Business Administration – Associates in Applied Science

Area of Study: Business & Entrepreneurship

A path in business administration brings opportunities that vary from owning, operating, or managing a business. At Clark, our students learn methods of maintaining a competitive edge in business through theory and practical learning. Our program allows students to specialize in a particular area of business and learn effective teamwork skills. Students will utilize technology to solve problems and improve workflow, interpersonal skills, and professional workforce behavior. In this program, students will earn a certificate in combination with the AAS degree upon completion. Please see an advisor or the department for specifics.

> Free [Tutoring Services](#) are available to support you throughout your degree completion.
