

Central Park: The culinary program at Clark College recently received a \$1,000 grant from the Wine and Food Society of Clark County. The funds will help pay for students to enroll in Clark's culinary programs during the summer term, allowing the students to complete the program sooner and enter the work force earlier. "Often, students do not receive financial aid for summer term if they are attending the other three quarters. This places a financial burden on those who would otherwise like to attend during the summer term," said Shirley Schwarts, special projects manager for Clark College Foundation.
