIONAL REQUIREMENTS**

Prior to program entry students must complete additional course requirements with a 2.0 or above:

- HEOC 100 - Basic Concepts of Anatomy and Physiology (must be seven years current upon program entrance).

  OR

  - BIOL 164 AND 165 - Human Biology w/lab (must be seven years current upon program entrance).
• FACPR 032- First Aid and Health Care Provider CPR
• BMED 138- Legal Aspects of the Medical Office
• Completion of CMST&210 or CMST&230 prior to entering the program is strongly encouraged.

**Final Program Admission**

Upon completion of preliminary requirements and application to the program, an evaluation will be completed, and the applicant will be notified by the Credential Evaluations Office of additional procedures necessary for program consideration.

**Program Progression**

In order to progress from one course or quarter to the next after beginning the Pharmacy Technician program, the student must:

• Achieve a GPA of 2.0 or higher in all courses

Graduates of the Clark College Pharmacy Technician program will be eligible for:

• Clark College Certificate of Proficiency
• Washington Board of Pharmacy Certificate
• Oregon Board of Pharmacy Registration
• National Pharmacy Technician Certification Exam

Please note: Completion of the Pre-Pharmacy Technician requirements does not guarantee entrance into the program. The Pharmacy Technician program has limited enrollment and Clark College reserves the right to determine admission status.

**Disability Statement for Health Occupations**

In accordance with the Americans with Disabilities Act and the Rehabilitation Act of 1973, accommodations for students with disabilities will be considered at the student's request. The student may need to provide documentation of disability to the Disability Support Services Office to support his/her accommodation requests. Documentation guidelines and procedures can be found at www.clark.edu/dss. Once the student is qualified by DSS as having a disability, requested accommodations will be considered. Accommodations for the classroom, laboratory, or clinical setting will be evaluated according to reasonableness. Accommodations that compromise patient care, or that fundamentally alter the essential functions of the program or activity, are not considered to be reasonable.

General Information

Selection criteria is subject to change. For complete updated information, please refer to the application materials, available online at www.clark.edu/pharmacytech.

To learn more about this program’s employment outlook, approximate cost and potential careers, please visit the Gainful Employment Program Information page.

Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Successfully complete all criteria necessary for registration as a pharmacy tech in any state.
- Exhibit effective communication skills in interactions with patients and other healthcare professionals.
- Demonstrate knowledge of pharmacy processes and information technology to accurately and safely prepare and dispense medications in a variety of pharmacy settings.
- Demonstrate professional clinical skills in the workplace while complying with laws, regulations, and ethical standards of practice.
• Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
• Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
• Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.

Pharmacy Technician Leadership (AAT)

The Associate in Applied Technology (AAT) in Pharmacy Technician Leadership is intended for those students who would like to continue their education beyond the Pharmacy Technician Certificate of Proficiency. Currently, the Certificate of Proficiency is a one-year program. Courses required for the AAT focus on developing skill sets in leadership, business relations, and professional development. These additional skill sets will provide students with a significant advantage in securing entry-level positions as well as progressing within their career field.

**Program Outcomes**

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Successfully complete all criteria necessary for registration as a pharmacy tech in any state.
- Exhibit effective communication skills in interactions with patients and other healthcare professionals.
- Demonstrate knowledge of pharmacy processes and information technology to efficiently manage pharmacy staffing issues and activities.
- Demonstrate professional and clinical leadership skills in the workplace while complying with laws, regulations, and ethical standards of practice.
- Demonstrate knowledge of pharmacy processes and information technology to accurately and safely prepare and dispense medications in a variety of pharmacy settings.
- Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
- Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
• Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.

Phlebotomy

The Phlebotomy curriculum prepares students to perform skin and venipunctures, to obtain laboratory specimens, and to function as a member of a medical laboratory team.

The program curriculum includes a one-quarter lab practicum (PHLE 197) that gives students actual practice working in a health care facility.

A department certificate is awarded to those who successfully complete the program requirements. Graduates are also eligible to apply for certification through the National Accrediting Agency for Clinical Laboratory Sciences (NAA-CLS) by formal examination offered on a biannual basis. Prior to the exam, a review course is offered at Clark to graduates of the program. Application Process

The Phlebotomy Program is a two-quarter clinical program with preliminary requirements that must be completed before program entry. Admission to the program is outlined in two stages: preliminary requirements and final program admission. Disability Statement for Health Occupations

In accordance with the Americans with Disabilities Act and the Rehabilitation Act of 1973, accommodations for students with disabilities will be considered at the student’s request. The student may need to provide documentation of disability to the Disability Support Services Office to support his/her accommodation requests. Documentation guidelines and procedures can be found at www.clark.edu/dss. Once the student is qualified by DSS as having a disability, requested accommodations will be considered. Accommodations for the classroom, laboratory, or clinical setting will be evaluated according to reasonableness. Accommodations that compromise patient care, or that fundamentally alter the essential functions of the program or activity, are not considered to be reasonable.

Phlebotomy (CA)

Candidates must:

• Complete the Clark College Application for Admission and the Phlebotomy Application. Return to the Clark College Welcome Center with the non-refundable program application fees (subject to change). For current fee amounts, please visit the Phlebotomy website at www.clark.edu/phlebotomy. Date of Phlebotomy Application (fee paid date) will be considered in selecting students for entry into the program.

• Submit official college transcripts if you have transfer credits you wish to apply to the program. Students who do not plan to apply transfer credits toward the program are not required to submit official transcripts.

• Take the Clark College Compass Test to determine writing and reading levels. Call 360-992-2588 for Assessment Center hours.

• Obtain a minimum Clark College cumulative GPA of 2.5 or above.

• Complete Preliminary Requirements with a 2.0 or higher

The most recent educational experience will be used to meet these criteria. Applicants are responsible for requesting that college transcripts be sent to Clark College.

Final Program Admission

Upon completion of preliminary requirements, an evaluation will be completed, and the applicant will be notified by the Credential Evaluations Office of additional procedures necessary for program consideration. Application (fee paid) date is used in ranking students for selection, so it is beneficial to apply early.

Program Progression

To successfully complete the Phlebotomy program, keep in mind the following:

• Students may be included in selection 3 times, after which their file becomes inactive.
• All students must successfully complete PHLE 115/115L with a grade “C” or better as well as the required venipunctures and lab hours to progress into the clinical portion of the program.

• If a student is unable to continue with the clinical portion immediately following PHLE 115/115L, they must reapply to begin again with the next available cohort (and retake PHLE 115/115L). Students who wish to be considered for their second opportunity must notify the Credential Evaluations office in writing (letter or email). Students will be accepted on a space-available basis.

• PHLE 115/115L may be repeated one time only.

General Information

Selection criteria are subject to change. For complete updated information, please refer to the application materials, available online at www.clark.edu/phlebotomy.

Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

• Communicate effectively, correctly, and professionally, using verbal, non-verbal, and written language with patients, colleagues, the public, diverse populations, and other healthcare providers.
• Conduct self in an ethical and professional manner to support colleagues and associates in providing quality patient care.
• Apply safety and infection-control standards in the health care environment to maintain a safe and clean environment for patients and self.
• Identify the human conditions that require different methodology of sample collection.
• Demonstrate knowledge of the “order of draw,” collection equipment and their specific uses, precautions associated with the equipment, and where to correctly deliver and properly store each specimen in order to maintain its quality, potency, and purity within the clinical laboratory.

Phlebotomy/Nursing Assistant (CP)

The Phlebotomy with Nursing Assistant Certified (NAC) Certificate of Achievement is a combination of the Phlebotomy Certificate of Achievement and the Nursing Assistant program of study offered at Clark College. The certificate program provides students with training in phlebotomy, skin and venipunctures, and how to obtain laboratory specimens, as well as basic functions of a nursing assistant, basic nursing care, safety, and emergency nursing procedures. The program offers a blend between classroom instruction, to include the six-course healthcare core curriculum, and on-site clinical experiences in both phlebotomy and nursing assistant. Upon completion of the Certificate of Achievement at Clark College, students are eligible to apply for two separate certifications: a national phlebotomy certification through the National Accrediting Agency for Clinical Laboratory Sciences (NAA-CLS), and the state certification for nursing assistants.

Note: Students must apply to Phlebotomy and NAC programs separately. Please see entrance requirements for Phlebotomy listed on the tab above, the restrictions for the NAC program are as follows.

Participation Requirements
• 18 years of age or older
• High school diploma or GED is recommended, but not required
• Proof of 2-step TB test or clear chest x-ray within 6 months upon acceptance into the program.
• Clear criminal background check
• Upon successful selection, attendance at mandatory Nursing Assistant Orientation

NAC - For Credit Requirements
• All applicants must submit the following three (3) items to the Clark College Welcome Center, PUB 002, by the stated deadline on the Statement of Intent form in order to be considered for the quarter’s NAC class.
• Application for Admission to (if not already a student at) Clark College
• Statement of Intent form
• Criminal Background Check

Classes are held at the Clark Center at Washington State University, Vancouver and Columbia Tech Center in east Clark County. Clinical skills training is in a supervised client care setting in the Clark County area.

Preliminary Requirements
BMED 110 MEDICAL TERMINOLOGY I * 3 cr.
FACPR032 FIRST AID AND HEALTH CARE PROVIDER CPR 1 cr.
HEOC 104 HEALTH CARE DELIVERY & CAREER EXPLORATION 3 cr.
HEOC 120 AIDS EDUCATION 1 cr.
READ 087 CRITICAL READING 4 cr.
HEOC 100 BASIC CONCEPTS OF ANATOMY AND PHYSIOLOGY * 4 cr.
or BIOL 164  HUMAN BIOLOGY *  4 cr.
and BIOL 165  HUMAN BIOLOGY LAB *  1 cr.

**General Education Requirements**

**Communication Skills (3 credits required)**
ENGL 098  WRITING FUNDAMENTALS  5 cr.

**Computational Skills (3 credits required)**
BMED 103  MATH FOR HEALTH CARE PROFESSIONALS  3 cr.

**Human Relations (3 credits required)**
CMST&210  INTERPERSONAL COMMUNICATION  5 cr.

**Program Requirements**
BMED 111  MEDICAL TERMINOLOGY II *  3 cr.
BMED 138  LEGAL ASPECTS OF THE MEDICAL OFFICE  2 cr.
PHLE 115  PHLEBOTOMY EDUCATION W/LAB  3 cr.
PHLE 116  BASIC LABORATORY FOR THE PHLEBOTOMIST  3 cr.
PHLE 197  PHLEBOTOMY CLINICAL EXPERIENCE  5 cr.
PHLE 198  PHLEBOTOMY CLINICAL SEMINAR  1 cr.
NAC 103  NURSING ASSISTANT FOUNDATIONS/CLINICAL  9 cr.

Total Required Credits: 49-56

*Course must be seven years current upon program entry.*

**Program Outcomes**

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Behave in a professional and ethical manner when interacting with patients, health care professionals, and peers.
- Consistently use aseptic technique as determined by the NNAAP (National Nurse Aide Assessment Program) skills listing and the CDC.
- Perform vital-sign measurements according to the NNAAP skills requirement.
- Apply basic skin care and pressure-sore prevention with all patients.
- Possess basic knowledge of the body’s systems and disease processes.
- Successfully complete all criteria for the NAC State Exam.
- Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
- Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
- Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.
Physics

Physics is the study of the fundamental nature of our universe. This knowledge is applicable to a wide variety of disciplines in the biological and physical sciences, engineering, medicine, and technology. By taking physics at Clark College, you will get the benefits of small class size, up-to-date laboratory equipment, and instructors who place their emphasis on quality learning.

Physics majors can choose from a variety of courses and are encouraged to explore a wide sample of offerings to obtain a well-rounded education. Students wishing to major in physics should contact the Physics Department for program guidance.

Physics (AST2)

This is a suggested program for the first two years of major study in Physics. Lower-division course requirements will vary depending on the transfer institution. Contact an advisor at the transfer institution to determine required coursework as early as possible. Additional courses are needed to satisfy graduation requirements for the Associate in Science or the Associate in Arts degree.

Total Required Credits: 90 minimum

Program Outcomes
Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Demonstrate understanding of the derivative as instantaneous rate of change and the definite integral as a limit of a Riemann sum in applied problems.
- Analyze and solve multi-step problems using techniques through single-variable calculus, and communicate the results.
- Apply fundamental principles and relationships from the Natural Sciences to analyze technological or scientific problems.
- Acquire scientific and technological information from appropriate sources to examine issues, claims or situations.
- Apply scientific and technological knowledge and methodologies to creatively solve technological or scientific problems.
- Communicate with various audiences using a variety of methods.
- Demonstrate progress toward healthier behaviors.
- Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts.
- Obtain, evaluate, and ethically use information.
- Analyze patterns of power, privilege and inequality.
- Evaluate, analyze, and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences.

Power Utilities Technology

Attention Students:
The Power Utilities Technology program is under review and the College is not currently offering courses within this program.

For Power Utilities Technology questions, you may contact the Advising Center at (360) 992-2345 to discuss other program options.
Surveying & Geomatics

Degree Requirements

The Surveying and Geomatics program is designed to meet entry-level field and office skills in a variety of land surveying and geomatics occupations. Training will utilize precision electronic surveying instruments, including Global Positioning System equipment and sophisticated computerized drafting, mapping, design, and analysis software.

An Associate in Applied Science degree will be awarded upon successful completion of the course requirements. All core and general education list requirements must be met, with any additional credits to be selected as electives. Students are encouraged to complete basic skills at the beginning of their education. Refer to the Degree & Certificate Requirements Section of the Clark College Catalog to identify the courses needed to satisfy the General Education Requirements.

Full-time students seeking an Associate in Applied Science degree typically complete this program in a minimum of six quarters, if basic skills and prerequisites are complete. Students interested in pursuing a baccalaureate degree in a Surveying or GIS field, a formal articulation agreement between Clark College and the Oregon Institute of Technology in Klamath Falls, Oregon is in place. Please consult with an advisor for additional requirements regarding this specific educational path.

Student Preparation

It is recommended that students prepare for entrance into the program by emphasizing mathematics and science in high school. Two years of algebra and one year each of geometry, trigonometry, and physics are desirable prerequisites.

Career Opportunities

Completion of this program prepares students for work as Surveying Technicians and can lead to a career as a Professional Land Surveyor. The employment forecast for graduates in this field are exceptional. As increasing number of licensed surveyors across the nation retire, a personnel shortage has been created within this profession.

Surveying/Geomatics (AAS)

General Education Requirements

Communication Skills (6 credits required)
CMST&210    INTERPERSONAL COMMUNICATION (recommended)    5 cr.
ENGL 135 INTRODUCTION TO TECHNICAL WRITING (recommended)    5 cr.

Health & Physical Education (3 credits required)
HPE 220 INDUSTRIAL HEALTH AND FITNESS (recommended)    3 cr.

Computational Skills (3 credits required)
MATH 103 COLLEGE TRIGONOMETRY    5 cr.

Human Relations (3 credits required)
CMST&210 INTERPERSONAL COMMUNICATION (recommended)    5 cr.

Humanities (3 credits required)

Social Sciences (3 credits required)

Natural Sciences (3 credits required)
PHSC 101 GENERAL PHYSICAL SCIENCE (recommended)    5 cr.

### Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Demonstrate use of modern technology, industry standard software, and tools to collect, analyze and interpret data for surveying solutions.
- Apply problem-solving skills as a member of a professional team in a field crew.
- Communicate in written form, verbally, and graphically with surveyors and engineers.
- Solve applied mathematical problems related to land surveying.
- Prepare complete field records.
- Practice a code of ethics prescribed by professional organizations and state codes.
- Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
- Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
- Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.
• Health and PE: Demonstrate progress toward healthier behaviors as appropriate for a career and technical education program.
• Humanities: Analyze, interpret, and evaluate works and ideas in the Humanities within appropriate global and historical contexts as appropriate for a career and technical education program.
• Social Science: Evaluate, analyze, and explain events, behaviors, and institutions using perspectives and methods in the Social Sciences as appropriate for a career and technical education program.
• Science: Apply fundamental principles and relationships from the Natural Sciences to solve problems as appropriate for a career and technical education program.

Welding Technology

The Welding Technology program prepares students for entry-level welder employment in production, job shop, or maintenance positions. Students master basic and advanced welding skills while operating heavy industrial fabrication equipment and state-of-the-art welding equipment. The curriculum places equal focus on the development of fabrication skills and techniques. Student will be expected to not only demonstrate their proficiency with various weld processes but their ability to fabricate projects within specified tolerances using those processes.

The multiple certificates and degree options available within this program allow students the option to stop-out and enter the workforce, and re-enter the program as needed, or complete their program of study without stopping. Students enrolled in a welding program will have the opportunity to earn multiple American Welding Society certifications.

Program Outcomes

Program outcomes are overarching skills that are emphasized and reinforced throughout several courses in a specific program; they are measurable statements that define what students should know or be able to do by the end of a certificate or degree at Clark College. After successful completion of this program, students will be able to:

- Operate manual, semi-automatic, and automatic welding equipment to fuse metal joints.
- Interpret blueprints and specifications.
- Examine work pieces for defects and measure work pieces with straightedges or templates to ensure conformance with specifications.
- Perform manual and semi-automatic oxyfuel cutting and plasma cutting operations required by skilled welders.
- Operate automatic CNC plasma cutting equipment.
- Apply material classifications and identifications to metal fabrication methods.
- Apply physical metallurgy oriented toward the metalworking trades.
- Communications: Communicate with various audiences using a variety of methods as appropriate for a career and technical education program.
- Human Relations: Demonstrate interpersonal/human relations skills as appropriate for a career and technical education program.
- Computational Skills: Solve quantitative problems and interpret the solutions as appropriate for a career and technical education program.

Women’s Studies

Women’s Studies is an interdisciplinary field that identifies gender as one of the central organizing principles of human experience. Grounded in feminist theory and centered around feminist scholarship, Women’s Studies
confronts and challenges institutional, individual and ideological systems of power, privilege and inequity. Women’s Studies analyzes socially constructed power imbalances based on gender, race, class, sexual identity, ability, age and other differences, allowing students profound insights into the origins of their own experience.

Because Women’s Studies seeks to understand how our gendered experience affects every aspect of our lives, course topics may include: gender socialization, family, work, politics, health, sexuality, body image, violence, spirituality, art and culture. We may also discuss feminists’ roles in social justice movements of the past as well as current and future trends in scholarship and activism.

Since other aspects of identity influence how individuals understand gender, we can’t assume we all share the same experiences. Women’s Studies creates opportunities to understand how and why we assign value to our differences and suggests strategies for resisting the power imbalances that result. By acknowledging that we don’t have to be the same to be equal, Women’s Studies provides a platform for exploring our differences as a potential source of strength rather than only a source of conflict. Students are encouraged to explore their relationship to individual and institutional power and to make visible the social and political forces at work. What advantages and obstacles do we each experience as a result of our socially constructed identities? Whose experience is understood as “normal” and why might it matter? What individual and communal action can we take?

Women’s Studies students learn new and exciting ways to interpret the world around them, and their place within it. Most students find that their worldview undergoes profound changes as a result of taking a Women’s Studies class. What new things will you notice?

Are you ready to:
- Think critically
- View popular culture in ways you’ve never imagined
- Gain a new self-awareness
- Transform your interpersonal relationships
- Confront our shared legacy of privilege and oppression
- Take action!

If so, Women’s Studies at Clark College is ready to help you take that next step...

**Women’s Studies (CC)**

For students who want expertise in women’s issues, this certificate may be earned along with a regular A.A. degree, and will be awarded upon graduation.

**Core Courses (13 credits)**
Core courses must be completed with a grade of “C” or better.

World Languages

Language proficiency is an important skill for more and more Americans who must compete professionally in a global economy. It is a marketable skill in such diverse fields as medicine, government, science, technology, banking, trade, industry, communications, teaching, and social work. Clark College language students apply their skills not only to employment but also to upper-division transfer studies at four-year universities.

Classes emphasize learning strategies that are necessary to communicate in the real world. Language clubs provide active support and opportunities for using the language ranging from film series and round-table discussion groups to field trips and cultural presentations.

Program Options

Students who intend to major in a world language at a four-year institution should consider two years of study in one language. Clark offers two-year programs (elementary, intermediate) in three areas:

- German
- Spanish
- Japanese

And one-year programs in:

- American Sign Language
- French

Summer Study Abroad for Language Students

The departments provide the following language and cultural opportunities:

- French Study Abroad opportunity
- German immersion/study every summer with the German Studies in Berlin program
- Spanish immersion/study at the University of Valladolid in Valladolid, Spain
- Japanese immersion/study at Tokyo Institute of Japanese in Tokyo and visiting Kyoto and Joyo

Other Study Abroad

Clark College is a member of the Washington Community College Consortium for Study Abroad (WCCCSA), which offers quarter-long programs in London, England; Paris, France; Florence, Italy; and Alajuela, Costa Rica. Contact an advisor in the International Center for more information.
American Sign Language (CC)

For students who want expertise in American Sign Language, this certificate may be earned along with a regular A.A. degree, and will be awarded upon graduation.

Accounting

**PRINCIPLES OF ACCOUNTING I**

ACCT&201 5 Credits 55 hours of lecture
Accounting theory and practice including the entire accounting cycle and accounting for merchandising operations, receivables, current liabilities, and payroll. Formerly BUS 231. Credit not allowed for both BUS 231 and ACCT& 201. Prerequisite: Eligibility for ENGL& 101 and MATH 095 or consent of Instructional Unit. [SE]

**PRINCIPLES OF ACCOUNTING II**

ACCT&202 5 Credits 55 hours of lecture
Continuation of ACCT& 201 with emphasis on payroll, partnership and corporation accounting, statement of cash flow, analysis and interpretation of financial statements, plant assets, depreciation, time value of money, long-term liabilities, and investments. Formerly BUS 232. Credit not allowed for both BUS 232 and ACCT& 202. Prerequisite: A grade of “C” or better in ACCT& 201. [SE]

**PRINCIPLES OF ACCOUNTING III**

ACCT&203 5 Credits 55 hours of lecture
Continuation of ACCT& 201 with emphasis on responsibility and departmental accounting, manufacturing operations, cost accounting, budgeting and standard costs, cost-volume-profit analysis, incremental analysis and capital budgeting. Prerequisite: A grade of “C” or better in ACCT& 201. Formerly BUS 233. [SE]

Addiction Counselor Education

**SURVEY OF ADDICTIONOLOGY**

ACED 101 3 Credits 33 hours of lecture
Biological, psychological, and sociological theories of the use of major drugs of abuse, as well as addictive behaviors. Explores the distinction between use, abuse and addiction. For majors and non-majors. Prerequisite: ENGL& 101 (or ENGL 101). [GE, SE]

**INTRODUCTION TO ADDICTIONOLOGY**

ACED 105 5 Credits 55 hours of lecture
Basic theories course: effects on the body, diagnosis, treatment, and prevention of substance abuse. Emphasis on alcohol abuse and related problems in individuals and society. [GE]

**INTRODUCTION TO ADDICTIONS COUNSELING SKILLS**

ACED 122 3 Credits 33 hours of lecture
Application of basic counseling theories, including relapse prevention, to an addiction client population. Group, individual and family counseling. Other cultures also addressed. Prerequisite: ACED 101 or CDEP 101, and consent of Instructional Unit. [GE]

**GROUP COUNSELING IN ADDICTIONS**

ACED 125 3 Credits 33 hours of lecture
Use of group process for modifying individual attitudes and actions. Application of group counseling theories to an addiction client population. Prerequisite: ACED 201 or CDEP 120/201, and consent of Instructional Unit. [GE]

**INTRODUCTION TO COUNSELING FAMILY MEMBERS**

ACED 132 3 Credits 33 hours of lecture
Knowledge and skills for working with significant persons in the addicted client's environment. Emphasis on counseling immediate family members. Prerequisite: ACED 201 or CDEP 201 (or 120), and consent of Instructional Unit. [GE]
**LAW AND ETHICS IN ADDICTIONS COUNSELING**
ACED 136  3 Credits  33 hours of lecture
Examination of state and federal laws governing the addictions field, including the Washington Administrative Code for CDP’s. Legal and ethical duties in the client-counselor relationship. Prerequisite: ACED 101 or CDEP 101, and consent of Instructional Unit. [GE]

**ADDDITIONS AND MENTAL ILLNESS**
ACED 137  3 Credits  33 hours of lecture
Differential and dual diagnosis. Use of current edition of Diagnostic and Statistical Manual. Referral and networking with mental health professionals; relapse prevention techniques; screening that includes comorbidity. Prerequisite: ACED 101 or CDEP 101, and consent of Instructional Unit. [GE]

**PREVENTION AND EDUCATION IN THE COMMUNITY**
ACED 138  3 Credits  33 hours of lecture
Application of the Public Health and Social Development models to prevention activities. Knowledge of community resources in developing community education and prevention programs. Prerequisite: ACED 101 or CDEP 101, and consent of Instructional Unit. [GE]

**PHARMACOLOGY OF DRUGS OF ABUSE**
ACED 160  3 Credits  33 hours of lecture
Pharmacological effects of alcohol and drugs on the human body and mind. Prerequisite: ENGL& 101 (or ENGL 101) and consent of Instructional Unit. [GE]

**ADOLESCENT ADDICTION ASSESSMENT & TREATMENT**
ACED 164  3 Credits  33 hours of lecture
An examination of adolescent development and the detrimental impact of addiction on youth development. The assessment process and treatment modalities for adolescents are presented. Prerequisite: ACED 101 and 122, or CDEP 101 and 122, and consent of Instructional Unit. [GE]

**AIR- AND BLOOD-BORNE PATHOGENS**
ACED 170  2 Credits  22 hours of lecture
Skills to reduce impact of air- and blood-borne pathogens on addiction clients. HIV/AIDS brief risk intervention for the addiction client population. Community resources available to clients. Prerequisite: Consent of Instructional Unit. [GE]

**THEORIES OF COUNSELING**
ACED 201  3 Credits  33 hours of lecture
Introduces the major counseling theories and techniques focusing on individual counseling within a Human Services framework. Students are encouraged to develop a counseling orientation based on these theories which include their own personal and professional ethical orientation. For majors and non-majors. Prerequisite: ACED 101 or CDEP 101 and PSYC 101, and consent of Instructional Unit. [GE]

**MULTI-CULTURAL ADDICTIONS COUNSELING**
ACED 202  3 Credits  33 hours of lecture
Culturally learned assumptions that shape a counseling interview. Culture as the heart of any counseling relationship. The impact of culture on treatment planning with an addiction client population. Prerequisite: ACED 122 or CDEP 122 and ACED 201 or CDEP 120/201, and consent of Instructional Unit. [GE]

**CASE MANAGEMENT IN ADDICTION MEDICINE**
ACED 203  3 Credits  33 hours of lecture
Requirements for managing cases in treatment clinics: treatment and aftercare plans, notes, testing, preparation of accurate reports and other documents, confidentiality, and advocacy. ASAM criteria and treatment. Prerequisite: ACED 201 or CDEP 120/201, and ACED 122 or CDEP 122, and consent of Instructional Unit. [GE]
ADVANCED TECHNIQUES FOR ADDICTION COUNSELING
ACED 205 3 Credits 33 hours of lecture
Development of skills needed to establish and maintain effective helping relationships with clients. Integration of relapse prevention counseling in treatment. Prerequisite: ACED 101 or CDEP 101, ACED 201 or CDEP 120/201, ACED 122 or CDEP 122, and consent of Instructional Unit. [GE]

FIELD PLACEMENT I
ACED 210 6 Credits 198 hours of clinical
Twenty hours weekly of on-the-job supervised experience applying counseling theories and practices. Addiction Counselor Competencies are used as a framework for assessment. Prerequisite: 30 hours of ACED or CDEP courses including ACED 136 or CDEP 135 and ACED 122, possession of the WA state CDPT credential and instructor’s permission. [GE]

FIELD PLACEMENT II
ACED 211 6 Credits 198 hours of clinical
Twenty hours weekly of on-the-job supervised experience. Applying counseling theories and practices. Addiction Counselor Competencies will be used as a framework for assessment. Prerequisite: Grade of “C” or better in ACED 210 or CDEP 210 and instructor’s permission. [GE]

SELECTED TOPICS
ACED 280 1 - 3 Credits 33 hours of lecture
Special topics in chemical dependence as listed in the quarterly class schedule. May be repeated for credit. Prerequisite: ENGL 101. [GE]

SPECIAL PROJECTS
ACED 290 1 - 5 Credits
Opportunity to plan, organize, and complete special projects approved by the instructional unit. Prerequisite: Consent of Instructional Unit. [GE]

Adult Basic Education

ADULT BASIC EDUCATION SPECIAL TOPICS
ABE 005 1 - 10 Credits 88 hours of lecture 44 hours of lab
Monthly seminars conducted by various college and local professionals for the purpose of enhancing the social, personal, and academic skills of the ABE student participant.

ABE WRITING FUNDAMENTALS A
ABE 012 1 - 6 Credits 66 hours of lecture
Practice writing simple, compound and some complex sentences to accomplish life purposes in structured writing activities in a range of familiar settings. Practice organizing information and sentences with correct word order to complete simple forms, notes, letters, and paragraphs. Practice spelling common everyday and significant personal words and using correct capitalization, punctuation, and subject-verb agreement for simple verb tenses. Practice proofreading and editing writing using writing aids, (checklists, dictionaries, etc.). Prerequisite: Appropriate CASAS score.

ABE WRITING FUNDAMENTALS B
ABE 014 1 - 6 Credits 66 hours of lecture
Practice writing one to five understandable and well-constructed paragraphs easily and with few errors to independently accomplish well-defined and structured writing activities for varied reasons (such as for personal expression, to inform, to persuade or to complete a task) and for audiences in a range of comfortable and familiar settings.

ADULT BASIC EDUCATION MATH I
ABE 021 1 - 6 Credits 66 hours of lecture
Practice recalling and using a few simple mathematical procedures such as very basic estimating, counting, sorting, ordering, grouping, adding and subtracting numbers up to three digits, and beginning multiplication of 2s, 5s, and...
Practice reading, writing, and interpreting simple benchmark fractions (1/2, 1/4), common monetary values, mathematical relationships (more, less, etc.), high frequency measurement (months, days, etc.), concepts of length and width, interpret simple charts and graphs, and communicate solutions to math tasks. Prerequisite: Entry level students with appropriate scaled CASAS placement scores.

**ADULT BASIC EDUCATION MATH II**

**ABE 022**  
1 - 6 Credits  
66 hours of lecture

Building skills for evaluating solutions, adding and subtracting whole numbers through three digits, multiplying and dividing three digits numbers by one digit numbers, recall/use mathematical procedures such as estimating, counting, sorting, grouping, and measuring length and weight using calibrated instruments (rulers, scales). Practice reading, writing, and interpreting simple benchmark fractions and percents (1/2, 1/4, 50%), common monetary values, simple proportions (2:1), very simple data in charts and graphs, and communicate solutions to math related tasks. Prerequisite: ABE MA TH 021 or appropriate CASAS placement score.

**ADULT BASIC EDUCATION MATHEMATICS III**

**ABE 023**  
1 - 6 Credits  
66 hours of lecture

Building skills to read, write, interpret, and use mathematical information and procedures for life purposes. Concepts and skills include: computing with whole numbers; converting and using benchmark fractions, decimals and percents (halves, quarters, tenths); determining simple patterns and proportions (4:1, etc.); grouping, comparing, estimating numbers; using calibrated tools with benchmark units to measure; determining the area of common geometric shapes; selecting and organizing data into simple graphic arrangements; and communicating problem-solving strategies. Prerequisite: ABE MA TH 022 or appropriate CASAS placement score.

**ADULT BASIC EDUCATION MATHEMATICS IV**

**ABE 024**  
1 - 6 Credits  
66 hours of lecture

Building skills to read, write, interpret, and apply a variety of mathematical information such as the following: monetary values, extensions of benchmark fractions (1/8, 1/3, 1/5, etc.), decimals, and percents (15%, 30%, etc.), patterns and simple formulas (such as $d=rt$, $A=lw$), standard units of measurement including fractional units and benchmark angle measurements (90 degrees, 360 degrees, etc), geometric shapes, a combination of common shapes, concept of pi, converting between units of measurement, and ways to interpret and represent data (graphs). Prerequisite: ABE MA TH 023 or appropriate CASAS placement score.

**ABE READING FUNDAMENTALS A**

**ABE 032**  
1 - 6 Credits  
66 hours of lecture

Building skills in the four components of skilled reading: alphabetics, vocabulary, fluency, and comprehension. Students will recognize common everyday words and practice print-sound correspondence to decode simple texts. Developing simple strategies to increase vocabulary. Activities include reading simple texts accurately with appropriate phrasing and rates; practicing comprehension strategies to understand simplified informational and literary texts and connect the knowledge to personal experiences. Prerequisite: Appropriate CASAS score.

**ABE READING FUNDAMENTALS B**

**ABE 034**  
1 - 6 Credits  
66 hours of lecture

Developing skills in the 4 components of skilled reading: alphabetics, vocabulary, fluency, and comprehension. Skills include decoding and recognizing common syllable patterns and developing strategies to increase vocabulary. Activities include reading intermediate texts accurately with appropriate phrasing and rates; practicing a variety of comprehension strategies for different reading purposes and various types of texts; analyzing and evaluating information in connection with previous knowledge in a range of informational and literary texts. Prerequisite: ABE 032 or appropriate CASAS score.

**ABE LANGUAGE ARTS I**

**ABE 041**  
1 - 6 Credits  
66 hours of lecture

Skills for decoding and recognizing all of the letters of the alphabet and everyday words and word groups in short, simple texts by breaking words into parts, and applying pronunciation rules (decoding letter-sound correspondence, isolating first and last sounds, etc.). Activities include appropriately using everyday, high frequency vocabulary to produce a few sentences on a familiar topic with minimal attention to audience, recalling prior knowledge to
assist in understanding information in the text students read/write, and making a few simple edits of handwriting, spelling, punctuation, and capitalization based on review and feedback from others. Prerequisite: Appropriate CASAS scores.

**ADULT BASIC EDUCATION LANGUAGE ARTS II**

**ABE 042** 6 Credits 66 hours of lecture

Skills for learning to decode and recognize common/some unfamiliar words in short text, for demonstrating familiarity with simple, everyday content knowledge and vocabulary, for locating important information in simplified text, and for monitoring/enhancing reading comprehension. Skills for determining the purpose and audience for student writing, for following a highly-structured plan to organize ideas in order to support a single purpose and for producing a legible and comprehensible draft. Skills for appropriately using familiar vocabulary, and demonstrating beginning attention to revision strategies in order to make basic edits of grammar and syntax based on feedback from others. Prerequisite: ABE Language Arts II requires Language Arts I completion or the appropriate CASAS reading score upon entrance to the program.

**ADULT BASIC EDUCATION LANGUAGE ARTS III**

**ABE 043** 1 - 6 Credits 66 hours of lecture

Practice writing simple, compound, and some complex sentences to construct simple paragraphs to accomplish well-defined and structured writing activities for varied life purposes. Skills for simple planning and editing strategies including generating and organizing ideas and proofreading for simple writing conventions in grammar, spelling, punctuation, and sentence structure. Skills for reading and comprehending most everyday words and some specialized vocabulary, adjust their reading pace, and use various comprehension strategies to accomplish well-defined activities in short to medium length texts in literature, science, and social studies. Prerequisite: Completion of Language Arts 042 or the appropriate reading/writing score on entrance to the program.

**ADULT BASIC EDUCATION LANGUAGE ARTS IV**

**ABE 044** 1 - 6 Credits 66 hours of lecture

Practicing the steps in writing a few well-constructed and connected paragraphs to independently accomplish well-defined and structured writing activities for varied purposes. Practicing multiple writing and pre-writing strategies with everyday and specialized vocabulary in science, social studies, and literature. Practicing revision and editing strategies which include mechanics, grammar, and usage. Practice reading and comprehending a variety of texts to establish an appropriate pace and good comprehension for reading and writing in science, social studies, and literature. Prerequisite: Completion of Language Arts 043 or the appropriate reading/writing score on entrance to the program.

**I-BEST SUPPORT**

**ABE 071** 1 - 10 Credits 110 hours of lecture

Additional instruction and support for student success in I-BEST designated classes. Review of important concepts and vocabulary introduced during I-BEST classes. Skills to communicate clearly and accurately using vocabulary and expressions commonly used in the I-BEST work place and job search environment. Activities to strengthen basic skills while studying in an I-BEST program. Students must be concurrently enrolled in an I-BEST designated class. Prerequisite: Admission into an I-BEST program.

---

**American Sign Language**

**AM SIGN LANGUAGE I**

**ASL& 121** 5 Credits 55 hours of lecture

Introduction to American Sign Language emphasizing instruction and practice in expressive and receptive ASL skills. Focus on basic vocabulary, grammar, and cultural aspects of the deaf community. [SE, HA]

**AM SIGN LANGUAGE II**

**ASL& 122** 5 Credits 55 hours of lecture

Continuation of ASL I, developing skills for the student with a basic knowledge of ASL. Focus on grammar, idioms, vocabulary building, culture and language. Prerequisite: ASL& 121 or consent of the instructor. [SE, HA]
AM SIGN LANGUAGE III
ASL& 123 5 Credits 55 hours of lecture
Continuation of ASL II, developing grammar and vocabulary skills, with emphasis on students expressive and receptive skills. Topics include abstract concepts of language and the deaf culture's values, attitudes, and community. Prerequisite: ASL& 122 or consent of the instructor. [SE, HA]

AMERICAN DEAF CULTURE
ASL 125 5 Credits 55 hours of lecture
This course will focus on topics in the culture of deaf people including studies of their beliefs, practices and language.

AM SIGN LANGUAGE IV
ASL& 221 5 Credits 55 hours of lecture
First of the second-year sequence in studying the language of Deaf Americans. Topics include developing receptive and expressive skill and fluency; correct formation of signs, movement, rhythm, phrasing and clarity; vocabulary building; developing proficiency in ASL grammar. Students will develop a respect for ASL as a language, including acceptance and appreciation of its diverse regional and personal applications within its culture. Prerequisite: A grade of “C” or better in ASL& 123, demonstrated equivalent proficiency, or with permission of the instructor. [SE, HA]

AM SIGN LANGUAGE V
ASL& 222 5 Credits 55 hours of lecture
Second of second-year sequence in studying the language of Deaf Americans. Topics include developing receptive and expressive skills in dialogue; applying ASL informal discourse styles; vocabulary building; developing proficiency in ASL grammar for recreation, social services, government and the workplace. Students will develop a respect for ASL as a language, including acceptance and appreciation of its diverse regional and personal applications within its culture. Prerequisite: A grade of “C” or better in ASL& 221, demonstrated equivalent proficiency, or with permission of the instructor. [SE, HA]

AM SIGN LANGUAGE VI
ASL& 223 5 Credits 55 hours of lecture
Third of second-year sequence in studying the language of Deaf Americans. Continuing development of receptive and expressive skills and fluency. Emphasis on increasing vocabulary, classifier, phrases and grammatical usage with a decrease dependency on English syntax structure. Students will be able to initiate and converse in topics such as technical fields of work, college level academic subjects, politics, and religion with consistent grammatical accuracy with native ASL users. Prerequisite: A grade of “C” or better in ASL& 222, demonstrated equivalent proficiency, or with permission of the instructor. [SE, HA]

SELECTED TOPICS
ASL 280 1 - 3 Credits 33 hours of lecture
Course focuses on selected topics in American Sign Language. Topics vary and course theme and content change to reflect new topics. Because the course varies in content, it is repeatable for credit for different topics.

SPECIAL PROJECTS
ASL 290 1 - 5 Credits
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit.

Anthropology

INTRODUCTION TO ARCHAEOLOGY
ANTH&204 5 Credits 55 hours of lecture
Study of ancient and prehistoric cultures of the world. Introduction to theories and techniques of archaeological investigation. Formerly ANTH 102. [SE, SS]
INTRODUCTION TO CULTURAL ANTHROPOLOGY  
ANTH&206 5 Credits 55 hours of lecture 
The concept of culture, a study of cultures directed toward a broad understanding of how people view their world, cope with their environments, and organize their lives. Formerly ANTH 103. [SE, SS] 

BIOANTHROPOLOGY  
ANTH&215 5 Credits 44 hours of lecture 22 hours of lab 
The biological study of human beings and primates, past and present: human genetics, biological adaptation and variation, evolutionary principles, the primate order, human origins, and applied biological anthropology. Fulfills social science or laboratory science (lab) distribution credit. Formerly ANTH 101. [SE, SS, NS] 

PRIMATOLOGY  
ANTH&245 5 Credits 55 hours of lecture 
Reviews current understandings of behavioral and biological diversity in the Primate order. Focus is on living primates and how they are distributed across the globe, the major biological differences between primate groups and what field and captive research has discovered regarding the range of social behaviors, group patterns, foods, communication systems and cognitive abilities they display. Students practice basic research techniques used to study primate behavior in the wild and examine the major challenges faced by modern conservation efforts in protecting wild primate habitats. [NS, SE] 

SELECTED TOPICS  
ANTH 280 1 - 3 Credits 33 hours of lecture 
Varying topics for anthropology as listed in the quarterly class schedule. May be repeated for credit. [SE] 

SPECIAL PROJECTS  
ANTH 290 1 - 5 Credits 
Opportunity to plan, organize, and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [SE] 

Art  

DRAWING I  
ART 103 3 Credits 22 hours of lecture 22 hours of lab 
Using line and shape effectively. Contour line and gesture. Emphasis on expressive content and accurate seeing. [HB, SE] 

DRAWING II  
ART 104 3 Credits 22 hours of lecture 22 hours of lab 
Continuation of ART 103. Analysis and control of value, texture and color using a variety of techniques and drawing materials. Emphasis on accurate seeing. Prerequisite: ART 103. [HB, SE] 

DRAWING III  
ART 105 3 Credits 22 hours of lecture 22 hours of lab 
Continuation of ART 104. Creative, critical-analytical, and historic approaches to composition in a variety of media. Prerequisite: ART 104. [HB, SE] 

CREATIVITY AND CONCEPT  
ART 110 3 Credits 22 hours of lecture 22 hours of lab 
Introduction to creativity, conceptual thinking, and visual problem solving for artists, designers and other creative professionals. Focus on strategies and methods for developing original ideas such as brainstorming, sketching, automatic writing, etc; then translating those ideas to visual form using a variety of media and techniques. Hands-on studio activities contextualized by theoretical readings and in-class discussions. [HB, SE]
TWO-DIMENSIONAL DESIGN
ART 115 4 Credits 22 hours of lecture 44 hours of lab
Foundation art course working with line, shape, value, texture and the principles of spatial organization. May include designing with computers. [HB, SE]

COLOR THEORY AND DESIGN
ART 116 4 Credits 22 hours of lecture 44 hours of lab
Continuation of ART 115. Color theory and the application of color to specific design problems. Includes designing with computers. Prerequisite: ART 115. [HB, SE]

THREE-DIMENSIONAL DESIGN
ART 117 4 Credits 22 hours of lecture 44 hours of lab
Introduction to sculptural design concepts including volume, space and scale. Explores a variety of media and construction techniques, with a focus on creative problem solving in the context of sculptural objects. [HB, SE]

TIME-BASED ART AND DESIGN
ART 118 3 Credits 22 hours of lecture 22 hours of lab
Introduction of concepts and tools for the design of art to explore the transaction between people, objects and situations over time. Exploring the personal, cultural, formal, political, and historical aspects of the medium through readings, writings and critical reflection of relevant 20th and 21st century artworks, as well as the principles and aesthetics of moving imagery including timing, pacing, repetition, editing, composition, process and the link between sound and image. Activities include class discussions, software and equipment tutorials and studio time for experimental project development. [HA, SE]

PHOTOGRAPHIC STORYTELLING
ART 131 3 Credits 22 hours of lecture 22 hours of lab
Introduction to photographic storytelling. Topics include: examining historical use of the medium, analysis of narrative photographic genres, and the creation of a personal photographic essay. Emphasis placed on seeing photographically and creating narrative. Includes field trip. Appropriate for non-majors and beginning photo students. Previous camera experience helpful, but not required. Student must provide digital camera. [HA, SE]

PHOTOGRAPHY I
ART 140 4 Credits 22 hours of lecture 44 hours of lab
Basic camera handling and darkroom procedures, metering, film processing, printing, and learning to see photographically. All work in black-and-white. Student must provide manual 35mm camera. A limited number of cameras are available for checkout in the Art Department. [HB, SE]

PHOTOGRAPHY II
ART 141 4 Credits 22 hours of lecture 44 hours of lab
Continuation of ART 140. Special darkroom and studio techniques. Introduction to the 4x5 and to computer manipulation of photographs. Particular emphasis on self-expression and print quality. Includes field trips to local galleries. Prerequisite: ART 140 or equivalent or consent of Instructional Unit. [HB, SE]

PHOTOGRAPHY III
ART 142 4 Credits 22 hours of lecture 44 hours of lab
Continuation of ART 141. Opportunities to develop additional technical skill and continued exploration of self-expression. Prerequisite: ART 141 or equivalent. [HB, SE]

DIGITAL PHOTOGRAPHY I
ART 145 3 Credits 22 hours of lecture 22 hours of lab
Introduction to digital camera operation, image manipulation software use, seeing skills development, and expressive sensitivity. Special emphasis on the elements and principles of photographic composition, ethical issues, aesthetic vocabulary, and the study of how images communicate. Includes lecture, supervised lab, and group critiques. Familiarity with Adobe Photoshop and Macintosh platform recommended. Students must provide digital camera; a limited number of digital cameras are available for student checkout in the Art Department. [HB, SE]

| ART 180                                 |         |               |           |
| Working with clay. Hand-building        |         |               |           |
| techniques of pinch, coil, slab and     |         |               |           |
| press mold. Introduction to the potter’s|         |               |           |
| wheel. Basic glazing techniques. [HB, SE]|         |               |           |

| CERAMICS II: POTTERY                    | 4       |               |           |
| ART 181                                 |         |               |           |
| Potter’s wheel techniques of centering  |         |               |           |
| and throwing a variety of shapes,       |         |               |           |
| attaching handles and spouts, and fitting|         |               |           |
| lids. Optional advanced hand-building    |         |               |           |
| assignments offered. Introduction to    |         |               |           |
| kiln stacking and firing. Prerequisite:  |         |               |           |
| ART 180.                                |         |               |           |
| [HB, SE]                                |         |               |           |

| CERAMICS III: POTTERY                   | 4       |               |           |
| ART 182                                 |         |               |           |
| Combining hand and wheel techniques to   |         |               |           |
| create original pieces as sculpture or   |         |               |           |
| for specific functions. Mold making,     |         |               |           |
| slip casting, underglazing, and kiln     |         |               |           |
| firing. Prerequisite: ART 181. [HB, SE]  |         |               |           |

| METAL ARTS I                            | 3       |               |           |
| ART 189                                 |         |               |           |
| Aesthetic expression within the context  |         |               |           |
| of applied design using metal. Design    |         |               |           |
| and technical skills will be equally     |         |               |           |
| emphasized. Fabrication and design of    |         |               |           |
| jewelry and other objects of metal.      |         |               |           |
| History of the fabrication of metal      |         |               |           |
| objects in other cultures. [HB, SE]      |         |               |           |
METAL ARTS II
ART 190  3 Credits  11 hours of lecture  44 hours of lab
Continuation of ART 189. Design and technical skills in the raising and forming of metal vessels. Development of metal arts in Europe from the Middle Ages to the present. Prerequisite: ART 189. [HB, SE]

METAL ARTS III
ART 191  3 Credits  11 hours of lecture  44 hours of lab
Continuation of ART 190. Design and technical skills applied to casting and forging of metal objects. Overview of contemporary metal artists and their work. Prerequisite: ART 190. [HB, SE]

COOPERATIVE WORK EXPERIENCE
ART 199  1 - 5 Credits  165 hours of clinical
Supervised work experience in art or photography. Completion of specific learning objectives and employer evaluation. Completion of, or concurrent enrollment in, HDEV 195, 198, or 200 required. Prerequisite: Consent of Instructional Unit. [GE]

THE HUMAN FIGURE I
ART 203  4 Credits  22 hours of lecture  44 hours of lab
Working from the male and female form in media already familiar to the student. Emphasis on accurate seeing. Prerequisite: ART 103 or consent of Instructional Unit. [HB, SE]

THE HUMAN FIGURE II
ART 204  4 Credits  22 hours of lecture  44 hours of lab
Working from the male and female form in media already familiar to the student. Emphasis on expressive power and individual development. Prerequisite: ART 203. [HB, SE]

DIGITAL ILLUSTRATION
ART 208  4 Credits  22 hours of lecture  44 hours of lab
Developing digital illustration skills by using Adobe software with a focus on developing a personal voice, and exploring various styles and techniques. Activities include a series of hands-on creative projects. Prerequisite: A grade of “C” or better in CGT 102. [HB, SE]

PORTFOLIO DEVELOPMENT
ART 215  3 Credits  22 hours of lecture  22 hours of lab
Preparation and presentation of individual portfolio for submission to potential employers, galleries and educational institutions. Topics include traditional and digital portfolio formats, photographing, writing, critiquing, and speaking about artwork. Activities include selecting, refining, and incorporating projects from the entire program into portfolios. Instructors play advisory role, culminating with formal portfolio reviews by instructors, peers, and industry professionals. Prerequisite: Consent of Instructional Unit. [SE]

ART HISTORY: ANCIENT TO LATE ANTIQUE
ART 220  5 Credits  55 hours of lecture
Survey of visual arts in the Mediterranean, the Near East, and in Northern Europe, covering the first arts of ancient humans through the Late Antique, 40,000 BCE-600 CE. Topics include why art and architecture exist and how they function in society; how religion, culture, artistic tradition, and patronage create, support, and influence art and architecture; how art and architecture achieve their effects, using materials, technique, style, and composition. [HA, SE]

ART HISTORY: MEDIEVAL-RENAISSANCE
ART 221  5 Credits  55 hours of lecture
Survey of visual arts and architecture of Early Medieval through Late Renaissance Europe, 500-1600 CE. Topics include why art and architecture exist and how they function in society, how religion, culture, artistic tradition, and patronage create, support, and influence art and architecture, how art and architecture achieve their effects, using materials, technique, style, and composition. [HA, SE]
ART HISTORY: BAROQUE-MODERN
ART 222 5 Credits 55 hours of lecture
Survey of the visual arts and architecture of Baroque through Modern Europe, ca. 1600-1914 CE. Topics include why art and architecture exist, and how they function in society; how religion, culture, artistic tradition, and patronage create, support, and influence art and architecture; how art and architecture achieve their effects, using materials, technique, style, and composition. [HA, SE]

ART IN THE TWENTIETH CENTURY
ART 223 5 Credits 55 hours of lecture
Survey of the visual arts and architecture of the Modern and Post-modern Periods, 1900-Present. Topics include why art and architecture exist, and how they function in society; how religion, culture, artistic tradition, and patronage create, support, and influence art and architecture; how art and architecture achieve their effects, using materials, technique, style, and composition. [HA, SE]

ART HISTORY: ASIAN ART
ART 225 5 Credits 55 hours of lecture
Survey of the visual arts and architecture of India, China, and Japan. Topics include why art and architecture exist, and how they function in society; how religion, culture, artistic tradition, and patronage create, support, and influence art and architecture; how art and architecture achieve their effects, using materials, technique, style, and composition. [HA, SE]

TOPICS IN NON-WESTERN ART
ART 226 1 - 9 Credits 99 hours of lecture
Survey of the visual arts and architecture of a selected non-western culture. Topics include why art and architecture exist, and how they function in society; how religion, culture, artistic tradition, and patronage create, support, and influence art and architecture; how art and architecture achieve their effects, using materials, technique, style, and composition. Repeatable for up to 9 variable credits. [HA, SE]

WOMEN ARTISTS THROUGH HISTORY
ART 250 5 Credits 55 hours of lecture
Historical survey exploring themes in women's art and challenges women artists faced as professionals within their respective cultures; in-depth study of women artists working in Western traditions. [HA, SE]

PAINTING I
ART 257 4 Credits 22 hours of lecture 44 hours of lab
Introduction to materials and methods of oil and/or acrylic painting. Includes color theory, canvas stretching, and painting from still-life and portrait. Prerequisite: ART 103 or 115. [HB, SE]

PAINTING II
ART 258 4 Credits 22 hours of lecture 44 hours of lab
Continued work with acrylic and oil painting. Emphasis on line, color and pattern as expressive elements. Weekly group discussions. Prerequisite: ART 257. [HB, SE]

PAINTING III
ART 259 4 Credits 22 hours of lecture 44 hours of lab
Continuation of ART 258. Continued development of problem-solving techniques related to composition and a variety of subjects. Prerequisite: ART 258. [HB, SE]

WATERCOLOR I
ART 260 4 Credits 22 hours of lecture 44 hours of lab
Introduction to materials and methods of watercolor painting techniques. Topics include color theory, vocabulary, and composition; working in realistic and abstract styles. Activities include in-class critique and discussion. Prerequisite: ART 260. [HB, SE]
WATERCOLOR II
ART 261  4 Credits  22 hours of lecture  44 hours of lab
Intermediate level exploration of watercolor painting. Continued development of skills in color mixing and composition with an emphasis on fostering content and a personal creative voice through the material. Activities include in-class critique and discussion. Prerequisite: ART 260. [HB, SE]

WATERCOLOR III
ART 262  4 Credits  22 hours of lecture  44 hours of lab
Advanced level exploration of watercolor painting, with emphasis on developing one's own visual language through the material, experimentation and innovation with wet media and its expressive potential; student-initiated research and the creation of a unique body of work suitable for portfolio presentation. Activities include in-class critique and discussion. Prerequisite: ART 261. [HB, SE]

PUBLICATION PRODUCTION
ART 270  1 - 9 Credits  66 hours of lecture  66 hours of lab
Design and production skills for publications, intended for Phoenix staff, graphic design students and others interested in the publications field. Topics include: Adobe InDesign for layout, preparing for printing, editing, proofing, creating promotional materials, working with printers, budgeting, managing the project and working with a team. Includes field trip. Prerequisite: Consent of Instructional Unit. [HB, SE]

PUBLICATION DESIGN
ART 271  4 Credits  22 hours of lecture  44 hours of lab
Graphic design principles as applied to the discipline of editorial publications. Topics include an exploration of publication formats, designing for target audience groups, page layout, adapting material for online delivery, and culminates with an individual book project with a heavy emphasis on interpreting original content into sequential visual form. Course may be taken concurrently with ART 270 Publication Production. Prerequisite: A grade of “C” or better in ART 174. [HB, SE]

GRAPHIC DESIGN STUDIO II
ART 273  4 Credits  22 hours of lecture  44 hours of lab
Continuation of ART 173 with focus on layout, composition, messaging, technical considerations and functional constraints for various types of communication design disciplines such as editorial design, advertising and persuasive design, branding and identity. Topics include ethical considerations related to graphic design such as sustainability, public service, consumerism, global diversity and copyright issues. Prerequisite: A grade of “C” or better in ART 173. [HB, SE]

GALLERY PREPARATION
ART 278  1 - 6 Credits  33 hours of lecture  66 hours of lab
Various aspects of presenting art exhibits, including the care, handling and installation of artwork, arranging fixtures, lighting, exhibition layout design, writing press material, and other professional practices. Repeatable for up to 6 credits. Written consent of Instructional Unit required. [HB, SE]

SELECTED TOPICS
ART 280  1 - 5 Credits  55 hours of lecture
Course focuses on selected topics in art. Topics vary and course theme and content change to reflect new topics. Because the course varies in content, it is repeatable for credit for different topics. [SE]

SPECIAL PROJECTS
ART 290  1 - 6 Credits
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [HB]
WELDED SCULPTURE THEORY I
ART 295 1 Credit 11 hours of lecture
Background for students to begin to develop their own language of form. Through the use of a slide/lecture format, students will learn about contemporary sculpture. Discussions include design problems relating to the fabrication of a welded sculpture. Concurrent enrollment in WELD 120 required. [HB]

WELDED SCULPTURE THEORY II
ART 296 1 Credit 11 hours of lecture
The design and fabrication of non-representational sculpture. Students will view slides of contemporary work and visit local sculpture sites to improve their understanding of the language of form. The MIG welding process as a sculptural tool will be explored. Concurrent enrollment WELD 121 required. Prerequisite: ART 295. [HB]

WELDED SCULPTURE THEORY III
ART 297 1 Credit 11 hours of lecture
The design and fabrication of non-representational sculpture. Students will view slides of contemporary work and visit local sculpture sites to improve their understanding of the language of form. The MIG welding process as a sculptural tool will be explored. Concurrent enrollment in WELD 122 required. Prerequisite: ART 296. [HB]

Astronomy

INTRO TO ASTRONOMY
ASTR&101 5 Credits 44 hours of lecture 22 hours of lab
Survey of astronomy designed primarily for non-science majors. Includes study of the sun, solar system, stellar evolution, galaxies and cosmology. Evening observation sessions required. Formerly ASTR 101. [NS,SE]

Automotive Technology

SAFETY, BASICS AND ELECTRIC
AUTO 108 8 Credits 66 hours of lecture 44 hours of lab
Study of shop safety: technical introduction to dealerships and vehicles (TPORT): study of basic electrical components and systems with emphasis on troubleshooting by application of concepts (Toyota 623). Prerequisite: Eligibility for DVED 023, READ 100 and ENGL 097 and consent of Instructional Unit. [GE]

BRAKES
AUTO 109 7 Credits 44 hours of lecture 66 hours of lab
Continuing study of shop safety; study of servicing drum, disk, ABS brakes, and traction control: operation, construction, parts, identification, diagnosis and repair procedures (Toyota 552). Prerequisite: Grade of "C" or better in AUTO 108 or consent of Instructional Unit. [GE]

CHASSIS SYSTEMS
AUTO 141 1 - 15 Credits 110 hours of lecture 110 hours of lab
Continuing study of chassis systems: shop safety: (Toyota 553) ABS brakes and traction control: operation, construction, parts identification, diagnosis and repair procedures: (Toyota 652) automotive electrical components and systems: body electrical problems using a 6-step troubleshooting plan: (Toyota 453) steering, and suspension systems: operation, construction, parts identification, diagnosis, alignment and repair procedures. Prerequisite: AUTO 108 or 110. [GE]

ENGINE PERFORMANCE
AUTO 142 1 - 15 Credits 110 hours of lecture 110 hours of lab
Study of engine performance: shop safety: with emphasis on engine performance operation, construction, parts identification, diagnosis, and repair procedures. (Toyota 852) EFI and TCCS engine control systems: fuel injection system, emission systems and computer system diagnosis. Prerequisite: AUTO 108 or 110. [GE]
INTRODUCTION TO TOYOTA
AUTO 150 6 Credits 44 hours of lecture 44 hours of lab
Introduction to safety, service procedures and responsibilities as a Toyota automotive service professional. Focus on soft skills used in daily customer interactions, technical skills needed to be successful in the current Toyota dealership environment. Emphasis on performing Toyota minor, intermediate, and major maintenance operations. Acceptance into the T-Ten Program. Prerequisite: Must meet Clark Automotive entrance standards and have the recommendation of your sponsoring Toyota/Lexus service management.

TOYOTA ELECTRICAL I
AUTO 151 8 Credits 44 hours of lecture 88 hours of lab
First of two courses introducing basic electrical properties, circuits and testing. Major focus on the proper use of the DVOM in voltage drop diagnosis with an introduction to chassis electrical systems operation and testing. This course is a prerequisite for all future Toyota courses. Acceptance and good standing in the T-Ten Program. Prerequisite: A grade of “C” or better in AUTO 150.

TOYOTA ELECTRICAL II
AUTO 152 8 Credits 44 hours of lecture 88 hours of lab
Second of two courses exploring electrical properties, circuits and testing. Major focus on the proper use of the DVOM in voltage drop diagnosis of multiplexed circuits used in Toyota vehicles with an introduction to computer controlled electrical systems operation and testing using a DSO. This course is a prerequisite for all future Toyota courses. Acceptance and good standing in the T-Ten Program. Prerequisite: A grade of “C” or better in AUTO 151.

TOYOTA BRAKES
AUTO 153 7 Credits 33 hours of lecture 88 hours of lab
Theory and hands-on training in the operation, diagnostics, and service of Toyota vehicle braking systems. Initial focus on performing basic brake service procedures and diagnosis. Specific emphasis on the correct diagnostic strategies to locate and repair faults in ABS, VSC and VDIM systems. This course is a prerequisite for all future Toyota courses. Acceptance and good standing in the T-Ten Program. Prerequisite: A grade of “C” or better in AUTO 152.

TOYOTA INTERNSHIP I
AUTO 154 4 Credits 11 hours of lecture 99 hours of clinical
First managed internship experience in a Toyota/Lexus dealership, with focus on practicing skills learned throughout the first quarter of automotive instruction, including performing basic maintenance and diagnosing/repairing electrical and braking systems. Emphasis on developing strong customer-service and teamwork skills. Students required to document and share these experiences while working towards ASE and Toyota Certification. Acceptance and good standing in the T-Ten Program. Prerequisite: A grade of “C” or better in AUTO 153.

TOYOTA STEERING AND SUSPENSION
AUTO 155 7 Credits 33 hours of lecture 88 hours of lab
Theory and hands-on training in the operation, diagnosis, and service of Toyota vehicle steering and suspension systems. Initial focus on performing basic tire, suspension and steering service procedures and diagnosis. Specific emphasis on the correct diagnostic strategies to locate and repair faults in TPMS and EPS systems. This course is a prerequisite for all future Toyota courses. Acceptance and good standing in the T-Ten Program. Prerequisite: A grade of “C” or better in AUTO 154.

TOYOTA ENGINE PERFORMANCE I
AUTO 156 8 Credits 44 hours of lecture 88 hours of lab
First of two courses on operation, inspection, diagnosis, service and repair of Toyota Engine Management systems. Focus on the operation and testing of the internal combustion engine and engine-and fuel-management systems. Emphasis on ignition, fuel delivery, and computer input sensor diagnosis. Necessary knowledge of diagnostic strategies and tools used daily in the dealership to repair drivability-related and/or engine performance-related issues. Acceptance and good standing in the T-Ten Program. Prerequisite: A grade of “C” or better in AUTO 155.
TOYOTA ENGINE PERFORMANCE II
AUTO 157 8 Credits 44 hours of lecture 88 hours of lab
Second of two courses on operation, diagnosis, service and repair of Toyota Engine Management Systems. Focus on advanced level diagnostics including fuel trim, DTC's drivability, Mode $06 scan tool usage, and emissions control systems. Acceptance and good standing in the T-Ten Program. Prerequisite: A grade of “C” or better in AUTO 156.

COOPERATIVE WORK EXPERIENCE
AUTO 199 1 - 5 Credits 165 hours of clinical
Supervised work experience in an approved job. Completion of specific learning objectives and employer evaluation. Completion of, or concurrent enrollment in, HDEV 195, 198, or 200 required. Prerequisite: Consent of Instructional Unit. [GE]

MANUAL TRANSMISSIONS, AXLES AND ENGINES
AUTO 240 1 - 15 Credits 110 hours of lecture 110 hours of lab
Study of mechanical drive train systems. (Toyota 302) Fundamentals of clutches, manual transmissions, manual transaxles, transfer cases and differentials with emphasis on diagnosis, repair, and rebuilding procedures. Study of engine repair operations, construction, parts identification, diagnosis, with emphasis on rebuilding procedures, and shop safety. Prerequisite: AUTO 108 or 110. [GE]

AUTOMATIC TRANSMISSIONS AND ADVANCED ELECTRICAL
AUTO 241 1 - 15 Credits 110 hours of lecture 110 hours of lab
Study of automatic transmissions: shop safety: (Toyota 274) automatic transmissions: fundamentals of torque converters, automatic transmissions, automatic transaxles & final drive, operation components, diagnosis, repair, & rebuilding procedures. Study of advanced electrical concepts (Toyota 852) engine control systems: operation, construction, parts identification, diagnosis, & repair procedures with emphasis on DVOM & lab scope use. Prerequisite: AUTO 108 or 110. [GE]

A/C AND ADVANCED CHASSIS SYSTEMS
AUTO 242 1 - 15 Credits 110 hours of lecture 110 hours of lab
Continuing study of advanced topics of electrical and engine performance: shop safety: (Toyota 256) with emphasis on evaporative control systems, SRS systems and accessories. Heating and air conditioning systems with emphasis on (Toyota 752) air conditioning and automatic temperature control: operation, components, recharging procedures, construction, and parts identification. Prerequisite: AUTO 108 or 110. [GE]

TOYOTA CLIMATE CONTROL
AUTO 250 7 Credits 33 hours of lecture 88 hours of lab
Introduction to automotive heating and air conditioning systems used in Toyota vehicles. Topics include refrigerant handling, climate control system components, temperature system controls, refrigerant system diagnosis, recovery-recycling-recharging a/c systems, safety requirements for hybrid vehicles and dealership service. Acceptance and good standing in the T-Ten Program. Prerequisite: A grade of “C” or better in AUTO 157.

TOYOTA INTERNSHIP II
AUTO 251 4 Credits 11 hours of lecture 99 hours of clinical
Second managed internship experience in a Toyota/Lexus dealership, with focus on practicing skills learned throughout the second quarter of automotive instruction. Skills include performing repairs to braking, steering/suspension, and engine management systems. Emphasis on developing strong customer-service and teamwork skills. Students required to document and share these experiences while working towards ASE and Toyota Certification. Acceptance and good standing in the T-Ten Program. Prerequisite: A grade of “C” or better in AUTO 250.

TOYOTA ENGINE MECHANICAL
AUTO 252 8 Credits 44 hours of lecture 88 hours of lab
Operation, diagnosis, service and repair of a Toyota internal-combustion engine with focus on the tear-down and inspection of internal engine components. Emphasis on precision measurements and component failure identification. Acceptance and good standing in the T-Ten Program. Prerequisite: A grade of “C” or better in AUTO 251.
**TOYOTA MANUAL TRANSMISSION**
AUTO 253 7 Credits 33 hours of lecture 88 hours of lab
Introduction to automotive manual transmissions and drivetrains. Topics include the principles of torque multiplication, engine braking, and gear ratios. Emphasis on the diagnosis and repair of clutch assembly, manual transmission, transfer cases, and drivetrains of Toyota vehicles. Acceptance in and good standing in the T-Ten Program. Prerequisite: A grade of “C” or better in AUTO 252.

**AUTOMATIC TRANSMISSIONS**
AUTO 254 9 Credits 55 hours of lecture 88 hours of lab
Theory and hands-on training in the operation, diagnostics, and service of Toyota automatic transmissions and transaxles. Initial focus on performing basic automatic transmission service procedures and diagnosis with specific emphasis on the correct diagnostic strategies to locate and repair faults in automatic transmission control systems. This course is a prerequisite for all future Toyota courses. Acceptance and good standing in the T-Ten Program. Prerequisite: A grade of “C” or better in AUTO 253.

**TOYOTA INTERNSHIP III**
AUTO 255 4 Credits 11 hours of lecture 99 hours of clinical
Third managed internship experience in a Toyota/Lexus dealership, with focus on practicing skills learned throughout the third quarter of automotive instruction. Skills include performing repairs to engines, transmissions, and drivetrains. Emphasis on developing strong customer service and teamworking skills. Students required to document and share these experiences as they work towards ASE and Toyota Certification. Acceptance and good standing in the T-Ten Program. Prerequisite: A grade of “C” or better in AUTO 254.

**SELECTED TOPICS**
AUTO 280 1 - 8 Credits 88 hours of lecture
Selected topics in Auto. Topics vary and course theme and content change to reflect new topics. Because the course varies in content, it is repeatable for credit. Specific topics are listed in the quarterly class schedule. [GE]

**SPECIAL PROJECTS**
AUTO 290 1 - 3 Credits
For automotive majors only. Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]

---

**Baking - Culinary Arts**

**BAKING LAB**
BAK 110 10 Credits 220 hours of lab
Practical work experience in fundamentals of professional baking. Includes the production of a variety of doughnuts, sweet-rolls, breads, cookies, pastries, pies and cake making and finishing. Concurrent enrollment in BAK 111 required. [GE]

**BAKING THEORY**
BAK 111 5 Credits 55 hours of lecture
Materials used in baking and how they relate to one another in the mixing, processing and baking of specific products. Concurrent enrollment in BAK 110 required. [GE]

**BAKING LAB**
BAK 112 10 Credits 220 hours of lab
Practical work experience in fundamentals of professional baking. Includes the production of a variety of doughnuts, sweet-rolls, breads, cookies, pastries, pies and cake making and finishing. Concurrent enrollment in BAK 113 required. [GE]
BAKING THEORY
BAK 113 5 Credits 55 hours of lecture
Materials used in baking and how they relate to one another in the mixing, processing and baking of specific products. Concurrent enrollment in BAK 112 required. [GE]

BAKING LAB
BAK 114 10 Credits 220 hours of lab
Practical work experience in fundamentals of professional baking. Includes the production of a variety of doughnuts, sweet-rolls, breads, cookies, pastries, pies and cake making and finishing. Concurrent enrollment in BAK 115 required. [GE]

BAKING THEORY
BAK 115 5 Credits 55 hours of lecture
Materials used in baking and how they relate to one another in the mixing, processing and baking of specific products. Concurrent enrollment in BAK 114 required. [GE]

BAKING LAB
BAK 116 10 Credits 220 hours of lab
Practical work experience in the fundamentals of professional baking. Includes the production of a variety of doughnuts, sweet rolls, breads, cookies, pastries, pies, and cake making and finishing. Concurrent enrollment in BAK 117 required. [GE]

BAKING THEORY
BAK 117 5 Credits 55 hours of lecture
Lectures covering the materials used in baking, how they relate to each other in the mixing and processing of specific products. Lectures include lab demonstrations of each topic. Concurrent enrollment in BAK 116 required. [GE]

BEGINNING CAKE DECORATING
BAK 120 3 Credits 22 hours of lecture 22 hours of lab
Practical exercises covering cake set-up, filling, trimming, and icing. Basic flower construction including design layout, script borders, cut-out designs, and color wheel. [GE]

INTERMEDIATE CAKE DECORATING
BAK 122 3 Credits 22 hours of lecture 22 hours of lab
Practical exercises covering cake set-up, filling, trimming, and icing. The making and designing of a variety of flowers and borders. Script, stencils, piping, gel transfers, design perspective, image projection, and the use of air brushes. [GE]

ADVANCED CAKE DECORATING
BAK 124 3 Credits 22 hours of lecture 22 hours of lab
Wedding cake set-up and construction. Borders for wedding cakes. Make orchids and other flowers to compliment special design cakes. Piping of comic-type figures. [GE]

PASTRY ART
BAK 126 3 Credits 22 hours of lecture 22 hours of lab
Basic course for the beginning pastry chef. Topics include custards, ice creams, specialty sauces, meringues, pate choux, Bavarians, candies, holiday desserts, and individual plated desserts. [GE]

COOPERATIVE WORK EXPERIENCE
BAK 199 1 - 5 Credits 165 hours of clinical
Supervised work experience in an approved program-related job. Completing specific learning objectives and gaining valuable industry knowledge enhances choice of future employment opportunities. Completion of, or concurrent enrollment in, HDEV 195, 198, or 200 required. Prerequisite: Consent of Instructional Unit. [GE]
BAKERY MANAGEMENT LAB
BAK 210 10 Credits 220 hours of lab
Practical instruction in bakery management, working at various baking stations. Concurrent enrollment in BAK 211 required. Prerequisite: Three quarters of BAK 110, 112, 114, or 116. [GE]

BAKERY MANAGEMENT THEORY
BAK 211 5 Credits 55 hours of lecture
Introduction and group discussions regarding management and merchandising of a bakery. Concurrent enrollment in BAK 210 required. Prerequisite: Three quarters of BAK 111, 113, 115, or 117. [GE]

BAKERY MANAGEMENT LAB
BAK 212 10 Credits 220 hours of lab
Practical instruction in bakery management, working at various baking stations. Concurrent enrollment in BAK 213 required. Prerequisite: Three quarters of BAK 110, 112, 114, or 116. [GE]

BAKERY MANAGEMENT THEORY
BAK 213 5 Credits 55 hours of lecture
Introduction and group discussions regarding management and merchandising of a bakery. Concurrent enrollment in BAK 212 required. Prerequisite: Three quarters of BAK 111, 113, 115, or 117. [GE]

BAKERY MANAGEMENT LAB
BAK 214 10 Credits 220 hours of lab
Practical instruction in bakery management, working at various baking stations. Concurrent enrollment in BAK 215. Prerequisite: Three quarters of BAK 110, 112, 114, or 116. [GE]

BAKERY MANAGEMENT THEORY
BAK 215 5 Credits 55 hours of lecture
Introduction and group discussions regarding management and merchandising of a bakery. Concurrent enrollment in BAK 214. Prerequisite: Three quarters of BAK 111, 113, 115 or 117. [GE]

BAKERY MANAGEMENT LAB
BAK 216 10 Credits 220 hours of lab
Practical instruction in bakery management, working at various baking stations. Concurrent enrollment in BAK 217 required. Prerequisite: Three quarters of BAK 110, 112, 114, or 116. [GE]

BAKERY MANAGEMENT THEORY
BAK 217 5 Credits 55 hours of lecture
Introduction and group discussions regarding management and merchandising of a bakery. Concurrent enrollment in BAK 216 required. Prerequisite: Three quarters of BAK 111, 113, 115 or 117. [GE]

SPECIAL PROJECTS
BAK 290 1 - 12 Credits
Opportunity to plan, organize and complete individualized special projects approved by the department. [GE]

Biology

BIOLOGY PRACTICUM
BIOL 011 1 - 10 Credits 220 hours of lab
Laboratory work for selected biology courses. Concurrent enrollment in BIOL& 251, 252, or 253 required.

