WELDED SCULPTURE – FALL, WINTER, SPRING AND SUMMER

Clark College Welded Sculpture, is an inter-disciplinary class where students create a sculpture using welding, cutting and forming techniques with a variety of metals. This class focuses on metal sculpture fabrication using the MIG or “wire feed” welding process. No prior welding or sculpture experience is required. Advanced techniques are taught in Welded Sculpture II and III.

Department Code	Course No.	Class Section	Credit	Building	Room	M	T	W	Th	F	Hours	Fees
WELD	120	A	3	AA2	101		X		X		1-3:50 p.m.	\$40
ART	295	A	1	AA2	105		X				12-12:50 p.m.	

Instructor, Elizabeth Heron, graduated from Portland State University in 1988 with a Masters degree in Fine Art. She is a practicing studio artist with a full foundry and welding facility located in Ridgefield, Washington. Her work is permanently exhibited at several public locations in Washington State.
