Clark College
BOT Meeting
Wednesday, January 24, 2018 5:00 PM (PST)
GHL 213

- I. Call to Order/Agenda Review - Chair Rupley
- II. Introduction--Valerie Moreno, CIO - President Knight
- III. Action Items - Chair Rupley
 - A. November 2017 Board Meeting Minutes
- IV. Audience Statements - Chair Rupley
- V. Constituent Reports
 - A. AHE - Kimberly Sullivan
 - B. WPEA - Billie Garner
 - C. ASCC
 - D. Foundation - Lisa Gibert
- VI. Reports from Board Members
- VII. President's Report
 - A. Student Success Story - Daniel Howard
 - B. Faculty Presentation, Healthy Tech Usage and Mindfulness - John Mitchell - 10 minutes
 - C. Guided Pathways - President Knight
 - D. Scorecards
 - E. Statistics
- VIII. Next Meeting

The next meeting of the Board of Trustees is currently scheduled for Wednesday, February 28, 2018 in the Ellis Dunn Community Room, GHL 213.
- IX. Executive Session

An Executive Session may be held for any allowable topic under the Open Public Meetings Act.
- X. Adjournment

Time and order are approximate and subject to change.

Clark College
Minutes of the Regular Meeting of the Board of Trustees
Tuesday, November 14, 2017
GHL 213

In Attendance

Jack Burkman, Chair
Jada Rupley, Vice Chair
Jane Jacobsen, Trustee
Royce Pollard, Trustee
Rekah Strong, Trustee

Administrators

Robert Knight, President
Dr. Tim Cook, Vice President of Instruction
Bob Williamson, Vice President of Administrative Services
William Belden, Vice President of Student Affairs
Dr. Chato Hazelbaker, Chief Communications & Information Officer
Kevin Witte, Vice President of Economic & Community Development
Dr. Loretta Capeheart, Associate Vice President of Diversity, Equity & Inclusion
Shanda Diehl, Associate Vice President of Planning & Effectiveness
Dr. Darcy Rourk, Interim Vice President of Human Resources & Compliance
Leigh Kent, Executive Assistant to the President

Others

Jennifer Mankowski-Dixon, Assistant Attorney General
Lisa Gibert, President/CEO Clark College Foundation
Kimberly Sullivan, AHE President
Grace Moe, ASCC President
, Student

I. **Call to Order/Agenda Review**

Chair called the meeting to order at 5:05 pm. There were no changes to the agenda and she called for a motion to approve.

At the work session immediately preceding this meeting, the trustees met and spoke with all of the first and second-year tenure probationers. The trustees are very excited for the future and to see them move forward in their careers.

There were work session follow-up topics that are being moved to the President's Report portion of the board agenda as the faculty portion of the agenda ran long. Topics being moved are disaggregation of the hiring pool, counseling center, and ctcLink costs.

II. **Introductions**

There were no introductions this evening.

III. **Action Items**

A. **2017-2018 Faculty Salary & Workload Documents**

The documents and summary materials that were presented to faculty were included in the board packet for trustee review. The union is very excited that they were able to provide an additional \$90,000 in funding to adjunct faculty salaries this year. Trustee Burkman noted that the new adjunct salary ranges meet the living wage scale for Clark County and the trustees appreciate this move very much.

Trustee Burkman made a motion to approve the 2017-2018 Faculty Salary & Workload documents. Trustee Jacobsen seconded the motion and it unanimously

MOTION: passed.

B. **October 2017 Board Meeting Minutes**

A correction was made to the minutes showing the public hearing lasted from 5:20 to 5:24 pm.

Trustee Burkman made a motion to approve the minutes with corrections. Vice Chair

MOTION: Pollard seconded the motion and it unanimously passed.

IV. **Audience Statements**

There were no audience statements this evening.

V. **Constituent Reports**

A. **AHE**

There was no additional report from the AHE this evening.

B. **WPEA**

There was no report from the WPEA this evening.

C. **ASCC**

ASCC President Grace Moe shared highlights of each core theme in the students' report this evening. The executive committee continues to participate in strengths training activities to learn how to work together as a team. Students in several classes took a textbook affordability survey on behalf of the state student association and Clark had the largest response in the entire community college system (376 responses). The executive committee has approved funds for various events this term, chartered 17 clubs, and are looking to fill only four more tenure committee positions. In addition, student leaders are collecting items for the newly-opened Penguin Pantry.

D. Foundation

Ms. Gibert announced that the Foundation's audit is complete and will be presented to their board for approval in December. There were no discrepancies in the audit and no adjustments needed to be made.

The Foundation would like to offer an educational session on reading their financial dashboard at a future board work session. She asked that the trustees please let her know what financial information is of interest to them so that the Foundation can tailor the presentation to their interests.

The Foundation is forming a North County Task Force that will look at commercial development at the Boschma Farms property and in Ridgefield. One college board member will be asked to sit on this committee.

Savoring Excellence is over and the Foundation is in the process of conducting follow-up interviews with attendees who have contacted them and those involved in the planning to see how to improve next year.

Vice Chair Pollard congratulated the Foundation on the new sign they have raised on Fourth Plain Boulevard. Chair Rupley felt Savoring Excellence was well done and was pleased so many people were able to speak at the event. She was very impressed with the number of people attending who had been students at Clark.

VI. Reports from Board Members

Vice Chair Pollard has been away and was not able to attend Savoring Excellence. He commented on some of the newspaper articles that have recently appeared in The Columbian and how much good press the college is receiving.

Trustee Jacobsen said it was so great to see all the student participation at Savoring Excellence. She and Trustee Strong attended the Association of College Trustees' (ACT) fall conference last week. Clark was held up as a best practice institution for the legislative work that has been done this year. The state board's ctcLink project manager brought the trustees up to date on that project's progress and how it is ultimately going to help students, faculty, and staff once it is implemented.

Trustee Strong was also pleased to see so many alumni at Savoring Excellence. She is Clark's delegate to the ACT Legislative Action Committee (LAC) and also spoke about Clark as a best practice institution. She feels the college is better able to connect with our legislators by visiting Olympia than travelling to Washington, DC. The students' legislative agenda includes redefining what Basic Education is beyond the K-12 system. They also are lobbying to "ban the box" on job applications, and the textbook survey. She would like to the trustees to be notified about future Faculty and Staff of Color Conferences.

Trustee Burkman was pleased to connect with students and donors at Savoring Excellence. This year's Indigenous Celebration was well organized. The students held an event on Domestic Violence Awareness that provided very good information about what causes and what doesn't cause domestic violence. The statistics are staggering with one in three women, and one in four men being victims. He acknowledged President Knight for arranging today's session with the tenure candidates. The process is being made much more inclusive, with candidates and trustees now being able to connect regularly through the process. Trustee Burkman and several college leaders are heading to Washington, DC next week to participate in a Guided Pathways Institute. He is very impressed with the topics that are being presented and several institutions who have been through it will be presenting.