SURVEY OF BIOLOGY
BIOL&100 5 Credits 44 hours of lecture 33 hours of lab
Overview of basic concepts and issues in biology including the cellular basis of life, metabolism, principles of inheritance, evolution and diversity. Strong emphasis on the process of scientific inquiry using critical thinking and communication abilities. This course is intended for non-biology majors and fulfills the laboratory science requirements or as a recommended course for other biology courses. English writing skills are highly recommended.
Required for psychology majors. Students may not receive credit for both BIOL& 100, BIOL 105 and AG/BIOL 175. Formerly BIOL 104. [NS, SE]

ENVIRONMENTAL BIOLOGY
BIOL 101  5 Credits  44 hours of lecture  33 hours of lab
Overview of basic concepts and issues related to the interaction between humans and their environment. Topics include population growth, loss of biodiversity, global climate change, ozone depletion, energy consumption and various types of pollution. This course is intended for non-majors and fulfills the laboratory science distribution requirement. It is also required for WSU-Vancouver Environmental Science/Regional Planning majors. [NS, SE]

INTRODUCTION TO WILDLIFE
BIOL 139  3 Credits  33 hours of lecture
Wildlife conservation and management in the U.S. and throughout the world. Examines the social and political aspects of wildlife conservation and management, challenges to management of biodiversity, wildlife population management, and ecosystem management. [NS, SE]

MAMMALS OF THE NORTHWEST
BIOL 140  3 Credits  33 hours of lecture
Important mammals of the Pacific Northwest. Their identification, classification, life histories, ecology, current status, and management. [NS, SE]

BIRDS OF THE PACIFIC NORTHWEST
BIOL 141  3 Credits  33 hours of lecture
Important Birds of the Pacific Northwest. Their identification, classification, life histories, ecology, current status, and management. [NS, SE]

FRESHWATER FISHES OF THE PACIFIC NORTHWEST
BIOL 142  3 Credits  33 hours of lecture
Important fishes of the Pacific Northwest. Identification, classification, and basic biology of freshwater fishes of the Pacific Northwest. Introduction to fishery management concepts. Overview of factors affecting salmon in the Columbia River Basin. [NS, SE]

INTRODUCTION TO FORESTRY
BIOL 143  3 Credits  33 hours of lecture
A forest management course including the structure and function of trees, soils, forest ecology, forest insects and diseases, timber management, fire management, and forest economy. Class will occasionally meet off campus and a Saturday field trip is required. [NS, SE]

REPTILES & AMPHIBIANS OF THE PACIFIC NW
BIOL 145  3 Credits  33 hours of lecture
Introduction to the biology, ecology, evolution, and geographic distribution of Pacific Northwest reptiles and amphibians. [NS, SE]

MARINE BIOLOGY
BIOL 150  5 Credits  33 hours of lecture  44 hours of lab
The marine environment (physical and chemical properties), its plants, bacteria, animal life (vertebrates, invertebrates), ecosystems, fisheries and pollution. [NS, SE]

HUMAN BIOLOGY
BIOL 164  4 Credits  44 hours of lecture
The structure and function of the human body as it relates to homeostasis, health, disease and the environment. Concepts to be covered include human organization, processing, transporting, integration/coordination, reproduction, genetic, and evolution/ecology. Can be used as a science distribution requirement. Concurrent enrollment in BIOL 165 recommended. Formerly BIOL 160. [NS, SE]
HUMAN BIOLOGY LAB
BIOL 165 1 Credit 33 hours of lab
Laboratory study of the structure and function of the human body as it relates to homeostasis, health, disease, and the environment. Concurrent enrollment in, or completion of BIOL 164 required. Formerly BIOL 161. [NS, SE]

HUMAN GENETICS
BIOL 167 3 Credits 33 hours of lecture
Introduction to a variety of genetics topics, including nature versus, nurture, forensic sciences, patterns of inheritance, pedigree analysis, diseases, genetically modified organisms, gene therapy, cloning, and eugenics. Course will also focus on realized and/or potential impacts on society. Formerly BIOL 162. [NS, SE]

HUMAN GENETICS LABORATORY
BIOL 168 2 Credits 11 hours of lecture 33 hours of lab
An introductory course that explores a variety of genetics topics through hands-on activities, simulations, presentation, and discussions. Activities may include DNA extraction, restriction enzyme digestions, electrophoresis, recombinant DNA, bacterial transformation, polymerase chain reaction (PCR) mutagenesis, genetically modified foods, antibiotics resistance, genetic crosses, genetic mapping, population genetics, and DNA databases. Prerequisite: A grade of “B-” or better in BIOL& 100 or BIOL 164 or BIOL 167 or consent of Instructional Unit. [NS, SE]

BIOETHICS
BIOL 180 3 Credits 33 hours of lecture
Study of biological science and ethics. Ethical principles and theories are used in solving bioethical dilemmas. Concepts studied include genetic engineering, inherited disorders, cloning, physician assisted suicide, allocation of health resources, organ donation, and environmental ethics. Credit not allowed for both BIOL 180 and HUM 180. [HA, NS, SE]

COOPERATIVE WORK EXPERIENCE
BIOL 199 1 - 5 Credits 165 hours of clinical
Supervised work experience in an approved job. Completion of specific learning objectives and employer evaluation. Completion of, or concurrent enrollment in, HDEV 195, 198, or 200 required. Prerequisite: Consent of Instructional Unit. [GE]

FIELD STUDIES IN BIOLOGY
BIOL 208 1 - 10 Credits 22 hours of lecture 286 hours of lab
For students interested in biology. An ecological approach with a diversity of habitats being visited (marine in winter, Great Basin Desert and marsh lands in spring). Credits for BIOL 208 are accumulated for each trip with a total of 15 credits possible for all trips. Prerequisite: Completion of a 100- or 200- level biology course, or consent of instructional unit. [NS, SE]

MAJORS ECOLOGY/EVOLUTION
BIOL&221 5 Credits 44 hours of lecture 33 hours of lab
Second course of three introductory courses for life science majors. Covers Mendelian genetics, evolution, adaptation, speciation, biodiversity, and ecology. BIOL& 222 is the first course in the three-course series for majors, to be taken prior to BIOL& 221 or BIOL& 223. Prerequisite: A grade of “C” or better in BIOL& 222 or a grade of “B” or better in BIOL& 100.

MAJORS CELL/MOLECULAR
BIOL&222 5 Credits 44 hours of lecture 33 hours of lab
First course of three introductory courses for life science majors. Includes organic chemistry, cell structure, DNA structure and replication, gene expression, cell division, organismal development, molecular genetics and biotechnology. BIOL& 222 is the first course in the three-course series for majors; to be taken prior to BIOL& 221 or BIOL& 223. Prerequisite: Completion of or concurrent enrollment in CHEM& 139 (100) or CHEM& 121 (111) or CHEM& 141 (131).
MAJORS ORGANISMAL PHYS
BIOL&223 5 Credits 44 hours of lecture 33 hours of lab
Third course of three introductory courses for life science majors. Covers the physiology of major animal and plant organ systems. BIOL& 221 is the first course in the three-course series for majors, to be taken prior to BIOL& 221 or BIOL& 223. Prerequisite: A grade of “C” or better in BIOL& 222 or a grade of “B” or better in BIOL& 100.

FLOWERING PLANTS OF THE PACIFIC NORTHWEST
BIOL 224 5 Credits 44 hours of lecture 33 hours of lab
Identification and ecology of local wildflowers through the use of taxonomic keys, preparation of specimens and field trips to study native species in their habitats. For forestry, wildlife, recreation, botany and non-biology majors interested in learning to recognize local wildflowers. A Saturday field trip is required. [NS, SE]

HUMAN A & P I
BIOL&251 4 Credits 33 hours of lecture 33 hours of lab
The first in a three-quarter sequence exploring the relationships between structure and function in the human body. The sequence is intended as a prerequisite for students planning to major in Nursing, Dental Hygiene or other allied health programs, or as life science credit for non-biology majors. Topics include homeostasis, terminology, cells, protein synthesis, DNA replication, histology, the integumentary, skeletal, articular, and muscular systems, and bone, muscle and membrane physiology. Formerly BIOL 231. Credit is not allowed for both BIOL& 251 and BIOL 231. Concurrent enrollment in BIOL 011 for one credit and BIOL& 251L required. Prerequisite: A grade of “C” or better in BIOL& 100 or BIOL 164/165, or BIOL& 221 or CHEM& 121 or 141 or consent of Instructional Unit. Formerly BIOL 231. [NS, SE]

HUMAN A & P II
BIOL&252 4 Credits 33 hours of lecture 33 hours of lab
The second in a three-quarter sequence exploring the relationships between structure and function in the human body. The sequence is intended as a prerequisite for students planning to major in Nursing, Dental Hygiene or other allied health programs, or as life science credit for non-biology majors. Topics include homeostasis, neural tissue, the spinal cord and spinal nerves, the brain and cranial nerves, integration of neural function, the special senses, the endocrine and reproductive systems, development and inheritance. Formerly BIOL 232. Credit is not allowed for both BIOL& 252 and BIOL 232. Concurrent enrollment in BIOL 011, for one credit and BIOL& 252L required. Prerequisite: A grade of “C” or better in BIOL& 251 or written consent of Instructional Unit. [NS, SE]

HUMAN A & P III
BIOL&253 4 Credits 33 hours of lecture 33 hours of lab
The third in a three-quarter sequence exploring the relationships between structure and function in the human body. The sequence is intended as a prerequisite for students planning to major in Nursing, Dental Hygiene or other allied health programs, or as life science credit for non-biology majors. Topics include homeostasis, the cardiovascular, lymphatic, digestive, respiratory and urinary systems, cellular metabolism, and fluid and electrolyte balance. Formerly BIOL 233. Credit is not allowed for both BIOL& 253 and BIOL 233. Concurrent enrollment in BIOL 011 for one credit and BIOL& 253L required. Prerequisite: A grade of “C” or better in BIOL& 252 or consent of Instructional Unit.

MICROBIOLOGY
BIOL&260 5 Credits 44 hours of lecture 33 hours of lab
History of microbiology and a survey of organisms included in the study of microbiology with emphasis on bacteria. Physiology, morphology, genetics, growth and reproduction of bacteria. Experiments stress lab techniques and organisms that are a factor in clinic and hospital environments. Prerequisite: CHEM& 121 or 141. Formerly BIOL 240. [NS, SE]

HUMAN CADAVER DISSECTION
BIOL 275 1 - 6 Credits 198 hours of lab
Dissection of the muscular, circulatory, nervous, digestive and reproductive systems. [SE]
SELECTED TOPICS
BIOL 280 1 - 5 Credits 55 hours of lecture
Selected topics in Biology. Topics vary, and course contents change to reflect new topics. Because the course varies in content it is repeatable for credit for different topics. [SE]

SPECIAL PROJECTS
BIOL 290 1 - 5 Credits
Opportunity to plan, organize, and complete special projects approved by department. Prerequisite: Written consent of Instructional Unit. [SE]

Business Administration

BASIC ACCOUNTING PROCEDURES
BUS 028 3 Credits 33 hours of lecture
Introduction to the fundamental bookkeeping functions of the double-entry accounting process to prepare financial information for a business or organization. Topics including the basic accounting equation, preparation of business and financial transactions, journalizing, posting, making adjustments, preparing the worksheet, and preparing financial statements from the worksheet.

BASIC ACCOUNTING PROCEDURES
BUS 029 3 Credits 33 hours of lecture
A continuation of BUS 028, with focus on accounting in a merchandising business. Topics include the valuation of inventories, depreciation, tax reports, payroll accounting, and the preparation of financial statements and special journals. Prerequisite: BUS 028.

ACCOUNTING APPLICATIONS
BUS 036 3 Credits 33 hours of lecture
Accounting procedures applied to business simulations. Includes payroll, depreciation of fixed assets, budgeting, maintaining sales and purchase records and preparing financial statements. Prerequisite: BUS 029 or consent of Instructional Unit.

INTRODUCTION TO BUSINESS
BUS& 101 5 Credits 55 hours of lecture
Learn about the business functions of management, human resources, marketing, law, computers, accounting, finance, production, small business and international business. Credit not allowed for both BUS& 101, BUS 101 and MGMT 100. Formerly BUS 101. [SE]

BUSINESS MATH APPLICATIONS
BUS 102 5 Credits 55 hours of lecture
Application of mathematics in common business situations. Emphasis is on practical applications and problem-solving skills for the business professional as well as the consumer and investor. Topics include: trade and cash discounts, simple and compound interest, mark up and mark down, and consumer credit. Cannot receive credit for both BUS 102 and MATHB 065. Prerequisite: Qualifying score on the college numerical skills placement for MATH 030 or higher or consent of Instructional Unit. [CP]

INTRODUCTION TO INTERNATIONAL BUSINESS
BUS 105 3 Credits 33 hours of lecture
A survey course, as well as a preparatory course for advanced study, of globalization and international business issues discussed include the history and development of international business, international institutions, regional alliances, sociocultural and political forces, national resources and environmental sustainability, labor forces, and the development of international competitive strategy.
CUSTOMER SERVICE
BUS 110  3 Credits  33 hours of lecture
Introduction to customer-centered business organization. Topics include the principles and practices of customer relations, the history of consumerism and customer relations departments, and methods to develop internal/external customer service skills, including identifying and responding to their needs, improving skills in providing information, dealing with conflict situations, and developing a positive customer relations climate. [GE]

SMALL BUSINESS MANAGEMENT
BUS 115  3 Credits  33 hours of lecture
Strategic and managerial considerations in starting, building, and maintaining a small business. Purchase, location, and layout of a new business along with controlling finances, purchasing, personnel, inventory management, pricing, and the legal environment. [GE]

MERCHANDISING MANAGEMENT
BUS 116  3 Credits  33 hours of lecture
Introduction to merchandising management. Topics include retail buying and merchandising functions, negotiation techniques, management of incoming/outgoing merchandise and inventory, mathematics of merchandising, analysis of vendor performance, sales forecasting, and creating a merchandising plan. [GE]

ADVERTISING
BUS 117  3 Credits  33 hours of lecture
Introduction to advertising. Topics include the problems faced by advertisers and their agencies, along with the policies and procedures for solutions in the development of advertising objectives and strategies, selection of media, determination of budgeting methods, and preparation of copy and layout for effective results. Credit not allowed for both BUS 117 and BUS 217. [GE]

COMPUTERIZED ACCOUNTING
BUS 130  3 Credits  33 hours of lecture
Computerized accounting techniques in the basic areas of financial accounting, including the processes of analyzing, recording, reporting and interpreting accounting data in a business environment. A systems approach with real world applications of the general ledger, accounts receivable, accounts payable, purchasing, cash receipts, accounting for sales, payroll, and month and year-end closing for both a service and a merchandising business. Quickbooks software is utilized in this course. Prerequisite: BUS 028 and 029 or ACCT& 201 (or BUS 231). [GE]

BUSINESS PLAN
BUS 135  3 Credits  33 hours of lecture
An introduction to building a business plan that incorporates a promotional plan. Plan purpose, audience, design, format, and presentation will be considered. Previous business planning experience useful but not required. Plans will incorporate a “hands-on” interactive approach. [GE]

INTRODUCTION TO ENTREPRENEURSHIP
BUS 139  5 Credits  55 hours of lecture
Learn what makes a successful entrepreneur, the tools an entrepreneur needs to start a business, and the opportunities and pitfalls faced by an entrepreneur.

PERSONAL FINANCE
BUS 160  5 Credits  55 hours of lecture
Buying insurance (life, health, property, and auto), buying and financing a home, minimizing Federal income tax, borrowing, saving, and investing. [GE]

COOPERATIVE WORK EXPERIENCE
BUS 199  1 - 5 Credits  165 hours of clinical
Up to 5 credits for supervised work training in an approved job. Completion of, or concurrent enrollment in BTEC 147 or HDEV 195, 198, or 200 required. Prerequisite: Completion of one class with a “C” or better in Business, Economics or Management. Consent of Instructional Unit required. [GE]
BUSINESS LAW  
BUS& 201 5 Credits  55 hours of lecture  
Practical applications of the law of contracts, agency, employment, real and personal property, and bailments in the business world and in one’s personal affairs. Legal reasoning and illustrative case problems. Prerequisite: Sophomore standing or consent of Instructional Unit. Formerly BUS 224. [SE]

DESCRIPTIVE STATISTICS  
BUS 203 3 Credits  33 hours of lecture  
Application of statistics to practical business problems. Includes summarizing and presenting data in tables and graphs, calculating and using common descriptive statistics, determining probabilities and using the binomial, Poisson, and normal probability distributions. Knowledge of Excel highly recommended. Prerequisite: MATH 095 or equivalent or consent of Instructional Unit. [SE]

INFERENTIAL STATISTICS  
BUS 204 3 Credits  33 hours of lecture  
Application of statistics to practical business and economic problems. Includes sampling, point and interval estimates, hypothesis testing using the normal, t, f and chi-square distributions, analysis of variance, correlation, and simple and multiple regression. Knowledge of Excel recommended. Prerequisite: Completion of BUS 203 or MATH 203 with a “C” or better or consent of Instructional Unit. [SE]

BUSINESS COMMUNICATIONS  
BUS 211 3 Credits  33 hours of lecture  
Developing proficiency in written and oral communications appropriate for business by composing, organizing, and editing documents such as letters, reports, memos, emails, and presentations from a variety of business cases and managerial interviews. Emphasis on team work, collaboration, diversity, intercultural communication, and the delivery of oral presentations, using specialized software. Same as ENGL 212. Prerequisite: ENGL& 101 (or ENGL 101) or consent of Instructional Unit. [C, SE]

PROFESSIONAL SELLING  
BUS 251 3 Credits  33 hours of lecture  
Introduction to personal selling concepts for the relationship era of business. Focus on selling stages, including prospecting, qualifying, developing rapport, overcoming objections, closing techniques, and following up with customer service. Focus on personal, retail, and organizational selling. [GE]

PRINCIPLES OF MARKETING  
BUS 260 5 Credits  55 hours of lecture  
Introduction to concepts of marketing, with practical emphasis on the research, evaluation, and segmentation of markets. Focus on behavior of consumer and organizational buyers. Activities include developing a marketing plan to include product planning, pricing, promoting, and placement. [GE]

SELECTED TOPICS  
BUS 280 1 - 5 Credits  55 hours of lecture  
The course focuses on selected topics in Business. Topics vary, and course theme and content change to reflect new topics. Because the course varies in content, it is repeatable for credit for different topics. Individual topics are listed in the quarterly class schedules. [GE]

SPECIAL PROJECTS  
BUS 290 1 - 5 Credits  
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]
Business Technology

**KEYBOARDING**

**BTEC 100** 1 - 3 Credits 11 hours of lecture 44 hours of lab

Introduction to the keyboard, development of speed and accuracy, and basic keyboarding applications, including business letters, memos, tables, and reports. Keyboarding courses (BTEC 101 and 190) are taught as individualized instruction through self-paced study. Students register for BTEC 100. At the end of the quarter, registration will automatically be changed to the appropriate course(s). A student earns from 1 to 3 credits in a course depending on the number of lessons and tests successfully completed. [GE]

**BEGINNING KEYBOARDING**

**BTEC 101** 1 - 3 Credits 11 hours of lecture 44 hours of lab

Introduction to keyboard, development of speed and accuracy and basic keyboarding applications - simple letters, memos, tables, and reports. For students who have had no previous keyboarding instruction. Register for BTEC 100. At the end of the quarter, registration will automatically be changed to the appropriate course(s). This course is taught on microcomputers. [GE]

**REFRESHER KEYBOARDING**

**BTEC 103** 1 - 3 Credits 11 hours of lecture 44 hours of lab

Review of keyboard and basic typing applications, development of speed and accuracy. For students who have not typed for several years and need a review. Continuous enrollment, flexible time, individualized program. Satisfactory completion meets prerequisite for BTEC 122, Document Formatting. Register in BTEC 100. Registration will automatically be changed at the end of the quarter. Cannot receive credit for both BTEC 103 and BTEC 190.

**BEGINNING COMPUTER FUNDAMENTALS**

**BTEC 105** 3 Credits 33 hours of lecture

Introduction to basic computer skills. Topics include computer components, terminology, and skills to manage files/folders, send and receive email, create documents using word processing, make simple spreadsheets, and locate information on the Internet. For students with little or no prior computer experience. [GE]

**APPLIED OFFICE ENGLISH**

**BTEC 106** 3 Credits 33 hours of lecture

Fundamental skills in the use of reference materials, spelling, business vocabulary, editing, word usage, grammar, sentence structure, and punctuation and practice in basic writing skills for business letters, memorandums, and emails. Students who have already completed BTEC 087 or BTEC 107 should not take this course. Prerequisite: Eligibility for ENGL 098.

**BUSINESS ENGLISH**

**BTEC 107** 5 Credits 55 hours of lecture

Develop proficiency in the language skills necessary for business writing. Strong emphasis placed on grammar, punctuation, sentence structure, capitalization, subject/verb agreement, and editing. Prerequisite: Eligibility for ENGL 098. [C, SE]

**APPLICATION ESSENTIALS: WORD**

**BTEC 116** 1 Credit 11 hours of lecture

Fundamentals of common business applications using MS Windows and MS Word, and using Windows to manage files/folders and giving students hands-on experience in word processing. Basic Word features, basic word processing skills and MLA document formatting will be covered. [GE]

**APPLICATION ESSENTIALS: EXCEL**

**BTEC 117** 1 Credit 11 hours of lecture

Fundamentals of common business applications using MS Windows and MS Excel, and using Windows to manage files/folders and giving students hands-on experience in spreadsheets. Basic Excel features, basic spreadsheet skills and common formulas and functions will be covered. [GE]
APPLICATION ESSENTIALS: POWERPOINT
BTEC 118  1 Credit  11 hours of lecture
Fundamentals of common business applications using MS Windows and MS PowerPoint to manage files/folders and giving students hands-on experience in presentation software. Basic PowerPoint features including basic designs and animation will be covered. Successful completion of BTEC 116, 117, & 118 can replace BTEC 149. [GE]

INTRODUCTION TO WORD
BTEC 120  3 Credits  33 hours of lecture
Create, format, edit, save and print documents using fonts, numbered and bulleted text tables, tabs, columns, thesaurus, grammar-check. Create reports and longer documents using columns, page numbers, footnotes, endnotes, headers and footers. Assemble form letters using mailing lists, envelopes, mailing labels, and standard paragraphs. Use styles to create flyers and newsletters with graphics. BTEC 100 or keyboarding speed of 30 wpm recommended. Application software for this course will be Microsoft Word. Cannot receive credit for both BTEC 120 and 125.

WORD FOR BUSINESS
BTEC 122  5 Credits  55 hours of lecture
Producing letters, memos, and tables using fonts, tabs, tables, numbered and bulleted text, thesaurus, and grammar-check. Reports and longer documents will be created using columns, page numbers, footnotes, endnotes, headers, and footers. Form letters using mailing lists, envelopes, mailing labels, and standard paragraphs will be assembled. Styles, flyers and newsletters with graphics are included. [GE]

FILING AND RECORDS MANAGEMENT
BTEC 131  3 Credits  33 hours of lecture
Principles and procedures of records storage and control including record cycle, microrecords, and electronic files. Selection of equipment and supplies. Practice in using indexing rules, coding, and filing for alphabetic, numeric, geographic, and subject filing systems. [GE]

10-KEY CALCULATOR
BTEC 135  1 Credit  5 hours of lecture  10 hours of lab
Ten-key by touch using a business-size electronic calculator. Training on operational features of modern business calculators incorporating business applications. [GE]

BUSINESS TECHNOLOGY SEMINAR
BTEC 140  2 Credits  22 hours of lecture
Problems, methods, procedures, and human relations related to on-the-job work experience in business. Concurrent enrollment in BTEC 199. Prerequisite: Written consent of Instructional Unit required. [GE]

BUSINESS TECHNOLOGY SEMINAR
BTEC 141  2 Credits  22 hours of lecture
Problems, methods, procedures, and human relations related to on-the-job work experience in business. Concurrent enrollment in BTEC 199. Prerequisite: Written consent of Instructional Unit required. [GE]

BUSINESS TECHNOLOGY SEMINAR
BTEC 143  2 Credits  22 hours of lecture
Problems, methods, procedures, and human relations related to on-the-job work experience in business. Concurrent enrollment in BTEC 199 required. Prerequisite: Consent of Instructional Unit. [GE]

BUSINESS TECHNOLOGY SEMINAR
BTEC 145  2 Credits  22 hours of lecture
Problems, methods, procedures, and human relations related to on-the-job work experience in business. Concurrent enrollment in BTEC 199 required. Prerequisite: Consent of Instructional Unit. [GE]

PROFESSIONAL SELF-DEVELOPMENT
BTEC 147  2 Credits  22 hours of lecture
Professional concepts applied to individuals in the business world in relation to themselves, the companies they rep-
resent, and the public they serve. Focus on improving resume, cover letter, interview, career portfolio and business communication and business etiquette skills. [GE]

**COMPUTER APPLICATIONS ESSENTIALS**

**BTEC 149 3 Credits 33 hours of lecture**

Fundamentals of common business applications using MS Windows and MS Office. An overview using Windows to manage files/folders and giving students hands-on experience in word processing, spreadsheet, presentation, and database software. [GE]

**COMPUTER BUSINESS APPLICATIONS**

**BTEC 150 5 Credits 55 hours of lecture**

Introduction to creating business projects with MS Windows and MS Office that emphasize critical thinking and problem-solving skills. Assignments include managing files/folders, creating and formatting Word documents, Excel workbooks, PowerPoint presentations, and Access databases, as well as integrated Office applications; researching and writing an MLA report and, in teams, creating and giving a presentation based on research. [GE]

**INTRODUCTION TO OFFICE PUBLISHING TOOLS**

**BTEC 155 3 Credits 33 hours of lecture**

Introduction to Microsoft Publisher. Focus on creating, saving, printing, and/or publishing flyers, newsletters, Web sites, and various business publications and forms; also applying graphics and publishing standards. [GE]

**POWERPOINT PRESENTATION**

**BTEC 165 3 Credits 33 hours of lecture**

Create and deliver electronic business presentations using Microsoft PowerPoint incorporating ethics in infographics. Develop presentation skills using text, graphics, charts, clip art, scanned objects, and embedding or linking media for print, sales presentations, and interoffice electronic communications. Previous experience with Windows environment using Word or Excel is recommended. [GE]

**INTRODUCTION TO EXCEL**

**BTEC 169 3 Credits 33 hours of lecture**

Skills to create, edit, format, and print spreadsheets, tables, graphs and charts using Microsoft Excel; skills to create and edit formulas and simple functions; skills to create, sort, and filter a worksheet databases; skills to PivotTables, templates, and manage multiple worksheets and workbooks. Prior experience with keyboard and/or ten-key by touch and logical thinking are extremely helpful. [GE]

**EXCEL FOR BUSINESS**

**BTEC 170 3 Credits 33 hours of lecture**

Advanced Microsoft Excel skills including creating, editing, and printing professional workbooks, using advanced formulas and charts, auditing and validating worksheet data, and solving complex problems with Excel. Integrating Excel with other office applications and understanding how technology is critical to solving business problems. An introduction to VBA, macros, and making an application in Excel. Prerequisite: BTEC 169 and BUS 102 (formerly MATHB 065) or equivalent score on COMPASS placement or consent of Instructional Unit. [GE]

**ACCESS FOR BUSINESS**

**BTEC 180 3 Credits 33 hours of lecture**

Introductory and intermediate skills for Microsoft Access for people who use and maintain Access databases. Topics include creation of tables, queries, forms and subforms, reports and subreports, and macros using both design view and wizards. Introduction to special fields such as memos, OLE and drop-down menus within the tables and forms, and using validation rules and referential integrity to ensure the data is “clean”. The course does assume knowledge of Microsoft Windows. Also offered as CTEC 180. Cannot receive credit for both BTEC 180 and 175.

**E-COMMERCE: INTRO TO BUSINESS ON THE WEB**

**BTEC 195 3 Credits 33 hours of lecture**

Introduction to e-commerce including the evolution of electronic commerce, business-to-business and business-to-customer e-commerce, creating a Web presence, commerce infrastructure and software choices, security and encryption issues, and electronic payment systems. Requires a group project to write a business plan for an online entity.
Prior computer class (BTEC 149 or 150), BUS 101, and familiarity with a Web browser recommended. Cannot receive credit for BTEC 195 and 212.

**COOPERATIVE WORK EXPERIENCE**

BTEC 199 1 - 3 Credits 99 hours of clinical

Supervised on-the-job work experience in an approved job in the local community with specific learning objectives and employer evaluation. See Cooperative Education Work Experience description in College Life and Services section of the catalog for more information. Consent of Instructional Unit and concurrent enrollment in accompanying seminar course required. 9 credits maximum. [GE]

**DOCUMENT FORMATTING**

BTEC 201 1 - 3 Credits 11 hours of lecture 44 hours of lab

Business letters, tables, electronic forms, use of templates, and report keyboarding on a production basis. Further development of speed and accuracy. Continuous enrollment, flexible times, individual program. Cannot receive credit for both BTEC 201 and 102. Prerequisite: BTEC 101, or 103, and BTEC 122 or consent of Instructional Unit.

**SPEED AND ACCURACY BUILDING**

BTEC 203 1 - 3 Credits 11 hours of lecture 44 hours of lab

Emphasis will be placed on correct techniques and appropriate drills to improve speed and accuracy. Cannot receive credit for both BTEC 203 and 010. Prerequisite: BTEC 201 or 102 or consent of Instructional Unit.

**ADMINISTRATIVE PROCEDURES**

BTEC 211 5 Credits 55 hours of lecture

Overview of current office procedures to equip students with the tools to solve a variety of problems in the changing business world using Microsoft applications. Complete simulated exercises requiring critical thinking, understanding of multicultural relations, and advanced office practices in preparation to work successfully in various office situations. [GE]

**SELECTED TOPICS**

BTEC 280 1 - 3 Credits 33 hours of lecture

The course focuses on selected topics in Business Technology. Topics vary, and course theme and content change to reflect new topics. Because the course varies in content, it is repeatable for credit for different topics. Individual topics are listed in the quarterly class schedules. [GE]

**SPECIAL PROJECTS**

BTEC 290 1 - 5 Credits

Opportunity to plan, organize and complete special projects approved by the faculty of the department. Prerequisite: Consent of Instructional Unit. [GE]

---

**Business Technology Medical Office**

**MATH FOR HEALTH CARE PROFESSIONALS**

BMED 103 3 Credits 33 hours of lecture

Mathematical concepts related to both administrative and dosage calculations for the physician’s office, clinic, or emergency-center. Prerequisite: Eligibility for MATH 030 or higher via placement score or prerequisite coursework. [CP]

**STATISTICS FOR HEALTH CARE PROFESSIONALS**

BMED 105 2 Credits 22 hours of lecture

Introduction to statistical computations and analysis used in healthcare. Topics include patient census, occupancy, length of stay, mortality and morbidity statistics. Prerequisite: A grade of “C” or better in BMED 103 or BUS 102. [CP]
MEDICAL TERMINOLOGY I
BMED 110 3 Credits 33 hours of lecture
Introduction to medical word building with common medical roots, prefixes and suffixes. Study of terms related to the body as a whole, as well as terms related to human anatomy, pathology, diagnostic tests, clinical procedures, and abbreviations associated with each body system. Medical Terminology I covers the following body systems: digestive, urinary, reproductive, nervous, and cardiovascular. Course work will include spelling and pronunciation of terms. [GE]

MEDICAL TERMINOLOGY II
BMED 111 3 Credits 33 hours of lecture
Continuation of Medical Terminology I, BTEC 110. Study of common medical roots, prefixes and suffixes and terms related to human anatomy, physiology, pathology, diagnostic tests, clinical procedures, and abbreviations associated with each body system. Medical Terminology II covers the following body systems: respiratory, blood, lymphatic, immune, musculoskeletal, integumentary, sense organs (eyes and ears), endocrine, as well as psychiatry. Course work will include spelling and pronunciation of terms. Prerequisite: BTEC 110 or BMED 110. [GE]

INTRODUCTION TO PATHOPHYSIOLOGY
BMED 112 5 Credits 55 hours of lecture
Introduction to the general mechanisms of systemic disease including etiology, physical signs and symptoms. Etiology focus will include infectious mechanisms, hereditary contributions, external physical agents and autoimmune conditions. Discussions of differences between disease and illness to include basic principles of pharmacology laboratory and diagnostic tests, overview of common therapies, prognosis and public health issues. Prerequisite: A grade of “C” or better in BMED 111 and BIOL 164/165 or HEOC 100. [GE]

MEDICAL OFFICE ADMINISTRATIVE PROCEDURES I
BMED 116 3 Credits 22 hours of lecture 22 hours of lab
Introduction to administrative positions in the medical field. Students gain introductory administrative competencies compliant with CAAHEP and other related professional organizations. The lab portion of the class prepares the student in medical office competencies and relevant software. Strong teamwork and time management skills are necessary to be successful in this rigorous course. Cannot receive credit for both BMED 115 and 116/117. Prerequisite: Completion of, or concurrent enrollment in, BMED 110 and completion of BTEC 149 or 150, or instructor permission.

MEDICAL OFFICE ADMINISTRATIVE PROCEDURES II
BMED 117 3 Credits 22 hours of lecture 22 hours of lab
Students will complete the competencies and coursework needed to successfully perform administrative and management duties in an outpatient medical clinic. This course continues where BMED 116 leaves off, offering the continuing student more coding, financial tasks, accounting practices, office management and human resource duties. Strong teamwork and time management skills are necessary to be successful in this rigorous course. Cannot receive credit for both BMED 115 and 116/117. Prerequisite: Completion of BMED 116 or instructor permission.

MEDICAL REIMBURSEMENT
BMED 129 5 Credits 55 hours of lecture
Overview of inpatient, outpatient health, insurance plans, revenue cycles, health insurance claims, health insurance terminology, reimbursement methodologies for professional services, completion of CMS/1500 and UB-04 billing forms. Topics include compliance issues, fraud and abuse/HIPAA issues, processing various perspective payment systems. Concurrent enrollment in BMED 111. Prerequisite: A grade of “C” or better in BMED 110. [GE]

MEDICAL CODING - CPT/HCPCS
BMED 130 4 Credits 44 hours of lecture
Introduction to procedural coding in ambulatory settings using the CPT Code Set and HCPCS (Health Care Financing Common Procedure Coding System). Student is introduced to the symbols, terminology and methods of procedural coding used by physicians and third parties and is guided step-by-step through various procedural coding scenarios by means of workbook exercises and actual case studies. The format and guidelines of the CPT and HCPCS code sets are reviewed to include E/M codes and modifiers. Reviews medical/surgical terminology, sur-
gical/anatomical procedures, anesthesia, pharmaceuticals, and durable medical goods. Looks at CPT’s position as it relates to ICD-9 and ICD-10 in today’s coding world. Prerequisite: A grade of “C” or better in BMED 111. [GE]

MEDICAL CODING ICD-9-CM/ICD-10
BMED 132 5 Credits 55 hours of lecture
Introduction to use of the ICD-9-CM and ICD-10 (International Classification of Disease, 9th & 10th Edition, Clinical Modification) coding system as it is used in inpatient, ambulatory and long term care. Content and purposes of indexes and registers are reviewed. Implications of diagnostic related groups (DRGs) and other prospective payment systems and their relationships to coding assignments and financing of health care, theory and practice are provided in coding problem solving and data quality content and measures. Prerequisite: A grade of “C” or better in BMED 111. [GE]

INTERMEDIATE MEDICAL CODING
BMED 133 5 Credits 55 hours of lecture
Coding systems used in hospitals, physicians’ offices and long-term care sites. Emphasis on ICD-9-CM (International Classification of Diseases, 9th Edition, Clinical Modification) and CPT (Current Procedure Terminology). Topics include content and purposes of disease and procedure indexes, as well as the purposes of abstracting from patient medical records; implications of diagnostic related groups (MS-DRGs) and ambulatory payment classifications (APCs) and their relationship to coding assignment and financing of hospital care; relationships of coding assignment and financing of physician office care; coding problem solving and measures for data quality and compliance. Class activities include coding practice using actual patient records and ICD-9-CM/CPT encoder. Prerequisite: A grade of “C” or better in BMED 129, BMED 130 and BMED 132, or consent of Instructional Unit. [GE]

MEDICAL OFFICE SEMINAR
BMED 134 1 Credit 11 hours of lecture
Overview of student success strategies, library resources, the health care delivery system in the United States and the various employment opportunities in medical office occupations including discussion of job requirements and responsibilities. [GE]

THERAPEUTIC COMM SKILLS FOR HEALTH PROF
BMED 137 3 Credits 33 hours of lecture
Techniques for encouraging a therapeutic and helping relationship with the client/patient. Includes an overview of the psychosocial development of a person, from birth to death. [GE]

LEGAL ASPECTS OF THE MEDICAL OFFICE
BMED 138 2 Credits 22 hours of lecture
Introduction to medical law, ethics and bioethics. Topics will include: ethics and bioethics in the practice of medicine, professional codes of ethics, an introduction to law, legal guidelines and the practice of medicine including professional liability, public duties, consents, advance directives, anatomy of a malpractice case, legal aspects of medical records, confidentiality, security of patient information and the release of patient information, patient access to their own medical records, and responding to subpoena duces tecum of medical records. [GE]

MA ASSISTANT EXAMINATION REVIEW
BMED 139 2 Credits 22 hours of lecture
Review of Medical Assistant administrative and clinical competencies including anatomy and physiology, medical terminology and legal aspects. Discussion of studying and test taking techniques to prepare for the NCCT Medical Assisting certification and the CMA certifications. Students will have a registration date to complete both exams by class completion. Concurrent enrollment in BMED 166 required. Prerequisite: A grade of “C” or better in BMED 163, 164 and 165 or consent of Instructional Unit. [GE]

LEGAL ASPECTS OF HEALTH INFORMATION
BMED 140 2 Credits 22 hours of lecture
Introduction to legal concepts with particular focus on healthcare providers and records generated in the practice of medicine, including administration of law, legal and court structure and function, and managing the release of patient information. Topics include liability of hospital and providers of care as well as current pertinent legislation, legal status of medical staff, laws relating to bioethical issues. [GE]
MEDICAL OFFICE CLINICAL PROCEDURES I
BMED 163 6 Credits 44 hours of lecture
Principles of medical office clinical procedures including preparing a patient for assisting a physician with examinations, procedures, and components of patient history. Covers charting, vital signs, sterile setups, universal blood precautions and methods of asepsis and sterilization. Topics also include techniques in patient interviewing and education. Lab provides the opportunity for practice and to demonstrate proficiency in procedures. Concurrent enrollment in BMED 130 and FACPR 032 required or consent of Instructional Unit. Prerequisite: A grade of “C” or better in BMED 105, 112, 117, 129, 132, 138, HEOC 120 and CMST& 230 and consent of Instructional Unit. [GE]

MEDICAL OFFICE CLINICAL PROCEDURES II
BMED 164 6 Credits 44 hours of lecture
Continuation of Medical Office Clinical Procedures I covering medical office clinical procedures including methods of collecting blood, processing specimens, equipment preparation and operation, electrocardiology, medication administration, medical and surgical asepsis. The lab provides an opportunity to practice procedures and demonstrate proficiency. Concurrent enrollment in BMED 137 and 165 required or consent of Instructional Unit. Prerequisite: A grade of “C” or better in BMED 163 or consent of Instructional Unit. [GE]

MEDICAL OFFICE LABORATORY PROCEDURES
BMED 165 4 Credits 22 hours of lecture 44 hours of lab
Introduction to specimen collection and processing. Performing basic CLIA waived hematology, chemistry and immunology testing; microscopic urine tests including gram smears; basic culture techniques and blood typing. Equipment use and maintenance, re-agent storage and handling. Quality control measures. Lab safety emphasized. Cannot receive credit for both HEOC 160 and BMED 165. Concurrent enrollment in BMED 137 and 164 required or consent of Instructional Unit. Prerequisite: A grade of “C” or better in BMED 163 or consent of Instructional Unit.

MEDICAL ASSISTANT PRACTICUM
BMED 166 6 Credits 11 hours of lecture
Supervised medical assistant experience in a health care facility. Provides students with the opportunity to apply knowledge and skill in performing administrative and clinical procedures and in developing professional attitudes for interacting with other professionals and consumers. Concurrent enrollment in BMED 139 required. Prerequisite: A grade of “C” or better in BMED 164, 165 and consent of Instructional Unit. [GE]

HEALTH INFORMATION PROCEDURES
BMED 222 5 Credits 44 hours of lecture
Introduction to health information procedures, principles and practice standards associated with medical record department and health unit coordinator responsibilities. Topics include: licensing, regulation, and accreditation of health care facilities, hospital organization, patient registration, health care statistics, medical record content, medical record assembly, analysis and coding. CPT coding (ICD-9-CM and ICD-10-CM) will be introduced as well as a review of other medical classifications of nomenclatures classification and nomenclatures. Completion of, or concurrent enrollment in BIOL 164/165 or HEOC 100, or consent of Instructional Unit. Prerequisite: A grade of “C” or better in BMED 103 and 105.

MEDICAL OFFICE PRACTICUM
BMED 225 2 Credits 11 hours of lecture 33 hours of clinical
Supervised learning in a clinic, medical center, or other health care facility, practicing medical office administrative responsibilities. Prerequisite: Consent of Instructional Unit. [GE]

MEDICAL OFFICE PRACTICUM
BMED 226 3 Credits 11 hours of lecture 66 hours of clinical
Supervised learning in a clinic, medical center, or other health care facility, practicing medical office administrative responsibilities. Prerequisite: Consent of Instructional Unit. [GE]
MEDICAL OFFICE CAPSTONE PRACTICUM
BMED 250 3 Credits 22 hours of lecture 33 hours of clinical
Supervised learning in a simulated health care environment where students will be extrapolating, correcting, analyzing for completeness; abstracting reports for release of information (ROI); coding and billing using actual electronic medical records and charts. In addition, students will develop in-depth knowledge of career opportunities and medical administrative team environments. Prerequisite: A grade of “C” or better in BMED 222 or consent of Instructional Unit.

SELECTED TOPICS
BMED 280 1 - 3 Credits 33 hours of lecture
The course focuses on selected topics in Business Technology. Topics vary, and course theme and content change to reflect new topics. Because the course varies in content, it is repeatable for credit for different topics. Individual topics are listed in the quarterly class schedules. [GE]

SPECIAL PROJECTS
BMED 290 1 - 5 Credits
Opportunity to plan, organize and complete special projects approved by the faculty of the department. Prerequisite: Consent of Instructional Unit. [GE]

Career Explorations
FAST TRACK 1: CAREER EXPLORATIONS-PORTFOLIO
CAP 011 2 Credits 22 hours of lecture
Improve the ability to listen actively, speak so others can understand, read with understanding, and convey ideas in writing while developing a career portfolio. Upon successful completion of Fast Track 1, students will have gained the study skills as well as the academic skills to transition into an I-BEST program or Fast Track 2. Concurrent enrollment in CAP 012, CAP 013, CAP 014, and CAP 015. Prerequisite: Current CASAS test scores in all skills. CASAS test score between 201 and 220 reading. ESL students must score at least 201 in listening.

FAST TRACK 1: CAREER EXPLORATIONS-READ/Writing
CAP 012 6 Credits 66 hours of lecture
Improve the ability to read with understanding and convey ideas in writing in the context of career exploration. Upon successful completion of Fast Track 1, students will have gained the study skills as well as the academic skills to transition into an I-BEST program or Fast Track 2. Concurrent enrollment in CAP 011, CAP 013, CAP 014, and CAP 015. Prerequisite: Current CASAS test scores in all skills. CASAS test score between 201 and 220 in reading. ESL students must score at least 201 in listening.

FAST TRACK 1: CAREER EXPLORATIONS-COMMUNICATION
CAP 013 3 Credits 33 hours of lecture
Improve the ability to listen actively and speak so others can understand in the context of career exploration. Upon successful completion of Fast Track 1, students will have gained the study skills as well as the academic skills to transition into an I-BEST program or Fast Track 2. Concurrent enrollment in CAP 011, CAP 012, CAP 014, and CAP 015. Prerequisite: Current CASAS test scores in all skills. CASAS test score between 201 and 220 in reading. ESL students must score at least 201 in listening.

FAST TRACK 1: CAREER EXPLORATIONS-TECHNOLOGY
CAP 014 2 Credits 22 hours of lecture
Improve the ability to use technology in the context of career explorations. Upon successful completion of Fast Track 1, students will have gained the study skills as well as the academic skills to transition into an I-BEST program or Fast Track 2. Concurrent enrollment in CAP 011, CAP 012, CAP 013, and CAP 015. Prerequisite: Current CASAS test scores in all skills. CASAS test score between 201 and 220 in reading. ESL students must score at least 201 in listening.
FAST TRACK 1: CAREER EXPLORATIONS-STUDY SKILLS
CAP 015 2 Credits 22 hours of lecture
Strengthen study skills and reflect on various strategies and characteristics of successful college students. Upon successful completion of Fast Track 1, students will have gained the study skills as well as the academic skills to transition into an I-BEST program or Fast Track 2. Concurrent enrollment in CAP 011, CAP 012, CAP 013, and CAP 014. Prerequisite: Current CASAS test scores in all skills. CASAS test score between 201 and 220 in reading. ESL students must score at least 201 in listening.

INTENSIVE MATH REVIEW
CAP 045 8 Credits 88 hours of lecture
A rigorous course designed for students who want to prepare for credit-bearing math classes or prepare for the GED math exam. Topics covered include whole numbers, fractions, decimals, signed numbers, percent, geometry, standard/metric measurement and basic algebra. Application problems and test-taking/study skills will be emphasized. Prerequisite: CASAS Math Score of 221; successful completion of ABE Math Level 3; or permission of department.

CAP SPECIAL TOPICS
CAP 080 1 - 10 Credits 110 hours of lecture
Variable topics in Basic Education Career and Academic Prep. Content to reflect the selected topics. Because the course varies in content, it is repeatable for credit for different topics. Individual topics are listed in the quarterly class schedule. Outcomes are determined by level of placement into the course and are based on the Washington State Basic Education Learning Indicators. Students must attempt a CASAS post test after 45 hours of attendance in this course. Prerequisite: Appropriate placement by ABE, ESL, GED level completion, CASAS testing, or permission of department.

Chemistry
SKILLS FOR PRE-HEALTH CHEMISTRY
CHEM 095 3 Credits 33 hours of lecture
For students who have little to no previous chemistry experience, preparation for the fast-paced and intensive experience of CHEM& 121, required for health occupation fields. Topics include measurements, density, nomenclature, properties of elements and compounds, understanding the periodic table, writing and balancing chemical equations, the mole, and the application of mathematical operations used in chemical problem solving. Prerequisite: Eligibility for MA TH 093, 095 or equivalent or consent of Instructional Unit. Students cannot receive credit for both CHEM 050 and CHEM 095.

CHEMICAL CONCEPTS W/LAB
CHEM&110 5 Credits 44 hours of lecture 22 hours of lab
Introductory chemistry course to fulfill the General Education Science with Laboratory requirement, intended for non-science majors who will not take additional chemistry. Focus on unit factor and equation problem solving skills as related to chemical concepts, also stoichiometry and stoichiometric problem solving skills. Topics include the structure of the atom, chemical reactions, and chemical and physical properties to describe matter. [NS, SE]

INTRO TO CHEMISTRY: PRE-HEALTH
CHEM&121 5 Credits 44 hours of lecture 22 hours of lab
Topics in general chemistry applicable to students seeking a 2-year degree in the health-occupations fields. Unit-factor method is applied to problem solving. Topics covered include units of measurement, atomic structure, chemical bonding, energy, the mole concept, nomenclature of inorganic compounds, writing and balancing equations, properties of gases, solutions and colloids, reaction rates and equilibrium, acids, bases and salts, radiation and health. Completion of elementary algebra recommended. Prerequisite: A grade of “C” or better in CHEM 050 or 095 and eligibility for MATH 093/095; or eligibility for MATH 111. Formerly CHEM 111. [NS,SE]
INTRO TO ORGANIC/BIOCHEM
CHEM&131  5 Credits  44 hours of lecture  22 hours of lab
Aspects of organic and biochemistry emphasizing how chemicals affect functioning of the human body. Applicable to students seeking a 2-year degree in the health-occupations fields. Topics covered include aliphatic and aromatic compounds, alcohols, ethers, amines, aldehydes, ketones, carboxylic acids and their derivatives, carbohydrates and carbohydrate metabolism, lipids and lipid metabolism, proteins and protein metabolism, enzymes and hormones, nucleic acids and the chemistry of heredity, body fluids and the human circulation system and nutrition. Prerequisite: Grade of “C” or better in CHEM& 121. Formerly CHEM 112. [NS,SE]

GENERAL CHEMISTRY PREPARATION
CHEM&139  4 Credits  44 hours of lecture
For students who need additional background in applied mathematics and chemistry to enroll in the CHEM& 141-142-143 sequence for science and engineering majors. Topics include scientific methods of measurement, significant figures, nomenclature, properties of elements, compounds, and solutions, the periodic table, writing and balancing chemical equations, and focused (extensive) practice on stoichiometric problem solving. Prerequisite: A grade of “C” or better in MATH 093, 095 or equivalent or consent of Instructional Unit. Formerly CHEM 100. [GE, SE]

GENERAL CHEMISTRY I
CHEM&141  4 Credits  44 hours of lecture
First of a 3-quarter sequence designed for science and engineering majors. Applications of the scientific method by correlating theory with experimental observation. Topics include systems of measurement, atomic structure, chemical bonding and shape, stoichiometric calculations, properties of gases, nomenclature of inorganic compounds, and writing and balancing equations. Students must also have completed a full year of high school chemistry or CHEM& 139 with a “C” or better. Students will be required to show proof of previous chemistry the first day of class. Concurrent enrollment in CHEM& 151, or consent of Instructional Unit. Prerequisite: Eligibility for MATH 111 and a grade of “C” or better in CHEM& 139 or equivalent or recommending score on Clark’s general chemistry placement test. [NS, SE]

GENERAL CHEMISTRY II
CHEM&142  4 Credits  44 hours of lecture
Second of a 3-quarter sequence designed for science and engineering majors. Applications of the scientific method by correlating theory with experimental observation. Topics include properties of liquids and solids, solutions, equilibria, reaction kinetics, acid-base theories, ionic equilibria and an introduction to organic chemistry. Concurrent enrollment in CHEM& 152, or consent of Instructional Unit. Prerequisite: A grade of “C” or better in CHEM& 141 and CHEM& 151. [NS, SE]

GENERAL CHEMISTRY III
CHEM&143  4 Credits  44 hours of lecture
Third of a three-quarter sequence designed for science and engineering majors. Applications of the scientific method by correlating theory with experimental observation. Topics include ionic equilibria, thermodynamics, nuclear chemistry, electrochemistry, transition metal chemistry, and applications of all chemical concepts to the elements on the periodic table. Concurrent enrollment in CHEM& 153 is recommended. Prerequisite: A grade of “C” or better in CHEM& 142 and CHEM& 152. [NS, SE]

GENERAL CHEMISTRY LABORATORY I
CHEM&151  1 Credit  33 hours of lab
First of a 3-quarter lab sequence designed for science and engineering majors, to coincide with CHEM& 141 General Chemistry I. Applications of the scientific method by correlating theory with experimental observation. Topics include systems of measurement, observing and affecting chemical reactions, energy considerations, chemical behavior of aqueous systems, the nature of chemical bonding, gas laws, graphing techniques, using technological interfaces to collect and manipulate data, and mathematical calculations to support chemical observations. Students must register for CHEM& 141, or consent of Instructional Unit. [NS, SE]
GENERAL CHEMISTRY LABORATORY II  
CHEM&152  1 Credit  33 hours of lab  
Second of a 3-quarter lab sequence designed for science and engineering majors, to coincide with CHEM& 142 General Chemistry II. Applications of the scientific method by correlating theory with experimental observation. Topics include phenomena of solid and liquid states, colligative properties of aqueous and non-aqueous systems, reaction kinetics, general equilibria, acid/base equilibria, graphing techniques, using technological interfaces to collect and manipulate data, and mathematical calculations to support chemical observations. Concurrent enrollment in CHEM& 142, or consent of Instructional Unit. Prerequisite: A grade of “C” or better in CHEM& 141 and CHEM& 151, or consent of Instructional Unit. [NS, SE]  

GENERAL CHEMISTRY LABORATORY III  
CHEM&153  2 Credits  11 hours of lecture  33 hours of lab  
Third of a 3-quarter lab sequence to coincide with CHEM& 143 General Chemistry III for science and engineering majors. Applications of the scientific method by correlating theory with experimental observation. Topics include chemical and ionic equilibria, acid-base theories of aqueous solutions and selected principles of electrochemistry, gravimetric analysis, coordination chemistry, volumetric analysis, inorganic synthesis, and the statistical handling of data. Completion of or concurrent enrollment in CHEM& 143 with a grade of “C” or better. Prerequisite: A grade of “C” or better in CHEM& 142 and CHEM& 152, or consent of Instructional Unit. [NS, SE]  

COOPERATIVE WORK EXPERIENCE  
CHEM 199  1 - 5 Credits  165 hours of clinical  
Supervised work experience in an approved job. Completion of specific learning objectives and employer evaluation. Completion of, or concurrent enrollment in, HDEV 195, 198, or 200 required. Prerequisite: Consent of Instructional Unit. [GE]  

ORGANIC CHEMISTRY I  
CHEM&241  4 Credits  44 hours of lecture  
First of a 3-quarter sequence designed for science and engineering majors, or students seeking a career in the health professions. Topics include mechanistic approach applied to hydrocarbons and alkenes, spectroscopic methods, molecular orbitals, hybridization, resonance, acid/base theory, nomenclature, structure and reactivity, kinetic and thermodynamic theories of reactions. Concurrent enrollment in CHEM& 251 is required, or consent of Instructional Unit. Prerequisite: A grade of “C” or better in CHEM& 143, or consent of Instructional Unit. [NS, SE]  

ORGANIC CHEMISTRY II  
CHEM&242  4 Credits  44 hours of lecture  
Second of a 3-quarter sequence designed for science and engineering majors, or students seeking careers in the health professions. Topics include organic synthesis and mechanistic approach applied to polar molecules; topics may include alcohols, ethers, organometallic compounds, aromatic systems, aldehydes and ketones. Concurrent enrollment in CHEM& 252 is required, or consent of Instructional Unit. Prerequisite: A grade of “C” or better in CHEM& 241 and CHEM& 251, or consent of Instructional Unit. [NS, SE]  

ORGANIC CHEMISTRY III  
CHEM&243  4 Credits  44 hours of lecture  
Third of a 3-quarter sequence designed for science and engineering majors, or students seeking careers in the health professions. Topics include mechanistic and synthetic approach applied to polar molecules; topics may include reactions of carboxylic acids and derivatives, dicarbonyl compounds, amines, conjugated systems, polymer systems and an introduction to biomolecules. Prerequisite: A grade of “C” or better in CHEM& 242 and CHEM& 252, or consent of Instructional Unit. [NS, SE]  

ORGANIC CHEMISTRY LABORATORY I  
CHEM&251  1 Credit  44 hours of lab  
First of a 3-quarter laboratory sequence designed for science and engineering majors, or students seeking a career in the health professions. Focus on basic organic laboratory techniques such as recrystallizations, melting points, distillations, reflux, extractions, chromatography, and spectroscopy; laboratory notebook-keeping skills and scientific writing methods. Concurrent enrollment in CHEM& 241, or consent of Instructional Unit. Prerequisite: A grade of “C” or better in CHEM& 143 and CHEM& 152, or consent of Instructional Unit. [NS, SE]
ORGANIC CHEMISTRY LABORATORY II
CHEM&252  1 Credit  44 hours of lab
Second of a 3-quarter laboratory sequence designed for science and engineering majors, or students seeking a career in the health professions. Focus on organic laboratory techniques, spectroscopic characterization of molecules, and introduction to synthetic techniques, including multi-step syntheses and handling moisture- or air-sensitive compounds. Concurrent enrollment in CHEM& 242, or consent of Instructional Unit. Prerequisite: A grade of “C” or better in CHEM& 241 and CHEM& 251, or consent of Instructional Unit. [NS, SE]

ORGANIC CHEMISTRY LABORATORY III
CHEM&253  2 Credits  11 hours of lecture  44 hours of lab
Third of a 3-quarter sequence designed for science and engineering majors, or students seeking careers in the health professions. Advanced synthetic techniques, project-based experiments and identification. CHEM& 253 replaces CHEM 214 (beginning in Spring 2009). Prerequisite: A grade of “C” or better in CHEM& 242 and CHEM& 252, or consent of Instructional Unit. [NS, SE]

SPECIAL PROJECTS
CHEM 290  1 - 6 Credits
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]

Chinese

CHINESE I
CHIN&121  5 Credits  55 hours of lecture
First of a three-quarter sequence in elementary Mandarin Chinese. Emphasis on listening/speaking skills, with additional practice in reading/writing. Course intended for students with little or no previous experience in studying Chinese. [HA, SE]

SELECTED TOPICS
CHIN 280  1 - 5 Credits  55 hours of lecture
Course focuses on selected topics in Chinese. Topics vary and course theme and content change to reflect new topics. Because the course varies in content, it is repeatable for credit for different topics.

College Preparation

COLLEGE ESSENTIALS: INTRODUCTION TO CLARK
COLL 101  2 Credits  22 hours of lecture
Introduction to Clark College for new students, focusing on making a successful transition to college life. Topics include goal setting, personal management skills, developing an academic plan, developing cultural competence and communication skills, financial literacy, and an introduction to student resources at the college.

CULTURAL AND ACADEMIC FUNDAMENTALS
COLL 111  2 Credits  22 hours of lecture
Cross-cultural training and orientation program for all new international students at Clark College whose first language is not English and who have little or no exposure to the American college environment. Emphasis on American cultural behaviors in educational settings, including guest speakers and an opportunity to visit college classes. This course is required of students who have been admitted as international students and who have not attended a college or university in the United States. Prerequisite: Admission to Clark College as an international student or consent of International Programs Office. Formerly HDEV 111. Cannot receive credit for both COLL 111 and HDEV 111.
Communication Studies

INTRO TO MASS MEDIA
CMST&102 5 Credits 55 hours of lecture
Examination of the interdependence of mass communication and society in the US with emphasis on media literacy and conscious consumption of mass mediated messages. [HA, SE]

COMPETITIVE SPEAKING AND DEBATE
CMST 171 3 Credits 33 hours of lecture
For students interested in intercollegiate speech/debate competition. Emphasis on debate/persuasive speaking, attention given to other forms of speech events and tournament management. Prerequisite: A grade of “C” or better in CMST& 220 (or CMST 101), or consent of Instructional Unit. [HB, SE]

COMPETITIVE SPEAKING AND DEBATE
CMST 172 3 Credits 33 hours of lecture
For students interested in intercollegiate speech/debate competition. Emphasis on informative speaking and interpretive reading. Attention given to debate and other forms of speech events. Prerequisite: A grade of “C” or better in CMST& 220 (or CMST 101), or consent of Instructional Unit. [HB, SE]

COMPETITIVE SPEAKING AND DEBATE
CMST 173 3 Credits 33 hours of lecture
For students interested in intercollegiate speech/debate competition. Emphasis on audience analysis and other forms of forensics activities. Prerequisite: A grade of “C” or better in CMST& 220 (CMST 101) or consent of Instructional Unit. [HB, SE]

COOPERATIVE WORK EXPERIENCE
CMST 199 1 - 5 Credits
Supervised work experience in an approved job. Completion of specific learning objectives and employer evaluation. Completion of, or concurrent enrollment in HDEV 195, 198 or 200 required. Prerequisite: Consent of Instructional Unit. [GE]

INTERPERSONAL COMMUNICATION
CMST&210 5 Credits 55 hours of lecture
Person-to-person communication emphasizing theoretical principles and their application. How self-concept, perception, verbal and non-verbal attributes and attitudes influence communication within the family, between friends, and at work. [C, SE, HA]

INTERCULTURAL COMMUNICATION
CMST 216 5 Credits 55 hours of lecture
Examination of the impact of culture on communication. Analysis of patterns of communications which affect the ability to establish clear understanding and effective interpersonal relationships. Skills to improve communication across cultural boundaries. [HA, SE]

PUBLIC SPEAKING
CMST&220 5 Credits 55 hours of lecture
Introduction to speecmaking based primarily on a traditional public speaking approach. Aids students in developing theoretical understanding and practical application of oral communication skills. Techniques in controlling speech anxiety, how to structure and organize information to present to a variety of audiences; and physical and vocal delivery skills. [C,HA,SE]

SMALL GROUP COMMUNICATION
CMST&230 5 Credits 55 hours of lecture
Small group communication emphasizing theoretical principles and their application, enabling students to become more comfortable and competent participants in the group communication process. Emphasis will be on the study and application of the dynamics of group development, problem solving methodologies, and the use of power, in-
including leadership and conflict. Formerly titled CMST 201. Credit not allowed for both CMST 201 and CMST& 230. [C, SE, SS, HA]

**PERSUASION SPEAKING**
CMST 240 5 Credits 55 hours of lecture
Introduction to the study of persuasion. Examines persuasion from both a theoretical and application perspective. Prerequisite: A grade of “C” or better in CMST& 220.

**COMPETITIVE SPEAKING AND DEBATE**
CMST 271 3 Credits 33 hours of lecture
For students interested in intercollegiate speech/debate competition. Emphasis given to advanced and independent studies in debate and persuasive speaking. Attention given to style. Students will manage the Clark College forensics tournament. Prerequisite: A grade of “C” or better in CMST 171, 172 or 173, or consent of Instructional Unit. [HB, SE]

**COMPETITIVE SPEAKING AND DEBATE**
CMST 272 3 Credits 33 hours of lecture
For students interested in intercollegiate speech/debate competition. Emphasis given to advanced and independent studies in informative speaking and interpretive reading. Attention given to style. Prerequisite: A grade of “C” better in CMST 171, 172 or 173, or consent of Instructional Unit. [HB, SE]

**COMPETITIVE SPEAKING AND DEBATE**
CMST 273 3 Credits 33 hours of lecture
For students interested in intercollegiate speech/debate competition. Attention given to advanced and independent audience analysis and other forensics activities. Prerequisite: A grade of “C” or better in CMST 171, 172 or 173, or consent of Instructional Unit. [HB, SE]

**SELECTED TOPICS**
CMST 280 5 Credits 55 hours of lecture
The course focuses on selected topics in Communication Studies. Topics vary, and course theme and content change to reflect new topics. Because the course varies in content, it is repeatable for credit for different topics. Individual topics are listed in the quarterly class schedule. [SE]

**SPECIAL PROJECTS**
CMST 290 1 - 5 Credits
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]

---

**Computer Aided Design and Drafting Technology**

**CADD ORIENTATION**
CADD 101 1 Credit 22 hours of lab
Combination of off-campus field trips to a variety of businesses and on-campus test-drives of several core CADD software applications seen on the field trips. Focus on exposure and orientation to core CADD software applications, and development of an educational plan. [GE]

**CADD CAREERS**
CADD 102 1 Credit 22 hours of lab
Combination of off-campus field trips to a variety of businesses and on-campus test-drives of several core CADD software applications seen on the field trips. Focus on exposure and orientation to core CADD software applications beyond CADD 101 and development of a career plan. Prerequisite: A grade of “C” or better in CADD 101. [GE]

**BASIC SKETCHUP**
CADD 110 4 Credits 16 hours of lecture 55 hours of lab
Basic operations of the current version of SketchUp. Topics include screen features, drawing and editing 3D objects,
using and applying material to surfaces, opening and saving files, and using AutoCAD drawing file data. Recommended for anyone comfortable using a PC. [GE]

**BASIC RHINOCEROS**

CADD 120 4 Credits  
16 hours of lecture  55 hours of lab

Basic operation of Rhinoceros, a 3D surface modeling software of interest to students in engineering, industrial design, and graphic design. Creating and editing of curves, surfaces, solids, and textures and lighting effects. Includes the use of plug-ins for rendering. Recommended for anyone comfortable using a PC. [GE]

**BASIC MICROSTATION**

CADD 130 4 Credits  
16 hours of lecture  55 hours of lab

Basic operations of the current version of MicroStation. Covers screen features, command terminology, drawing and editing objects, working with 2D and 3D, using reference files, opening and saving drawing files, and printing. Recommended for anyone comfortable using a PC. [GE]

**BASIC AUTOCAD**

CADD 140 4 Credits  
16 hours of lecture  55 hours of lab

Basic operations of the current version of AutoCAD. Screen features, drawing and editing objects, working with 2D, using both model space and layouts, dimensioning and dimension styles, using blocks, attributes, and xrefs, opening and saving files, and using templates. Recommended for anyone comfortable using a PC. [GE]

**ARCHITECTURAL DRAFTING 1**

CADD 141 4 Credits  
16 hours of lecture  55 hours of lab

Beginning foundations of architectural drafting using AutoCAD Architecture. Topics include terminology, architectural symbols and standards, line weights and layer management. A standard multi-sheet drawing set for a residence will be developed and will include a site plan, foundation plan, floor plan, and elevations, and related basic residential construction processes. Prerequisite: A grade of “C” or better in ENGR 113, and either ENGR 140 or CADD 140. [GE]

**INTERMEDIATE AUTOCAD**

CADD 142 2 Credits  
11 hours of lecture  22 hours of lab

A continuation of AutoCAD. Topics covered include: review and continued work with blocks, attributes, and xref’s; creating and using dynamic blocks; using annotated text and dimension text; and an introduction to 3D. Prerequisite: A grade of “C” or better in ENGR 140 or CADD 140.

**CIVIL DRAFTING 1 WITH CIVIL 3D**

CADD 143 4 Credits  
16 hours of lecture  55 hours of lab

Beginning foundations of civil drafting concepts and practices. Introduction to terminology, symbols, multiple use blocks and details, origins and uses of survey data, contours, alignments, and profiles to describe/define project objects. Topics will include basic site considerations, basic types and construction of roads, site drainage, sewer systems, potable water, walks, driveways, and fire access. Class projects will use various applications to achieve data tables and calculations; drafting is not platform dependent but is biased towards use of AutoCAD. Prerequisite: A grade of “C” or better in ENGR 113, and either ENGR 140 or CADD 140. [GE]

**BASIC SOLIDWORKS**

CADD 150 4 Credits  
16 hours of lecture  55 hours of lab

Parametric solids modeling with SolidWorks, covering the breadth of the software at a basic level. Create part, assembly, and drawing files, including design tables and multiple configurations. Recommended for anyone comfortable using a PC. [GE]

**MECHANICAL DRAFTING 1 WITH SOLIDWORKS**

CADD 154 4 Credits  
16 hours of lecture  55 hours of lab

Mechanical drafting using SolidWorks. Focus on detailed control in annotating and producing drawings of parts and assemblies. Includes components in mechanical print reading. Prerequisite: A grade of “C” or better in ENGR 113, and either ENGR 150 or CADD 150. [GE]
INTERMEDIATE SOLIDWORKS - TOP DOWN DESIGN
CADD 155 4 Credits  16 hours of lecture  55 hours of lab
System design using SolidWorks in the context of an assembly. Focus on complex modeling of parts and assemblies.
Prerequisite: CADD 150 or ENGR 150. [GE]

INTRODUCTION TO CAM
CADD 160 2 Credits  11 hours of lecture  22 hours of lab
Introduction to CAM software for CNC machine operation. Recommended for anyone comfortable using a PC. [GE]

BASIC REVIT: RESIDENTIAL
CADD 170 4 Credits  16 hours of lecture  55 hours of lab
Basic operations of the current version of Revit, as used in residential architectural design and drafting. Topics include screen features, drawing and editing 3D objects, using sheets and views, file management, and using pre-existing AutoCAD drawing file data. Recommended for anyone comfortable using a PC. [GE]

REVIT: COMMERCIAL
CADD 171 4 Credits  16 hours of lecture  55 hours of lab
Revit Commercial will continue to build on the basic tools covered in the Basic Revit Residential course. This is a project-based course and will focus on building a commercial office building using the basic tools, but also focusing on more advanced tools required to complete a commercial project. Topics include: grids, reflected ceiling plans, interior and exterior elevations sections, interior design, schedules, site rendering, view templates, construction documents setup and work-sharing. Prerequisite: A grade of “C” or better in CADD 170.

COORDINATE WORK EXPERIENCE
CADD 199 1 - 6 Credits
Supervised work experience in an approved job. Completion of specific learning objectives and employer evaluation. Prerequisite: Consent of instructional unit and completion of or concurrent enrollment in HDEV 195, 198 or 200 required. [GE]

PRESENTATION GRAPHICS
CADD 207 4 Credits  16 hours of lecture  55 hours of lab
Concepts of design and graphic principles for developing a variety of visual presentations by applying different graphic forms used for advertising, and showcasing graphic skills by producing portfolio quality work. Prerequisite: A grade of “C” or better in CADD 141, CADD 143, or CADD 154.

ARCHITECTURAL DRAFTING 2
CADD 210 3 Credits  11 hours of lecture  44 hours of lab
Continuance of architectural drafting from CADD 141, with a focus on refinement and using industry standards. Create a drawing set for a residential structure, with review by local professionals. Prerequisite: A grade of “C” or better in CADD 141. [GE]

AUTOCAD CUSTOMIZATION
CADD 214 3 Credits  11 hours of lecture  44 hours of lab
Customizing buttons and toolbars, using AutoLISP to create new AutoCad commands. Introduction to custom dialog boxes. Prerequisite: A grade of “C” or better in CADD 142. [GE]

INTEGRATED COMPUTATIONAL DESIGN
CADD 216 3 Credits  11 hours of lecture  44 hours of lab
Use of computational simulation within CADD applications in the design and analysis of engineering problems. Also, use of integrated surface/solid modeling techniques, and use of CADD in documentation of designs and analyses. Prerequisite: A grade of “C” or better in ENGR 150 or CADD 150.

