FOCUS ON THE FUTURE: AMERICA'S VANCOUVER PARTNERS WITH CLARK COLLEGE

Left: YWCA Clark County is a long-time partner of Clark College. YWCA Executive Director Kathy Kniep (left) greeted Clark College Foundation Board member Jan Oliva at the 2009 State of the City address. Right: Clark College was well represented at the 2009 State of the City address. Trustees Jack Burkman (pictured), Addison Jacobs, and Rhona Sen Hoss attended, as well as Vice President of Administrative Services Bob Williamson and Executive Director of Communications and Marketing Barbara Kerr.

Even as Clark College is embracing the future during its 75th anniversary, Vancouver Mayor Royce Pollard looked to the college as he focused on the city's future.

In his State of the City address on Feb. 26, Mayor Pollard spoke enthusiastically about the city's work with Clark College and other partners within the region. The college was also referenced in a video about the growth that has taken place in Vancouver in the past 20 years

In announcing new jobs at SEH America, the mayor mentioned that Chihiro Kanagawa, president & CEO of Shin-Etsu Chemical Company, the parent company of SEH, plans to donate "up to \$1 million to pay for the design and construction of the Japanese garden at Clark College." The mayor added: "Mr. Kanagawa wanted to give us this gift

to express his gratitude for the community's support of his company."

Since seeking feedback from the college community last fall, the college has continued to work with the City of Vancouver on this project. The college received an enthusiastic response from the college community, which favored scheme B as the design for the garden, and the college is still an enthusiastic partner in the project.

It appears that construction could begin in late June 2010 with completion in late fall of 2010. That would enable the college to host a ribbon-cutting ceremony in April 2011 to coincide with the blooming of the cherry trees and the college's annual Sakura Festival.

continued on next page.

