B. Grievance Process

1. A grievance is hereby defined as an alleged violation by the College of the terms of this Agreement. An individual faculty member who has been aggrieved, or group of faculty members who have been individually aggrieved, or the authorized Association

representative, will have the right to present grievances. Such grievances will be handled in the following manner:

Step One

The grievant and the Association representative, if requested by the grievant, may orally present the alleged grievance to the appropriate immediate supervisor and Vice President [of Instruction](#). If the grievance is not adjusted orally, the grievance will be reduced to writing, dated and signed by the faculty member and the Association representative, if any involved, and will state the specific factual basis of the grievance, the provision or provisions of the Agreement involved, and the remedy sought. The immediate supervisor and Vice President [of Instruction](#) will be given the written grievance and will note receipt of the same by countersigning and dating the original grievance and will give a copy of the grievance to the Association representative. The Vice President [of Instruction](#) will answer the grievance in writing within ten (10) [contracted working](#) days thereafter and will concurrently send a copy of the grievance and the answer to the authorized Association representative.

Step Two

If no settlement is reached at Step One, the written grievance may be submitted to the President or designated representative, provided it is filed with the President or designated representative not more than ten (10) [contracted working](#) days after it is answered in Step One. Representative(s) of the Association will be present at any meeting called to consider the grievance at Step Two. The President or designated representative will send the written answer to the authorized Association representative within ten (10) [contracted working](#) days. Such answer will be deemed to be the final position of the College.

Step Three

If no settlement is reached at Step Two, the Association, acting through its President, may, in its sole discretion, within ten (10) [contracted working](#) days after the date of the Step Two answer, notify the College that the grievance will be arbitrated, provided that the grievance presents an arbitrable matter as herein defined. The demand for arbitration will be submitted to the American Arbitration Association [or the Federal Mediation and Conciliation Services](#) within twenty (20) [contracted working](#) days of the Step Two answer.

C. Time Limits

With respect to Section 1 of this Article, the following time limits are established. Any grievance not presented in writing as provided in Step One of Section 1 above within fifteen (15) [contracted working](#) days after the grievant knows or reasonably should have known of the occurrence of the event or the condition giving rise to the grievance will be waived for all purposes. For purposes of this Article, working days will be defined as contracted faculty working days pursuant to the Board-approved academic calendar regardless of whether the grievant is actually assigned such days. In addition, if any other steps or actions provided for in Section 1 of this Article are not taken, or appeals therein provided for not taken or filed, or notice not given within the time limits therein specified, then the grievance will be deemed finally closed and settled on the basis of the College's last answer unless both parties mutually agree to extend time limits.