CIVIL DRAFTING 2
CADD 230 3 Credits  11 hours of lecture  44 hours of lab
Continuance of civil drafting from CADD 143, with a focus on refinement and using industry standards. Create a
drawing set for a residential subdivision, with review by local professionals. Prerequisite: A grade of “C” or better in CADD 143. [GE]

MECHANICAL DRAFTING 2
CADD 240 3 Credits 11 hours of lecture 44 hours of lab
Continuance of mechanical drafting from CADD 144 and/or CADD 154, with a focus on refinement and using industry standards. Create a drawing set for a residential subdivision, with review by local professionals. Prerequisite: A grade of “C” or better in CADD 154. [GE]

SELECTED TOPICS
CADD 280 1 - 5 Credits 55 hours of lecture
Course focuses on selected topics in EMET. Topics vary, and course theme and content change to reflect new topics. Because the course varies in content, it is repeatable for credit for different topics. [GE]

SPECIAL PROJECTS
CADD 290 1 - 6 Credits
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of instructional unit. [GE]

CADD CAPSTONE PRACTICUM
CADD 299 5 Credits 11 hours of lecture 88 hours of lab
Capstone project to expand knowledge by studying selected CADD topics in selected major area of study (architectural, civil, mechanical, or other) and producing a comprehensive portfolio-documented project. Projects must be pre-approved by the instructor. Prerequisite: Consent of Instructional Unit.

Computer Graphics Technology

PHOTOSHOP RASTER GRAPHICS
CGT 101 4 Credits 22 hours of lecture 44 hours of lab
Fundamentals of digital imaging using Adobe Photoshop. Focus on software tools and techniques to capture, correct, create and combine images for print and web. Topics include input devices, resolution, tone and color correction, retouching, painting, drawing, image manipulation, compositing, automation, graphic formats, design and reproduction considerations. [GE]

ILLUSTRATOR VECTOR GRAPHICS
CGT 102 4 Credits 22 hours of lecture 44 hours of lab
Fundamentals of vector drawing using Adobe Illustrator. Focus on software tools and techniques to draw, trace, transform and combine graphics for print and web. Topics include drawing tools, path editing, shape manipulation, blending, shading, object layering, typography, graphic formats, design and reproduction considerations. [GE]

INDESIGN PAGE LAYOUT
CGT 103 4 Credits 22 hours of lecture 44 hours of lab
Fundamentals of page layout using Adobe InDesign. Focus on software tools and techniques to combine text and graphics into visual layouts for print communications. Topics include document design, color and typographic principles, copyfitting, spatial organization, visual hierarchy, file and font management, prepress issues, marketing and printing considerations. [GE]

WEB MULTIMEDIA CONTENT I
CGT 104 4 Credits 22 hours of lecture 44 hours of lab
Introduction to content development strategies used to create and combine multimedia elements for web presentation or mobile communication. Focus on conceptual and visual design, user, client and marketing considerations. Activities include using technologies to produce static and interactive media, motion graphics, 2D animation, integrated audio and visual, and dynamic interfaces. [GE]
USER EXPERIENCE DESIGN
CGT 105  4 Credits  22 hours of lecture  44 hours of lab
Investigation into the field of usability and interaction design. Focus on strategies and best practices to better understand how to create successful user experiences for web presentation or mobile communication. Topics include usability, interactivity, user research, testing scenarios, navigational models, information architecture and interface design. Students will design and conduct usability testing. [GE]

SOCIAL MEDIA EXPLORATION
CGT 106  3 Credits  22 hours of lecture  22 hours of lab
Exploration of current practices in the use of social media and internet resources for professional development, networking, collaboration, communication, marketing and advertising. Focus on the strengths, roles and issues of various social media tools. Activities include developing and implementing a social media strategy for personal branding and professional networking. [GE]

COOPERATIVE WORK EXPERIENCE
CGT 199  1 - 5 Credits  165 hours of clinical
Supervised work experience in an approved job. Completion of specific learning objectives and employer evaluation. Completion of, or concurrent enrollment in HDEV 195, 198 or 200 required. Prerequisite: Consent of Instructional Unit. [GE]

WEB VIDEO PRODUCTION
CGT 201  4 Credits  22 hours of lecture  44 hours of lab
Fundamentals of video production for web delivery. Focus on all aspects of the video production workflow from concept to capture to multimedia integration and post-production processing. Topics include conceptual design, storytelling, video shooting techniques, non-linear editing, sound editing, media formats, compression and publishing for web presentation. [GE]

WEB DESIGN I
CGT 205  4 Credits  22 hours of lecture  44 hours of lab
Fundamentals of web design and site development. Focus on web authoring standards, tools and techniques to conceive, design, produce and publish websites. Topics include client and marketing analysis, information architecture, conceptual and visual design, workflow and team process, coding, content integration and website testing. Prerequisite: A grade of “C” or better in CTEC 122 HTML and completion of or concurrent enrollment in CTEC 160. [GE]

WEB DESIGN II
CGT 206  4 Credits  22 hours of lecture  44 hours of lab
Further study in web design and site development. Focus on web authoring trends and strategic methodology to better understand how to extend website functionality and value. Topics include strategies such as cross platform and browser compatibility, content management, search engine optimization, site statistics, accessibility, project management and maintenance planning. Prerequisite: A grade of “C” or better in CGT 205. [GE]

PROFESSIONAL PRACTICES
CGT 214  4 Credits  22 hours of lecture  44 hours of lab
Practical experience and understanding of the business of design and freelancing. Emphasis on professional practices and processes. Instructor-supervised professional project development working with clients to design print and web-based communications. May include industry field trips, interviews, research, online or in-person events and team-based projects. Prerequisite: Consent of Instructional Unit. [GE]

CAPSTONE PRACTICUM
CGT 240  4 Credits  22 hours of lecture  44 hours of lab
An opportunity to extend your knowledge through the study of selected topics in your major area of study and to produce a comprehensive portfolio project. Projects must be pre-approved with the instructor. Prerequisite: Consent of Instructional Unit. [GE]
SELECTED TOPICS
CGT 280 1 - 5 Credits 55 hours of lecture
The course focuses on selected topics in Computer Graphics Technology. Topics vary, and course theme and content change to reflect new topics. Because the course varies in content, it is repeatable for credit for different topics. Individual topics are listed in the quarterly class schedules. Prerequisite: Consent of Instructional Unit.

SPECIAL PROJECTS
CGT 290 1 - 3 Credits
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit.

Computer Science

ENGINEERING AND COMPUTER SCIENCE ORIENTATION
CSE 101 1 Credit 22 hours of lab
Orientation for students interested in Engineering and Computer Science. Topics include exposure to Engineering and Computer Science educational/career opportunities and challenges, with emphasis on effective planning, communication, teamwork appropriate to these career fields. Credit not allowed for both CSE 101 and ENGR 101. [SE]

INTRO TO ELECTRICAL/COMPUTING
CSE 120 5 Credits 44 hours of lecture 33 hours of lab
Introduction to electrical/computer science and engineering processes, principles, problem-solving techniques, and contemporary tools. Applies in-class learning to hands-on projects and explores current industry trends and implications. Prerequisite: MATH 103. [SE]

INTRODUCTION TO C
CSE 121 5 Credits 55 hours of lecture
Introduction to the C programming language. Emphasis on program design, verification, and testing. Programming related concepts in computer science will be covered. Prerequisite: A grade of “C” or better in MATH& 151 (MATH 113), ENGR 120, CSE 120, ENGR 109 (ENGR 111) or CTEC 121; or consent of Instructional Unit. [SE]

COMPUTER SCIENCE I C++
CS& 131 5 Credits 55 hours of lecture
Introduction to the C++ programming language. Emphasis on object-oriented programming (OOP) design principles and their implementation in C++, addressing issues of reusability, efficiency, and style. Prerequisite: A grade of “C” or better in CSE 121 or CTEC 125, or consent of Instructional Unit. [SE]

COMPUTER SCIENCE I JAVA
CS& 141 5 Credits 55 hours of lecture
Introduction to the Java programming language. Emphasis on object-oriented design and development of portable, multithreaded, event-driven software. Prerequisite: A grade of “C” or better in CSE 121 or CTEC 125, or consent of Instructional Unit. [CP, SE]

DISCRETE STRUCTURES
CSE 215 5 Credits 55 hours of lecture
Discrete structures and analysis techniques for computing by building on students’ skills in programming and logic. Topics include: functions, relations and their properties; sets, sequences and tuples; probability, counting (permutations and combinations); propositional logic and logical connectives; introduction to predicate logic and its limitations; formal proof strategies (counterexample, contraposition); contradiction, recursion, computational complexity; trees, graphs and traversal strategies; modeling computation (finite state & turing machines). Prerequisite: A grade of “C” or better in CSE 121 and ENGR 250.
INTRODUCTION TO DATA STRUCTURES
CSE 222 5 Credits 55 hours of lecture
Fundamentals of data structures and advanced programming techniques used in high-level languages such as C. Topics: trees, heaps, hash tables, sorting, searching, recursion, and algorithm analysis. Prerequisite: A grade of “C” or better in CSE 121 or CTEC 125, or consent of Instructional Unit. [SE]

DATA STRUCTURES & OBJECT-ORIENTED PROGRAMMING
CSE 223 5 Credits 55 hours of lecture
Study of data structures and the analysis of algorithms, object-oriented programming, concurrency, memory management. Prerequisite: A grade of “C” or better in CSE 222 or CTEC 222, and MATH 205 and MATH& 152 (MATH 211). [SE]

PROGRAMMING TOOLS
CSE 224 5 Credits 55 hours of lecture
Study of tools and techniques that facilitate programming and debugging, including debuggers, profilers, and scripting. Prerequisite: A grade of “C” or better in CSE 121 or consent of Instructional Unit. [SE]

SPECIAL PROJECTS
CSE 290 1 - 5 Credits
Opportunity to plan, organize, and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [SE]

Computer Science & Engineering

ENGINEERING AND COMPUTER SCIENCE ORIENTATION
CSE 101 1 Credit 22 hours of lab
Orientation for students interested in Engineering and Computer Science. Topics include exposure to Engineering and Computer Science educational/career opportunities and challenges, with emphasis on effective planning, communication, teamwork appropriate to these career fields. Credit not allowed for both CSE 101 and ENGR 101. [SE]

INTRO TO ELECTRICAL/COMPUTING
CSE 120 5 Credits 44 hours of lecture 33 hours of lab
Introduction to electrical/computer science and engineering processes, principles, problem-solving techniques, and contemporary tools. Applies in-class learning to hands-on projects and explores current industry trends and implications. Prerequisite: MATH 103. [SE]

INTRODUCTION TO C
CSE 121 5 Credits 55 hours of lecture
Introduction to the C programming language. Emphasis on program design, verification, and testing. Programming related concepts in computer science will be covered. Prerequisite: A grade of “C” or better in MATH& 151 (MATH 113), ENGR 120, CSE 120, ENGR 109 (ENGR 111) or CTEC 121; or consent of Instructional Unit. [SE]

DISCRETE STRUCTURES
CSE 215 5 Credits 55 hours of lecture
Discrete structures and analysis techniques for computing by building on students’ skills in programming and logic. Topics include: functions, relations and their properties; sets, sequences and tuples; probability, counting (permutations and combinations); propositional logic and logical connectives; introduction to predicate logic and its limitations; formal proof strategies (counterexample, contraposition); contradiction, recursion, computational complexity; trees, graphs and traversal strategies; modeling computation (finite state & turing machines). Prerequisite: A grade of “C” or better in CSE 121 and ENGR 250.
### INTRODUCTION TO DATA STRUCTURES

**CSE 222**  
5 Credits  
55 hours of lecture  

Fundamentals of data structures and advanced programming techniques used in high-level languages such as C. Topics: trees, heaps, hash tables, sorting, searching, recursion, and algorithm analysis. Prerequisite: A grade of “C” or better in CSE 121 or CTEC 125, or consent of Instructional Unit. [SE]

### DATA STRUCTURES & OBJECT-ORIENTED PROGRAMMING

**CSE 223**  
5 Credits  
55 hours of lecture  

Study of data structures and the analysis of algorithms, object-oriented programming, concurrency, memory management. Prerequisite: A grade of “C” or better in CSE 222 or CTEC 222, and MATH 205 and MATH& 152 (MATH 211). [SE]

### PROGRAMMING TOOLS

**CSE 224**  
5 Credits  
55 hours of lecture  

Study of tools and techniques that facilitate programming and debugging, including debuggers, profilers, and scripting. Prerequisite: A grade of “C” or better in CSE 121 or consent of Instructional Unit. [SE]

### SPECIAL PROJECTS

**CSE 290**  
1 - 5 Credits  

Opportunity to plan, organize, and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [SE]

---

### Computer Technology

#### INTRODUCTION TO COMPUTING

**CTEC 100**  
3 Credits  
33 hours of lecture  

Overview of computer information systems. Introduces computer hardware, communications, systems, and human resources, exploring their integration and application in society. Extensive coverage of terminology. Class constitutes a general introduction to computer systems and how they are used. [SE]

#### COMPUTING ESSENTIALS

**CTEC 101**  
2 Credits  
22 hours of lecture  

Introduction to basic skills and problem solving involved with computer hardware, operating systems, and application programs with a special emphasis on conventions and skills universal to a variety of computing settings and skills which promote portability between systems and applications. Provides an overview of key skills in a variety of operating system environments and digital interactive settings. Skills and topics include: essential interactions in major operating system environments, basic hardware components of a personal computer system, an overview of file formats and management with an emphasis on backup and portable document strategies, basic interactions in e-mail and worldwide web including how to document and save web pages, and a survey of the purposes of various types of application programs. [GE]

#### INTRODUCTION TO WINDOWS

**CTEC 102**  
3 Credits  
33 hours of lecture  

Introduction to the Windows GUI environment. Topics covered include: Windows startup, desktop and resource management, troubleshooting and Windows utilities. Work with graphics, perform object linking and embedding, and develop familiarity with the resources in Network Neighborhood. [GE]

#### INTRODUCTION TO MAC/OS

**CTEC 103**  
3 Credits  
33 hours of lecture  

Introduction to the Macintosh operating system. Course emphasizes the feel and function of the Macintosh, conveying the Macintosh as a visual environment. Visual cues and identification of the concepts that make a Macintosh unique will be stressed. [GE]
PC SUPPORT CUSTOMER SERVICE SKILLS
CTEC 104 3 Credits 33 hours of lecture
Communication skills for working in a technical environment. Topics covered: professional ethics and behavior, health and safety issues, and developing a service attitude. [GE]

INTRODUCTION TO THE INTERNET
CTEC 105 3 Credits 33 hours of lecture
Introduction to global networking and the Internet from the user’s perspective with an emphasis on the basic skills required to participate as a member of the Internet community. Topics include use of electronic mail, electronic discussion groups, accessing databases and on-line information from around the world, and downloading files from file archives. Overview of the social impact of networking technology, the Internet history, and culture. [GE]

COMMAND LINE ESSENTIALS FOR WINDOWS AND UNIX
CTEC 110 3 Credits 33 hours of lecture
Preparation to interact with either a Windows System Command Prompt or a UNIX or UNIX-like Shell Prompt as a knowledgeable end-user. Prerequisite: Eligibility for ENGL 098. [GE]

INTERNET RESEARCH AND LIVING ONLINE
CTEC 115 2 Credits 22 hours of lecture
Introduction to global networking and the Internet from the student users’ perspective, emphasizing basic skills required to do research and participate as members of the Internet community. Topics include network fundamentals, strategies for locating, analyzing and evaluating information, electronic mail, Internet-based communities, social, legal and ethical issues regarding Internet interactions. [GE]

BEGINNING PROGRAMMING
CTEC 120 2 Credits 22 hours of lecture
Introduction to programming concepts central to designing and writing elementary programs using the Alice programming language. Emphasis on problem solving skills; programming assignments require substantial time to complete. [SE]

INTRO TO PROGRAMMING & PROBLEM SOLVING
CTEC 121 5 Credits 55 hours of lecture
Fundamental concepts related to designing and writing computer programs and procedures. Topics covered include: problem-solving techniques, program design, coding, debugging, testing and documentation. The course stresses concepts common to all programming. Prerequisite: Eligibility for ENGL& 101 and a grade of “C” or better in MATH 095. CTEC 120 recommended. [Q, SE]

HTML FUNDAMENTALS
CTEC 122 4 Credits 44 hours of lecture
Introduction to website development through the mastery of the fundamentals of HTML, XHTML, and CSS coding for web pages. Intended to give the student the basic skills required to hand-code web pages from scratch. A website will be developed in compliance with current web standards, practices, and usability. Topics include: XHTML, HTML5, CSS, CSS#, web server organization and structure, text editors, images, links, lists, forms, tables, and code validation.

JAVASCRIPT
CTEC 126 5 Credits 55 hours of lecture
Introduction to the fundamentals and concepts of JavaScript including web scripting with jQuery, AJAX, and related libraries. Student will create dynamic websites and code demonstrating for debugging and testing JavaScript based design and code functionality. Prerequisite: A grade of “C” or better in CTEC 121 and CTEC 122.

PHP WITH SQL I
CTEC 127 5 Credits 55 hours of lecture
This course is an introduction to the server-side programming language PHP and its use in creating dynamic web applications, providing students with a functional knowledge of database design, SQL statements, dynamic web ap-
Applications, and the methods implemented in PHP for manipulating MySQL databases. Prerequisite: A grade of “C” or better in CTEC 121 and CTEC 122. [GE]

MICROSOFT MTA WINDOWS OS FUNDAMENTALS
CTEC 130 3 Credits 33 hours of lecture
Fundamental Windows interactions and key skills and issues important in providing support for Windows users. Topics include basic interactions with Windows, system configuration, installing and upgrading systems, managing devices, system maintenance and other support issues. Course is based on the Windows Operating System Microsoft Technology Associate (MTA) Certification, which students will have an opportunity to earn as a component of the course curriculum.

MICROSOFT MTA NETWORKING FUNDAMENTALS
CTEC 131 3 Credits 33 hours of lecture
Foundational concepts and skills associated with computer networking. Topics include basics of local area networking and wide area networks, the OSI Model, wired and wireless networks, Internet Protocol/Transmission Control Protocol (TCP/IP), and network security. Course is based on the Networking Fundamentals Microsoft Technology Associate (MTA) Certification which students will have an opportunity to earn as a part of the course curriculum.

MICROSOFT MTA SECURITY FUNDAMENTALS
CTEC 133 5 Credits 55 hours of lecture
Introduces concepts and fundamentals of network security. Topics include security layers, operating system security, network security and security software. Course is based on the Security Fundamentals Microsoft Technology Associate (MTA) Certification, which students will have an opportunity to earn as a component of the course curriculum. Prerequisite: A grade of “C” or better in CTEC 131 or NTEC 221, or consent of Instructional Unit.

MICROSOFT MTA DATABASE ADMIN
CTEC 134 5 Credits 55 hours of lecture
Provides a foundational overview of concepts, practices, and operation as associated with designing, developing and administrating a database. Topics include core database concepts, creating database objects, manipulating data, data storage, and administering a database. Students will have an opportunity to earn the Microsoft Database Administration Fundamentals Microsoft Technology Associate (MTA) certification as a component of the course curriculum. Familiarity with Windows and MS Office highly recommended.

INTRODUCTION TO UNIX
CTEC 140 5 Credits 55 hours of lecture
An introduction to the structure and use of the UNIX operating system. Topics covered include: file management, common utilities, and (basic) shell programming. Prerequisite: A grade of “C” or better in MATH 090 or 091, or consent of Instructional Unit. [GE]

UNIX SYSTEM ADMINISTRATION
CTEC 141 5 Credits 55 hours of lecture
Fundamental concepts, ideas and practices of administrating the UNIX operating system. Topics include account management, file systems, startup and shutdown, printing, security, backups, configuration, optimization and basic networking. Prerequisite: A grade of “C” or better in CTEC 140, or consent of Instructional Unit. [GE]

UNIX POWER TOOLS
CTEC 143 5 Credits 55 hours of lecture
Continuing skills development using various basic UNIX tools in the shell environment; building on skills developed in prerequisite courses, students learn about shell scripts, sed, awk, and regular expressions; preparation for using UNIX or UNIX-like system power tools. Prerequisite: A grade of “C” or better CTEC 121 and CTEC 140, or consent of Instructional Unit. [GE]
WEB SERVER TECHNOLOGY
CTEC 145  5 Credits  55 hours of lecture
Foundations of web server technologies with a focus on skills useful for web development. Topics include installation and configuration of Apache, MySQL, and PHP, and best practices in security. Interact with UNIX using basic commands in command line and GUI environments, administrate and maintain web hosting accounts. Prerequisite: A grade of “C” or better in CTEC 122 and CTEC 127, or consent of the Instructional Unit.

WORDPRESS I
CTEC 160  5 Credits  55 hours of lecture
An overview of the WordPress platform for individuals seeking to create websites for personal or professional use. Basics on WordPress use, installation, content management, and configuration as well as intermediate and more advanced areas such as WordPress Themes, Plugins, and use of advanced settings. Prior web publishing experience not required. Familiarity with web browsers and email is highly recommended. Prerequisite: A grade of “C” or better in ENGL& 101 or consent of Instructional Unit.

BUSINESS WEB PRACTICES
CTEC 165  4 Credits  44 hours of lecture
Business Web Practices surveys business standards and professional best practices for professions associated with web content creation, web design, and web development. Topics include distinctions between freelance, contracted and salaried work environments, web production practices in content strategy, project management, workflow and version control, current practices in marketing, web analytics and search engine optimization, and legal and ethical issues.

INTRODUCTION TO ACCESS
CTEC 180  3 Credits  33 hours of lecture
Introductory and intermediate skills for Microsoft Access for people who use and maintain Access databases. Topics include creation of tables, queries, forms and subforms, reports and subreports, and macros using both design view and wizards. Introduction to special fields such as memos, OLE and drop-down menus within the tables and forms; and using validation rules and referential integrity to insures the data is ‘clean.’ [GE]

INTRODUCTION TO DATABASE DESIGN USING ACCESS
CTEC 181  5 Credits  55 hours of lecture
Database design for those who need to design, create, and maintain databases. Presents the information level databases design concepts relative to any relational database structure (DBMS), and then focuses on the physical level design of a database using MS Access as the DBMS. Topics covered are: Intro to DB Management, The Relational Model Database Normalization Design Methodology, and Creation of Tables, Queries, Forms, Reports and Macros using MS Access. This is a beginning course and requires no prior experience in database design or Access. It does assume prior knowledge of MS Windows. [GE]

DATABASE WEB TECHNOLOGIES
CTEC 185  5 Credits  55 hours of lecture
Fundamentals of databases for web development, including foundational skills in database design and implementation as it pertains to the development and support of websites. Topics include syntax and semantics of database query languages, role of SQL in web development, and integration of PHP with an SQL database. Concurrent enrollment in CTEC 227 highly recommended. Prerequisite: A grade of “C” or better in CTEC 121, 122 and 127.

COOPERATIVE WORK EXPERIENCE
CTEC 199  1 - 5 Credits
Supervised work experience in an approved job. Completion of specific learning objectives and employer evaluation. Prerequisite: Consent of Instructional Unit and completion of or concurrent enrollment in HDEV 195, 198 or 200 required. [GE]

PC HELP DESK WORK EXPERIENCE
CTEC 200  1 - 5 Credits  11 hours of lecture
Work experience for Computer Support Specialist students. Students will work at the Student run CTEC Help Desk. Days and times are arranged to meet both student schedules and the help desk mission. Students earning the
CSS degree or CSS certification are required to sign up for at least 2 credits and will be expected to work 3 hours per week per credit at the Student Help Desk. Other course work outside of Help Desk shifts will be required. Prerequisite: A grade of “C” or better in CTEC 104 or consent of Instructional Unit. [GE]

**A+PC OPERATING SYSTEM TECHNOLOGIES**
CTEC 201 5 Credits 55 hours of lecture
Intermediate course in technical topics related to computer operating system fundamentals. Covers installation, configuration and upgrading operating systems. Includes diagnosing problems and general troubleshooting skills. Basic network capabilities of operating systems are covered. Designed to help prepare students for A+ hardware certification exam. Prerequisite: A grade of “C” or better or concurrent enrollment in ELEC 107, or consent of Instructional Unit. [GE]

**INTRODUCTION TO MANAGED INFORMATION SYSTEMS**
CTEC 205 5 Credits 55 hours of lecture
Overview of the role of management information systems in business by supporting a wide range of organizational functions from routine organizational transactions to managerial strategic decision making. Emphasis is on terminology associated with IT and hands-on labwork utilizing common business and IT applications. Prerequisite: A grade of “C” or better in ENGL& 101 and BUS& 101.

**COMPTIA STRATA COMPUTER AND IT SUPPORT**
CTEC 212 5 Credits 55 hours of lecture
Survey of foundational computer support skills and knowledge designed for those who are exploring or preparing for careers in the information technology or office environments. Students will learn basic skills in setting up PC workstations and peripherals, conduct software installation, identify compatibility issues, recognize/prevent basic security risks and perform preventative maintenance of computers. Curriculum is based on the Comp TIA Strata certification. Prerequisite: A grade of “C” or better in CTEC 100 or 102, or consent of Instructional Unit.

**C# .NET**
CTEC 226 5 Credits 55 hours of lecture
Fundamental concepts of designing and writing C# (“C-sharp”) computer programs. Topics covered include: problem solving techniques, forms and object-oriented program design, coding, debugging, testing and documentation. Emphasizes understanding and use of Visual Studio Integrated Development Environment (IDE). Prerequisite: A grade of “C” or better in CTEC 121. CTEC 124 is recommended. [GE]

**PHP WITH SQL II**
CTEC 227 5 Credits 55 hours of lecture
A continuation of the CTEC 127, PHP I course, extending PHP skills with object-oriented programming, API management, PHP security, AJAX integration, and version control. Current best practices in the commercial web industry will be emphasized. Prerequisite: A grade of “C” or better in CTEC 127, or consent of Instructional Unit. [GE]

**API AND ADVANCED INTEGRATION**
CTEC 228 5 Credits 55 hours of lecture
Application Programming Interface (API) and Advanced Integration will provide the skills and knowledge to use and create APIs that provide integration between programs and services on the web. Students will create or augment an API as a final course project. Prerequisite: A grade of “C” or better in CTEC 260, CTEC 126, and CTEC 227 or consent of Instructional Unit.

**UNIX NETWORK ADMINISTRATION & SECURITY**
CTEC 240 5 Credits 55 hours of lecture
Skills development for configuring and administering a TCP/IP network. Topics include configuring basic networking, client services, file sharing services, major network services, cryptography, user, file, and network security, and other relevant topics. Prerequisite: A grade of “C” or better in CTEC 141, or consent of Instructional Unit. [GE]
SCRIPTING WITH PERL
CTEC 241 5 Credits 55 hours of lecture
Introduction to the Perl language in the Unix environment. Topics include text processing, report generation, system administration tasks, and CGI scripting for interactive web pages. Projects emphasize hands-on, practical applications of the language. Previous programming experience and knowledge of basic HTML strongly recommended. Prerequisite: A grade of “C” or better in CTEC 140, or consent of Instructional Unit. [GE]

WORDPRESS II
CTEC 260 5 Credits 55 hours of lecture
Overview of intermediate and advanced concepts and fundamentals of the WordPress platform emphasizing its features and capabilities as a development environment. Topics include installation and configuration, problem-solving and debugging WordPress, and development of themes, frameworks and plugins. Additionally, students will research, interact, and make contributions to the WordPress Community while demonstrating industry standards and best practices. Prerequisite: A grade of “C” or better in CTEC 122, CTEC 160, and CTEC 126 or consent of Instructional Unit.

SELECTED TOPICS
CTEC 280 1 - 6 Credits 66 hours of lecture
Varying topics. May be repeated for credit. [GE]

DATABASE IMPLEMENTATION USING ACCESS
CTEC 281 5 Credits 55 hours of lecture
Instruction in advanced database applications and Microsoft extensions. Topics include Visual Basic for applications, Data Access objects, OLE controls, creation of add-ins, security implementation, database replication for synchronization, accessing, external data sources, and managing client/server issues. Prerequisite: A grade of “C” or better in CTEC 181 and CTEC 123, consent of Instructional Unit. [GE]

SPECIAL PROJECTS
CTEC 290 1 - 5 Credits
Opportunity to plan, organize, and complete special projects approved by the department. Prerequisite: Consent of instructional unit. [GE]

CAPSTONE EXPERIENCE
CTEC 295 3 Credits 33 hours of lecture
Capstone experience for CTEC degree and certificate, to assess and refine final skill set. Focus on developing and engaging in learning experiences to demonstrate and expand workplace skills and abilities. Development of employment-package resources and job-acquisition strategies. Prerequisite: Consent of Instructional Unit. [GE]

Construction Technology

BLUEPRINT READING
CNST 106 3 Credits 33 hours of lecture
Construction blueprint reading for residential and light commercial. [GE]

JOB ESTIMATING AND SCHEDULING
CNST 108 3 Credits 33 hours of lecture
Bid preparation activities from initial receipt of drawings and specifications, to the final submission of the bid to project owner. Scheduling of subcontractors to complete the project. Prerequisite: CNST 106 or consent of Instructional Unit. [GE]

CONSTRUCTION TECHNOLOGY I
CNST 111 6 Credits 66 hours of lecture
Basic concepts and theories of residential and commercial construction. Including design, finance, construction (general, mechanical, specialty), and marketing. [GE]
CONSTRUCTION TECHNOLOGY I LAB
CNST 112 6 Credits 132 hours of lab
Application of the concepts and theories presented in CNST 111. Concurrent enrollment in CNST 111 required. [GE]

CONSTRUCTION TECHNOLOGY II
CNST 121 6 Credits 66 hours of lecture
Basic concepts and theories of residential and commercial construction including design, finance, construction (general, mechanical, specialty), and marketing. Prerequisite: CNST 111. [GE]

CONSTRUCTION TECHNOLOGY II LAB
CNST 122 6 Credits 132 hours of lab
Application of the concepts and theories presented in CNST 121. Concurrent enrollment in CNST 121 required. Prerequisite: CNST 112. [GE]

CONSTRUCTION TECHNOLOGY III
CNST 131 6 Credits 66 hours of lecture
Basic concepts and theories of residential and commercial construction including design, finance, construction (general, mechanical, specialty), and marketing. Prerequisite: CNST 121. [GE]

CONSTRUCTION TECHNOLOGY III LAB
CNST 132 6 Credits 132 hours of lab
Application of the concepts and theories presented in CNST 131. Concurrent enrollment in CNST 131 required. Prerequisite: CNST 122. [GE]

COOPERATIVE WORK EXPERIENCE
CNST 199 1 - 5 Credits 165 hours of clinical
Supervised work experience in an approved job. Completion of specific learning objectives and employer evaluation. Completion of, or concurrent enrollment in, HDEV 195, 198, or 200 required. Prerequisite: Consent of Instructional Unit. [GE]

CONSTRUCTION TECHNOLOGY IV
CNST 211 6 Credits 66 hours of lecture
Basic concepts and theories of residential and commercial construction including design, finance, construction (general, mechanical, specialty), and marketing. Prerequisite: CNST 131. [GE]

CONSTRUCTION TECHNOLOGY IV LAB
CNST 212 6 Credits 132 hours of lab
Application of the concepts and theories presented in CNST 211. Concurrent enrollment in CNST 211 required. Prerequisite: CNST 132. [GE]

CONSTRUCTION TECHNOLOGY V
CNST 221 6 Credits 66 hours of lecture
Basic concepts and theories of residential and commercial construction including design, finance, construction (general, mechanical, specialty), and marketing. Concurrent enrollment Lab required. Prerequisite: CNST 211. [GE]

CONSTRUCTION TECHNOLOGY V LAB
CNST 222 6 Credits 132 hours of lab
Application of the concepts and theories presented in CNST 221. Concurrent enrollment in CNST 221 required. Prerequisite: CNST 212. [GE]

CONSTRUCTION TECHNOLOGY VI
CNST 231 6 Credits 66 hours of lecture
Basic concepts and theories of residential and commercial construction including design, finance, construction (general, mechanical, specialty), and marketing. Prerequisite: CNST 221. [GE]
CONSTRUCTION TECHNOLOGY VI LAB
CNST 232 6 Credits 132 hours of lab
Application of the concepts and theories presented in CNST 231. Concurrent enrollment in CNST 231 required. Prerequisite: CNST 222. [GE]

SPECIAL PROJECTS
CNST 290 1 - 5 Credits
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]

CPR

CHILD CARE CPR
CPR 033 0 Credits 6 hours of lecture
Pediatric CPR - specifically designed for parents and child care providers. Focus is on home safety, infant and child CPR. This course fulfills the state licensing requirement for child care providers.

Criminal Justice

INTRODUCTION TO CRIMINAL JUSTICE
CJ& 101 5 Credits 55 hours of lecture
Philosophy and history of criminal justice. Interrelations of police, courts, and corrections. Discussion of career opportunities and qualifications for various careers in criminal justice. Prerequisite: SOC& 101 (SOC 101) or PSYC& 100 (PSYC 101). [SE, SS]

INTRODUCTION TO CORRECTIONS
CJ& 105 3 Credits 33 hours of lecture
An overview of local, state and federal correctional agencies. The historical development of correctional policies and practices. The exploration of debates surrounding the role and effectiveness of criminal sentences, institutional procedures, technological developments, special populations, etc. [SE, SS]

Dental Hygiene

DENTAL HYGIENE COMPETENCIES LAB
DH 013 1 Credit 22 hours of lab
Application of concepts and topics presented in DH 111, 112, 113, 114, 211, 212, and 213. Continued development of skills and techniques related to dental hygiene competencies. Concurrent enrollments in DH 111, 112, 113, 114, 211, 212 or 213 required.

DENTAL ANATOMY
DH 101 3 Credits 33 hours of lecture
Anatomy, embryology, and histology of the human dentition and surrounding oral structures as they apply to the practice of dental hygiene. Emphasis on tooth development and associated vocabulary, tooth identification and differentiation, and tooth numbering systems. Prerequisite: Consent of the Dental Hygiene Program. [GE]

HEAD AND NECK ANATOMY
DH 102 3 Credits 33 hours of lecture 6 hours of lab
Embryological, histological and anatomical development of the head and neck as it applies to the practice of dental hygiene. [GE]

ORAL HEALTH EDUCATION
DH 103 2 Credits 22 hours of lecture
Development of skills essential to the dental health educator and dental health resource person. Concepts of teaching, learning and motivation for groups and individuals. [GE]
INTRODUCTION TO DENTAL MATERIALS/ASSISTING
DH 104  3 Credits  22 hours of lecture
Introduction to properties and manipulation of basic restorative materials including resin, bases, liners, varnishes, cements, and sealants. Introduction to four-handed chairside assisting, study model preparation and pit and fissure sealant application. Clinical practice through assisting in restorative situations. [GE]

CLINICAL DENTAL HYGIENE TECHNIQUES I
DH 111  6 Credits  33 hours of lecture
Basic theory and pre-clinical practice at the introductory level in patient assessment, care planning, management, and periodontal therapy, which includes prevention and control of oral disease, and proper safety and infection control procedures. Prerequisite: Consent of the Dental Hygiene Program. [GE]

CLINICAL DENTAL HYGIENE TECHNIQUES II
DH 112  5 Credits  17 hours of lecture
Clinical practice at the introductory level in patient assessment, care planning, management, and periodontal therapy, which includes prevention and control of oral disease, and proper safety and infection control procedures. Prerequisite: DH 111 and Consent of the Dental Hygiene Program. [GE]

CLINICAL DENTAL HYGIENE TECHNIQUES III
DH 113  5 Credits  17 hours of lecture
Clinical practice at the introductory and development levels in patient assessment, care planning, management, and periodontal therapy, which includes prevention and control of oral disease, and proper safety and infection control procedures. Prerequisite: DH 112 and Consent of the Dental Hygiene Program. [GE]

CLINICAL DENTAL HYGIENE TECHNIQUES IV
DH 114  4 Credits  97 hours of lab
Clinical practice at the introductory and development levels in patient assessment, care planning, management, and periodontal therapy, which includes prevention and control of oral disease, and proper safety and infection control procedures. Concurrent enrollment in DH 114L required. Prerequisite: DH 113 and Consent of the Dental Hygiene Program. [GE]

ORAL RADIOLOGY I
DH 122  3 Credits  22 hours of lecture
Radiographic theory, equipment, patient safety, and techniques for exposing, processing, and mounting dental radiographs. Prerequisite: Consent of the Dental Hygiene Program. [GE]

ORAL RADIOLOGY II
DH 123  1 Credit  22 hours of lab
Second in a series on radiographic theory application and radiographic image interpretation. Continued experience in exposing, processing and mounting, and critiquing dental radiographs. Prerequisite: DH 122 and consent of the Dental Hygiene program. [GE]

ORAL RADIOLOGY III
DH 124  2 Credits  22 hours of lecture
Third in a series on radiographic theory application and image interpretation. Includes principles of radiation biology, quality assurance, radiation health and protection. Introduction of principles of contemporary panoramic radiographic techniques and comprehensive analysis of panoramic images. Prerequisite: A grade of “C” or better in DH 123 and DH 143. [GE]

RESTORATIVE DENTISTRY I
DH 134  2 Credits  11 hours of lecture
Introduction to restorative techniques with emphasis on placement of amalgam and clinical experience with sealant application. Prerequisite: Consent of the Dental Hygiene Program. [GE]
ORAL MEDICINE
DH 141  2 Credits  22 hours of lecture
Introduction to the evaluation of medical/dental histories in preparation for dental hygiene treatment. Includes the most commonly encountered oral and systemic diseases. [GE]

GENERAL AND ORAL PATHOLOGY
DH 143  3 Credits  33 hours of lecture
Fundamentals of oral pathology including the inflammatory processes, tumor development, metabolic pathways and developmental disturbances. Prerequisite: Consent of Instructional Unit. [GE]

ETHICS AND THE PROFESSION
DH 152  1 Credit  11 hours of lecture
Basic ethical principles, ethical problem solving methods, the Principles of Ethics of the American Dental Hygienist Association, and Washington State Laws applicable to the practice of dental hygiene. These elements will enable the student to apply professional attitudes and judgments when treating clinical patients. [GE]

SPECIAL NEEDS POPULATIONS I
DH 154  1 Credit  11 hours of lecture
Issues regarding techniques and strategies for identifying, assessing, and treating patients with special needs and developing technological expertise to access special-needs information through various media. Prerequisite: Consent of the Dental Hygiene Program. [GE]

LOCAL ANESTHESIA & PAIN CONTROL
DH 163  4 Credits  25 hours of lecture  33 hours of lab
Integration of anatomy, physiology, pharmacology and the most commonly encountered emergency procedures as they apply to the administration of local anesthesia. Clinical practice in the administration of local anesthesia is a required component of the course. Weekly clinical lab practice focuses on the 8 most commonly administered injections. Prerequisite: Admission to and Consent of the Dental Hygiene Program.

PERIODONTICS I
DH 171  3 Credits  22 hours of lecture  22 hours of lab
Introduction to histological and clinical characteristics of normal and diseased periodontium. Introduction to tooth accumulated materials and preventive oral aids. [GE]

CARIOLOGY
DH 172  2 Credits  22 hours of lecture
Presentation of cause, progression, and prevention of dental caries with an emphasis on fluoride. [GE]

NITROUS OXIDE SEDATION
DH 174  1 Credit  8 hours of lecture  4 hours of lab
Exploration of nitrous oxide sedation as it applies to the practice of dentistry and dental hygiene. Emphasis on patient evaluation, pharmacodynamics, and administration methods and safety issues. Minimum of three clinical patient inductions and recoveries required. Meets multi state licensure requirements for the provisions of nitrous oxide and includes 10 hours of lecture, 3 clinical, and 1 hour written final for a total of 14 hours. Prerequisite: Consent of the Dental Hygiene Program. [GE]

PHARMACOLOGY I
DH 181  1 Credit  11 hours of lecture
Introduction to the classification, pharmacodynamics, dosages, and therapeutic effects of drugs most commonly encountered or prescribed by the dental office. Topics include drugs of abuse, autonomic nervous system, gastrointestinal, respiratory, vitamin, and minerals. Prerequisite: Acceptance into the dental hygiene program. [GE]
PHARMACOLOGY II
DH 182 1 Credit 11 hours of lecture
Continuation of the classification, pharmacodynamics, dosages and therapeutic effects for drugs most commonly encountered or prescribed by the dental office. Topics include antimicrobial, antifungal, and antiviral medications, opioid and non-opioid analgesics, and cardiovascular medications. Prerequisite: DH 181. [GE]

PHARMACOLOGY III
DH 183 1 Credit 11 hours of lecture
Continuation of the classification, pharmacodynamics, dosages, and therapeutic effects for drugs most commonly encountered or prescribed by the dental office. Topics include endocrine, psychotherapeutic, sedative/hypnotic, anti-anxiety, anticonvulsants, ophthalmic, anti-neoplastic, immune function, anti-Parkinson, and Alzheimer’s disease medications. Prerequisite: DH 182. [GE]

INTRODUCTION TO DIGITAL MANAGEMENT SYSTEMS
DH 192 1 Credit 22 hours of lab
An introduction to axiUm - the digital management system designed for dental patient records, student clinical assessments, and radiography. Students will learn to navigate the system, enter data pertaining to clinical patient treatment, and track clinical skills assessments. Prerequisite: Consent of the Dental Hygiene Program. [GE]

COOPERATIVE WORK EXPERIENCE
DH 199 1 - 5 Credits 165 hours of clinical
Supervised work experience in an approved job. Completion of specific learning objectives and employer evaluation. Completion of, or concurrent enrollment in, HDEV 195, 198, or 200 required. Prerequisite: Consent of Instructional Unit. [GE]

DENTAL PUBLIC HEALTH I
DH 201 2 Credits 11 hours of lecture 44 hours of lab
A systematic approach to the prevention and control of dental disease and the promotion of oral health through organized community efforts. Practical application of public health techniques in the assessment of the community to establish what types of oral health programs are needed. [GE]

DENTAL PUBLIC HEALTH II
DH 202 2 Credits 11 hours of lecture 44 hours of lab
Continuation of Dental Public Health I. Advanced application of public health concepts to plan, implement and evaluate oral health programs that prevent and control dental disease and promote oral health for a designated population. [GE]

DENTAL PUBLIC HEALTH III
DH 203 1 Credit 22 hours of lab
Continuation of Dental Public Health II. Implementation and evaluation of oral health programs at a variety of community settings. Formerly titled “Community Dental Health II”. [GE]

CLINICAL DENTAL HYGIENE TECHNIQUES V
DH 211 9 Credits 198 hours of lab
Clinical practice at the development level in patient assessment, care planning, management, and periodontal therapy, which includes prevention and control of oral disease, and proper safety and infection control procedures. Concurrent enrollment in DH 211L required. Prerequisite: DH 114 and consent of the Dental Hygiene Program. [GE]

CLINICAL DENTAL HYGIENE TECHNIQUES VI
DH 212 9 Credits 198 hours of lab
Clinical practice at the development and competent levels in patient assessment, care planning, management, and periodontal therapy, which includes prevention and control of oral diseases, and proper safety and infection control procedures. Concurrent enrollment in DH 212L required. Prerequisite: DH 211 and Consent of the Dental Hygiene Program. [GE]
CLINICAL DENTAL HYGIENE TECHNIQUES VII
DH 213 10 Credits 220 hours of lab
Clinical practice at the competent level in patient assessment, care planning, management, and periodontal therapy, which includes prevention and control of oral disease, and proper safety and infection control procedures. Concurrent enrollment in DH 213L required. Prerequisite: DH 212 and Consent of the Dental Hygiene Program. [GE]

RESTORATIVE DENTISTRY II
DH 231 5 Credits 22 hours of lecture 66 hours of lab
Laboratory practice in expanded duties as allowed by Washington State Law. Emphasis on placement of amalgam and composite restorations. Prerequisite: DH 134 and Consent of the Dental Hygiene Program. [GE]

RESTORATIVE DENTISTRY III
DH 232 4 Credits 11 hours of lecture 66 hours of lab
Clinical and laboratory practice in expanded duties as allowed by Washington State law; restorative dentistry and associated procedures, dental analgesia, local anesthetic, current dental material evaluation and product selection for use in clinical practice. Prerequisite: DH 231 and Consent of the Dental Hygiene Program. [GE]

RESTORATIVE DENTISTRY IV
DH 233 3 Credits 11 hours of lecture 44 hours of lab
Further perfection of skills and mastery of clinical and laboratory practice in expanded duties as allowed by Washington State law. Completion of restorative capstone project, encompassing depth and breadth of knowledge acquired from supportive course work. Prerequisite: DH 172, 103, 104, 134, 231, 232 and consent of the Dental Hygiene Program. [GE]

SPECIAL NEEDS POPULATIONS II
DH 251 1 Credit 11 hours of lecture
Researching academic, behavioral, and clinical techniques to determine the performance necessary in all phases of patient treatment for a population with special needs. In-depth independent research on a special needs population, as it relates to dental hygiene care. Prerequisite: Consent of the Dental Hygiene Program. [GE]

SPECIAL NEEDS POPULATIONS III
DH 252 1 Credit 11 hours of lecture
Expansion of the research in academic, behavioral, and clinical techniques through the development and presentation of a table clinic in order to determine the performance necessary in all phases of patient treatment for a population with special needs. Prerequisite: Consent of the Dental Hygiene Program. [GE]

SPECIAL NEEDS POPULATIONS IV
DH 253 1 Credit 11 hours of lecture
Focus on behavioral and clinical techniques through case studies and reflection in order to appreciate issues surrounding access to care for patients with special needs. Prerequisite: Consent of the Dental Hygiene Program.

ETHICS AND PRACTICE MANAGEMENT
DH 263 1 Credit 11 hours of lecture
Legal and ethical issues related to dental hygiene and professional and patient relationships, professional associations, state dental hygiene practice acts, professional licensing, career alternatives, and lifelong learning. Prerequisite: Consent of the Dental Hygiene Program.

PERIODONTICS II
DH 271 2 Credits 22 hours of lecture
Etiological factors in the periodontal disease process including host response, contributing and risk factors, classifications of periodontal diseases, and HIV and periodontitis. Current methods used to assess and evaluate periodontal disease in a patient. Prerequisite: Consent of the Dental Hygiene Program.
PERIODONTICS III  
DH 272  2 Credits  22 hours of lecture  
Evidence-based periodontal disease treatment modalities including non-surgical and surgical procedures, modulation of the host response, antimicrobials, lasers, and reevaluation and maintenance procedures. Prerequisite: Consent of the Dental Hygiene Program.

SPECIAL PROJECTS  
DH 290  1 - 15 Credits  
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]

Diesel Technology

CUMMINS ENGINES  
DIES 096  3 Credits  33 hours of lecture  
Specialized training in Cummins engine theory, troubleshooting, tune-up, maintenance, repair, and safety.

DIESEL FUNDAMENTALS  
DIES 111  5 Credits  55 hours of lecture  
Introduction to diesel engine construction and principles of operation. Basics of physics and engineering as related to operation of diesel engines. Basic shop tools and safety. [GE]

DIESEL PROCEDURES  
DIES 112  10 Credits  55 hours of lecture  110 hours of lab  
Disassembly, inspection, assembly, and adjustment of various diesel engines used in highway and off-highway vehicles. Concurrent enrollment in DIES 111 recommended. [GE]

DIESEL ENGINES/FUEL SYSTEMS  
DIES 113  5 Credits  55 hours of lecture  
Repair, adjustment and testing procedures for diesel engines, components and systems. Introduction to fuel systems used and electronic controls used on modern diesel engines. Concurrent enrollment in DIES 113 recommended. [GE]

DIESEL PROCEDURES  
DIES 114  10 Credits  55 hours of lecture  110 hours of lab  
Test, adjust, and diagnostics of engines and maintenance practices. Concurrent enrollment in DIES 113 recommended. [GE]

DRIVE TRAINS  
DIES 115  5 Credits  55 hours of lecture  
Principles of operation and basic construction of drive train components used in on- and off-highway equipment. Concurrent enrollment in DIES 116 recommended. [GE]

DIESEL PROCEDURES  
DIES 116  10 Credits  55 hours of lecture  110 hours of lab  
Disassembly, inspection, assembly, and adjustments of drive train components. Concurrent enrollment in DIES 115 recommended. [GE]

BASIC ELECTRICAL  
DIES 120  3 Credits  22 hours of lecture  22 hours of lab  
Introduction to basic electrical fundamentals needed by technicians to diagnose and repair vehicle electrical systems. Concurrent enrollment in DIES 112. [GE]
ELECTRONIC ENGINE MANAGEMENT SYSTEMS
DIES 121 3 Credits 22 hours of lecture 22 hours of lab
Introduction to electronic engine management systems and emission technology. Concurrent enrollment in DIES 114. Prerequisite: A grade of “C” or better in DIES 120. [GE]

ELECTRONIC VEHICLE CONTROL SYSTEMS
DIES 122 3 Credits 22 hours of lecture 22 hours of lab
Introduction to electronic controls used in diesel and heavy equipment. Concurrent enrollment in DIES 116. Prerequisite: A grade of “C” or better in DIES 120. [GE]

INDUSTRIAL HYDRAULICS
DIES 135 3 Credits 33 hours of lecture
Hands-on experience in recognizing, using, and troubleshooting hydraulic pumps, valves, motors, filters, hoses, piping, and fittings in hydraulic systems. [GE]

COOPERATIVE WORK EXPERIENCE
DIES 199 1 - 5 Credits 165 hours of clinical
Supervised work experience in an approved job. Completion of specific learning objectives and employer evaluation. Completion of, or concurrent enrollment in, HDEV 195, 198, or 200 required. Prerequisite: Consent of Instructional Unit. [GE]

ELECTRICAL/ELECTRONIC SYSTEMS
DIES 221 5 Credits 55 hours of lecture
Charging, starting, lighting, and control circuits and components used on heavy equipment and highway trucks. Concurrent enrollment in DIES 222 recommended. [GE]

DIESEL PROCEDURES
DIES 222 6 Credits 33 hours of lecture 66 hours of lab
Repair and maintenance of diesel and heavy equipment. Students will participate in customer repair projects. Concurrent enrollment in DIES 221 recommended. [GE]

HYDRAULIC SYSTEMS
DIES 223 5 Credits 55 hours of lecture
Theory and principles of operation of mobile hydraulic systems. Concurrent enrollment in DIES 224 recommended. [GE]

DIESEL PROCEDURES
DIES 224 10 Credits 55 hours of lecture 110 hours of lab
Repair and maintenance of diesel and heavy equipment. Students will participate in customer repair projects. Concurrent enrollment in DIES 223 recommended. Prerequisite: DIES 222 or consent of Instructional Unit. [GE]

BRAKES, STEERING, AND SUSPENSION
DIES 225 5 Credits 55 hours of lecture
Hydraulic and air brake systems, steering and suspension used on highway trucks, and heavy equipment. Concurrent enrollment in DIES 226 recommended. [GE]

DIESEL PROCEDURES
DIES 226 10 Credits 55 hours of lecture 110 hours of lab
Repair and maintenance of diesel and heavy equipment. Students will participate in customer repair projects. Concurrent enrollment in DIES 225 recommended. Prerequisite: DIES 224 or consent of Instructional Unit. [GE]

SELECTED TOPICS
DIES 280 1 - 5 Credits 55 hours of lecture
The course focuses on selected topics in Diesel. Topics vary, and course theme and content change to reflect new topics. Because the course varies in content, it is repeatable for credit for different topics. Individual topics are listed in the quarterly class schedule. [GE]
SPECIAL PROJECTS
DIES 290 1 - 5 Credits
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit required. [GE]

Drama

INTRO TO THEATRE
DRMA&101 3 Credits 33 hours of lecture
Overview of theatre. Roles of the actor, director, designers, and playwrights. Evolution of theatre through the ages. [HA, SE]

ACTING I - DRAMA
DRMA 140 4 Credits 33 hours of lecture 22 hours of lab
Techniques and principles of acting. [HB, SE]

ACTING II - THEATRE
DRMA 141 4 Credits 33 hours of lecture 22 hours of lab
Continuation of DRMA 140. Emphasis on scene study, characterization, and period styles of acting. Prerequisite: DRMA 140 (or THEA 140). [HB, SE]

ACTING III - TELEVISION
DRMA 142 3 Credits 22 hours of lecture 22 hours of lab
Techniques for television and film performance. Basic production realities relevant to actors. Students will perform before the cameras and, when possible, work behind them. Prerequisite: A grade of “C” or better in DRMA 140 (or THEA 140). [HB, SE]

CHILDREN’S THEATRE I
DRMA 143 5 Credits 22 hours of lecture 66 hours of lab
College students performing for children. Examine, produce, perform, and tour a play for children. Performances styles for children, touring scenery techniques, and tour management. Formerly THEA 143. [HB, SE]

CHILDREN’S THEATRE II
DRMA 144 5 Credits 22 hours of lecture 66 hours of lab
College students performing for children. Examine, produce, perform, and tour a play for children. Performance styles for children, touring scenery techniques, and tour management. Prerequisite: DRMA 143 (or THEA 143). [HB, SE]

CHILDREN’S THEATRE III
DRMA 145 5 Credits 22 hours of lecture 66 hours of lab
College students performing for children. Examine, produce, perform, and tour a play for children. Performance styles for children, touring scenery techniques and tour management. Prerequisite: DRMA 144 (or THEA 144). [HB, SE]

BASIC STAGECRAFT
DRMA 150 4 Credits 22 hours of lecture 22 hours of lab
Principles and techniques of scenery construction and painting. Students will also learn the use of shop tools. [HB, SE]

STAGE MAKE-UP
DRMA 152 3 Credits 33 hours of lecture
Design and application of stage make-up. Formerly THEA 152. [HB, SE]
PLAY PRODUCTION AND PERFORMANCE I
DRMA 171 2 Credits 44 hours of lab
Practical experience with varied aspects of actual theatrical production. Acting, directing, scene construction, lighting, makeup and publicity. Class will begin the third week of the quarter. [HB, SE]

PLAY PRODUCTION AND PERFORMANCE II
DRMA 172 2 Credits 44 hours of lab
Practical experience with varied aspects of actual theatrical production. Acting, directing, scene construction, lighting, makeup and publicity. Class will begin the third week of the quarter. Prerequisite: DRMA 171 (or THEA 171). [HB, SE]

PLAY PRODUCTION AND PERFORMANCE III
DRMA 173 2 Credits 44 hours of lab
Practical experience with varied aspects of actual theatrical production. Acting, directing, scene construction, lighting, makeup and publicity. Class will begin the third week of the quarter. Prerequisite: DRMA 172 (or THEA 172). [HB, SE]

COOPERATIVE WORK EXPERIENCE
DRMA 199 1 - 5 Credits 165 hours of clinical
Supervised work experience in the community, completion of specific learning objectives and employer evaluation. Completion of, or concurrent enrollment in, HDEV 195, 198, or 200 required. Prerequisite: Consent of Instructional Unit. [GE]

IMPROVISATION FOR LIFE AND THEATER
DRMA 240 4 Credits 33 hours of lecture 22 hours of lab
Introduction to theater improvisation techniques for the stage as well as business, educational, and therapeutic settings. Topics cover role plays, theater games, ice breakers, and storytelling. Activities include lecture, demonstration, exercise, and performance. Students both lead and participate in these activities. Students build skills in creativity, spontaneity, facilitation, collaboration, performance, problem-solving, and positive, whole-brained thinking. No acting or improv experience necessary. [HB, SE]

CHILDREN'S THEATRE IV
DRMA 243 5 Credits 22 hours of lecture 66 hours of lab
Study, produce and perform a play for children. Performance styles for children, touring scenery techniques and tour management. Prerequisite: DRMA 145 (or THEA 145). [HB, SE]

CHILDREN'S THEATRE V
DRMA 244 5 Credits 22 hours of lecture 66 hours of lab
Study, produce and perform a play for children. Performance styles for children, touring scenery techniques and tour management. Prerequisite: DRMA 243 (or THEA 243). [HB, SE]

CHILDREN'S THEATRE VI
DRMA 245 5 Credits 22 hours of lecture 66 hours of lab
Study, produce and perform a play for children. Performance styles for children, touring scenery techniques and tour management. Prerequisite: DRMA 244 (or THEA 244). [HB, SE]

STAGE LIGHTING DESIGN
DRMA 250 3 Credits 33 hours of lecture
Techniques and principles of stage and TV lighting design. Use of instruments and light control systems with a special emphasis on computerized light control. [HB, SE]

PLAY PRODUCTION AND PERFORMANCE IV
DRMA 271 2 Credits 44 hours of lab
Practical experience with varied aspects of actual theatrical production. Acting, directing, scene construction, lighting, makeup and publicity. Class will begin the third week of the quarter. Prerequisite: DRMA 173 (or THEA 173). [HB, SE]
PLAY PRODUCTION AND PERFORMANCE V  
DRMA 272  2 Credits  44 hours of lab  
Practical experience with varied aspects of actual theatrical production. Acting, directing, scene construction, lighting, makeup and publicity. Class will begin the third week of the quarter. Prerequisite: DRMA 271 (or THEA 271). [HB, SE]

PLAY PRODUCTION AND PERFORMANCE VI  
DRMA 273  2 Credits  44 hours of lab  
Practical experience with varied aspects of actual theatrical production. Acting, directing, scene construction, lighting, makeup and publicity. Class will begin the third week of the quarter. Prerequisite: DRMA 272 (or THEA 272). [HB, SE]

SELECTED TOPICS  
DRMA 280  1 - 3 Credits  33 hours of lecture  
Varying topics in theatre, as listed in the quarterly class schedule. May be repeated for credit. [SE]

SPECIAL PROJECTS  
DRMA 290  1 - 5 Credits  
Opportunity to plan, organize and complete special projects approved by the department in the areas of stage direction, scene lighting, costume design, make-up design, production or theatre history. Prerequisite: Consent of Instructional Unit. [GE]

---

**Early Childhood Education**

**CHILD DEVELOPMENT: BIRTH TO SIX**  
ECE 100  3 Credits  33 hours of lecture  
Online course in child growth and development from birth to age six years, including physical, emotional, cultural, cognitive, and creative age-related changes. Application to early childhood programs in centers and homes. [GE]

**SCIENCE AND MATHEMATICS FOR YOUNG CHILDREN**  
ECE 102  3 Credits  33 hours of lecture  
Explores the theories, issues and applications of science and math concepts in activities and environments for preschool aged children. Investigates the strategies of teaching through the discovery and use of science and math curriculums in their surroundings. [GE]

**INDIVIDUALIZED INSTRUCTION I**  
ECE 105  2 Credits  22 hours of lecture  
Theories and practices for inclusive early childhood education programs. Explores personal perceptions of disabilities and commonly held biases and the impact of environmental influences on ability. Prerequisite: EDUC& 203 (or ECE 104). [GE]

**INTRO EARLY CHILD ED**  
ECED&105  5 Credits  55 hours of lecture  
Overview of the foundations of early childhood education. Examine theories defining the field, issues and trends, best practices, and program models. Observe children, professionals, and programs in action. Concurrent enrollment in ECED& 120. Prerequisite: Students must be cleared through the Washington State Department of Early Learning to volunteer with young children. Students must show evidence of a current TB test.

**INDIVIDUALIZED INSTRUCTION II**  
ECE 106  2 Credits  11 hours of lecture  22 hours of lab  
Theories and practices for inclusive early childhood programs. Documents a student’s interests, strengths, and needs and develops an inclusion plan that supports those areas. Prerequisite: ECE 105. [GE]
HEALTH/NUTRITION/SAFETY
ECED&107  5 Credits  55 hours of lecture
Develop knowledge and skills to ensure good health, nutrition, and safety of children in group care and education programs. Recognize the signs of abuse and neglect, responsibilities for mandated reporting, and available community resources. Students may not receive credit for both ECED& 107 and ECE 103 or FLFN 105.

EARLY CHILDHOOD EDUCATION WORKSHOPS
ECE 111  1 - 3 Credits  33 hours of lecture
In-service and special topic seminars for those currently working with groups of young children. Each 3-week session is offered for one credit. Students may take any or all of the sessions. A maximum of six credits of ECE 111 may be applied to major area requirements for a degree in Early Childhood Education. [GE]

LITERATURE AND STORYTELLING FOR CHILDREN
ECE 116  2 Credits  22 hours of lecture
Introduction to the value of storytelling and the use of literature as tools in the development of children. Literature and storytelling has the ability to speak to our "souls" and it is the intent of this class to reclaim for some and validate for others the value of literature as a tool with children and for ourselves. Through small and large group discussions as well as diverse experiences, co-learners will have an opportunity to develop an understanding of book selection, delivery styles, bibliotherapy, and community resources for acquiring literature and networking with professionals in the field of Early Childhood Education. [GE]

PRACTICUM - NURTURING RELATIONSHIPS
ECED&120  2 Credits  11 hours of lecture
Apply theories of best practice in an early learning setting. Focus on developing supportive relationships while keeping children healthy and safe. Students must be cleared through the Washington State Department of Early Learning to volunteer with young children. Students must show evidence of a current TB test. Concurrent enrollment in ECED& 105.

INFANTS/TODDLERS CARE
ECED&132  3 Credits  33 hours of lecture
Examine the unique developmental needs of infants and toddlers. Study the role of the caregiver, relationships with families, developmentally appropriate practices, nurturing environments for infants and toddlers, and culturally relevant care.

REFLECTIVE PRACTICES IN EARLY LEARNING
ECE 133  3 Credits  33 hours of lecture
A comprehensive overview and theoretical exploration of perspectives regarding multiple contexts including race, culture, ethnicity, language, class, gender, sexual orientation, atypical and typical abilities. Focus on biases that may impact learners' work as reflective practitioners working with children and families. Focus on effective anti-bias strategies. Meets General Education transfer requirements. [GE]

FAMILY CHILD CARE
ECED&134  3 Credits  33 hours of lecture
Learn the basics of home/family child care program management. Topics include licensing requirements, business management, relationship building, health, safety, and nutrition, guiding behavior and promoting growth and development.

PARTNERSHIPS WITH FAMILIES IN EARLY CARE & E
ECE 135  3 Credits  33 hours of lecture
Developing effective partnerships with families in early care and education programs. Topics include family-centered theories and practices related to welcoming families and building relationships, communicating, working through conflicts, honoring diversity, family involvement and support, and parent education. [GE]
**ADMIN EARLY LRNG PROG**
ECED&139  3 Credits  33 hours of lecture
An overview of components necessary for child care personnel (family child care providers and center directors) to open, operate, and manage early learning programs that meet licensing, accreditation and other quality standards with a focus on program and administration and operations.

**CURRICULUM DEVELOPMENT**
ECED&160  5 Credits  55 hours of lecture
An investigation of learning theory and its relationship to curriculum development for young children. Students will focus on methods for planning and evaluating developmentally appropriate curriculum to facilitate development in the areas of language, fine/gross motor, social-emotional, cognitive and creative expression based on the interests and cultures of families and children. Prerequisite: ECED& 105, ECED& 120, EDUC& 130, ECE 133 and ECE 132.

**ENVIRONMENTS - YOUNG CHILD**
ECED&170  3 Credits  33 hours of lecture
This course will offer a broad perspective and exploration of planning physical space appropriate to children's cognitive, physical, and socio-emotional development. Students will develop an understanding of the role of environments on children's learning and behavior including schedules, materials, room arrangement, and center-based learning. We will learn to incorporate aspects of diversity and inclusion through the environment.

**LANG/LITERACY DEVELOP**
ECED&180  3 Credits  33 hours of lecture
Teaching strategies for language acquisition and literacy skill development examined at each developmental stage (birth-age 8) through the four interrelated areas of speaking, listening, writing, and reading.

**OBSERVATION/ASSESSMENT**
ECED&190  3 Credits  33 hours of lecture
Practice collecting and presenting observation data of children, teaching practices and learning centers in an early childhood setting.

**COOPERATIVE WORK EXPERIENCE**
ECE 199  1 - 5 Credits  165 hours of clinical
Supervised work experience in an approved job. Completion of specific learning objectives and employer evaluations. Completion of, or concurrent in, HDEV 195, 198, or 200 required. Prerequisite: ECE 121, 209 and 210, and consent of Instructional Unit. [GE]

**LEARNING EXPERIENCES FOR YOUNG CHILDREN II**
ECE 211  3 Credits  33 hours of lecture
Further develop curriculum planning processes with a special emphasis on scheduling and project approach planning using observations of children's play and knowledge of child development. Areas of study include science, math, group experiences, music/movement, and outdoors. Conduct case studies and provide peer support and feedback. Concurrent enrollment in ECE 212 required. Prerequisite: ECE 209, or consent of Instructional Unit. [GE]

**LEARNING EXP FOR YOUNG CHILDREN II LAB**
ECE 212  3 Credits  66 hours of lab
Lab experience in Early Childhood Education Laboratory School. Plan, implement and analyze plans in relation to relevant topics in ECE 211. Concurrent enrollment in ECE 211 required. Prerequisite: ECE 210, or consent of Instructional Unit. [GE]

**LEARNING EXPERIENCES FOR YOUNG CHILDREN III**
ECE 213  3 Credits  33 hours of lecture
Further develop curriculum planning processes with special emphasis on emergent and integrated thematic approaches while applying knowledge of multiple intelligences. Areas of study include parent/teacher relationships, teacher development stages, staff communication and relationships. In-depth study of individual and cultural
diversity as related to knowledge of child development. Concurrent enrollment in ECE 214 required. Prerequisite: ECE 211, or consent of Instructional Unit. [GE]

**LEARNING EXP FOR YOUNG CHILDREN III LAB**
ECE 214 3 Credits 66 hours of lab
Lab experiences in Early Childhood Education Laboratory School. Plan, implement and analyze plans in relation to relevant topics in ECE 213. Concurrent enrollment in ECE 213 required. Prerequisite: ECE 212, or consent of Instructional Unit. [GE]

**EARLY CHILDHOOD SEMINAR**
ECE 215 2 Credits 22 hours of lecture
Seminar on professionalism, ethics and issues in teaching and administration. Concurrent enrollment in ECE 199, 15 hours per week required as field placement for students in teaching degree program. Prerequisite: ECE 214, or consent of Instructional Unit. [GE]

**SELECTED TOPICS**
ECE 280 1 - 3 Credits 33 hours of lecture
Selected topics in Early Childhood Education as listed in the quarterly class schedule. May be repeated for credit. [GE]

**SPECIAL PROJECTS**
ECE 290 1 - 3 Credits
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]

---

**Economics**

**INTRODUCTION TO ECONOMICS**
ECON 101 3 Credits 33 hours of lecture
Survey of economics. Key topics include current economic issues and processes related to ways individuals, groups, and whole societies produce, distribute, and utilize economic resources. This course is good preparation for the advanced Microeconomics and Macroeconomics courses. Credit not allowed for both Economics 101 and Economics 110. [SE, SS]

**INTRODUCTION TO THE GLOBAL ECONOMY**
ECON 110 5 Credits 55 hours of lecture
Introduction to economic concepts and their use in the global economy. Topics include basic microeconomics and macroeconomics, international trade, balance of payments, exchange rates, international institutions, energy, war, and terrorism. Intended for economics and non-economics majors. This course is an alternative for Economics 101, with additional topics including in-depth study of international economic issues. Credit not allowed for both Economics 101 and Economics 110. [SE, SS]

**INTERNATIONAL ECONOMICS**
ECON 120 3 Credits 33 hours of lecture
International economics, for both economics majors and non-economic majors, emphasizes the fundamental economic concepts for understanding today's global economy. Topics include the basic concepts and tools of international economic analysis, including trade, trade policy, trading blocs, protectionism, exchange rate determination, managing currencies, multi-national corporations, labor, developing countries, and the environment. Prerequisite: A grade of “C” or better in ECON 101. [SE, SS]

**MICRO ECONOMICS**
ECON&201 5 Credits 55 hours of lecture
Essential market processes, structures, issues, and variables governing how individuals, firms and governmental entities allocate resources, produce and distribute goods and services, determine prices, evaluate trade-offs and effectively compete and grow. Prerequisite: ECON 101 or MATH 095 or consent of Instructional Unit. [SE, SS]
MACRO ECONOMICS  
ECON&202  5 Credits  55 hours of lecture  
Broad economic principles, issues, structures, processes, and variables governing the dynamics of the United States and global economies. Problems of economic organization, market processes, role of government in the economy and society, money and banking processes and issues, measurement and determination of economic aggregates, fiscal and monetary policies, economic growth and development and international trade. Prerequisite: ECON 101 or MATH 095 or consent of Instructional Unit. [SE, SS]

SELECTED TOPICS  
ECON 280  1 - 5 Credits  55 hours of lecture  
Focus on selected topics in Economics. Because the course varies in theme and content, it is repeatable for credit. [GE, SE]

SPECIAL PROJECTS  
ECON 290  1 - 5 Credits  
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]

---

Education

CHILD DEVELOPMENT  
EDUC&115  5 Credits  55 hours of lecture  
Build a functional understanding of the foundation of child development, prenatal to early adolescence. Focus on the physical, social, emotional, and cognitive development of children, reflective of cross cultural and global perspectives. Develop skills in: observing and documenting child growth and development, identifying theory in practice, and critical reflection of assumptions.

GUIDING BEHAVIOR  
EDUC&130  3 Credits  33 hours of lecture  
Developing observational and interpretive skills in the guidance of young children. Specific approaches and guidance techniques. Focus on communication and negotiation skills. Curriculum planning from a developmental multicultural perspective.

SCHOOL AGE CARE  
EDUC&136  3 Credits  33 hours of lecture  
Develop skills to provide developmentally appropriate and culturally relevant activities and care, specifically, preparing the environment, implementing curriculum, building relationships, guiding academic/social skill development, and community outreach.