FOCUS ON THE FUTURE: AMERICA'S VANCOUVER PARTNERS WITH CLARK COLLEGE

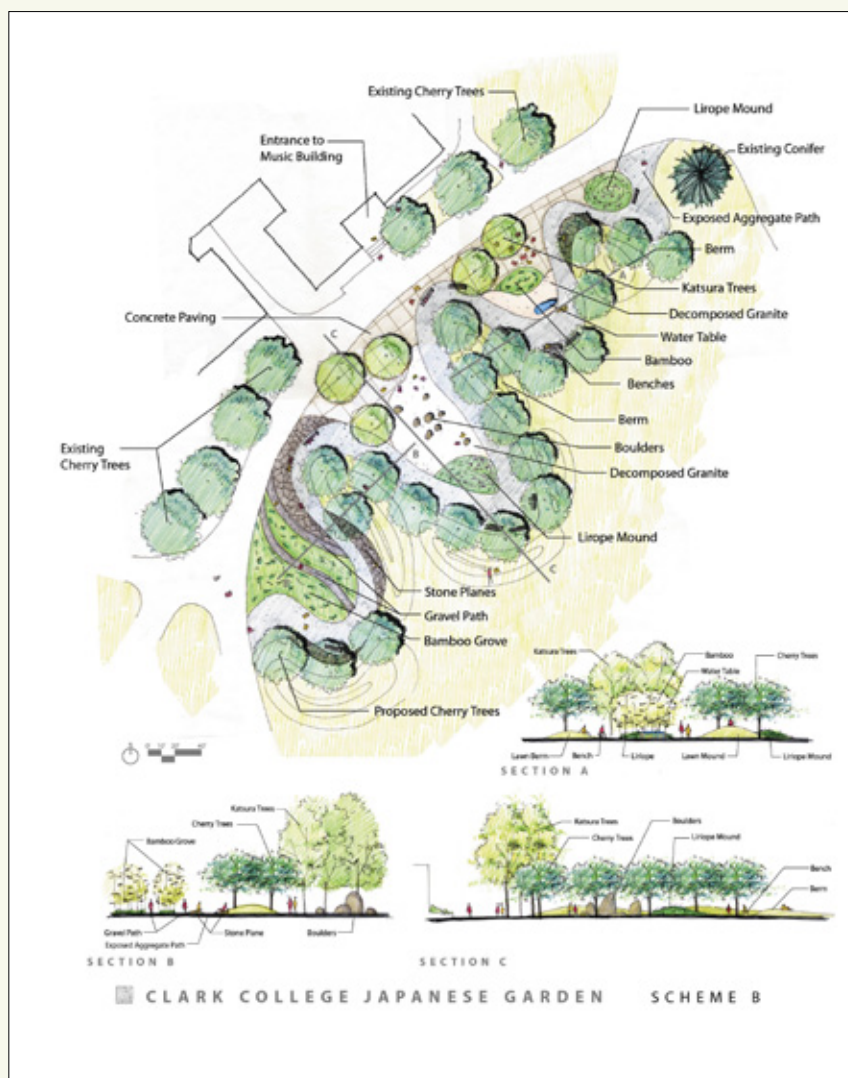

Left: Vancouver Mayor Royce Pollard delivered the 2009 State of the City address on Thursday, Feb. 26. Right: After the address, guests learned more about plans for Vancouver's waterfront. Bottom: Feedback from the college community favored scheme B for the proposed Japanese garden at Clark College.

FOR MORE INFORMATION:

Information about the proposed Japanese garden is available on the Clark Web site:

http://www.clark.edu/special/japanese_garden/index.php

The full text of the mayor's speech (including a link to the video mentioned above) is available on the City of Vancouver's Web site: <http://www.cityofvancouver.us/stateofcity.asp?menuid=10462&submenuid=21343>

THE FUTURE IS GREEN: CLARK TAKES PART IN SECOND NATIONAL TEACH-IN ON GLOBAL WARMING

Left: Students were able to measure their carbon footprint online during the sustainability careers and lifestyle fair as part of the National Teach-In on Global Warming. Right: Members of the Penguin Nation made green commitments to reduce their carbon footprint during the National Teach-In on Global Warming.

On Thursday, Feb. 5, Clark College joined more than 1,000 other educational institutions, community groups, and faith-based organizations from across the country to participate in the second National Teach-In on Global Warming.

Sessions were held throughout the day focusing on issues and solutions to global climate change and related issues regarding sustainability, including peak oil, ecotourism, women and global climate change, and green collar careers.

A new addition to this year's event was the participation of the Vancouver Planning Commission, which held a panel discussion about county-wide efforts at sustainable development. The session brought more than 50 community members to Clark College. The event was capped with a viewing of the documentary "Everything's Cool" and a facilitated discussion led by Paul Thiers, associate professor of political science and director of the program in public affairs at WSU Vancouver, and Desiree Hellegers, associate chair of the department of English and director of the

Center for Social and Environmental Justice, also of WSU Vancouver.

Many students attended one or more sessions as part of class assignments—and many were surprised by what they learned. "I'd never realized just how serious the issue was until I saw Adam's photos," said a Geology 102 student who attended the session entitled, "Studying Climate Change Using Repeat Photography," led by Adam Mosbrucker. "The extreme glacial changes are something that should not be taken lightly." An environmental biology student who attended health and physical education professor Lisa Borho's seminar on bicycle and pedestrian travel noted, "I learned a fascinating point: that humans were created to have a relationship with nature and that we need time in the outdoors to live and thrive—it's good for our well-being."