Chair Rupley was happy to see how well Savoring Excellence went in recognizing alumni and community members. She was disappointed that she was not able to attend the trustee Legislative Action Committee meeting but is participating on the Transforming Lives candidate committee. She thanked Dr. Hazelbaker for submitting Clark's nomination.

ACTION: The president's office will notify trustees about future Faculty and Staff of Color Conferences.

VII. **President's Report**

- President Knight presented follow-up items from today's work session: disaggregation of hiring and completion data, counseling center follow-up, and ctclink costs. Ms. Diehl explained that data from 2014 is the most recent as this student cohort has three years to complete their degree programs. This is the benchmark for the United States. There is disparity in completion by race as well as whether the colleges are student ready, and students are college ready. Clark is changing its culture through guided pathways so that we are student ready.

ACTION: Ms. Diehl will get the number of students in the cohort and completion for each racial category for the years 2015, 2016, and 2017.

- Dean Cath Busha met with students and staff regarding information available in the counseling center. Because students initially requested information be included from an organization that is not a medical clinic or full service facility, but could be considered a religious organization, it may not what is permitted to be displayed in a public institution. There was no clear consensus on moving forward and the college is working with the Assistant Attorney General's office on what can be displayed in the center's lobby. Once this information is available from the AAG, the college will develop a policy.
- The state board provided some ctclink cost information to the colleges but it was not clear what the numbers represented. The college's still do not know the amount of ctclink funds that has been spent in Tacoma and Spokane. Once Clark made the initial inquiry about costs, the state board schedule a conference call and will be discussing it at the next presidents' meeting. There is discussion about increasing colleges' contribution from 3% of tuition to 4% of tuition plus a quarterly bill for extra cash flow. Although no college has refused to pay when billed, the state cannot explain where the money has been spent.

- The next board report will be generated out of the software program Strategic Plan Online (SPOL) and it will directly support the strategic plan initiatives.
- Clark is a finalist for the College Spark Grant which is \$100,000 over five years for guided pathways implementation.
- Interviews continue for the Vice President of Human Resources and Chief Information Officer.
- The executive cabinet heard a presentation today from the bookstore regarding struggles bookstores are experiencing due to falling enrollment and undercutting by textbook companies. President Knight hopes to bring the presentation to a future board meeting.
- A white supremacy flyer was found on the main campus and two more were posted near the campus. The college will host some educational sessions on the groups that are doing this.
- A demonstration by an outside organization was planned for last week but did not occur since they did not follow the correct protocol. The college contacted the Vancouver PD and they were escorted from the grounds.
- President Knight attended a signing ceremony in Kyoto, Japan with Kyoto Women's University. The university is going to offer Clark students the opportunity to study for three weeks at the university for the next three summers. The cost will be only \$600 plus airfare. They will be sending students to Clark beginning next year.
- As there will not be a student or faculty presentation at the December meeting, President Knight asked the trustees if they wanted to hold a meeting or wait until January.

Trustee Jacobsen made a motion to cancel the December 6 board of trustees meeting and hold a meeting only if a special situation arises. Trustee Burkman seconded the

MOTION: motion and it unanimously passed.

Student Success Story

Director of International Programs Jane Walster noted that November 11/14-17 is International Education Week. Its goal is to attract students to the United States and prepare American students to become global citizens. Clark has enrolled 85 students from 35 countries this term. She then introduced this evening's student success speaker Wiwin Hartini, who is from Sumatra, Indonesia. Ms. Hartini is studying electrical engineering and is a tutor in the STEM tutoring center.

Faculty Presentation

Dr. Cook introduced Kristi Taylor, RSD, MS Ed., Dental Hygiene Professor. She discussed work the department does in the community to help students be successful as hygienists and advocates and to also assist those who do not have resources to obtain dental care. Students Tasia Davis and Amiah Tapio spoke about Children's Dental Health Day. For some children, this is the only time they ever receive dental care during the year. The students also provide services and education to Head Start, the Free Clinic of SWWA, Family & Child Services at Clark, Hudson's Bay Teen Parent Program, and

Lifeline Connections. The dental program is also preparing students to be dental therapists which is a mid-level dental provider.

ACTION: Add dental therapist legislation to the December Legislative Breakfast agenda.

Bachelor of Applied Science in Human Services Program

Dr. Cook noted that the state board approval of this program will take place in February. Approval of a BAS program is a two-step process and the initial presentation to the state board came up so quickly there was not an opportunity to present to Clark's board. Dr. Marcia Roi will give a much more detailed presentation at a future meeting.

VIII. **Next Meeting**

The next meeting of the Board of Trustees is currently scheduled for Wednesday, January 24, 2018 in the Ellis Dunn Community Room, GH 213.

IX. **Executive Session**

There was no executive session this evening.

X. **Adjournment**

There being no further business, Chair Rupley adjourned the meeting at 6:50 pm.

ASCC
BOARD OF TRUSTEES REPORT
January 2017

ACADEMIC EXCELLENCE

Facilitate student learning by providing the conditions for intellectual growth through scholarship, discovery, application, creativity, and critical thinking.

- Implement and institutionalize practices that increase academic performance, retention, and completion.
- Create and sustain an inclusive and dynamic curriculum and environment that reflect our diverse college community.
- Integrate active learning strategies within and across courses, disciplines, and programs with a global perspective.
- Create and advance accessible, integrated, and technology-enriched learning environments.
- Engage faculty, administrators, and staff in professional development experiences that enhance student learning.
- Align curriculum with learning outcomes and apply outcomes assessment evidence to continually advance student learning.

Progress

- **None**

SOCIAL EQUITY

Facilitate student learning by providing the conditions that improve educational outcomes and eliminate systemic disparities among all groups.

- Create and sustain an accessible and inclusive environment by utilizing principles of universal design and social justice so that all students can achieve equitable outcomes.
- Demonstrate improved intercultural competency among employees and students through comprehensive professional development and curricular transformation.
- Institutionalize hiring and retention practices that challenge systems of power, privilege, and inequity.

Progress

- **At the start of December, ASCC created a Textbook Affordability video showing the opinions that students around Clark College have regarding textbook affordability. We interviewed many different students around Clark College who have first-hand experience with the price of textbooks. The students expressed how expensive textbooks can be, and how this price impacts students. We then displayed this video at the Legislative Breakfast that was held on Monday, December 11th in PUB161. A few ASCC members attended to represent Clark College students, and express how the costs of classroom resources impact students. ASCC members met with Legislators, as well as Clark College staff. The video and attendance at the Legislative Breakfast helped promote the ASCC priority of Textbook Affordability, as well as the WACTCSA Agenda item of Textbooks and Open Educational Resources (O.E.R.s) Affordability and Accessibility.**

- **As of December 4, 2017 a total of 7,636 students from the community and technical college system had completed the Textbook Affordability Survey administered by the State Board for Community and Technical Colleges.**

ECONOMIC VITALITY

Facilitate student learning by providing programs, services, and conditions that improve the economic well-being of the students, college, and community.

