

Clark College at Columbia Tech Center

VANCOUVER, 18700 S.E. MILL PLAIN BLVD.

Clark College at CTC is a satellite facility located along the major transportation routes of East Clark County. The location is near the high-tech hub of the county and within short distances to local high schools. The 69,984-square-foot building will contain "smart classrooms," labs for science- and computer-based instruction, offices, study space and a community/business training center – and was designed to meet the Leadership in Environmental and Energy Design Silver level distinction under the Green Building Rating System.