More than 200 participants in the day's events made personal commitments to change their ecological footprints after calculating them online during the Sustainability Careers and Lifestyles Fair, held in Gaiser Student Center. Local

THE FUTURE IS GREEN: CLARK TAKES PART IN SECOND NATIONAL TEACH-IN ON GLOBAL WARMING

Right: The Vancouver Planning Commission scheduled its February “First Tuesday” meeting for Thursday, Feb. 5 to coordinate with the National Teach-In on Global Warming. The commission held a panel discussion about county-wide efforts at sustainable development. Panel participants were (from left) Nick Phillips, City of Vancouver urban planner (not pictured), Timothy Buckley, principal and founder of Greenstone Architecture, Jill Sughrue, sustainability consultant and coach, of Sustain NW, and Gary Bock, Vancouver Watersheds Council project manager. Left: Local businesses and organizations—more than 30 in all—participated in the career and lifestyle fair on Feb. 5.

businesses and organizations—more than 30 in all—participated in the fair, bringing information about their products, services and businesses to members of the Clark community. “All I can say is, it is a good thing everyone on Earth doesn’t live like me—or we would have run out of Earth a long time ago,” commented a student.

“Participating in the planning for our teach-in on global warming was an incredible experience,” said Dr. Charlene Montierth, professor of geology and co-chair of the teach-in planning committee. “The generosity of the college, both at the institutional and the individual level, made the event successful. It’s a lot of fun to work with people on a project they are passionate about, and educating our students and community about sustainability issues and the challenges we face around climate change excited passion for many people.”

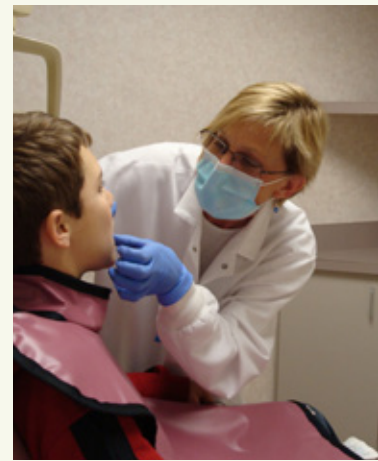

“It was exciting to be part of a national event of this caliber,” said biology professor Kathleen Perillo, who served on this year’s planning committee. “On the day of the teach-in, it was so inspiring to all the students attending the lectures and visiting the booths at the green careers and lifestyles fair. I had my own students turn in reports of what they learned

at the event; upon reading them, I was extremely convinced that the global warming teach-in was a great success.”

Organized nationally by the National Teach-In Committee, the event is designed to encourage participants to address the immediate and urgent challenges posed by climate change and empower them to engage personally in finding solutions that work. “I believe the way this event was most successful was in the way it showed how simple it is to live a green lifestyle,” noted one of Montierth’s students. “I’ve often heard people say that it’s too much work to change toward green, but this event gave the knowledge and tools to make the switch with ease.”

DENTAL HEALTH DAY HELPS SPREAD SMILES ACROSS CHILDREN'S FACES

Left: First- and second-year dental hygiene students are ready to provide treatments to Vancouver area children. From left: Skye, Jennie, Audrey, Aileen, Joel, and Megan. Middle: Adjunct dental hygiene faculty member Lori Howell (right) talks with Vancouver Mayor Royce Pollard about Children's Dental Health Day. Right: Dental hygiene faculty member Brenda Walstead takes radiographs (x-rays) for one of the 301 children who were seen on Feb. 7.

On Saturday, Feb. 7, faculty and students in the Clark College Dental Hygiene department partnered with the Clark County Dental Society, Clark County Public Health, the SW Washington Free Clinic Dental Van, the Greater SW Washington Dental Hygienists' Association, and the Washington Oral Health Foundation to sponsor the third annual Children's Dental Health Day.

A combination of treatments—both preventative and restorative (fillings)—were provided by volunteer dentists, dental hygienists, dental assistants and students (including 32 dental students from OHSU, 52 dental hygiene student from Clark and 30 dental assisting students from the Clark County Vocational Skill Center). A total of 301 children were seen, resulting in 497 restored surfaces (fillings), sealants on 334 teeth, pulp therapy to 30 teeth, 42 tooth extractions, and 145 children receiving fluoride varnish. The value of the treatment was more than \$70,000.

Left: A friendly face—none other than Ronald McDonald—helps pass the time while waiting to receive treatment. Middle: Dr. Richard Mielke (left) examines a patient during Children's Dental Health Day. Right: Second-year students Kristen (left) and Sam apply sealants.