- Improve college affordability for students by expanding access to and information about financial resources, clarifying career and educational goals, providing pathways to success, improving college readiness, increasing financial literacy, and managing costs.
- Align program offerings with regional workforce needs to include technical and work-readiness skills.
- Align, expand, and enrich the relationships with regional industry leaders to increase internships, advisory committee participation, financial support for students' education and programs, hiring pipelines, grant partnerships, mentorships, and apprenticeships.
- Maximize the college's return on investment by responsibly allocating available resources.
- Leverage resources to create and sustain future innovations.

Progress

- **Recently, ASCC Executive Budget Committee approved a one-time funding requests. This request and approval totals \$2,642.00 leaving \$848,113.00.**
- **The request from Counseling and Health for "Yes Means Yes, Sexual Health and Education Fair" was approved for \$2,642.00.**

ENVIRONMENTAL INTEGRITY

Facilitate student learning by providing the conditions that continually improve the college's physical, virtual, and social environment.

- Incorporate environmental sustainability priorities into all college systems.
- Improve the college's physical and virtual environment to maximize access and appropriate use of space and technology.
- Integrate principles of mutual respect, collaboration, clear communication, and inclusivity in all interactions.

Progress

- *Example: Number of clubs chartered, events hosted, etc. Include specific participants and numbers whenever possible.*
- **We have chartered 22 clubs**
- **For committees, we have filled all open positions besides 4 within the tenure committees.**

**Foundation
January 2018**

❖ **Strategic Initiatives – Areas of significance:**

1. **Development:** *Increase donor participation, fundraising and efficiency in operations.*

The campaign communications strategy is firming up and continues to be tested in front of several groups for feedback. Next, we are working on a message map for our target audiences. These message maps will have a primary message and supporting messages. Following the messaging, a communications plan will be established, which will be the blueprint that we will work from in creating assets such as print and electronic materials, social media, traditional media, etc. The goal is to have the messaging and communications plan in place so that assets are being developed by spring of 2018.

December also represented a flurry of activity as the tax bill law became a reality and donors looked to record year-end gifts before the changes take hold. Rolling forward the development efforts to 12/31/17, total contributions recorded reflect \$1.36M with an additional \$665K in contributions received but not yet recorded. These gifts represent planned/deferred gifts or gifts of real estate that require additional care in booking. In addition, we are hopeful that in the next few months two sizable gifts will be recognized resulting from, 1) an estate (approx. value \$950K) and, 2) a charitable trust (approx. \$180K from real estate). This would increase our fundraising total to over \$3M.

2. **Strategic Alignment:** *Builds on the mantra, “together we are stronger. “Develop a process in which foundation involvement is improved, agree upon matrix that establishes the campaign components, collaborate advocacy at local, state and federal levels to support higher education and philanthropic initiatives and report annually to college trustees.*

In December, the foundation presented the draft fundraising priorities and provided suggestions regarding the goals set to Executive Cabinet (EC). This draft was also discussed with the Board of Directors/ Board of Trustees (BOD/BOT). The next step is to evaluate the project case statements in conjunction with the draft matrix to determine project readiness and solidification of messaging and goals. As each project requires time to adequately assess, the projects will be separately discussed at EC over the next several weeks to obtain consensus. Once all projects are reviewed and the case statements finalized, they will be distributed to each board. These documents are fluid in nature and will evolve with time. As in the past, each project’s fundraising success will depend upon the urgency associated with them and the interest

identified within the community.

BOD/BOT also met in December and talked about a number of key topics such as the groups underlying purpose. Generally speaking, the objective is to “support leadership-to-leadership” communications. The BOD/BOT provides a forum by which the two institutions talk about supporting each other. When there is open and honest dialogue regarding our complimentary strategic initiatives, there is better alignment between the two entities.

3. **Fiduciary Responsibility:** *Clear reporting to the board to make financial decisions, oversight of key financial processes and compliance with governing documents, transparency to the college regarding support and assets available and maximizing foundation assets.*

Financial statement audit: Moss Adams completed the foundation’s June 30, 2017, financial statement audit. They presented to the foundation’s finance committee on November 14, 2017, and board of directors on December 5, 2017, noting no internal control deficiencies, material weaknesses or other matters. The auditors’ opinion on the financial statement states that the foundation’s financial statements present fairly, in all material respects, the financial position and changes in net assets and cash flows in accordance with accounting principles generally accepted in the United States. This is also termed a “clean audit opinion” which the foundation strives for each year.

Financial dashboard/board education: During the December 5, 2017, board meeting Ron Bertolucci, finance chair, and Daniel Rogers, CFO, presented the September 2017 financial dashboard. They explained how the dashboard is used to identify trends and balances, and discussed the purpose of each metric and balance being shown.

Bylaws: A taskforce made up of select members of the foundation staff and board completed an extensive review of the bylaws. Changes drafted into a red-lined version will be reviewed by the executive committee in March 2018 before review/approval by the full board in June 2018.

Compliance with operating agreement: A letter detailing compliance with the college and foundation’s operating agreement for the fiscal year ended June 30, 2017, is complete and was issued to the college president. Key requirements of the operating agreement are addressed and disclosure is provided on the foundation’s fundraising and college support expenditures.

4. **Board Relations:** *Review and define a process for finding, recruiting and nominating new board members, further clarity the of expectations of board members, annual review and evaluation of the performance of board members and understanding of the college’s*

and foundation's vision and goals.

In December, the foundation welcomed four new board members. LeAnne Brenner, attorney with Miller Nash Graham and Dunn; Patrick Ginn, owner of Ginn Realty and Development Group, Toby Warson, retired U.S. military and former CEO of a defense and marine business; and Jay Gilberg, alumni ex officio representative who works for Northwestern Mutual. These individuals have hit the ground running by providing valuable feedback at the board meetings. Each is well-positioned to tackle specific initiatives that are within their areas of expertise. The year 2018 will be exciting because of the multiple initiatives that are underway (Guided Pathways and Clark College at Boschma Farms) and the many others that are yet to be completed (McClaskey Culinary Institute).

Respectfully submitted,

Lisa Gibert
Foundation Chief Executive Officer
January 8, 2018

Soft credits are considered in this report, giving each constituent credit for gifts directly from them as well as gifts from a spouse/partner, personally-owned business, individual foundation or trust, donor choice program or donor advised fund.

Major gift donor is defined as a donor with a total gift commitment of \$10,000 or more during a single fiscal year. Matching gift commitments are considered in the donor's giving total.

Gift types considered: cash, recurring gift payment, pledge, property/stock, in-kind.

President's Report January 2018

Academic Excellence: Facilitate student learning by providing the conditions for intellectual growth through scholarship, discovery, application, creativity, and critical thinking.

Objective 1: Implement and institutionalize practices that increase academic performance, retention, and completion.

