

Need a measles vaccine?

We've got you covered.

Legacy Medical Group is offering free MMR vaccinations, no insurance required.

Why?

- An outbreak of measles infection has been declared in SW Washington
- Measles spreads easily and can be dangerous for young children and pregnant women

Who?

- Children 1 year and older who have not had their first measles vaccine
- Children 4 years and older who have not had their second measles vaccine
- Adults under age 63 who are unsure if they had the measles and have not had at least 1 measles vaccine

Some people should not get the MMR vaccine or should wait. Consult your provider before getting the vaccine if any of these apply to you:

- Certain conditions, medications, or treatments that may reduce your immune system
- Pregnant women and those trying to become pregnant in the next month

When?

1 p.m.–7 p.m.

Friday, March 1

Friday, March 8

Friday, March 15

Friday, March 22

Where?