CHILD/FAMILY/COMMUNITY  
EDUC&150  3 Credits  33 hours of lecture  
An ecological perspective of the family and the socialization of children. Areas of focus include an examination of family structures, historical and economic perspectives, stressors, family dynamics and culture and the resulting impact on families participating in early childhood programs. Students may not receive credit for both ECE 202 and EDUC& 150. [HR]

COOPERATIVE WORK EXPERIENCE  
EDUC 199  1 - 5 Credits  165 hours of clinical  
Supervised work experience in education. Completion of specific learning objectives and employer evaluation. Completion of, or concurrent enrollment in, HDEV 195, 198, or 200 required. Prerequisite: Consent of Instructional Unit. [GE]
INTRODUCTION TO EDUCATION
EDUC&201 3 Credits 33 hours of lecture
Overview of education as a discipline, a philosophy, and a profession. Recommended for future teachers and para-
educators. Concurrent enrollment in EDUC 210 required. [SE]

EXCEPTIONAL CHILD
EDUC&203 3 Credits 33 hours of lecture
Introduction to various topics regarding children with special needs and exploration of concepts of inclusion and
individualized instruction. [GE]

INTRODUCTORY FIELD EXPERIENCE
EDUC 210 3 Credits 11 hours of lecture 44 hours of lab
Orientation to teaching and life in the American system of schooling. Supervised volunteer field experience with a
weekly, one-hour seminar. Concurrent enrollment in EDUC& 201 required. [GE]

Emergency Medical Technician (EMT)

EMERGENCY MEDICAL TECHNICIAN - BASIC
EMT 103 10 Credits 66 hours of lecture 66 hours of lab
120 hours of training in emergency procedures and 10 hours of in-hospital observation. Each lesson provides for
supervised practice of skills taught in that lesson. As required by the DOT, this course is under the supervision of a
physician and lay-coordinator. Meets the requirements of State EMT certification. Must be 18 years of age and have
proof of current Healthcare Provider Level CPR (CPR 032) or acquire within the first two weeks of the course.
Immunizations must be up-to-date. Students must purchase text available at Clark College Bookstore. Bring text to
class. [GE]

Engineering

HP GRAPHING CALCULATOR
ENGR 080 1 Credit 11 hours of lecture
Basic and advanced calculator function. Graphing matrices, statistics, conversions, programming and directories are
included. Additional topics are covered as required. Developed to help students become more proficient using their
HP calculators. Prerequisite: “C” or better in MA TH 030. [SE]

ENGINEERING AND COMPUTER SCIENCE ORIENTATION
ENGR 101 1 Credit 22 hours of lab
Orientation for students interested in Engineering and Computer Science. Topics include effective planning, com-
munication, teamwork, and exposure to Engineering and Computer Science educational/career opportunities and
challenges. Credit not allowed for both ENGR 101 and CSE 101. [SE]

INTRODUCTION TO DESIGN
ENGR&104 5 Credits 44 hours of lecture 33 hours of lab
Introduction to the engineering method of problem solving through guided Engineering design projects. Focus on
developing group skills, understanding the effects of different learning styles, producing strategies for innovation,
and fostering creativity in problem solving. Cannot receive credit for both ENGR& 104 and PHSC 104. [NS, SE]

INTRO TO AEROSPACE ENGINEERING
ENGR 107 2 Credits 11 hours of lecture 22 hours of lab
Introduction to general aerospace industry topics: lift, drag, propulsion, performance, stability and control, design,
and testing. Includes a team approach to design activities such as paper aircraft design and high powered rocket
construction. Prerequisite: ENGR& 104 (or ENGR 110) or consent of Instructor. [SE]
INTRODUCTION TO ENGINEERING
ENGR 109  5 Credits  55 hours of lecture
Introduction to the engineering profession: its branches, principles, and practices. Engineering problem-solv-
ing, methods of analysis and design, and an introduction to engineering fundamentals. Prerequisite: MATH 103 or equivalent, and completion of, or concurrent enrollment in MATH 111 or equivalent. [SE]

ENGINEERING SKETCHING AND VISUALIZATION
ENGR 113  2 Credits  11 hours of lecture  22 hours of lab
Engineering communication and graphics through freehand sketching. Visualization and development of ortho-
graphic theory, scales, and lettering. Prerequisite: A grade of “C” or better in MATH 095. [SE]

GEOMETRIC DIMENSIONING AND TOLERANCING
ENGR 115  2 Credits  11 hours of lecture  22 hours of lab
Basics of geometric dimensioning and tolerancing: what it is and why use it, GDT symbols and their use, maximum and least material conditions, datums, and geometric characteristics. AutoCAD will be used to dimension drawings using GDT. Prerequisite: A grade of “C” or better in ENGR 113 and either ENGR 140 or ENGR 150. [SE]

INTRO TO ELECTRICAL/COMPUTER SCI & ENGINEERING
ENGR 120  5 Credits  44 hours of lecture  33 hours of lab
Introduction to electrical engineering, computer science and engineering processes, principles, problem-solving techniques, and contemporary tools. Application of in-class learning to hands-on projects and exploration of current industry trends and implications. Prerequisite: A grade of “C” or better in MATH 103. [SE]

FIELD SURVEY I
ENGR 121  5 Credits  33 hours of lecture  44 hours of lab
Basic theory of surveying, measurement and calculation. Topics include: measurement and determination of boundaries, areas, and shapes; location through traversing techniques; error theory; compass adjustments; public land system; use of programmable calculators; and principles of measurements of distances, elevation and angles. Concurrent enrollment in ENGR 121 lab required. Prerequisite: A grade of “C” or better in MATH& 151 (or MATH 113). [SE]

BASIC SOLIDWORKS
ENGR 150  4 Credits  16 hours of lecture  55 hours of lab
Parametric solids modeling with SolidWorks, covering the breadth of the software at a basic level. Create part, assembly, and drawing files, including design tables and multiple configurations. Recommended for anyone with good computer skills. [SE]

COOPERATIVE WORK EXPERIENCE
ENGR 199  1 - 5 Credits  165 hours of clinical
Supervised work experience in an approved job. Completion of specific learning objectives and employer evaluation. Completion of, or concurrent enrollment in, HDEV 195, 198, or 200. Prerequisite: Consent of Instructional Unit. [GE]

ELECTRICAL CIRCUITS
ENGR&204  5 Credits  44 hours of lecture  33 hours of lab
Basic concepts of AC and DC electrical circuits. Analyze and design voltage and current relationships for series and parallel RLC circuit. Use of Kirchhoff’s laws, Thevenin/Norton theorems, Operational Amplifier circuits, and Step/Natural/Steady-State circuit response. Use of test and measurement equipment in a laboratory setting. Prereq-
usite: MATH& 152 (or MATH 211). [SE]

STATICS
ENGR&214  5 Credits  55 hours of lecture
Solution of two and three dimensional vector systems using vector algebra notation and free-body diagrams. Friction, centroids, moment of inertia, radius of gyration, and loads involved in structures, machines, and trusses. Prerequisite: MATH& 152 (or MATH 211). [SE]
AUTOCAD CUSTOMIZATION
ENGR 214 3 Credits 11 hours of lecture 44 hours of lab
Advanced AutoCAD development. Customization and programming AutoLISP. Prerequisite: ENGR 114 or consent of Instructional Unit. [SE]

DYNAMICS
ENGR&215 5 Credits 55 hours of lecture
Kinematics and kinetics of particles, systems of particles and rigid bodies. Force/acceleration, work/energy and impulse/momentum problem solving techniques will be applied to two and three dimensional systems. Prerequisite: ENGR& 214 and MATH 152 or (ENGR 211 and MATH 211). [SE]

MATERIALS SCIENCE
ENGR 221 5 Credits 55 hours of lecture
Basic structure and properties of materials. Phase equilibrium and transformations. Mechanical properties, electronic structure, thermal, electrical, and magnetic properties. Prerequisite: CHEM& 142 (or CHEM 132). [SE]

THERMODYNAMICS
ENGR&224 5 Credits 55 hours of lecture
Explores the fundamentals of thermodynamics. Investigates the thermodynamic properties of matter with emphasis on ideal and real gases and introduces the concepts of heat and work. Defines the first and second laws of thermodynamics and explores their impact with examples. Uses thermodynamic cycles to apply the concepts of learned and relates the principles to applications. Prerequisite: MATH 211 and PHYS 201. [SE]

MECHANICS OF MATERIALS
ENGR&225 5 Credits 55 hours of lecture
Concepts of stress and strain for deformable objects. Axial, torsional and bending loading, combined loadings. Column loading and stability with other applied topics. Prerequisite: ENGR 211 or ENGR& 214, and MATH 211 or MATH& 152. [SE]

MANUFACTURING PROCESSES
ENGR 239 5 Credits 33 hours of lecture 44 hours of lab
Introduction to manufacturing processes, emphasizing methods and practices used when machining, welding, and fabricating metals and related materials. [SE]

APPLIED NUMERICAL METHODS FOR ENGINEERS
ENGR 240 4 Credits 33 hours of lecture 33 hours of lab
Numerical solutions to problems in engineering and science using modern scientific computing tools. Application of mathematical judgment in selecting computational algorithms and communicating results. Use of MATLAB programming for numerical computation. Completion or concurrent enrollment in MATH 215. Prerequisites: A grade of “C” or better in MATH& 153, ENGR 109, or ENGR 120, or consent of Instructional Unit.

DIGITAL LOGIC DESIGN
ENGR 250 5 Credits 44 hours of lecture 66 hours of lab
Digital logic design, testing and implementation, including Boolean Algebra, Karnaugh map and design of logic circuits to solve practical problems using sequential/combinational/synchronous/ asynchronous circuits, application of standard SSI/MSI/LSI logic systems, design/test/implement development cycle and Hardware Description Language (HDL). Cannot receive credit for both ENGR 237 and ENGR 250. Prerequisite: A grade of “C” or better in ENGR 120 (or CSE 120). [SE]

ELECTRICAL CIRCUITS AND SIGNALS
ENGR 252 5 Credits 44 hours of lecture 66 hours of lab
Continuation of Electrical Circuits. Analysis and design of RLC circuits in sinusoidal steady state, complex-frequency domain of linear and lumped parameter circuits, active/passive filter circuits, poly phase and two-port circuits. Application of Fourier series, Fourier transforms and computer tools in circuit analysis. Prerequisite: ENGR& 204 (or ENGR 251). [SE]
**SIGNALS AND SYSTEMS**
ENGR 253 5 Credits 44 hours of lecture 66 hours of lab
Concepts and applications in signal processing and linear system theory. Utilization of Fourier Analysis in both continuous and discrete time signals and systems. Role of sampling and the process of reconstructing a continuous-time signal from its samples and basics of communication systems. Application of Laplace transform and Z-transform. Prerequisite: ENGR 252. [SE]

**DIGITAL SYSTEMS AND MICROPROCESSORS**
ENGR 270 5 Credits 44 hours of lecture 33 hours of lab
Continuation of the Digital Design sequence. Covering synchronous/asynchronous state machines, shift registers, arithmetic circuits and devices, microprocessor internal and system architecture, design and subsystem interfacing, assembly language, and programmable logic devices, design for test, documentation standards, and use of computer-based tools. Prerequisite: A grade of “C” or better in ENGR 250. [SE]

**SELECTED TOPICS**
ENGR 280 1 - 5 Credits 55 hours of lecture
The course focuses on selected topics in Engineering. Topics vary, and course theme and content change to reflect new topics. Because the course varies in content, it is repeatable for credit for different topics. [SE]

**SPECIAL PROJECTS**
ENGR 290 1 - 6 Credits
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]

---

**English**

**WRITING FUNDAMENTALS**
ENGL 097 5 Credits 55 hours of lecture
Emphasis on writing complete, correct sentences and unified, coherent paragraphs and short essays. Learn to build writing skills through pre-writing, drafting, revising, and editing, and develop analytical habits of mind, reading comprehension strategies, and digital literacy skills. Short essays and selected readings will be assigned. Concurrent enrollment in READ 087 if score on college reading skills placement test recommends it. Prerequisite: Recommending score on college writing skills placement test (Compass 34-48) or recommendations of ABE instructor.

ENGL 098 5 Credits 55 hours of lecture
Emphasis on expository writing and increasing control of grammar and mechanics. Skills include summarizing and writing essays. Students develop skills through pre-writing, drafting, revising, and editing. In-class and out-of-class essays required. Prerequisite: A grade of “C” or better in ENGL 097, or recommending score on the College writing skills placement test for ENGL 098.

**ENGLISH COMPOSITION I**
ENGL&101 5 Credits 55 hours of lecture
Exposition and argument, emphasizing critical thinking in response to electronic and print texts. Focus on exploring, developing, and communicating ideas in a voice appropriate to the audience. Students strengthen skills through pre-writing, drafting, revising, and editing. In-class and out-of-class essays required. Prerequisite: A grade of “C” or better in ENGL 098 taken at 5 credits or recommending score on the writing skills placement test for ENGL 101. [C, SE]

**ENGLISH COMPOSITION II**
ENGL&102 5 Credits 55 hours of lecture
Continued studies in exposition and argument emphasizing the research paper. Focus on analysis and synthesis of electronic and print texts in the context of supporting the writer’s ideas with appropriate documentation. Students refine skills through pre-writing, drafting, revising, and editing. Prerequisite: A grade of “C” or better in ENGL 101. [C, SE]
ADVANCED ENGLISH COMPOSITION
ENGL 103 3 Credits 33 hours of lecture
Emphasis on composing essays on complex ideas of cultural importance. Assignments based on reading and re-
search in art, science, philosophy, and politics. Prerequisite: ENGL& 102 (or ENGL 102). [C, SE]

ENGLISH GRAMMAR
ENGL 105 5 Credits 55 hours of lecture
Description and analysis of the structure of English language, using traditional grammar and syntax. Designed to
fulfill the grammar requirement for English majors seeking Washington State teacher certification in English. [SE]

WRITING ABOUT FILM
ENGL 108 3 Credits 33 hours of lecture
Focus on writing effective research essays analyzing international films. Emphasis on the composition process and
the development of writing skills and evaluation sources, including prewriting, drafting, revising, editing, and docu-
menting. Introduction to film terminology and techniques and the major approaches used in writing essays about
films, including film history, national cinemas, genres, auteurism, and formalism, and ideological studies. Prerequi-
site: A grade of "C" or better in ENGL& 101. [C, SE]

WRITING ABOUT THE SCIENCES
ENGL 109 5 Credits 55 hours of lecture
Continued studies in writing expository essays, focusing on topics in the life sciences and physical sciences. Em-
phasis on critical reading of published scientific research and appropriate use of peer-reviewed journals to support
the writer’s ideas. Expanding academic writing skills of pre-writing, drafting, revising, editing, and documenting.
Prerequisite: A grade of "C" or better in ENGL& 101 (or ENGL 101). [C, SE]

COMPOSITION FOR LITERATURE
ENGL 110 5 Credits 55 hours of lecture
Continued studies in writing essays of exposition and argument emphasizing the interpretation of literature, with
focus on critical reading of literary texts using theories and appropriate use of documented sources to support the
writer’s ideas. Expanding academic writing skills of pre-writing, drafting, revising, editing, and documenting. Pre-
requisite: ENGL& 101 (ENGL 101). [C, SE]

CREATIVE WRITING
ENGL 121 3 Credits 33 hours of lecture
Students may restrict themselves to writing poetry, short stories, plays or may choose to work in several forms.
Helps students determine what they will say and how they will say it. Prerequisite: A grade of “B” or better in
ENGL 098, a grade of “C” or better in ENGL 099, or recommending score on the college writing skills placement
test for ENGL& 101 (ENGL 101). [HB, SE]

FICTION WRITING
ENGL 125 3 Credits 33 hours of lecture
Fundamentals of writing fiction with an emphasis on short fiction. Develops skills for critiquing student fiction.
Writing Workshop format. [HB, SE]

POETRY WRITING
ENGL 126 3 Credits 33 hours of lecture
Class discussion of student work, development of tools for self-criticism, and strategies for getting poetry pub-
lished. [HB, SE]

INTRODUCTION TO CREATIVE NONFICTION WRITING
ENGL 127 3 Credits 33 hours of lecture
An introduction to creative nonfiction writing, with an emphasis on writing from personal experience. Develop-
ment of polished pieces of nonfiction; class discussion of student writing; reading and discussion of examples of the
genre; writing exercises to develop key elements of craft; strategies for self-editing and revision. Forms of nonfiction
covered include memoir, literary journalism, and personal essay. [HB]
INTRODUCTION TO LITERATURE
ENGL 130  3 Credits  33 hours of lecture
An introduction to poetry, fiction, and dramatic literature, and to the language and principles of literary analysis. [HA, SE]

INTRODUCTION TO POETRY
ENGL 131  3 Credits  33 hours of lecture
Study of poetry, poetic forms, and the language and principles of literary analysis. [HA, SE]

INTRODUCTION TO DRAMATIC LITERATURE
ENGL 132  3 Credits  33 hours of lecture
Study of drama as both literature and theater, from historical, philosophical and artistic perspectives. [HA, SE]

INTRODUCTION TO FICTION
ENGL 133  3 Credits  33 hours of lecture
Study of fiction in both short story and novel form, including classic and contemporary examples. Introduction to the language and principles of literary analysis. [HA, SE]

INTRODUCTION TO TECHNICAL WRITING
ENGL 135  5 Credits  55 hours of lecture
Introduction to principles for developing work-world documents, with emphasis on writing business letters, memos, instructions, summaries, proposals, and informal reports. For students of all scientific, technical, and professional fields. Prerequisite: A grade of "C" or better in ENGL 098 taken at 5 credits, or recommending score on COMPASS. [C, SE]

WOMEN IN LITERATURE
ENGL 140  3 Credits  33 hours of lecture
Study of fiction, nonfiction, poetry, and drama written by women reflecting the female experience. [HA, SE]

SCIENCE FICTION AND FANTASY
ENGL 143  3 Credits  33 hours of lecture
Study of speculative fiction from fantasy to hard science with attempts to define its particular qualities and place in modern literature. [HA, SE]

DETECTIVE FICTION
ENGL 145  3 Credits  33 hours of lecture
Introduction to detective fiction, its typical styles and techniques, its interactive nature, and its capacity for social critique. Topics include early detective authors and the evolution of the popular image of the detective in American and British cultures. [HA, SE]

INTRODUCTION TO CLASSICAL MYTHOLOGY
ENGL 150  3 Credits  33 hours of lecture
Study of significant world myths, including their sources and literary expressions. [HA, SE]

THE BIBLE AS LITERATURE
ENGL 152  3 Credits  33 hours of lecture
Study of the varied genres of Biblical literature from literary, historical, and cultural perspectives. [HA, SE]

INTRODUCTION TO THE NOVEL
ENGL 156  3 Credits  33 hours of lecture
Study of the novel from historical, artistic, and thematic perspectives. Introduction to the language and principles of literary analysis. [HA, SE]

WRITING FOR THE WEB
ENGL 160  3 Credits  33 hours of lecture
A survey of best practices for creating reader-centered, purpose-driven web communications: problem solving through the writing process, designing for interactivity, collaborating with other creators and shareholders, measur-
ing and analyzing web metrics, and practicing legal and ethical standards. Prerequisite: A grade of "C" or better in ENGL& 101.

**COOPERATIVE WORK EXPERIENCE**  
ENGL 199 1 - 5 Credits 165 hours of clinical  
For students interested in careers that emphasize writing, co-op work experience offers credit for supervised work in writing-related jobs. Completion of, or concurrent enrollment in, HDEV 195, 198, or 200 required. Prerequisite: Consent of Instructional Unit. [GE]

**BUSINESS COMMUNICATIONS**  
ENGL 212 3 Credits 33 hours of lecture  
Developing proficiency in written and oral communications appropriate for business by composing, organizing, and editing letters, reports, memos, emails, and presentations from a variety of business cases and managerial interviews. Emphasis on team work, collaboration, diversity, intercultural communication, and the delivery of oral presentations, using specialized software. Same as BUS 211. Prerequisite: ENGL& 101 (ENGL 101) or consent of Instructional Unit. [C, GE, SE]

**TECHNICAL WRITING**  
ENGL&235 5 Credits 55 hours of lecture  
Study of advanced writing skills for typical work-world documents in a business/technical environment, with emphasis on document format, audience analysis, correspondence, formal and informal reports, research, and documentation. Prerequisite: A grade of “C” or better in ENGL& 101 or ENGL 135. [C, SE]

**INTRODUCTION TO QUEER LITERATURE**  
ENGL 254 3 Credits 33 hours of lecture  
An introductory survey of literature relevant to the gay, lesbian, bisexual, and trans communities and their historical predecessors from pre-modern times to the present. Prerequisite: College level reading and writing recommended. [HA, SE]

**WORLD LITERATURE**  
ENGL 260 3 Credits 33 hours of lecture  
Masterpieces of the Ancient World through the fourteenth century. Literature is read within its historical and cultural setting. Eligibility for ENGL& 101 (or ENGL 101) recommended. [HA, SE]

**WORLD LITERATURE**  
ENGL 261 3 Credits 33 hours of lecture  
Masterpieces from the fifteenth century through the eighteenth century. Literature is read within its historical and cultural settings. Eligibility for ENGL& 101 (or ENGL 101) recommended. [HA, SE]

**WORLD LITERATURE**  
ENGL 262 3 Credits 33 hours of lecture  
Masterpieces of world literature from the nineteenth century through the contemporary period. Literature is read within its historical and cultural settings. Eligibility for ENGL& 101 (or ENGL 101) recommended. [HA, SE]

**BRITISH LITERATURE**  
ENGL 264 3 Credits 33 hours of lecture  
Classics of British literature from the eighth to the seventeenth century. Literature is read within its historical and cultural settings. Eligibility for ENGL& 101 (or ENGL 101) recommended. [HA, SE]

**BRITISH LITERATURE**  
ENGL 265 3 Credits 33 hours of lecture  
Classics of British literature from the seventeenth to the nineteenth century. Literature is read within its historical and cultural setting. Eligibility for ENGL& 101 (or ENGL 101) recommended. [HA, SE]
BRITISH LITERATURE
ENGL 266 3 Credits 33 hours of lecture
Classics of British literature from the nineteenth century to the present. Literature is read within its historical and cultural settings. Eligibility for ENGL& 101 (or ENGL 101) recommended. [HA, SE]

AMERICAN MULTIETNIC LIT
ENGL 267 3 Credits 33 hours of lecture
Survey of American multiethnic writing from Civil Rights era to the present. Emphasis on writings as a “window” to American ethnic experience, culture, and history within larger American historical contexts, encouraging students to develop understanding of political, social, and historic climate as it helps shape and is shaped by literature. [HA, SE]

AMERICAN LITERATURE
ENGL 268 3 Credits 33 hours of lecture
Survey of American writing from the colonial period to the Civil War. Literature is read within its historical and cultural setting. Eligibility for ENGL& 101 (or ENGL 101) recommended. [HA, SE]

AMERICAN LITERATURE
ENGL 269 3 Credits 33 hours of lecture
Survey of American writing from the Civil War through World War I. Literature is read within its historical and cultural setting. Eligibility for ENGL& 101 (ENGL 101) recommended. [HA, SE]

AMERICAN LITERATURE
ENGL 270 3 Credits 33 hours of lecture
Survey of American writing from World War I to the present. Literature is read within its historical and cultural setting. Eligibility for ENGL& 101 (ENGL 101) recommended. [HA, SE]

PACIFIC NORTHWEST LITERATURE
ENGL 271 3 Credits 33 hours of lecture
Focus on writing from and about the Pacific Northwest to explore how the region is defined, imagined, and represented in literature, and the development of regionalism, national and regional histories and other identity-producing media. Eligibility for ENGL& 101 recommended.

INTRODUCTION TO SHAKESPEARE
ENGL 272 3 Credits 33 hours of lecture
Readings of selected tragedy, comedy and historical plays of Shakespeare. Eligibility for ENGL& 101 (ENGL 101) recommended. [HA, SE]

ADVANCED FICTION WRITING
ENGL 275 3 Credits 33 hours of lecture
Continuation of introductory creative writing courses. Advancement of the fundamentals of writing fiction with an emphasis on short fiction. Further development of skills for critiquing student fiction and participation in the larger literary world through publication, presentation, or other mediums. Writing workshop format. Prerequisite: A grade of “C” or better in ENGL 121, 122, 125, 126, or 127 or consent of Instructional Unit. [HB, SE]

ADVANCED POETRY WRITING
ENGL 276 3 Credits 33 hours of lecture
Continuation of ENGL 126. Further development of the principles of writing and marketing poetry. Prerequisite: A grade of “C” or better in one of the following: ENGL 121, 122, 123, or 126. [HB, SE]

INTRODUCTION TO LITERARY PUBLICATION
ENGL 277 3 Credits 33 hours of lecture
Introduction to publication strategies and editing of short fiction, poetry, and creative non-fiction. Topics include study of current literary journals to aid in building a vision for Clark’s art and literary journal, Phoenix, and work on production tasks related to Phoenix. Intended for Phoenix literary staff, creative writing students, and others interested in the literary publication and editing. Prerequisite: Eligibility for ENGL& 101. [HB]
SELECTED TOPICS
ENGL 280  1 - 3 Credits  33 hours of lecture
Course focuses on selected topics in English. Topics vary, and course theme and content change to reflect new topics. Because the course varies in content, it is repeatable for credit for different topics. [SE]

SPECIAL PROJECTS
ENGL 290  1 - 5 Credits
Opportunity to plan, organize, and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]

English as a Non-Native Language

INTERMEDIATE WRITING AND APPLIED GRAMMAR
ENL 081  4 Credits  44 hours of lecture
Skill building through exercises in grammar, writing responses to assigned readings, and planning, organizing, drafting, and revising sentences and paragraphs. Particular emphasis on correction and practice of sentence-level grammar. Intended for non-native English writers. Concurrent enrollment in Reading 081 and ENL 082 are strongly recommended for any student; concurrent enrollment required for international program students to maintain credit level unless alternatives are approved by International Programs office. Prerequisite: TOEFL iBT 32-39, TOEFL Paper 400-429, IELTS Level 4, Compass ESL 65-79, Compass Writing 13-33/Reading 31-52, or SLEP 42; or permission of department.

INTERMEDIATE ORAL COMMUNICATION
ENL 082  4 Credits  44 hours of lecture
Focus on appropriate oral communication skills both inside and outside the classroom. Pronunciation and grammar accuracy as well as fluency will be developed. Intended for non-native English speakers. Concurrent enrollment required in READ 081 and ENL 081 for international program students or approval by International Programs office. Prerequisite: TOEFL iBT 32-39, TOEFL Paper 400-429, IELTS Level 4, Compass ESL 65-79, Compass Writing 13-33/Reading 31-52, or SLEP 42; or permission of department.

ADVANCED WRITING AND APPLIED GRAMMAR
ENL 091  4 Credits  44 hours of lecture
Skills developed through exercises in grammar, writing responses to assigned readings, and planning, organizing, drafting, and revising paragraphs and basic essays. Particular emphasis on correction and practice of sentence-level grammar. Intended for non-native English writers. Concurrent enrollment in READ 083 and ENL 092 required for international students or approval by International Programs office. Prerequisite: A grade of “C” or better in ENL 081 or DVED 094; or TOEFL iBT 40-48, or TOEFL Paper 430-459, or IELTS Level 4.5, or STEP-Eiken Gr. 2, or Compass ESL 80-91, or Compass Writing 34-48; or permission of department.

ADVANCED ORAL COMMUNICATION
ENL 092  3 Credits  33 hours of lecture
Focus on appropriate oral communication skills for college-level classes. Pronunciation and grammar accuracy as well as fluency will be developed. Intended for non-native English speakers. Concurrent enrollment required for international program students or approval by International Programs office. Prerequisite: A grade of “C” or better in ENL 081 or DVED 094; or TOEFL iBT 40-48, or TOEFL Paper 430-459, or IELTS Level 4.5, STEP-Eiken Gr. 2, Compass ESL 80-91, or Compass 34-48; or permission of department.

UPPER ADVANCED GRAMMAR
ENL 100  3 Credits  33 hours of lecture
Grammar review and application to writing expository essays and informative summaries. Intended for non-native English writers. Topics include writing and editing complex sentences using appropriate language and academic style. Students must also enroll in ENGL 098; concurrent enrollment in ENGL 098 and ENL 100 required for international program students or approval by International Programs office. Prerequisite: A grade of “C” or better in ENL 091 or ENGL 097; one of the following entry scores: TOEFL iBT 49-60, TOEFL Paper 460-499, IELTS Level 5, Compass ESL 92-100, or Compass Writing 49-77; or permission of department. [GE]
COLLEGE GRAMMAR SUPPORT
ENL 101  3 Credits  33 hours of lecture
Grammar review and application to writing persuasive essays, informative summaries, and critiques of college-level academic articles. Intended for non-native English writers. Topics include writing and editing complex sentences using appropriate language and academic style. Students must be enrolled in ENGL& 101; concurrent enrollment in ENGL& 101 and ENL 101 required for international program students in Level D or approval by International Programs office. Prerequisite: A grade of “C” or better in ENGL 098; or TOEFL iBT 61-67, or TOEFL Paper 500-519, or IELTS Level 5.5, or SLEP 53+; or Compass Writing 78+ and Compass Reading below 74. [GE]

ESL SPECIAL TOPICS
ESL 005  1 - 10 Credits  88 hours of lecture  44 hours of lab
Variable topics in ESL and content to reflect the selected topics. Because the course varies in content, it is repeatable for credit for different topics. Individual topics are listed in the quarterly class schedule.

ESL LISTENING AND SPEAKING, LEVEL I
ESL 011  6 Credits  66 hours of lecture
ESL level 1 students will learn to comprehend the gist of short, face-to-face oral communications spoken at slower rates on familiar topics concerning family, community and work with a low level of ease through frequent use of repetition or rephrasing. Students completing this course will be able to speak well-rehearsed words and phrases in familiar, highly structured settings, with limited comprehensibility. Prerequisite: CASAS placement test score of 180 or below.

ESL READING AND WRITING, LEVEL I
ESL 012  6 Credits  66 hours of lecture
ESL level 1 students will learn to slowly and with some effort comprehend words in short, simple texts to accomplish simple, well-defined, structured reading activities. Students completing this course will be able to write individual words, simple phrases and very simple sentences slowly, but with some effort and errors, to accomplish highly structured writing activities in familiar, comfortable settings. Prerequisite: CASAS placement test score of 180 or below.

ESL LISTENING AND SPEAKING, LEVEL II
ESL 021  6 Credits  66 hours of lecture
ESL level 2 students will learn to comprehend the gist of simple, face-to-face oral communications completing highly structured tasks with pre-taught vocabulary, slow speech, and visual aids on familiar topics concerning family, community and work with some level of ease through frequent use of repetition or rephrasing. Students completing this course will be able to speak well-rehearsed phrases and simple sentences in familiar, highly structured settings, with occasional hesitation and inaccuracy. Prerequisite: ESL 011 and 012 or CASAS placement score of 181 to 190.

ESL READING AND WRITING, LEVEL II
ESL 022  6 Credits  66 hours of lecture
ESL level 2 students will learn to slowly comprehend words in small blocks of simple texts with some repetition and errors to independently accomplish simple, well-defined, structured reading activities. Students completing this course will be able to write simple sentences to independently accomplish highly structured writing activities in a few familiar, comfortable settings. Prerequisite: ESL 011 and 012 or CASAS placement score of 181 to 190.

ESL LISTENING AND SPEAKING, LEVEL III
ESL 031  6 Credits  66 hours of lecture
ESL level 3 students will learn to listen for structured, well-defined purposes to maintain personal conversations, acquire information or complete basic transactions in-person or in short telephone conversations with simplified language through frequent use of clarification strategies, using short, sometimes inaccurate utterances and a high level of visual or verbal support. Students completing this course will be able to speak with relative ease with some
inaccuracies or non-standard speech in familiar one-on-one settings. Prerequisite: ESL 021 and 022 or CASAS placement test score of 191 to 200.

**ESL READING AND WRITING, LEVEL III**
ESL 032 6 Credits 66 hours of lecture
ESL level 3 students will learn to comprehend small blocks of simple texts slowly but easily with few errors to independently accomplish simple, well-defined, structured reading activities. Students completing this course will be able to write several simple sentences on familiar topics, with some effort but with few errors, to independently accomplish simple, well-defined, structured writing activities in a few familiar, comfortable settings. Prerequisite: ESL 021 and 022 or CASAS placement test score of 191 to 200.

**ESL LISTENING AND SPEAKING, LEVEL IV**
ESL 041 6 Credits 66 hours of lecture
ESL level 4 students will learn to comprehend and respond to most basic background information, everyday transaction and simple routine tasks, but have difficulty understanding full details on less familiar topics. Students completing this course will be able to speak fluently and relatively accurately in familiar contexts with a moderately high level of support. Their speaking will usually be understood by a skilled, supportive listener. Prerequisite: ESL 031 and 032 or CASAS placement test score of 201 to 210.

**ESL READING AND WRITING, LEVEL IV**
ESL 042 6 Credits 66 hours of lecture
ESL level 4 students will learn to quickly and accurately read and comprehend words and word groups in multiple pages of simple text in familiar contexts to independently accomplish simple well-defined, structured reading and writing activities in a few familiar settings. Students completing this course will be able to write short, structured paragraphs on familiar topics with some effort but with few errors. Prerequisite: ESL 031 and 032 or CASAS placement test score of 201 to 210.

**ESL LISTENING AND SPEAKING, LEVEL V**
ESL 051 6 Credits 66 hours of lecture
ESL level 5 students will learn to comprehend relatively unstructured, moderate-length conversations and presentations in somewhat complex, unfamiliar situations with non-adjusted language understanding some main ideas, and details. Students completing this course will be able to speak fluently and accurately in some unfamiliar contexts with some support. Their speaking will generally be understood by a skilled, supportive listener. Prerequisite: ESL 041 and 042 or CASAS placement test score of 211 to 220.

**ESL READING AND WRITING, LEVEL V**
ESL 052 6 Credits 66 hours of lecture
ESL level 5 students will learn to read and comprehend a variety of texts at an appropriate pace and with good comprehension to independently accomplish structured reading activities in a variety of familiar settings. Students completing this course will be able to write simple narrative, informative, or expressive texts of a few short paragraphs and steps with some effort, but with few errors to independently accomplish well-defined, structured writing activities for varied audiences in familiar settings. Prerequisite: ESL 041 and 042 or CASAS placement test score of 211 to 220.

**ESL LEVEL 6A LISTENING AND SPEAKING**
ESL 061 6 Credits 66 hours of lecture
ESL level 6A students will learn to function relatively independently in many social and work situations comprehending relatively unstructured conversations requiring integration of some data sources with limited need for guidance. Students completing this course will be able to speak fluently and accurately in most contexts with minimal support. Their speaking will sometimes be understood by an unskilled, unsupportive listener. Prerequisite: ESL 051 and 052 or CASAS placement test score of 221 to 227.

**ESL LEVEL 6A READING AND WRITING**
ESL 062 6 Credits 66 hours of lecture
ESL level 6A students will learn to read and comprehend multipart texts at an appropriate pace with enough comprehension to independently accomplish structured, fairly complex reading activities in a variety of familiar and a few
novel settings. Students completing this course will be able to write a variety of texts including some complex sentence structures and multiple paragraphs with few errors for a variety of purposes independently accomplishing structured writing in familiar and a few novel settings. Prerequisite: ESL 051 and 052 or CASAS score of 221 to 227.

**ESL LEVEL 6B LISTENING AND SPEAKING**

ESL level 6B students will learn to function independently in most social and work situations and comprehend relatively complex and unstructured oral input at normal speed integrating and summarizing several data sources with limited need for guidance and few errors. Students completing this course will be able to speak fluently and accurately with most familiar and unfamiliar audiences with minimal support. Student speech can generally be understood by an unsupportive, unskilled listener despite student lack of full comfort and ease. Prerequisite: ESL 061 and 062 or CASAS placement test score of 228 to 235.

**ESL LEVEL 6B READING AND WRITING**

Learning field techniques for research in environmental science, interacting with scientists and others working in the field, and participating in the collection of research data. Topics include the interactions between scientists and other land managers in our natural environments. Projects vary depending on student interest and current work in...
the field area visited. Prerequisite: 5 credits in any Environmental Science, Geology or BIOL 101, 140, 141, 142, 143, 145, 150, 208, 221, 222, 223, 224 or BIOL& 100 with a grade of "C" or better, or consent of Instructional Unit. [SE]

**ENVIRONMENTAL SCIENCE: PROBLEM SOLVING**
ENVS 221 5 Credits 33 hours of lecture 44 hours of lab
Second of a three-course sequence in Environmental Science. Introduction to applied techniques in environmental science including: environmental sampling design and measurement, environmental assessment and mitigation, and environmental modeling and problem solving. Prerequisite: A grade of "C" or better in ENVS 211. [SE]

**ENVIRONMENTAL POLITICS**
ENVS 231 5 Credits 55 hours of lecture
Examines the relationship between industrial civilization and the natural environment by exploring underlying ecological philosophies and the economic and political processes by which environmental decisions are made. Emphasis on critical thinking and evaluating alternative points of view. [SE]

**SPECIAL PROJECTS**
ENVS 290 1 - 5 Credits
Opportunity to plan, organize, and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]

---

**Family Life - Parent & Child**

**INDEPENDENT LIVING**
FLPC 080 3 Credits 33 hours of lecture
Provides foster parents with the knowledge and skills necessary to assess the readiness of, and prepare adolescents for, independent living.

**PARENT AND INFANT**
FLPC 101 1 - 2 Credits 22 hours of lecture
Parent participation class for parents and their babies, newborn to walking. Includes discussions on infant development, child care practices, and parenting techniques. Guided interaction between parent and baby. Activities to stimulate baby’s development. Contact department before enrolling, 992-2393.

**PARENT AND INFANT**
FLPC 102 1 - 2 Credits 22 hours of lecture
Parent participation class for parents and their babies, newborn to walking. Includes discussions on infant development, child care practices, and parenting techniques. Guided interaction between parent and baby. Activities to stimulate baby’s development. Contact department before enrolling, 992-2393.

**PARENT/INFANT**
FLPC 103 1 - 2 Credits 22 hours of lecture
Parent participation class for parents and their babies, newborn to walking. Includes discussions on infant development, child care practices, and parenting techniques. Guided interaction between parent and baby. Activities to stimulate baby’s development. Contact department before enrolling, 992-2393.

**PARENT/TODDLER**
FLPC 111 1 - 2 Credits 22 hours of lecture
Toddlers ages 12-33 months attend classes one morning per week from 9:30-11:30 with their parent/caregivers. Classroom teachers design age appropriate learning experiences for the children and opportunities for parents to support their child's growing need for independence and exploration. Each interactive class includes a discussion time for parents with a family life instructor on topics such as child growth and development, guidance techniques, toilet learning, safety, health and nutrition and development activities. Two hours per week. Call 992-2393 to enroll.
PARENT/ TODDLER
FLPC 112 1 - 2 Credits 22 hours of lecture
Toddlers ages 12-33 months attend classes one morning per week from 9:30-11:30 with their parent/caregivers. Classroom teachers design age appropriate learning experiences for the children and opportunities for parents to support their child's growing need for independence and exploration. Each interactive class includes a discussion time for parents with a family life instructor on topics such as child growth and development, guidance techniques, toilet learning, safety, health and nutrition and development activities. Two hours per week. Call 992-2393 to enroll.

PARENT/ TODDLER
FLPC 113 1 - 2 Credits 22 hours of lecture
Toddlers ages 12-33 months attend classes one morning per week from 9:30-11:30 with their parent/caregivers. Classroom teachers design age appropriate learning experiences for the children and opportunities for parents to support their child's growing need for independence and exploration. Each interactive class includes a discussion time for parents with a family life instructor on topics such as child growth and development, guidance techniques, toilet learning, safety, health and nutrition and development activities. Two hours per week. Call 992-2393 to enroll.

PARENT/ TODDLER
FLPC 114 1 - 2 Credits 22 hours of lecture
Toddlers ages 12-33 months attend classes one morning per week from 9:30-11:30 with their parent/caregivers. Classroom teachers design age appropriate learning experiences for the children and opportunities for parents to support their child's growing need for independence and exploration. Each interactive class includes a discussion time for parents with a family life instructor on topics such as child growth and development, guidance techniques, toilet learning, safety, health and nutrition and development activities. Two hours per week. Call 992-2393 to enroll.

PARENT PARTICIPATION PRESCHOOL
FLPC 131 1 - 3 Credits 11 hours of lecture 44 hours of lab
Parent participation pre-school at Clark College offers children and their family members an opportunity to learn and grow together. Children from 33 months to 5 years of age are enrolled and attend 2-3 times per week. Parents participate in the classroom and learn about child development, facilitating children's learning and creating a parent support group. Parenting classes are offered that provide opportunity to learn about effective guidance, parenting strategies, child development and community building. Call 992-2393 to enroll. Fees may be paid in three payments. 1st payment due at registration.

PARENT PARTICIPATION PRESCHOOL
FLPC 132 1 - 3 Credits 11 hours of lecture 44 hours of lab
Parent participation pre-school at Clark College offers children and their family members an opportunity to learn and grow together. Children from 33 months to 5 years of age are enrolled and attend 2-3 times per week. Parents participate in the classroom and learn about child development, facilitating children's learning and creating a parent support group. Parenting classes are offered that provide opportunity to learn about effective guidance, parenting strategies, child development and community building. Call 992-2393 to enroll. Fees may be paid in three payments. 1st payment due at registration.

PARENT PARTICIPATION PRESCHOOL
FLPC 133 1 - 3 Credits 11 hours of lecture 44 hours of lab
Parent participation pre-school at Clark College offers children and their family members an opportunity to learn and grow together. Children from 33 months to 5 years of age are enrolled and attend 2-3 times per week. Parents participate in the classroom and learn about child development, facilitating children's learning and creating a parent support group. Parenting classes are offered that provide opportunity to learn about effective guidance, parenting strategies, child development and community building. Call 992-2393 to enroll. Fees may be paid in three payments. 1st payment due at registration.
PARENT PARTICIPATION PRESCHOOL
FLPC 134 1 - 3 Credits 11 hours of lecture 44 hours of lab
Parent participation preschool at Clark College offers children and their family members an opportunity to learn and grow together. Children from 33 months to 5 years of age are enrolled and attend 2-3 times per week. Parents participate in the classroom and learn about child development, facilitating children's learning and creating a parent support group. Parenting classes are offered that provide opportunity to learn about effective guidance, parenting strategies, child development and community building. Call 992-2393 to enroll. Fees may be paid in three payments. 1st payment due at registration.

PARENT COOPERATIVE PRESCHOOL
FLPC 135 1 - 3 Credits 11 hours of lecture 44 hours of lab
Preschool experiences for children. Practice in parenting skills. Parents serve as aides to the teacher in the classroom 4-5 times a quarter, work on committees, and attend monthly meetings. Children 2 1/2 - 6 participate in 2 1/2 hour classes. Contact department before enrolling, 992-2393. Credit varies with amount of parent participation.

PARENT COOPERATIVE PRESCHOOL
FLPC 136 1 - 3 Credits 11 hours of lecture 44 hours of lab
Preschool experiences for children. Practice in parenting skills. Parents serve as aides to the teacher in the classroom 4-5 times a quarter, work on committees, and attend monthly meetings. Children 2 1/2 - 6 participate in 2 1/2 hour classes. Contact department before enrolling, 992-2393. Credit varies with amount of parent participation.

PARENT COOPERATIVE PRESCHOOL
FLPC 137 1 - 3 Credits 11 hours of lecture 44 hours of lab
Preschool experiences for children. Practice in parenting skills. Parents serve as aides to the teacher in the classroom 4-5 times a quarter, work on committees, and attend monthly meetings. Children 2 1/2 - 6 participate in 2 1/2 hour classes. Contact department before enrolling, 992-2393. Credit varies with amount of parent participation.

EARLY INTERVENTION PARENT/CHILD PARTICIPATION
FLPC 141 1 Credit 6 hours of lecture 11 hours of lab
A participation class for parents/caregivers of children with developmental delays, ages birth to 36 months. This is a class designed to support parents/caregivers to meet the needs of their child through play and caretaking activities in the child's natural environment. Parents participate in the evaluation of their child's abilities and challenges and have learning opportunities through group meetings with other families receiving early intervention services as well as the activities in the overall Child and Family Studies program. This course is designed to provide learning opportunities in areas including child and family development, guidance techniques, developing appropriate expectations, health as well as specific information related to their child's needs.

EARLY INTERVENTION PARENT/CHILD PARTICIPATION
FLPC 142 1 Credit 6 hours of lecture 11 hours of lab
A participation class for parents/caregivers of children with developmental delays, ages birth to 36 months. This is a class designed to support parents/caregivers to meet the needs of their child through play and caretaking activities in the child's natural environment. Parents participate in the evaluation of their child's abilities and challenges and have learning opportunities through group meetings with other families receiving early intervention services as well as the activities in the overall Child and Family Studies program. This course is designed to provide learning opportunities in areas including child and family development, guidance techniques, developing appropriate expectations, health as well as specific information related to their child's needs.

EARLY INTERVENTION PARENT/CHILD PARTICIPATION
FLPC 143 1 Credit 6 hours of lecture 11 hours of lab
A participation class for parents/caregivers of children with developmental delays, ages birth to 36 months. This is a class designed to support parents/caregivers to meet the needs of their child through play and caretaking activities in the child's natural environment. Parents participate in the evaluation of their child's abilities and challenges and have learning opportunities through group meetings with other families receiving early intervention services as well as the activities in the overall Child and Family Studies program. This course is designed to provide learning op-
opportunities in areas including child and family development, guidance techniques, developing appropriate expectations, health as well as specific information related to their child’s needs.

**EARLY INTERVENTION PARENT/CHILD PARTICIPATION**

FLPC 144 1 Credit 6 hours of lecture 11 hours of lab

A participation class for parents/caregivers of children with developmental delays, ages birth to 36 months. This is a class designed to support parents/caregivers to meet the needs of their child through play and caretaking activities in the child’s natural environment. Parents participate in the evaluation of their child’s abilities and challenges and have learning opportunities through group meetings with other families receiving early intervention services as well as the activities in the overall Child and Family Studies program. This course is designed to provide learning opportunities in areas including child and family development, guidance techniques, developing appropriate expectations, health as well as specific information related to their child’s needs.

**SINGLE PARENT SURVIVAL**

FLPC 161 1 Credit 11 hours of lecture

FLPC 162 1 Credit 11 hours of lecture

FLPC 163 1 Credit 11 hours of lecture

**PARENTING WORKSHOPS**

FLPC 164 1 Credit 11 hours of lecture

Seminars on a variety of parenting topics including guidance, creativity, development, relationships, enrichment activities for children and health and nutrition.

**PRINCIPLES OF CHILD GUIDANCE**

FLPC 268 2 Credits 22 hours of lecture

Effecting family relationships through principles of child management. Theory and practical applications, lecture-demonstrations of family counseling techniques. Parent and child groups.

---

**Fire Prevention**

**FUNDAMENTALS OF FIRE PREVENTION**

FIRE 105 3 Credits 33 hours of lecture

Introduces fundamental knowledge relating to the field of fire prevention. Topics include: history and philosophy of fire prevention; organization and operation of a fire prevention bureau; use and application of codes and standards; plans review; fire inspections; fire and life safety education; and fire investigation.
First Aid and CPR

FIRST AID AND HEALTH CARE PROVIDER CPR
FACPR032 1 Credit 5 hours of lecture
First aid and cardiopulmonary resuscitation, for health care providers as required by the Washington Occupation and Health Act. Designed specifically for health care providers. Students are required to purchase the required text and workbook (available at Clark College Bookstore) and bring to class.

Fitness Trainer

FITNESS TRAINER SEMINAR
FT 101 1 Credit 11 hours of lecture
Career exploration course focusing on gaining insight into the roles, professional duties, and responsibilities of fitness/health professionals across the fitness industry. [GE]

FUNDAMENTALS OF FITNESS
FT 150 3 Credits 22 hours of lecture 22 hours of lab
Basic principles of exercise science, exercise prescription and risk management for the fitness professional. [GE]

FITNESS CENTER SKILLS
FT 151 2 Credits 44 hours of lab
Develop skills related to exercise techniques and instruction focusing on cardio machines, weight machines and basic free weights. [GE]

FLEXIBILITY, POSTURE AND CORE
FT 152 2 Credits 44 hours of lab
Develop skills related to exercise assessment, technique and instruction focusing on flexibility, posture and core. Prerequisite: Concurrent enrollment in FT 150 or 250. [GE]

EXERCISE TECHNIQUES
FT 153 2 Credits 44 hours of lab
Develop skills related to exercise techniques and instruction focusing on running/sprinting form, introduction to plyometrics, and the use of body weight, dumbbells, elastic tubing, and stability balls for resistance training. Prerequisite: A grade of “C” or better in FT 151. [GE]

POWER DEVELOPMENT
FT 154 2 Credits 44 hours of lab
Develop skills related to exercise technique and instruction focusing on power, speed, agility and quickness. Prerequisite: A grade of “C” or better in FT 151. [GE]

GROUP FITNESS INSTRUCTOR
FT 155 2 Credits 44 hours of lab
Develop skills related to exercise technique and instruction focusing on group exercise training to music. Concurrent enrollment in FT 150, or completion of FT 260 and FT 220 with a grade of “C” or better. [GE]

YOGA TEACHING
FT 156 2 Credits 44 hours of lab
Introduction to the YogaFit method of teaching yoga. Students will learn physical execution, transitions, and modifications to traditional yoga poses with an emphasis on effectiveness and safety, as well as modifications for common special populations.

FLEXIBILITY, POSTURE & CORE II
FT 162 2 Credits 44 hours of lab
Builds on skills developed in FT 152, with an emphasis on preparing students to specialize in the area of corrective exercise. Prerequisite: A grade of “C” or better in FT 152.
NUTRITION FOR FITNESS
FT 200 3 Credits 33 hours of lecture
Develop strategies for encouraging nutritious eating and weight management. Discuss eating disorders. Explore performance nutrition and supplementation. Acquire a variety of diet and analysis tools to use with clients within the scope of practice for the personal trainer. Prerequisite: A grade of “C” or better in HLTH 100 and MATH 090 or 091 and FT 210. [GE]

WELLNESS COACHING
FT 210 3 Credits 22 hours of lecture 22 hours of lab
Develop collaborative communication style and motivational skills to help clients adopt healthier lifestyles. Prerequisite: A grade of “C” or better in CMST& 210 and FT 101. [GE]

FACILITY MANAGEMENT
FT 220 3 Credits 33 hours of lecture
Risk management in a fitness facility setting. Topics include liability, personnel, safety, facility layout, repair, and maintenance of fitness equipment. Students will receive First Aid/CPR/AED certification upon successful completion of the class. Prerequisite: A grade of “C” or better in FT 101. [GE]

FITNESS TESTING
FT 230 3 Credits 11 hours of lecture 44 hours of lab
Methods of assessment of client health, fitness, nutrition, and exercise behavior. Developing skills for assessing blood pressure, body composition, cardio-respiratory fitness, flexibility, and muscular strength/endurance. Concurrent enrollment in FT 251. Prerequisite: A grade of “C” or better in HPE 258 and MATH 090 or 091. [GE]

STRUCTURAL KINESIOLOGY
FT 250 3 Credits 22 hours of lecture 22 hours of lab
Overview of anatomical and mechanical bases of human movement. Prerequisite: A grade of “C” or better in FT 150 or 151. [GE]

EXERCISE PHYSIOLOGY
FT 251 4 Credits 44 hours of lecture
Study of physiological responses and adaptations of the body to exercise: topics include principles related to disease prevention, the cardio-respiratory system, neuromuscular system, environmental stress, supplementation, nutrition, metabolism, body composition, and weight management. Prerequisite: A grade of “C” or better in BIOL 164/165 or BIOL& 253 (or BIOL 160/161 or BIOL 233). [GE]

EXERCISE PRESCRIPTION I-HEALTHY POPULATIONS
FT 260 5 Credits 44 hours of lecture 22 hours of lab
Designing client-centered fitness plans intended to help apparently healthy clients achieve their health and fitness goals in a safe and effective manner. Prerequisite: A grade of “C” or better in ENGL& 101 or ENGL 135 (or ENGL 101 or 111), FT 210 and FT 251. [GE]

EXERCISE PRESCRIPTION II-SPECIAL POPULATIONS
FT 261 5 Credits 55 hours of lecture
Designing individualized fitness plans to help clients with special needs achieve their health and fitness goals in a safe and effective manner. Prerequisite: A grade of “C” or better in FT 260. [GE]

EXERCISE PRESCRIPTION III-PERFORMANCE TRAINING
FT 262 4 Credits 22 hours of lecture 44 hours of lab
Emphasizes the process for developing long term training plans (periodization) for performances oriented clients. Sports conditioning and endurance training methods are covered. Laboratory experiences focus on endurance training for swimming, bicycling, and running. Prerequisite: A grade of “C” or better in FT 260 and a “Satisfactory” grade in either PE 175, 176, 177, 274, 179 or 279.
PROFESSIONAL ASPECTS OF FITNESS TRAINING
FT 270 3 Credits 33 hours of lecture
Focuses on personal training as a business: business planning, marketing, customer service, work ethic, management systems, resume development and interviewing skills. [GE]

FITNESS TRAINING INTERNSHIP
FT 275 4 Credits 132 hours of clinical
Experience hands-on fitness training at one or more approved worksites. Prerequisite: A grade of "C" or better in FT 220. [GE]

SPECIAL TOPICS
FT 280 1 - 5 Credits 55 hours of lecture
Varying topics in the Fitness Training Industry, as listed in the quarterly class schedule. May be repeated for credit. [GE]

SPECIAL PROJECTS
FT 290 1 - 5 Credits
Opportunity to plan, organize, and complete special projects approved by the department. Prerequisite: Consent of Instructor. [GE]

FINAL SKILL ASSESSMENT
FT 299 2 Credits 11 hours of lecture 22 hours of lab
Comprehensive assessment of Fitness Trainer AAS degree student learning outcomes. Students must pass this course at 70% or better to earn their AA-Fitness Trainer from Clark College. Prerequisite: A grade of "C" or higher for FT 260.

Food - Culinary Arts

FOOD SERVICE
FOOD 102 4 Credits 88 hours of lab
Line and line backup, serving methods, portion control, and cash register training. [GE]

FOOD SERVICE
FOOD 103 4 Credits 88 hours of lab
Continuation of FOOD 102, with greater emphasis on particular line positions and their interactions with the whole line's purpose. [GE]

FOOD SERVICE
FOOD 104 4 Credits 88 hours of lab
Continuation of FOOD 103 with further emphasis on line positions and an analysis of customer relations. [GE]

FOOD SERVICE
FOOD 105 4 Credits 88 hours of lab
Serving under banquet, catering, fast food and take-out conditions. Preparation and clean up. [GE]

COOKING THEORY
FOOD 111 5 Credits 55 hours of lecture
Theory including equipment safety, kitchen methods, soups, stocks, and salads. Concurrent enrollment in FOOD 112 required. [GE]

FOOD PRODUCTION
FOOD 112 4 Credits 88 hours of lab
Sanitation, safety, entrees, casseroles, fruit, and quick breads. Careers in the food industry. Concurrent enrollment in FOOD 111 required. [GE]

</tbody>
</table>
MANAGEMENT THEORY
FOOD 225 5 Credits 55 hours of lecture
Decorating with food, buffet set-ups, hors d’oeuvres, canapés, basic and gourmet food preparation including ice carving and tallow showpieces. Concurrent enrollment in FOOD 241 required. Prerequisite: Consent of Instructional Unit. [GE]

MANAGEMENT THEORY
FOOD 227 5 Credits 55 hours of lecture
Menu analysis, restaurant security, job applications, resumes and interviews. Concurrent enrollment in FOOD 242 required. Prerequisite: Consent of Instructional Unit. [GE]

MANAGEMENT THEORY
FOOD 229 5 Credits 55 hours of lecture
Advanced food preparation techniques and classical cooking information. Scheduling and layout for banquets and buffets. Concurrent enrollment in FOOD 243 required. Prerequisite: Consent of Instructional Unit. [GE]

BEGINNING MEAT CUTTING
FOOD 235 3 Credits 11 hours of lecture 44 hours of lab
Individualized study of meat-cutting techniques related to retail sales and commercial use. [GE]

INTERMEDIATE MEAT CUTTING
FOOD 236 3 Credits 11 hours of lecture 44 hours of lab
Study of meat-cutting techniques for beef, pork, poultry, and lamb. Brief overview of cooking techniques for the various cuts of meat. Prerequisite: FOOD 235. [GE]

ADVANCED MEAT CUTTING
FOOD 237 3 Credits 11 hours of lecture 44 hours of lab
To supply the students with the knowledge, technical skills and information necessary to manage all phases of meat and poultry cutting in a food service operation. Prerequisite: FOOD 235 and 236. [GE]

RESTAURANT MANAGEMENT
FOOD 240 8 Credits 176 hours of lab
Practical instruction in restaurant management by working at various management stations. Prerequisite: Consent of Instructional Unit. [GE]

RESTAURANT MANAGEMENT
FOOD 241 8 Credits 176 hours of lab
Practical instruction in restaurant management by working at various management stations. Prerequisite: FOOD 240 or consent of Instructional Unit. [GE]

RESTAURANT MANAGEMENT
FOOD 242 8 Credits 176 hours of lab
Practical instruction in restaurant management by working at various management stations. Prerequisite: FOOD 241 or consent of Instructional Unit. [GE]

RESTAURANT MANAGEMENT
FOOD 243 8 Credits 176 hours of lab
Practical instruction in restaurant management by working at various management stations. Prerequisite: FOOD 242 or consent of Instructional Unit. [GE]

ADVANCED KITCHEN SET-UP
FOOD 250 2 Credits 44 hours of lab
Staff management and early morning kitchen set-up. [GE]

ADVANCED KITCHEN SET-UP
FOOD 251 2 Credits 44 hours of lab
Organization and set-up of management stations. [GE]
ADVANCED KITCHEN SET-UP
FOOD 252 2 Credits 44 hours of lab
Organization and set-up of management stations. [GE]

ADVANCED KITCHEN SET-UP
FOOD 253 2 Credits 44 hours of lab
Organization and set-up of management stations. [GE]

SPECIAL PROJECTS
FOOD 290 1 - 12 Credits
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]

Forensic Science
SURVEY OF FORENSIC SCIENCE
FSCI 101 3 Credits 33 hours of lecture
An introduction to the Forensic Sciences: crime scene analysis and recording, the crime laboratory, Forensic Medicine, Dentistry, Anthropology, Psychology, and other topics. [SE]

SELECTED TOPICS: FORENSIC SCIENCE
FSCI 280 3 Credits 33 hours of lecture
Selected topics in the Forensic Sciences as listed in the quarterly schedule. May be repeated for credit. Prerequisite: None/or Law enforcement officers only for some topics. [SE]

SPECIAL PROJECTS
FSCI 290 1 - 5 Credits
Varying topics in the forensic sciences as listed in the quarterly class schedule. May be repeated for credit. Prerequisite: Consent of Instructional Unit. [GE]

French
FRENCH I
FRCH&121 5 Credits 55 hours of lecture
Communicating in French with practice in listening, speaking, writing, and reading. [HA, SE]

FRENCH II
FRCH&122 5 Credits 55 hours of lecture
Continuation of FRCH& 121. [HA, SE]

FRENCH III
FRCH&123 5 Credits 55 hours of lecture
Continuation of FRCH& 122. Completion of FRCH& 122 or equivalent, or F-Cape placement test recommended. Formerly FREN 103. Credit not allowed for both FREN 103 and FRCH& 123. [HA, SE]

CONVERSATIONAL FRENCH
FRCH 141 3 Credits 33 hours of lecture
Intensive practice in French conversation. Discussion in pairs or small groups on topics of interest to those studying French-speaking societies. Prerequisite: Consent of Instructional Unit. Formerly FREN 141. Credit not allowed for both FREN 141 or FRCH 141. [HB, SE]

STUDY ABROAD ORIENTATION
FRCH 150 1 Credit 11 hours of lecture
Preparing students to travel with the Clark College study abroad program to a French-speaking country. Successful completion of the course required for students to participate in the travel abroad program. Application and accep-
tance into the study abroad program also required. Prerequisite: A grade of “C” or better or concurrent enrollment in FRCH& 121 or above; or consent of Instructional Unit. [SE]

**FRENCH IV**  
FRCH&221 5 Credits 55 hours of lecture  
Review of basic structures, expansion of conversation, and reading skills. [HA, SE]

**FRENCH V**  
FRCH&222 5 Credits 55 hours of lecture  
Review of basic structures, expansion of conversation, and reading skills. Prerequisite: FRCH& 221 or equivalent. [HA, SE]

**FRENCH VI**  
FRCH&223 5 Credits 55 hours of lecture  
Review of basic structures, expansion of conversation, and reading skills. Prerequisite: FRCH& 222 or equivalent. [HA, SE]

**SELECTED TOPICS**  
FRCH 280 1 - 5 Credits 55 hours of lecture  
The course focuses on selected topics in French. Topics vary, and course theme and content change to reflect new topics. Because the course varies in content, it is repeatable for credit for different topics. Individual topics are listed in the quarterly class schedule. [SE]

**SPECIAL PROJECTS**  
FRCH 290 1 - 5 Credits  
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]

---

**General Education**

**SPECIAL TOPICS**  
GED 005 1 - 10 Credits 110 hours of lecture  
Special interest topics at the GED level for students who qualify based upon CASAS Test scores. Topics vary and course may be repeated for credit for different topics.

**GED WRITING FUNDAMENTALS**  
GED 011 1 - 6 Credits 66 hours of lecture  
Students performing at GED level will learn to write understandable and well-constructed multiple paragraphs easily and with few errors to independently accomplish well defined and structured writing activities for varied reasons (such as for personal expression, to inform, to persuade or to complete a task) and for audiences in a range of comfortable and familiar settings. Organization, transitions, punctuation and sentence structure skills are emphasized. This course can serve as preparation for the GED Writing Test or as refresher course for basic skills improvement. Prerequisite: Appropriate CASAS score.

**GED MATH I**  
GED 021 1 - 6 Credits 66 hours of lecture  
Students will learn to read, write, interpret, and apply a wide variety of mathematical information such as the following: money/expenses/prices, percentages, decimals, fractions, patterns and formulas, units of measurement including fractional units, geometrical shapes including shapes containing a combination of common shapes, concept of volume, and ways to interpret, represent and draw implications from data (graphs, tables, and simple forms of statistical analysis). Prerequisite: ABE MATH 024 or appropriate CASAS placement score.

**GED READING II**  
GED 032 1 - 2 Credits 22 hours of lecture  
Analysis of literature, science and social studies readings. Skills include distinguishing between fact and opinion, understanding elements of style and structure, interpreting charts and graphs, and increasing comprehension. Test
taking skills taught and practiced. Last in a series of courses for improvement of basic skills in reading. This course serves as preparation for the GED Reading Tests in Literature, Science and Social Studies, or as a refresher course for basic skills improvement. Prerequisite: ABE 034 or recommending score on placement test.

**I-BEST SUPPORT**

GED 071 1 - 10 Credits 110 hours of lecture

Provides Basic Skills students extra instruction and support for success in their I-BEST designated classes. Reviews important concepts and vocabulary introduced during I-BEST classes. Provide opportunities to develop culturally unfamiliar customer service and interaction skills needed to be successful in I-BEST occupations. Prerequisite: Admission into an I-BEST program.

---

**Geography**

**INTRODUCTION TO GEOGRAPHY**

GEOG&100 5 Credits 55 hours of lecture

Survey of our natural environment, earth-sun-moon relationships, cartography, weather and climate, landforms, soils, oceans, and water and biotic resources. Survey of the countries and major features of the world as well as geographic aspects of culture, including the past and present social, political and economic factors that are related to human perception, organization and use of the environment. [SE, SS]

**WORLD REGIONAL GEOGRAPHY**

GEOG&102 5 Credits 55 hours of lecture

Fundamental geographic concepts and examination of different world regions and the various physical, social, cultural, and political processes that create, shape, and affect them. Survey of several different world regions, such as Sub-Saharan Africa, Europe, the Middle East, Latin American and Southeast Asia, by examination of the environmental, cultural, historical, and economic processes that make each region unique, as well as its connections and commonalities with other world regions. [SE, SS]

**HUMAN GEOGRAPHY**

GEOG&200 5 Credits 55 hours of lecture

The course provides a foundation for the understanding of fundamental concepts and current ideas in Human Geography. The purpose of the course is to introduce students to the systematic study of patterns and processes that have shaped human understanding, use, and alteration of Earth’s surface. Students will gain a broad understanding of the development of cultural, social, political and economic spaces at a variety of scales and the interaction of human societies with the biophysical environment. The significance of spatial and temporal scales will be introduced, and a consideration of ethics and values developed. [SE, SS]

**PHYSICAL GEOGRAPHY**

GEOG 205 5 Credits 55 hours of lecture

Foundation for the understanding of fundamental concepts and current ideas in physical geography. The systematic study of patterns and processes that have shaped the Earth’s surface by understanding our natural environment, earth-sun-moon relationships, cartography, weather and climate, landforms, soils, oceans, and water and biotic resources. Survey continents, countries, natural resources as well as major physical features of our current global landscape. [SE, SS]

**ECONOMIC GEOGRAPHY**

GEOG&207 5 Credits 55 hours of lecture

Broad patterns, courses, and consequences of interrelationships between economic and geographic forces, processes, and resources. Location of economic activity, population dynamics, strategic resources, global economic flashpoints, patterns/consequences of regional integration. Previously GEOG 107. Credit not allowed for GEOG& 207, ECON 107 and GEOG 107. [SE, SS]
THE GEOPOLITICS OF THE MIDDLE EAST
GEOG 220  5 Credits  55 hours of lecture
Geo-political survey of the Middle East, including interrelationships between the physical, economic and political geography of this region, the impact of geography on politics and political issues within the nations of this region, the corresponding impact of politics and political issues on geography and on the lives of the people living in this region, as well as the resulting diversity of cultures, beliefs, perceptions, challenges and issues among the people of this region. This course will also examine the importance and impact of the Middle East on the rest of the world, as well as the impact and influence of the rest of the world on the Middle East. Credit not allowed for both GEOG 220 and POLS 220. [SE]

THE GEOPOLITICS OF AFRICA
GEOG 221  5 Credits  55 hours of lecture
Geo-political survey of Africa, including interrelationships between the physical, economic and political geography of this region, the impact of geography on politics and political issues within the nations of this region, the corresponding impact of politics and political issues on geography and on the lives of the people living in this region, as well as the resulting diversity of cultures, beliefs, perceptions, challenges and issues among the people of this region. This course will also examine the importance and impact of Africa on the rest of the world, as well as examine the impact and influence of the rest of the world on Africa. Credit not allowed for both GEOG 221 and POLS 221. [SE]

THE GEOPOLITICS OF CHINA, JAPAN & EAST ASIA
GEOG 222  5 Credits  55 hours of lecture
Geo-political survey of China, Japan and East Asia, including interrelationships between the physical, economic and political geography of this region, the impact of geography on politics and political issues within the nations of this region, the corresponding impact of politics and political issues on geography and on the lives of the people living in this region, as well as the resulting diversity of cultures, beliefs, perceptions, challenges and issues among the people of this region. This course will also examine the importance and impact of China, Japan and East Asia on the rest of the world, as well as examine the impact and influence of the rest of the world on China, Japan and East Asia. Credit not allowed for both GEOG 222 and POLS 222. [SE]

THE GEOPOLITICS OF SOUTH AND CENTRAL ASIA
GEOG 223  5 Credits  55 hours of lecture
Geo-political survey of South and Central Asia, including interrelationships between the physical, economic and political geography of this region, the impact of geography on politics and political issues within the nations of this region, the corresponding impact of politics and political issues on geography and on the lives of the people living in this region, as well as the resulting diversity of cultures, beliefs, perceptions, challenges and issues among the people of this region. This course will also examine the importance and impact of South and Central Asia on the rest of the world, as well as examine the impact and influence of the rest of the world on South and Central Asia. Credit not allowed for both GEOG 223 and POLS 223. [SE]

SELECTED TOPICS
GEOG 280  1 - 5 Credits  55 hours of lecture
Course focuses on selected topics in Geography. Topics vary, and course theme and content change to reflect new topics. Because the course varies in content, it is repeatable for credit for different topics. [SE]

SPECIAL PROJECTS
GEOG 290  1 - 5 Credits
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]
Geology

INTRO PHYSICAL GEOLOGY
GEOL&101 5 Credits 33 hours of lecture  88 hours of lab
A dynamic earth, geologic time, origin and identification of minerals and rocks. Volcanoes, earthquakes and the structure of earth in light of plate tectonic theory. One day field trip required. [NS, SE]

INTRO TO GEOL II: EARTH’S SURFACE PROCESSES
GEOL 102 5 Credits 33 hours of lecture  88 hours of lab
Plate tectonics and the origin of ocean basins and continents. Mass wasting, glaciation, streams, groundwater, deserts, shorelines and deep sea sediments. One day field trip required. [NS, SE]

COORDERATIVE WORK EXPERIENCE
GEOL 199 1 - 3 Credits 99 hours of clinical
Supervised work experience in an approved job. Completion of specific learning objectives and employer evaluation. Completion of, or concurrent enrollment in, HDEV 195, 198, or 200 required. Prerequisite: Consent of Instructional Unit. [GE]

FIELD STUDIES IN GEOLOGY
GEOL 218 1 - 6 Credits 22 hours of lecture  88 hours of lab
Field trip program to study the geologic evolution of an area. Emphasis on interpretation of rocks and their structure. Duration, scope and field trip localities will vary. Food and personal gear provided by student. Maxivans provided for travel. Day hikes may be required. Prerequisite: Minimum of 10 credits in geology or consent of Instructional Unit. [NS, SE]

SPECIAL PROJECTS
GEOL 290 1 - 5 Credits
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]

German

GERMAN I
GERM&121 5 Credits 55 hours of lecture
Oral and written communication in German. Use of basic vocabulary and structures to acquire information and to express personal interests, needs and opinions on familiar topics. Contemporary German culture. [HA, SE]

GERMAN II
GERM&122 5 Credits 55 hours of lecture
Continuation of GERM& 121 with emphasis on developing the students' ability to express themselves freely on familiar topics. [HA, SE]

GERMAN III
GERM&123 5 Credits 55 hours of lecture
Continuation of GERM& 122 with emphasis on developing students' ability to express themselves freely on familiar topics. [HA, SE]

BERLIN IN FILM AND LITERATURE
GERM 150 3 Credits 33 hours of lecture
Survey of Berlin during two centuries of recent history, using a critical exploration of literary, filmic, and artistic works on and of Berlin. Conducted in English, this course is open to all students and is mandatory before departure for students participating in the German Studies in Berlin Program. While open to the campus, this course is required for those students accepted into the German Studies in Berlin Program and will be offered in the summer prior to departure for Germany. Course will be conducted in English. There are no language prerequisites. [SE]
GERMAN IV
GERM&221  5 Credits  55 hours of lecture
Thematic approach to contemporary German culture and literature. Discussions and papers in German. Grammar review. [HA, SE]

GERMAN V
GERM&222  5 Credits  55 hours of lecture
Thematic approach to contemporary German culture and literature. Discussions and papers in German. Grammar review. Prerequisite: GERM& 221 or equivalent. [HA, SE]

GERMAN VI
GERM&223  5 Credits  55 hours of lecture
Thematic approach to contemporary German culture and literature. Discussions and papers in German. Grammar review. Prerequisite: GERM& 222 or equivalent. [HA, SE]

SELECTED TOPICS
GERM 280  1 - 5 Credits  55 hours of lecture
Course focuses on selected topics in German. Topics vary and course theme and content change to reflect new topics. Because the course varies in content, it is repeatable for credit for different topics. [SE]

SPECIAL PROJECTS
GERM 290  1 - 5 Credits
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]

Health

FOOD AND YOUR HEALTH
HLTH 100  2 Credits  22 hours of lecture
Exploration of the connection between food choices and health with an emphasis on whole foods. Focus on developing personalized healthy strategies to advance health. [HE, SE]

HEALTH FOR ADULT LIVING
HLTH 101  3 Credits  33 hours of lecture
Exploration of the connection between personal choices and health across multiple dimensions of wellness. Focus on developing personalized behavior change strategies to advance health. [HE, SE]

ENVIRONMENTAL HEALTH
HLTH 103  2 Credits  22 hours of lecture
Exploration of the connection between personal choices, human health, and the environment. Focus on developing personalized behavior change strategies to advance health. [HE, SE]

WEIGHT AND YOUR HEALTH
HLTH 104  2 Credits  22 hours of lecture
Exploration of the connection between weight and health. Focus on the multiple factors that contribute to optimal health and on developing personalized behavior change strategies to advance health at any size. [HE, SE]

HAPPINESS AND YOUR HEALTH
HLTH 108  2 Credits  22 hours of lecture
Exploration of the relationship between happiness and your health. Focuses on the dynamics of happiness, including positive emotion, engagement, and meaning; and the potential health benefits of implementing them into daily life. Students will develop personalized behavior change strategies to advance well-being. [HPE]
ADULT CPR AND FIRST AID  
HLTH 120  1 Credit  11 hours of lecture  
Introduction to adult CPR and general first aid skills that will prepare the student to recognize emergencies, make first aid decisions, and provide care. Upon successful completion of the course, students will receive Adult CPR and Standard First Aid certification. Does not meet AA distribution requirement. [GE]

WILDERNESS FIRST AID  
HLTH 122  2 Credits  22 hours of lecture  
Foundation of first aid principles and skills necessary to respond to emergencies where immediate emergency medical services are not available, such as wilderness, remote environments, and urban disasters. Prerequisite: Proof of current Adult CPR/AED certification (bring to first class). [SE]

PEDIATRIC FIRST AID & CPR  
HLTH 123  1 Credit  11 hours of lecture  
First aid preparation to prevent injuries and respond to emergencies involving children and infants. Skills include child and infant CPR, use of an AED, first aid, and injury prevention. Successful completion of the course includes certification for first aid, child and infant CPR and AED. Does NOT fulfill health distribution requirement.

