Welding Technologies - Associates in Applied Technology

Area of Study: Advanced Manufacturing and Mechanical

The Welding Technology program has been updated to provide course work to meet the industry needs of today. With updated equipment found in real-world shops, students will learn to read blueprints, analyze parts, and carry out proper fitting, welding, and inspection using a variety of materials such as steel, stainless steel, aluminum, and titanium. Coursework pairs welding with fabrication skills, processes, and techniques for students to be competitive in the workplace. Enrollment is limited each quarter, so interested students are encouraged to apply as soon as possible. Contact the department for eligibility requirements.

> Free [Tutoring Services](#) are available to support you throughout your degree completion.