- Nine cross functional groups from instruction and student affairs generated ideas for the student processes in the areas of Career Plans, Financial Plans and Academic Plans. (SA)
- The college's guided pathways leadership team attended the first institute of the American Association of Community Colleges' Pathways 2.0 in Washington D.C. in November. A number of outcomes emerged from this training:
 - 1) importance of all-college communication and change-leadership (hence the all-college meeting on January 5 and monthly newsletter);
 - 2) the equity focus within the design of guided pathways (affirming our social equity core theme and mission fulfillment outcome); and
 - 3) the development of the case statement for guided pathways. (P&E)
- The college community received the first of a new monthly newsletter about the progress of designing and transforming the college's teaching and learning opportunities into guided pathways. Highlights of the newsletter include how guided pathways result in increasing equity and mobility and timeline for mapping the programs. (P&E)
- Staff have emailed appropriate high school counselors with the Academic Early Warning (AEW) summary of their students who received AEW reports in fall term; this was in addition to the phone calls staff have make to the students with AEW reports. This is communication the district superintendents asked Clark College to provide at the superintendent's meeting last June. (SA)
- An assessment of critical adjacency was completed for enrollment functions. As part of the process it was determined that there was a need to relocate the Assessment/Testing function to Enrollment Services in the main Gaiser Corridor. The relocation will provide admissions, registration, and placement functions in a one-stop model. The model will be implemented to scale at the start of winter quarter. (SA)
- Enrollment Services collaborated with Marketing and Communications to revise placement information provided on the college website. Students now have the ability to explore their placement options in a more comprehensive way. (SA)
- The chair of the Mathematics Division presented a first reading of the Mathematics Division Pathways Proposal pre-college math redesign to the Curriculum Committee for consideration. (OOI)

Objective 4: Create and advance accessible, integrated, and technology-enriched learning environments.

- Disability Support Services staff facilitated an Accessibility of course content workshop with seven health and physical education faculty on October 26. Faculty began editing their course files to improve accessibility for students who are blind or have reading disabilities that use specific technology in order to provide complete access and equity in the learning environment. (SA)

Objective 5: Engage faculty, administrators, and staff in professional development experiences that enhance student learning.

- Eight faculty are participating in Teaching Squares through the Teaching & Learning Center during fall quarter. The focus is on strengthening teaching practices through peer-to-peer observation. (OOI)

Social Equity: Facilitate student learning by providing the conditions that improve educational outcomes and eliminate systemic disparities among all groups.

Objective 7: Create and sustain an accessible and inclusive environment by utilizing principles of universal design and social justice so that all students can achieve equitable outcomes.

- A full-time, temporary Instructional Accessibility Technician position was hired to support faculty in evaluating and editing course materials for accessibility. The Instructional Accessibility Technician provides Ally and accessibility training to improve compliance with the Accessible Technology Policy. (SA)
- Twelve faculty participated in the Accessible Canvas Objects course (eLearning 131) designed to provide training on how to create accessibility in Canvas and use the accessibility tool checker Ally. (OOI)
 - One hundred fifty students, faculty, and staff engaged in a discussion about equity and access for individuals with disabilities. This training intentionally provides opportunities for our community members to engage in learning that leads to improved intercultural competency. (SA)

Objective 8: Demonstrate improved intercultural competency among employees and students through comprehensive professional development and curricular transformation.

- The Teaching & Learning Center collaborated with the Office of Diversity and Equity to offer a training on The Politics of Expression and Oppression on October 13. There were 39 attendees. (OOI)

Economic Vitality: Facilitate student learning by providing programs, services, and conditions that improve the economic well-being of the students, college, and community.

Objective 10: Improve college affordability for students by expanding access to and information about financial resources, clarifying career and educational goals, providing pathways to success, improving college readiness, increasing financial literacy, and managing costs.

- A case statement articulating the need for increased student scholarships was shared with the Clark College Foundation, expressing the need for specific resources to support student completion, transitional studies, new student enrollment, athletics, international students, and emergency loan programs. This case statement supports the strategic initiatives of the college related to enrollment and completion. (SA)
- The college has improved student access to public benefits services through enhanced partnership with DSHS. Case managers visit Clark College on a weekly basis to assist any student interested in learning more about these resources. (SA)
- Guided Pathways Pillar 2 Team (Getting Students on the Path) conducted workshops and open dialogue sessions to gather community input into the Guided Pathways planning process. This team utilized the information to create a draft set of recommendations for streamlining the student onboarding process, which includes students developing Career Plans, Financial Plans and Academic Plans. (SA)
- Clark College launched the Penguin Pantry (food pantry) to provide students with free food and hygiene products, as well as some clothing and school supplies. Almost half of Clark's student body is classified as lower-income, according to data from the college's Office of Planning & Effectiveness. As of mid-November, the Pantry has had over 140 visits and provided over 1,500 items to students. (SA)
- Clark College, in partnership with other community based organizations, submitted a grant proposal to the City of Vancouver Affordable Housing Grant Fund, which is designed to prevent homelessness by providing housing assistance and self-sufficiency services for up to 12 months. As a partner in this grant application, Clark College is requesting \$250,000 to support direct student aid (rent assistance, utilities, and security deposits), staffing, and marketing. (SA)
- A cross college task force met in December to map the communication that is happening with students from the time they apply until they start their first day at the college. This analysis provided us with some areas for improvement, and the next step is to map and "Ideal state" for communication that can be implemented later this winter/spring. (C&M)

Objective 11: Align program offerings with regional workforce needs to include technical and work-readiness skills.

- On October 23, 2017, the Instructional Planning Team approved the program proposal for the Baccalaureate of Applied Science in Human Services. This program will address labor market needs for baccalaureate educated professionals in human service agencies in our region. (OOI)

ECONOMIC VITALITY

- In October 2017, the Instructional Planning Team approved the statement of need for the Baccalaureate of Applied Science in Early Childhood Education. There is an emerging need in our community for baccalaureate-educated early learning professionals, and the Early Childhood Education faculty will now develop a program proposal to address the labor market needs. (OOI)
- Based on the 2017-2018 SWOT report, the Instructional Planning Team approved the development of feasibility studies for the following areas: Advanced Manufacturing, Agronomy/Conservation/Environmental Science, Digital Art/Creative Media & Elementary Education and Teaching. (OOI)

Objective 12: Align, expand, and enrich the relationships with regional industry leaders to increase internships, advisory committee participation, financial support for students' education and programs, hiring pipelines, grant partnerships, mentorships, and apprenticeships.

- Representatives from the offices that are currently using the Customer Relationship Management system Salesforce received additional training in Salesforce and upgraded our licenses in January to better support the work particularly in admissions. The entry services office is implementing new features based on this training that will save time in the entry services office, and the next step is to evaluate if this CRM can be used across the college. This is going next to the Economic Vitality Council for an update on February 7. (ITS)

Objective 13: Maximize the college's return on investment by responsibly allocating available resources.