HUMAN SEXUALITY  
HLTH 206  2 Credits  22 hours of lecture  
Exploration of the connection between personal choices and sexual health through the life cycle. Focus on social, cultural and historical influences and on developing personalized behavior change strategies to advance sexual health. [HE, SE]

WOMEN'S HEALTH  
HLTH 207  2 Credits  22 hours of lecture  
Exploration of women's personal health. Focus on social, cultural and historical influences and on developing personalized behavior change strategies to advanced health. [HE, SE]

MEN'S HEALTH  
HLTH 208  2 Credits  22 hours of lecture  
Exploration of men's personal health. Focus on social, cultural and historical influences and on developing personalized behavior change strategies to advance health. [HE, SE]

MULTICULTURAL HEALTH  
HLTH 210  2 Credits  22 hours of lecture  
Exploration of the current health system within the US and the cultures that shaped its foundation. Focus on developing personalized behavior change strategies to advanced health.

SELECTED TOPICS  
HLTH 280  1 - 3 Credits  33 hours of lecture  
Course focuses on selected topics in health. Topics vary, and course theme and content change to reflect new topics. Because the course varies in content, it is repeatable for credit for different topics. [SE]

SPECIAL PROJECTS  
HLTH 290  1 - 5 Credits  
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]

Health Informatics

INTRODUCTION TO US HEALTH CARE SYSTEM  
HI 201  3 Credits  33 hours of lecture  
Introduction to U.S. health care systems: the major components and the interaction of elements within the system, including the history, issues and problems of today’s system. Topics include the national context and history of
health services, international health systems, the role of government in health care, health insurance, Medicaid, Medicare, managed care, hospitals and facilities, health workforce, medical technologies, access and quality of care and the future of the health care system. Focus on the future direction of healthcare and identifying likely changes. Readings and discussion cover consumer, industry and governmental agendas related to improving the US health care system.

**INTRODUCTION TO HEALTH CARE QUALITY**

HI 202 3 Credits 33 hours of lecture
Introduction to the principles, processes and procedures associated with measuring, managing and improving quality in the delivery of health care, health services and health care management. Presents various national efforts, systems and tools used in quality assessment, performance, improvement and measurement.

**INTRODUCTION TO HEALTH SERVICES MANAGEMENT**

HI 210 3 Credits 33 hours of lecture
Introduction to managerial skills and behaviors applied to components of health care organizations at several levels: including individual, interpersonal, group, intergroup, system, and inter-organization; managerial challenges faced by health care managers and skills essential for successfully planning, organizing, directing, and controlling. Topics include strategic and operational planning, human resource management, motivation, communication, conflict resolution, organizational structures, health care budgeting and finance.

**INTRODUCTION TO HEALTH INFORMATICS**

HI 211 3 Credits 33 hours of lecture
Introduction to health informatics, the application of computers, communication and information technologies combined with systems used in problem solving, decision making to improve health and health care. Topics include a survey of history, basic knowledge of health informatics, data management, standards and tools used in the support of health care delivery. Emphasis on impact of information technology on the health care industry and vice versa. Intended as a survey of the emerging field of health informatics, allowing interested students to learn its significance, its breadth, and its opportunities.

---

**Health Occupations**

**BASIC CONCEPTS OF ANATOMY AND PHYSIOLOGY**

HEOC 100 4 Credits 33 hours of lecture 22 hours of lab
Introduction to basic anatomical and physiological concepts as they apply to the following health occupations: EMT, Pharmacy Tech, Medical Assisting, and Phlebotomy. Basic overview of all body systems including the respiratory, muscular, urinary, reproductive, digestive, cardiovascular, lymphatic, immune, nervous, skeletal, integumentary and the senses. The course includes a laboratory component that is integral to the course concepts and skills. [GE]

**HEALTH CARE DELIVERY & CAREER EXPLORATION**

HEOC 104 3 Credits 33 hours of lecture
An introduction to the healthcare delivery system in the United States and the many health professions available as career choices, as well as their academic, licensing, and certification requirements.

**AIDS EDUCATION**

HEOC 120 1 Credit 11 hours of lecture
A comprehensive look at AIDS, etiology, epidemiology, clinical manifestations, treatment, transmission, testing, legal, ethical and psychological issues. Fulfills Washington State Department of Licensing requirement for license renewal for persons governed by Chapter 18.130.RCW. [GE]

**PHARMACOLOGY FOR HEALTH ASSISTANTS**

HEOC 130 3 Credits 33 hours of lecture
Introduction to the basics of medication administration including trade and generic names of prescription and over-the-counter medications commonly prescribed, medication classifications, routes of administration, dosages,
effects and implications and appropriate methods of documentation. Prerequisite: BIOL 164 (or 160) or HEOC 100, BMED 110, consent of Health Occupations or Business Technology Advisor. [GE]

**LABORATORY PROCEDURES FOR THE MEDICAL OFFICE**

HEOC 160 4 Credits 22 hours of lecture 44 hours of lab
Specimen collection and processing. Basic laboratory tests: blood count, microscopic urine tests; microbiology specimen handling (including gram smears and basic culture techniques) blood typing and prepared test kit use. Equipment use and maintenance. Re-agent storage and handling. Lab safety emphasized. Prerequisite: A grade of “C” or better in BTEC 163 or consent of the Health Occupation Advisor. [GE]

**COOPERATIVE WORK EXPERIENCE**

HEOC 199 1 - 5 Credits 165 hours of clinical
Supervised work experience in an approved job. Completion of specific learning objectives and employer evaluation. Completion of, or concurrent enrollment in, HDEV 195, 198, or 200 required. Prerequisite: Consent of Instructional Unit. [GE]

**SELECTED TOPICS**

HEOC 280 1 - 5 Credits 55 hours of lecture
Selected topics in Health Occupations. Topics vary and course theme and content change to reflect new topics. Because the course varies in content, it is repeatable for credit. Specific topics are listed in the quarterly class schedule. [GE]

**SPECIAL PROJECTS**

HEOC 290 1 - 15 Credits
Learning contract with the student to meet specialized needs of the individual. Credit based upon the type of learning activities planned. Credit not applicable toward a major at Clark College. Prerequisite: Consent of the Science and Health Sciences Dean. [GE]

---

**History**

**WORLD CIVILIZATIONS I**

HIST&126 5 Credits 55 hours of lecture
The beginnings of civilization, c. 3500 B.C. to the High Middle Ages, c. 950 A.D. Areas to be covered include the ancient Near East, Egypt, India, China, Greece, Rome, and early medieval Europe. [SE, SS]

**WORLD CIVILIZATIONS II**

HIST&127 5 Credits 55 hours of lecture
The High Middle Ages through the Late Middle Ages, the Renaissance and Reformation eras, the emergence of early modern society, witchcraft, the Enlightenment, the formation of nation-states and continued historical development in Europe, China, India, Africa, the Near East, plus Central and South America. [SE, SS]

**WORLD CIVILIZATIONS III**

HIST&128 5 Credits 55 hours of lecture
The French Revolution through modern times. Incorporated into this framework are the political, military, economic, social, cultural and religious manifestations throughout the various regions of the world. [SE, SS]

**UNITED STATES HISTORY I**

HIST&146 5 Credits 55 hours of lecture
Pre-Columbian era, colonial settlements and foundations of American institutions, seeds of revolution, Confederation and Constitution, federalism and states’ rights, Jacksonian era. [SE, SS]

**UNITED STATES HISTORY II**

HIST&147 5 Credits 55 hours of lecture
Antebellum reform, Manifest Destiny, roots of Southern secession, Civil War and Reconstruction, rise of big business and organized labor, immigration and assimilation, American Imperialism and Progressive reform movement. [SE, SS]
UNITED STATES HISTORY III
HIST&148 5 Credits 55 hours of lecture
World War I, the Twenties, the Great Depression and the New Deal, World War II, the Cold War consensus, Vietnam and the Watergate era, and issues connected to the recent past. [SE, SS]

PACIFIC NORTHWEST HISTORY
HIST&214 5 Credits 55 hours of lecture
Survey of the political, cultural, economic and social development of the Pacific Northwest with special emphasis on Washington State history. [SE]

WOMEN IN U.S. HISTORY
HIST&215 5 Credits 55 hours of lecture
The role of women in America from the Native American women up to today. Included within these parameters will be women's contributions and status within the family, the economy, the religious communities, the legal and political systems, and the culture. [SE]

NATIVE AMERICAN HISTORY
HIST&219 5 Credits 55 hours of lecture
A survey of Native American history from the pre-Columbian era to the Twentieth century. Topics include Indian cultures, treaty making and breaking, Indian patriots, and law and Indian rights. [SE]

EAST ASIAN HISTORY
HIST 221 5 Credits 55 hours of lecture
Survey of Far Eastern history from 1800 to the present. Primary emphasis will be placed on Far East - United States diplomacy and the emergence of the Far East in the modern world. [SE]

HISTORY OF GENOCIDE
HIST 231 3 Credits 33 hours of lecture
Examination of several incidences of genocide beginning with the extermination of the Herero of Namibia in the late 19th century; utilizing the definition of genocide developed by Raphael Lemkin and adopted by the United Nations; developing criteria for recognizing when and where genocide has occurred, based on reading and lectures; developing criteria to identify a genocide in the making; designing an action plan to extend the lessons of the course. [SE, SS]

WOMEN IN WORLD HISTORY I
HIST 251 5 Credits 55 hours of lecture
A survey course exploring the role of women in world history from pre-historical times up to the pre-Industrial Age. Included within these parameters is the role of women in the family, economy, culture, religion and political structures of their given societies. Topics include: the development of patriarchy and misogyny; women's contributions to Eastern, Middle Eastern and Judeo/Christian religious experiences; and women's roles in Africa and South America.

WOMEN IN WORLD HISTORY II
HIST 252 5 Credits 55 hours of lecture
A survey course exploring the role of women in World History from the pre-Industrial Age to modern times. Included within these parameters is the role of women in the family, economy, culture, religion and political structures of their given societies. Topics include: the role of women in an industrial society and their influence in major movements such as the Scientific Revolution and the Enlightenment; origins of feminism; and the equal rights movement as it applies to voting, property ownership and areas of marriage and divorce.

AMERICAN DIPLOMATIC HISTORY
HIST 255 5 Credits 55 hours of lecture
The development of America's relationship with other governments and the global community from WWI to the First Gulf War, looking for specific patterns of behavior, such as isolationism, neutral rights, market expansion, brinkmanship and foreign intervention to explain how America's role and image in the world has changed over

**AFRICAN HISTORY**

**HIST 260 5 Credits**  
55 hours of lecture  
Survey of the period from gathering/hunting societies through African independence, with focus on major events from an African perspective, including Africa's discovery of Europe, and resistance to colonialism. Prior completion of HIST& 126, 127, or 128 (or HIST 101, 102 or 103) recommended. [SE]

**AFRICAN-AMERICAN HISTORY**

**HIST 275 5 Credits**  
55 hours of lecture  
Survey of the history of the African-American experience from 1619 to the present. [SE]

**SELECTED TOPICS**

**HIST 280 1 - 5 Credits**  
55 hours of lecture  
Selected topics in History as listed in the quarterly class schedule. May be repeated for credit. [SE]

**HISTORY OF LATIN AMERICA**

**HIST 285 5 Credits**  
55 hours of lecture  
Survey of Latin American history, examining social, economic, political, cultural and intellectual trends and developments from ancient civilizations to the present Latin America in transition. [SE]

**Honors**

**SPECIAL PROJECTS: HONORS**

**HONS 290 1 - 6 Credits**  
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of the Instructional Unit.

**Human Development**

**EFFECTIVE STUDY**

**HDEV 098 2 Credits**  
22 hours of lecture  
Learn effective study skills including goal setting, resource management, listening, note-taking, reading and test-taking skills. Appropriate for any student, particularly those working to improve basic skills and abilities necessary to move ahead to college level courses.

**CAREER AND LIFE PLANNING**

**HDEV 100 3 Credits**  
33 hours of lecture  
Examination of personal values, interests, personality preferences, skills and abilities for the purpose of determining career, educational and leisure activities. Introduction to career development theory, occupational information resources and decision-making strategies. Credit not allowed for both HDEV 100 and 101. [GE]

**CAREER EXPLORATION**

**HDEV 101 2 Credits**  
22 hours of lecture  
Strategies for career choice and change: utilizing career assessment tools, personal preferences, and occupational resources to make informed career and educational decisions. Credit not allowed for both HDEV 100 and 101. [GE]

**ANGER AND CONFLICT MANAGEMENT**

**HDEV 103 2 Credits**  
22 hours of lecture  
Develop self-control and positive personal power. Learn about personal anger triggers, appropriate versus inappropriate anger, family dynamics, communication, assertiveness, and conflict management strategies. Learn to use anger instead of letting it use you! Does not fulfill any court-mandated anger management course requirement. [GE]
SELF-ESTEEM
HDEV 105  2 Credits  22 hours of lecture
Guided experience in self-motivation, values clarification, and empathetic regard for others. Structured small groups. [GE]

MOTIVATION AND STUDY SKILLS
HDEV 116  2 Credits  22 hours of lecture
Strategies for developing student behaviors and attitudes consistent with achieving success in college. Topics include campus resources to support student success; building effective study skills; developing skills for academic planning; time management and stress management. Appropriate for any student, particularly those working to improve basic skills and abilities necessary for higher level college courses. Credit not allowed for both HDEV 116 and 117. [GE]

COLLEGE SUCCESS
HDEV 117  3 Credits  33 hours of lecture
Strategies for successful student performance, including goal setting, academic planning, critical thinking and stress management. Focus on building effective academic skills of planning, memorizing, reading, note taking and test taking; identifying, utilizing, and evaluating campus resources and support services; fostering student responsibility for individual learning and behaviors promoting student achievement. College-level reading skills recommended. Credit not allowed for both HDEV 116 and 117. [GE]

PRACTICAL REASONING AND DECISION MAKING
HDEV 120  3 Credits  33 hours of lecture
Develop, analyze, evaluate and apply critical thinking to academic, career and personal pursuits. College level reading and eligibility for ENGL& 101 are strongly recommended. [GE]

RELATIONSHIPS
HDEV 123  2 Credits  22 hours of lecture
Strategies for strengthening relationships of all types. Designed to help participants explore relationship patterns and styles; information and skill building to facilitate more successful and satisfying relationships both personally and professionally.

BASIC MINDFULNESS SKILLS
HDEV 125  2 Credits  22 hours of lecture
Mindfulness skills practice enhances physical and psychological wellbeing. Students will learn basic theory and application of these techniques for an effective mindfulness practice.

ASSERTIVENESS
HDEV 155  3 Credits  33 hours of lecture
Teaches skills needed to achieve personal goals related to assertive behavior. Focuses on reducing emotional blocks and changing thoughts, feelings, and behavior to enable one to act in their own best interest and to express themselves in challenging situations without excessive anxiety or anger. Role play is used to demonstrate and practice skills. Recommended for both those who find it difficult to speak up and those who appear abrasive. [GE, HR]

INTRO TO SERVICE LEARNING & CIVIC ENGAGEMENT
HDEV 175  2 Credits  22 hours of lecture
The concept of service learning and its potential for inspiring civic engagement and community-based problem solving. Effective democratic citizenship demands awareness, knowledge, involvement, problem solving, and leadership. Through the development of a Community Action Project, we will explore all of these factors and their contributions to the development of democratic citizenship. Note: 10 hour service project requirement. [GE]

STRESS MANAGEMENT
HDEV 186  1 Credit  11 hours of lecture
Stress is an inevitable part of life affecting health, productivity, and relationships. Too little or too much stress can cause problems. Discover your unique reactions to stress and new options for handling stressful situations. [GE]
### CAREER-RELATED WORKSHOP

**HDEV 190**  1 - 3 Credits  33 hours of lecture

Independent study in career exploration. Includes testing and coursework in self-assessment, and career research while consulting with a career counselor. One to three credits can be earned based upon the amount of coursework completed. Students must have instructor permission to register after the fourth week of class. [GE]

### WORKPLACE SUCCESS

**HDEV 195**  1 Credit  11 hours of lecture

Learn how to analyze your current work experiences to increase your success and potential for advancement. Gain knowledge specific to your work demands, develop transferable skills in human relations, information, and resource management. Satisfies the concurrent enrollment requirements for Co-op Work Experience. [GE]

### PORTFOLIO DEVELOPMENT

**HDEV 198**  1 Credit  11 hours of lecture

A career/employment portfolio will be developed, including a career goals statement, qualifications brief, resume, work samples, recommendations and references. Learn to effectively use the portfolio to achieve employment goals. Satisfies the concurrent enrollment requirement for co-op work experience. [GE]

### COOPERATIVE WORK EXPERIENCE

**HDEV 199**  1 - 5 Credits  165 hours of clinical

Supervised work experience in an approved job. Completion of specific learning objectives and employer evaluation. Concurrent enrollment in HDEV 195, 198 or 200 required. Prerequisite: Consent of Instructional Unit. [GE]

### PROFESSIONAL DEVELOPMENT

**HDEV 200**  2 Credits  22 hours of lecture

Job search strategies and techniques using the latest techniques and technologies, will be discussed and practiced, including preparing an electronic resume for the Internet, e-mail and computer scanner. Various methods to conduct your personalized labor market research, prepare effective cover letters, and how to secure informational or employment interviews will be learned. Guest speakers from local business and industry to speak about etiquette and ethics in the work place. May satisfy concurrent enrollment for Co-op Work Experience. [GE]

### PRIOR LEARNING ASSESSMENT

**HDEV 211**  3 Credits  33 hours of lecture

Introduction to the process of preparing a portfolio that demonstrates and documents knowledge and skills equivalent to college-level learning acquired through other formal or informal learning methods, including work experience, community service, personal study, travel, or sponsored training. [GE]

### SELECTED TOPICS

**HDEV 280**  1 - 3 Credits  33 hours of lecture

Variety of topics in human development as listed in the quarterly class schedule. May be repeated for credit. [GE]

---

### Humanities

#### INTRO TO HUMANITIES

**HUM& 101**  5 Credits  55 hours of lecture

Interdisciplinary exploration of the human experience and expression, which travels through multiple time periods and cultures to investigate art, philosophy, religion, politics, literature, and what it means to be “human”. [HA, SE]

#### POPULAR CULTURE

**HUM 103**  3 Credits  33 hours of lecture

Introduction to American Popular Culture using methodology and theory from various disciplines: music, television and cinema studies, sociology, communication studies, literature, anthropology, and history. Central questions will focus on the ways popular culture serves not simply as a reflection of a culture's beliefs and values, but also as a site of conversation between the various sub-groups that thrive in America. [HA, SE]
EVOLUTION FOR EVERYONE
HUM 105 3 Credits 33 hours of lecture
Explore the interdisciplinary nature of the Humanities by integrating key scientific elements with studies of culture and the values associated with being human. Evolution for Everyone brings the core biological concepts of adaption and change across the divide of “science” versus “arts” to create connections and understandings of not only how we experience being human through our own places in the world, but how biological principles affect our expressions of humanity. [GE, HA]

CONCEPTS OF NATURE
HUM 112 3 Credits 33 hours of lecture
Interdisciplinary study of current and historical ways of “constructing” nature: assigning values to it and deriving ethics and aesthetics from it. Focuses on America, with background in European and Judeo-Christian models of nature. Examines how those contrast with Native American and traditional models. Looks at regional issues as examples. [HA, SE]

INTRODUCTION TO CINEMA
HUM 152 3 Credits 22 hours of lecture 22 hours of lab
Introductory course on the study of Film history, production techniques, aesthetics and social impact of the American film industry from early 1900’s to present. [HA, SE]

BIOETHICS
HUM 180 3 Credits 33 hours of lecture
A study of biological science and ethics. Ethical principles and theories are used in solving bioethical dilemmas. Concepts studied include genetic engineering, inherited disorders, cloning, physician assisted suicide, allocation of health resources, organ donation, and environmental ethics. Credit not allowed for both BIOL 180 and HUM 180. [HA, NS, SE]

THEMES THROUGH THE HUMANITIES
HUM 200 5 Credits 55 hours of lecture
Investigation of the phenomena of the collective human experience by examining themes such as love, war, and death through the interdisciplinary lenses of literature, art, and music. Builds upon the methods of interdisciplinary analysis cultivated in HUM 101, while providing a more focused and theme-specific mode of critical engagement with both historical as well as modern ideas of common human experiences. Prerequisites: A grade of “C” or better in HUM& 101, HUM 103, or HUM 152. [GE, HA]

HUMANITIES AND TECHNOLOGY
HUM 201 5 Credits 55 hours of lecture
Students will examine various forms of technology, especially examples of “media.” Course will be a dynamic, interactive exploration of the relationships between technology and such variables as work, education, gender, sex, and war. Students will collaborate to generate critical explanations of the relationships between intellectual movements, events, and technologies from the Industrial Age to the present and their impacts upon experiences and identities of individuals and cultures/societies today. [GE, HA]

INTRO TO GAY, LESBIAN, BISEXUAL & TRANS STUD
HUM 210 5 Credits 55 hours of lecture
An interdisciplinary survey of lesbian, gay, bisexual, and trans issues in the sciences, social sciences, and humanities with an emphasis on the period from 1900 to the present in the United States. Introduction to the most compelling and problematic aspects of modern cultural representation of and discourse on sexual and gender identity. Prerequisite: College level reading and writing recommended. [HA, SE, SS]

SELECTED TOPICS
HUM 280 1 - 5 Credits 55 hours of lecture
Selected topics in Humanities. Topics vary and course theme and content change to reflect new topics. This course may be repeated for credit. Specific topics are listed in the quarterly class schedule. [SE]
SPECIAL PROJECTS
HUM 290 1 - 5 Credits
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]

Japanese

JAPANESE I
JAPN&121 5 Credits 55 hours of lecture
Primary emphasis on oral communication with additional practice in basic reading and writing. Not open to native speakers except with instructor's permission. [HA, SE]

JAPANESE II
JAPN&122 5 Credits 55 hours of lecture
Continuation of JAPN& 121. Not open to native speakers except with instructor's permission. Completion of JAPN& 121 or equivalent required. [HA, SE]

JAPANESE III
JAPN&123 5 Credits 55 hours of lecture
Continuation of JAPN& 122. Not open to native speakers except with instructor's permission. Completion of JAPN& 122 or equivalent required. [HA, SE]

STUDY ABROAD ORIENTATION
JAPN 150 1 Credit 11 hours of lecture
Preparing students to travel with the Clark College study abroad program in Japan. Successful completion of this course required for students to participate in the travel abroad program. Application and acceptance into the study abroad program also required. Prerequisite: A grade of “C” or better or concurrent enrollment in JAPN& 122 or above; or consent of Instructional Unit. [SE]

JAPANESE READING AND WRITING
JAPN 151 1 Credit 11 hours of lecture
Reading and writing about various themes and topics in Japanese and English. Focus on manga; short literature, Japanese cultural readings, and letters from Japan. Instruction in English. No prior Japanese experience necessary. [SE]

JAPANESE READING AND WRITING
JAPN 152 1 Credit 11 hours of lecture
Continuation of reading and writing about various themes and topics in Japanese and English. Focus on manga, short literature, Japanese cultural readings, and letters from Japan. Instruction in English. No prior experience in Japanese necessary. Prerequisite: A grade of “C” or better in JAPN 151. [SE]

JAPANESE READING AND WRITING
JAPN 153 1 Credit 11 hours of lecture
Continuation of reading and writing about various themes and topics in Japanese and English. Focus on manga, short literature, Japanese cultural readings, and letters from Japan. Instruction in English. No prior experience in Japanese necessary. Prerequisite: A grade of “C” or better in JAPN 152. [SE]

JAPANESE SOCIETY
JAPN 171 3 Credits 33 hours of lecture
Structure of Japanese society and organizations. Emphasis on social obligation in the nature of one's relations to others. [SE]

JAPANESE IV
JAPN&221 5 Credits 55 hours of lecture
Continuation of First-Year Japanese: speaking, reading and writing with primary emphasis on oral communication. [HA, SE]
JAPANESE V
JAPN&222 5 Credits 55 hours of lecture
Continuation of First-Year Japanese: speaking, reading and writing with primary emphasis on oral communication. Prerequisite: JAPN& 221 or equivalent. [HA, SE]

JAPANESE VI
JAPN&223 5 Credits 55 hours of lecture
Continuation of First-Year Japanese: speaking, reading and writing with primary emphasis on oral communication. Prerequisite: JAPN& 222 or equivalent. [HA, SE]

SELECTED TOPICS
JAPN 280 1 - 5 Credits 55 hours of lecture
Course focuses on selected topics in Japanese. Topics vary and course theme and content change to reflect new topics. Because the course varies in content, it is repeatable for credit for different topics. [SE]

Journalism

INTRODUCTION TO JOURNALISM
JOUR 101 5 Credits 55 hours of lecture
Introduction to skills fundamental to journalism and newswriting, as well as an understanding of the role and significance of journalists and their work. Topics include the evolution in media and news today, ethical challenges, shifts in audience involvement and technological advances. Writing-intensive activities to master a clear, concise, accurate style. Prerequisite: ENGL& 101 (or ENGL 101) eligibility required. [HA, SE]

MULTIMEDIA NEWS REPORTING AND WRITING
JOUR 111 5 Credits 55 hours of lecture
Writing-intensive instruction and training in both writing and reporting online news as well as an introduction to and practice in the use of online news delivery tools, including web text packages, blogs, audio reports and video reports and their respective computer editing software programs. Emphasis on ethical issues. Considerable hands-on work with video and audio equipment. Focus on independent in-class work requiring high motivation to work independently as well as collaboratively with classmates and instructor. Concurrent enrollment or completion of JOUR 121 or a subsequent College Newspaper course is recommended. Prerequisite: A grade of “C” or better in JOUR 101, or consent of the Instructional Unit. [HA]

COLLEGE NEWSPAPER
JOUR 121 1 - 3 Credits 33 hours of lecture
Real-world opportunity to practice skills and expand knowledge acquired in JOUR 101. Topics include reporting, writing, editing and producing The Independent, print & online versions. Focus on an understanding of and appreciation for accuracy, deadlines, and teamwork. Activities include lecture, lessons, quizzes and out-of-class reporting and writing assignments. Prerequisite: A grade of “C” or better in JOUR 101, or equivalent, or consent of Instructional Unit. [GE]

COLLEGE NEWSPAPER
JOUR 122 1 - 3 Credits 33 hours of lecture
Real-world opportunity to practice skills and expand knowledge acquired in JOUR 101. Topics include reporting, writing, editing and producing The Independent, print and online versions. Focus on an understanding of and appreciation for accuracy, deadlines and teamwork. Activities include lecture, lessons, quizzes and out-of-class reporting and writing assignments. Prerequisite: JOUR 121. [GE]

COLLEGE NEWSPAPER
JOUR 123 1 - 3 Credits 33 hours of lecture
Real-world opportunity to practice skills and expand knowledge acquired in JOUR 101. Topics include reporting, writing, editing and producing The Independent, print & online versions. Focus on an understanding of and appreciation for accuracy, deadlines, and teamwork. Activities include lecture, lessons, quizzes and out-of-class reporting and writing assignments. Prerequisite: JOUR 122. [GE]
**COOPERATIVE WORK EXPERIENCE**  
JOUR 199 1 - 5 Credits  
165 hours of clinical  
Supervised work experience in newspaper or other journalism position. Completion of specific learning objectives and employer evaluation. Completion of, or concurrent enrollment in, HDEV 195, 198, or 200 required. Prerequisite: Consent of Instructional Unit. [GE]  

**ADVANCED NEWSWRITING**  
JOUR 201 3 Credits  
33 hours of lecture  
Continuation of JOUR 101. Focus on longer, more complex stories, including features and opinion writing. Students will complete a short research project. Prerequisite: JOUR 101. [GE]  

**COLLEGE NEWSPAPER**  
JOUR 221 1 - 3 Credits  
33 hours of lecture  
Real-world opportunity to practice skills and expand knowledge acquired in JOUR 101. Topics include reporting, writing, editing and producing The Independent, print & online versions. Focus on an understanding of and appreciation for accuracy, deadlines, and teamwork. Activities include lecture, lessons, quizzes and out-of-class reporting and writing assignments. Prerequisite: JOUR 123. [GE]  

**COLLEGE NEWSPAPER**  
JOUR 222 1 - 3 Credits  
33 hours of lecture  
Real-world opportunity to practice skills and expand knowledge acquired in JOUR 101. Topics include reporting, writing, editing and producing The Independent, print & online versions. Focus on an understanding of and appreciation for accuracy, deadlines, and teamwork. Activities include lecture, lessons, quizzes and out-of-class reporting and writing assignments. Prerequisite: JOUR 221. [GE]  

**COLLEGE NEWSPAPER**  
JOUR 223 1 - 3 Credits  
33 hours of lecture  
Real-world opportunity to practice skills and expand knowledge acquired in JOUR 101. Topics include reporting, writing, editing and producing The Independent, print & online versions. Focus on an understanding of and appreciation for accuracy, deadlines, and teamwork. Activities include lecture, lessons, quizzes and out-of-class reporting and writing assignments. Prerequisite: JOUR 222. [GE]  

**NEWS EDITING**  
JOUR 272 3 Credits  
33 hours of lecture  
Basic editing skills. Emphasis on proofreading, clarity, trimming headlines. Basic modular layout, editor responsibilities and Associated Press Style. Prerequisite: ENGL 135 (or ENGL 111) or JOUR 101. [GE]  

**SPECIAL PROJECTS**  
JOUR 290 1 - 5 Credits  
Opportunity to plan, organize, and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]  

---  

**Library**  

**RESEARCH IN THE INFORMATION AGE**  
LIBR 105 1 - 3 Credits  
33 hours of lecture  
Survey of information research techniques. Students will learn to locate, analyze, and evaluate information. Students will develop search strategies and use a variety of information, resources including the Internet and other computerized tools. Repeatable up to 3 credits. Prerequisite: Eligibility for ENGL& 101 (or ENGL 101) or consent of Department. [GE]  

**INTERNET RESEARCH AND LIVING ONLINE**  
LIBR 115 2 Credits  
22 hours of lecture  
Introduction to global networking and the Internet from the student users’ perspective, emphasizing basic skills required to do research and participate as members of the Internet community. Topics include network fundamen-
tals, strategies for locating, analyzing and evaluating information, electronic mail, Internet-based communities, social, legal and ethical issues regarding Internet interactions. [GE]

**SELECTED TOPICS**

**Machining Technology**

**BASIC GENERAL MACHINING PROCESSES**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Credits</th>
<th>Lectures</th>
<th>Lab</th>
<th>Lab</th>
</tr>
</thead>
<tbody>
<tr>
<td>MACH 111</td>
<td>5</td>
<td>22</td>
<td></td>
<td>66</td>
</tr>
</tbody>
</table>

Instruction and practical application in general shop safety, safe practices and dangers of a machine shop environment. Demonstrations of proper use of micrometers and measurement tools. Procedures for deburring parts. Types of drill bits and their uses. Drill bit sharpening. Use of bandsaws and bandsaw blade welders. [GE]

**BASIC ENGINE LATHE PROCESSES I**

<table>
<thead>
<tr>

<th>Lab</th>
<th>Lab</th>
</tr>
</thead>
<tbody>
<tr>
<td>MACH 112</td>
<td>5</td>
<td>22</td>
<td></td>
<td>66</td>
</tr>
</tbody>
</table>

Instruction and practical application of engine lathe nomenclature and safety. Calculate speeds and feeds for use with an engine lathe. Setup and operation of engine lathe for the basic operations of turning, facing and drilling. Prerequisite: A grade of “C” or better in MACH 111 or concurrent enrollment in MACH 111. [GE]

**BASIC VERTICAL MILLING PROCESSES I**

<table>
<thead>
<tr>
<th>Course Code</th>

<th>Lectures</th>
<th>Lab</th>
<th>Lab</th>
</tr>
</thead>
<tbody>
<tr>
<td>MACH 113</td>
<td>5</td>
<td>22</td>
<td></td>
<td>66</td>
</tr>
</tbody>
</table>

Instruction and practical application using nomenclature and safety for the vertical mill. Setup indicators and edge finders. Operations to include squaring of a work piece, drilling and reaming holes in various materials. Prerequisite: A grade of “C” or better in MACH 111 or concurrent enrollment in MACH 111. [GE]

**BASIC SURFACE GRINDER PROCESSES I**

<table>
<thead>
<tr>

<th>Lectures</th>
<th>Lab</th>
<th>Lab</th>
</tr>
</thead>
<tbody>
<tr>
<td>MACH 121</td>
<td>5</td>
<td>22</td>
<td></td>
<td>66</td>
</tr>
</tbody>
</table>

Instruction and practice to safely use the surface grinders. Instruction of nomenclature for surface grinders. The use and care of handtools for inspection and setup of the surface grinder. Identify and safely use grinding wheels. Setup workpiece and grind material parallel. Prerequisite: MACH 111. [GE]

**BASIC ENGINE LATHE PROCESSES II**

<table>
<thead>
<tr>
<th>Course Code</th>

<th>Lectures</th>
<th>Lab</th>
<th>Lab</th>
</tr>
</thead>
<tbody>
<tr>
<td>MACH 123</td>
<td>5</td>
<td>22</td>
<td></td>
<td>66</td>
</tr>
</tbody>
</table>

Instruction and practical application using the vertical mill for drilling procedures, squaring of a workpiece, and reaming operations. Practice in machine setups to complete these operations. Prerequisite: MACH 111 and MACH 113. [GE]

**BASIC SURFACE GRINDER PROCESSES II**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Credits</th>
<th>Lectures</th>
<th>Lab</th>
<th>Lab</th>
</tr>
</thead>
<tbody>
<tr>
<td>MACH 131</td>
<td>5</td>
<td>22</td>
<td></td>
<td>66</td>
</tr>
</tbody>
</table>

Instruction and practical application using the surface grinder to grind a workpiece flat and parallel, setup and operation to dress various shapes on grinding wheels. Prerequisite: MACH 111 and MACH 121. [GE]

**BASIC ENGINE LATHE PROCESSES III**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Credits</th>
<th>Lectures</th>
<th>Lab</th>
<th>Lab</th>
</tr>
</thead>
<tbody>
<tr>
<td>MACH 132</td>
<td>5</td>
<td>22</td>
<td></td>
<td>66</td>
</tr>
</tbody>
</table>

Instruction and practical application using the engine lathe with four jaw chucks, cutting multiple start and acme threads. Use of formulas and different methods for cutting tapers. Prerequisite: MACH 111, MACH 112 and MACH 122. [GE]
BASIC VERTICAL MILLING PROCESSES III
MACH 133  5 Credits  22 hours of lecture  66 hours of lab
Instruction and practical application using the vertical milling machine with an indexing head. Application of form cutting tools, keyway cutters, and face milling. Prerequisite: MACH 111, MACH 113 and MACH 123 [GE]

COOPERATIVE WORK EXPERIENCE
MACH 199  1 - 5 Credits  165 hours of clinical
Supervised work experience in an approved job. Completion of specific learning objectives and employer evaluation. Completion of, or concurrent enrollment in, HDEV 195, 198, or 200 required. Prerequisite: Consent of Instructional Unit. [GE]

ELEMENTARY METALLURGY
MACH 235  2 Credits  22 hours of lecture
Introduction to physical metallurgy, oriented towards the machinist trade. Covers destructive and non-destructive testing, steel manufacturing and its classification, identification methods, alloy steel, cast and wrought iron, heat treating. Concurrent enrollment in MACH 236 required. Cannot receive credit for MTEC 235 and WELD 235 and MACH 235. [GE]

ELEMENTARY METALLURGY LAB
MACH 236  2 Credits  44 hours of lab
Application of concepts and topics covered in MACH 235, including metallography, heat treatment, and testing of materials. Concurrent enrollment in MACH 235 required. Cannot receive credit for MTEC 236 and WELD 236 and MACH 236. [GE]

ADVANCED PRECISION MEASUREMENT
MACH 241  5 Credits  22 hours of lecture  66 hours of lab
Introducing the concepts and vocabulary of basic measuring systems and tools, basic tolerance, print reading, calibration fundamentals, surface measurements, threads and thread inspection, hole inspection, optical comparator operation and use, CMM operation and use and GD&T basics and inspection techniques. All required modules will be completed on the Tooling U website. Before moving on, the student will complete each module with 80% or higher and a certificate.

INTRO TO CNC LATHE CONVERSATIONAL PROGRAMMING
MACH 242  5 Credits  22 hours of lecture  66 hours of lab
Setup and operation of Haas TL-1 CNC Lathe. Creating and editing Intuitive Programming System conversational programs. Prerequisite: Completion of the 100-level Machining series or consent of Instructional Unit.

INTRO TO CNC MILL CONVERSATIONAL PROGRAMMING
MACH 243  5 Credits  22 hours of lecture  66 hours of lab
Setup and operation of TRAK bed mill. Creating and editing PROTO TRAK conversational programs. Prerequisite: Completion of the 100-level Machining series or consent of Instructional Unit.

TOOLING CONCEPTS
MACH 251  5 Credits  22 hours of lecture  66 hours of lab
Concepts of metal removal, quality systems, and workholding.

CNC LATHE SETUP AND OPERATION
MACH 252  5 Credits  22 hours of lecture  66 hours of lab
Instruction and practical application for the safe setup, operation, and Interactive Graphics Function programming of Okuma CNC lathe. Produce and edit NC programs on the CNC lathe. Cannot receive credit for both MACH 252 and 222. Prerequisite: Completion of the 100-level Machining series or consent of Instructional Unit.
CNC MILLING SETUP AND OPERATION
MACH 253 5 Credits 22 hours of lecture 66 hours of lab
Setup and operation of the Haas vertical mill. Manually create and edit M and G code numerical control programs for the Haas vertical mill. Cannot receive credit for both MACH 253 and 213. Prerequisite: Completion of the 100-level Machining series or consent of Instructional Unit.

ADVANCED EDM PROCESSES
MACH 261 5 Credits 22 hours of lecture 66 hours of lab
Instruction and practical application for the safe setup, operation, and Mastercam software programming of the Charmilles Wire Electric Discharge Machine (EDM). Produce and edit Mastercam NC programs for the Charmilles Wire EDM. Cannot receive credit for both MACH 261 and 231. Prerequisite: Completion of the 100-level Machining series or consent of Instructional Unit.

ADVANCED CNC LATHE PROGRAMMING
MACH 262 5 Credits 22 hours of lecture 66 hours of lab
Instruction and practical application for the safe setup, operation, and Mastercam software programming of Okuma CNC lathe. Produce and edit Mastercam NC programs for the Okuma CNC lathe. Cannot receive credit for both MACH 262 and 232. Prerequisite: Completion of the 100-level Machining series or consent of Instructional Unit.

ADVANCED MILLING 3D PROGRAMMING AND MACHINING
MACH 263 5 Credits 22 hours of lecture 66 hours of lab
Use 2D and 3D geometry within cam software (Mastercam) to produce CNC programs for vertical mills. Cannot receive credit for both MACH 263 and 233. Prerequisite: Completion of the 100-level Machining series or consent of Instructional Unit.

SELECTED TOPICS
MACH 280 1 - 5 Credits 55 hours of lecture
Selected topics in Machining as listed in the quarterly class schedule. Repeatable for credit. Prerequisite: Consent of Instructional Unit. [GE]

SPECIAL PROJECTS
MACH 290 1 - 6 Credits
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]

Management

PRINCIPLES OF MANAGEMENT
MGMT 101 3 Credits 33 hours of lecture
Introduction to management theory, functions, and topics to include diversity, leading change, decision making, and team work. Focus on practical applications, useful to both new and experienced managers. [GE]

APPLIED MANAGEMENT SKILLS
MGMT 103 3 Credits 33 hours of lecture
Developing concepts and skills in employee motivation, communication, and supervisory leadership. Promoting effective relations and performance in the work group. Case discussions and role situations develop understanding of individual and group problems encountered by the supervisor. [GE]

MOTIVATION AND PERFORMANCE
MGMT 106 3 Credits 33 hours of lecture
Review of motivational factors of human relations used to enhance motivation and interpersonal communications; focus on the ways motivation impacts the success or failure of organizations. [GE]
SUPERVISORY COMMUNICATION I, WRITTEN
MGMT 107 3 Credits 33 hours of lecture
Review of writing mechanics covering grammar, punctuation, and sentence and paragraph structure. Students practice writing effective business letters, documentation, supervisory reports, office memoranda, and bulletins. [GE]

CREATIVE PROBLEM SOLVING
MGMT 110 3 Credits 33 hours of lecture
Review of the creative and analytical thinking necessary for effective problem-solving in the workplace. Concepts include left/right brain thinking, stages in the creative process, habits that hinder thinking and producing ideas, the role of criticism, and effective communication of solutions. [GE]

CONFLICT MANAGEMENT
MGMT 112 2 Credits 22 hours of lecture
Study of the factors causing conflicts and ways to resolve them. Conflict with individuals and groups, conflict management styles, and win-win situations. [GE]

HUMOR IN THE WORKPLACE
MGMT 113 1 Credit 11 hours of lecture
Study of the importance of laughter and humor in the workplace to build human connections, improve individual and corporate health, kindle creativity, and establish a positive work environment. [GE]

SUPERVISOR AS A TRAINER COACH
MGMT 120 3 Credits 33 hours of lecture
Study of the supervisor’s role in the training and professional of employees. Topics include identifying training needs, selecting the appropriate type of training, distinguishing between training and coaching situations, and supporting employees to improve performance. Activities include practical training and coaching techniques. [GE]

LEADERSHIP PRINCIPLES
MGMT 122 3 Credits 33 hours of lecture
Developing practical leadership skills to influence the organizational performance for managers and non-managers. Topics include leadership roles and styles; the communication process; team building and group interactions; and organizational politics, power, and influence. Applications include leading in business, not-for-profit organizations, clubs, and social organizations. [GE]

TEAM BUILDING AND GROUP BEHAVIOR
MGMT 125 3 Credits 33 hours of lecture
Methods for creating, developing, and nurturing work groups and teams in the workplace to achieve organizational objectives. Focus on the effective roles of the supervisor and team members. Topics include group behavior for problem-solving, group learning, conflict resolution, and team interactions and communications. [GE]

PROJECT MANAGEMENT
MGMT 126 4 Credits 44 hours of lecture
Introduction to current practices in successful project management and in creating a quality project plan. Case examples provide the opportunity for first-hand practice in developing the individual steps of a project cycle, using current software in project management. [GE]

HUMAN RESOURCES MANAGEMENT
MGMT 128 3 Credits 33 hours of lecture
Developing an understanding of the functions and skills needed by supervisors concerning employment recruitment, selection and placement, staff planning and development, job descriptions and analysis, promotions, transfers, separations, wage and salary administration, and EEO requirements. [GE]
LEGAL ISSUES IN EMPLOYEE RELATIONS
MGMT 132 3 Credits 33 hours of lecture
Study of human resource topics such as employment law, hiring, discrimination, employment-at-will, drug testing, health insurance, unemployment, worker’s compensation, wages and hours; and civil rights. Focus on due process for both public and private employees, including labor relations and collective bargaining. [GE]

PRODUCTION AND OPERATIONS MANAGEMENT
MGMT 133 3 Credits 33 hours of lecture
Techniques for improving productivity and quality and reducing waste. Topics include measuring quality and productivity, process definition and control, problem-solving, continuous improvement, and personal productivity for the production and service environment. [GE]

COORDINATE WORK EXPERIENCE
MGMT 199 1 - 5 Credits 165 hours of clinical
Up to 5 credits for supervised work training in an approved job. Completion of or concurrent enrollment in BTEC 147 or HDEV 195, 198, or 200 required. Prerequisite: Completion of one class with a “C” or better in Business, Economics, or Management. Written consent of Instructional Unit. [GE]

SELECTED TOPICS
MGMT 280 1 - 5 Credits 55 hours of lecture
Varying topics in supervisory management, as listed in the quarterly class schedule. May be repeated for credit. [GE]

SPECIAL PROJECTS
MGMT 290 1 - 5 Credits
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]

Mathematics

PRE-ALGEBRA
MATH 030 5 Credits 55 hours of lecture
An introduction to algebra, solving equations, the integers, fractions, decimals, ratios, proportions, percents, basic geometry, and measurement. Prerequisite: A grade of “C” or better in CAP 045 or DVED 023 or recommending score on placement test.

INDUSTRIAL MATHEMATICS
MATH 085 5 Credits 55 hours of lecture
Mathematical calculations used in industry. Determining ratio and proportion, taper calculations, weights and measures, areas and volumes, circles, angles, triangles, percentages, and metric conversions. Prerequisite: A grade of “C” or better in DVED 023 or recommending score on placement test or consent of Instructional Unit.

ALGEBRA I
MATH 089 5 Credits 55 hours of lecture
Numeric and algebraic expressions, linear equations and inequalities, in one variable, the coordinate plane, lines, systems of linear equations and inequalities in two variables, introduction to functions. Prerequisite: A grade of “C” or better in MATH 030 or recommending score on placement test.

ELEMENTARY ALGEBRA
MATH 099 5 Credits 55 hours of lecture
Numeric and algebraic expressions, linear equations and inequalities, in one variable, the coordinate plane, lines, systems of linear equations and inequalities in two variables, functions, integer exponents, polynomials. Designed for the student who is prepared to take algebra at an accelerated pace. Prerequisite: A grade of “C” or better in MATH 030 or recommending score on placement test.
ALGEBRA II
MATH 091 5 Credits 55 hours of lecture
A continuation of MATH 089. Integer exponents, polynomials, factoring, rational expressions, evaluating and graphing functions. Prerequisite: A grade of "C" or better in MATH 089 or MATH 090 or eligibility for MATH 095.

ALGEBRA III
MATH 093 5 Credits 55 hours of lecture
A continuation of MATH 091. Radical expressions, rational exponents, quadratic equations, exponential and logarithmic functions. Prerequisite: A grade of "C" or better in MATH 091.

INTERMEDIATE ALGEBRA
MATH 095 5 Credits 55 hours of lecture
A continuation of MATH 090. Factoring, rational expressions, radical expressions, rational exponents, quadratic equations, exponential and logarithmic functions. Designed for the student who is prepared to take algebra at an accelerated pace. Prerequisite: A grade of "C" or better in MATH 090 or recommending score on placement test.

INTERMEDIATE ALGEBRA IN SOCIETY
MATH 097 5 Credits 55 hours of lecture
Polynomials, dimensional analysis, proportions, functions, radicals, quadratic equations and inequalities, exponential and logarithmic functions, and an introduction to statistics, in preparation for MATH& 107. This course may only be used as a prerequisite for MATH& 107. Prerequisite: A grade of "C" or better in MATH 089 or MATH 090 or recommending score on placement test.

TECHNICAL MATHEMATICS I
MATH 098 3 Credits 33 hours of lecture
Calculations with fractions, decimals, percents, powers, roots and signed numbers; systems of measurement; precision and accuracy; scientific and engineering notation; solution of linear equations; manipulation of formulas and algebraic fractions; right triangle trigonometry; use of graphing calculator. Prerequisite: A grade of "C" or better in MATH 090 or MATH 091, or recommending score on placement test.

TECHNICAL MATHEMATICS II
MATH 099 3 Credits 33 hours of lecture
Graphs of linear and non-linear functions; variation; systems of equations; unit circle trigonometry; vectors and phasors; complex numbers; exponential and logarithmic functions; use of graphing calculator. Prerequisite: A grade of "C" or better in MATH 090 or MATH 091, or recommending score on placement test.

COLLEGE TRIGONOMETRY
MATH 103 5 Credits 55 hours of lecture
Trigonometric ratios, right angle trigonometry, law of sines, law of cosines, radian measure, trigonometric identities, inverse trigonometric functions, trigonometric equations, graphs of trigonometric functions, polar coordinates, and two-dimensional vectors. Prerequisite: A grade of "C" or better in MATH 093, or 095, or recommending score on placement test. [Q, SE]

FINITE MATHEMATICS
MATH 105 5 Credits 55 hours of lecture
Lines; linear systems; matrices; linear programming using geometric and simplex methods; mathematics of finance; polynomial, rational, exponential and logarithmic functions and models. Prerequisite: A grade of "C" or better in MATH 093 or 095, or recommending score on placement test. [Q, SE]

MATH IN SOCIETY
MATH&107 5 Credits 55 hours of lecture
Philosophy of mathematics and concepts of numerical relationships. Mathematical systems, logic, set theory, inductive and deductive reasoning, scientific attitudes, elementary properties of mathematics. Geometry and history of mathematics will be covered as time allows. For students who do not plan to take more mathematics. One field trip
may be required. Prerequisite: A grade of “C” or better in MATH 093 or 095 or 097, or recommending score on placement test. [Q, SE]

**COLLEGE ALGEBRA**
MATH 111 5 Credits 55 hours of lecture
An introduction to functions from symbolic, numerical, and graphical points of view. Topics include polynomial; logarithmic, and exponential functions; inequalities, absolute value equations and inequalities, systems of equations, conic sections, and mathematical modeling. This is a challenging and technical course primarily intended for those majoring in Mathematics, Physical Science or Engineering. It is a preparatory class for the four-term Calculus series. Prerequisite: A grade of “C” or better in MATH 093 or 095, or recommending score on placement test. [Q, SE]

**MATH FOR ELEMENTARY TEACHERS**
MATH 122 5 Credits 55 hours of lecture
The first of a three-quarter sequence of courses designed for prospective elementary school teachers. Focus on problem solving, set theory, numeration systems, whole number arithmetic, and fractions. Prerequisite: A grade of “C” or better in MATH 093 or MATH 095, or recommending score on placement test. [Q, SE]

**MATH FOR ELEMENTARY TEACHERS**
MATH 123 5 Credits 55 hours of lecture
The second of a three-quarter sequence of courses designed for prospective elementary school teachers. Focus on geometric shapes, measurement, triangle congruence and similarity, coordinate geometry, transformations, trigonometry and geometric problem solving. May be taken concurrently with MATH 124, the third course in the sequence. Prerequisite: A grade of “C” or better in MATH 122. [Q, SE]

**MATH FOR ELEMENTARY TEACHERS**
MATH 124 5 Credits 55 hours of lecture
The third of a three-quarter sequence of courses designed for prospective elementary school teachers. Focus on integers, decimals, number theory; elementary statistics, combinatorics and probability; functions and their graphs. Study of data analysis and probability including problem solving techniques and concepts in algebra. May be taken concurrently with MATH 123, the second course in the sequence. Prerequisite: A grade of “C” or better in MATH 122. [Q, SE]

**CALCULUS FOR LIFE SCIENCES**
MATH 140 6 Credits 66 hours of lecture
Survey of differentiation and integration with applications to problems in Biology and Environmental Science. Prerequisite: A grade of “C” or better in MATH 103 and 111, or recommending score on placement test. Please see advisor for transferability. [Q, SE]

**BUSINESS CALCULUS**
MATH&148 5 Credits 55 hours of lecture
Introductory calculus with applications for business, life sciences, and social sciences. Differential, integral, and elementary multivariate calculus. Credit allowed for only one of MATH 140, MATH 106 and MATH& 148. Prerequisite: A grade of “C” or better in MATH 105 or 111 or recommending score on placement test. [Q, SE]

**CALCULUS I**
MATH&151 5 Credits 55 hours of lecture
The first course in the four quarter calculus sequence intended primarily for students of mathematics, the physical sciences, or engineering. Covers the foundations of calculus of a single variable. Topics include limits, differentiation, applications of differentiation to properties of functions and their graphs, solving real-world problems, and the basics of integration. Credit not allowed for both MATH 113 and MATH& 151. Prerequisite: A grade of “C” or better in MATH 103 and MATH 111, or recommending score on placement test. [Q, SE]
CALCULUS II
MATH&152 5 Credits 55 hours of lecture
Second course in the four quarter calculus sequence intended primarily for students of mathematics, the physical sciences, or engineering. Topics include techniques of integration, applications of integration, conics, parametric equations, polar coordinates, and polar equations. Credit not allowed for both MATH 211 and MATH& 152. Prerequisite: A grade of “C” or better in MATH& 151 (MATH 113). [Q, SE]

CALCULUS III
MATH&153 5 Credits 55 hours of lecture
Third course in the four quarter calculus sequence intended for students of mathematics, the physical sciences, or engineering. Topics include sequences and series, three-dimensional vectors and lines, planes, cylindrical and spherical coordinates; and vector valued functions and their derivatives, integrals, and applications. Credit not allowed for both MATH 212 and MATH& 153. Prerequisite: A grade of “C” or better in MATH& 152 (MATH 211). [Q, SE]

COOPERATIVE WORK EXPERIENCE
MATH 199 1 - 5 Credits 165 hours of clinical
Supervised work experience in an approved job. Completion of specific learning objectives and employer evaluation. Completion of, or concurrent enrollment in, HDEV 195, 198, or 200 required. Prerequisite: Consent of Instructional Unit. [GE]

DESCRIPTIVE STATISTICS
MATH 203 3 Credits 33 hours of lecture
Descriptive methods, probability, binomial and normal probability distributions are included among other statistical topics with applications to fields of science, engineering, business, social science, and education. Credit allowed for only one of MATH 203 or BUS 203. Prerequisite: A grade of “C” or better in MATH 093 or 095, or recommending score on placement test. [Q, SE]

INFERENTIAL STATISTICS
MATH 204 3 Credits 33 hours of lecture
Estimation of parameters, tests of hypotheses, regression analysis, nonparametric statistics and analysis of variance are included in this continuation of MATH 203. Applications in science, engineering, business, social science and education. Credit allowed for only one of MATH 204 or BUS 204. Prerequisite: A grade of “C” or better in MATH 093 or 095, or recommending score on placement test. [Q, SE]

DISCRETE MATHEMATICS
MATH 205 5 Credits 55 hours of lecture
Study of finite systems. Topics chosen from set theory, logic, relations, combinatorics, number systems, algorithms, graph theory, and automata. Credit not allowed for both MATH 205 and MATH 206. Prerequisite: A grade of “C” or better in MATH 111 or recommending score on placement test. [Q, SE]

LINEAR ALGEBRA
MATH 215 5 Credits 55 hours of lecture
An introduction to Linear Algebra. This course is intended primarily for students of Mathematics, the Physical Sciences, or Engineering. Topics include systems of linear equations, matrices, linear transformations, vectors, vector spaces, eigenvalues, and orthogonality. Applications will also be explored. Credit not allowed for both MATH 215 and MATH 216. Prerequisite: A grade of “C” or better in MATH& 152 (MATH 211). [Q, SE]

DIFFERENTIAL EQUATIONS
MATH 221 5 Credits 55 hours of lecture
Elementary theory and applications of ordinary differential equations. Linear equations, linear systems, Laplace transforms, boundary value problems, series and iterative methods. Credit not allowed for both MATH 221 and MATH 241. Prerequisite: Concurrent enrollment in MATH& 254 (MATH 213) or a grade of “C” or better in MATH& 254 (MATH 213). [Q, SE]
CALCULUS IV  
MATH&254  
5 Credits  
55 hours of lecture  
Fourth course in the four quarter calculus sequence intended primarily for students of mathematics, the physical sciences, or engineering. Covers the calculus of functions of several variables. Topics include limits; partial derivatives, iterated integrals, and their applications, vector fields; gradient; divergence and curl; line and surface integrals; and classic vector calculus theorems. Credit not allowed for both MATH 213 and MATH& 254. Prerequisite: A grade of “C” or better in MATH& 153 (or MATH 212). [Q, SE]

SELECTED TOPICS  
MATH 280  
1 - 5 Credits  
55 hours of lecture  
Selected topics in mathematics. Topics vary and course theme and content change to reflect new topics. Because the course varies in content, it is repeatable for credit. Individual topics are listed in the quarterly class schedules. [SE]

SPECIAL PROJECTS  
MATH 290  
1 - 5 Credits  
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]

---

Mechatronics

INDUSTRIAL SAFETY  
MTX 100  
1 Credit  
11 hours of lecture  
Introduction to the general safety practices and information needed while working in a manufacturing setting. Material will include federal safety regulations, safe operations and practices in the technical crafts of the industry. Concurrent enrollment in MTX 101 or consent of Instructional Unit. Prerequisite: A grade of “C” or better in MATH 030 or recommending score on placement test.

DC FUNDAMENTALS  
MTX 101  
3 Credits  
11 hours of lecture  
44 hours of lab  
Fundamentals of DC circuits with emphasis on algebraic analysis of resistive networks. Includes hands-on experience in DC circuit construction, measurement and troubleshooting. Concurrent enrollment in MTX 100 or consent of Instructional Unit. Prerequisite: A grade of “C” or better in ENGL 098 or equivalent placement score, MATH 090 or higher. [GE]

AC FUNDAMENTALS  
MTX 102  
3 Credits  
11 hours of lecture  
44 hours of lab  
Fundamentals of AC resistive, capacitive and inductive networks with emphasis placed on methods of analysis and circuit characteristics. Includes hands-on experience in AC circuit construction, measurement, and troubleshooting. Prerequisite: Successful completion of MTX 100, MTX 101, and MATH 095.

BASIC MEASUREMENT TOOLS  
MTX 103  
2 Credits  
11 hours of lecture  
22 hours of lab  
Fundamentals of measurement tools. Topics include basic measurement, S.I. and U.S. customary measurement, precision measurement tools and dimensional gauging. Concurrent enrollment in MTX 100 or consent of Instructional Unit. [GE]

BASIC HYDRAULICS  
MTX 105  
2 Credits  
11 hours of lecture  
22 hours of lab  
Fundamentals of hydraulics. Topics include hydraulic power systems, hydraulic circuits, principles of hydraulic pressure and flow and various types of hydraulic valves. Concurrent enrollment in MTX 100 or consent of Instructional Unit. [GE]

BASIC PNEUMATICS  
MTX 107  
2 Credits  
11 hours of lecture  
22 hours of lab  
Fundamentals of pneumatics. Topics include pneumatic power systems, basic pneumatic circuits principles of pneu-
matic pressure and flow and pneumatic speed control. Concurrent enrollment in MTX 102. Prerequisite: Successful completion of MTX 100 and MTX 101 or consent of Instructional Unit. [GE]

**ELECTRIC MOTOR CONTROL 1**

MTX 110 4 Credits 22 hours of lecture 44 hours of lab

Fundamentals of electric motor control. Topics include electrical safety, control transformers, overload protection, ladder logic, control relays, electronic sensors, and other topics related to the fundamental operation of electronic motor control. Concurrent enrollment in MTX 102. Prerequisite: Successful completion of MTX 100 and MTX 101 or consent of Instructional Unit. [GE]

**ELECTRICAL POWER DISTRIBUTION**

MTX 113 2 Credits 11 hours of lecture 22 hours of lab

Fundamentals of electrical power distribution as it relates to mechatronics. Topics include an introduction to raceways, conduit bending, rigid conduit, flexible conduit, conductors, disconnects, overcurrent protection, conduit sizing, and wire pulling techniques. Concurrent enrollment in MTX 102. Prerequisite: Successful completion of MTX 100 and MTX 101 or consent of Instructional Unit. [GE]

**MECHATRONICS 1**

MTX 117 2 Credits 11 hours of lecture 22 hours of lab

Fundamentals of mechatronics. Topics include automation operations, control systems, mechatronic safety, component adjustments, manual operation, pneumatic and electric pick and place. Prerequisite: Successful completion of MTX 102 or consent of Instructional Unit. [GE]

**MECHANICAL DRIVES 1**

MTX 120 3 Credits 22 hours of lecture 22 hours of lab

Introduction to mechanical drive systems. Topics include mechanical power transmission safety, machine installation, motor mounting, shaft speed measurement, torque and power measurement, v-belt, chain and spur gear drives and other topics as well. Advantages of each system type will be discussed and compared. Prerequisite: Successful completion of MTX 102 or consent of Instructional Unit. [GE]

**SEMICONDUCTORS I**

MTX 121 3 Credits 11 hours of lecture 44 hours of lab

Fundamentals and applications of diodes, transistors and special-purpose semiconductor devices. Includes hands-on experience in semiconductor circuit construction, measurement and troubleshooting. Prerequisite: A grade of “C” or better in MTX 101 and MTX 102 or consent of Instructional Unit. [GE]

**PICK AND PLACE ROBOT**

MTX 123 3 Credits 11 hours of lecture 44 hours of lab

Fundamentals of the pick and place robot using the SMC system. Topics include pneumatic robotic systems, preventive maintenance and troubleshooting as well as pneumatic robot control. Prerequisite: Successful completion of MTX 102 or consent of Instructional Unit. [GE]

**SERVO ROBOT**

MTX 125 3 Credits 22 hours of lecture 22 hours of lab

Introduction to the articulated arm servo robot using the SMC system. Topics include basic robot operation, teach point programming, PC software programming, application development, flexible manufacturing cells, quality control and production control. Prerequisite: Successful completion of MTX 102 or consent of Instructional Unit. [GE]

**PIPING**

MTX 127 2 Credits 11 hours of lecture 22 hours of lab

Fundamentals of piping. Topics include metal piping systems, metal piping installation, metal tubing systems and hoses. Concurrent enrollment in MTX 102. Prerequisite: Successful completion of MTX 100 and MTX 101 or consent of Instructional Unit. [GE]
PROGRAMMABLE LOGIC CONTROLLERS 1
MTX 130 4 Credits 22 hours of lecture 44 hours of lab
Introduction to programmable logic controllers. Topics include basic programming of PLCs, PLC motor control methods, discrete I/O interfacing, event sequencing, timers, counters and program control instructions. Prerequisite: Successful completion of MTX 102 or consent of Instructional Unit. [GE]

INDUSTRIAL ELECTRICAL WIRING
MTX 135 3 Credits 11 hours of lecture 44 hours of lab
Fundamentals of industrial electrical wiring. Topics include electrical prints, electrical panels, wiring between panels, wire color coding, control system wiring and wire bundling. A final grade of “C” or better is required for degree or certification consideration. Prerequisite: Successful completion of MTX 102 or consent of Instructional Unit.

MECHANICAL DRIVES 2
MTX 150 2 Credits 11 hours of lecture 22 hours of lab
Intermediate concepts of mechanical drive systems. Topics include heavy-duty v-belts, v-belt selection and maintenance, synchronous belt drives, lubrication concepts, precision shaft alignment techniques and heavy duty chain drives. Advantages of each system type will be discussed and compared. Prerequisite: A grade of “C” or better in MTX 120 or consent of Instructional Unit. [GE]

DC DRIVES
MTX 153 4 Credits 22 hours of lecture 44 hours of lab
Introduction to DC drives. Topics include DC motion control, SCR control, DC spindle drives, DC axis drives and DC pulse width modulation drives. Prerequisite: Successful completion of MTX 102 or consent of Instructional Unit. [GE]

AC DRIVES
MTX 155 4 Credits 22 hours of lecture 44 hours of lab
Introduction to AC drives: Topics include AC motion control, AC Vector drives, AC axis drives, general purpose AC drives and AC drive troubleshooting. Prerequisite: Successful completion of MTX 102 or consent of Instructional Unit. [GE]

ELECTRIC MOTOR CONTROL 2
MTX 165 4 Credits 22 hours of lecture 44 hours of lab
Introduction to electric motor control troubleshooting techniques. Techniques include control component, motor starter and systems troubleshooting methods. Related topics include various motor braking methods and power distribution. Prerequisite: A grade of “C” or better in MTX 110 or consent of Instructional Unit. [GE]

CO-OP WORK EXPERIENCE
MTX 199 1 - 5 Credits 165 hours of clinical
Work-based learning experience that enables students to apply specialized occupational theory, skills and concepts. Specific objectives are developed by the College and the employer. Prerequisite: Completion of, or concurrent enrollment in HDEV 105, 198 or 200 required. Consent of Instructional Unit. [GE]

FLOW PROCESS CONTROL
MTX 205 5 Credits 33 hours of lecture 44 hours of lab
Introduction to level/flow process control using the SMC system. Topics include process control concepts, safety, sight gauges, instrument tags, piping and instrumentation diagrams, loop controllers, final control elements, level management, liquid level control, methods of automatic control as well as other concepts. Prerequisite: Successful completion of MTX 102 with a grade of “C” or better or consent of Instructional Unit. [GE]

THERMAL PROCESS CONTROL
MTX 207 5 Credits 33 hours of lecture 44 hours of lab
Introduction to thermal process control using the SMC system. Topics include process control concepts, safety, instrument tag fundamental, piping and instrumentation diagrams, thermal energy, basic temperature control elements, final control elements, temperature sensors, and temperature transmitters. Prerequisite: Successful completion of MTX 102 with a grade of “C” or better or consent of Instructional Unit. [GE]
ELECTRO-FLUID POWER
MTX 210  4 Credits  22 hours of lecture  44 hours of lab
Fundamentals of electro-fluid power. Topics include electrical control systems, basic control devices, power devices, control relays, sequencing, timer and pressure control and circuit applications. Prerequisite: Successful completion of MTX 102 with a grade of “C” or better or consent of Instructional Unit. [GE]

MECHATRONICS 2
MTX 216  5 Credits  33 hours of lecture  44 hours of lab
Advanced concepts of manufacturing stations of the SMC system as it applies to mechatronics. Topics include flexible materials handling, robot workstations, inventory control, serial robot communications, PLC communications, barcode pallet tracking, manufacturing execution systems, manufacturing management and simulation, ethernet operation and applications. Prerequisite: Successful completion of MTX 102 with a grade of “C” or better or consent of Instructional Unit.

WORKPLACE ORGANIZATION AND PRACTICES
MTX 220  2 Credits  11 hours of lecture  22 hours of lab
Introduction to the enterprise system: topics include technology sectors, team concepts, product design, business presentation and business presentation software. Prerequisite: Successful completion of MTX 102 with a grade of “C” or better or consent of Instructional Unit. [GE]

WORK TEAMS AND PRODUCT DESIGN
MTX 223  3 Credits  22 hours of lecture  22 hours of lab
Intermediate concepts of the enterprise system. Topics include team development, team problem solving, product design analysis and engineering impacts. Prerequisite: Successful completion of MTX 102 with a grade of “C” or better or consent of Instructional Unit. [GE]

SPEED CONTROL SYSTEMS
MTX 225  2 Credits  11 hours of lecture  22 hours of lab
Introduction to speed control systems. Topics include variable frequency AC drives, VFD speed and torque, VFD acceleration, deceleration, braking, VFD fault diagnostics and troubleshooting as well as SCR motor control. Prerequisite: A grade of “C” or better in MTX 101, 102, and 121; or concurrent enrollment in MTX 101, 102, and 121; or consent of Instructional Unit. [GE]

MECHANICAL DRIVES 3
MTX 227  4 Credits  22 hours of lecture  44 hours of lab
Introduction to various bearing types as used in mechanical drive systems as well as advanced gear drives. Topics include plain bearings, ball bearings, roller bearings and anti-friction bearings, as well as gaskets and seals and advanced gear drives. Prerequisite: A grade of “C” or better in MTX 150 or consent of Instructional Unit. [GE]

LASER ALIGNMENT
MTX 230  2 Credits  11 hours of lecture  22 hours of lab
Introduction to the concept and proper practices of laser alignment. Topics include laser shaft alignment, including rough and precision alignment, soft foot correction and analysis. Prerequisite: Successful completion of MTX 102 with a grade of “C” or better or consent of Instructional Unit. [GE]

ADVANCED PROGRAMMABLE LOGIC CONTROLLERS
MTX 250  4 Credits  22 hours of lecture  44 hours of lab
Intermediate concepts of Programmable Logic Controls. Topics include analog input and output modules, analog scaling, network concepts, an introduction to Panelview and remote I/O concepts. Prerequisite: A grade of “C” or better in MTX 130, or equivalent, or consent of Instructional Unit. [GE]

ADVANCED HYDRAULICS
MTX 255  3 Credits  11 hours of lecture  44 hours of lab
Advanced concepts of hydraulics. Topics include hydraulic directional control valves, hydraulic cylinder applications, relief valves, check valves and accumulators. Prerequisite: A grade of “C” or better in MTX 105 or consent of Instructional Unit. [GE]
ADVANCED PNEUMATICS AND VACUUM
MTX 260 3 Credits 22 hours of lecture 22 hours of lab
Advanced concepts of pneumatics and vacuum concepts as well as troubleshooting as they apply to industry standards using the SMC training system. Topics include moving loads pneumatically, vacuum systems, air compressors, air preparation troubleshooting, troubleshooting pneumatic cylinders, motor and rotary actuator troubleshooting, vacuum system troubleshooting and other topics as well. Prerequisite: A grade of "C" or better in MTX 107, equivalent, or consent of Instructional Unit. [GE]

CAPSTONE
MTX 270 3 Credits 66 hours of lab
Integration of Mechatronics course concepts and skills. Activities include five weeks of lab time for a student team to create a manufacturing scenario using the SMC automated manufacturing equipment. Prerequisite: Consent of Instructional Unit. [GE]

PROJECT MANAGEMENT AND LEAN MANUFACTURING
MTX 285 2 Credits 11 hours of lecture 22 hours of lab
Introduction to project management within the enterprise system. Various topics include project management, lean manufacturing and industrial engineering systems. Prerequisite: Successful completion of MTX 102 with a grade of "C" or better or consent of Instructional Unit. [GE]

SPECIAL PROJECTS
MTX 290 1 - 5 Credits
Opportunity to plan, organize, and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]

ORGANIZATIONAL ENTREPRENEURSHIP
MTX 295 3 Credits 22 hours of lecture 22 hours of lab
Introduction to economics and marketing techniques applicable to the business enterprise. Topics include enterprise economics, marketing basics and entrepreneurship. Prerequisite: A grade of "C" or better in MTX 101, 102, 121; or concurrent enrollment in MTX 101, 102, and 121; or consent of Instructional Unit. [GE]

Medical Radiography

RADIOGRAPHIC SKILL ENHANCEMENT LAB I
MRAD 011 1 Credit 22 hours of lab
Supervised lab experience for skill enhancement in radiographic positioning, evaluation of radiographic procedures, technique, and equipment for the first year medical radiography student. Concurrent enrollment in the Medical Radiography Program with a grade of “C” or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit.

RADIOGRAPHIC SKILL ENHANCEMENT LAB II
MRAD 012 1 - 5 Credits 110 hours of lab
Supervised lab experience for skill enhancement in radiographic positioning, evaluation of radiographic procedures, technique, and equipment for the second year medical radiography student. Concurrent enrollment in the Medical Radiography Program with a grade of “C” or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit.