EMBRACING THE FUTURE THROUGH LEADERSHIP: BOB WILLIAMSON JOINS CLARK COLLEGE

As Clark College continues to celebrate its 75th anniversary, it has welcomed a new member to its leadership team.

Bob Williamson has joined the college as vice president of Administrative Services.

In his role at Clark, Williamson is responsible for fiscal, facility, security, and information technology management. His responsibilities include the annual and capital college budgets, facility and real estate management and planning, fiscal services, information technology and computing services, emergency planning, safety and security, and auxiliary services (including bookstore, printing, copy machines, non-instructional food vendors, events services and mail services).

Williamson brings more than 20 years of leadership experience to his role at Clark College. Most recently he served as administrative services manager and deputy director of Clark County Public Health. He graduated from Fort Steilacoom Community College in Tacoma with an associate of arts degree; he went on to earn

Bob Williamson joined Clark College as vice president of Administrative Services in January 2009.

bachelor's and master's degrees in political science at Western Washington University.

Clark College President Robert K. Knight, speaking of Williamson and Associate Vice President of Planning and Effectiveness Shanda Diehl (featured in the Jan. 5, 2009, issue of Clark 24/7), said, "Thinking strategically in support of our students is critical to our success. Shanda Diehl and Bob Williamson are outstanding professionals. They bring experience, thoughtfulness and a focus on our students that will help

us work through these challenging economic times and also stay focused on a long-term vision of a bright future for our college and our community."

Williamson said he's proud to serve the community in his new role at Clark College. "I have had the fortune of working with Clark College as a partner in my previous work experience in the county," he said.

"It is exciting to now be part of an institution that plays such an important role in the vitality and livability of our community."

CROSSING CULTURAL BOUNDARIES

Left: Interculturalist Sue Shinomiya explains the cultural iceberg model, noting that 10 percent of our behaviors lie “above the surface”—that is, observable to others—while 90 percent of the meanings behind our behavior lie below. Right: (from left) Counselor and Professor Judy VanPatten, guest speaker Sue Shinomiya, and International Recruitment Manager Chanda Kroll stop for a photo following the Mental Health Mondays presentation on Feb. 23.

Interculturalist Sue Shinomiya led a discussion on “Crossing Cultural Boundaries” at Clark College on Monday, Feb. 23 as part of the ongoing Mental Health Mondays series sponsored by the Clark College Counseling Center.

Shinomiya is a consultant, corporate trainer and author with more than 20 years experience in intercultural relations. She introduced both the Cultural Iceberg model and the Developmental Model of Intercultural Sensitivity (DMIS) to attendees, providing frameworks for understanding cultural differences and levels of understanding. “The journey to being more intercultural is not static,” Shinomiya noted. “It shifts and changes as we encounter other cultures.”

She also discussed how the Golden Rule does not always work in intercultural interactions. “The Platinum Rule—do unto others as they would like or prefer to have done

for themselves—is more appropriate for intercultural communication and interaction,” Shinomiya explained. “What will the other person deem respectful?”

In addressing cultural differences ranging from the treatment of time to what is considered an appropriate gift, Shinomiya’s underlying message is relevant for our current age of globalization: “In working with global teams, don’t assume everyone has the same understanding,” of a concept or idea, she said. She also cautioned, “It is important to recognize the consequences of ignoring deep-seated meanings,” of a particular custom, assumption or value.

During a question-and-answer session following her presentation, Shinomiya encouraged students to look for the variety of resources available to help them understand cultural differences—including online, through the library and Clark’s international students program.

CLARK MUSICIANS TRAVEL SOUTH, TAKING SOUNDS OF JAZZ TO MEXICO

Left: The Clark Jazz Ensemble listens intently to adjudication panel member Ruben Alvarez, who discussed the finer points of Afro-Cuban rhythm with the group. Right: Alvarez grooves with Clark trombonist Jack Wilson—who was recognized as an outstanding soloist during the Puerto Vallarta Jazz Festival, Clinic and Workshop—during the ensemble’s evening performance in the Los Arcos amphitheater.

