

OSWALD Awards

Below are some examples of what some staff/faculty wrote about their students in each category to help you get your creative juices flowing.

Outstanding Student in an ASCC Program - for the ASCC Program you can recognize all the students in the program or you may recognize them individually. Below are two examples:

Phi Theta Kappa

Heather Galekovich, Alicia Lindsey, Michael Goudie, Haley Gross, Margaret Raines, Pablo Avvocato, Will Helkenn, Dena Corby, Stacy Mortensen, Rihana Master, Edward Pollock, Christina Jensen, Rebecca Zeff, Kirstie Hayes, Ryan Evans, Jesse Duff, Luke Richardson, Kevin Perron, Laura Dunn and Laurie Barnes.

Each of these individuals played an active role in the 2010-2011 Alpha Sigma Phi year. The program would not be strong without its' members, and the contributions made by these individuals are greatly appreciated. "Alpha Sigma Phi – we don't deny, we multiply!"

Student Ambassador

Tessa is a great Ambassador who is able to manage all of her multiple roles at Clark with ease. In addition to being an ambassador she is a student athlete and excels as a student. Tessa is diligent in her work and always gets her tasks done while having fun in the office as well. She has been a wonderful student ambassador.

Outstanding Student in an ASCC Club - for the ASCC Club you can recognize all the students in the club or you may recognize them individually. Below are two examples:

Japanese Language Club

Joyce Im, Tei Lewis, Kristina Le Pore, Cody Spencer, and Emily Montalbano.

I would like to recognize the active participants of the Japanese Language Club. They have offered many Japanese related activities for campus including the International Education Week and Sakura Ceremony. This year, they did a very special thing for Japan. They stood up to raise money for Japan after they have heard about an Earthquake and Tsunami in Japan. Thank you J-club for your dedications and leaderships.

Engineering Club

Nick has been the Engineering Club president for two years. He is an outstanding leader with an amazing work ethic. Nick maintains exceptional academic performance all the while balancing many responsibilities, all with a positive outlook. Nick is highly respected by his peers for his willingness to get things done and to help others. Nick has proven to be a take-charge person who is able to successfully develop and implement projects. Nick has been a joy to work with.

Outstanding Student in a Department - for the Outstanding Student in a Department you can recognize all the students in the department or you may recognize them individually. Below are two examples:

Graphic Communications (GRCP)

Shannon Baugher has proven herself as a student who has been exemplary in her work ethic and classroom output. She takes responsibility for her own learning proves that one can balance complex obligations in both her work, family and student life and perform all with a level of commitment and excellence.

Women's Studies

John Barbieri, Brent Filler, Roz Guerrero, Luke Hickey, Leah Rimington, James Ryan, Kashae Van Cleef, and Veronica Violet.

These students have done excellent academic work and/or excellent service to the Women's Studies Department.

Outstanding Student Employee

Jim Dykes

CTEC Penguin Help Desk

For outstanding service and contribution to the helpdesk, development, and mentoring fellow students above and beyond the requirements of the program.

Nick Osborn

Writing/Tutoring Center

Nick has been part of the Tutoring Center team for over a year, and he still manages to impress us all with not only his impressive tutoring skill and range of subjects he tutors, but also with his positive attitude and flexibility. He has a unique way of empowering students, enabling them to master the concepts they once struggled with.

Academic Award

Early Childhood Education

It is a delight to offer the academic award to Ms. Joanna Willman, a student who has consistently demonstrated high academic performance. In addition, she has shown flexibility in her work within the lab, always available to problem-solve in ways that provide the highest of educational standards for her and the children and families she worked with. It is our pleasure to honor her achievements and we wish her continued success.

David Stewart

Computer Technology (CTEC) & GRCP

David Stewart is an exceptionally talent web development and programming student. One of his most notable achievements was the creation of web usability monitoring software that is being utilized by the Cannell Library in the testing and analysis of their new website
