PHAR 101: A MINI DOSE OF PHARMACY

Are you interested in working in healthcare but unsure which field to focus on? Do you want to work in a pharmacy but are curious about the job duties or work environment? Would you prefer a shorter path to a career in healthcare that still earns competitive wages? This online course is for anyone interested in learning about the exciting career opportunities available for pharmacy technicians. Pharmacy technicians are currently in high demand in the local Portland/Vancouver metro area. They provide critical support in many settings including hospitals, long term care pharmacies, home infusion, and retail locations. Pharmacy technician starting wages range from \$19-25 and trend upwards of \$35 with additional skills and training*.
