Clark College men rely on versatility during tryout year

By KURT ZIMMER

Clark College's basketball team cleared its way into the Northwest Athletic Conference's (NWAC) tournament by winning the West Region. The Pirates (17-9) tip off the NWAC tournament Thursday at the Elks Center in Kennewick, facing Yakima Valley College at 7 p.m. The Pirates are expected to win their third straight tournament, as they dominated their previous opponents.

Clark coach Mike Arnold expected a better showing from his team before becoming so ill that none was even at the O'Connell Center for Monday's practice. Arnold said he had eight weeks off, but not as a result of anything. He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development." He said, "We were working on conditioning, and we were working on skill development."
