Clark College Area High School Graduates Class of 2005 One Year Follow-up

A College Enrollment Study is conducted each year for the Washington State Office of the Superintendent of Public Instruction (OSPI) by the Social and Economic Sciences Research Center at Washington State University, in cooperation with the Washington State Board for Community and Technical Colleges and Washington's public baccalaureate colleges and universities. Information in this report is based on data submitted to OSPI from local school districts and matched to National Student Clearinghouse (NSC) records. Adjustments are made to the high school data based on SBCTC enrollment figures.

In the report for the Class of 2003, only the school districts in Area 1 were included. In the report for the Class of 2004, the Area 2 school districts were included in a supplemental report. This Class of 2005 follow-up report includes students from both areas.

Colleges Attended

The percentage of high school graduates from the Clark College area who attended a Washington community and technical college dropped from 53% for the class of 2004 to 50% for the class of 2005. This was due primarily to a decrease in Area 1 schools from 54% to 51% offset only slightly by an increase from 29% to 31% for Area 2 graduates.

Almost all of those Washington 2-year students were enrolled at Clark College or Lower Columbia, as documented in the chart below and on the following page. Since students may attend multiple colleges at the same time the following chart counts these students as one-half (.5) student at both colleges. An additional 23% attended a 4-year public school in Washington and 3% attended a private 4-year school in-state. A total of 76% attended in-state schools. The remaining 24% attended school outside of Washington State, as seen on the following page. Names of all colleges attended by Area 1 and Area 2 graduates can be found in the Appendix.