The Clark College Jazz Ensemble travelled over the President’s Day weekend to perform in the first Puerto Vallarta Jazz Festival, Clinic and Workshop, held Feb. 15 – 17 in Puerto Vallarta, Mexico.

On Saturday morning the band performed for a panel of internationally recognized jazz educators and jazz artists for clinic and critique. Among the esteemed panelists were nationally recognized jazz educator and president of the Jazz Education Network, Mary Jo Papich, and internationally acclaimed Latin percussionist, drum set artist, composer and producer, Ruben Alvarez. “Impressive group! Your great ears are evident as is your passion for playing,” commented Papich. “I am thrilled that your fine ensemble is among the first to perform at the Puerto Vallarta Jazz Festival—you are a credit to your school, city, and state!” Alvarez also had positive remarks for Clark’s group, saying, “This is the way it’s supposed to be done!”

Following the critiqued performance, Alvarez worked with the band for over an hour, providing insight on proper performance practice for Latin, Brazilian, and Afro-Cuban rhythmic techniques. “Rarely does a group receive such comprehensive attention in a jazz festival situation as the Clark Jazz Ensemble did in Puerto Vallarta,” said Clark College Director of Bands Rich Inouye. “Mr. Alvarez really liked the band and the rhythmic and ensemble concepts he provided to the group during the clinic were invaluable

lessons that our students will take with them for the rest of their lives.”

Later in the evening, as part of the festival, the ensemble was invited to perform at the historic Los Arcos amphitheater on Puerto Vallarta’s famous Malecon for an audience of more than 1,200 people. The highlight for the evening was when Alvarez joined the group on conga drums on a Salsa arrangement of “Peanut Vendor,” bringing the audience to their feet.

On Sunday, the ensemble was invited to perform in the gazebo located in Puerto Vallarta’s Plaza Principal located across from Palacio Municipal to an extremely receptive Sunday afternoon audience of 300. The Clark Jazz Ensemble was presented a certificate of recognition from the Puerto Vallarta Director of Cultural Affairs, Wally Lobatto, on behalf of the Mayor of Puerto Vallarta, Francisco Javier Bravo Carbajal. Following Sunday afternoon’s performance, the jazz festival concluded with a traditional Mexican fiesta for all festival participants where six of Clark’s ensemble members were presented with “Outstanding Jazz Soloist” awards:

- Brandon Battey, tenor saxophone;
- John Burrell, lead trumpet;
- Alex Isackson, piano;
- Vernon Jones, trumpet;
- Aaron Piel, drums; and
- Jack Wilson, trombone.

EMBRACING THE FUTURE: CLARK COLLEGE 75TH ANNIVERSARY SCHOLARSHIPS

In celebration of Clark College's 75th anniversary, two new scholarships are being offered for the 2009-2010 academic year. One scholarship will be awarded to an incoming Clark College student, and one scholarship will be awarded to a continuing Clark College student.

Each recipient will receive a \$3,000 scholarship toward tuition for one year and \$750 in books and supplies at the Clark College Bookstore. Scholarship recipients must take a minimum of ten credits per quarter. Scholarship and supplemental funds will be paid quarterly.

The scholarships are made possible through donations provided by Arnerich, Massena & Associates, Inc. in support of the college's diamond anniversary.

Application forms are available in Microsoft Word and interactive PDF format on the Clark College Web site.

THE DEADLINE FOR APPLICATIONS IS FRIDAY, APRIL 10, 2009. SCHOLARSHIP RECIPIENTS WILL BE ANNOUNCED IN MID-MAY.

Clark College President Robert K. Knight said, "Throughout our anniversary year, we have been dedicated to preserving the past, honoring the present and embracing the future. I can't think of a better way to embrace our future than by a scholarship which can literally change someone's life, enabling them to make a positive difference in our region for years to come."