- On December 19, Economic Vitality recommended, and Executive Cabinet approved, a new budgeting process to be used for the 2018-2019 College Budget Development. The new process includes open forums to share budget information, as well as providing a mechanism for campus wide feedback. (AS)
- The college Operations Manager conducted risk assessments as well as likelihood/impact of risks for most programs and units in Administrative Services and Human Resources, the two pilot departments. (AS)
- As the next step in implementing Enterprise Risk Management for Admin Services and HR, the Operations Manager matched the top 15 risks that Admin Services and HR identified with the College's strategic goals and objectives. (AS)

Environmental Integrity: Facilitate student learning by providing the conditions that continually improve the college's physical, virtual, and social environment.

Objective 16: Improve the college's physical and virtual environment to maximize access and appropriate use of space and technology.

- Clark College has the opportunity to be the next college in Washington State to GoLive with ctLink (PeopleSoft). This opportunity has developed from state recognition of Clark's readiness and demonstrated commitment. There are many advantages to converting to PeopleSoft as the college is transforming its degrees and certificates into guided pathways and trying to increase enrollment - so the sooner the better. However, given the potential risks of being the next college, Clark has identified the following conditions that need to be met or agreed upon:
 - The ctLink Project Director will discuss and introduce the project to Clark's Executive Cabinet and Board of Trustees in-person.
 - Regularly (at least monthly) scheduled meetings with the ctLink Project Director and ctLink Assistant Project Manager. These meetings can occur virtually and the frequency and duration can be modified as the project progresses.
 - Regular meetings with ctLink Project Director, ctLink Finance representative, SBCTC Finance leadership, Clark's Director of Business Services, and FirstLink (Spokane and Tacoma) colleges finance directors and project managers to ensure that finance is on track.
 - A communication plan must be in place for all the colleges involved in this deployment, ensuring Clark's potential concerns will be addressed.
 - Adequate finance staffing at the Washington State Board for Community and Technical College so that they can support colleges both on PeopleSoft and in the Legacy system.
 - Six years of Clark College data converted.
 - Demonstrated alignment at the state level with mapping business processes and configuration for ctLink conversion with guided pathways work.
 - Complete PeopleSoft customizations so that the FirstLink colleges will be able to close their annual fiscal accounts.
 - Assign a ctLink project staff to accessibility and compliance with policy 188.
 - Provide a sandbox that contains Clark data for all three pillars (Campus Solutions, Financial Management, and Human Capital Management) to prepare, practice, and test the processes to make sure it works.

ENVIRONMENTAL INTEGRITY

- At the point of the third data conversion, Clark College will make the final determination of whether to GoLive with this deployment phase. (P&E)
- The Data Governance Committee has documented the college's electronic data and identified who is responsible for each data cluster. The committee has already assessed the data policies at the college and are now working on addressing the deficiencies in the policies related to data governance. (P&E)
- The Director of Security met with the ASCC Executive Council to review the prioritized list of locations for new lighting and cameras developed in March 2017 by Facilities and Security. ASCC will seek input from students about the current list and any additional locations they feel should be considered as priorities. New lighting will be the first area of focus, followed by cameras. (AS)
- Facilities and security performed an after-dark assessment of the lighting in the central green space of main campus. Several light fixtures were identified for upgrades that will significantly improve visibility along the center campus walk ways. A work order has been submitted and parts have been ordered. Installation of the upgraded fixtures will be scheduled once the parts arrive. (AS)
- Risk Management issued a college-wide email outlining what our ergonomic program does and how to request an evaluation. Environmental Health and Safety hosted a table at the College's Wellness Fair to promote ergonomics and sign employees up for the service. (AS)
- The first classroom remodel was completed in Bauer Hall room 001. Facilities and the Math Department's chair collaborated on the design. Carpet was installed, dimmable and controllable LED lighting was installed, and the room was painted a blue color. Response to the new look has been extremely positive, and Facilities is being asked to address other classrooms in a similar fashion. (AS)
- The LIB 103 classroom was reconfigured to enhance the learning environment. The projector and screen were replaced with two monitors, one at the front and one at the back of the room. Tables were arranged to improve student access to the white boards and meet new accessibility requirements. (OOI)
- As part of the larger project to upgrade the data center at the college, in January ITS replaced all of the UPS units which provide battery back up power to the servers. Previously some servers lost power when the college experienced power outages which led mission critical systems being down in emergencies. (ITS)
- With the implementation of the new Palo Alto Firewall, Clark College's internet connection speed increased from 500mb/sec to a full Gig/sec (1000mb/sec) at the end of the winter break. This will help internet speed at the college and make systems more reliable. (ITS)

ENVIRONMENTAL INTEGRITY

Objective 17: Integrate principles of mutual respect, collaboration, clear communication, and inclusivity in all interactions.

- The communication tool, Council Connect, that supports shared governance and communication between the college community and core theme councils was developed and launched on January 8. The purpose of this tool is to engage the college community in transparent dialog about the different strategies being used for achieving mission fulfillment, such as pre-college curriculum, social equity training, guided pathways, enrollment management, and the budget development process. (P&E)
- During the first week of the winter quarter, all Clark College students were opted into the Rave emergency alert system. This system provides students with the option to get text messages and other alerts in case of a college emergency. The previous approach was that students had to "opt in" and with the automatic enrollment we expect many more students will use this critical system. (ITS)

ADDENDUM ENTRIES—ACADEMIC EXCELLENCE

- Continuing Education enrollments are up 11.5% (3,965/4,419) this fiscal year over the prior year. This is due, in part, to increased social media campaigns by targeting segments of our student population with weekly links to specific classes that have been of interest to them in the past. In Community Education, the popularity of our Summer Youth Camps bolstered summer enrollments. Spanish classes from beginner through conversational have been hugely popular, along with our classes about travel and our ever-popular ballroom and line dancing classes.
- Professional Development has seen a huge increase in online enrollments. We have concentrated on adding specific online classes to our print catalog that, combined with on-site classes, give our students more options within an area of study to help focus their professional development. Compared to Summer/Fall of 2016, Summer/Fall of 2017 has seen a 98% (112/222) increase in online enrollments with technology classes, Project Management Certification and Data Analysis Certifications being the most popular. (ECD).

ADDENDUM ENTRIES—SOCIAL EQUITY

- Trans Day of Remembrance--the Office of Diversity and Equity, in collaboration with Counseling and Health Services, hosted a Transgender Day of Remembrance event on November 20. Over 50 students, faculty, and staff attended this event in addition to community partners Planned Parenthood and Peace Health. *Providing the conditions and resources that improve educational outcomes and eliminate systemic disparities among all groups.*
- Equity in Hiring--Eleven employees attended this required training for those serving on a screening committee. To date, more than 480 college employees have received the training. *Institutionalize hiring and retention practices that challenge systems of power, privilege, and inequity. Demonstrate improved intercultural competency among employees and students through comprehensive professional development and curricular transformation.*
- Forums: Building a Stronger Community Together--Approximately 100 community members, students, faculty, and staff attended one of the two forums hosted by the Office of Diversity and Equity. A task force was recruited from attendees to develop workshops, trainings, or other events desired by our shared community. The forums were attended by community partners including; Planned Parenthood, League of United Latin American Citizens (LULAC), Washington State University Vancouver, and National Association for the Advancement of Colored People (NAACP). *Providing the conditions and resources that improve educational outcomes and eliminate systemic disparities among all groups*