RADIOGRAPHIC SKILL ENHANCEMENT LAB III
MRAD 013 1 Credit 22 hours of lab
Supervised lab experience for advanced skill enhancement in radiographic positioning, evaluation of radiographic procedures, technique, and equipment for the second year medical radiography student. Concurrent enrollment in the Medical Radiography Program with a grade of “C” or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit.
INTRODUCTION TO RADIOLOGIC TECHNOLOGY
MRAD 101 3 Credits 22 hours of lecture 22 hours of lab
An orientation to the radiologic technology profession, imaging equipment, radiation safety, patient care and radiographic examinations, professional development, career advancement, and professional ethics and associations. Prerequisite: Completion of, or concurrent enrollment in BIOL& 251, 252, or 253 (BIOL 231, 232, or 233). [GE]

INTRODUCTION TO PATIENT CARE
MRAD 102 5 Credits 44 hours of lecture 22 hours of lab
Patient care aspects involved in being a Radiologic Technologist. Topics include: patient interactions, history taking, transfer techniques, immobilization, vital signs and oxygen, infection control, aseptic and non-aseptic techniques. The lecture for this course, quizzes, and other materials will be online and accessed through the course webpage. The class will be divided into two on-campus lab periods. Concurrent enrollment in the Medical Radiography Program with a grade of “C” or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit. [GE]

IMAGE PROCESSING
MRAD 103 1 Credit 11 hours of lecture
Introduction to radiographic image processing using both traditional film and digital images. Topics for discussion include darkroom chemistry, equipment, and procedures and computer hardware and software in the radiology lab. Concurrent enrollment in the Medical Radiography Program with a grade of “C” or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit. [GE]

RADIATION SAFETY AND RADIOBIOLOGY
MRAD 104 2 Credits 22 hours of lecture
Introduction to proper procedures for working safely in the radiologic environment. Topics include: communication, radiation measurement, survey devices, conversion from traditional to systems international units, patient and radiographer protection, monitoring devices, safe operation of equipment, beam limitation, shielding, barriers, and fluoroscopic and mobile procedures. Concurrent enrollment in the Medical Radiography Program with a grade of “C” or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit. [GE]

RADIATION PHYSICS I
MRAD 108 3 Credits 22 hours of lecture 22 hours of lab
Focus on the fundamental principles of physics that underlie the use of radiation in diagnostic imaging. Using simplified math, and building on the concepts learned in Radiation Safety, develop a basic understanding of the production and control of X-radiation. Topics include: structure of atom, electromagnetic radiation, electrodynamics, electromagnetism, x-ray tube, x-ray production and interactions with matter. Hybrid course structure: some instruction will occur in the traditional classroom and some instruction will occur via the course website. Concurrent enrollment in the Medical Radiography Program with a grade of “C” or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit. [GE]

RADIATION PHYSICS II
MRAD 109 4 Credits 33 hours of lecture 22 hours of lab
Continuation of MRAD 108. The geometry of image formation and the radiographic qualities of density, contrast, detail and distortion. Topics include: radiographic equipment, controlling factors of density, contrast, detail and distortion, beam limiting devices and their impact on the image, grids, image receptors (analog and digital) and fundamentals of digital imaging. Includes heavy emphasis on solving problems involving radiographic qualities. This course will be structured as a hybrid course, with some instruction in the traditional classroom and some via the course website. Concurrent enrollment in the Medical Radiography Program with a grade of “C” or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit. [GE]

CLINICAL EXPERIENCE I
MRAD 121 8 Credits 264 hours of clinical
First in a series of seven competency based clinical courses. Students orient to an assigned clinical education center and by instruction, observation, and experience, acquire the necessary skills to successfully image patients utilizing
X-ray energy. Students will learn how to use the computer and PACS systems. Concurrent enrollment required in MRAD 108, 142, and 151. Concurrent enrollment in the Medical Radiography Program with a grade of “C” or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit. [GE]

**CLINICAL EXPERIENCE II**
MRAD 122 6 Credits 198 hours of clinical
Second in a series of seven competency-based clinical experience courses. Students orient to an assigned clinical site and by instruction, observation, and experience, acquire the necessary skills to successfully image patients utilizing x-ray energy. Students will be assessed for maintenance of competency from previous clinical evaluations and experiences. Concurrent enrollment in the Medical Radiography Program with a grade of “C” or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit. [GE]

**CLINICAL EXPERIENCE III**
MRAD 123 8 Credits 264 hours of clinical
Third in a series of seven competency-based experience courses. Students orient to an assigned clinical site and by instruction, observation, and experience, acquire the necessary skills to successfully image patients utilizing x-ray energy. Students will be assessed for maintenance of competency from previous clinical evaluations and experiences. Concurrent enrollment in the Medical Radiography Program with a grade of “C” or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit. [GE]

**RADIOGRAPHIC POSITIONING I**
MRAD 141 5 Credits 44 hours of lecture 22 hours of lab
Introduction to basic radiographic positioning principles, terminology, pathology, and anatomy for radiographic purposes. Lecture discussion, demonstration and lab experiences will be used to present information on positioning and anatomy of the chest, abdomen and upper extremities. Projections studied will include cross-table images for trauma exams. Radiographic compliance, ICD coding, and ABN will be discussed. Concurrent enrollment in the Medical Radiography Program with a grade of “C” or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit. [GE]

**RADIOGRAPHIC POSITIONING II**
MRAD 142 5 Credits 44 hours of lecture 22 hours of lab
Second in a five-course series that focuses on radiographic positioning principles, terminology, pathology, and anatomy for radiographic purposes. Lecture discussion, demonstration and lab experiences will be used to present information on positioning and anatomy of the shoulder, pelvic girdle, and lower limbs. Projections studied will include cross-table images for trauma exams. Radiographic compliance, ICD coding, and ABN will be discussed. Concurrent enrollment in the Medical Radiography Program with a grade of “C” or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit. [GE]

**RADIOGRAPHIC POSITIONING III**
MRAD 143 5 Credits 44 hours of lecture
Third in a five-course series that focuses on radiographic positioning principles, terminology, pathology, and anatomy for radiographic purposes. Lecture discussion, demonstration and lab experiences will be used to present information on positioning and anatomy of the bony thorax, vertebral column, and sacrum and coccyx. Projections studied will include information on performing cross-table images for trauma exams. Concurrent enrollment in MRAD 143L. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit. [GE]

**IMAGE EVALUATION I**
MRAD 151 2 Credits 22 hours of lecture
First of a four-course series of radiographic image critique involving images of the chest, abdomen, and upper extremities. Emphasis on the evaluation and critique of radiographic anatomy, exposure factors, positioning, and pathology. Concurrent enrollment in the Medical Radiography Program with a grade of “C” or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit. [GE]
**IMAGE EVALUATION II**  
MRAD 152  
1 Credit  
11 hours of lecture  
Second in a four-course series of radiographic film critique involving images of the shoulder girdle, lower extremities, and pelvic girdle. Emphasis on the evaluation of radiographic anatomy, exposure factors, positioning, and pathology. Concurrent enrollment in the Medical Radiography Program with a grade of "C" or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit. [GE]

**IMAGE EVALUATION III**  
MRAD 153  
1 Credit  
11 hours of lecture  
Third in a four-course series of radiographic film critique involving images of the bony thorax, vertebral column, and sacrum and coccyx. Emphasis on the evaluation of radiographic anatomy, exposure factors, positioning, and pathology. Concurrent enrollment in the Medical Radiography Program with a grade of "C" or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit. [GE]

**IMAGE EVALUATION IV**  
MRAD 154  
1 Credit  
11 hours of lecture  
Fourth in a four-course series of radiographic film critique involving images of the cranium, facial bones, and paranasal sinuses. Emphasis on the evaluation of radiographic anatomy, exposure factors, positioning, and pathology. Concurrent enrollment in the Medical Radiography Program with a grade of "C" or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit. [GE]

**PHARMACOLOGY AND IV THERAPY**  
MRAD 214  
3 Credits  
22 hours of lecture  
22 hours of lab  
Introduction to the pharmacological principles and practices in patient care for the medical imaging professional including administration of diagnostic contrast agents and/or intravenous medications; includes competency in venipuncture practice. Concurrent enrollment in the Medical Radiography Program with a grade of "C" or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit. [GE]

**RADIOGRAPHIC PATHOLOGY**  
MRAD 216  
3 Credits  
33 hours of lecture  
Basic terms and manifestations of pathological conditions, trauma, classifications of diseases, genetics, and the healing process. Imaging procedures and radiographic appearance as well as interventional techniques appropriate for diseases common to each body system. Concurrent enrollment in the Medical Radiography Program with a grade of "C" or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit. [GE]

**CLINICAL EXPERIENCE IV**  
MRAD 224  
8 Credits  
264 hours of clinical  
Fourth in a series of seven competency-based clinical experience courses. Students orient to an assigned clinical education center and by instruction, observation, and experience, acquire the necessary skills to successfully image patients utilizing x-ray energy. Students will be assessed for maintenance of competency from previous clinical evaluations and experience. Concurrent enrollment in the Medical Radiography Program with a grade of "C" or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit. [GE]

**CLINICAL EXPERIENCE V**  
MRAD 225  
8 Credits  
264 hours of clinical  
Fifth in a series of seven competency-based clinical experience courses. Students orient to an assigned clinical education center and by instruction, observation, and experience, acquire the necessary skills to successfully image patients utilizing x-ray energy. Students will be assessed for maintenance of competency from previous clinical evaluations and experiences. Concurrent enrollment in the Medical Radiography Program with a grade of "C" or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit. [GE]

**CLINICAL EXPERIENCE VI**  
MRAD 226  
9 Credits  
297 hours of clinical  
Sixth in a series of seven competency-based clinical experience courses. Students orient to an assigned clinical site and by instruction, observation, and experience, acquire the necessary skills to successfully image patients utilizing...
x-ray energy. Students will be assessed for maintenance of competency from previous clinical evaluations and experiences. Concurrent enrollment in the Medical Radiography Program with a grade of "C" or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit. [GE]

**CLINICAL EXPERIENCE VII**
MRAD 227 12 Credits 363 hours of clinical
Seventh in a series of seven competency-based clinical experience courses. Students orient to an assigned clinical site and by instruction, observation, and experience, acquire the necessary skills to successfully image patients utilizing x-ray energy. Students will be assessed for maintenance of competency from previous clinical evaluations and experiences. Concurrent enrollment in the Medical Radiography Program with a grade of "C" or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit. [GE]

**RADIOGRAPHIC POSITIONING IV**
MRAD 244 3 Credits 22 hours of lecture 22 hours of lab
Fourth in a five-course series that focuses on radiography positioning principles, terminology, pathology, and anatomy for radiographic purposes. Lecture discussion, demonstration and lab experiences will be used to present information on positioning and anatomy of conventional tomography, upper gastrointestinal system, lower gastrointestinal system, gallbladder and biliary ducts, urinary system, and surgical radiography. Projections studied will include cross-table images for trauma exams. Radiographic compliance, ICD coding, and ABN will be discussed. Concurrent enrollment in the Medical Radiography Program with a grade of "C" or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit. [GE]

**RADIOGRAPHIC POSITIONING V**
MRAD 245 3 Credits 22 hours of lecture 22 hours of lab
Fifth in a five-course series that focuses on radiography positioning principles, terminology, pathology, and anatomy for radiographic purposes. Lecture discussion, demonstration and lab experiences will be used to present information on positioning and anatomy of the cranium, facial bones and paranasal sinuses. Projections studied will include cross-table images for trauma exams. Radiographic compliance, ICD coding, and ABN will be discussed. Concurrent enrollment in the Medical Radiography Program with a grade of "C" or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit. [GE]

**RADIOGRAPHIC INFORMATION MANAGEMENT**
MRAD 251 2 Credits 22 hours of lecture
Fundamentals of digital radiography, Radiology Information System (RIS), and Picture Archiving and Communication System (PACS), basic Medical Imaging Information systems, CR and DR Image acquisition, manipulation and quality control. Concurrent enrollment in the Medical Radiography Program with a grade of "C" or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit. [GE]

**RADIOBIOLOGY**
MRAD 253 2 Credits 22 hours of lecture
Overview of the principles involving the interaction of radiation with living systems. Radiation effects on molecules, cells, tissues, and the body as a whole. Topics include: radiolysis of water, linear energy transfer, relative biologic effectiveness, acute radiation syndrome, effects on embryo and fetus, chromosomal aberrations, mutations, risk estimates, and carcinogenesis. Concurrent enrollment in the Medical Radiography Program with a grade of "C" or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit. [GE]

**ADVANCED MODALITIES**
MRAD 255 1 Credit 11 hours of lecture
Introduction to CT, MRI, sonography, mammography, special fluoroscopic procedures and other advanced imaging modalities including angiography and interventional. Concurrent enrollment in the Medical Radiography Program with a grade of "C" or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit. [GE]
LEADERSHIP AND MANAGEMENT
MRAD 270 1 Credit  11 hours of lecture
Introductory to leadership skills associated with patient care and management. Focus on supervision, delegation, conflict resolution, leadership styles, quality assurance, ethics, work environment, responsibility, accountability, collaboration and teamwork; as well as interviewing and resume training. Concurrent enrollment in the Medical Radiography Program with a grade of “C” or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit. [GE]

MEDICAL RADIOGRAPHY REVIEW
MRAD 275 2 Credits  22 hours of lecture
Comprehensive review class to prepare students to sit for the American Registry of Radiologic Technologists (ARRT) certification examination: radiation protection, equipment operation and quality control, image production and evaluation, radiographic procedures, and patient care and education are covered in adherence with ARRT exam specifications. Concurrent enrollment in the Medical Radiography Program with a grade of “C” or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit. [GE]

CROSS SECTIONAL ANATOMY FOR IMAGING PROFESSIONAL
MRAD 279 3 Credits  33 hours of lecture
Sectional human anatomy in the axial/transverse, sagittal, and coronal planes with emphasis on the brain, head, chest and abdominopelvic cavity. Introduction to basic CT physics. Concurrent enrollment in the Medical Radiography Program with a grade of “C” or better. Prerequisite: Admission in the Medical Radiography Program and consent of the Instructional Unit. [GE]

SELECTED TOPICS
MRAD 280 1 - 5 Credits  55 hours of lecture
Varying topics in Medical Radiography, as listed in the quarterly class schedule. May be repeated for credit. Prerequisite: Consent of Instructional Unit. [GE]

SPECIAL PROJECTS
MRAD 290 1 - 5 Credits
Opportunity to plan, organize, and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]

Meteorology

ATMOSPHERE AND THE ENVIRONMENT
METR 101 5 Credits  44 hours of lecture  44 hours of lab
Fundamental theories in meteorology and current topics in the atmospheric sciences are developed conceptually for non-science students interested in the changing environment. Topics include atmospheric structure and composition, global circulation and atmospheric motions, clouds and precipitation, weather patterns and weather prediction, tornadoes, hurricanes, the greenhouse effect, atmospheric ozone, air pollution, and El Nino. [NS, SE]

SPECIAL PROJECTS
METR 290 1 - 5 Credits
Opportunity to plan and complete special projects approved by the instructional unit. Prerequisite: Consent of Instructional Unit. [GE]

Music

SPECIAL SEMINARS
MUSC 100 1 - 5 Credits  55 hours of lecture
Special workshops on various musical topics as listed in the quarterly class schedule. [HA, SE]
BEGINNING PIANO CLASS  
MUSC 101  2 Credits  22 hours of lecture  
Beginning-level study of the piano. [HB, SE]  

MUSIC APPRECIATION  
MUSC&104  3 Credits  33 hours of lecture  
Study and understanding of music. Nonverbal explorations into the listening process, a brief look at the history of Western music, and work in formal descriptive music analysis. [HA, SE]  

MUSIC IN EARLY CHILDHOOD EDUCATION  
MUSC 106  3 Credits  33 hours of lecture  
Introduction to music as a teaching tool for young children, and to the importance of music in the educational development of children. Students develop skills in reading music, working with the musical abilities of young children, and using music in the classroom. [HB, SE]  

BEGINNING GUITAR CLASS  
MUSC 110  2 Credits  22 hours of lecture  
Beginning-level study of the guitar. [HB, SE]  

BEGINNING VOICE CLASS  
MUSC 115  2 Credits  11 hours of lecture  22 hours of lab  
Basic technique and knowledge about singing. No previous experience or music study required. [HB, SE]  

MUSIC HISTORY: MIDDLE AGES TO BAROQUE  
MUSC 116  5 Credits  55 hours of lecture  
Music of the Middle Ages, Renaissance and Baroque studied in context of its cultural and historical environment. Recordings of Gregorian chant, polyphonic music of the Renaissance (des Pres and Palestrina) and Baroque music (Bach, Frescobaldi, Corelli, Monteverdi, and Handel) listened to and studied. [HA, SE]  

MUSIC HISTORY: CLASSICAL/ROMANTIC  
MUSC 117  5 Credits  55 hours of lecture  
Music of the classical and romantic eras studied in context of its cultural and historical environment. Recordings of Haydn, Mozart, Beethoven, Schubert, Wagner, Brahms, and others listened to and studied. [HA, SE]  

MUSIC HISTORY: TWENTIETH CENTURY  
MUSC 118  5 Credits  55 hours of lecture  
Music of the twentieth century studied in context of its cultural and historical environment. Recordings and live performances. Debussy, Stravinsky, Schoenberg, Berg, Hindemith, Stockhausen, and others listened to and studied in context of 20th century culture. [SE, HA]  

EAR TRAINING 1  
MUSC&121  2 Credits  22 hours of lecture  
Learning to write what is heard in melodic and intervallic ways. Sight singing and chord recognition. Develops rhythmic, melodic, and harmonic perception skills through dictation, sight singing and drill. [HB, SE]  

EAR TRAINING 2  
MUSC&122  2 Credits  22 hours of lecture  
Continuation of MUS 144. Learning to write what is heard in melodic and intervallic ways. Sight-singing and chord recognition. Develops rhythmic, melodic, and harmonic perception skills through dictation, sight-singing and drill. Prerequisite: MUS 144 or consent of Instructional Unit. [HB, SE]  

EAR TRAINING 3  
MUSC&123  2 Credits  22 hours of lecture  
Learning to write what is heard in melodic and intervallic ways. Sight-singing and chord recognition. Prerequisite: MUS 145 or consent of Instructional Unit. [HB, SE]
ROCK MUSIC
MUSC 125  3 Credits  33 hours of lecture
Rhythm, melody, harmony, timbre, text uses, and form in current rock music. Problems and definitions of these elements with illustrations from various styles of rock music. [HA, SE]

WORLD FOLK MUSIC
MUSC 127  3 Credits  33 hours of lecture
Folk music in selected cultures beginning with the Anglo-American folk song. Music and cultural values. Role of music in folk cultures. Appreciation of differences in music styles as they relate to their social settings. [HA, SE]

MUSIC APPRECIATION
MUSC 128  3 Credits  33 hours of lecture
Study and understanding of music. Nonverbal explorations into the listening process, a brief look at the history of Western music, and work in formal descriptive music analysis. [HA, SE]

JAZZ APPRECIATION
MUSC 135  3 Credits  33 hours of lecture
Jazz Appreciation is intended to provide students with relevant and compelling facts about jazz that illustrate its colorful history, its mixture of ethnic diversity, and the impact the music has had on American popular culture. The class utilizes multimedia presentations and music examples to guide students through an interactive process of learning how to listen to jazz, a chronology of significant jazz periods, the societal events that impact each period, and the biographies and significance of key musicians. [HA, SE]

CLARK COLLEGE CHORALE
MUSC 137  1 - 2 Credits  11 hours of lecture  22 hours of lab
The Clark College Chorale performs a wide variety of choral literature including classical masterworks and non-classical genres for both male and female as well as mixed-voicing choral music. Open to all students and community members, the Chorale performs a minimum of one concert per term with possible additional performances. Prerequisite: Audition or consent of Instructional Unit. [HB, SE]

CLARK COLLEGE CHORALE
MUSC 138  1 - 2 Credits  11 hours of lecture  22 hours of lab
The Clark College Chorale performs a wide variety of choral literature including classical masterworks and non-classical genres for both male and female as well as mixed-voicing choral music. Open to all students and community members, the Chorale performs a minimum of one concert per term with possible additional performances. Prerequisite: Audition or consent of Instructional Unit. [HB, SE]

CLARK COLLEGE CHORALE
MUSC 139  1 - 2 Credits  11 hours of lecture  22 hours of lab
The Clark College Chorale performs a wide variety of choral literature including classical masterworks and non-classical genres for both male and female as well as mixed-voicing choral music. Open to all students and community members, the Chorale performs a minimum of one concert per term with possible additional performances. Prerequisite: Audition or consent of Instructional Unit. [HB, SE]

MUSIC THEORY I
MUSC&141  5 Credits  55 hours of lecture
First-year musicianship. Sound sources and nature of sound. Writing skills and use of musical symbol-notation. Basic vocabulary of music. Introduction to forms, composition, and analysis. Open to all students. Concurrent enrollment in MUSC& 121 required. [HA, SE]

MUSIC THEORY II
MUSC&142  5 Credits  55 hours of lecture
Continuation of MUSC& 141. Addition to the I 6-4, II, VI, III chords to harmonic tones, ear training in melodic and rhythmic concepts. Intervals and introduction to the keyboard. Concurrent enrollment in MUSC& 122 required. Prerequisite: MUSC& 141 or consent of Instructional Unit. [HA, SE]
MUSIC THEORY III
MUSC&143 5 Credits  55 hours of lecture
Continuation of MUSC& 142. Chromatic chords, popular song forms and jazz-related harmonies and forms. Concurrent enrollment in MUSC& 123 required. Prerequisite: MUSC& 142 or consent of Instructional Unit. [HA, SE]

ORCHESTRA
MUSC 150 1 - 2 Credits  11 hours of lecture  22 hours of lab
Performance of orchestral literature from a variety of periods and styles. [HB, SE]

ORCHESTRA
MUSC 151 1 - 2 Credits  11 hours of lecture  22 hours of lab
Performance of orchestral literature from a variety of periods and styles. [HB, SE]

ORCHESTRA
MUSC 152 1 - 2 Credits  11 hours of lecture  22 hours of lab
Performance of orchestral literature from a variety of periods and styles. [HB, SE]

WOMEN'S CHORAL ENSEMBLE
MUSC 153 1 - 2 Credits  11 hours of lecture  22 hours of lab
Performance of choral music from a variety of periods and styles written for women's voices. Prerequisite: Audition or consent of Instructional Unit. [HB, SE]

WOMEN'S CHORAL ENSEMBLE
MUSC 154 1 - 2 Credits  11 hours of lecture  22 hours of lab
Performance of choral music from a variety of periods and styles written for women's voices. Prerequisite: Audition or consent of Instructional Unit. [HB, SE]

WOMEN'S CHORAL ENSEMBLE
MUSC 155 1 - 2 Credits  11 hours of lecture  22 hours of lab
Performance of choral music from a variety of periods and styles written for women's voices. Prerequisite: Audition or consent of Instructional Unit. [HB, SE]

APPLIED VOICE
MUSC 170 1 Credit  11 hours of lecture
Private voice lessons with a college-approved teacher. Prerequisite: Written consent of Instructional Unit required. [HB, SE]

APPLIED VOICE
MUSC 171 1 Credit  11 hours of lecture
Private voice lessons with a college-approved teacher. Prerequisite: Written consent of Instructional Unit required. [HB, SE]

APPLIED VOICE
MUSC 172 1 Credit  11 hours of lecture
Private voice lessons with a college-approved teacher. Prerequisite: Written consent of Instructional Unit required. [HB, SE]

APPLIED PIANO
MUSC 173 1 Credit  11 hours of lecture
For students with some previous keyboard experience. Prerequisite: MUS 201 and written consent of Instructional Unit required. [HB, SE]

APPLIED PIANO
MUSC 174 1 Credit  11 hours of lecture
For students with some previous keyboard experience. Prerequisite: MUS 201 and written consent of Instructional Unit required. [HB, SE]
APPLIED PIANO  
MUSC 175 1 Credit 11 hours of lecture  
For students with some previous keyboard experience. Prerequisite: MUS 201 and consent of Instructional Unit. [HB, SE]

APPLIED INSTRUMENT  
MUSC 176 1 Credit 11 hours of lecture  
Private lessons with a college-approved teacher. Instruction available for orchestra and band instruments. Prerequisite: Written consent of Instructional Unit required. [HB, SE]

APPLIED INSTRUMENT  
MUSC 177 1 Credit 11 hours of lecture  
Private lessons with a college-approved teacher. Instruction available for orchestra and band instruments. Prerequisite: Written consent of Instructional Unit required. [HB, SE]

APPLIED INSTRUMENT  
MUSC 178 1 Credit 11 hours of lecture  
Private lessons with a college-approved teacher. Instruction available for orchestra and band instruments. Prerequisite: Written consent of Instructional Unit required. [HB, SE]

CONCERT BAND  
MUSC 180 1 - 2 Credits 11 hours of lecture 22 hours of lab  
Open to all students with experience performing on brass, woodwind, and percussion instruments. The Clark College Concert Band performs a wide spectrum of standard concert band and contemporary wind ensemble literature in at least one concert per quarter. Topics include musical excellence, and skills for teamwork and leadership. No auditions necessary to enroll but the ability to read music on your respective instrument is required. [HB, SE]

CONCERT BAND  
MUSC 181 1 - 2 Credits 11 hours of lecture 22 hours of lab  
Open to all students with experience performing on brass, woodwind, and percussion instruments. The Clark College Concert Band performs a wide spectrum of standard concert band and contemporary wind ensemble literature in at least one concert per quarter. Topics include musical excellence, and skills for teamwork and leadership. No auditions necessary to enroll but the ability to read music on your respective instrument is required. [HB, SE]

CONCERT BAND  
MUSC 182 1 - 2 Credits 11 hours of lecture 22 hours of lab  
Open to all students with experience performing on brass, woodwind, and percussion instruments. The Clark College Concert Band performs a wide spectrum of standard concert band and contemporary wind ensemble literature in at least one concert per quarter. Topics include musical excellence, and skills for teamwork and leadership. No auditions necessary to enroll but the ability to read music on your respective instrument is required. [HB, SE]

CONCERT CHOIR  
MUSC 183 1 - 2 Credits 11 hours of lecture 22 hours of lab  
The concert choir performs a wide variety of choral music in at least one public concert per quarter. Music notation, vocal technique, and effective interpretation of music literature. Open to all students interested in improving their vocal skills. Prerequisite: Audition or consent of Instructional Unit. [HB, SE]

CONCERT CHOIR  
MUSC 184 1 - 2 Credits 11 hours of lecture 22 hours of lab  
The concert choir performs a wide variety of choral music in at least one public concert per quarter. Music notation, vocal technique, and effective interpretation of music literature. Open to all students interested in improving their vocal skills. Prerequisite: Audition or consent of Instructional Unit. [HB, SE]

CONCERT CHOIR  
MUSC 185 1 - 2 Credits 11 hours of lecture 22 hours of lab  
The concert choir performs a wide variety of choral music in at least one public concert per quarter. Music notation,
vocal technique, and effective interpretation of music literature. Open to all students interested in improving their vocal skills. Prerequisite: Audition or consent of Instructional Unit. [HB, SE]

**JAZZ IMPROVISATION**  
**MUSC 186**  
2 Credits  
11 hours of lecture  
22 hours of lab  
Improvisation on one or more of the traditional jazz band instruments or through vocal interpretation. [HB, SE]

**VOCAL JAZZ ENSEMBLE**  
**MUSC 187**  
1 - 3 Credits  
22 hours of lecture  
22 hours of lab  
Selection, arrangement, rehearsal, and performance of a variety of popular vocal jazz pieces. Prerequisite: Audition or consent of Instructional Unit. [HB, SE]

**VOCAL JAZZ ENSEMBLE**  
**MUSC 188**  
1 - 3 Credits  
22 hours of lecture  
22 hours of lab  
Selection, arrangement, rehearsal, and performance of a variety of popular vocal jazz pieces. Prerequisite: Audition or consent of Instructional Unit. [HB, SE]

**VOCAL JAZZ ENSEMBLE**  
**MUSC 189**  
1 - 3 Credits  
22 hours of lecture  
22 hours of lab  
Selection, arrangement, rehearsal, and performance of a variety of popular vocal jazz pieces. Prerequisite: Audition or consent of Instructional Unit. [HB, SE]

**INSTRUMENTAL ENSEMBLE**  
**MUSC 193**  
2 Credits  
11 hours of lecture  
22 hours of lab  
Combination of woodwinds and brasses organized as performing groups. Experience in ensemble playing. Familiarization with literature for ensembles. [HB, SE]

**JAZZ ENSEMBLE**  
**MUSC 195**  
1 - 2 Credits  
11 hours of lecture  
22 hours of lab  
Open to all students who perform on saxophone, trumpet, trombone, guitar, piano, bass, and drum set. Topics include performance techniques of jazz styles and repertoire and introduction to a wide variety of jazz subjects from improvisation and jazz history to understanding Latin/Afro-Cuban jazz rhythm. Additional topics include musical excellence and skills for teamwork and leadership. Jazz improvisation skills not required, but strong music reading skills are required, to be assessed at the beginning of the term. [HB, SE]

**JAZZ ENSEMBLE**  
**MUSC 196**  
1 - 2 Credits  
11 hours of lecture  
22 hours of lab  
Open to all students who perform on saxophone, trumpet, trombone, guitar, piano, bass, and drum set. Topics include performance techniques of jazz styles and repertoire and introduction to a wide variety of jazz subjects from improvisation and jazz history to understanding Latin/Afro-Cuban jazz rhythm. Additional topics include musical excellence and skills for teamwork and leadership. Jazz improvisation skills not required, but strong music reading skills are required, to be assessed at the beginning of the term. [HB, SE]

**JAZZ ENSEMBLE**  
**MUSC 197**  
1 - 2 Credits  
11 hours of lecture  
22 hours of lab  
Open to all students who perform on saxophone, trumpet, trombone, guitar, piano, bass, and drum set. Topics include performance techniques of jazz styles and repertoire and introduction to a wide variety of jazz subjects from improvisation and jazz history to understanding Latin/Afro-Cuban jazz rhythm. Additional topics include musical excellence and skills for teamwork and leadership. Jazz improvisation skills not required, but strong music reading skills are required, to be assessed at the beginning of the term. [HB, SE]

**INTERMEDIATE PIANO CLASS**  
**MUSC 201**  
2 Credits  
22 hours of lecture  
Intermediate-level study of the piano. Prerequisite: MUS 101 or consent of Instructional Unit. [HB, SE]
ADVANCED PIANO CLASS
MUSC 202 2 Credits 22 hours of lecture
A continuation of instruction from Intermediate Piano. Baroque, classic, romantic, and contemporary repertoire, jazz stylings and fake books. Prerequisite: MUSC 201 or consent of Instructional Unit. [HB, SE]

INTERMEDIATE GUITAR CLASS
MUSC 210 2 Credits 22 hours of lecture
Intermediate-level study of the guitar. Prerequisite: MUS 110 or consent of Instructional Unit. [HB, SE]

EAR TRAINING 4
MUSC&221 2 Credits 22 hours of lecture
Trains students to write what they hear in harmonic and polyphonic textures. Examples coordinated with theory classes. [HB, SE]

EAR TRAINING 5
MUSC&222 2 Credits 22 hours of lecture
Trains students to write what they hear in harmonic and polyphonic textures. Examples coordinated with theory classes. Prerequisite: MUSC& 221. [HB, SE]

EAR TRAINING 6
MUSC&223 2 Credits 22 hours of lecture
Trains students to write what they hear in harmonic and polyphonic textures. Examples coordinated with theory classes. Prerequisite: MUSC& 222. [HB, SE]

MUSIC THEORY IV
MUSC&231 3 Credits 33 hours of lecture
Extended chromatic chords, borrowed chords, Neapolitan 6th chords, augmented 6th chords, altered dominants, and chromatic mediants. Concurrent enrollment in MUS 244 required. Prerequisite: MUS 143 or consent of division. [HA, SE]

MUSIC THEORY V
MUSC&232 3 Credits 33 hours of lecture
Study of variation form, sonata form, rondo form and fugue. Concurrent enrollment in MUS 245 required. Prerequisite: MUS 241 or consent of division. [HA, SE]

MUSIC THEORY VI
MUSC&233 3 Credits 33 hours of lecture
Invention and two-voice counterpoint. Extensions of harmonic language and compositional styles in the 20th/21st century, including atonal forms. Concurrent enrollment in MUS 245 required. Prerequisite: MUS 242 or consent of division. [HA, SE]

CLARK COLLEGE CHORALE
MUSC 237 1 - 2 Credits 11 hours of lecture 22 hours of lab
The Clark College Chorale performs a wide variety of choral literature including classical masterworks and non-classical genres for both male and female as well as mixed-voicing choral music. Open to all students and community members, the Chorale performs a minimum of one concert per term with possible additional performances. Prerequisite: Audition or consent of Instructional Unit. [HB, SE]

CLARK COLLEGE CHORALE
MUSC 238 1 - 2 Credits 11 hours of lecture 22 hours of lab
The Clark College Chorale performs a wide variety of choral literature including classical masterworks and non-classical genres for both male and female as well as mixed-voicing choral music. Open to all students and community members, the Chorale performs a minimum of one concert per term with possible additional performances. Prerequisite: Audition or consent of Instructional Unit. [HB, SE]
**CLARK COLLEGE CHORALE**

MUSC 239  1 - 2 Credits  11 hours of lecture  22 hours of lab
The Clark College Chorale performs a wide variety of choral literature including classical masterworks and non-classical genres for both male and female as well as mixed-voicing choral music. Open to all students and community members, the Chorale performs a minimum of one concert per term with possible additional performances. Prerequisite: Audition or consent of Instructional Unit. [HB, SE]

**ORCHESTRA**

MUSC 250  1 - 2 Credits  11 hours of lecture  22 hours of lab
Performance of orchestral literature from a variety of periods and styles. [HB, SE]

MUSC 251  1 - 2 Credits  11 hours of lecture  22 hours of lab
Performance of orchestral literature from a variety of periods and styles. [HB, SE]

MUSC 252  1 - 2 Credits  11 hours of lecture  22 hours of lab
Performance of orchestral literature from a variety of periods and styles. [HB, SE]

**WOMEN'S CHORAL ENSEMBLE**

MUSC 253  1 - 2 Credits  11 hours of lecture  22 hours of lab
Performance of choral music from a variety of periods and styles written for women's voices. Prerequisite: Audition or consent of Instructional Unit. [HB, SE]

MUSC 254  1 - 2 Credits  11 hours of lecture  22 hours of lab
Performance of choral music from a variety of periods and styles written for women's voices. Prerequisite: Audition or consent of Instructional Unit. [HB, SE]

MUSC 255  1 - 2 Credits  11 hours of lecture  22 hours of lab
Performance of choral music from a variety of periods and styles written for women's voices. Prerequisite: Audition or consent of Instructional Unit. [HB, SE]

**APPLIED VOICE**

MUSC 270  1 Credit  11 hours of lecture
Private voice lessons with a college-approved teacher. Prerequisite: Written consent of Instructional Unit required. [HB, SE]

MUSC 271  1 Credit  11 hours of lecture
Private voice lessons with a college-approved teacher. Prerequisite: Written consent of Instructional Unit required. [HB, SE]

MUSC 272  1 Credit  11 hours of lecture
Private voice lessons with a college-approved teacher. Prerequisite: Written consent of Instructional Unit required. [HB, SE]

**APPLIED PIANO**

MUSC 273  1 Credit  11 hours of lecture
Private lessons with a college-approved teacher. Prerequisite: MUSC 201 and consent of Instructional Unit. [HB, SE]

MUSC 274  1 Credit  11 hours of lecture
Private lessons with a college-approved teacher. Prerequisite: MUSC 201 and consent of Instructional Unit. [HB, SE]
APPLIED PIANO
MUSC 275 1 Credit 11 hours of lecture
Private lessons with a college-approved teacher. Prerequisite: MUSC 201 and consent of Instructional Unit. [HB, SE]

APPLIED INSTRUMENT
MUSC 276 1 Credit 11 hours of lecture
Private lessons with a college-approved teacher. Instruction available for orchestra and band instruments. Prerequisite: Written consent of Instructional Unit required. [HB, SE]

APPLIED INSTRUMENT
MUSC 277 1 Credit 11 hours of lecture
Private lessons with a college-approved teacher. Instruction available for orchestra and band instruments. Prerequisite: Written consent of Instructional Unit required. [HB, SE]

APPLIED INSTRUMENT
MUSC 278 1 Credit 11 hours of lecture
Private lessons with a college-approved teacher. Instruction available for orchestra and band instruments. Prerequisite: Written consent of Instructional Unit required. [HB, SE]

CONCERT BAND
MUSC 280 1 - 2 Credits 11 hours of lecture 22 hours of lab
Open to all students with experience performing on brass, woodwind, and percussion instruments. The Clark College Concert Band performs a wide spectrum of standard concert band and contemporary wind ensemble literature in at least one concert per quarter. Topics include musical excellence, and skills for teamwork and leadership. No auditions necessary to enroll but the ability to read music on your respective instrument is required. [HB, SE]

CONCERT BAND
MUSC 281 1 - 2 Credits 11 hours of lecture 22 hours of lab
Open to all students with experience performing on brass, woodwind, and percussion instruments. The Clark College Concert Band performs a wide spectrum of standard concert band and contemporary wind ensemble literature in at least one concert per quarter. Topics include musical excellence, and skills for teamwork and leadership. No auditions necessary to enroll but the ability to read music on your respective instrument is required. [HB, SE]

CONCERT BAND
MUSC 282 1 - 2 Credits 11 hours of lecture 22 hours of lab
Open to all students with experience performing on brass, woodwind, and percussion instruments. The Clark College Concert Band performs a wide spectrum of standard concert band and contemporary wind ensemble literature in at least one concert per quarter. Topics include musical excellence, and skills for teamwork and leadership. No auditions necessary to enroll but the ability to read music on your respective instrument is required. [HB, SE]

CONCERT CHOIR
MUSC 283 1 - 2 Credits 11 hours of lecture 22 hours of lab
The concert choir performs a wide variety of choral music in at least one public concert per quarter. Music notation, vocal technique, and effective interpretation of music literature. Open to all students interested in improving their vocal skills. Prerequisite: Audition or consent of Instructional Unit. [HB, SE]

CONCERT CHOIR
MUSC 284 1 - 2 Credits 11 hours of lecture 22 hours of lab
The concert choir performs a wide variety of choral music in at least one public concert per quarter. Music notation, vocal technique, and effective interpretation of music literature. Open to all students interested in improving their vocal skills. Prerequisite: Audition or consent of Instructional Unit. [HB, SE]

CONCERT CHOIR
MUSC 285 1 - 2 Credits 11 hours of lecture 22 hours of lab
The concert choir performs a wide variety of choral music in at least one public concert per quarter. Music notation,
vocal technique, and effective interpretation of music literature. Open to all students interested in improving their vocal skills. Prerequisite: Audition or consent of Instructional Unit. [HB, SE]

**VOCAL JAZZ ENSEMBLE**  
MUSC 287  1 - 3 Credits  
Selection, arrangement, rehearsal, and performance of a variety of popular vocal jazz pieces. Prerequisite: Audition or consent of Instructional Unit. [HB, SE]

**VOCAL JAZZ ENSEMBLE**  
MUSC 288  1 - 3 Credits  
Selection, arrangement, rehearsal, and performance of a variety of popular vocal jazz pieces. Prerequisite: Audition or consent of Instructional Unit. [HB, SE]

**VOCAL JAZZ ENSEMBLE**  
MUSC 289  1 - 3 Credits  
Selection, arrangement, rehearsal, and performance of a variety of popular vocal jazz pieces. Prerequisite: Audition or consent of Instructional Unit. [HB, SE]

**SPECIAL PROJECTS**  
MUSC 290  1 - 5 Credits  
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [HB, GE]

**JAZZ ENSEMBLE**  
MUSC 295  1 - 2 Credits  
Open to all students who perform on saxophone, trumpet, trombone, guitar, piano, bass, and drum set. Topics include performance techniques of jazz styles and repertoire and introduction to a wide variety of jazz subjects from improvisation and jazz history to understanding Latin/Afro-Cuban jazz rhythm. Additional topics include musical excellence and skills for teamwork and leadership. Jazz improvisation skills not required, but strong music reading skills are required, to be assessed at the beginning of the term. [HB, SE]

**JAZZ ENSEMBLE**  
MUSC 296  1 - 2 Credits  
Open to all students who perform on saxophone, trumpet, trombone, guitar, piano, bass, and drum set. Topics include performance techniques of jazz styles and repertoire and introduction to a wide variety of jazz subjects from improvisation and jazz history to understanding Latin/Afro-Cuban jazz rhythm. Additional topics include musical excellence and skills for teamwork and leadership. Jazz improvisation skills not required, but strong music reading skills are required, to be assessed at the beginning of the term. [HB, SE]

**JAZZ ENSEMBLE**  
MUSC 297  1 - 2 Credits  
Open to all students who perform on saxophone, trumpet, trombone, guitar, piano, bass, and drum set. Topics include performance techniques of jazz styles and repertoire and introduction to a wide variety of jazz subjects from improvisation and jazz history to understanding Latin/Afro-Cuban jazz rhythm. Additional topics include musical excellence and skills for teamwork and leadership. Jazz improvisation skills not required, but strong music reading skills are required, to be assessed at the beginning of the term. [HB, SE]

**Network Technology**

**INFORMATION SECURITY FUNDAMENTALS**  
NTEC 125  3 Credits  
Builds an understanding of network security topics including how hacker attacks are carried out and how to select the right security solutions for each type of risk. Students learn to create clear and enforceable security policies and to keep them up to date; to establish reliable processes for responding to security advisories; to use encryption effectively and recognize its limitations; to secure networks with firewalls, routers, and other devices; and to prevent attacks aimed at wireless networks.
WINDOWS SERVER ADMINISTRATION FUNDAMENTALS
NTEC 132 3 Credits 22 hours of lecture 22 hours of lab
Help students prepare for the Microsoft Technology Associate (MTA) Exam 98-365 by building an understanding of server installation, server roles, active directory, storage, server performance management, and server maintenance.

CLOUD COMPUTING FUNDAMENTALS
NTEC 142 3 Credits 22 hours of lecture 22 hours of lab
Helps students prepare for the CompTIA Cloud Essentials certification by building an understanding of the following Cloud Computing topics: technical understanding of the foundations of Cloud Computing as compared to traditional IT; integrating Cloud Computing into IT infrastructure; creating economic value by implementing Cloud innovations; and integrating Cloud Computing into an organization’s existing compliance, risk and regulatory framework.

COOPERATIVE WORK EXPERIENCE
NTEC 199 1 - 6 Credits 198 hours of clinical
Supervised work experience in an approved job. Completion of specific learning objectives and employee evaluation. Prerequisite: Completion of or concurrent enrollment in HDEV 195 and 198 or 200 and consent of Instructional Unit. [GE]

INTRO TO NETWORK SERVERS: WINDOWS AND LINUX
NTEC 220 5 Credits 22 hours of lecture 66 hours of lab
Knowledge and skills for using Windows Server OS and LINUX Server OS to setup LAN/WAN connections and authentication; and to explore features of the network operating systems, such as FTP, email, web server, file server, print server, remote desktop, DNS, DHCP, and users and groups. Prerequisite: A grade of “C” or better in NTEC 221, or consent of Instructional Unit. [GE]

CISCO CCNA 1
NTEC 221 6 Credits 44 hours of lecture 44 hours of lab
Introduction to the architecture, structure, functions, components, and models of the Internet, and other computer networks. Covers the principles and structure of IP addressing. The fundamentals of Ethernet concepts, media, and operations are introduced to provide foundation for the basics of network administration. Students will learn to build simple LANs, perform basic configurations for routers and switches, and implement IP addressing schemes. Part one of a two-course sequence that helps prepare students for the CCENT (Cisco Certified Entry Networking Technician) industry certification, and part one of a four-course sequence that helps prepare students for the CCNA Routing & Switching industry certification. Prerequisite: MATH 030 eligibility, or consent of Instructional Unit. [GE]

CISCO CCNA 2
NTEC 222 6 Credits 44 hours of lecture 44 hours of lab
Learn the architecture, components, and operations of routers and switches in a small network, how to configure a router and a switch for basic functionality; troubleshoot routers and switches; resolve common issues with RIPv1, RIPv2, single-area and multi-area OSPF, virtual LANs, and inter-Vlan routing in both IPv4 and IPv6 networks. Part two of a two-course sequence that helps prepare students for the CCENT (Cisco Certified Entry Networking Technician) industry certification, and part two of a four-course sequence that helps prepare students for the CCNA Routing & Switching industry certification. Prerequisite: A grade of “C” or better in NTEC 221, or consent of Instructional Unit. [GE]

CISCO CCNA 3
NTEC 223 6 Credits 44 hours of lecture 44 hours of lab
Describes the architecture, components, and operations of routers and switches in a larger and more complex network. Students learn the following: how to configure routers and switches for advanced functionality; to configure and troubleshoot routers and switches and resolve common issues with OSPF, EIGRP, STP, and VTP in both IPv4 and IPv6 networks. Students will also develop the knowledge and skills needed to implement DHCP and DNS operations in a network. This course is part-three of a four-course sequence that helps prepare students for the CCNA
Routing & Switching industry certification. Prerequisite: A grade of “C” or better in NTEC 222, or consent of Instructional Unit. [GE]

**CISCO CCNA 4**  
NTEC 224  
6 Credits  
44 hours of lecture  
44 hours of lab  
Discusses the WAN technologies and network services required by converged applications in a complex network. Enables students to understand the selection criteria of network devices and WAN technologies to meet network requirements. Students team the following: how to configure and troubleshoot network devices, resolve common issues with data link protocols; develop the knowledge and skills needed to implement IPsec and virtual private network (VPN) operations in a complex network. This course is part-four of a four-course sequence that helps prepare students for the CCNA Routing & Switching industry certification. Prerequisite: A grade of “C” or better in NTEC 223 or DNET 223, or consent of Instructional Unit.

**CISCO CCNA SECURITY**  
NTEC 225  
6 Credits  
44 hours of lecture  
44 hours of lab  
Preparation to obtain CCNA Security Certification. Course meets the needs of IT professionals responsible for network security. Developing skills for job roles such as Network Security Specialists, Security Administrators, and Network Security Support Engineers. Skills include installation, troubleshooting and monitoring of network devices to maintain integrity, confidentiality and availability of data and devices. Competency in the technologies that Cisco uses in its security structure. Introduction to core security technologies as well as how to develop security policies and mitigate risks. Prerequisite: A grade of “C” or better in NTEC 224, or consent of Instructional Unit. [GE]

**CISCO CCNA VOICE**  
NTEC 226  
6 Credits  
44 hours of lecture  
44 hours of lab  
Preparation to obtain Cisco CCNA Voice certification. Required skill set for specialized job roles in voice technologies such as voice technologies administrator, voice engineer, and voice manager; in-demand skills in VoIP technologies such as IP PBX, IP telephony, handset, call control, and voicemail solutions; and exposure to the Cisco Unified Communications architecture and design covering mobility, presence, and TelePresence applications. Prerequisite: A grade of “C” or better in NTEC 224, or consent of Instructional Unit. [GE]

**CISCO CCNP ROUTER: IMPLEMENTING IP ROUTING**  
NTEC 227  
6 Credits  
44 hours of lecture  
44 hours of lab  
Helps students prepare for the Cisco CCNP Router certification exam. Students learn how to implement, monitor, and maintain routing services in an enterprise network; to plan, configure, and verify the implementation of complex enterprise LAN and WAN routing solutions; and to use a range of routing protocols in IPv4 and IPv6 environments. The course also covers the configuration of secure routing solutions to support branch offices and mobile workers and emphasizes hands-on learning and practice to reinforce configuration skills. Prerequisite: A grade of “C” or better in NTEC 224, or consent of Instructional Unit.

**CISCO CCNP SWITCH: IMPLEMENTING IP SWITCHING**  
NTEC 228  
6 Credits  
44 hours of lecture  
44 hours of lab  
Helps students prepare for the Cisco CCNP SWITCH certification exam by teaching how to implement, monitor and maintain switching in converged enterprise campus networks; to plan, configure and verify the implementation of complex enterprise switching solutions; and to secure integration of VLANs, WLANs, voice and video into campus networks. Emphasizes hands-on learning and practice to reinforce configuration skills. Prerequisite: A grade of “C” or better in NTEC 227, or consent of Instructional Unit.

**CISCO CCNP TSHOOT: MAINTAINING IP NETWORKS**  
NTEC 229  
6 Credits  
44 hours of lecture  
44 hours of lab  
Helps students prepare for the Cisco CCNP TSHOOT certification exam by teaching how to monitor and maintain complex, enterprise routed and switched IP networks; plan and execute regular network maintenance and support and troubleshoot using technology-based processes and best practices based on systematic and industry-recognized approaches. Extensive labs emphasize hands-on learning and practice to reinforce troubleshooting techniques. Prerequisite: A grade of “C” or better in NTEC 228, or consent of Instructional Unit.
### COMPTIA A+ COMPUTER SUPPORT TECHNICIAN

NTEC 232  6 Credits  44 hours of lecture  44 hours of lab  
Preparation to successfully pass the CompTIA A+ certification, the industry standard for computer support technicians. Focus on the installation, preventative maintenance, networking, security and troubleshooting of PC desktop systems, with emphasis on hands-on role playing experiences to develop excellent customer service and communication skills to work with clients. Prerequisite: A grade of “C” or better in CTEC 110, or department approval. [GE]

### MICROSOFT SERVER ADMIN 1

NTEC 234  6 Credits  44 hours of lecture  44 hours of lab  
Covers installing and configuring Windows Server 2012. Introduction to Active Directory Domain Services, Managing Active Directory Domain Services Objects, Automating Active Directory Domain Services Administrative, Implementing Networking Services, Implementing Local Storage, Implementing File and Print Services, Implementing Group Policy, Implementing Server Virtualization with Hyper-V. This course is part-one of a three-course sequence that helps prepare students for the MCSA (Microsoft Certified Solutions Associate) industry certification. Prerequisite: A grade of “C” or better in NTEC 220 or DNET 220, or consent of Instructional Unit.

### MICROSOFT SERVER ADMIN 2

NTEC 235  6 Credits  44 hours of lecture  44 hours of lab  
Covers the following: administration of Windows Server 2012; Implementing a Group Policy infrastructure; managing User and Service Accounts; maintaining Active Directory Domain Services; configuring and troubleshooting DNS; configuring and troubleshooting Remote Access; installing, configuring and troubleshooting the Network Policy Server role; optimizing File Services; increasing File System Security; implementing Update Management. This course is part-two of a three-course sequence that helps prepare students for the MCSA (Microsoft Certified Solutions Associate) industry certification. Prerequisite: A grade of “C” or better in NTEC 234, or consent of Instructional Unit.

### MICROSOFT SERVER ADMINISTRATOR 3

NTEC 236  6 Credits  44 hours of lecture  44 hours of lab  
Covers configuration of advanced Windows Server 2012 services. Focus on implementing the following: Advanced Network Service, Advanced File Services, Dynamic Access Control, Network Load Balancing, Failover Clustering, Disaster Recovery, AD CS and AD FS. This course is part-three of a three-course sequence that helps prepare students for the MCSA (Microsoft Certified Solutions Associate) industry certification. Prerequisite: A grade of “C” or better in NTEC 235, or consent of Instructional Unit.

### DATACENTER VIRTUALIZATION TECHNOLOGY

NTEC 242  6 Credits  44 hours of lecture  44 hours of lab  
Fundamentals of server and desktop virtualization. Topics include practical and conceptual skills for understanding basic virtualization concepts, comparison of physical servers and virtualized servers, skills for planning and implementing datacenter virtualization, the virtualized approach to datacenters with functions and services of their components, plus the various components, concepts and skill-sets associated with virtualization. Prerequisite: A grade of “C” or better in NTEC 220 or DNET 220, or consent of Instructional Unit. [GE]

### SELECTED TOPICS

NTEC 280  1 - 5 Credits  
Topics vary. May be repeated for credit. Prerequisite: Consent of Instructional Unit. [GE]

### SPECIAL PROJECTS

NTEC 290  1 - 5 Credits  
Opportunity to plan, organize, and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]

### CAPSTONE EXPERIENCE

NTEC 299  3 Credits  11 hours of lecture  44 hours of lab  
CAPSTONE course in the DNET AAS and AA T degree programs at Clark College, normally taken during the final quarter of the program. Application of many topics covered in the other program courses in a simulated employee team or small group setting. Introduction to the experience of designing an enterprise network using
required documentation of design and implementation. Topics include all aspects of network planning, design, and troubleshooting. Prerequisite: Microsoft MTA Server Admin Fundamentals certification or Cisco CCENT certification required, or MCITP Server certification or CCNA certification, completion of all required core coursework related degree, and consent of Instructional Unit.

**Nursing**

**FOUNDATIONS OF NURSING CONCEPTS**

NURS 110 3 Credits 33 hours of lecture

Introduction to professional nursing; topics include health promotion and health care delivery systems, professional roles and standards, nurse-client relationships, and theoretical basis for nursing practice. Concurrent enrollment in NURS 111, 112, 113, and 114. These courses are linked; failure in one course requires repeat of all concurrent courses. Prerequisite: Consent of Instructional Unit. [GE]

**FOUNDATIONS OF CLINICAL NURSING**

NURS 111 4 Credits 88 hours of lab

Introduction to nursing practice in the community setting with emphasis on direct patient care of the older adult. Concurrent enrollment is required in NURS 110, 112, 113, and 114. These courses are linked; failure in one course requires repeat of all concurrent courses. Prerequisite: Consent of Instructional Unit. [GE]

**LIFESPAN ASSESSMENT CONCEPTS**

NURS 113 2 Credits 22 hours of lecture

Introduction to health assessment and physical examination throughout the lifespan, and an introduction to nursing skills. Concurrent enrollment in NURS 110, 111, 114 and 115. These courses are linked; failure in one course requires repeat of all concurrent courses. Prerequisite: Consent of Instructional Unit. [GE]

**NURSING SKILLS APPLICATION I**

NURS 114 1 Credit 22 hours of lab

Practice and nursing skill achievement on NURS 113 competencies. Concurrent enrollment in NURS 110, 111, 113 and 115. These courses are linked; failure in one course requires repeat of all concurrent courses. Prerequisite: Consent of Instructional Unit. [GE]

**NURSING SKILLS LAB I**

NURS 115 2 Credits 44 hours of lab

Supervised skills practice and competency achievement in the nursing skills lab. Prerequisite: Concurrent enrollment in NURS 110, 111, 113, and 114. These courses are linked; failure in one course requires repeat of all concurrent courses.

**FAMILY-CENTERED NURSING**

NURS 122 2 Credits 22 hours of lecture

Theory and the nursing process related to the care of healthy children and their families. Physiologic and psychological adaption during the childbearing and childrearing years, emphasis on the nurse’s role in health promotion and education in the care of culturally diverse families in the community. Concurrent enrollment in NURS 123, 124, 127, and 128. These courses are linked; failure in one course requires repeat of all concurrent courses. Prerequisite: A grade of “C” or above in NURS 110, 111, 113, 114, and 115, or consent of Instructional Unit.

**FAMILY-CENTERED CLINICAL NURSING**

NURS 123 5 Credits 110 hours of lab

Application of theoretical, assessment, and practice concepts for nursing care of the family prenatally through the child years. Concurrent enrollment in NURS 122, 124, 127, and 128. These courses are linked; failure in one course requires repeat of all concurrent courses. Prerequisite: A grade of “C” or above in NURS 110, 111, 113, 114, and 115, or consent of Instructional Unit.
INTRODUCTION TO MENTAL HEALTH NURSING
NURS 124 1 Credit 11 hours of lecture
Introduction to mental health concepts including verbal and non-verbal communication techniques, boundary setting, and basic mental health assessment. Students will develop the skills needed to manage behavioral challenges in the healthcare setting. Concurrent enrollment in NURS 122, 123, 127, and 128. These courses are linked; failure in one course requires repeat of all concurrent courses. Prerequisite: A grade of “C” or better in NURS 110, 111, 113, 114, and 115, or consent of Instructional Unit.

NURSING SKILLS APPLICATION II
NURS 127 1 Credit 22 hours of lab
Practice and nursing skill achievement on NURS 126 competencies. Concurrent enrollment in NURS 122, 123, 124 and 128. These courses are linked; failure in one course requires repeat of all concurrent courses. Prerequisite: A grade of “C” or above in NURS 110 or consent of Instructional Unit. [GE]

NURSING SKILLS LAB II
NURS 128 2 Credits 44 hours of lab
Practice and nursing skill achievement of NURS 127 competencies. Concurrent enrollment in NURS 122, 123, 124, and 127. These courses are linked, failure in one course requires repeat of all concurrent courses. Prerequisite: A grade of “C” or better in NURS 110 or consent of Instructional Unit.

MEDICAL-SURGICAL NURSING CONCEPTS 1
NURS 135 3 Credits 33 hours of lecture
Introductory nursing management of medical-surgical health issues. Topics include but are not limited to: patient teaching/discharge planning, rehabilitation of medical-surgical patients, fluid and electrolytes, shock management, the immune response, infectious diseases, diabetes (including pediatric, adult and gestational), musculoskeletal disorders and the care of patients in the peri-operative setting. All topics address patients throughout the lifespan, and include obstetric patients in a medical-surgical setting. Concurrent enrollment in NURS 136, 137, and 138. These courses are linked; failure in one course requires repeat of all concurrent courses. Prerequisite: A grade of “C” or better in NURS 122, 123, 124, 127, and 128, or consent of Instructional Unit.

MEDICAL-SURGICAL CLINICAL NURSING I
NURS 136 6 Credits 132 hours of lab
Introductory medical/surgical concepts applied to the clinical nursing management of the patient in the acute care and community setting. Concurrent enrollment in NURS 135, 137, and 138. These courses are linked; failure in one course requires repeat of all concurrent courses. Prerequisite: A grade of “C” or better in NURS 122, 123, 124, 127, and 128, or consent of Instructional Unit.

NURSING SKILLS APPLICATION III
NURS 137 1 Credit 22 hours of lab
Instruction and practice of nursing skills related to the care of the medical-surgical patient. Concurrent enrollment in NURS 135, 136, and 138. These courses are linked; failure in one course requires repeat of all concurrent courses. Prerequisite: A grade of “C” or better in NURS 122 or consent of Instructional Unit.

NURSING SKILLS LAB III
NURS 138 2 Credits 44 hours of lab
Practice and nursing skill achievement of NURS 137 competencies. Concurrent enrollment in NURS 135, 136, and 137. These courses are linked; failure in one course requires repeat of all concurrent courses. Prerequisite: A grade of “C” or better in NURS 122 or consent of Instructional Unit.

SELECTED TOPICS-LEVEL II
NURS 150 1 - 15 Credits
Independent study modules to meet needs of the student. Course contents may be drawn from any of the Level I and II nursing courses. Credit will be based upon contracted work in keeping with college policies. Credit is not applicable toward a nursing major at Clark College. Prerequisite: Consent of nursing director. [GE]
LPN TO RN BRIDGE
NURS 200  7 Credits  66 hours of lecture  22 hours of lab
Overview of nursing with emphasis on professional foundations, nursing process, pathophysiology, medication administration and review of principles and techniques of nursing care common to all clients. A scope of practice focus for LPN to RN role transition is included in this bridge course. Review of maternity and pediatric content as well as computer research as it relates to pathophysiology. Instructional methods include two weeks of classroom sessions, group discussions, group learning activities, nursing skills lab activities, eLearning projects, written assignments, oral presentation, and independent study. Students enrolled in the Clark College Nursing program are building a sound base of knowledge and developing critical thinking skills needed to effectively use that knowledge in their daily lives as well as in their clinical practice. Instructional methods include; two weeks of classroom sessions, group discussions, group learning activities, nursing skills lab activities. E-learning projects, written assignments, oral presentation, and independent study.

NURSING SKILLS PRACTICE II
NURS 225  1 - 10 Credits  220 hours of lab
Practice in the nursing skills lab under supervision at the second year nursing level. [GE]

MEDICAL-SURGICAL NURSING CONCEPTS II
NURS 241  3 Credits  33 hours of lecture
Nursing management of medical-surgical health issues involving cardiac, respiratory, renal and gastrointestinal systems in the acute care or community setting. Planning nursing interventions to include prevention of disease and promotion of wellness. Emphasis on the biopsychosocial effects of acute and chronic illness. All topics address patients throughout the lifespan, and includes obstetric patients in a medical-surgical setting. Concurrent enrollment in NURS 242. These courses are linked; failure in one course requires repeat of all concurrent courses. Prerequisite: A grade of “C” or above in BIOL& 260, ENGL& 102, NUTR 103, PSYC& 200, and NURS 135 or consent of the Instructional Unit.

MEDICAL-SURGICAL CLINICAL NURSING II
NURS 242  8 Credits  176 hours of lab
Application of advanced medical-surgical concepts with emphasis on the management of the acutely ill client. Concurrent enrollment in NURS 241. These courses are linked; failure in one course requires repeat of all concurrent courses. Prerequisite: A grade of “C” or above in BIOL& 260, ENGL& 102, NUTR 103, PSYC& 200, and NURS 135 or consent of the Instructional Unit.

MEDICAL-SURGICAL NURSING CONCEPTS III
NURS 251  2 Credits  22 hours of lecture
The study of common medical-surgical issues related to hormonal control, sensory perception, movement and coordination, and cancer. Emphasis is placed on the nurse’s role as primary caregiver, manager and educator for a group of patients. The student will learn to plan and organize care for a group of patients with emphasis on the nursing process, rehabilitation, education, and the patient care delivery system. All topics address patients throughout the lifespan, and includes obstetric patients in a medical-surgical setting. Concurrent enrollment in NURS 252. These courses are linked; failure in one course requires repeat of all concurrent courses. Prerequisite: A grade of “C” or better in NURS 241, or consent of Instructional Unit.

MEDICAL-SURGICAL CLINICAL NURSING III
NURS 252  4 Credits  88 hours of lab
Emphasis is placed on the nurse’s role as caregiver, manager and educator for a group of patients. The student will plan and organize care for a group of patients with emphasis on the nursing process, rehabilitation, education, and the patient care delivery system. Concurrent enrollment in NURS 251. These courses are linked; failure in one course requires repeat of all concurrent courses. Prerequisite: A grade of “C” or better in NURS 241, or consent of Instructional Unit.

MENTAL HEALTH NURSING CONCEPTS ADVANCED
NURS 253  2 Credits  22 hours of lecture
Mental health concepts spanning childhood through adulthood. Focus is on building a foundation of knowledge
of mental illness, exploration of the interplay of genetic and environmental factors and identifying viable treatment options for the patient and family, with emphasis on the nurse's role in assessment and use of realistic interventions. Concurrent enrollment in NURS 254. These courses are linked; failure in one course requires repeat of both courses. Prerequisite: A grade of “C” or better in NURS 241, or consent of Instructional Unit.

MENTAL HEALTH CLINICAL NURSING
NURS 254 4 Credits 88 hours of lab
Care of children/adolescents and adults with mental illness in acute and chronic phases. Focus is on working with the client/patient and his/her support network to enact a plan of care reflective of input from the individual and the mental health treatment team. Assessment of safety, active participation and effectiveness of interventions is ongoing. Concurrent enrollment in NURS 253. These courses are linked; failure in one course requires repeat of both courses. Prerequisite: A grade of “C” or better in NURS 241, or consent of Instructional Unit.

PROFESSIONAL LEADERSHIP TRANSITION TO PRACTICE
NURS 261 2 Credits 22 hours of lecture
Theory of leadership and management principles applied by the professional nurse in the clinical setting. Topics include professional ethics, the Nurse Practice Act, change theory, evidence-based practice, quality control, fiscal management and nursing delegation in the clinical area. Concurrent enrollment in NURS 262, 263, and 264. These courses are linked; failure in one course requires repeat of all concurrent courses. Prerequisite: A grade of “C” or better in NURS 251 and 253, or consent of Instructional Unit.

PROFESSIONAL LEADERSHIP SENIOR PRACTICUM
NURS 262 8 Credits 176 hours of lab
Advanced client care in a specialty of the student’s interest. Clinical areas include acute care, critical care and care of clients in the community setting. Emphasis is on developing leadership skills and independent practice as a professional nurse. Concurrent enrollment in NURS 261, 263, and 264. These courses are linked; failure in one course requires repeat of all concurrent courses. Prerequisite: A grade of “C” or better in NURS 251 and 253, or consent of Instructional Unit.

PROFESSIONAL ROLE IN COMMUNITY SERVICE
NURS 263 1 Credit 22 hours of lab
Emphasis is on the role of the nurse serving her/his community as a volunteer and client advocate. The student will perform community service and work with agencies that provide services in our community for our at risk populations. The student also will have the opportunity to mentor novice peers in the nursing program. Concurrent enrollment in NURS 261, 262, and 264. These courses are linked; failure in one course requires repeat of all concurrent courses. Prerequisite: A grade of “C” or better in NURS 251 and 253, or consent of Instructional Unit.

CAPSTONE NCLEX PREPARATION
NURS 264 1 Credit 11 hours of lecture
A ten-hour course geared toward helping the student prepare for the NCLEX test. This course will include strategies for success, key critical-thinking strategies, as well as review of content, questions and rationales. Concurrent enrollment in NURS 261, 262, and 263. These courses are linked; failure in one course requires repeat of all concurrent courses. Prerequisite: A grade of “C” or above in NURS 251 and 253, or consent of Instructional Unit.

SPECIAL PROJECTS
NURS 290 1 - 15 Credits
Opportunity to plan, organize and complete special projects approved by the faculty of the department. Prerequisite: Consent of Instructional Unit. [GE]

Nursing Assistant Certified

NURSING ASSISTANT FOUNDATIONS/CLINICAL
NAC 103 9 Credits 66 hours of lecture 66 hours of lab
Study and practice in preparation for the Washington state certification examination as a nursing assistant. Topics include anatomy and physiology, resident rights, concepts of death and dying, dementia care, legal aspects of care,
scope of practice of the nursing assistant, function of the health care team, communication skills, infection control, safety and emergency procedures, and restorative care. Includes supervised clinical experience for Nursing Assistants in long term care settings. Prerequisite: Successful completion of, or concurrent enrollment in FACPR 032, or consent of Instructional Unit. [GE]

**SELECTED TOPICS**

**NAC 280** 1 - 10 Credits 110 hours of lecture

Varying topics in the Nursing Assistant Certified program, as listed in the quarterly class schedule. May be repeated for credit. Prerequisite: Consent of Instructional Unit. [GE]

---

**Nutrition**

**GENERAL NUTRITION**

**NUTR 103** 3 Credits 33 hours of lecture

Nutrition of healthy human beings. Principles of balanced nutrition, physiology and metabolism of nutrients, and changing nutritional needs throughout the human life span. Prerequisite: A grade of “C” or better in CHEM 111 or higher. [NS, SE]

---

**Oceanography**

**INTRO TO OCEANOGRAPHY W/LAB**

**OCEA&101** 5 Credits 44 hours of lecture 22 hours of lab

Introduction to physical oceanography and current topics in the ocean sciences for non-science students. Earth’s oceans as an integral component of the global climate system will be highlighted. Topics include oceanic structure and composition, global circulation and ocean currents and their connection with atmospheric motions, hurricanes, waves, tides, tsunamis, the importance of oceans to understanding climate change, coastal processes, pollution, El Nino/La Nina, and the influence of the physical environment on life.

---

**Paralegal**

**INTRODUCTION TO LEGAL THEORY**

**PRLE 101** 3 Credits 33 hours of lecture

Introduction to the origin of our legal system and the theories giving rise to our common law, civil law, and statutory law systems, with emphasis on legal terminology in our contemporary legal system. Review of the court system with emphasis on our state courts and an overview of substantive law. [GE]

**LEGAL ETHICS**

**PRLE 102** 3 Credits 33 hours of lecture

Introduction to legal ethics, a study of issues: respecting client confidentiality, protecting a client’s privileged communications, avoiding conflicts of interests, and avoiding unauthorized practice of law. Exploration of other ethical issues regarding legal fees and fee sharing arrangements, advertising and solicitation, and competence and honesty. [GE]

**LEGAL RESEARCH**

**PRLE 103** 3 Credits 22 hours of lecture 22 hours of lab

Legal research terminology and legal research strategies. Topics include efficient techniques to locate state and federal legal information by citation; locate search tools; update validity of legal resources; construct appropriate legal citations using ALWD Citation Manual style; develop a research strategy to efficiently and productively research a given legal issue. PRLE 102 recommended. Prerequisite: A grade of “C” or better in PRLE 101 and ENGL& 101 or consent of Instructional Unit. [GE]

**LEGAL WRITING I**

**PRLE 106** 3 Credits 33 hours of lecture

Introduction to the basics of technical legal writing and the relationship of legal writing to legal analytical thought.
Guidance through both theoretical and practical applications of writing. Focus on straightforward language. Prerequisite: A grade of "C" or better in PRLE 103 and ENGL& 101 or consent of Instructional Unit. [GE]

**CIVIL LITIGATION AND PROCEDURES**  
PRLE 109  
3 Credits  
33 hours of lecture  
The litigation process, with emphasis on the law of torts and civil litigation including client and witness interviews, pleadings preparation, investigation, and appeal procedures. Prior completion of PRLE 102 and 104 recommended. Prerequisite: A grade of “C” or better in ENGL& 101 required. [GE]

**CRIMINAL LAW AND PROCEDURES**  
PRLE 110  
3 Credits  
33 hours of lecture  
The litigation process, with emphasis on criminal law including client and witness interviews, pleadings preparation, investigation and appeals preparation. Study of general criminal law and procedures to provide a basic understanding of the criminal justice system. PRLE 102 and PRLE 104 recommended. Prerequisite: A grade of “C” or better in ENGL& 101 and PRLE 106 or consent of Instructional Unit. [GE]

**LAW OFFICE PROCEDURES AND COMPUTER TECHNOLOGY**  
PRLE 115  
3 Credits  
33 hours of lecture  
Law office organization, specialized recordkeeping, law office computer applications (software in data management, storage and calendar controls), and accounting, scheduling, filing, management of personnel and other aspects of law office management. PRLE 102 recommended. Prerequisite: A grade of “C” or better in ENGL& 101 required. [GE]

**INTERVIEWING, INVESTIGATION AND EVIDENCE**  
PRLE 150  
3 Credits  
33 hours of lecture  
Strategies, techniques and tactics for interviewing witnesses and clients including investigation procedures, collecting evidence and preparation of complete reports for the attorney. Students will understand, review and apply Rules of Evidence. CMST& 210 or 230 (or CMST 201 or 211) and PRLE 103 recommended. Prerequisite: A grade of “C” or better in ENGL& 101 required. [GE]

**CIVIL LITIGATION I: LEGAL DOCUMENT PREPARATION**  
PRLE 151  
3 Credits  
33 hours of lecture  
Preparation of legal documents, legal terminology, and court rules and procedures as applied to general areas of law. Ability to type 40 wpm is recommended. Prerequisite: A grade of “C” or better in ENGL& 101, PRLE 101, PRLE 102 and BTEC 122 or 125 or consent of Instructional Unit. [GE]

**COMPUTER RESEARCH IN LAW**  
PRLE 203  
3 Credits  
22 hours of lecture  
22 hours of lab  
Survey of legal research terminology, electronic legal resources, and research strategies. Students will learn to locate state and federal legal information by citation through finding tools, utilize research strategies to efficiently locate non-legal information of interest to the legal researcher, evaluate the validity of electronic sources, and construct appropriate electronic sources. Prerequisite: A grade of “C” or better in ENGL& 101, PRLE 103 and 106 or consent of Instructional Unit. [GE]

**FAMILY LAW**  
PRLE 204  
3 Credits  
33 hours of lecture  
Law and theory relating to dissolutions of marriage, legal separation, parenting/custody agreements, prenuptials, antenuptial agreements, adoptions, child support, change of name, and post-divorce issues such as maintenance modification, child support modification, and parenting plan modifications. Prerequisite: A grade of “C” or better in ENGL& 101, PRLE 101 and PRLE 151 or consent of Instructional Unit.