PINNING CEREMONY RECOGNIZES ACHIEVEMENT IN DENTAL HYGIENE EDUCATION

First-year dental hygiene students received their pins, denoting the development of their clinical skills and ethics training to allow them to treat patients under the supervision of dental hygiene faculty. The annual ceremony took place Feb. 18, 2009.

The accomplishments of 25 first-year students in Clark's dental hygiene program were recognized during the annual pinning ceremony, held Feb. 18, 2009.

Students who received their pin entered the dental hygiene program in fall quarter 2008. In this short time, they have developed clinical skills to be considered safe beginners. They have also just completed and passed a dental hygiene course titled "Ethics and the Profession." This course introduced the students to basic ethical principles, ethical problem solving methods, the Code of Ethics of the American Dental Hygienist Association, and Washington state laws applicable to the practice of dental hygiene.

These students are now ready to begin treating patients from the community in Clark College's clinic under the supervision of dental hygiene faculty. Receiving their pin is a major accomplishment for members of this class as they continue their educational journey toward becoming licensed dental professionals.

PENGUINS CUT THE ICE IN ANNUAL LECTURE DEMONSTRATION

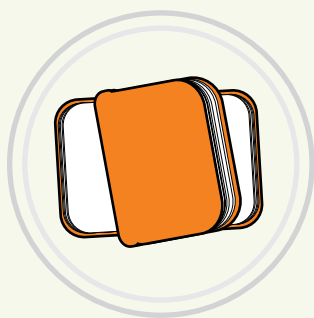

Left: (from left) Culinary Arts students David Anderson, Jeff Bruenderman and Tarlene Barfield pose for a photo with their ice creation. Middle: Paul Durazo (left) and Max Hamilton aren't afraid to get up close and personal with their ice sculpture. Right: (from left) Josh Kovac, Leanne Lamping and Martin DeLeón apply the techniques and instruction provided by professional ice sculptor Christopher Huessy.

Students in Clark College's culinary arts program received a lecture demonstration from ice sculptor Christopher Huessy on Feb. 18-19.

Huessy, a sculptor for Professional Ice Carving of Gladstone, Ore., has more than 25 years experience and competed in the ice carving competition at the Nagano Winter Olympics in 1998. Under his direction, teams of students carved six 300-pound blocks of ice into such shapes as penguins, fish and a "cool" poker hand—four of a kind, all aces.

"The main advantage of the ice carving unit is that it allows our students to get hands-on experience," said Culinary Arts Professor Larry Mains. "They actually get to carve 300-pound blocks of ice. Some culinary programs might demonstrate ice carving, but the students seldom have the opportunity to get involved and carve...When seeking employment in country clubs, luxury hotels and fine dining establishments, a student with a skill such as ice carving can have a definite advantage over other candidates."

DISCOVER A NEW WORLD THROUGH CLARK COLLEGE'S DISCOVERY BOOK CLUB

Books to inspire thought, discussion and passion are the focus of two book club discussions to be held this spring as part of Clark College's Discovery Book Club.

Sponsored by Clark College's Cannell Library, the Discovery Book Club has selected two books for reading and discussion during spring quarter 2009:

- April 30: "Memoirs of a Survivor" by Doris Lessing. The discussion leader will be Interim Dean of eLearning Ann Virtu Snyder.
- May 28: "White Like Me" by Tim Wise. Discussion leaders will be Women's Studies Professor Dian Ulner and Director for Equity and Diversity Leann Johnson.

Book club discussions are held from 4:30 p.m. – 5:30 p.m. in the Cannell Room (room 101) in the Cannell Library on Clark's main campus. The book club is free and open to all members of the college and community. For further information, contact the Cannell Library at 360-992-2472.

APPLICATION DEADLINES FOR CLARK COLLEGE FOUNDATION SCHOLARSHIPS DRAWING NEAR

Pharmacy Technician Program Director Dawn Shults (center) with scholarship recipients and pharmacy tech students Thien Tran (left) and Roxanne Rettinger (right).