ADDENDUM ENTRIES—ECONOMIC VITALITY

- In December 2017, the State Auditor’s Office (SAO) completed its audit of the college’s 2016-17 financial statements. At the January 4 exit meeting with SAO staff, the College received a clean opinion with no recommendations. *Progress measured: maximize the college’s return on investment by responsibly allocating available resources. (AS)*

ADDENDUM ENTRIES—ENVIRONMENTAL INTEGRITY

- Facilities Services submitted a major capital project request for the replacement of the Hanna Hall, Foster Hall, Hawkins Hall complex for the 2019-2021 biennium. This request came as a result of thorough research and evaluation of data provided by the State Board of Community and Technical Colleges, and with the help of a talented outside consultant. This project request is the highest scoring project on campus, aligns with the Facilities Master Plan, and will likely yield a score which will place the project in the current funding timeline. The proposed replacement project is a two-story, 40,000 square foot building placed closer to Frost Arts to keep the existing complex functional during construction, and allow space for future development of a performing arts center.” (AS)

Student Success Story

COMPLETION

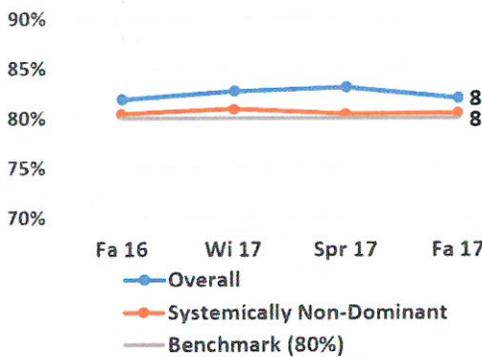

JANUARY 2018

Clark College, in service to the community, guides individuals to achieve their educational and professional goals – including certificate and degree completion – by accomplishing its core theme objectives of academic excellence, social equity,

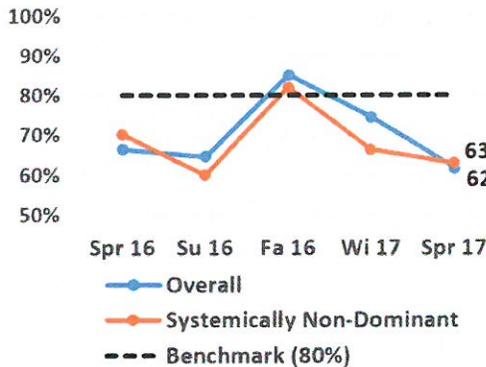

Degree or Certificate-Seeking Full-Time Student Completion Rate Within 3 Years

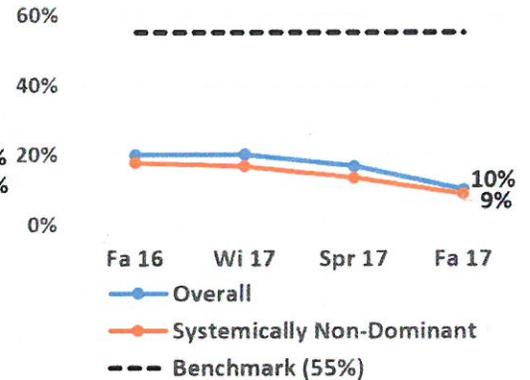

Course Success Rate: Certificate or Degree-Seeking Students

First-to-Second Quarter Retention: Certificate or Degree-Seeking Students

Transfer-Intent Students Completing College-Level Math Within First 4 Quarters

Monthly Highlights

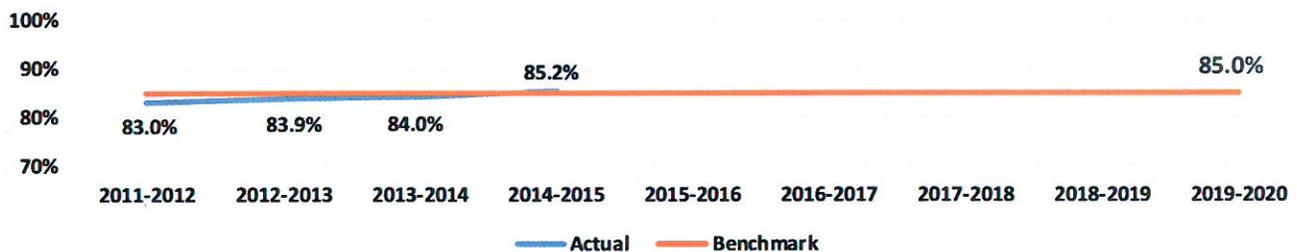

- ◇ On January 5th, the college community came together for an all-college meeting to kick off winter quarter. The college community heard about Clark College's role in increasing mobility for the whole community and how that can impact individuals' lives. For the rest of the day, faculty members worked on creating program maps for each of the degrees and certificates the college offers. Program maps sequence the courses and identify the most relevant general education courses that meet the program's learning outcomes.
- ◇ Two student learning outcomes have been drafted for the advising plan, they are listed below.
 - Students understand they are part of an integrated advising model that includes communicating with faculty through email or during offices hours when they have questions or need clarity along their pathway and in their classes.
 - Students will possess tools to project out their sequenced course schedule, elective choices at Clark as well as other activities and actions that support their goals.

EMPLOYMENT/TRANSFER

JANUARY 2018

Clark College, in service to the community, guides individuals to achieve their educational and professional goals. Through the college's focus on student outcomes, the college aims to connect students to their long-term educational goals. For Clark College students these goals are most often employment and/or transferring to another higher education institution.

Percent of Graduates by Year Who Transfer and/or are Employed within 1 Year of Graduation

Monthly Highlights

- ◇ Career Services launched Symplicity, a Career Services Management System, that currently hosts the college's online Penguin Jobs board. They are currently exploring the functionality and cost of additional licenses and modules to that system that would permit campus-wide use for employer relations development and management.

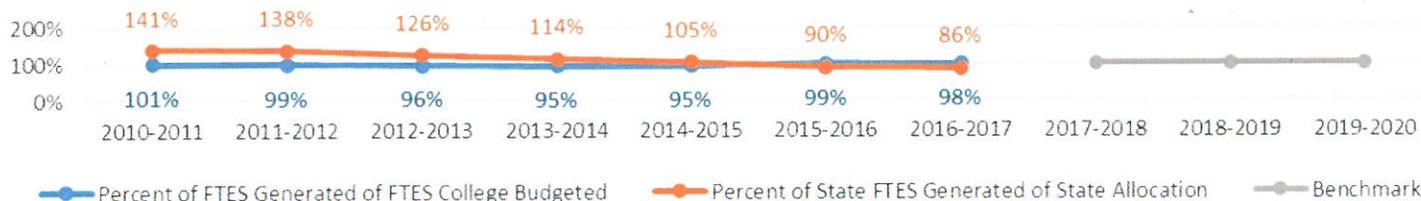

ENROLLMENT

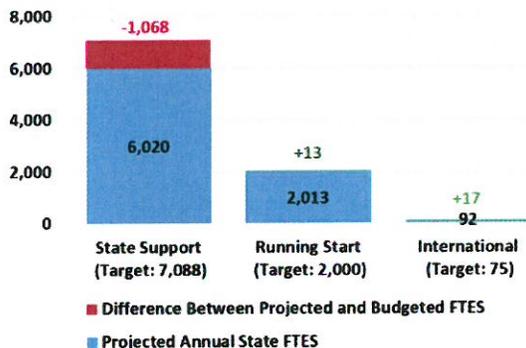

JANUARY 2018

Clark College facilitates student learning by providing programs, services, and conditions that improve the economic well-being of the student, college, and community. Through the college's focus on enrollment and budget to serve its community, the college aims to increase the community's educational attainment by leveraging resources to create and sustain innovations that improve student learning and increase enrollment.

