**contact Credentials for credit for prior learning (CPL) if you have current certifications: credeval@clark.edu		

**PLEASE INITIAL IN THE SPACES PROVIDED TO CONFIRM YOU HAVE READ AND ARE AWARE OF THE FOLLOWING
ADDITIONAL REQUIREMENTS FOR PROGRAM ENTRANCE**

Pharmacy Technician Standard Technical Requirements

_____ Physical and mental/emotional requirements: ability to work in a fast-paced environment, often on your feet for 4-8 hours continuously, as well as bending, reaching and pushing carts with equipment for extended periods of time; Pharmacy Technicians are typically required to carry and lift up to 30 lbs.; use of hands for fine, repetitive manipulation of small objects; ability to utilize various Pharmacy equipment and have basic computer proficiency; keyboarding at 35 words-per-minute with 5 or fewer errors on a 5-minute timed test; must possess excellent customer service and communication skills; the ability to work with diverse patient populations; ability to maintain professional composure around patients that are sick and/or terminally ill.

_____ Working conditions: positions in pharmacy and/or clinical settings may require working flexible schedules, including nights, weekends and holidays; potential exposure to chemical hazards; ability to wear gloves and other personal protective equipment (mask, coat, etc.) for extended periods of time. It is strongly recommended that all applicants closely observe the activities of those practicing in the profession to understand the technical requirements of the program more fully.

_____ To participate in this program, students must be able to perform standard technical requirements as described above. Admission to the program may be contingent upon the applicant verifying his or her ability to perform the established technical standards of the program with or without reasonable accommodation (Please reference the disability statement in the online Pharmacy Technician handbook for additional information).

_____ The program requires a 30 to 40 hours-per-week commitment from students for classes and clinical rotations (not including outside study time or travel time to the clinical site). Reliable transportation is an important consideration as clinical facilities may require driving significant distances (up to approximately 50 miles distance from Clark). Clinical assignments may be offered at times other than traditional clinical hours, such as evenings (other than Monday-Friday, 5:00am-7:00pm) and/or weekends.

_____ To participate in the clinical externship, clinical sites may require proof of current immunizations. Students should consider starting the Hepatitis B series and titer as soon as possible as this can take approximately seven months to complete. Please see the program web site for details on immunizations and medical clearance requirements.

_____ Students enrolled in clinical courses are required to complete a comprehensive Criminal Background Check (as required by the clinical sites). Students should be aware that the clinical site may deny the student access and the student may not be able to complete their healthcare program based on the results of a background check.

_____ Students may be required to complete a drug screen before beginning their clinical experience at the request of the clinical site. Drug screening costs are the responsibility of the student (approximately \$37). If the clinical site finds the student's drug screen to be unsatisfactory, the student may be dismissed from the program (see substance abuse policy).

_____ Health Insurance: proof of health insurance may be required by the clinical site. Keep in mind that you are responsible for your own health and testing requirements should an accident or injury occur. Clinical sites are not responsible for any injury that occurs during externship.

_____ Washington State Law [WAC 246-901-030(2)] requires that students have completed one of the following to be eligible for selection into the Pharmacy Technician program: high school graduation, GED completion, or higher U.S. degree conferment.

>>> REQUIRED ATTESTATION: Have you earned a high school diploma, GED, or higher U.S. degree? Yes No

If yes, which did you complete? _____ Date completed: _____

_____ I have reviewed the program requirements on the Clark College website. I am aware of entrance requirements, selection processes, required immunizations, criminal background check requirements, and all other specific program information. I am aware that if selected into the program, clinical sites may require drug screening. I am aware that completion of pre-entrance requirements does not guarantee entrance into the program and I understand that additional preparation may be needed for final program selection.

_____ I understand that any misrepresentations or false statements on this application will be subject to the Clark College and program code of conduct disciplinary procedures.
