2010-11 Career and Technical Student Follow-up Program with 3 or Fewer Respondents

Computer Graphics Technology

An annual follow-up of students in the Career and Technical programs has been completed each year since 2002 by the Office of Planning and Effectiveness. The purpose of the report is to collect student's feedback about the college and their specific career and technical program to support continuous improvement efforts. This survey is the only way to provide consistent data at the college and department level regarding student employment and wage ranges.

Only 1 student responded from your program. While this is not representative of the entire department or students thereof, the information we can provide without violating student anonymity may provide indicators of what to look at more carefully for program review and outcomes assessment activities.

Current Employment			
Status	Position title / description	City	State
Graduate	Office Assistant	Vancouver	WA

How well do you feel your education at Clark College prepared you for employment in the field of your choice?	
# of respondents	Response
	Well Prepared
1	Prepared
	Not adequately prepared