With forms to fill out, essays to write, and reference letters to gather, now is the time for students to start working on their applications for Clark College Foundation scholarships.

Applicants for foundation scholarships should typically have a minimum 2.5 cumulative GPA, be full-time students next year (2009-2010), and submit complete applications by the **April 10** deadline in order to be considered. Some scholarships are only available for specific majors, but there are many that are open to students of all majors.

Transfer scholarships are also available to Clark College students graduating during the 2008-2009 academic year. Applications for these scholarships are due **May 1**. Scholarship funding is available for students of any major who are transferring to WSU Vancouver, and also for business, journalism, broadcast communications, English, and nursing majors.

Students can go online to www.clark.edu/scholarships for a list of available scholarships, criteria and deadlines. Complete application information including instructions and recommendation forms are located under the “Clark College Foundation Scholarships: 2009-2010” heading. Students will also find tools and resources here to help them complete their materials.

“A college education is an investment in a bright future and scholarships are critical for making college affordable for many students,” said Clark College Foundation President/CEO Lisa Gibert. “We are grateful to the countless donors who help Clark College students achieve their education dreams with generous donations toward scholarship funds.”

For more information on scholarships, contact the Financial Aid office at 360-992-2582, or visit www.clark.edu/scholarships for applications and deadline information.

IN MEMORIAM: ERIK ANDERSON

Former Clark College instructor and cross country and track and field coach Erik Anderson died Thursday, Feb. 19, 2009.

Erik graduated from Clark College in 1994. As a student, he competed in both cross country and track and field events. He rejoined the Clark community in 2000 as a health and physical education instructor and coach. During his time at Clark, Erik received four nods as the Northwest Athletic Association of Community Colleges (NWAACC) coach of the year—twice for women's cross country (2002 and 2003) and twice for track and field (2001 and 2003). Under his leadership, Clark's women's cross country team won the NWAACC titles in 2002 and 2003; the track and field team won the NWAACC title in 2003. Anderson, who taught physical education, was also honored for excellence in teaching as an Exceptional Faculty Award recipient for 2003-2004.

Erik left Clark in 2004 to coach and teach at Spokane Community College (SCC), where he served as head men's and women's cross country coach. At SCC, he has continued his legacy of excellence in coaching, garnering NWAACC coach of the year honors annually from 2004 to this past fall (2008).

"Erik was a wonderful person and indeed loved by his students and admired by his peers," said Lori Jimerson, fiscal specialist at Clark College. "Long before our current use of the phrase, Erik was always 'all about the student.' It is saddening to know that we will all miss the sort of presence Erik brought."

Erik maintained his connection with Clark College over the years, including participating in the annual K-Rod Run in memory of former student and award-winning track star Kalani Rodrigues, whom Erik recruited to Clark.

A memorial run/walk was held in Erik's honor at the Clark College/Hudson's Bay track at 6 a.m. on Wednesday, Feb. 25. Clark faculty, former teammates and friends, including members of SCC's cross country team who traveled to Vancouver for the event, participated by walking, running or jogging for 14 minutes 52 seconds—Erik's time on the very same track where he broke 15 minutes for a 5K run as a competitor for Clark. "It makes one realize just how much one individual can reach out and positively affect so many others in a community," said biology and health occupations instructor Steve Woodley, who coordinated the memorial run.

Former Clark College health and physical education instructor, cross country and track and field coach Erik Anderson died Feb. 19, 2009. Anderson, who recruited Kalani Rodrigues to Clark, was the first-place finisher in the inaugural K-Rod Run in August 2005.

UPCOMING EVENTS

For additional information, see the activities calendar on the Clark College Web site: www.clark.edu/news_events/college_calendar/
(Unless otherwise noted, all events take place on the Clark College main campus. If you need accommodation due to a disability in order to fully participate in an event, contact the Disability Support Services Office at 360-992-2314 or 360-992-2835 (TTY), or visit Gaiser Hall Rm. 137.)
