Visiting the Library

Visiting the library is wonderful for the whole family and provides free and fun entertainment for all ages. Libraries provide people the opportunity to borrow books, music, and movies. They may also provide computer labs, children's play areas, and community classes for those interested. All of which are free. For people who cannot afford to buy books, a library offers them the chance to enjoy their favorite authors free of charge.

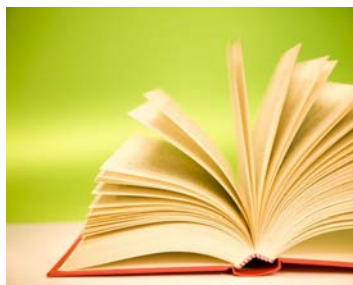

Facts about libraries:

- ◆ 68% of Americans have a library card
- ◆ We check out more than 2 billion items a year
- ◆ There are more than 16,500 public libraries
