

Attbar teams with Clark College for customized training

Attbar Inc., a local manufacturer specializing in the fabrication and assembly of fiberglass products, will receive customized training through a Job Skills Program Grant awarded to Clark Col-

lege. The grant, funded by the State Board for Community and Technical Colleges, will provide \$50,000 for preparing Attbar employees for industry certification, as well as specialized training for supervisors and managers.

The customized training provided by Clark College will allow Attbar Inc. to expand business and provide career and income enhancement for its employees.

The company was founded in 1957 and has 162 employees. The training will take place at Attbar Inc.'s headquarters in Ridgefield and is scheduled to begin this fall.
