

Web-Based Appointments

Zoom Link instructions

- Click the unique zoom link we have provided, you will receive a prompt to either Run, Save, or Cancel. Please select Run
- Once you select Run, another window will pop up and show you that your meeting will begin soon
- When you have entered the room you have another prompt asking if you want to Join with Computer Audio or Phone Call
 - Computer audio will use your computer speakers and microphone
 - Phone Call will pop up another box with the number to call to connect, the meeting ID, and the participant ID. When you call the number you will be prompted for the ID's
- You have the option to share your screen with the staff member and they can share with you.

Zoom Manual Instructions:

If the zoom link does not work, use the following alternative instructions:

- Visit zoom.us
- Top right corner select Join A Meeting, you do not have to sign up from a computer unless you choose to
- Type in the Meeting ID you received for your appointment. We suggest you do this early to check your system requirements and do any set up that may be needed before your appointment
- It will connect you

Zoom Mobile and Tablet Instructions:

- Download the app in either the Apple store or Google Play
- Select Join a Meeting
- Enter provided Meeting ID
- Add your name
- Join Meeting

Here are some helpful things to know from Zoom themselves:

What is Zoom?

Zoom is a web-based meeting tool (like Skype) that allows us to connect when we can't meet in person. Zoom meetings can be accessed through your mobile device, tablet, or desktop computer.

How to Participate?

Let us know you want to meet via Zoom. If you will use your phone or tablet to join, you'll need to download the Zoom mobile app (available for Android or iOS) in the App Store or Google Play