**ESTATE PLANNING AND PROBATE LAW**  
PRLE 205  
3 Credits  
33 hours of lecture  
Law and theory of estate planning, probate, and options of probate with emphasis on wills, trusts, community property agreements, gifts, estate taxation, probate procedures, administration and accounting. Prerequisite: A grade of “C” or better in PRLE 101 and ENGL& 101 or consent of Instructional Unit. [GE]
REAL ESTATE AND PROPERTY LAW
PRLE 206  3 Credits  33 hours of lecture
Law of personal and real property with emphasis on common types of real estate transactions and conveyances such as deeds, contracts, leases, deeds of trust, liens, zoning agreements, assessments, searches and foreclosures. Drafting of conveyance instruments and methods of recording and searching public records. Prerequisite: A grade of “C” or better in PRLE 101 and ENGL& 101 or consent of Instructional Unit. [GE]

BUSINESS ORGANIZATIONS
PRLE 207  3 Credits  33 hours of lecture
Significant state law regarding corporations and partnerships, preparation and filing of corporate documents, partnership agreements, conduct of corporate shareholder and director meetings, corporate distributions, commercial litigation, secured transactions. Prerequisite: A grade of “C” or better in PRLE 101 and ENGL& 101 or consent of Instructional Unit. [GE]

BANKRUPTCY LAW
PRLE 208  3 Credits  33 hours of lecture
Introduction to bankruptcy procedures including filing of initial petition, selection of appropriate relief, meeting of creditors, adversarial proceedings, the final discharge hearing, and automatic stay. Analysis of relief available under Chapter 7, 11, 12, and 13 of the United States Bankruptcy code. Prerequisite: A grade of “C” or better in ENGL& 101, PRLE 101, 102, 103, and 106 or consent of Instructional Unit. [GE]

CIVIL LITIGATION: INSURANCE CLAIMS
PRLE 209  3 Credits  33 hours of lecture
Introduction to case management theory, using a “walk-through” personal injury action and preparation/handling of insurance claim(s) on behalf of a civil plaintiff. A complete preparation of a legal case, from intake to litigation including applicable legal terminology, court rules and procedures. Emphasis on the practices of law surrounding insurance claims and policies related to a civil action. Prerequisite: A grade of “C” or better in PRLE 106, 151 and ENGL& 101 or consent of Instructional Unit. [GE]

LEGAL WRITING II
PRLE 210  3 Credits  33 hours of lecture
Methods of legal research and legal writing. Application of research and analysis skills learned in PRLE 103 Legal Research and PRLE 203 Computer Research in Law. Continuation of the writing skills learned in PRLE 106 Legal Writing I. Focus on skills to research more intricate issues of law in a more accurate and precise method, with emphasis on preparing complex legal documents such as an interoffice Memorandum, Memorandum in Support of Motion and other types of legal documents, including the Appellate Brief. Prerequisite: A grade of “C” or better in ENGL& 101, PRLE 103, 203, and 106 or consent of Instructional Unit. [GE]

TORT LAW AND PROCEDURES
PRLE 211  3 Credits  33 hours of lecture
Resolution of personal injury claims with insurance companies, social security and workers’ compensation claims, with emphasis on the interpretation of insurance policies and the procedures for processing claims and effecting settlements. Methods for identifying workers’ compensation and social security claims, as well as the filing and processing of these claims through the applicable state and federal administrative law procedures. Prerequisite: A grade of “C” or better in PRLE 106 and ENGL& 101 or consent of Instructional Unit. [GE]

LAW AND ECONOMICS
PRLE 212  3 Credits  33 hours of lecture
Legal rules, regulations and precedent interact with market mechanics and influence the allocation of resources. Focus on the common law property, contract and tort area, methods to explain, predict and evaluate such areas as a means to predict future outcomes and evaluate their potential impact upon societal welfare. Topics include relevant economic theories in conjunction with individual court cases to emphasize how the subtleties of the theory connect with key facts of the case. Course methodology develops the economic theory in the context of legal problems via point by point analysis. Prerequisite: A grade of “C” or better in ENGL& 101 or consent of Instructional Unit. [GE]
SELECTED TOPICS
PRLE 280 1 - 3 Credits 33 hours of lecture
Varying topics for the paralegal profession as listed in the quarterly class schedule. May be repeated for credit. [GE]

SPECIAL PROJECTS
PRLE 290 1 - 5 Credits
Opportunity for students to plan, organize and complete special projects approved by the department. Contact the instructional dean, division chair or your instructor for more information or to make arrangements to register for Special Project credits in this department. (Note: special project closely supervised by the instructor. Student must create written plan, select an instructor and petition for Departmental approval.) Consent of Instructional Unit. [GE]

CASA SPECIAL PROJECT
PRLE 295 1 - 5 Credits
Court Appointed Special Advocate (CASA) Internship Project: a specialized Internship. Supervised, community service learning experience as trained, court appointed child advocate. Must complete thirty or more hours in CASA training and minimum one year commitment as a court appointed child advocate. No set requirement for hours worked per week, which is to be determined by the student and CASA. Work sites include the YWCA, Clark County courts, and other related off-site locations necessary for CASA program work. Must receive admission into the Vancouver YWCA’s Court CASA Program. Must pass background check. Prerequisite: A grade of “C” or better in ENGL& 101 and consent of Instructional Unit. [GE]

PARALEGAL INTERNSHIP
PRLE 299 1 - 3 Credits
Attorney-supervised work-based learning experience in a law office or other legal facility for paralegal internship. A capstone including a scheduled internship. Credits/grades based on hours worked, work performance, and completion of learning objectives specified in a learning contract (demonstrated adequate skills and professionalism) and completion of Seminar “Paralegal Information Night”. Prerequisite: Department Chair approval required, based on completion of core paralegal courses (all PRLE and BUS& 201).

Pharmacy Technician

OVERVIEW OF PHARMACY
PHAR 100 2 Credits 22 hours of lecture
Overview of pharmacy with particular focus on the technician in pharmacy practice settings including job roles, resources and ethical standards of practice. [GE]

A MINI DOSE OF PHARMACY
PHAR 101 1 Credit 11 hours of lecture
A preview of the practice of pharmacy. Identifies the role of the pharmacy tech, explores various pharmacy practice settings for employment, beginning basics of the language of pharmacy, both in written and oral forms. [GE]

INTRODUCTION TO PHARMACY
PHAR 105 4 Credits 44 hours of lecture
Introduction to the role of the pharmacy technician in a variety of pharmacy practice settings including history, personnel, resources, and ethical standards of pharmacy practice. Prerequisite: A grade of “C” or better in BMED 110 and consent of Instructional Unit. [GE]

PHARMACY CALCULATIONS
PHAR 110 3 Credits 33 hours of lecture
Basic math and arithmetic skills as they relate to pharmacy practice. Calculations and manipulations of metrics and related dosages. Pharmacy topics related to mathematical functions are emphasized. Prerequisite: Consent of HEOC advisor. [GE]
PHARMACOLOGY I
PHAR 112 5 Credits 55 hours of lecture
First of 2-quarter sequence in pharmacology. Topics include pharmacokinetic and pharmacodynamic principles of drug therapy, with focus on absorption, distribution, metabolism, excretion, drug classification, indication for use, dose, and side effects of the most common drugs, including antibiotics, analgesics, autonomic system, cardiovascular and respiratory drugs. Prerequisite: A grade of “C” or better in PHAR 105. [GE]

PHARMACY PRACTICE AND TECHNOLOGY
PHAR 114 4 Credits 33 hours of lecture 22 hours of lab
Pharmacy skills and knowledge essentials to the practice of pharmacy at the work site. Topics include correlation of terminology, computer system manipulation, use of current and emerging technology, and practical application of pharmacy dispensing activities. Prerequisite: Consent of HEOC advisor. [GE]

PHARMACY EXTERNSHIP I
PHAR 118 4 Credits 132 hours of clinical
Practical on-the-job instruction in the knowledge base required of a pharmacy assistant (technician) in the workforce. Community pharmacies/facilities will be used for this course. Concurrent enrollment in PHAR 119 required. Prerequisite: A grade of “C” or better in PHAR 105 and consent of Instructional Unit. [GE]

PHARMACY EXTERNSHIP SEMINAR I
PHAR 119 2 Credits 22 hours of lecture
First of 2-quarter sequence coordinating with PHAR 118 externship experience at work site. Topics include professionalism, productivity, handling challenging situations, and continuing education, with emphasis on success in the workplace. Group work, case study analysis, journal entries and a final written paper are required. Concurrent enrollment in PHAR 118 and written consent of Instructional Unit. [GE]

PHARMACOLOGY II
PHAR 122 5 Credits 55 hours of lecture
Second of 2-quarter sequence in pharmacology. Topics include pharmacokinetic and pharmacodynamic principles of drug therapy. Focus on absorption, distribution, metabolism, excretion, drug classification, indication for use, dose, and side effects of the most common drugs, including antidepressants and anti-anxiety agents, antipsychotics, anticonvulsants and other CNS disorder agents, hormone therapy, chemotheraphy, antiretrovirals, as well as topicals, ophthalmics and otics. Prerequisite: Completion of PHAR 112 and written consent of the Instructional Unit required. [GE]

PHARMACY LAW
PHAR 123 2 Credits 22 hours of lecture
State and federal laws and regulations that pertain to the duties of pharmacy technicians. Revised Code of Washington and Washington Administrative Codes will be reviewed. Prerequisite: written consent of Instructional Unit required. [GE]

PHARMACY COMPOUNDING
PHAR 127 4 Credits 33 hours of lecture 22 hours of lab
Overview of sterile products and aseptic technique for compounding of sterile products, intravenous (IV) drug delivery systems and equipment related to compounding and administration of IV products. Combination of lecture and lab projects. [GE]

PHARMACY EXTERNSHIP II
PHAR 128 4 Credits 132 hours of clinical
Continued practical, on-the-job instruction in the knowledge base required of a pharmacy (technician) in the workforce. Concurrent enrollment in PHAR 129 required. Prerequisite: Completion of PHAR 105 and written consent of Instructional Unit required. [GE]

PHARMACY EXTERNSHIP SEMINAR II
PHAR 129 2 Credits 22 hours of lecture
Second of 2-quarter sequence coordinating with PHAR 128 externship experience. Topics include work ethics,
interpersonal communication, problem solving, and success in the work place emphasized. Components include
group work, case study analysis, journal entries and a final written and oral project. Concurrent enrollment in
PHAR 128 and written consent of Instructional Unit required. [GE]

---

**Philosophy**

**INTRODUCTION TO PHILOSOPHY**
PHIL&101 5 Credits 55 hours of lecture
Some of the great themes and major figures of Western philosophy. [HA, SE]

**TRADITIONAL LOGIC**
PHIL&117 5 Credits 55 hours of lecture
Focus on sentence logic with proofs and Aristotelian logic with Venn Diagrams. Includes formulation of propositions, logical inference, syllogisms (categorical, hypothetical, etc.), and fallacies. Prerequisite: Successful completion of MATH 093 or 095, eligibility for college level math, or equivalent placement demonstrated is required.

**SYMBOLIC LOGIC**
PHIL&120 5 Credits 55 hours of lecture
Rigorous examination of logical theory emphasizing modern symbolic or formal logic, including truth-functional logic, propositional logic with proofs, predicate logic with quantifiers and proofs. Applications include computer science, cognitive science, artificial intelligence, linguistics, mathematics, and philosophy. Prerequisite: Successful completion of MATH 093, or 095, or eligibility for college level math, or equivalent placement demonstrated is required. Cannot receive credit for both PHIL& 106 and 120. [HA, SE]

**INTRODUCTION TO ANCIENT AND MEDIEVAL PHILOSOPHY**
PHIL 215 5 Credits 55 hours of lecture
Introduction to ancient Western philosophy from its Greek roots, through its development in Socrates, Plato, and Aristotle, and to its adaptations into Christian thought, with special emphasis of Augustine and Aquinas. [HA, SE]

**INTRODUCTION TO EARLY MODERN PHILOSOPHY**
PHIL 216 5 Credits 55 hours of lecture
Introduction to selected great thinkers and ideas of the sixteenth, seventeenth and eighteenth centuries, including the collapse of the medieval synthesis leading to the rise of the modern scientific mentality, followed by an examination of the philosophical struggle between the rationalism and the empiricism. [HA, SE]

**INTRODUCTION TO LATE MODERN PHILOSOPHY**
PHIL 217 5 Credits 55 hours of lecture
Selected major thinkers and ideas of the nineteenth and twentieth century, including Kant and Hegel. Focus on various philosophical movements related to Kant and Hegel: existentialism, process philosophy, Marx, Schopenhauer, positivism, and the pragmatism. [HA, SE]

**ETHICS**
PHIL 240 5 Credits 55 hours of lecture
Theories of morality from ancient times to the present, with attention to both practical and theoretical issues. The relationship between ethics and other areas of philosophy. [HA, SE]

**PHILOSOPHY OF RELIGION**
PHIL 251 5 Credits 55 hours of lecture
Exploration of the nature of the religious experience, the difficulties inherent in the use of religious language, the classical proofs for the existence of God, the relationship between faith and reason, and the problem of evil. [HA, SE]

**SELECTED TOPICS**
PHIL 280 1 - 3 Credits 33 hours of lecture
Varying topics in philosophy, as listed in the quarterly class schedule. May be repeated for credit. [HA, SE]
SPECIAL PROJECTS
PHIL 290 1 - 5 Credits
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Completion of two philosophy courses and consent of Instructional Unit. [HA, GE]

Phlebotomy

PHLEBOTOMY EDUCATION W/LAB
PHLE 115 3 Credits 22 hours of lecture
Training in basic venipuncture and skin puncture techniques as well as proper specimen-handling procedures as dictated by the Clinical and Laboratory Standards Institute (CLSI); (formerly NCCLS), and to function as an internal member of the clinical laboratory team. Cannot receive credit for both PHLE 115 and HEOC 115. Completion of or concurrent enrollment in BMED 111, 138, CMST& 210. Concurrent enrollment in PHLE 116 and PHLE 115L required. Prerequisite: High School completion or GED (or higher); READ 087 or higher (or COMPASS score of 74); ENGL 098 or higher (or COMPASS score of 78), BMED 110; FACPR 032; HEOC 100 or BIOL 164/165; HEOC 102, HEOC 120 and written consent from the Credentials Office.

BASIC LABORATORY FOR THE PHLEBOTOMIST
PHLE 116 3 Credits 11 hours of lecture 44 hours of lab
Learn to perform basic laboratory procedures that are required during specimen processing in a laboratory setting, including microcollection, pipetting, aliquoting, centrifugation, and basic equipment quality control. Cannot receive credit for both PHLE 116 and HEOC 160. Completion of PHLE 115 or concurrent enrollment in the Clark College Phlebotomy Program and Consent of Instructional Unit. Prerequisite: Concurrent enrollment in the Clark College Phlebotomy Program and Consent of Instructional Unit.

PHLEBOTOMY CLINICAL EXPERIENCE
PHLE 197 5 Credits 165 hours of clinical
Supervised phlebotomy experience in a health care facility. Provides students with the opportunity to apply knowledge and skill in performing clinical procedures and in developing professional attitudes for interacting with other professionals and patients. Cannot receive credit for both PHLE 197 and HEOC 197. Contact a Health Occupations Advisor for additional requirements necessary for enrolling in this course. Concurrent enrollment in PHLE 198 Clinical Seminar is required. Prerequisite: Satisfactory completion of PHLE 115 and PHLE 116 and all of the course requirements, and consent of the Instructional Unit.

PHLEBOTOMY CLINICAL SEMINAR
PHLE 198 1 Credit 11 hours of lecture
Students concurrently enrolled in PHLE 197, Phlebotomy Clinical Experience, will receive support, direction and the necessary tools to aid in future employment in the phlebotomy and healthcare field. Concurrent enrollment in PHLE 197 is required. Attendance at all seminar sessions is mandatory in order to successfully complete the course. Cannot receive credit for both PHLE 198 and HEOC 198. Prerequisite: Satisfactory completion of PHLE 115 and PHLE 116 and all course requirements or consent of the Instructional Unit.

Physical Education

CARDIO CONDITIONING
PE 100 1 Credit 22 hours of lab
Basic group exercise to music, primarily targeting cardiovascular conditioning. [PE, SE]

FITNESS WALKING
PE 102 1 - 2 Credits 44 hours of lab
Emphasis on walking programs, including interval training, power walking, and race walking. Walking technique and health benefits also discussed. [PE, SE]
BENCH STEP AEROBICS
PE 103 1 Credit 22 hours of lab
Introduction to high-intensity/low impact exercise promoting overall body strength and cardiovascular fitness that involves stepping up and down on a bench step platform to music. [PE, SE]

CIRCUIT FITNESS
PE 104 1-2 Credits 44 hours of lab
An individualized systematic approach to cardiovascular fitness through the use of multiple weight machines and aerobic equipment. Pre and post fitness assessments conducted. Students must earn 2 credits of PE 104 before advancing to PE 105. [PE, SE]

CIRCUIT FITNESS
PE 105 1-2 Credits 44 hours of lab
An individualized systematic approach to cardiovascular fitness through the use of multiple weight machines and aerobic equipment. Pre and post fitness assessments conducted. Prerequisite: Two credits of PE 104. [PE, SE]

CIRCUIT FITNESS
PE 106 1-2 Credits 44 hours of lab
An individualized systematic approach to cardiovascular fitness through the use of multiple weight machines and aerobic equipment. Pre and post fitness assessments conducted. Prerequisite: 2 credits of PE 105. [PE, SE]

SPEED, AGILITY, AND QUICKNESS
PE 107 1 Credit 22 hours of lab
Focuses on biomechanics of running, development of speed, agility and personal quickness. Learning of drills and enhancement of skills to improve personal performance. [PE, SE]

INDEPENDENT FITNESS PROGRAM
PE 108 1-2 Credits 44 hours of lab
A self-paced conditioning course for the motivated, self-directed student. Design, implement and document a goal-oriented fitness program with instructor advice and approval. Areas of concentration will be the three components of fitness: Cardiovascular endurance, muscular strength and muscular flexibility training. [PE, SE]

MARTIAL ARTS: TAE KWON DO
PE 109A 1 Credit 22 hours of lab
Tae Kwon Do is a Korean martial art that predominately focuses on kicking. Students must purchase a uniform for this class. [PE, SE]

MARTIAL ARTS: KUNG FU
PE 109B 1 Credit 22 hours of lab
Kung Fu is a Chinese method of self-defense. Covers history and philosophy, basic strikes, blocks, and escapes from various attacks and grabs. Students must purchase a uniform for this class. [PE, SE]

MARTIAL ARTS: JUDO
PE 109D 1 Credit 22 hours of lab
Judo is a Japanese martial art focused on throwing, where students learning falling techniques, basic takedowns, escapes, and joint locks. Students must purchase a uniform for this class. [PE, SE]

MARTIAL ARTS: BRAZILIAN JIU-JITSU
PE 109E 1 Credit 22 hours of lab
Jiu-Jitsu is a Brazilian sport of self-defense that uses grappling, wrestling, and locking techniques. Students must purchase a uniform for this class. [PE, SE]

SELF DEFENSE
PE 110 1 Credit 22 hours of lab
This course is designed to teach the student basic self-defense techniques as well as situational awareness through class participation and discussion. [PE, SE]
CORE CONDITIONING
PE 111 1 Credit 22 hours of lab
Focus on engaging the core area to improve posture and muscular endurance for everyday movement. [PE, SE]

TONE AND TRIM
PE 112 1 Credit 22 hours of lab
Stretching and strengthening exercise class to improve muscular strength, tone, posture and flexibility with an emphasis on abdominal and back strength. [PE, SE]

TOTAL BODY CONDITIONING
PE 113 2 Credits 44 hours of lab
Students will use fitness center equipment and a variety of conditioning activities to develop cardiovascular endurance, muscular strength, and flexibility. Course will emphasize how to structure an exercise plan to meet individualized goals. [PE, SE]

WEIGHT TRAINING-GENERAL I
PE 115 1 Credit 22 hours of lab
Strength development through basic exercise and lift techniques. Beginning theories and techniques in fitness conditioning, body building, and power lifting. [PE, SE]

FITNESS CENTER BASICS
PE 116 1 Credit 22 hours of lab
Introduction to the fundamental skills necessary to implement a physical activity program in a fitness center setting. Students develop and implement an exercise program appropriate to their fitness level and individual needs using a variety of cardiovascular and resistance machines. [PE, SE]

WEIGHT TRAINING-POWER LIFTING I
PE 117 2 Credits 44 hours of lab
Conditioning class for students interested in strength improvement through heavy resistance training. The Olympic lifts along with numerous power/speed lifts will be performed for personal improvement in various fitness parameters. [PE, SE]

CROSS TRAINING
PE 118 2 Credits 44 hours of lab
Introduction to cross-training utilizing strength and conditioning principles and activities including: calisthenics, basic gymnastics, weightlifting and mobility. Cardio endurance and functional movement will also be covered and developed.

CARDIO KICKBOXING - BEGINNING
PE 120 1 Credit 22 hours of lab
Combination of aerobic dance and martial arts, including American Kickboxing and Thai Boxing, in a format that increases cardiovascular endurance, sharpens reflexes and enhances power. [PE, SE]

YOGA
PE 121 1 Credit 22 hours of lab
Introduction to hatha yoga (physical yoga) with an emphasis on postures, breathing and body-mind centering. [PE, SE]

T’AI CHI
PE 122 1 Credit 22 hours of lab
T’ai Chi is an ancient form of mental and spiritual discipline developed in China. The movements of the t’ai chi form are slow and deliberate, helping with relaxation, focus, strengthening, and balance. [PE, SE]

HEALTHY HEART - BEGINNING
PE 123 1 Credit 22 hours of lab
Cardiac prevention and rehabilitation exercise: designed to promote awareness and practice of exercise, nutrition, and stress. Skills in dealing with pre- and post-cardiac trauma. [GE, SE]
PILATES - BEGINNING
PE 124 1 Credit 22 hours of lab
Methods of conditioning covers the basic principles and exercise technique needed to increase core strength and stabilization, improve coordination, balance, postural awareness, and increase muscular flexibility and stamina. [PE, SE]

ROCK CLIMBING
PE 125 1 Credit 22 hours of lab
Basics of rock climbing. Focus on belay techniques and knot tying skills along with the essential styles of climbing safety and efficiently.

BOOT CAMP - BEGINNING
PE 129 2 Credits 44 hours of lab
Introduction to physical fitness for military purposes; emphasis on basic conditioning and discipline. This course is open to all students. [PE, SE]

Ballet - BEGINNING
PE 130 1 Credit 22 hours of lab
Beginning ballet technique including barre and centre work. [PE, SE]

Ballet - BEGINNING
PE 131 1 - 3 Credits 66 hours of lab
Fundamentals, forms and pattern of ballroom dance. Develop confidence through practice with a variety of partners. Smooth style dances include waltz, tango, fox trot, quick step and Viennese waltz. Latin Dance sections will include: mambo, cha cha, rhumba, samba, salsa.

BALLROOM DANCE: SMOOTH
PE 131A 1 Credit 22 hours of lab
Fundamentals, forms and pattern of ballroom dance. Develop confidence through practice with a variety of partners. Smooth style dances include waltz, tango, fox trot, quick step and Viennese waltz. [PE, SE]

BALLROOM DANCE: LATIN
PE 131B 1 Credit 22 hours of lab
Fundamentals, forms and pattern of ballroom dance. Develop confidence through practice with a variety of partners. Latin dance sections will include: mambo, cha cha, rhumba, samba, and salsa. [PE, SE]

BALLROOM DANCE: LATIN OR SMOOTH
PE 131D 1 Credit 22 hours of lab
Fundamentals, forms and pattern of ballroom dance. Develop confidence through practice with a variety of partners. Smooth style dances include waltz, tango, fox trot, quick step and Viennese waltz. Latin dances include: mambo, cha cha, rhumba, samba, salsa. [PE, SE]

CONTEMPORARY DANCE
PE 133 1 Credit 22 hours of lab
Fundamentals and techniques of modern dance and rhythmic self-expression. [PE, SE]

MODERN JAZZ
PE 134 1 Credit 22 hours of lab
Beginning Modern Jazz technique. Students will study fundamental moves and learn a routine. [PE, SE]

SWING DANCE - BEGINNING
PE 135 1 Credit 22 hours of lab
Basic patterns and partnering skills for East Coast Swing (jive), West Coast Swing (hustle), and Lindy Hop. Course covers dance technique, partnering skills, patterns and music identification. [PE, SE]
HIP-HOP DANCE
PE 137 1 Credit 22 hours of lab
Introduction to basic dance techniques, floor combinations, balance, and longer dance routines of hip hop dance. Develop confidence and skill through practice. [PE, SE]

BELLY DANCE
PE 139 1 Credit 22 hours of lab
Gain knowledge of movement and dance steps, culture and history, various rhythms, country of origin and related movements. Egyptian music is the predominant focus. [PE, SE]

BASKETBALL
PE 140 1 Credit 22 hours of lab
Ball handling, shooting, passing, offensive and defensive techniques, rules, strategy and competitive play. [PE, SE]

BOWLING
PE 143 1 Credit 22 hours of lab
Techniques, styles of play, rules of courtesy, scoring and competitive games. [PE, SE]

FENCING-FOIL
PE 147 1 Credit 22 hours of lab
Movement of fencing plus defense, offense, rules of boutting, officiating, and competition. [PE, SE]

GOLF
PE 148 1 Credit 22 hours of lab
Fundamentals and practice of golf. Focuses on full-swing fundamentals, chipping, pitching, putting, golf strategies, and rules of the game. [PE, SE]

SOCCER
PE 150 1 Credit 22 hours of lab
Focus on individual offensive and defensive skills, game strategy, rules, and team tactics through the use of small-sided games and individual drills. [PE, SE]

SPORTS CONDITIONING
PE 152 1 - 30 Credits 660 hours of lab
Strength and cardiovascular conditioning in preparation for competing in intercollegiate sports.

SPORTS CONDITIONING: SOCCER-WOMEN
PE 152A 1 - 3 Credits 66 hours of lab
Strength and cardiovascular conditioning in preparation for competing in intercollegiate women's soccer. [PE, SE]

SPORTS CONDITIONING: SOCCER-MEN'S
PE 152B 1 - 3 Credits 66 hours of lab
Strength and cardiovascular conditioning in preparation for competing in intercollegiate men's soccer. [PE, SE]

SPORTS CONDITIONING: VOLLEYBALL
PE 152D 1 - 3 Credits 66 hours of lab
Strength and cardiovascular conditioning in preparation for competing in women's intercollegiate volleyball. [PE, SE]

SPORTS CONDITIONING: BASKETBALL-WOMEN'S
PE 152E 1 - 3 Credits 66 hours of lab
Strength and cardiovascular conditioning in preparation for competing in intercollegiate women's basketball. [PE, SE]

SPORTS CONDITIONING: BASKETBALL-MEN'S
PE 152F 1 - 3 Credits 66 hours of lab
Strength and cardiovascular conditioning in preparation for competing in intercollegiate men's basketball. [PE, SE]
**SPORTS CONDITIONING: SOFTBALL**  
PE 152G 1 - 3 Credits 66 hours of lab  
Strength and cardiovascular conditioning in preparation for competing in women's intercollegiate softball. [PE, SE]

**SPORTS CONDITIONING: TRACK AND FIELD**  
PE 152I 1 - 3 Credits 66 hours of lab  
Strength and cardiovascular conditioning in preparation for competing in intercollegiate track and field. [PE, SE]

**SPORTS CONDITIONING: CHEERLEADING**  
PE 152J 1 - 3 Credits 66 hours of lab  
Strength and cardiovascular conditioning in preparation for competing in intercollegiate cheerleading.

**SPORTS CONDITIONING: CROSS COUNTRY**  
PE 152K 1 - 3 Credits 66 hours of lab  
Strength and cardiovascular conditioning in preparation for competing in intercollegiate cross country. [PE, SE]

**SPORTS CONDITIONING: BASEBALL**  
PE 152M 1 - 3 Credits 66 hours of lab  
Strength and cardiovascular conditioning in preparation for competing in intercollegiate baseball. [PE, SE]

**TENNIS**  
PE 155 1 Credit 22 hours of lab  
Basic tennis skills including grip, foot work, and strokes, such as backhand, forehand, volley and serve. The drop shot, lob, and overhead shots will be introduced, as will singles and doubles strategies, rules, scoring and court etiquette. [PE, SE]

**VOLLEYBALL**  
PE 158 1 Credit 22 hours of lab  
Introduction to the fundamental skills and strategies of organized volleyball. Volleyball requires development of the following individual skills: forearm pass, set, spike, block, dig, and serve. In addition, students will gain an understanding of elementary team strategies. Students will learn to practice effective communication with teammates. [PE, SE]

**ULTIMATE FRISBEE - BEGINNING**  
PE 163 1 Credit 22 hours of lab  
Ultimate Frisbee fundamentals: individual skill development, rules, game play, and strategies. [PE, SE]

**AQUA EXERCISE**  
PE 171 1 Credit 22 hours of lab  
Conditioning through water exercises for students with or without swimming ability. Increased fitness with emphasis on stretching, flexibility, and abdominal and back strength. [PE, SE]

**SCUBA - BEGINNING**  
PE 173 2 Credits 11 hours of lecture 22 hours of lab  
Classroom lectures and discussion, swimming pool practice, and diving safety. Supervised experience in open water training optional at extra cost. Successful completion qualifies student for certification card. Prerequisite: Swimming ability. [PE, SE]

**SWIMMING-STROKE AND SKILL IMPROVEMENT**  
PE 175 1 Credit 22 hours of lab  
For swimmer who is comfortable in deep water. Instruction and improvement of individual swimming strokes and survival skills. [PE, SE]

**SWIMMING - BEGINNING**  
PE 176 1 Credit 22 hours of lab  
For non-swimmers and those who cannot swim 25 yards (one pool length). Opportunity to learn and improve indi-
individual swimming and water survival skills. Introduction to Red Cross swimming strokes with increased endurance and comfort in the water. [PE, SE]

**SWIMMING-ELEMENTARY**

PE 177 1 Credit 22 hours of lab
Designed for beginning swimming students who wish to further their confidence in the water. Focus is on improving swimming proficiency and water survival skills. Beginning swimming skills that are emphasized include the crawl, breast stroke, and diving. [PE, SE]

**SWIM CONDITIONING - BEGINNING**

PE 179 1 Credit 22 hours of lab
Emphasizes swimming fitness through lap swimming. Students will participate in a workout designed to address their particular fitness and skill level. Prerequisite: Ability to swim comfortably in the deep end of pool. [PE, SE]

**HIKING**

PE 182 1 Credit 22 hours of lab
Experience hiking off-campus on designated trails. Course emphasizes basic safety and survival skills and practices low-impact hiking methods. [PE, SE]

**ROWING - BEGINNING**

PE 183 1 Credit 22 hours of lab
Introduction to the sport of rowing. Includes basic technique and terminology, related water safety, development of strength, endurance and flexibility. Skills include rowing, strength training, cardiovascular training. Prerequisite: Must pass swimming test prior to first class. See Course Information Sheet outside OSC 206 for more information. [PE, SE]

**CARDIO CONDITIONING - INTERMEDIATE**

PE 200 1 Credit 22 hours of lab
Intermediate group exercise to music, primarily targeting cardiovascular conditioning. Prerequisite: PE 100. [PE, SE]

**FITNESS WALKING - INTERMEDIATE**

PE 202 1 - 2 Credits 44 hours of lab
Intermediate fitness walking with emphasis on walking programs and technique. Prerequisite: PE 102. [PE, SE]

**BENCH STEP AEROBICS - INTERMEDIATE**

PE 203 1 Credit 22 hours of lab
Intermediate high-intensity/low impact exercise program using a bench step promoting overall body strength and cardiovascular fitness. Prerequisite: PE 103. [PE, SE]

**SPEED, AGILITY, AND QUICKNESS**

PE 207 1 Credit 22 hours of lab
Additional drills to further advance personal ability in running, quickness, speed. Includes advanced plyometric training techniques. Prerequisite: PE 107. [PE, SE]

**INDEPENDENT FITNESS - INTERMEDIATE**

PE 208 1 - 2 Credits 44 hours of lab
A continuation of the self-paced conditioning course, plus setting and implementing an additional personalized health related goal to be determined at the first individual meeting with instructor. Prerequisite: PE 108. [PE, SE]

**MARTIAL ARTS - INTERMEDIATE**

PE 209 1 - 4 Credits 88 hours of lab
A further examination into a specified martial art. Prerequisite: PE 109. [PE]
MARTIAL ARTS - INTERMEDIATE: TAE KWON DO
PE 209A 1 Credit 22 hours of lab
A further examination into Tae Kwon Do, a Korean martial art that predominately focuses on kicking. Students must purchase a uniform for this class. Prerequisite: PE 109A. [PE, SE]

MARTIAL ARTS - INTERMEDIATE: KUNG FU
PE 209B 1 Credit 22 hours of lab
A further examination into Kung Fu, a Chinese method of self-defense. Covers history and philosophy, basic strikes, blocks, and escapes from various attacks and grabs. Students must purchase a uniform for this class. Prerequisite: PE 109B. [PE, SE]

MARTIAL ARTS - INTERMEDIATE: JUDO
PE 209D 1 Credit 22 hours of lab
A further examination into Judo, a Japanese martial art focused on throwing, where students learn falling techniques, basic takedowns, escapes, and joint locks. Students must purchase a uniform for this class. Prerequisite: PE 109D. [PE, SE]

MARTIAL ARTS - INTERMEDIATE: BRAZILIAN JIU-JITSU
PE 209E 1 Credit 22 hours of lab
A further examination into Jiu-Jitsu, a Brazilian sport of self-defense that uses grappling, wrestling, and locking techniques. Students must purchase a uniform for this class. Prerequisite: PE 109C. [PE, SE]

CORE CONDITIONING - INTERMEDIATE
PE 211 1 Credit 22 hours of lab
Continuation of core conditioning techniques learned in PE 111. More advanced techniques introduced. Prerequisite: PE 111. [PE, SE]

TONE AND TRIM - INTERMEDIATE
PE 212 1 Credit 22 hours of lab
Continuation of general fitness improvement through stretching, flexibility and toning exercise. Prerequisite: PE 112. [PE, SE]

TOTAL BODY CONDITIONING - INT
PE 213 2 Credits 44 hours of lab
Continuation of individualized conditioning program for developing the various components of fitness. Additional focus on learning principles of fitness to create personalized workouts. Prerequisite: PE 113. [PE, SE]

TRIATHLON TRAINING
PE 214 2 Credits 44 hours of lab
Theoretical basis and competencies needed to safely and effectively train to complete a small triathlon will be explored. Activities include swimming, cycling and running along with a self-contained mini triathlon at course conclusion. Students must know how to swim and have their own bicycle. [PE, SE]

WEIGHT TRAINING-GENERAL II
PE 215 1 Credit 22 hours of lab
Designed for the student who is interested in a more in-depth approach to advanced weight training exercises, programs, and systems.

FITNESS CENTER - INTERMEDIATE
PE 216 1 Credit 22 hours of lab
Introduction to the fundamental skills necessary to implement a physical activity program in a fitness center setting. Students develop and implement an exercise program appropriate to their fitness level and individual needs using a variety of cardiovascular and resistance machines. [PE, SE]
WEIGHT TRAINING-POWER LIFTING II  
PE 217  2 Credits  44 hours of lab  
Continued application of skill and conditioning level. Application of workout design and training theory will also be covered and applied. Assessment of personal fitness parameters. Prerequisite: PE 117. [PE, SE]

CARDIO KICKBOXING - INT  
PE 220  1 Credit  22 hours of lab  
Continuation of PE 120. Intermediate students will demonstrate more advanced techniques and perform moves that require greater conditioning. Combines aerobic dance and martial arts, including American Kickboxing and Thai Boxing, in a format that increases cardiovascular endurance, sharpens reflexes and enhances power. Prerequisite: PE 120. [PE, SE]

YOGA - INTERMEDIATE  
PE 221  1 Credit  22 hours of lab  
A continuation of Hatha yoga technique. Students will practice more advanced postures and a deeper exploration of body-mind centering. Prerequisite: PE 121. [PE, SE]

T'AI CHI - INTERMEDIATE  
PE 222  1 Credit  22 hours of lab  
T'ai Chi is an ancient form of mental and spiritual discipline developed in China. The movements of the T'ai Chi form are slow, deliberate and focused. Intermediate T'ai Chi will introduce additional movements of the Yang Family Short Form, as well as encourage a deeper exploration of the principles introduced in Beginning T'ai Chi. Prerequisite: PE 122. [PE, SE]

HEALTHY HEART - INTERMEDIATE  
PE 223  1 Credit  22 hours of lab  
Continuation of exercise designed to lower risk for heart disease or to promote cardiac recovery. Study of healthy nutrition and stress reduction in the prevention of heart disease. Prerequisite: PE 123. [GE, PE, SE]

PILATES - INTERMEDIATE  
PE 224  1 Credit  22 hours of lab  
Continuation of Pilates method of conditioning needed to increase core strength and stabilization, improve coordination, balance, postural awareness, and increase muscular flexibility and stamina. Prerequisite: PE 124. [PE, SE]

ROCK CLIMBING - INTERMEDIATE  
PE 225  1 Credit  22 hours of lab  
Learn advanced rock climbing methods. Bouldering technique and Lead Climbing skills will be taught, taking the student beyond the skills learned in PE 125. Prerequisite: Completion of PE 125 or consent of Instructional Unit.

BOOT CAMP - INTERMEDIATE  
PE 229  2 Credits  44 hours of lab  
Continuation of physical fitness for military purposes; emphasis on basic conditioning, discipline, and leadership. This course is open to all students. Prerequisite: PE 129. [PE, SE]

BALLET - INTERMEDIATE  
PE 230  1 Credit  22 hours of lab  
Stronger techniques with more advanced steps and combinations including toe. Prerequisite: PE 130. [PE, SE]

BALLROOM DANCE - INTERMEDIATE: LATIN OR SMOOTH  
PE 231  1 - 3 Credits  66 hours of lab  
Fundamentals, forms and pattern of ballroom dance. Develop confidence through practice with a variety of partners. SMOOTH style dances include waltz, tango, fox trot, quick step and Viennese waltz. LATIN Dance sections will include: mambo, cha cha, rhumba, samba, salsa. Prerequisite: PE 131.
BALLROOM DANCE - INTERMEDIATE: SMOOTH
PE 231A 1 Credit 22 hours of lab
Fundamentals, forms and pattern of ballroom dance. Develop confidence through practice with a variety of partners. Smooth style dances include waltz, tango, fox trot, quick step and Viennese waltz. Prerequisite: PE 131A. [PE, SE]

BALLROOM DANCE - INTERMEDIATE: LATIN
PE 231B 1 Credit 22 hours of lab
Fundamentals, forms and pattern of ballroom dance. Develop confidence through practice with a variety of partners. Latin dance sections will include: mambo, cha cha, rhumba, samba, and salsa. Prerequisite: PE 131B. [PE, SE]

BALLROOM DANCE - INTERMEDIATE: SMOOTH-LATIN
PE 231D 1 Credit 22 hours of lab
Fundamentals, forms and pattern of ballroom dance. Develop confidence through practice with a variety of partners. Smooth style dances include waltz, tango, fox trot, quick step and Viennese waltz. Latin dances include: mambo, cha cha, rhumba, samba, salsa. Prerequisite: PE 131C. [PE, SE]

CONTEMPORARY DANCE - INTERMEDIATE
PE 233 1 Credit 22 hours of lab
Intermediate techniques with opportunities for individual and group composition. Prerequisite: PE 133. [PE, SE]

MODERN JAZZ - INTERMEDIATE
PE 234 1 Credit 22 hours of lab
Refinement of jazz technique and skill improvement. Prerequisite: PE 134. [PE, SE]

SWING DANCE - INTERMEDIATE
PE 235 1 Credit 22 hours of lab
Continuation of PE 135. Includes partnering techniques such as leverage, posture, hovering, contrary body movement, rise and fall, and sway, and styling such as Cuban motion for Latin, spring action for East Coast Swing and heel leads for smooth. Introduction to opposite role as lead/follow. Prerequisite: PE 135. [PE, SE]

HIP-HOP DANCE - INTERMEDIATE
PE 237 1 Credit 22 hours of lab
Intermediate study of dance techniques, floor combinations, balance, and longer dance routines of hip hop dance. Develop more confidence and skill through practice. Prerequisite: PE 137. [PE, SE]

BELLY DANCE - INTERMEDIATE
PE 239 1 Credit 22 hours of lab
Continuation of the skills learned in PE 139, plus new variations and intermediate study of Middle Eastern Dance technique. Prerequisite: PE 139. [PE, SE]

BASKETBALL - INTERMEDIATE
PE 240 1 Credit 22 hours of lab
Continuation of skills, practice, and competitive play. Prerequisite: PE 140. [PE, SE]

BOWLING - INTERMEDIATE
PE 243 1 Credit 22 hours of lab
Advanced instruction in all phases of bowling including league play and competition. Prerequisite: PE 143. [PE, SE]

FENCING-FOIL, SABRE/EPEE
PE 246 1 Credit 22 hours of lab
Movements of all three weapons of fencing. Emphasizes defense, offense, rules, officiating and competition. [PE, SE]

FENCING-FOIL INTERMEDIATE
PE 247 1 Credit 22 hours of lab
Skill refinement and advanced technique for experienced foil fencers. Prerequisite: PE 147. [PE, SE]
GOLF - INTERMEDIATE
PE 248 1 Credit 22 hours of lab
More advanced instruction on golf swing, short game, and golf strategies. [PE, SE]

SOCCER - INTERMEDIATE
PE 250 1 Credit 22 hours of lab
Focus on learning and applying more advanced individual skills utilizing small and large groups to demonstrate more advanced team tactics. Prerequisite: PE 150. [PE, SE]

SPORTS CONDITIONING INTERMEDIATE
PE 252 1 - 30 Credits 600 hours of lab
Continuation of strength and cardiovascular conditioning in preparation for competing in intercollegiate sports. Prerequisite: Students must earn 3 credits of PE 152 before enrolling in PE 252.

SPORTS CONDITIONING INTERMEDIATE: SOCCER-MEN & #03
PE 252B 1 - 3 Credits 66 hours of lab
Strength and cardiovascular conditioning in preparation for competing in men's intercollegiate soccer. Prerequisite: PE 152B. [PE, SE]

SPORTS CONDITIONING INTERMEDIATE: VOLLEYBALL
PE 252D 1 - 3 Credits 66 hours of lab
Strength and cardiovascular conditioning in preparation for competing in women's intercollegiate volleyball. Prerequisite: PE 152D. [PE, SE]

SPORTS CONDITIONING INTER: BASKETBALL-WOMEN & #039
PE 252E 1 - 3 Credits 66 hours of lab
Basketball-women's: Strength and cardiovascular conditioning in preparation for competing in intercollegiate basketball. Prerequisite: PE 152E. [PE, SE]

SPORTS CONDITIONING INTER: BASKETBALL-MEN'S
PE 252F 1 - 3 Credits 66 hours of lab
Strength and cardiovascular conditioning in preparation for competing in intercollegiate basketball. Prerequisite: PE 152F. [PE, SE]

SPORTS CONDITIONING INTERMEDIATE: SOFTBALL
PE 252G 1 - 3 Credits 66 hours of lab
Strength and cardiovascular conditioning in preparation for competing in intercollegiate softball. Prerequisite: PE 152G. [PE, SE]

SPORTS CONDITIONING INTERMEDIATE: TRACK & FI
PE 252H 1 - 3 Credits 66 hours of lab
Strength and cardiovascular conditioning in preparation for competing in intercollegiate track and field. Prerequisite: PE 152H. [PE, SE]

SPORTS CONDITIONING: CHEERLEADING - INTERMEDIATE
PE 252I 1 - 3 Credits 66 hours of lab
Strength and cardiovascular conditioning in preparation for competing in intercollegiate cheerleading. Prerequisite: PE 152I.

SPORTS CONDITIONING INTERMEDIATE: CROSS COUNTRY
PE 252K 1 - 3 Credits 66 hours of lab
Strength and cardiovascular conditioning in preparation for competing in intercollegiate cross country. Prerequisite: PE 152K. [PE, SE]
SPORTS CONDITIONING INTERMEDIATE: BASEBALL
PE 252M 1 - 3 Credits 66 hours of lab
Strength and cardiovascular conditioning in preparation for competing in men's intercollegiate baseball. Prerequisite: PE 152H. [PE, SE]

TENNIS - INTERMEDIATE
PE 255 1 Credit 22 hours of lab
Refinement of tennis skills, advanced game strategies and strokes. Observe and assist 100 level students. Prerequisite: PE 155. [PE, SE]

VOLLEYBALL - INTERMEDIATE
PE 258 1 Credit 22 hours of lab
Further development of individual skills, team offenses and defenses learned in the beginning level PE 158. Prerequisite: PE 158. [PE, SE]

VOLLEYBALL-POWER
PE 260 1 Credit 22 hours of lab
Higher level of volleyball for the advanced player utilizing advanced skills and drills. Emphasis will be placed on advanced offensive and defensive strategies. Prerequisite: PE 158 and PE 258 or competitive experience. [PE, SE]

ULTIMATE FRISBEE - INTERMEDIATE
PE 263 1 Credit 22 hours of lab
Continuation of individual skill development, rules, game play, and strategies for the intermediate level ultimate Frisbee player. Prerequisite: PE 163. [PE, SE]

AQUA EXERCISE - INTERMEDIATE
PE 271 1 Credit 22 hours of lab
Continuation of water exercise conditioning through stretching, flexibility, abdominal and back strength. Prerequisite: PE 171. [PE, SE]

SWIMMING - INTERMEDIATE
PE 274 1 Credit 22 hours of lab
For the elementary swimmer who is comfortable in deep water and can swim 25 yards. Review Red Cross swimming strokes and safety skills while increasing strength and endurance. [PE, SE]

SWIMMING-STROKE & SKILL IMPROVEMENT - INT
PE 275 1 Credit 22 hours of lab
For the intermediate swimmer. Continuation of individual swimming strokes and endurance. Prerequisite: PE 175. [PE, SE]

SWIM CONDITIONING - INTERMEDIATE
PE 279 1 Credit 22 hours of lab
Continued practice of swimming fitness through lap swimming. Students will participate in a workout designed to address their particular fitness and skill level. Prerequisite: PE 179. [PE, SE, GE]

SELECTED TOPICS
PE 280 1 - 5 Credits 55 hours of lecture
The course focuses on selected topics in Physical Education. Topics vary, and course theme and content change to reflect new topics. Because the course varies in content, it is repeatable for credit for different topics. Individual topics are listed in the quarterly class schedules. [PE, SE]

HIKING - INTERMEDIATE
PE 282 1 Credit 22 hours of lab
Continuation of hiking skills with focus on advanced safety and survival skills. Explore local hiking options, practice low-impact hiking methods on longer, more challenging hikes, and plan a future hike. [PE, SE, GE]
ROWING - INTERMEDIATE
PE 283  1 Credit  22 hours of lab
Further development of rowing technique, tactics and fitness development. Prerequisite: A grade of “S” in PE 183. [PE, SE]

SPECIAL PROJECTS
PE 290  1 - 5 Credits
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]

CARE AND PREVENTION OF ATHLETIC INJURIES
PE 291  3 Credits  22 hours of lecture  22 hours of lab
Injury prevention in sports through understanding of conditioning, bio-mechanics, taping, bandaging, nutrition, immediate post-injury care, and rehabilitation of sports injury. Prerequisite: A grade of “C” or better in FT 150, BIOL 164, or BIOL& 251, or consent of Instructional Unit. [SE]

MENTAL PERFORMANCE IN SPORTS
PE 293  3 Credits  33 hours of lecture
Theories and strategies of mental preparation for improvement in individual and team performances. Discussion topics include: personality, motivational model, time management/goal setting techniques. Coach profiles, team communication, steps to team building, stress management and performance anxiety and imagery will also be covered. A review of current literature and the case analysis method will provide opportunity for individual and group application of presented materials. [SE]

SPORT IN SOCIETY
PE 294  3 Credits  33 hours of lecture
Explores the relationship which exists between the multifaceted world of sport and society. Discussion topics include: racism, gender in equality, aggression, deviancy, media/commercialism, as well as youth sports. Discussion will also include the concept of play, competition and the rapid development of youth sport programs and their impact on the family unit. [PE, SE]

INTRODUCTION TO SPORTS OFFICIATING
PE 295  2 Credits  22 hours of lecture
This is an introductory course to sports officiating, exploring basic officiating skills including but not limited to communication, conflict management, professionalism, and personal fitness. In addition, practical experience in sport-specific officials associations will prepare students for national and local certifications that will enhance employment opportunities.

Physical Science

GENERAL PHYSICAL SCIENCE
PHSC 101  5 Credits  44 hours of lecture  22 hours of lab
How the world around us behaves depends on the nature of matter and energy. Physical laws are presented in this course that describe the interaction of matter and energy. These laws are used to help explain experiences from daily life. For the non-science major, with little or no science background. [NS, SE]

GENERAL PHYSICAL SCIENCE
PHSC 102  5 Credits  44 hours of lecture  22 hours of lab
A chemistry-focused physical science class, in which we will explore practical applications of chemical reactions. Different branches of chemistry such as inorganic, organic, biochemistry and green chemistry will be discussed as they pertain to the real world. For non-science majors with little or no science background. No prerequisites are required.
INTRODUCTION TO DESIGN
PHSC 104 5 Credits 44 hours of lecture 33 hours of lab
Introduction to the engineering method of problem solving through guided Engineering design projects. Focus on developing group skills, understanding the effects of different learning styles, producing strategies for innovation, and fostering creativity in problem solving. Cannot receive credit for both PHSC 104 and ENGR& 104. [NS, SE]

OUR CHEMICAL WORLD
PHSC 106 3 Credits 33 hours of lecture
Introduction to basic chemical concepts using cooperative learning and the backdrop of environmental science. This course is writing-intensive, requiring weekly essays discussing select chemical applications in the world around us. Topics include: energy and nutrient flow through the ecosystem; chemical hurdles facing agriculture; chemical, physical, and nuclear reactions of energy production; ramifications of chemical pollution; green chemical solutions. Intended for non-science majors with little or no scientific background. Prerequisite: A grade of “C” or better in ENGL 098, or eligibility for ENGL 101.

SCIENCE OF SCI FI
PHSC 110 5 Credits 33 hours of lecture 44 hours of lab
Introduction to the Scientific Method and the principles of Physics, and Chemistry though the investigation of Science Fiction. Learn to distinguish between science and pseudoscience. Through the investigation of science fiction TV shows and films we will establish and investigate both accepted scientific principles and examine and invalidate others. Prerequisite: A grade of “C” or better in MATH 089 or 090, or placement in MATH 091 or higher. [NS, SE]

COOPERATIVE WORK EXPERIENCE
PHSC 199 1 - 3 Credits 99 hours of clinical
Supervised work experience in an approved job. Completion of specific learning objectives and employer evaluation. Completion of, or concurrent enrollment in, HDEV 195, 198, or 200 required. Prerequisite: Consent of Instructional Unit. [GE]

Physics
APPLIED PHYSICS
PHYS 090 5 Credits 44 hours of lecture 22 hours of lab
Topics include force, motion, torque, energy, power, friction, electricity, magnetism, mechanical advantage, fluids, metric measurement, elasticity, heat, temperature, heat transfer, and heat engines. Open to all students seeking an Applied Science degree.

PHYSICS CALCULATIONS
PHYS 091 1 Credit 11 hours of lecture
Methods of problem-solving in physics. Concurrent enrollment in PHYS & 124 is required.

PHYSICS CALCULATIONS
PHYS 092 1 Credit 11 hours of lecture

PHYSICS CALCULATIONS
PHYS 093 1 Credit 11 hours of lecture

PHYSICS CALCULATIONS
PHYS 094 1 Credit 11 hours of lecture
Methods of problem-solving in physics. Concurrent enrollment in PHYS& 221 required.
PHYSICS CALCULATIONS  
PHYS 095 1 Credit 11 hours of lecture  

PHYSICS CALCULATIONS  
PHYS 096 1 Credit 11 hours of lecture  

PHYSICS NON-SCI MAJORS  
PHYS&100 4 Credits 44 hours of lecture  
Introduction to basic physics concepts for non-science majors, technical students, or students who desire a PHYS& 121 or 221 preparatory course. Concurrent enrollment in PHYS 101 Lab course required. Prerequisite: MATH 090 or equivalent. [NS, SE]

PHYSICS LAB NON-SCI MAJORS  
PHYS&101 1 Credit 33 hours of lab  
Laboratory study of basic physics concepts for non-science majors, technical students, or students who desire a PHYS& 121 or 221 preparatory course. Concurrent enrollment in PHYS 100 course required or consent of the instructor.

GENERAL PHYSICS LAB III  
PHYS&126 1 Credit 33 hours of lab  
Exploration of classical physics topics in electricity and magnetism, optics, and modern physics through laboratory experience. Concurrent enrollment in PHYS& 136.

GENERAL PHYSICS I  
PHYS&134 4 Credits 44 hours of lecture  
First of a three-quarter sequence, offered in fall and winter quarters. Physical principles of motion, equilibrium, dynamics, gravity, work energy, momentum, and fluids. Recommended for students in medicine, dentistry, pharmacy, physical therapy, forestry and the life sciences. Concurrent enrollment in PHYS 091 and PHYS& 124 required. Prerequisite: A grade of “C” or better in MATH 103 or equivalent or concurrent enrollment in MATH 111.

GENERAL PHYSICS II  
PHYS&135 4 Credits 44 hours of lecture  
Second of a three-quarter sequence beginning with PHYS& 134. Fundamental physical principles of sound, fluids, heat, thermodynamics, electricity, and magnetism. Concurrent enrollment in PHYS& 125 and PHYS 092. Prerequisite: A grade of “C” or better in PHYS& 134.

GENERAL PHYSICS III  
PHYS&136 4 Credits 44 hours of lecture  
Third of a three-quarter sequence beginning with PHYS& 134. Topics in electricity, magnetism, atomic and nuclear physics, and optics. Concurrent enrollment in PHYS& 126 and 093. Prerequisite: A grade of “C” or better in PHYS& 135.

COOPERATIVE WORK EXPERIENCE  
PHYS 199 1 - 3 Credits 99 hours of clinical  
Supervised work experience in an approved job. Completion of specific learning objectives and employer evaluation. Completion of, or concurrent enrollment in, HDEV 195, 198, or 200 required. Prerequisite: Consent of Instructional Unit. [GE]

ENGINEERING PHYSICS LAB I  
PHYS&231 1 Credit 33 hours of lab  
Students will explore classical physics topics in mechanics through laboratory experience. Concurrent enrollment in PHYS& 241.
ENGINEERING PHYSICS LAB II
PHYS&232 1 Credit 33 hours of lab
Students will explore classical physics topics in fluids, thermodynamics, and sound through laboratory experience. Concurrent enrollment in PHYS& 242.

ENGINEERING PHYSICS LAB III
PHYS&233 1 Credit 33 hours of lab
Students will explore classical physics topics in electricity and magnetism, optics, and modern topics through laboratory experience. Concurrent enrollment in PHYS& 243.

ENGINEERING PHYSICS I
PHYS&241 4 Credits 44 hours of lecture
Classical physics topics in mechanics. For students majoring in engineering, chemistry, physics, geology, or mathematics. Beginning course of a three-quarter sequence offered each year starting fall and winter quarters. Concurrent enrollment in PHYS& 231 and PHYS 094. Prerequisite: Completion of or concurrent enrollment in MATH& 152 (or MATH 211).

ENGINEERING PHYSICS II
PHYS&242 4 Credits 44 hours of lecture
Physics topics in fluids, heat, thermodynamics, sound, electricity, and magnetism. Second quarter of a three-quarter sequence beginning with PHYS& 241. Concurrent enrollment in PHYS& 232 and PHYS 095. Prerequisite: A grade of “C” or better in PHYS& 241.

ENGINEERING PHYSICS III
PHYS&243 4 Credits 44 hours of lecture
Topics in electricity, magnetism, atomic and nuclear physics, and optics. Third quarter of a three-quarter sequence beginning with PHYS& 241. Concurrent enrollment in PHYS& 233 and PHYS 096. Prerequisite: A grade of “C” or better in PHYS& 242.

SPECIAL PROJECTS
PHYS 290 1 - 5 Credits
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]

Political Science

AMERICAN NATIONAL GOVERNMENT AND POLITICS
POLS 111 5 Credits 55 hours of lecture
The institutions, structures, and processes that affect the course of politics and public policy at the national level of American government. [SE, SS]

STATE AND LOCAL GOVERNMENT
POLS 131 5 Credits 55 hours of lecture
The institutions, structures, and political processes at the state and local levels of government in our federal system. [SE, SS]

SURVEY OF STATE AND LOCAL GOVERNMENT
POLS 141 3 Credits 33 hours of lecture
The structure and operation of state and local government, stressing the politics and other processes involved in the making of public policy at these levels of government. Designed for paralegal students. [SE, SS]

MODEL UNITED NATIONS
POLS 151 2 Credits 22 hours of lecture
The United Nations and its functions, current problems, and world reactions to them. Required for participation in the Model United Nations program. Entering students first register for 151, then subsequent sequence numbers for up to a total of 6 quarters. [SE, SS]
MODEL UNITED NATIONS
POLS 152 2 Credits 22 hours of lecture
Continuation of POLS 151. Required for participation in Model United Nations activities. [SE, SS]

MODEL UNITED NATIONS
POLS 153 2 Credits 22 hours of lecture
Continuation of POLS 152. Required for participation in Model United Nations activities. [SE, SS]

WORLD WITHOUT WAR
POLS 161 3 Credits 33 hours of lecture
Seminar exploring psychological, emotional, political, economic, and other causes of war. Emphasis on search for peace and kinds of peace research currently being conducted in the world. [SE]

SURVEY OF THE UNITED STATES CONSTITUTION
POLS 171 3 Credits 33 hours of lecture
An examination of the role of the Constitution and judicial interpretation in American politics and public policy. Primary emphasis is on the United States Supreme Court. Specific topics will include civil rights, civil liberties, economic regulation and property rights, and criminal justice. Prerequisite: POLS 111 or CJ& 101 or HIST& 146. [SE]

INTERNATIONAL RELATIONS
POLS& 203 5 Credits 55 hours of lecture
World politics, concepts and theories from the post-World War II period. Processes of power, foreign policy, development and trends in the current international scene analyzed. Conflict and conflict resolution and control. [SE, SS]

THE GEOPOLITICS OF THE MIDDLE EAST
POLS 220 5 Credits 55 hours of lecture
Geo-political survey of the Middle East, including interrelationships between the physical, economic and political geography of this region, the impact of geography on politics and political issues within the nations of this region, the corresponding impact of politics and political issues on geography and on the lives of the people living in this region, as well as the resulting diversity of cultures, beliefs, perceptions, challenges and issues among the people of this region. This course will also examine the importance and impact of the Middle East on the rest of the world, as well as the impact and influence of the rest of the world on the Middle East. Credit not allowed for both POLS 220 and GEOG 220. [SE]

THE GEOPOLITICS OF AFRICA
POLS 221 5 Credits 55 hours of lecture
Geo-political survey of Africa, including interrelationships between the physical, economic and political geography of this region, the impact of geography on politics and political issues within the nations of this region, the corresponding impact of politics and political issues on geography and on the lives of the people living in this region, as well as the resulting diversity of cultures, beliefs, perceptions, challenges and issues among the people of this region. This course will also examine the importance and impact of Africa on the rest of the world, as well as examine the impact and influence of the rest of the world on Africa. Credit not allowed for both POLS 221 and GEOG 221. [SE]

THE GEOPOLITICS OF CHINA, JAPAN & EAST ASIA
POLS 222 5 Credits 55 hours of lecture
Geo-political survey of China, Japan and East Asia, including interrelationships between the physical, economic and political geography of this region, the impact of geography on politics and political issues within the nations of this region, the corresponding impact of politics and political issues on geography and on the lives of the people living in this region, as well as the resulting diversity of cultures, beliefs, perceptions, challenges and issues among the people of this region. This course will also examine the importance and impact of China, Japan and East Asia on the rest of the world, as well as examine the impact and influence of the rest of the world on China, Japan and East Asia. Credit not allowed for both POLS 222 and GEOG 222. [SE]
THE GEOPOLITICS OF SOUTH AND CENTRAL ASIA
POLS 223  5 Credits  55 hours of lecture
Geo-political survey of South and Central Asia, including interrelationships between the physical, economic and political geography of this region, the impact of geography on politics and political issues within the nations of this region, the corresponding impact of politics and political issues on geography and on the lives of the people living in this region, as well as the resulting diversity of cultures, beliefs, perceptions, challenges and issues among the people of this region. This course will also examine the importance and impact of South and Central Asia on the rest of the world, as well as examine the impact and influence of the rest of the world on South and Central Asia. Credit not allowed for both POLS 223 and GEOG 223. [SE]

ENVIRONMENTAL POLITICS
POLS 231  5 Credits  55 hours of lecture
Examines the relationship between industrial civilization and the natural environment by exploring underlying ecological philosophies and the economic and political processes by which environmental decisions are made. Emphasis on critical thinking and evaluating alternative points of view. Prerequisite: POLS 111, 131 or POLS& 203 (or POSC 111, 131 or 211), or consent of Instructional unit. [SE, SS]

MODEL UNITED NATIONS
POLS 251  2 Credits  22 hours of lecture
Continuation of POLS 153. Required for participation in Model United Nations activities. [SE, SS]

MODEL UNITED NATIONS
POLS 252  2 Credits  22 hours of lecture
Continuation of POLS 251. Required for participation in Model United Nations activities. [SE, SS]

MODEL UNITED NATIONS
POLS 253  2 Credits  22 hours of lecture
Continuation of POLS 252. Required for participation in Model United Nations activities. [SE, SS]

SELECTED TOPICS
POLS 280  1 - 5 Credits  55 hours of lecture
This course focuses on selected topics in political science. Topics vary and course theme and content change to reflect new topics. Because the course varies in content, it is repeatable for credit for different topics. [SE]

SPECIAL PROJECTS
POLS 290  1 - 5 Credits
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]

Professional Technical Writing

APPLIED TECHNOLOGY WRITING DESCRIPTIONS
PTWR 094  1 Credit  11 hours of lecture
Basic skills for organizing and writing technical descriptions for Applied Technology courses; identifying and describing objects or events and exploring best practices and procedures for practical scenarios. Concurrent enrollment in an Applied Technology program. Prerequisite: ASSET Writing Test Score 36-38, placement in ENGL 097, or “C” or better in DVED 094.

APPLIED TECHNOLOGY WRITING ANALYSES
PTWR 095  1 Credit  11 hours of lecture
Basic skills for organizing and explaining causes and effects as taught in Applied Technology classes; writing concise reports under timed conditions that reflect the results of research, critical thinking and problem-solving. Concurrent enrollment in an Applied Technology program. Prerequisite: ASSET Writing Test Score 36-38, placement in ENGL 097, or “C” or better in DVED 094.
APPLIED TECHNOLOGY WRITING PROCEDURES
PTWR 096 1 Credit 11 hours of lecture
Basic skills for organizing and writing technical descriptions of processes or procedures for Applied Technology courses; writing concise reports under timed conditions that reflect the results of research, critical thinking and problem-solving. Concurrent enrollment in an Applied Technology program. Prerequisite: ASSET Writing Test Score 36-38, placement in ENGL 097, or “C” or better in DVED 094.

APPLIED TECHNOLOGY WRITING REPORTS
PTWR 097 1 Credit 11 hours of lecture
Basic skills for person-to-person research and communication in Applied Technology courses; writing concise reports under timed conditions that reflect the results of research, critical thinking and problem-solving. Concurrent enrollment in an Applied Technology program. Prerequisite: ASSET Writing Test Score 36-38, placement in ENGL 097, or “C” or better in DVED 094.

APPLIED TECHNOLOGY WRITING APPLICATIONS
PTWR 098 1 Credit 11 hours of lecture
Basic skills for seeking and identifying potential employers, analyzing published notices of employment opportunities, writing and revising letters of applications and preparing appropriate resumes of professional experience. Designed to provide tangible tools related to gaining employment. Concurrent enrollment in an Applied Technology program. Prerequisite: ASSET Writing Test Score 36-38, placement in ENGL 097, or “C” or better in DVED 094.

FUNDAMENTALS OF TECHNICAL WRITING
PTWR 099 3 Credits 33 hours of lecture
Fundamental skills in workplace written communication: focus on resumes, instructions, letters, memos, reports; methods of writing clear, concise documents for technical audiences and purposes. Prerequisite: ASSET Writing Test Score 39-44 or ENGL 097.

INTRODUCTION TO APPLIED TECHNICAL WRITING
PTWR 135 5 Credits 55 hours of lecture
Introduction to principles of effective workplace communication: focus on methods of writing clear, concise documents for technical audiences and purposes; summarizing technical information; collaborating successfully in small groups. For students of all technical fields. Prerequisite: A grade of “C” or better in ENGL 098 taken at 5 credits or recommending score on the writing skills placement test for ENGL& 101. [C]

Psychology

GENERAL PSYCHOLOGY
PSYC&100 5 Credits 55 hours of lecture
The scientific study of behavior and mental processes including research methods, psychobiological processes, learning, memory, psychological disorders, psychotherapy, and other topics to be determined by the instructor. Prerequisite: COMPASS reading score of 85 or higher, or a cumulative GPA of 2.0 or higher. [SE, SS]

COOPERATIVE WORK EXPERIENCE
PSYC 199 1 - 5 Credits 165 hours of clinical
Supervised work experience in an approved job. Completion of specific learning objectives and employer evaluation. Completion of, or concurrent enrollment in, HDEV 195, 198, or 200 required. Prerequisite: Consent of Instructional Unit. [GE]

LIFESPAN PSYCHOLOGY
PSYC&200 5 Credits 55 hours of lecture
Principles and theories of human growth and development; the interaction of psychological, biological, and social factors throughout the life span. Prior completion of PSYC& 100 or (PSYC 101) recommended. [SE, SS]

INTRODUCTION TO ISLAM
SOC 141 3 Credits 33 hours of lecture
Introduction to the world of Islam and Muslim populations. Topics include Islam as a way of life in a socio-cultural context and the ways this religion affects the individual, family, and social life in various Islamic societies. Focus on analyzing Islam both in theory and in practice. [SE]

COOPERATIVE WORK EXPERIENCE
SOC 199 1 - 5 Credits 165 hours of clinical
Supervised work experience in an approved job. Completion of specific learning objectives and employer evaluation. Completion of, or concurrent enrollment HDEV 195, 198 or 200 required. Prerequisite: Consent of Instructional Unit. [GE]

SOCIAL PROBLEMS
SOC& 201 5 Credits 55 hours of lecture
Study of the magnitude and consequences of social problems in the US from a sociological perspective and examination of solutions to these problems from a cross-cultural perspective. Topics include: health, work, inequality, family, environment, substance abuse, crime and national security. Prerequisite: A grade of “C” or better in SOC& 101. [SE, SS]

DEATH AND DYING
SOC 220 3 Credits 33 hours of lecture
A comprehensive survey of death, dying, bereavement, and other losses and their societal impacts upon people. Various cultural attitudes, traditions and changing values surrounding death and dying will be explored. [SE, SS]

DOMESTIC VIOLENCE
SOC 230 5 Credits 55 hours of lecture
Introducing historical and current ideas, myths and empirical research regarding domestic partner abuse. Defining abuse and examining cultural, social, family and psychological factors associated with offenders and victims: why, how, who, and what responses have been tried. Prerequisite: SOC& 101 or PSYC& 100 (or SOC 101 or PSYC 101). [SE]

CRIMINOLOGY
SOC 240 5 Credits 55 hours of lecture
An introductory examination of crime, deviant behavior and social control. Crime and deviance as social processes. Historical and contemporary explanations of criminological theory. Prerequisite: SOC& 101 or PSYC& 100 (or SOC 101 or PSYC 101). [SE]

SOCIOLOGY: SELECTED TOPICS
SOC 280 1 - 5 Credits 55 hours of lecture
Varying topics in Sociology as listed in the quarterly class schedule. May be repeated for credit. [SE]

SPECIAL PROJECTS
SOC 290 1 - 5 Credits
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]

Spanish
SPANISH I
SPAN&121 5 Credits 55 hours of lecture
First of a three-quarter sequence in elementary Spanish. Emphasis on listening/speaking skills, with additional practice in reading/writing. Course intended for students with little or no previous experience in studying Spanish. [HA, SE]
### SPANISH II
**SPAN&122**  
5 Credits  
55 hours of lecture  
Continuation of the elementary Spanish sequence. Prerequisite: SPAN& 121 or two years high school Spanish, or S-CAPE placement test recommended. [HA, SE]

### SPANISH III
**SPAN&123**  
5 Credits  
55 hours of lecture  
Conclusion of the three-quarter sequence in elementary Spanish. Prerequisite: SPAN& 122 or equivalent, or S-CAPE placement test recommended. [HA, SE]

### CONVERSATIONAL SPANISH
**SPAN 141**  
3 Credits  
33 hours of lecture  
Intensive practice in Spanish conversation. Discussion in small groups of contemporary topics common to American and Hispanic societies. Prerequisite: SPAN& 122 or equivalent. [HB, SE]

### STUDY ABROAD ORIENTATION
**SPAN 150**  
1 Credit  
11 hours of lecture  
Preparing students to travel with the Clark College study abroad program in Spanish-speaking country. Successful completion of this course required for students to participate in the travel abroad program. Application and acceptance into the study abroad program also required. Prerequisite: A grade of “C” or better or concurrent enrollment in SPAN& 122 or above; or consent of Instructional Unit. [SE]

### SPANISH IV
**SPAN&221**  
5 Credits  
55 hours of lecture  
Discussion in Spanish of topics from Hispanic civilization and culture. Intensive grammar review and composition practice. Prerequisite: SPAN& 123 or equivalent, or S-CAPE placement test recommended. [HA, SE]

### SPANISH V
**SPAN&222**  
5 Credits  
55 hours of lecture  
Discussion in Spanish of topics from Hispanic civilization and culture. Intensive grammar review and composition practice. Prerequisite: SPAN& 221 or equivalent. [HA, SE]

### SPANISH VI
**SPAN&223**  
5 Credits  
55 hours of lecture  
Discussion in Spanish of topics from Hispanic civilization and culture. Intensive grammar review and composition practice. Prerequisite: SPAN& 222 or equivalent. [HA, SE]

### SELECTED TOPICS
**SPAN 280**  
1 - 5 Credits  
55 hours of lecture  
Selected topics in Spanish. Topics vary and course theme and content change to reflect new topics. This course may be repeated for credit. [SE]

### SPECIAL PROJECTS
**SPAN 290**  
1 - 5 Credits  
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]

---

### Surveying & Geomatics

#### INTRODUCTION TO GPS
**SURV 100**  
2 Credits  
11 hours of lecture  
22 hours of lab  
Introduction to global positioning tools. Fundamental concepts and use of modern handheld GPS. Includes field work and use of basic GPS software. Prerequisite: A grade of “C” or better in MATH 095 or qualifying score on placement test. [GE]
FUNDAMENTALS OF SURVEY
SURV 102  2 Credits  11 hours of lecture  22 hours of lab
Introduction to concepts of map reading, coordinate systems, the Public Land Survey System, basic legal descriptions of real property, plotting field data and creating a plat, and the minimum requirements for preparing plats in the State of Washington. No field work required. [GE]

COMPUTATION AND PLATTING
SURV 104  5 Credits  55 hours of lecture
Basic coordinate geometry, curves and solutions, conversions, statistics and error analysis, traverse calculations, inversing, coordinate positions, and area calculations. Prerequisite: A grade of “C” or better in MATH 103. [GE]

FIELD SURVEY I
SURV 121  5 Credits  33 hours of lecture  44 hours of lab
Basic theory of surveying, measurement and calculation. Topics include measurement and determination of boundaries, areas, shapes, and location through traversing techniques, error theory, compass adjustments, public land system, and use of programmable calculators. Also covers principles of measurements of distances, elevation and angles. Concurrent enrollment in Lab. Prerequisite: A grade of “C” or better in MATH 095 or qualifying score on placement exam. [GE]

FIELD SURVEY II
SURV 122  5 Credits  33 hours of lecture  44 hours of lab
Theories of electronic distance measurement, instrument calibration and analysis; principles of route location and design; theories of circular, parabolic, and spiral curves; highway and railway geometric design; area and volumes of earthwork; and mass diagrams. Prerequisite: A grade of “C” or better in SURV 121. [GE]

PROFESSIONAL ETHICS
SURV 123  1 Credit  11 hours of lecture
Survey safety, ethics, and communication. Problem solving methods, procedures, and human relations related to on-the-job work experience in field surveying. Prerequisite: Completion of, or concurrent enrollment in, SURV 121. [GE]

INTRODUCTION TO GIS
SURV 125  3 Credits  22 hours of lecture  22 hours of lab
Introduction to Geographic Information Systems (GIS) methods and theory. Background and development of GIS technology. Introduction to relational and spatial databases and spatial analysis. Prerequisite: A grade of “C” or better in MATH 089 or 090, or placement in MATH 091 or higher. [GE]

ROUTE SURVEYING
SURV 163  5 Credits  33 hours of lecture  44 hours of lab
Introduction to elements of horizontal and vertical route alignment and layout. Use design software and a total station for the construction of a section of road. Include the construction of a topographic map, a centerline alignment, and a final plan and profile showing centerline alignment. Use of topographic data for earthwork computations for proposed route. Prerequisite: A grade of “C” or better in SURV 162. [GE]

CO-OP WORK EXPERIENCE
SURV 199  1 - 5 Credits  165 hours of clinical
Work-based learning experience that enables students to apply specialized occupational theory, skills and concepts. Specific objectives are developed by the College and the employer. Prerequisite: A grade of “C” or better in SURV 121. [GE]

BOUNDARY SURVEYS
SURV 202  4 Credits  44 hours of lecture
Principles and laws relating to boundary surveys, including their creation, ownership, and the role of the surveyor; introduction to the Public Land Survey System, including history, proportioning, subdividing and evidence analysis. Topics include boundary history and boundary surveys, rights in land, junior/senior title rights, retracement of
originals surveys, deed first/survey first, common and case law, ranking/prioritizing evidence, controlling monu-
ments and corners, errors in legal descriptions and plats. Prerequisite: A grade of “C” or better in SURV 121. [GE]

**LEGAL DESCRIPTIONS**
SURV 203 3 Credits 33 hours of lecture
Research and practice pertaining to the legal aspects of writing land description documents used in real property;
written research project required. Prerequisite: A grade of “C” or better in SURV 121. [GE]

**BOUNDARY LAW I**
SURV 223 3 Credits 33 hours of lecture
Introduction to statute law, common law, case law, and legal principles of land boundaries and the practice of land
surveying in Washington. Topics include an introduction to principles of professional practice and ethical consider-
aton. Prerequisite: A grade of “C” or better in SURV 121. [GE]

**SUBDIVISION PLANNING A & PLATING**
SURV 225 3 Credits 33 hours of lecture
A study of selected state laws and regulations pertaining to the surveying profession that affect the surveying of
division of lands; layout and design of subdivisions; environmental considerations and site analysis procedures.
Prerequisite: A grade of “C” or better in SURV 102 and 122. [GE]

**ARC GIS I**
SURV 250 3 Credits 22 hours of lecture 22 hours of lab
Introduction to ArcGIS. GIS concepts, methodologies, and techniques. Prerequisite: A grade of “C” or better in
SURV 125. [GE]

**MAP PROJECTIONS**
SURV 252 2 Credits 22 hours of lecture
Overview of map projections with emphasis on conformal projections used in the geomatics profession. U.S. State
Plane Coordinate system, implementation, and computations. Prerequisite: A grade of “C” or better in SURV 121.