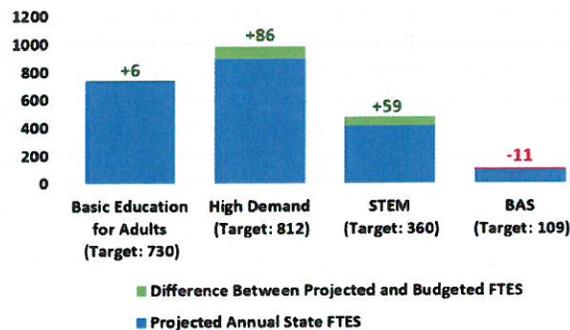

Percent of Full-Time Equivalent Students (FTES) Generated based on College Budget and State Allocation

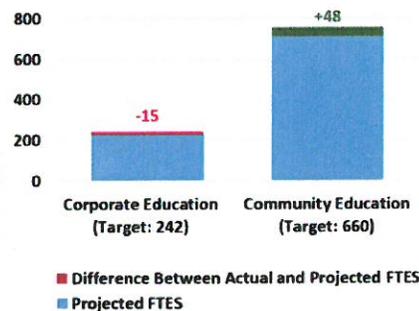

Projected Final Annual FTES Based on Current FTES (Jan 1)

Projected Priority FTES Based on Current FTES (Jan 1)

Projected Corporate and Community Education FTES Based on Current FTES (Jan 1)

Monthly Highlights

- ◇ The college has been working on an environmental scan for a strategic enrollment management plan to be developed. The scan focuses on four populations, high school (including Running Start and recent high school graduates), adult population, potential students (application through successful completion of first term), and continuing students (retention). The work is deliberately complementing the guided pathways design work due to the overlap of scope, (i.e., onboarding and retention). Thus far the findings of the scan show great potential for improvements to be made in increasing the educational attainment of our community and closing the significant equity gaps in education throughout our service area.
- ◇ A subcommittee of Environmental Vitality Council has begun reviewing budgeting best practices. The group has identified a need to establish a clear decision making philosophy on budget decisions, as well as values and principles. The subcommittee has also begun to review and identify ways to increase the usefulness of the college intranet budget pages for increased transparency. In addition, the subcommittee is looking at making some recommendations surrounding open forum presentations of the college budget, funding and how all of the pieces fit together.

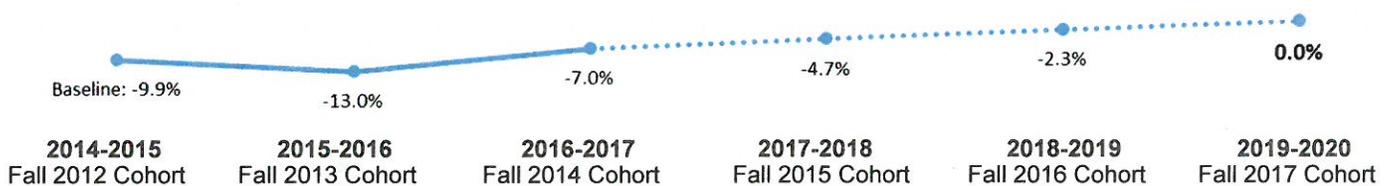

SOCIAL EQUITY

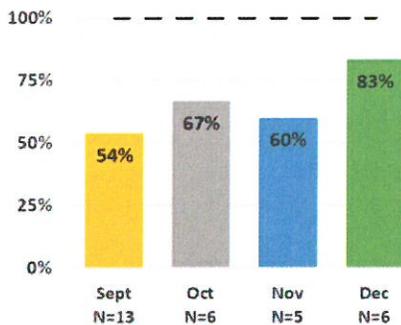

JANUARY 2018

Clark College facilitates student learning by providing the conditions that improve educational outcomes and eliminate systemic disparities among all groups. Two strategies the college has implemented relate to improving employee cultural competencies through professional development and hiring employees reflective of the college's diverse students.

First-Term, Certificate or Degree-Seeking, Full-Time Student Three-Year Completion Rate: Difference Between Systemically Non-Dominant and Systemically Dominant Groups

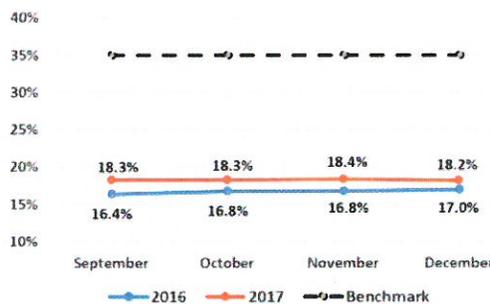

Percent of Full-Time Applicant Pools with At Least 25% People of Color or People with

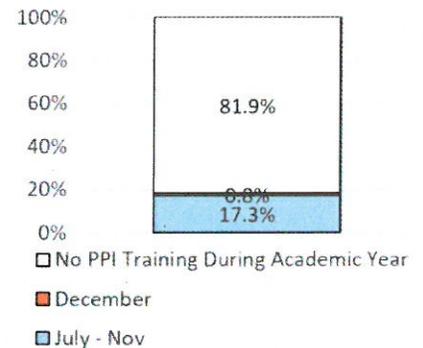

-- Benchmark: 100% of Applicant Pools

Percent of Employees Of Color or Employees with Reported Disability

-- Benchmark: 35% of Employees to Match Student Demographics

Percent of Employees Engaged in Professional Development Opportunities in PPI

Monthly Highlights

- Objectives to increase knowledge regarding the limits of free speech, theories associated with free speech, how competing ideas impact inequities, and the current contradictions in Clark College policies were met. Particularly the impact of injurious speech upon those in systemically non-dominant groups was considered. Assessment of three training sessions were completed.
- On 11/13/17, Instructional Planning Team approved a Power, Privilege, and Inequity course rubric that will be used to select PPI courses for the proposed AA/DTA PPI course requirement. This rubric can be widely used by many programs to identify courses that help students meet a PPI learning outcome.
- Ninety students of color from six high schools participated in the annual Gateways: A Student of Color Open House. This event strengthens the relationship between these students and Clark College, helping college personnel develop services and resources to support diverse student transition from high school to college.