**SURVEY SOFTWARE APPLICATIONS**
SURV 264 4 Credits 33 hours of lecture 22 hours of lab
Use of surveying and related software to solve and plot assignments in traverse calculations, horizontal and vertical
curve alignments, profiles, contours, and earthwork calculations. Some hand generated plots and calculations will
be made to supplement the computer calculations. Prerequisite: A grade of “C” or better in SURV 121. [GE]

**SELECTED TOPICS**
SURV 280 1 - 6 Credits 44 hours of lecture
Course focuses on selected topics in Surveying. Topics vary, and course theme and content change to reflect new
topics. Because the course varies in content, it is repeatable for credit for different topics. [SE]

**SPECIAL PROJECTS**
SURV 290 1 - 5 Credits
Opportunity to plan, organize, and complete special projects approved by the department. Prerequisite: Consent of
Instructional Unit. [GE]

---

**Tutoring**

**TUTURING**
TUTR 185 1 - 3 Credits 66 hours of lab
Introduction to methods and techniques in tutoring. Tutoring training assignments in various disciplines. [GE]

**TUTURING-WRITING**
TUTR 186 1 - 3 Credits 66 hours of lab
Introduction to strategies for effectively tutoring writers at all stages of the writing process and experience working
one-on-one with writing across the disciplines. [GE]
## Welding

### INTRODUCTION TO WELDING

**WELD 102**  
6 Credits  
44 hours of lecture  
44 hours of lab  
An introduction to the welding industry and the various career paths available within the industry. Practical application in general shop safety and department-required training on metal working equipment. Prerequisite: A grade of “C” or better in HLTH 120 and eligibility for MA TH 030.

### EXPLORING WELDING I

**WELD 107**  
6 Credits  
33 hours of lecture  
66 hours of lab  
Instruction and practice of arc welding processes, oxyfuel processes, and fabrication machinery for beginning to advanced welders. Specialized instruction and American Welding Society welder certification is available to advanced students. [GE]

### WELDING BLUEPRINT READING

**WELD 110**  
5 Credits  
55 hours of lecture  
Interpretation of welding blueprints, welding symbols, tolerances and structural shapes. [GE]

### WELDED SCULPTURE LAB I

**WELD 120**  
3 Credits  
66 hours of lab  
Development of a rudimentary expressive design language using welded metal as a medium. Exploration of beginning welding and metal-working skills. Concurrent enrollment in ART 295 required. [GE]

### WELDED SCULPTURE LAB II

**WELD 121**  
3 Credits  
66 hours of lab  
Three dimensional design problems are explored while creating a welded metal sculpture. Gas metal arc welding and plasma arc cutting are introduced. Use of hydraulic power equipment and metal cut-off equipment is covered. Concurrent enrollment in ART 296 required. [GE]

### WELDED SCULPTURE LAB III

**WELD 122**  
3 Credits  
66 hours of lab  
A fabricated welded metal sculpture is created while learning advanced metal working skills. The gas tungsten arc welding process and resistance welding are covered. Concurrent enrollment in ART 297 required. [GE]

### GAS METAL ARC WELDING

**WELD 140**  
6 Credits  
33 hours of lecture  
66 hours of lab  
Instructional theory and application of Gas Metal Arc Welding processes on ferrous metals. Concurrent enrollment in WELD 141 or consent of Instructional Unit. Prerequisite: A grade of “C” or better in WELD 102 or consent of Instructional Unit.

### GAS METAL ARC FABRICATION

**WELD 141**  
6 Credits  
33 hours of lecture  
66 hours of lab  
Application of concepts of gas metal arc welding processes on ferrous metals with a focus on fabrication techniques, proper use of hand tools and equipment found in industry. Concurrent enrollment in WELD 140 or consent of Instructional Unit. Prerequisite: A grade of “C” or better in WELD 102 or consent of Instructional Unit.

### FLUX CORE ARC WELDING

**WELD 142**  
6 Credits  
33 hours of lecture  
66 hours of lab  
Instructional theory and application of arc cutting processes/oxyfuel cutting and flux core arc welding processes on ferrous metals. Concurrent enrollment in WELD 143 or consent of Instructional Unit. Prerequisite: A grade of “C” or better in WELD 102, 140 and 141 or consent of Instructional Unit.

### FLUX CORE ARC FABRICATION

**WELD 143**  
6 Credits  
33 hours of lecture  
66 hours of lab  
Application of concepts of flux core arc welding processes on ferrous metals with a focus on fabrication techniques,
proper use of hand tools and equipment found in industry. Concurrent enrollment in WELD 142 or consent of Instructional Unit. Prerequisite: A grade of “C” or better in WELD 102, 140 and 141, or consent of Instructional Unit.

**SHIELDED METAL ARC WELDING**

**WELD 144** 6 Credits  
33 hours of lecture  66 hours of lab  
Instructional theory and application of arc cutting processes/oxyfuel cutting and shielded metal arc welding processes on ferrous metals. Concurrent enrollment in WELD 141 or consent of Instructional Unit. Prerequisite: A grade of “C” or better in WELD 102, 142 and 143, or consent on Instructional Unit.

**SHIELDED METAL ARC FABRICATION**

**WELD 145** 6 Credits  
33 hours of lecture  66 hours of lab  
Application of concepts of shielded metal arc welding processes on ferrous metals with a focus on fabrication techniques, proper use of hand tools and equipment found in industry. Concurrent enrollment in WELD 140 or consent of Instructional Unit. Prerequisite: A grade of “C” or better in WELD 102, 142 and 143, or consent of Instructional Unit.

**WELDING CERTIFICATION**

**WELD 156** 2 Credits  
44 hours of lab  
Students will review the requirements to earn program required AWS welding certifications. Prerequisite: Successful completion with a “C” or better of WELD 102 and consent of Instructional Unit.

**COOPERATIVE WORK EXPERIENCE**

**WELD 199** 1 - 5 Credits  
165 hours of clinical  
Supervised work experience in an approved job. Completion of specific learning objectives and employer evaluation. Prerequisite: Consent of Instructional Unit. [GE]

**ELEMENTARY METALLURGY**

**WELD 235** 2 Credits  
22 hours of lecture  
Physical metallurgy oriented towards the metal working trades, ferrous and non-ferrous metals, manufacturing methods, material classification and identification, thermal processing, and joining. Concurrent enrollment in WELD 236 required. [GE]

**ELEMENTARY METALLURGY LAB**

**WELD 236** 2 Credits  
44 hours of lab  
Application of physical metallurgy oriented towards the metal working trades, ferrous and non-ferrous metals, manufacturing methods, material classification and identification, thermal processing, and joining. Concurrent enrollment in WELD 235 required. [GE]

**GAS TUNGSTEN ARC WELDING**

**WELD 240** 6 Credits  
33 hours of lecture  66 hours of lab  
Instructional theory and application of arc cutting process/oxyfuel cutting and gas tungsten arc welding processes on ferrous metals. Concurrent enrollment in WELD 241 or consent of Instructional Unit. Prerequisite: A grade of “C” or better in WELD 102, 144 and 145, or consent of Instructional Unit.

**GAS TUNGSTEN ARC FABRICATION**

**WELD 241** 6 Credits  
33 hours of lecture  66 hours of lab  
Application of concepts of gas tungsten arc welding processes on ferrous metals with a focus on fabrication techniques, proper use of hand tools and equipment found in industry. Concurrent enrollment in WELD 240 or consent of Instructional Unit. Prerequisite: A grade of “C” or better in WELD 102, 144 and 145, or consent of Instructional Unit.

**ADVANCED WIRE FEED WELDING**

**WELD 242** 6 Credits  
33 hours of lecture  66 hours of lab  
Advanced instructional theory and application of arc cutting processes/oxyfuel cutting, sub-arc welding and wire feed welding processes on ferrous and nonferrous metals. Concurrent enrollment in WELD 243 or consent of Instructional Unit. Prerequisite: A grade of “C” or better in WELD 102, 142, 240 and 241, or consent of Instructional Unit.
ADVANCED WIRE FEED FABRICATION
WELD 243 6 Credits 33 hours of lecture 66 hours of lab
Application of concepts of wire feed welding processes on ferrous and nonferrous metals with a focus on fabrication techniques, proper use of hand tools and equipment found in industry. Concurrent enrollment in WELD 242 or consent of Instructional Unit. Prerequisite: A grade of “C” or better in WELD 102, 143, 240 and 241 or consent of Instructional Unit.

ADVANCED GAS TUNGSTEN ARC WELDING
WELD 244 6 Credits 33 hours of lecture 66 hours of lab
Advanced instructional theory and application of arc cutting processes/oxyfuel cutting and gas tungsten arc welding processes on ferrous and nonferrous metals. Concurrent enrollment in WELD 245 or consent of Instructional Unit. Prerequisite: A grade of “C” or better in WELD 102, 240, 242 and 243 or consent of Instructional Unit.

ADVANCED GAS TUNGSTEN ARC FABRICATION
WELD 245 6 Credits 33 hours of lecture 66 hours of lab
Application of concepts of advanced gas tungsten arc welding processes on nonferrous metals with a focus on fabrication techniques, proper use of hand tools and equipment found in industry. Concurrent enrollment in WELD 244 or consent of Instructional Unit. Prerequisite: A grade of “C” or better in WELD 102, 241, 242 and 243, or consent of Instructional Unit.

SELECTED TOPICS
WELD 280 1 - 6 Credits 66 hours of lecture
Selected topics in Welding as listed in the quarterly class schedule. Repeatable for credit. [GE]

SPECIAL PROJECTS
WELD 290 1 - 5 Credits
Projects assigned according to needs and abilities of the student. Hours arranged with instructor. Maximum of 15 credits allowed toward a certificate or degree. Prerequisite: Consent of Instructional Unit required. [GE]

Women’s Studies

INTRODUCTION TO WOMEN’S STUDIES
WS 101 5 Credits 55 hours of lecture
Contemporary feminist theory analyzing systems of power, privilege and inequality particularly with respect to gender, race, class, sexuality, age, and ability. Topics may include women and gender socialization, family, work, politics, health, sexuality, body image, violence, spirituality, art, and culture. Fulfills either Humanities or Social Science distribution requirements for the A.A. transfer degree. Prerequisite: A grade of “C” or better in ENGL 098 taken at 5 credits or recommended score on the writing placement test for ENGL& 101. [HA, SE, SS]

WOMEN AROUND THE WORLD
WS 201 3 Credits 33 hours of lecture
Study of current issues affecting women. International feminism, reproductive rights, women in leadership, and affirmative action from a cross-cultural perspective. Fulfills either humanities or social science distribution requirements for the associate degree. [HA, SE, SS]

WOMEN’S CULTURE
WS 210 3 Credits 33 hours of lecture
A study of women’s art and women in the arts, with emphasis on the roles and images of women in fine and folk art, music, film and mythology. Examines the historical events and sociological factors influencing those roles and images. Fulfills either humanities or social science distribution requirements for the A.A. transfer degree. [HA, SE, SS]

RACE, CLASS, GENDER AND SEXUALITY
WS 220 5 Credits 55 hours of lecture
Studies the social construction of difference, inequality and privilege in race, class, gender, sex, and sexual orienta-
tion in the U.S. Examines how these categories are created, maintained, and experienced; how meaning is assigned to those categories; and how social constructions can be challenged. Prerequisite: WS 101. [CP, SS]

RACISM & WHITE PRIVILEGE IN THE U.S.
WS 225 3 Credits 33 hours of lecture
Critical examination of racism and white privilege in the U.S. analyzing systems of power, privilege and inequity; racial identity; and intercultural competence. [SE]

SELECTED TOPICS
WS 280 1 - 3 Credits 33 hours of lecture
This course focuses on selected topics in women's studies. Topics vary and course theme and content change to reflect new topics. This course may be repeated for credit. [SE]

SPECIAL PROJECTS
WS 290 1 - 5 Credits
Opportunity to plan, organize and complete special projects approved by the department. Prerequisite: Consent of Instructional Unit. [GE]

History

In the midst of the Great Depression, a group of educators boldly embraced a dream of higher education for South-west Washington. That dream became reality when Clark College was founded as a private junior college in 1933. The college was originally located in Vancouver’s historic Hidden House, where it remained through 1937. During the next two decades, the college was housed at four different locations. In 1951, the college launched an evening program in the Applied Arts Center, the first building on the current 101-acre campus in Vancouver’s Central Park. Initial accreditation was granted during the 1936-37 academic year following a visit by professors from the University of Washington. In 1948, the college first received accreditation from the organization known as the Northwest Association of Secondary and Higher Schools. Today, that organization is known as the Northwest Commission on Colleges and Universities (NWCCU). Since its first accreditation in 1937, through periodic reviews, Clark College has remained accredited throughout its history.

Clark College first received state financial support in 1941. Five years later, the college was placed under the general supervision of the State Board of Education, with the Vancouver School Board serving as its policy-making body.

In 1967, the Washington State Legislature created a state system of community college districts. Clark Community College District No. 14, one of 34 Washington community and technical colleges, serves residents of Clark, Skamania and west Klickitat counties. The college is governed by a five-member board of trustees appointed by the Governor.

Accreditation

Clark College is accredited by the Northwest Commission on Colleges and Universities (8060 165th Avenue NE, Suite 100, Redmond, WA 98052), a regional institutional accrediting agency recognized by the Secretary of the U.S. Department of Education.

Several of the college’s professional/technical programs are also accredited by program-specific accrediting bodies. The associate degree nursing program is accredited by the National League for Nursing Accrediting Commission. The dental hygiene program is accredited by the Commission on Dental Accreditation. The automotive technology program is accredited by the National Automotive Technicians Education Foundation and certified by the National Institute for Automotive Service Excellence. The medical assistant certificate program is accredited by the Commission on Accreditation of Allied Health Education Programs.

College Assessment

Clark College is committed to fostering the academic achievement and personal development of its students. To carry out that commitment, the college continuously gathers information about the effectiveness of its programs and services, the progress of its students toward educational and personal goals, and the achievements and perspectives of its alumni. This information is used to monitor program effectiveness, to recognize educational trends and opportunities, and to develop a sound, factual basis for academic planning.

Each Clark College student is expected to participate in the college’s assessment efforts. Programs and services use various means to gather assessment information, including portfolios, performances, achievement tests, comprehensive examinations, surveys, interviews, focus groups, evaluation forms, and other methods.

Student Rights and Responsibilities

Clark College is committed to providing an academic community conducive to student success. Student rights and responsibilities are comprehensively defined in the Code of Student Conduct. For a complete copy of this policy, refer to the Code of Student Conduct section of this catalog, or the Clark College website.
Notice of Nondiscrimination and Equal Opportunity

Clark College affirms a commitment to freedom from discrimination for all members of the college community. Clark College expressly prohibits discrimination against any person on the basis of race, creed, religion, color, national origin, sex, age, sexual orientation, gender identity, gender expression, marital status, the presence of any physical, sensory or mental disability, or status as a disabled or honorably discharged veteran and military status. The responsibility for, and the protection of, this commitment extends to students, faculty, administration, staff, contractors, and those who develop or participate in college programs. It encompasses every aspect of employment and every student and community activity.

Persons with concerns about discrimination or equal opportunity should refer to the Discrimination and Harassment Grievance Procedure on page E19.

Cultural Pluralism and Respect for Differences

Student success is best achieved when diversity and multiple perspectives are represented. For students to be successful in today's global community and economy it is imperative that the college support teaching, learning and interactions that build a strong global perspective. Clark College is strongly committed to cultural, ethnic and racial pluralism and fostering respect for differences and multiple perspectives. This commitment means that individuals representing the multitude of diversity within the college must strive to interact in a dynamic and collaborative way while maintaining and valuing differences, and leveraging similarities and common goals.

Behavioral Intervention and Threat Assessment (BITA)

Clark College strives to maintain a healthy and safe environment for all students, faculty and staff. Life can be challenging, and people may need support and referrals for assistance. Clark College's BITA team is composed of administrators, faculty counselors, and a case manager that collaboratively works to maintain a safe college environment. BITA works directly with students, faculty, and staff to respond to student behaviors and to identify students that pose a danger to self, others, or the college community. To learn more about BITA or submit a referral of concern at www.clark.edu/about_clark/bita/BITA.php.

Code of Student Conduct

Chapter 132N-121 WAC (formerly Chapter 132N-120 WAC)
Adopted by the Board of Trustees, Clark College, District No. 14, February 16, 2010

WAC 132N-121-010 Code of student conduct
WAC 132N-121-020 Authority
WAC 132N-121-030 Definitions
WAC 132N-121-040 Jurisdiction
WAC 132N-121-010 Code of student conduct.

(1) Clark College provides its community and students with education and services of the highest quality. We do this in a manner which exhibits concern and sensitivity to students, faculty, staff and others who utilize our services and facilities. It is essential that members of Clark College exhibit appropriate and conscientious behavior in dealing with others.

(2) Clark College expects all students to conduct themselves in a manner consistent with its high standards of scholarship and conduct. Student conduct, which distracts from or interferes with accomplishment of these purposes, is not acceptable. Students are expected to comply with these standards of conduct for students both on and off campus and acknowledge the college’s authority to take disciplinary action.

(3) Admission to Clark College carries with it the presumption that students will conduct themselves as responsible members of the academic community. This includes an expectation that students will obey the law, comply with policies, procedures and rules of the college and its departments, maintain a high standard of integrity and honesty and respect the rights, privileges and property of other members of Clark College.

(4) It is assumed that students are and wish to be treated as adults. As such, students are responsible for their conduct. These standards of conduct for students promote Clark College’s educational purposes and provide students a full understanding of their rights and responsibilities. Sanctions for violations of the standards of conduct for students will be administered under this chapter. When violations of laws of the state of Washington and/or the United States are also involved, the college may refer such matters to proper authorities and in the case of minors, this conduct may be referred to parents or legal guardians.

WAC 132N-121-020 Authority.

The board of trustees, acting pursuant to RCW 28B.50.140(14), delegates to the president of the college the authority to administer disciplinary action. Administration of the disciplinary procedures is the responsibility of the vice-president of student affairs or designee. The student conduct officer shall serve as the principal investigator and administrator for alleged violations of this code.
WAC 132N-121-030 Definitions.

As used in this chapter, the following words and phrases shall be defined as follows:

(1) “ASCC” means the associated students of Clark College as defined in the constitution of that body.

(2) “Assembly” means any overt activity engaged in by one or more persons, the object of which is to gain publicity, advocate a view, petition for a cause, or disseminate information to any person, persons, or group of persons.

(3) “Board” means the board of trustees of Community College District No. 14, state of Washington.

(4) “College” means Clark College and any other community college centers or facilities established within Washington state Community College District No. 14.

(5) “College community” means trustees, students, staff, faculty, and visitors on college-owned or controlled facilities.

(6) “College facilities” and “college facility” mean and include any and all real and personal property owned, rented, leased or operated by the board of trustees of Washington state Community College District No. 14, and shall include all buildings and appurtenances attached thereto and all parking lots and other grounds. College facilities extend to distance education classroom environments, and agencies or institutions that have educational agreement with the college.

(7) “College official” includes any person employed by the college performing assigned duties.

(8) “College premises” includes all land, buildings, facilities, and other property in the possession of or owned, used, or controlled by the college.

(9) “Committee on student conduct” is the body authorized by the vice-president of student affairs to determine whether a student has violated the code of student conduct and the type of sanction(s) imposed when a violation has been committed.

(10) “Complainant” means any person who submits a charge alleging that a student violated the code of student conduct.

(11) “Controlled substance” means and includes any drug or substance as defined in chapter 69.50 RCW as now law or hereafter amended.

(12) “Day” means calendar day, and does not include Saturdays, Sundays, or legal holidays. Timelines set forth in this chapter may be extended in unusual circumstances as determined by the vice-president for student affairs. Also see WAC 10-08-080 Computation of time, adopted pursuant to WAC 132N-108-010.

(13) “Faculty member” and “instructor” mean any employee of Community College District No. 14 who is employed on a full-time or part-time basis as a teacher, instructor, counselor or librarian.

(14) “President” means the president of Clark College and Community College District No. 14, state of Washington, and for the purposes of these rules includes acting president” or the delegated authority in the absence of the president.

(16) “Student” means and includes any person who is registered for classes or is formally in the process of applying for admission to the college. Persons who are not registered for a particular term but who have a continuing relationship with the college, or persons who withdraw after allegedly violating the conduct code, are considered “students.”

(17) “Student conduct officer (SCO)” means the college administrator designated by the vice-president of student affairs who is responsible for investigating alleged violations of this code and administrating the rights and responsibilities code. The term also includes a college official designated by the student conduct officer to act on his/her behalf in matters related to this chapter.

(18) “Student organization” means any number of students who have met the formal requirements of clubs and organizations.
“Trespass” means the definition of trespass as contained within chapter 9A.52 RCW, as now law or hereafter amended.

**WAC 132N-121-040 Jurisdiction.**

(1) The standards of conduct for students adopted herein apply to conduct that occurs on college premises, at college-sponsored activities, and to off-campus conduct as outlined below that adversely affects the well-being of the Clark College community and/or the pursuit of its objectives. Jurisdiction extends to locations in which students are engaged in official college activities including, but not limited to, foreign or domestic travel activities funded by ASCC, athletic events, training internships, cooperative and distance education, practicums, supervised work experiences or any other college-sanctioned social or club activities. Students are responsible for their conduct from the time of application for admission through the actual receipt of a degree, even though conduct may occur before classes begin or after classes end, as well as during the academic year and during periods between terms of actual enrollment. These standards shall apply to a student’s conduct even if the student withdraws from college while a disciplinary matter is pending. The vice-president of student affairs has sole discretion, on a case-by-case basis, to determine whether the code of student conduct will be applied to conduct occurring off campus.

(2) Faculty members, college employees, students, and members of the public who breach or aid or abet another in the breach of any provision of this chapter shall be subject to:
   (a) Possible prosecution under the state criminal law;
   (b) Any other civil or criminal remedies available to the public; or
   (c) Appropriate disciplinary action pursuant to the state of Washington personnel resource board rules, collective bargaining agreements, or the district’s policies and regulations.

(3) This chapter is not exclusive, and where conduct becomes known which may also violate any other rule or provision of law, nothing herein shall limit the right or duty of any person to report elsewhere or seek another remedy for that conduct.

**WAC 132N-121-045 Students studying abroad.**

Students who participate in any college-sponsored or sanctioned international study program shall observe the following:

(1) The laws of the host country;

(2) The academic and disciplinary regulations of the educational institution or residential housing program where the student is studying;

(3) Any other agreements related to the student’s study program in another country; and

(4) Clark College’s standards of conduct for students.

**WAC 132N-121-050 Student rights.**

As members of the academic community, students are encouraged to develop the capacity for critical judgment and to engage in an independent search for truth. Freedom to teach and freedom to learn are inseparable facets of academic freedom. The freedom to learn depends upon appropriate opportunities and conditions in the classroom, on the campus, and in the larger community. Students should exercise their freedom with responsibility. The responsibility to secure and to respect general conditions conducive to the freedom to learn is shared by all members of the college community.

The following enumerated rights are guaranteed to each student within the limitations of statutory law and college policy which are deemed necessary to achieve the educational goals of the college:

---

Clark College 2014–2015 Catalog   Section E: College Information : page E7
(1) Academic freedom.

(a) Students are guaranteed the rights of free inquiry, expression, and assembly upon and within college facilities that are generally open and available to the public.

(b) Students are free to pursue appropriate educational objectives from among the college’s curricula, programs, and services, subject to the limitations of RCW 28B.50.090 (3)(b).

(c) Students shall be protected from academic evaluation which is arbitrary, prejudiced, or capricious, but are responsible for meeting the standards of academic performance established by each of their instructors.

(d) Students have the right to a learning environment which is free from unlawful discrimination, inappropriate and disrespectful conduct, and any and all harassment, including sexual harassment.

(2) Due process.

(a) The rights of students to be secure in their persons, quarters, papers, and effects against unreasonable searches and seizures is guaranteed.

(b) No disciplinary sanction may be imposed on any student without notice to the accused of the nature of the charges.

(c) A student accused of violating this code of student conduct is entitled, upon request, to procedural due process as set forth in this chapter.

WAC 132N-121-060 Grounds for discipline.

Discipline may be imposed for the commission or attempted commission (including aiding or abetting in the commission or attempted commission) of the following types of misconduct, as well as such other violations as may be specified in college regulations:

(1) Obstruction or disruption of:

(a) Any instruction, research, administration, disciplinary proceeding, or other college activity, whether occurring on or off college property; or

(b) Any other authorized noncollege activity when the conduct occurs on college premises.

(2) Assault, physical abuse, verbal abuse, threats, intimidation, harassment, coercion, or other conduct which harms, threatens, or endangers the health or safety of any person.

(3) Attempted or actual damage to, theft of, or misuse of real or personal property of:

(a) The college or state;

(b) Any student or college officer, employee, or organization; or

(c) Any other person or organization lawfully present on college property; or possession of stolen property.

(4) Unauthorized possession or unauthorized use of college equipment and supplies including, but not limited to, converting college equipment or supplies for personal gain or use without proper authority.

(5) Failure to comply with the directions of a college officer or employee who is acting in the legitimate performance of his/her duties, and/or failure to properly identify oneself to these persons when requested to do so.

(6) Participation in any activity which unreasonably disrupts the operations of the college or infringes on the rights of another member of the college community, or leads or incites another person to engage in such an activity.

(7) Possession or use of firearms, explosives, dangerous chemicals or other dangerous weapons which can be used to inflict bodily harm or to damage real or personal property is prohibited on the college campus, at any other facilities leased or operated by the college, or at any activity under the administration or sponsorship of the college.
Exceptions to this policy are permitted when the weapon is used in conjunction with an approved college instructional program, is carried by duly constituted law enforcement officer, or is otherwise permitted by law.

(8) Hazing. Any method of initiation into a student club or organization, or any pastime or amusement engaged in with respect to such a group or organization that causes, or is likely to cause, bodily danger or physical harm, or serious mental or emotional harm, to any student or other person attending the college as described in RCW 28B.10.900.

(9) Initiation violation. Conduct associated with initiation into a student club or organization, or any pastime or amusement engaged in with respect to such a group or organization, not amounting to a violation of RCW 28B.10.900. Conduct covered by this section may include embarrassment, ridicule, sleep deprivation, unprotected speech amounting to verbal abuse, or personal humiliation.

(10) Use, possession, delivering, selling or being under the influence of alcoholic beverages, except at sanctioned events approved by the college president or designee and in compliance with state law; or public intoxication.

(11) Use, possession, delivering, selling or being under the influence of legend drugs, including anabolic steroids, narcotic or any other controlled substance, except upon valid prescription by a licensed health care professional or practitioner.

(12) Obstruction of the free flow of pedestrian or vehicular movement on college premises or at a college activity.

(13) Conduct which is disorderly, lewd, or indecent, disturbing the peace, or assisting or encouraging another person to disturb the peace. Disorderly conduct includes, but is not limited to, any unauthorized use of electronic or other devices to make an audio or video record of any person while on college premises without his or her prior knowledge or without his or her effective consent, when such a recording is likely to cause injury or distress. This includes surreptitiously capturing images of another person in a gym, locker room, or restroom.

(14) Discrimination on the basis of race, color, religion, creed, national origin, sexual orientation, mental, physical, sensory disability, age or sex, gender identity, gender expression, political affiliation, disabled veteran status, marital status, honorably discharged veteran or Vietnam-era veteran status.

(15) Sexual harassment. This includes, but is not limited to, engaging in unwelcome sexual advances, requests for sexual favors, or other conduct of a sexual nature where such behavior offends the recipient or a third party, causes discomfort or humiliation, unreasonably interferes with a person's work or educational performance, or creates an intimidating, offensive, or hostile work or learning environment.

(16) Stalking. Behavior or conduct either in person or through electronic communication in which a student willfully and repeatedly engages in a course of conduct directed at another person with the intent and/or reasonable effect of creating fear or emotional distress and where the college determines that such behavior or conduct serves no legitimate purpose.

(17) Smoking or other tobacco usage is not permitted within the perimeter of Clark College property. This includes all college sidewalks, parking lots, landscaped areas, recreational areas, and buildings on Clark College property. See Clark College Administrative Procedures 510.030 for complete smoking/tobacco products policy.

(18) Theft or abuse of computer facilities or information technology resources; use of computing facilities and resources to send obscene, abusive, harassing, or threatening messages; or violation of Student Computing Resources Policy. It is the obligation of students to be aware of their responsibilities as outlined in the Student Computing Resources Policy (http://www.clark.edu/student_services/computing_resources/policy.php).

(19) Unauthorized possession, duplication, or other use of a key, keycard, or other restricted means of access to college property, or unauthorized entry onto or into college property.

(20) Abuse or misuse of any of the procedures relating to the code of student conduct, including:

(a) Failure to obey the notice from the committee on student conduct or college official to appear for a meeting or hearing as part of the student conduct system.
(b) Willful destruction, falsification, distortion, or misrepresentation of information before the committee on student conduct or the student conduct officer.
(c) Disruption or interference with the orderly conduct of a committee on student conduct proceeding.
(d) Filing fraudulent charges or initiating a student conduct proceeding in bad faith.
(e) Attempting to discourage an individual's proper participation in, or use of, the student conduct system.
(f) Attempting to influence the impartiality of a member of the committee on student conduct prior to or during the course of a committee on student conduct proceeding.
(g) Harassment (verbal or physical) or intimidation of a member of the committee on student conduct prior to, during, or after a student conduct code proceeding.
(h) Failure to comply with any term or condition of any disciplinary sanction(s) imposed under the standards of conduct for students.
(i) Influencing or attempting to influence another person to commit an abuse of the student conduct code system.

(21) Trespassing. Knowingly entering or remaining unlawfully in or on college premises or any portion thereof. Any person who has been given notice by a college official excluding him or her from all or a portion of college premises is not licensed, invited, or otherwise privileged to enter or remain on the identified portion of college premises, unless given prior explicit written permission by a college official.

(22) Operation of any motor vehicle on college property in an unsafe manner or in a manner which is reasonably perceived as threatening the health or safety of another person.

(23) Violation of any federal, state, or local law, rule, or regulation.

(24) Aiding, abetting, inciting, encouraging, or assisting another person to commit any of the foregoing acts of misconduct.

(25) Tampering with an election conducted by or for students.

**WAC 132N-121-062 Academic dishonesty.**

Acts of academic dishonesty include:

(1) Cheating, which includes using, or attempting to use, any material, assistance, or source which has not been authorized by the instructor to satisfy any expectation or requirement in an instructional course; an act of deceit by which a student attempts to misrepresent academic skills or knowledge; unauthorized or attempted unauthorized copying or collaboration; or acquiring, without permission, tests or other academic material belonging to a member of the college faculty or staff.

(2) Plagiarism, which includes using another person's ideas, words, or other work in an instructional course without properly crediting that person. It also includes the unacknowledged use of materials prepared by another person or agency engaged in the selling of term papers or other academic materials.

(3) Submitting information that is known to be false (while concealing that falsity).

(4) Forgery, alteration or misuse of any instrument of identification or any document or record used by the college.

(5) Fabrication, which is the intentional misrepresentation, invention or counterfeiting of information in the course of an academic activity. Fabrication includes:

   (a) Counterfeiting data, research results, information, or procedures with inadequate foundation in fact;
   (b) Counterfeiting a record of internship or practicum experiences;
   (c) Submitting a false excuse for absence or tardiness;
   (d) Unauthorized multiple submission of the same work; sabotage of others' work.
(6) Engaging in any behavior specifically prohibited by a faculty member in the course syllabus or class discussion.

(7) Collusion. Facilitating dishonesty, failing to report known incidents of academic dishonesty; assisting another to commit an act of academic dishonesty, such as paying or bribing someone to acquire a test or assignment, or increase the score on a test or assignment; taking a test or doing an assignment for someone else; participating in obtaining or distributing any part of a test or any information about a test; or allowing someone to do these things for one's own benefit.

(8) Knowingly furnishing false information to any college official, faculty member, or office including, but not limited to, submission of fraudulent transcripts from other institutions.

(9) Acts of academic dishonesty will be reported by the faculty member to the vice-president of student affairs' designated student conduct officer.

**WAC 132N-121-065 Trespass.**

The vice-president of student affairs or designee shall have the authority and power to:

(1) Prohibit the entry, or withdraw the license or privilege of any person or group of persons to enter onto or remain in any college property or facility; or

(2) Give notice against trespass by any manner provided by law, to any person, persons, or group of persons against whom the license or privilege has been withdrawn or who have been prohibited from, entering onto or remaining upon all or any portion of college property or a college facility; or

(3) Order any person, persons, or group of persons to leave or vacate all or any portion of college property or a college facility.

Such power and authority may be exercised to halt any event which is deemed to be unreasonably disruptive of order or impedes the movement of persons or vehicles or which disrupts or threatens to disrupt the ingress and/or egress of persons from facilities owned and/or operated by the college. Any individual remaining on or reentering college property after receiving notice that his or her license or privilege to be on that property has been revoked shall be subject to disciplinary action and/or charges of criminal trespass.

**WAC 132N-121-070 Disciplinary sanction.**

The following sanctions may be imposed by the student conduct officer on any student found to have violated the code of student conduct. In the case of minors, misconduct may be referred to parents or legal guardians pursuant to Family Educational Rights and Privacy Act (FERPA) guidelines. More than one sanction may be imposed for any one violation.

(1) Warning. Notice to a student, either verbally or in writing, by the student conduct officer that the student has failed to satisfy the college's expectations regarding conduct. Such warnings will include a statement that continuation or repetition of the specific conduct involved or other misconduct may be cause for more serious disciplinary action. There shall be no appeal from a warning.

(2) Reprimand. Formal action censuring a student for violating the student code of conduct. Reprimands shall be made in writing to the student by the student conduct officer. A reprimand indicates to the student that continuing or repeating the specific conduct involved or other misconduct will result in more serious disciplinary action. There shall be no appeal from a reprimand.

(3) Disciplinary probation. Formal action placing conditions upon the student's continued attendance. Notice shall be in writing and shall specify the period of probation and the conditions, such as limiting the student's participation in extracurricular activities. Probation may be for a specific term or may extend to graduation or other termination of the student's enrollment in the college. A student on probation is not eligible to run for or hold an office in any student organization. Repetition of the conduct which resulted in probation or failure to complete conditions of probation during the probationary period, may be cause for suspension or other disciplinary action.
(4) Loss of privileges. Denial of specified privileges for a designated period of time. Violation of any conditions in the written notice of loss of privileges may be cause for further disciplinary action.

(5) Suspension. Temporary dismissal from the college and termination of student status. Notice shall be given in writing and specify the duration of the dismissal and any special conditions that must be met before readmission. Refund of tuition or fees for the quarter in which disciplinary action is taken shall be in accordance with the college’s refund policy.

(6) Expulsion. Permanent termination of a student’s status. Notice must be given in writing. The student may also be barred from college premises. There shall be no refund of tuition or fees for the quarter in which the action is taken but fees paid in advance for a subsequent quarter will be refunded.

(7) Restitution. Requirement of a student to compensate for damage or loss to college or other property, or perform a public service activity. Failure to make restitution within the time limits established by the student conduct officer will result in suspension for an indefinite period of time. A student may be reinstated upon payment or completion of the required service activity.

(8) Education. The college may require the student to complete an educational requirement directly related to the violation committed, at the student’s expense.

(9) Revocation of admission or degree. Admission to or a degree awarded from the college may be revoked for fraud, misrepresentation, or other violation of standards of conduct for students in obtaining the degree, or for other serious violations committed by a student prior to graduation.

(10) Withholding degree. The college may withhold awarding a degree otherwise earned until the completion of the process set forth in this chapter, including the completion of all sanctions imposed.

(11) No trespass order. A student may be restricted from college property based on his/her misconduct.

(12) Assessment. The student may be required to have an assessment at the student’s expense, such as alcohol/drug or anger management, by a certified professional, and complete the recommended treatment. The student will sign all necessary releases to allow the college access to the assessment. Recommendations as part of an assessment may be included as required conditions of a disciplinary probation, suspension, or reinstatement after a period of suspension.

(13) Loss of recognition. A student organization’s recognition may be withheld permanently or for a specific period of time. Loss of recognition is defined as withholding college services or administrative approval from a student organization. Services and approval to be withdrawn include intramural sports, information technology services, college facility use and rental, and involvement in organizational activities.

(14) Hold on transcript or registration. This is a temporary measure restricting release of a student’s transcript or access to registration. Upon satisfactory completion of the conditions of the sanction, the hold is released.

(15) No contact order. A prohibition of direct or indirect physical, verbal, or written contact (to include electronic) with another individual or group.

(16) Other than college expulsion or revocation or withholding of a degree, disciplinary sanctions are not made part of the student’s academic record, but are part of the student’s disciplinary record.

(17) If a student’s behavior is found to have been motivated by another’s race, color, religion, creed, national origin, sexual orientation, mental, physical, sensory disability, age, sex, gender identity, gender expression, political affiliation, disabled veteran status, marital status, honorably discharged veteran or Vietnam-era veteran status, such finding is considered an aggravating factor in determining a sanction for such conduct.

(18) Violation of any term or condition of any disciplinary sanction constitutes a new violation and may subject the student to additional sanctions.

(19) A disciplinary sanction, except a warning, shall be imposed through written notice either personally delivered or sent to the student’s last known address of record by regular mail or certified mail. Each notice of disciplinary action shall state:
(a) A reasonable description of the facts on which the action is based;
(b) The provision(s) of the student conduct code found to have been violated;
(c) The sanction(s) imposed; and
(d) The student’s right to appeal a disciplinary action, except for a warning or reprimand.

**WAC 132N-121-080 Initial disciplinary proceedings.** (see page E25 for chart)

1. Any member of the college community may file a written complaint alleging that a student has committed a violation of the code of student conduct with the office of the vice-president of student affairs. The complaint should state specifically the alleged violation and summarize the supporting evidence. If the student conduct officer determines the complaint has merit, the student conduct officer shall initiate disciplinary proceedings. The student may be placed on suspension pending commencement of disciplinary action, pursuant to the conditions set forth in WAC 132N-121-150.

2. A student accused of violating the code of student conduct shall be notified of an initial disciplinary proceeding and the opportunity to meet with the student conduct officer to resolve the case without a formal hearing. The student shall be provided with written notice including the specific complaint, the policy, procedure, or section of the code of student conduct allegedly violated, and the range of possible sanctions which might result from disciplinary proceedings. The student will be given seven days to respond. If the student fails to respond or fails to appear, the initial disciplinary hearing may be held in the student’s absence and shall not preclude the student conduct officer from making a decision and imposing or recommending sanctions.

3. After considering the evidence in the case, and interviewing the student, if the student has appeared at the scheduled meeting, and reviewing the case with any new information, the student conduct officer may take any of the following actions:
   (a) Terminate the proceedings and exonerate the student;
   (b) Dismiss the case after whatever intervention and advice is deemed appropriate;
   (c) Impose any of the disciplinary sanctions from WAC 132N-121-070.

**WAC 132N-121-090 Appeals.** (see page F26 for chart)

1. A student may appeal any disciplinary sanction imposed by the student conduct officer, other than warning or reprimand, by filing a written request with the chair of the committee on student conduct, within seven days from the date of receipt of the decision.

2. The request should state clearly whether the student is requesting the appeal to be heard as a brief adjudicative proceeding informally by the chair of the committee on student conduct or for the appeal to be conducted formally by the entire committee membership, in an adjudicative proceeding according to RCW 34.05.410. Appeals from a suspension or expulsion from the college shall be heard in an adjudicative proceeding.

3. Appeals conducted as a brief adjudicative proceeding,
   (a) Where an adjudicative proceeding is neither required by law nor requested by the student or the college, the matter may be resolved informally in a brief adjudicative proceeding conducted in accordance with RCW 34.05.485. Brief adjudicative proceedings shall be conducted in any manner which will bring about a prompt, fair resolution of the matter. The chair of the committee on student conduct shall serve as the sole presiding officer of the brief adjudicative proceeding. The presiding officer shall give each party an opportunity to be informed of the college’s view on the matter and the student’s view of the matter. No witnesses may appear to testify. Within ten days of the brief adjudicative proceeding, the chair shall render a written decision which will include a brief statement of the reasons for the decision. This shall be an initial order. If no further administrative review is requested, the initial order shall become the final order.
Within twenty-one days after the initial order has either been personally delivered or sent to the student’s last known address of record by regular mail or certified mail, he or she may petition for administrative review by the vice-president of student affairs or designee. A copy of the petition must be served on all parties or their representatives at the time the petition is filed. The reviewing officer may be the vice-president or an administrator who has not been involved in the action. The review shall be governed by RCW 34.05.491. The decision of the vice-president of student affairs or designee is final and no further administrative review is available.

Appeals conducted as adjudicative proceedings by committee on student conduct. In all cases where the student is appealing suspension or expulsion from the college, the student shall be entitled to an adjudicative proceeding under WAC 132N-121-110 if he or she files a proper written application for such a proceeding. The vice-president of student affairs shall be responsible for convening the committee on student conduct, setting the time and place of the hearing, and providing notice of the hearing as prescribed in RCW 34.05.434.

A decision of the committee on student conduct or a sanction imposed by the student conduct officer may be appealed in writing to the president within ten days following receipt of the committee decision.

(a) Except as required to explain the basis of new information, an appeal to the president is limited to a review of the verbatim record of the committee hearing and supporting documents for one or more of the following purposes:

(i) To determine whether the committee on student conduct hearing was conducted fairly in light of the charges, and whether information was presented in conformity with prescribed procedures giving the accused student a reasonable opportunity to prepare and to present a response to the allegations. Deviations from designated procedures are not a basis for sustaining an appeal unless significant prejudice is evident.

(ii) To determine whether the decision is supported by the evidence.

(iii) To determine whether the sanctions imposed are appropriate for the violation which the student was found to have committed.

(iv) To consider new information, sufficient to alter a decision, or other relevant facts not disclosed in the original hearing because such information and/or facts were not known to the student appealing at the time of the committee on student conduct hearing.

(b) The president shall review the record within fifteen days of the notice of appeal and make one of the following determinations:

(i) Affirm the decision and uphold the sanctions; or

(ii) Reverse the decision; or

(iii) Affirm the decision and modify the sanctions imposed.

(c) The president shall provide a written conclusion to all parties within twenty days after completion of his or her review.

(d) If the appeal is upheld, the matter shall be returned to the committee on student conduct to reopen the hearing to reconsider the original determination and/or sanctions.

(e) If the appeal is not upheld, the president’s decision shall be final.

WAC 132N-121-100 Committee on student conduct.

(1) The committee on student conduct consists of five members. The committee shall provide a fair and impartial hearing and will make decisions on all disciplinary decisions appealed to it. The committee shall include:

(a) Two full-time students and two alternates appointed by the ASCC of Clark College vice-president of elections and appointments (one-year appointments);
(b) Two faculty members and two alternates appointed by the president or designee (two-year appointments, staggered terms);

(c) One member of the administration, but not the vice-president of student affairs, and one alternate appointed by the president of the college (two-year appointment).

(2) Appointments to the committee will be made no later than November 1 of each academic year. Vacancies on the committee shall be filled as they arise.

(3) Hearings may be heard by a quorum of three members of the committee so long as a faculty member and one student are included on the hearing panel. If the case involves academic dishonesty, at least two of the individuals hearing the case must be members of the faculty. The vice-president of student affairs shall appoint the chair and that person will continue in office until he or she resigns or is recalled by the vice-president of student affairs. The vice-president for student affairs may appoint a special presiding officer to the committee on student conduct in complex cases or in any case in which the student is represented by legal counsel. Special presiding officers may participate in committee deliberations but shall not vote.

(4) Members of the committee on student conduct shall not participate in any case in which they are a defendant, complainant, or witness, in which they have direct or personal interest, prejudice, or bias, or in which they have acted previously in an advisory capacity. Any party may petition for disqualification of a committee member pursuant to RCW 34.05.425(4).

WAC 132N-121-110 Hearing procedures before the committee on student conduct.

(1) An appeal before the committee on student conduct will be conducted as an adjudicative proceeding in accordance with RCW 34.05.413 through 34.05.476. The committee on student conduct shall commence the hearing within fifteen days after the written request has been received. The office of the vice-president of student affairs will notify the parties of the time and place of the hearing. The time limit for scheduling the hearing may be extended at the discretion of the vice-president of student affairs.

(2) The presiding officer shall be the chair of the committee on student conduct. The presiding officer is responsible for:

   (a) Regulating the course of the hearing in accordance with RCW 34.05.449 and applicable college rules;

   (b) Taking whatever steps are necessary during the hearing to ensure that the process is conducted in a respectful and orderly manner; and

   (c) Issuing and signing the written decision(s) of the committee.

(3) The presiding officer is authorized to conduct prehearing conferences and/or to make prehearing decisions concerning the extent and forms of any discovery, the possibility of obtaining stipulations, admissions, settlement, and other procedural matters.

(4) All procedural questions are subject to the final decision of the presiding officer. If a challenge arises concerning the application of any rule or policy, the hearing will continue and the challenge may be submitted by the chair in writing to the vice-president of student affairs, who will seek legal advice from an assistant attorney general.

(5) The student has a right to a fair and impartial hearing. However, the student’s failure to answer the charges, appear at the hearing or cooperate in the hearing shall not preclude the committee on student conduct from making its findings of facts, conclusions, and recommendations. This shall not limit the possibility of a default pursuant to RCW 34.05.440.

(6) Hearings shall be closed in accordance with FERPA, 20 U.S.C. Sec. 1232g, unless the student waives this requirement in writing and requests to have the hearing open to the public. However, if education records or information from education records will be disclosed at the hearing, or more than one student is involved, the hearing will remain closed unless all students have consented to open the hearing. In hearings involving more
than one accused student, the presiding officer may permit joint or separate hearings. If at any time during the hearing, a visitor disrupts the proceedings, the presiding officer may exclude that person from the hearing.

(7) The complainant, the student, and their respective advisors may attend those portions of the appeal hearing at which information is received, but may not attend the committee’s deliberations. Admission of any other person to the hearing is at the discretion of the presiding officer.

(8) The student and complainant are entitled to be assisted by an advisor of their choosing, at their own expense. The complainant and student are responsible for presenting their own information, therefore, an advisor is not permitted to address the committee or participate directly in the hearing. An advisor may communicate only with the person they are advising. A student should select as an advisor a person whose schedule allows attendance at the scheduled date and time for the hearing. Delays or continuances will not be allowed due to the scheduling conflicts of an advisor. If the student is the subject of a pending subsequent criminal matter arising out of the same circumstances, the student may be allowed to have an attorney serve as their advisor, at the student’s own expense, to behave in the same manner as any other advisor.

(9) Formal rules of process, procedure, and/or technical rules of evidence such as are applied in criminal or civil cases, will not apply in student conduct proceedings.

(10) (a) The student is entitled to present evidence in his or her behalf and to cross-examine witnesses testifying on behalf of the college. The student is responsible for informing his or her witnesses of the time and place of the hearing.

(b) Direct examination, cross-examination, and rebuttal may be limited to the extent necessary for the full disclosure of all relevant facts and issues.

(c) The committee may receive sworn written testimony in lieu of oral testimony at the hearing.

(d) If not inconsistent with this subsection, the presiding officer may refer to the Washington Rules of Evidence as guidelines for evidentiary rulings in accordance with RCW 34.05.452.

(e) In determining the appropriate sanction that should be recommended, evidence of past misconduct that the presiding officer deems relevant may be considered.

(11) Members of the committee on student conduct must avoid ex parte (one-sided) communications with any party involved in the hearing regarding any issue other than communications necessary to maintain an orderly procedural flow to the hearing.

(12) There will be a single verbatim record, such as a tape recording or transcript, of the information gathering portion of the hearing. Deliberations shall not be recorded. The record shall be the property of the college.

WAC 132N-121-112 Decision by the committee on student conduct and notification.

(1) At the conclusion of the hearing and deliberations, the committee on student conduct shall meet in closed session to consider all evidence presented and decide by majority vote whether the student has violated the code of student conduct, and if so, the committee determines and imposes the appropriate sanctions from WAC 132N-121-070.

(2) The burden of proof that guides the committee’s decision is the preponderance of evidence, whether it is more likely than not that the student violated the code of student conduct.

(3) The committee’s written decision shall include findings of fact and conclusions which inform the parties of the basis for the decision. The decision should also include information about the appeal process.

(4) The presiding officer notifies the student in writing, in person, by mail or electronic mail of the committee’s decision. Notice is sent within ten days after the hearing is concluded. If the college is not in session, this period may be reasonably extended.
(5) The written decision of the committee shall become the final order, without further action, unless within ten days following receipt of the decision, the student files a written appeal with the college president.

**WAC 132N-121-120 Recordkeeping.**

(1) The record in an adjudicative proceeding shall consist of all documents as required by law and as specified in RCW 34.05.476.

(2) The office of the vice-president of student affairs shall maintain records of student grievance and disciplinary proceedings for at least six years.

(3) The disciplinary record is confidential.

(4) Students may request a copy of their own disciplinary record at their own reasonable expense by making a written request to the vice-president of student affairs. Personally identifiable student information is redacted to protect another student’s privacy.

(5) Students may authorize release of their own disciplinary record to a third party in compliance with FERPA, 20 U.S.C. Sec. 1232g, by making a written request to the vice-president of student affairs.

(6) The college may inform the complainant of the outcome of any disciplinary proceeding involving a crime of violence or nonforcible sex offense, as permitted by FERPA, 20 U.S.C. Sec. 1232g; 34 C.F.R. Part 99.

(7) The college may not communicate a student’s disciplinary record to any person or agency outside the college without the prior written consent of the student, except as required or permitted by law. Exceptions include, but are not limited to:

   (a) The student’s parents or legal guardians may review these records if the student is a minor or a dependent, if the student is a minor and disciplinary action involves the use or possession of alcohol or controlled substance, or in connection with a health or safety emergency regardless if the student is a dependent or a minor, as permitted by FERPA, 20 U.S.C. Sec. 1232g; 34 C.F.R. Part 99.

   (b) To another educational institution, upon request, where the student seeks to, intends to, or has enrolled.

   (c) Information concerning registered sex offenders.

**WAC 132N-121-150 Summary suspension proceedings.**

(1) Summary suspension is a temporary exclusion from specified college premises or denial of access to all activities or privileges for which the student might otherwise be eligible, during which an investigation and/or formal disciplinary procedures are pending.

(2) The student conduct officer or designee may impose a summary suspension:

   (a) In situations involving an immediate danger to the health, safety, or welfare of any part of the college community or the public at large;

   (b) To ensure the student’s own physical safety and well-being; or

   (c) If the student poses an ongoing threat of disruption to, or interference with, the operations of the college and the student’s conduct prevents other students, employees, or members of the college community from completing their duties as employees or students.

(3) The student conduct officer or designee shall give the student oral or written notice of the reasons for the summary suspension, and of any possible additional disciplinary or corrective actions that may be taken. If oral notice is given, a written notification shall be personally served on the student, or sent to the student’s last known address of record by regular or certified mail within two working days.
(4) The notification shall be entitled “notice of summary suspension proceedings” and shall include:

(a) The charges against the student including reference to the provisions of the student conduct code or the law allegedly violated;

(b) The date, time, and location that the student must appear before the student conduct officer for a hearing on the summary suspension; and

(c) A notice against trespass that warns the student that his or her privilege to enter into or remain on college premises has been withdrawn, that the student shall be considered trespassing and subject to arrest for criminal trespass, if the student enters the college campus other than to meet with the student conduct officer or designee, or to attend the hearing.

(5) The hearing on the summary suspension shall be held as soon as practicable after the summary suspension. The hearing may be combined with an initial disciplinary proceeding in accordance with WAC 132N-121-080.

(6) The summary suspension does not replace the regular process, which shall proceed on the schedule described in this chapter, up to and through a hearing before the committee on student conduct, if required.

(7) The student conduct officer or designee shall determine whether there is probable cause to believe that summary suspension is necessary and/or whether some other disciplinary action is appropriate.

(8) The student shall have the opportunity to explain why summary suspension is not necessary either through oral testimony or written statement. If the notice to appear for a summary suspension hearing has been personally delivered to the student or sent to the student’s last known address of record by regular mail, certified mail and the student fails to appear at the time designated, the student conduct officer or designee may enforce the suspension, and shall send written notice of summary suspension to the student at the last known address of record on file.

(9) The student conduct officer or designee may continue the summary suspension and may impose any other disciplinary action that is appropriate, if he or she finds that there is probable cause to believe that:

(a) The student has committed one or more violations of the student conduct code;

(b) Such violation(s) constitute grounds for disciplinary action; and

(c) Summary suspension is necessary.

(10) Notice of suspension.

(a) If summary suspension is upheld and/or if the student is otherwise disciplined, the student will be provided with a written copy of the student conduct officer or designee’s findings of fact and conclusions that support the decision that summary suspension of the student should continue.

(b) The student suspended pursuant to the authority of this rule shall receive a copy of the “notice of suspension” either personally or sent to the student’s last known address of record by regular mail, certified mail, within three days following the conclusion of the hearing with the student conduct officer or designee.

(c) The “notice of suspension” shall inform the student of the duration of the summary suspension or nature of the disciplinary action(s), conditions under which the summary suspension may be terminated or modified, and procedures by which the validity of the summary suspension can be appealed.

(11) The student conduct officer or designee shall provide copies of the notice of suspension to all persons or offices that may be bound by it.

WAC 132N-121-151 Appeals from summary suspension hearing.

Any student aggrieved by an order issued at the summary suspension proceeding may appeal by filing a written request with the chair of the committee on student conduct within ten days from the date on which the student was notified of the decision. However, no such appeal shall be entertained, unless:
The student has first appeared through oral testimony or by a written statement at the student hearing in accordance with WAC 132N-121-150; and

The appeal conforms to the standards set forth in WAC 132N-121-090.

**WAC 132N-121-500 Classroom misconduct and authority to suspend for no more than one day.**

1. Faculty members have the authority to take appropriate action to maintain order and proper conduct in the classroom and to maintain the effective cooperation of students in fulfilling the objectives of the course.

2. Bringing any person, thing, or object to a teaching and learning environment that may disrupt the environment or cause a safety or health hazard, without the express approval of the faculty member is expressly prohibited.

3. Faculty members or college administrators have the right to suspend any student from any single class or related activity for no more than one instructional day, if the student's misconduct creates disruption to the point that it is difficult or impossible to maintain the decorum of the class, related activity or the learning and teaching environment. The faculty member or college administrator shall report this suspension to the vice-president of student affairs or designee who, in consultation with the faculty member, may set conditions for the student upon return to the class or activity.

---

**Discrimination and Harassment Grievance Procedure**

Clark College affirms a commitment to freedom from discrimination for all members of the college community. The college expressly prohibits discrimination against any person on the basis of:

- Race;
- National origin;
- Sex;
- Age;
- Creed;
- Presence of physical, sensory or mental disability;
- Religion;
- Color;
- Disabled veteran status;
- Sexual orientation;
- Gender identity;
- Gender expression;
- Honorably discharged veteran and military status; or
- Marital status.

The responsibility for, and the protection of, this commitment extends to students, faculty, administration, staff, contractors, and those who develop or participate in college programs. It encompasses every aspect of employment and every student and community activity.

Persons who believe they have been discriminated against or harassed by Clark College or its employee(s) or agent(s) on the basis of any status listed above may request informal assistance and/or lodge a formal grievance.
The college president delegates investigation of grievances on the basis of race, sex, creed, religion, color, national origin, age, sexual orientation, gender identity, gender expression and/or marital status to:

**Associate Vice President for Human Resources**

Baird Administration Building  
360-992-2325

The college president delegates investigation of grievances on the basis of any physical, sensory or mental disability, or status as a disabled or Vietnam-era veteran to:

**ADA Compliance Officer (ADACO)**

Gaiser Hall  
360-992-2580

VP: 360-991-0901

**Definitions**

**Sexual harassment:** A form of sex discrimination which involves the inappropriate introduction into the work or learning situation of sexual activities or comments that demean or otherwise diminish one's self-worth on the basis of sex. Unwelcome sexual advances, requests for sexual favors and other verbal or physical conduct of a sexual nature constitute sexual harassment under any of the following conditions:

1. When submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment or academic standing.
2. When submission to or rejection of such conduct by an individual is used as the basis for employment or academic decisions affecting such individual.
3. When such conduct has the purpose or effect of unreasonably interfering with an individual's work or academic performance or creating an intimidating, hostile, offensive working or educational environment.

Sexual harassment often involves relationships of unequal power and contains elements of coercion—as when compliance with requests for sexual favors becomes a criterion for granting work, study, or grading benefits. However, sexual harassment may also involve relationships among equals, e.g., student to student, as when repeated sexual advances or demeaning verbal behavior have a harmful effect on a person's ability to study or work.

**Sex discrimination:** The process of making a distinction in favor of, or against, a person or persons on the basis of sex rather than on individual merit. If sex is taken into account when making a decision regarding an employee, except when it is a bona fide occupational qualification or is otherwise authorized by law, or if a person is sexually harassed, that person has been subjected to sex discrimination.

**Racial harassment:** Physical or verbal conduct that is maliciously intended to harass, intimidate, or humiliate a person or persons on account of race, color, or national origin and that causes severe emotional distress, physical injury or damage or destruction to the property of another, or threatens and places a specific person or group of persons in reasonable fear of harm.

**Disabilities:** People with disabilities are persons with a physical, mental, or sensory impairment which substantially limits one or more major life activities. An individual is disabled if that individual meets at least any one of the following tests: (i) the individual is substantially impaired with respect to a major life activity; or (ii) the individual has a record of such an impairment, or (iii) the individual is regarded as having such an impairment.

**Disabled veteran:** A person entitled to disability compensation under laws administered by the U.S. Department of Veterans Affairs, or a person whose discharge or release from active duty was for a disability incurred or aggravated in the line of duty.
Vietnam-era Veteran: A person who served on active duty for a period of more than 180 days, any part of which occurred between August 5, 1964, and May 7, 1975, and was discharged or released from duty with other than a dishonorable discharge.

**No Retaliation**

No one shall be singled out, penalized, or retaliated against in any way by a member of the college community for initiating or participating in a grievance procedure. Retaliation may be grounds for disciplinary action.

**Grievance Procedure**

Complaints should be filed within 180 days from the most recent incident. Where extraordinary circumstances are shown, the 180-day limit may be waived.

**Step 1: Informal Meeting**

In an attempt to informally resolve the concern, the complainant may request a meeting with the individual believed to have committed the discriminatory act (the respondent) or with the appropriate supervisor or president’s designee. The time period in which attempts to informally resolve the concern are made shall not exceed thirty (30) working days from the time the complaint is lodged.

**Step 2: Formal Grievance Procedure**

The complainant may initiate a formal grievance. A formal grievance must be filed in writing and must set forth the specific grievance(s) raised by the complainant, including the dates, times, places, and circumstances surrounding the complaint. A form for this purpose is available; however, any written document is acceptable. Formal complaints may not be filed by e-mail.

Upon receipt of the grievance, an investigation will be conducted which includes, but is not limited to, interview(s) with the complainant, the respondent, and any additional persons necessary to determine the merit(s) of the complaint. The investigation should be completed within thirty (30) working days.

Upon completion of the investigation, a written report will be prepared, which includes findings and conclusions to the complainant and the respondent. The report may include a recommendation for appropriate disciplinary or corrective action, or the report may be sent to the designated vice president or administrator to determine appropriate disciplinary or corrective action. If the complaint is found to be false and malicious, notification will be given to the designated vice president or administrator for possible disciplinary action against the complainant.

**Step 3: Presidential Appeal**

If the complaint is not resolved at step 2, the complainant may appeal to the college president. The appeal must be made in writing within twenty-one (21) days after the report is issued.

Within twenty (20) days after receiving the appeal, the college president or the president’s designee will conduct the presidential review and report the results in writing to both the complainant and the respondent. The college president may affirm or modify the report, remand the case for further investigation, or dismiss the appeal. The written results of the presidential review will be considered final.

No further intra-institutional appeal exists.

Notification of Students’ Rights Under the Family Education Rights and Privacy Act

Clark College conforms to the Family Educational Rights and Privacy Act (FERPA), as amended, which affords students certain rights as to their education records.

1. Students have the right to inspect and review their education records within 45 days of the day the college receives a written request for access. Students should submit to the registrar written requests that identify the record(s) they wish to inspect. The registrar will make arrangements for access and notify the student of the time and place where the record(s) may be inspected. If the records requested are not maintained in the Registrar's Office, the student will be advised of the correct official to whom the request should be addressed.

2. Students have the right to request the amendment of the education records that they believe are inaccurate or misleading. Students must write the college official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the college decides not to amend the record as requested by the student, the college will notify the student of the decision and advise the student of the process by which the student may appeal the decision.

3. A student has the right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. With few exceptions (stated below), no one will have access to student records without the written consent of the student. Clark College will not release a student’s record to a parent/guardian without the student’s written permission. Such a policy is in effect regardless of the student’s age or financial dependency upon the parent/guardian.

The college may release student directory information without student consent which includes student name, student address, student e-mail, date of birth, major field of study, quarters of attendance, degrees and awards received, participation in activities and sports, and weight and height of members of athletic teams. With regard to former students, such information also includes addresses for use by the Clark College Foundation.
Exceptions include school officials with a legitimate educational interest in a student’s educational record. A school official is a person employed by the college in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the college has contracted (such as an attorney, auditor, collection agent, or the National Student Clearinghouse, an agency which acts as a clearinghouse for student loan deferment reporting); a person elected to the board of trustees; or a student serving on an official committee, such as a disciplinary or grievance committee. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Exceptions also include accrediting agencies; student financial aid agencies; those who require student information in an emergency situation in which someone’s health or safety is at risk; Clark College also discloses educational records without consent to officials of baccalaureate institutions in which a student seeks to, or intends to, enroll.

In compliance with the Higher Education Amendments of 1998, the college is authorized to disclose information to a parent or guardian about any school disciplinary violation involving alcohol or a controlled substance which has been found to have been committed by a student who is under the age of 21.

Pursuant to the Solomon Amendment, Clark College is authorized to disclose the following directory information to the military for recruitment purposes: student’s name, address, telephone listing, date of birth, academic major, and degrees received from Clark College.

Students who do not wish to have directory information released by the college must file a student directory restriction request with the Registrar’s Office.

4. A student has the right to file a complaint with the U.S. Department of Education concerning alleged failures by Clark College to comply with the requirements of FERPA by writing to:

Family Policy Compliance Office
U.S. Department of Education
600 Independence Ave. S.W.
Washington, DC 20202-4605.

In some instances, records may be withheld by the college. Academic transcripts are routinely withheld if a student has a financial obligation to the college. The Security/Safety Office may request a hold on records if there is concern that such records may compromise a criminal investigation.

Copies of the complete FERPA policy may be obtained at the Registration Office.

---

**Limitation of Liability**

The college’s total liability for claims arising from a contractual relationship with the student in any way related to classes or programs shall be limited to the tuition and expenses paid by the student to the college for those classes or programs. In no event shall the college be liable for any special, indirect, incidental, or consequential damages, including but not limited to, loss of earnings or profits.

---

**Graduation Rates**

Below is the federal graduation rate survey (GRS) information for student cohorts from 2006, 2007, 2008, and 2009. The federal graduation rate survey definitions pertain to a specific cohort of Clark College students: new students attending full time, with degree or certificate intentions, and without prior college experience.

- Combined transfer out/completion/graduation rate, 4-year average: 44%
- GRS completion or graduation rate, 4-year average: 25%
- GRS transfer out rate, 4-year average: 19%
Clark College provides this information pursuant to the federal Student Right to Know Act so that prospective students can make informed decisions about the college they might wish to attend. For help in interpreting these data, contact the Office of Planning & Effectiveness, 360-992-2506.

View the most recent cohort graduation rates at the National Center for Education Statistics website: nces.ed.gov/collegenavigator

---

**Equity in Athletics**

The Equity in Athletics Disclosure Act is designed to make prospective students aware of a school’s commitment to providing equitable athletic opportunities for its male and female students. Any co-educational institution of higher education that participates in a federal student aid program must prepare an EADA report each October. For a copy of the report, please contact the Athletic Department, O’Connell Sports Center, 360-992-2691, or visit the EADA website at http://ope.ed.gov/athletics/.

---

**Consumer Information**

All Consumer Information, also known as Student Right to Know Information, is available on the Clark College website at www.clark.edu/student_services/consumer_information/

Information is available in paper format through the Office of the Dean of Student Enrollment and Completion located in Gaiser Hall.
Any member of the college community may file a written complaint alleging that a student has committed a violation of the code of student conduct. The complaint is filed with the Office of the Vice President of Student Affairs.

If the student conduct officer determines the complaint or report has merit, the student conduct officer shall initiate disciplinary proceedings.

A student accused of violating the code of student conduct shall be notified in writing of an initial disciplinary proceeding and be given the opportunity to meet with the student conduct officer to resolve the case without a formal hearing.

If the student fails to respond or fails to appear, the initial disciplinary hearing may be held in the student’s absence and does not preclude the student conduct officer from making a decision and imposing or recommending sanctions.

After considering the evidence in the case, the student conduct officer may take any of the following actions:
(a) Terminate the proceedings and exonerate the student;
(b) Dismiss the case after whatever intervention and advice is deemed appropriate;
(c) Impose any of the disciplinary sanctions from WAC 132N-121-070.

The student conduct officer informs the student in writing about decisions reached and any sanctions assigned. Appeal information is included in the letter.
A student who receives a disciplinary sanction other than warning or reprimand has the right to submit a written request for appeal with the Chair of the Committee on Student Conduct within 7 days from the date of receipt of the sanction letter. The request must state whether the appeal is to be heard formally by the Committee on Student Conduct or informally by the chair.

**Appeals conducted informally by the Chair of the Committee on Student Conduct**

- The student appealing and the student conduct officer each have the opportunity to share their view on the matter. No witnesses may testify.
- Within 10 days of the proceeding, the chair will issue a written decision which will include a brief statement of the reasons for the decision.
- Within 21 days of receiving the chair’s decision, the student may petition for administrative review by the Vice President of Student Affairs or designee.

**Appeals conducted formally by the Committee on Student Conduct**

- The committee consists of five members: two full-time students, two faculty members, and one administrator.
- The student is entitled to present evidence on his or her behalf and to cross-examine witnesses testifying on behalf of the college.
- At the conclusion of the hearing and deliberations, the committee on student conduct shall meet in closed session to consider all evidence presented and decide by majority vote whether the student has violated the code of student conduct, and if so, the committee determines and imposes the appropriate sanction(s).
- Within 10 days following receipt of the committees’ decision, the student may file a written appeal with the college president.

Clark College Board of Trustees

Jack Burkman 2008 – 2018
B.S. in Mechanical Engineering, Montana State University
Certified Professional Coach, Antioch University – Seattle
Mr. Burkman is a Vancouver City Council member. He most recently served as the SW Region Planning Manager for Washington State Department of Transportation. Prior to that, he worked for Hewlett Packard for 28 years, including 21 years in Vancouver.
Community activities include:
  • Member and former chair, SW Washington Regional Transportation Council
  • Former vice president of Public Policy and member, YWCA Clark County Board of Directors
  • Former chair and member, Fort Vancouver Regional Library Board of Trustees

Sherry W. Parker 2003 – 2014
A.A.S. Clark College
B.A. University of South Florida
Currently retired, Ms. Parker served as County Clerk of Clark County, Washington, from 2007-2010. She worked for Clark County for over 19 years. She previously worked as secretary of the Data Processing Department at Clark College, where she also taught computer skills classes.
Community activities include:
  • Treasurer and Past President, Salmon Creek Lions Club
  • Secretary, Clark County Volunteer Lawyers Program
  • Member, City of Vancouver Transportation Finance Task Force

Royce Pollard 2011 – 2016
B.S. in Secondary Education, University of Alabama
During his six terms as mayor of Vancouver, Wash. from 1996-2010, Royce Pollard shaped the development of downtown Vancouver including the revitalization of Esther Short Park and the dedication of the Hilton Vancouver Washington Hotel and Convention Center.
Community activities include:
  • Board of Directors, Southwest Washington Red Cross

Jada Rupley 2010 – 2015
B.A. in Psychology/Education, Central Washington University
M.Ed. in School Administration, Seattle Pacific University
Certified Superintendent, School Principal, School Psychologist
Jada Rupley is currently the Early Learning System Director for the State of Oregon. She is the former Associate Superintendent of Educational Service District 112.
Community activities include:
  • Board Member, Clark County Skills Center Advisory Council
  • Clark County Aging Task Force

Rekah Strong 2012 – 2017
B.S. Criminal Justice, Portland State University
M.A. Social Work/Administration, Portland State University
Ph.D. Social Work Research, Portland State University
Rekah Strong is currently the Vice President of Organizational Development and Culture at the United Way of the Columbia Willamette. She has more than 16 years of experience working in public agencies and developing strategies to improve organizational cultural humility.
Community activities include:
  • Board member, We Reign Youth Foundation
  • Trainer, Leadership Clark County Diversity