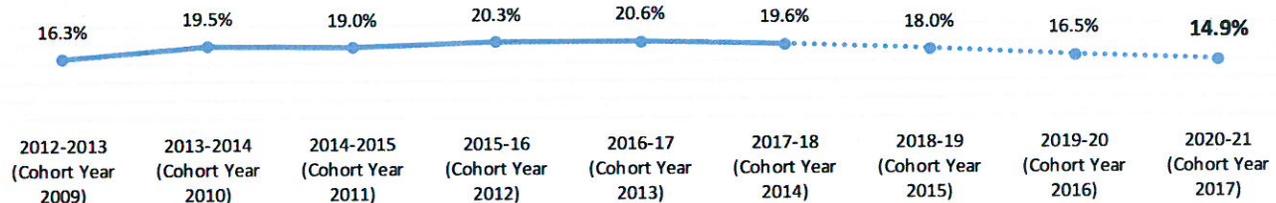

STUDENT DEBT

JANUARY 2018

Clark College facilitates student learning by providing programs, services, and conditions that improve the economic well-being of the students by improving student affordability. Specific strategies to improve affordability are expanding access to and information about financial resources, clarifying career and educational goals, providing pathways to success, improving college readiness, increasing financial literacy, and managing costs.

Student Three Year Loan Default Rate

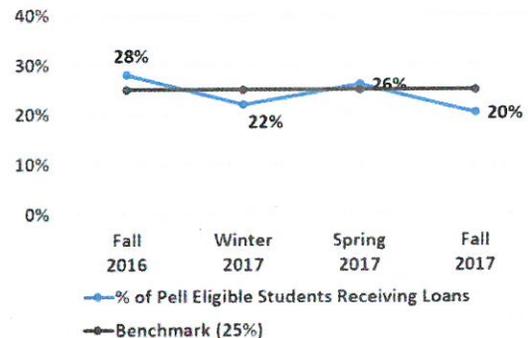

Average Loans Awarded and Received by Students, by Independent/Dependent Status

*Includes Educational Expenses and Cost of Living (Not Living with Parents)

Percent of Pell-Eligible Students Receiving Student Loans (Excluding Parent PLUS Loans)

Monthly Highlights

- ◇ The college has improved student access to public benefits services through enhanced partnership with DSHS. Case managers visit Clark College on a weekly basis to assist any student interested in learning more about these resources.
- ◇ The Financial Literacy Coach conducted individual and group Financial Wellness sessions, introducing students to personal budgeting, banking and credit basics, financial goal setting, and assisting students in the development of action plans. Financial literacy outreach includes presentations to all College 101 sections.
- ◇ Since Fall 2015 every student in the Automotive programs have applied and received funding from Clark Foundation Scholarships, typically \$1,500-\$3,000. This academic year students in the department have received a total of \$29,000.

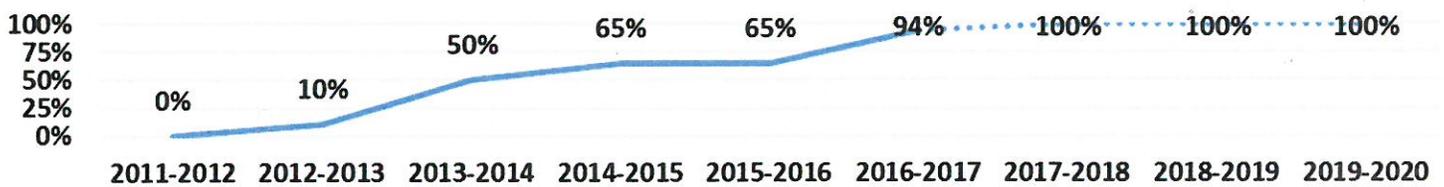

STUDENT LEARNING

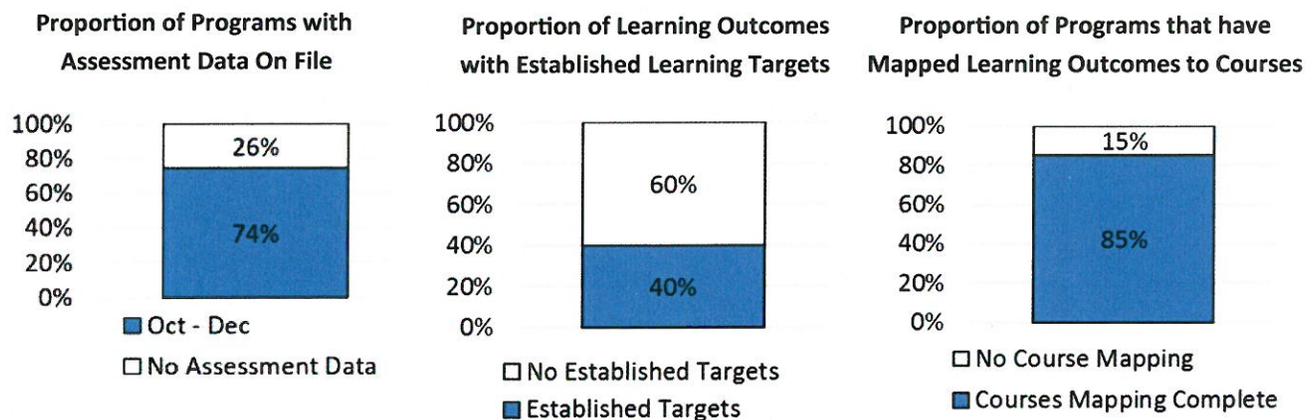

JANUARY 2018

Clark College facilitates student learning by providing the conditions for intellectual growth through scholarship, discovery, application, creativity, and critical thinking. Clark College's degrees and certificates awarded are the result of a culmination of learning. The college aligns its curriculum with learning outcomes and applies evidence to continually advance student learning.

100% of programs have made improvements based on assessment of program learning outcomes

Due to faculty workload, the expectation is that faculty will complete their program assessment work by Sep-

Monthly Highlights

- ◇ A communications faculty member developed a proposal for a communication lab to improve student learning in communications based on a project approved for sabbatical for the fall quarter of 2017. Although Clark offers extensive tutoring for writing, math, business, and sciences, there are currently no such services to improve learning in speech communication. The proposal provides a detailed roadmap for implementing the communication lab.
- ◇ Faculty came together for the Focus on Learning day on January 5th to begin an interdisciplinary discussion for implementing Guided Pathways. Faculty began the day by separating into small groups and providing feedback on program curriculum maps, currently being developed to sequence courses and ensure course choices that meet degree or certificate requirements are relevant to the program learning outcomes. In the afternoon, faculty gathered to learn from each other more about the courses offered in various disciplines and explored interdisciplinary opportunities to align and integrate curriculum.

Clark College - Budget Status Report November 30, 2017

Sources of Funds (Revenues)	2017-18 Budget	Revenues to Date	Difference	% Budget Received
